NURSE-MIDWIFERY (NM TRACK), BSN TO DNP DEGREE

The Nurse-Midwifery track is a 75-credit hour curriculum combining academic preparation with clinical experiences for the independent health care management of women and newborns that acknowledges the family's importance. Students are prepared to provide holistic and individualized care to women throughout the lifespan, from menarche into and including menopause, while implementing the midwifery model of care. This is an online program with required on-campus and virtual immersions. Our program is committed to the education of nursemidwives in a unique Christian environment. Enrolling diverse and qualified students that embrace diversity, equality, and inclusion and who will focus their service on caring for vulnerable populations is a priority.

Graduates from the nurse-midwifery program are eligible to take the midwifery national certification examination offered by the American Midwifery Certification Board (AMCB). The program of study conforms to educational guidelines from the Texas Board of Nursing, The Essentials of Doctoral Education for Advanced Nursing Practice (AACN, 2021) and the American College of Nurse Midwives (ACNM), Accreditation Commission for Midwifery Education (ACME). The nurse-midwifery program is fully accredited by the ACNM Accreditation Commission for Midwifery Education (ACME)
