The Robbins College of Health and Human Sciences at Baylor University was established in May 2014, bringing together academic units at the University that share a common purpose—increasing health and quality of life.

These academic units include: the Department of Communication Sciences and Disorders, the Department of Human Sciences and Design, the Department of Health, Human Performance, and Recreation, the Department of Occupational Therapy, the Department of Physical Therapy, the Department of Public Health, and a number of Army-Baylor programs. Together, these units promote a team-based approach to transformational education and research, establishing interdisciplinary research collaborations to advance solutions for improving quality of life for individuals, families, and communities.
