

MEDICAL HUMANITIES

The Medical Humanities Major is intended primarily for undergraduate students entering health care professions. The purpose of Medical Humanities is to provide these students with an interdisciplinary humanities curriculum designed to foster faith and spiritual formation; an understanding of the complexity of health and healing; and respect for the cultural and pluralistic diversity in the University, society at large, and the healing arts. In its purpose, the Medical Humanities program maintains a strong commitment to the Christian heritage and reflects Baylor University's broader mission statement that affirms "...the value of intellectually informed faith and religiously informed education..." in an "...environment that fosters spiritual maturity, strength of character, and moral virtue."

Medical Humanities (MH)

MH 1303 Freshman Academic Seminar: Medicine, Meaning, and the Patient/Physician Relationship (3)

Introduces first-year students to the world of academics and the scholarly community through exploration of the major themes intrinsic in the physician/patient relationship. Emphasizes critical inquiry and thinking, research, writing, and problem solving.

MH 1331 Introduction to Medical Humanities (3)

Introduction to the interdisciplinary and wide ranging field of medical humanities, its subjects and scope, and the way in which it can expand and enrich the experiences of patients and practitioners

MH 1V9R Research (3)

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

MH 2301 Christian Spirituality and Health Care (3)

An historical framework for Western spiritual traditions, especially the Christian tradition, stressing the relationship between Christian spirituality and healing. (For students interested in Medical Humanities.)

MH 2V9R Research (3)

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

MH 3300 Visual Arts and Healing (3)

Pre-requisite(s): Completion of MH 1331 with a B or better or consent of the instructor

An overview of the connections between visual art, healing and health care, the role of imagination and creativity in medicine, including the critical viewing of art, class discussions, experiential learning, and a service-learning project. This course fulfills the College of Arts and Sciences Engaged Learning requirement.

MH 3321 Spirituality, Aging, and Health Care (3)

Pre-requisite(s): Completion of MH 1331 and MH 2301 with a B or better or consent of the instructor

The spirituality of late adulthood and how this understanding can aid health care professionals as they seek to provide more effective care for patients with emphasis on emotional and spiritual tasks of aging, Christian perspectives on aging, and the role of health care in the spiritual wellbeing of older adults.

MH 3342 Medicine, Missions, and the Gospel (3)

Pre-requisite(s): Completion of MH 1331 with a B or better and upper-level standing or consent of instructor

An overview of the biblical mandate to meet physical and spiritual needs in the context of Christian health care missions.

MH 3V9R Research (3)

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

MH 4300 History of Medicine (3)

Cross-listed as HIS 4300, PHI 4300

Pre-requisite(s): Completion of MH 1331 with a B or better and upper-level standing or consent of instructor

A review of the origins and development of medicine and medical science from prehistoric times to the present. Consideration will be given to the impact of major diseases on civilization and the emergence of successful measures of control.

MH 4303 History of Women in Medicine (3)

Pre-requisite(s): MH 1331

This course introduces the historical contributions and challenges of women in medicine and the U.S. health care system. Special emphasis is given to societal expectations and norms and how those evolved to reflect different understanding of gender roles in medicine. This is accomplished through exposure to key figure biographies, literature, and recent peer-reviewed literature highlighting the historical influence of women in medicine, as well as contemporary gender issues in clinical practice.

MH 4305 A Biblical Theology of Suffering for Health Care Practitioners (3)

Cross-listed as HED 4305

A study of the biblical meanings and purposes of suffering with theological reflections and application to those served by health care professionals with consideration to disability-related ministries.

MH 4319 Writing about Sickness and Health (3)

Pre-requisite(s): Completion of MH 1331 with a B or better or consent of instructor

Explores multiple themes of the human experience in healthcare through reading, discussion, and writing in response to selected poems, short stories, essays, and creative nonfiction. Themes include social disparities, mortality, mental illness, and the patient's lived experience with illness.

MH 4351 Supervised Clinical Medicine (3)

Pre-requisite(s): Departmental approval required

Supervised weekly clinical service through various medical fields complemented by weekly seminar sessions. This course fulfills the College of Arts and Sciences Engaged Learning requirement.

MH 4361 Meaning, Money, and Medicine (3)

Pre-requisite(s): Completion of MH 1331 with a B or better and MH 2301 or consent of instructor

How personal finance concepts relate to a career in health care against the backdrop of Christian spirituality and values. The course connects "vocational calling" to personal character and discusses spending, debt, giving, paying taxes, and investing.

MH 4372 End-of-Life Care & Bereavement (3)

Pre-requisite(s): Completion of MH 1331 with a B or better or consent of instructor

This course critically analyzes how healthcare professionals are involved in the dying experience with patients, families, and communities.

Topics include causes of death, trauma, spirituality in grief, complicated bereavement, hospice and palliative care, physician-assisted dying, futile treatment at the end of life, and cross-cultural sensitivities.

MH 4377 Supervised Hospice Care (3)

Pre-requisite(s): MH 4372; or consent of instructor

Hands-on hospice experience including shadowing hospice professionals. Must meet hospice employment criteria. This course fulfills the College of Arts and Sciences Engaged Learning requirement.

MH 4382 U.S. Health Care System (3)

Pre-requisite(s): Completion of MH 1331 with a B or better and upper-level standing or consent of instructor

Current state of health care in the United States including function, economic impacts, payment systems, ideas for reform, and issues related to patient safety and quality measures

MH 4387 Bench to Bedside: Clinical Trials and Translational Science (3)

Pre-requisite(s): Consent of instructor

An overview of how basic science is translated into novel therapies with an emphasis on "real world" clinical trials.

MH 4391 Disrupting Disparities in Healthcare (3)

Pre-requisite(s): Completion of MH 1331 with a B or better and upper-level standing

Overview of health disparities in the United States from different disciplinary perspectives, to examine causes and consequences and to explore solutions and strategies that will make us all effective as advocates for justice and equity in healthcare. Students are connected with a local partner to participate in a community service initiative. This course qualifies for credit in the Engaged Learning distribution list.

MH 4396 Disability and Society (3)

Pre-requisite(s): Completion of MH 1331 with a B or better or consent of instructor

Critical reflections on questions of humanity, human well-being, understandings of disability, suffering, and care of those with disabilities, with emphasis on cultural, religious, medical and social perspectives.

MH 4V98 Advanced Topics in Medical Humanities (1-3)

Pre-requisite(s): Consent of the instructor and upper level standing
Study of advanced topics in Medical Humanities. This course may be repeated once with different topic for a total of 6 hours.

MH 4V9R Research (3)

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.
