FORENSIC SCIENCE (FORS)

FORS 1390  Survey of Forensic Science  (3)
Pre-requisite(s): CHE 1101/1301; or consent of instructor
An introduction to forensic science with a focus on the history and
current state of disciplines including crime and death scene investigation,
chain of custody procedures, the forensic laboratory and its components
and expert testimony. Field trips, guest speakers and hands-on activities.

FORS 2391  Topics in Forensic Science Methods I  (3)
Pre-requisite(s): Consent of instructor
Lecture and field experience in the methods and techniques of forensic
science. Topics will vary. May be repeated once under a different topic.

FORS 3310  Bloodstain Pattern Analysis  (3)
Pre-requisite(s): FORS 1390
Recognition of bloodstain pattern evidence, flight characteristics, motion,
and force. Includes hands-on activities.

FORS 3320  Trace Evidence  (3)
Pre-requisite(s): FORS 1390
Trace evidence at crime scenes; includes hair, fibers, soils, paint,
bloodstains, fluids, and other substances.

FORS 3330  Impression Evidence  (3)
Pre-requisite(s): FORS 1390
Impression evidence at crime scenes; includes fingerprints, footwear,
tires, firearms, tool marks, and bite marks.

FORS 3331  Human Osteology  (3)
Cross-listed as ANT 3331
See ANT 3331 for course information.

FORS 3340  Expert Witness Testimony  (3)
Pre-requisite(s): FORS 1390
The forensic expert witness in the courtroom. Class taught in conjunction
with practice court presentations at the Baylor Law School.

FORS 3350  Forensic Application of White-Collar Crime  (3)
Pre-requisite(s): FORS 1390
Investigations of white-collar crimes and their place in forensic science.

FORS 3357  Crime Scene Investigation  (3)
Pre-requisite(s): FORS 1390
Examining and processing the crime scene for physical evidence such
as fingerprints, footwear impressions, trace evidence, occult blood, and
DNA. Photography, search strategies, collection methods, and legal
considerations will be reviewed. (Students may not receive credit for both
FORS 2357 and FORS 3357).

FORS 3360  Forensic Firearms Evidence  (3)
Pre-requisite(s): FORS 1390
Firearm evidence; includes nomenclature, analytical methods, gunshot
residues, ballistics, and shooting incident reconstruction.

FORS 3370  Medicolegal Death Investigation  (3)
Pre-requisite(s): FORS 1390
An in-depth study into the practices and principles of death investigation
and autopsy protocols from medical, scientific, and legal perspectives,
including the investigation of natural and unnatural causes of death, such
as asphyxia, toxicity, blunt force trauma, sharp force trauma, and natural
disease processes.

FORS 3380  Advanced Forensic Investigations  (3)
Pre-requisite(s): FORS 1390
This course provides training in crime scene investigative specialties
in conjunction with forensic science techniques, including simulated
crime scenes beginning with the initial report of the offense and continue
through courtroom procedures and the legal process.

FORS 3392  Topics in Forensic Science Methods II  (3)
Pre-requisite(s): Consent of instructor
Lecture and field experience in the methods and techniques of forensic
science. Topics will vary. May be repeated once under a different topic.

FORS 3393  Forensic Analysis of Biological Evidence  (3)
Pre-requisite(s): FORS 1390
A specialized course on biological materials relevant to a legal setting.
Topics include microorganisms and bioterrorism, invertebrates,
pathology, hair, and human biological materials.

FORS 3394  Forensic DNA Analysis  (3)
Cross-listed as ANT 3394
Pre-requisite(s): ANT 1404 or BIO 1305 or BIO 1306 or consent of
instructor
A specialized course on the use of DNA evidence in legal situations.
Topics include basic DNA techniques, forensic DNA profiling, DNA
databases, and DNA statistics in a lecture and applied format.

FORS 4355  Forensic Anthropology  (3)
Cross-listed as ANT 4355
See ANT 4355 for course information.

FORS 4359  Death, Injury, and Physical Remains  (3)
Cross-listed as ANT 4358, ANT 4359
Pre-requisite(s): FORS 3331 or ANT 3331 and FORS 4355 or ANT 4355
An in-depth study looking at the information the forensic anthropologist
provides the medical examiner or coroner in determining the manner of
death in a forensic context.

FORS 4V50  Independent Topics in Forensic Science  (1-3)
Pre-requisite(s): Consent of instructor
Individual topics not available in formal courses of the department. May
include independent study or research; directed reading; supervised work
in the library, laboratory, or field; or presentation of material.
