PUBH 3320 Stress Management/Mental-Emotional Health (3)
Pre-requisite(s): Upper-level standing
To introduce students to the topic of stress and its impact on their lives; further, to develop behavioral skills in which to deal healthfully with the impact of a technological society. The second half of the class will devote itself to topics and activities that relate to feelings of positive self-worth and psychosomatic wellness.

PUBH 3325 Maternal and Infant Health (3)
The purpose of this course is to provide students contextual insight into multilevel influences that shape current maternal and infant health outcomes. Students will improve their understanding of the historical basis for contemporary global and domestic approaches to prenatal care, childbirth, postpartum practices, as well as public policy.

PUBH 3331 Planning in Public and Community Health (3)
Pre-requisite(s): Public Health major, minor
PUBH 2330 and 2331 Provides in-depth focus on program planning in health education that includes planning models and strategies. Experiential learning through a group writing project serves as the framework for each component of the program plan.

PUBH 3350 Human Physiology for Allied Health Professionals (3)
Pre-requisite(s): A minimum grade of C in HP 1420
Survey of the function and interrelationship of body systems with emphasis on the homeostasis of these systems.

PUBH 3351 Epidemiology/Vital Statistics (3)
An introductory epidemiology course for students interested in public health. Topics will include historical foundations, study designs, and organizing and analyzing epidemiologic data.

PUBH 4320 Men's Health and Wellness (3)
Pre-requisite(s): Upper-level standing
Focuses on issues specific to men’s overall health and wellness, concepts of multiple masculinities, men’s body image and the portrayal of men in media. This course is available to men and women.

PUBH 4321 Human Sexuality (3)
Pre-requisite(s): Upper-level standing
A health education course in which basic concepts of human sexuality are analyzed and discussed. The course is designed to help students better understand the influences that affect the complex nature of human interaction and to provide accurate information needed to help develop responsible decision making skills.

PUBH 4323 Professional Field Experiences in Health (3)
Pre-requisite(s): Junior standing, twenty-one semester hours in health education courses and consent of the division director
Planned experiences in various community agencies including both public and voluntary health organizations.

PUBH 4327 Dying and Death Education (3)
Pre-requisite(s): Upper-level standing
A course of death education designed to help students develop constructive attitudes, values, and practices. This experience will nurture an appreciation of the connection between life and death.

PUBH 4331 Intervention Design in Public and Community Health (3)
Pre-requisite(s): Public Health major, minor or consent of instructor
PUBH 2331 and 3331. Theories and methods used in designing culturally appropriate intervention in public and community health. A special emphasis is focused on social marketing techniques used to promote healthy behaviors and lifestyle changes.

PUBH 3325 Maternal and Infant Health (3)
The purpose of this course is to provide students contextual insight into multilevel influences that shape current maternal and infant health outcomes. Students will improve their understanding of the historical basis for contemporary global and domestic approaches to prenatal care, childbirth, postpartum practices, as well as public policy.

PUBH 3320 Stress Management/Mental-Emotional Health (3)
Pre-requisite(s): Upper-level standing
To introduce students to the topic of stress and its impact on their lives; further, to develop behavioral skills in which to deal healthfully with the impact of a technological society. The second half of the class will devote itself to topics and activities that relate to feelings of positive self-worth and psychosomatic wellness.

PUBH 3325 Maternal and Infant Health (3)
The purpose of this course is to provide students contextual insight into multilevel influences that shape current maternal and infant health outcomes. Students will improve their understanding of the historical basis for contemporary global and domestic approaches to prenatal care, childbirth, postpartum practices, as well as public policy.

PUBH 3320 Stress Management/Mental-Emotional Health (3)
Pre-requisite(s): Upper-level standing
To introduce students to the topic of stress and its impact on their lives; further, to develop behavioral skills in which to deal healthfully with the impact of a technological society. The second half of the class will devote itself to topics and activities that relate to feelings of positive self-worth and psychosomatic wellness.

PUBH 3325 Maternal and Infant Health (3)
The purpose of this course is to provide students contextual insight into multilevel influences that shape current maternal and infant health outcomes. Students will improve their understanding of the historical basis for contemporary global and domestic approaches to prenatal care, childbirth, postpartum practices, as well as public policy.

PUBH 3320 Stress Management/Mental-Emotional Health (3)
Pre-requisite(s): Upper-level standing
To introduce students to the topic of stress and its impact on their lives; further, to develop behavioral skills in which to deal healthfully with the impact of a technological society. The second half of the class will devote itself to topics and activities that relate to feelings of positive self-worth and psychosomatic wellness.
