

INTERDISCIPLINARY PROGRAMS AND ACADEMIC RESOURCES

The programs and services in this area enrich the academic programs of the entire University. Interdisciplinary Programs and Academic Support Services consist of two primary components:

1. Interdisciplinary study programs. A wide variety of programs crossing the boundaries of various academic units provides interdisciplinary opportunities for students and faculty, thereby enhancing the quality of the University experience. The University's involvement with international studies and programs finds its logical home within the interdisciplinary scope of this area. This involves international students in Baylor's various academic units, exchange programs, and study abroad programs, as well as academic programs with an international focus.
2. The learning resource base is an integral component of the entire University. This consists of the Baylor University Libraries, the museum complex, and the Baylor University Press.

Institutes

Institute of Archaeology

The Institute of Archaeology is a multidisciplinary unit anchored in the Department of Anthropology. The aim of the Institute is to enhance

knowledge of the human past through the scientific recovery and analysis of artifacts and ecofacts from archaeological sites and to promote the wide diffusion and responsible interpretation of that knowledge on campus and in the wider community. These goals are carried out through the Institute's support of both faculty and student research, awarding scholarships to students engaged in archaeological fieldwork, and sponsorship of an active on-campus colloquium series.

J.M. Dawson Institute of Church-State Studies

The J.M. Dawson Institute of Church-State Studies is the only interdisciplinary institute of its kind in American academia, providing scholars with the resources to examine the relationship between religion and politics, as well as the broader relationship between religion and society, from a variety of faith perspectives, cultural traditions, and academic disciplines. From its inception in 1957, the stated purpose of the Institute has been to stimulate academic interest and encourage research and publications in this vital interdisciplinary field. In carrying out its statement of purpose, the Institute has sought to honor a threefold commitment: to be interfaith, interdisciplinary, and international.

Institute for Oral History

The Institute for Oral History provides ongoing oral history research and teaching, with various expressions of its work carried out through research, publications, educational outreach, and public programming. In addition to the full-time research staff, fellows are chosen annually from among the various disciplines of the Baylor faculty to expand the Institute's work into a wide variety of research areas.

Center for Global Engagement (CGE)

The Center for Global Engagement is charged with supporting the mission of Baylor University to educate men and women for worldwide leadership and service. We do this by assisting faculty, staff, students participating in international activities such as study abroad programs, internships, research, and academic conferences. Additionally, the Center for Global Engagement works with international students and scholars who come here to join our academic community, assisting with the visa process, orientation and integration into the university and life in the United States. Finally, by sponsoring academic and cultural events across campus throughout the year, the Center works to broaden our community's exposure to cultural diversity and prepare students to live in a global society.
