

ROBBINS COLLEGE OF HEALTH AND HUMAN SCIENCES

Introduction

On May 16, 2014, after more than three years of evaluation and input from Baylor regents, deans, faculty and staff, and external entities, including healthcare partners and the consulting firm Grant Thornton, the Baylor Board of Regents approved the creation of the College of Health and Human Sciences. The academic units that form the College - Communication Sciences and Disorders, Human Sciences and Design, Health, Human Performance and Recreation, Department of Public Health, and the Division of Health Professions - share a common purpose: improving health and the quality of life. A transformational naming gift was made in 2014 renaming the college the Robbins College of Health and Human Sciences.

Robbins College (HHS) is creating curricula that promotes a team-based approach to transformational education and research that has established interdisciplinary research collaborations to advance solutions for improving quality of life for individuals, families, and communities.

Mission

Robbins College at Baylor University draws upon Baylor's Christian mission and both innovation and tradition to prepare scholars and leaders who can translate theory into practice through translational research and advance knowledge of health, human behavior, and quality of life. Robbins College strives to:

- Create and support an interdisciplinary environment for discovery, learning, and engagement through transformational education
- Promote and emphasize evidence-based research practice and innovative approaches
- Hire and retain faculty who are leaders in the health and human sciences
- Develop and deliver educational programs that attract and prepare undergraduate and graduate students for professions dedicated to the improvement of health, human behavior and quality of life.
- Support research that discovers new ideas, advances knowledge with novel questions and is responsive to ever-changing conditions of health, human sciences and quality of life.
- Engage with diverse constituencies and communities to address a broad spectrum of human needs.

Endowed Positions in the Robbins College of Health and Human Sciences

Chairs

Brown Foundation Endowed Chair

The Mary Gibbs Jones Endowed Chair in Family & Consumer Sciences

The Martin Family Endowed Chair in Communication Sciences and Disorders

Graduate Programs in the College of Health and Human Sciences

Note: See the Graduate School Catalog for descriptions of these programs.

I. Master of Science

Communication Sciences and Disorders

Nutrition Sciences

Exercise Physiology

Sport Pedagogy

Medical Science

II.

Master of Athletic Training

Athletic Training

III. Master of Public Health

Community Health

Epidemiology

Environmental Health Science

IV. Doctor of Philosophy

Communication Sciences and Disorders

Exercise & Nutrition Sciences

Public Health

V.

Doctor of Occupational Therapy

VI.

Doctor of Physical Therapy

Degree Requirements

General Regulations for the College of Health and Human Sciences

Certain regulations are common to all of the undergraduate degrees conferred by the Robbins College of Health and Human Sciences.

Additional regulations are listed in this catalog under "General University Regulations."

1. Minimum requirement: 124 semester hours. Some programs may exceed the minimum.
2. Residence requirement: minimum sixty semester hours. After a student achieves senior standing (90 earned credits), all upper division courses (3000 or 4000 level) must be taken in residence (or in a Baylor approved study abroad program).
Note: After matriculation, a student may transfer a maximum of fifteen semester hours to Baylor.
3. Grade point average: minimum of 2.00 ("C") overall and also in the major and minor for work at Baylor. Some departments require a "C" or better in every course applying to the major or minor.
4. Course substitutions: Students who substitute an upper-level course for a lower-level requirement may not retain the upper-level credit. The exception to this policy is when a lower-level course is a specific prerequisite for the upper-level course.
5. English: Because strong writing skills are essential for success in all academic programs, students are encouraged to take writing courses early in their academic careers.
6. Foreign Language:
 - a. American Sign Language, Arabic, Chinese, French, German, Greek, Hebrew, Italian, Japanese, Korean, Latin, Portuguese, Russian, Spanish, and Swahili may be used.
 - b. Students who have taken courses in Spanish, French, or German may need to take the placement test in that language, given at the Language Acquisition Center, 300 Draper. These test scores will help advisors place students at the most appropriate level to begin their foreign language study at Baylor.
 - c. Students who have taken courses in Latin may take a placement test in the Classics Department Office, 333 Morrison Hall.
 - d. Students who have taken courses in American Sign Language may take a placement test.
 - e. If a student has taken high school courses in a language for which a placement test is unavailable, the student should consult with the department (Modern Languages and Cultures or Classics) to determine the appropriate level at which to begin foreign language courses at Baylor.
7. Teacher Certification: Students seeking teacher certification should contact the School of Education for complete requirements.
8. Lifetime Fitness:
 - a. It is waived for students who have reached age 25 at the time of matriculation to Baylor; veterans (one semester hour per 135 days active duty); students in Aerospace Studies (one hour per semester selected from AS 1111 Leadership Laboratory, AS 1112 Leadership Laboratory, AS 2111 Leadership Laboratory, AS 2112 Leadership Laboratory; laboratory required); students in Military Science (one hour per semester selected from MILS 1111 Leadership Lab I, MILS 1112 Leadership Lab II, MILS 2111 Basic Leadership Lab I, MILS 2112 Basic Leadership Lab II; laboratory required); athletic participants (one hour for sport participation, maximum waiver two semesters); marching band (one hour for each fall semester, maximum waiver two semesters). One hour of PPS 1100 Introduction to Citizenship and Community Service may substitute for one semester of LF on the B.S. degree. One hour of PUBH 1145 Health and Human Behavior may substitute for one semester of LF, except for students who have completed BIC 1112 Examined Life.
 - b. For those students with physical disabilities, an adaptive and/or academically oriented program will be provided. Students with disabilities should present to coordinators at registration a medical statement from the Baylor physician outlining the nature of their disability and recommendation for activity.
 - c. A maximum of four Lifetime Fitness courses may be counted on a degree program.
 - d. For further information, see the list in this section of this catalog.
9. Chapel: Students entering as freshmen or who transfer as freshmen or sophomores are required to attend two semesters of Chapel. Students who transfer to Baylor and are classified as juniors or seniors must attend one semester of Chapel.
10. Major:
 - a. One required; others, if available on the same degree, may be elected from the list of majors included in the section in this catalog on undergraduate programs for each degree. See departmental sections for specific requirements.
 - b. Twenty-seven hours minimum required; higher for some majors.
 - c. Residence – minimum twelve hours, all advanced.
 - d. Advanced work – minimum fifteen hours.
 - e. Grade point average – a minimum of 2.00 ("C") on all courses in the major taken at Baylor. Some departments require a "C" or better in every course applying to the major.
11. Secondary Major:
 - a. Optional; may elect one or more secondary majors. Specific requirements in departmental sections of this catalog.
12. Minor:
 - a. Optional; may elect one or more minors. Specific requirements in departmental sections of this catalog.
 - b. Eighteen hours minimum required; slightly higher for some minors.
 - c. Residence – minimum twelve hours, nine hours advanced.
 - d. Advanced work – minimum nine hours.
 - e. No more than a maximum of three hours from the major or secondary major may be applied to the minor.
 - f. Grade point average – a minimum of 2.00 ("C") on all courses in the minor taken at Baylor. Some departments require a "C" or better in every course applying to the minor.
13. Advanced work ("3000" or "4000" numbered courses): minimum thirty-six semester hours.
 - a. To be earned after junior status is attained.
 - b. Mathematics, physics, chemistry, biology, and language courses at the "3000" level may be taken as soon as necessary prerequisites are completed and will be considered advanced work.
 - c. No junior college course, regardless of content, will be considered advanced.
 - d. No transferred course will be considered advanced unless it was so rated by the college where taken, and unless Baylor's equivalent course is advanced.
 - e. Please refer to the section on eligibility for courses in this catalog.
14. Maximum credit: Within the minimum of 124 hours required for a degree, the following maximum credits are applicable:
 - a. four courses of Lifetime Fitness and
 - b. ten hours of applied music and/or ensemble.

Attendance Policy for the College of Health and Human Sciences

To earn course credit in the College of Health and Human Sciences, a student must attend at least 75 percent of all scheduled class meetings.

Any student who does not meet this minimal standard will automatically receive a grade of "F" in the course. Faculty members may establish more stringent requirements regarding attendance, punctuality, and participation. Any attendance requirements and penalties for excessive absences will be set forth in the syllabus for each course.

If a student's required participation in a University-sponsored activity causes the student to miss class, this is ordinarily considered an absence and shall count against the student when determining whether a student has attended the required 75 percent of class meetings. However, if in this event the student seeks to make arrangements prior to the absence to complete scheduled assignments, the faculty member will work with the student to allow for the completion of missed classwork and assignments.

In the event of serious illness, accident, or death in the family, students should contact their professors as soon as they are able. When such a crisis prohibits the student from being able to make immediate contact, the office of the Chaplain notifies faculty when information is available; the Chaplain, does not, however, pursue official verification of such reports. Requests by faculty to verify the nature of an absence should be made to the student upon the student's return. Students are usually allowed to make up classwork and/or tests missed which result from such crises; however, the absences shall count against the student when determining whether a student has attended the required 75 percent of class meetings. In some circumstances, the instructor may choose to assign an alternate quiz/assignment or drop/waive the missed quiz/assignment in such a way that it does not penalize the student's final grade. As these instances are academic matters, any dishonesty on the part of the student in such a situation is considered a violation of the University Honor Code.

In addition to the College of Health and Human Sciences Attendance Policy, faculty and students will be guided by the University Attendance Policy in the Undergraduate Catalog.

Select four hours from the following:		
ANT 1404	Introduction to Human Evolution	4
ANT 1407	Introduction to Archaeology	4
BIO 1305 & BIO 1105	Modern Concepts of Bioscience and Modern Concepts of Bioscience Laboratory	4
BIO 1306 & BIO 1106	Modern Concepts of Bioscience, continued and Modern Concepts of Bioscience Laboratory	4
BIO 1401	Current Issues in Human Biology	4
BIO 1405	Investigations of Modern Biology Concepts I	4
BIO 1406	Investigations of Modern Biology Concepts II	4
CHE 1300 & CHE 1100	Introductory Chemistry and Introductory Chemistry Laboratory	4
CHE 1301 & CHE 1101	Basic Principles of Modern Chemistry I and General Chemistry Laboratory I	4
CHE 1302 & CHE 1102	Basic Principles of Modern Chemistry II and General Chemistry Laboratory II	4
CHE 1405	Chemistry and Society	4
ENV 1301 & ENV 1101	Exploring Environmental Issues and An Introduction to Environmental Analysis (Lab)	4
ENV 1303 & ENV 1103	Wildlife Ecology and Wildlife Ecology Laboratory Exercises	4
GEO 1401	Earthquakes and Other Natural Disasters	4
GEO 1402	World Oceans	4
GEO 1405	The Dynamic Earth	4
GEO 1410	Gems and Minerals	4
HP 1420	Human Anatomy	4
HP 2420	Exercise Physiology	4
HP 4450	Exercise Testing and Interpretation I	4
HP 4471	Exercise Testing and Interpretation II	4
NSC 1306 & NSC 1106	Introduction to Neuroscience and Introduction to Neuroscience Laboratory	4
PHY 1404	Light, Vision and Optics	4
PHY 1405	Everyday Physics	4
PHY 1407	Sound and Acoustics	4
PHY 1408	General Physics for Natural and Behavioral Sciences I	4
PHY 1409	General Physics for Natural and Behavioral Sciences II	4
PHY 1420	General Physics I	4
PHY 1430	General Physics II	4
PHY 1455	Descriptive Astronomy	4
PHY 2455	Foundations of Astronomy	4

Scientific Method II: Grand Challenges of Science Distribution List or an Additional Course from the Scientific Method I—Course with Laboratory Experience Distribution List

Code	Title	Hours
Select one 3 to 4-hour course from the following:		
ANT 1307	The Evolution of Human Societies: An Interdisciplinary Perspective	3
BIO 1303	Human Ecology: Our Place in Nature	3
GEO 1306	The Earth Through Time	3
GEO 1307	Evolution and Extinction	3
GEO 1308	Climate Change	3
GEO 1309	Origins of Habitable Worlds	3
GEO 1310	Water Today and Tomorrow	3
HP 2306	Anatomical Kinesiology	3
HP 2307	Biomechanics	3
HP 4368	Motor Learning and Development	3
HP 4369	Sports Psychology	3
NUTR 2351	Nutrition	3
NUTR 3314	Consumer Nutrition	3
PHY 3305	History of Invention and Technology	3
PSY 1305	Psychological Science: Understanding Human Behavior	3
RLS 4392	Professional Issues and Practices in Leisure Services	3
STA/CSI 2300	Introduction to Data Science	3

Or one additional course from item O: Scientific Method I: Course with Laboratory Experience Distribution List

Lifetime Fitness Distribution List (Three Courses)

Code	Title	Hours
Select three hours from the following:		
Any LF-prefix course		3
PUBH 1145	Health and Human Behavior ¹	1
PPS 1100	Introduction to Citizenship and Community Service ¹	1

¹ Students may choose either PUBH 1145 Health and Human Behavior or PPS 1100 Introduction to Citizenship and Community Service to replace one of the 3 required LF courses. Two hours of the Lifetime Fitness requirement must be met by activity LF courses.

Honor Societies**Kappa Omicron Nu**

Kappa Omicron Nu is a national honor society in the field of human sciences, which has been on campus since 1972. Human Sciences and Design majors are eligible after completing twelve hours in Human Sciences and Design courses with a 3.6 GPA and a 3.4 overall GPA. The goals of the organization include recognition of scholarship, development of leadership, association of students with faculty, and encouragement of research. New members are initiated in the fall and spring, and meetings are held monthly.

Eta Sigma Gamma

Eta Sigma Gamma is a National Health Education Honorary which promotes the discipline by elevating the standards, ideals, competence, and ethics of professionally prepared men and women in Health

Education. Membership is open to any Baylor student who has completed at least two semesters and officially declared a major or minor in community health education. Candidates must earn a grade point average of at least 2.7 (on a 4.0 grade point system) in one semester followed by an average of at least 2.5 in the next semester to be eligible for election in the Baylor chapter, Epsilon Alpha.

Professional Organizations

Baylor Apparel Professionals

Baylor Apparel Professionals is the organization for apparel design and product development and apparel merchandising majors. It offers a wide variety of educational and leadership opportunities. Through monthly programs, the students may network with professionals from the fashion field to learn more about career opportunities in the industry. The organization initiates two field experiences yearly.

Baylor Interior Design Association (BIDA)

The Baylor Interior Design Association is the student organization representing both student membership and involvement with the professional organizations of the American Society of Interior Designers (ASID) and the International Interior Design Association (IIDA). Members participate in monthly meetings, professional-sponsored student events and programs, and various other learning experiences that support and enhance their academic training.

Student Dietetic and Nutrition Association (SDNA)

The Student Dietetic and Nutrition Association provides nutrition information and career information to the students in the organization as well as anyone else interested in dietetics. The membership of BSNA is open to any student with a declared major in nutrition science. BSNA is the student organization of the Texas Academy of Nutrition and Dietetics and the Academy of Nutrition and Dietetics.

Child and Family Studies Organization (CFSO)

The Child and Family Studies (CFSO) organization is open to Child and Family Studies Majors and all other students interested in topics related to Child and Family Studies. CFSO holds monthly meetings, in which students learn about current trends in the field and engage with professionals from a variety of career paths. The organization further provides professional development opportunities by providing service to organizations who work with children and families and engaging in annual professional conferences.

National Student Speech Language Hearing Association (NSSLHA)

The Baylor Chapter of the National Student Speech Hearing Language Association (NSSLHA) is an organization of students in the field of Speech/Language Pathology and Audiology. The purpose of the organization is to teach students to serve their profession and to encourage continued involvement in professional organizations. The organization addresses new directions and conflicts which arise within the field. In addition, NSSLHA provides opportunities for students to interact with professionals working in the field. Membership is open to students enrolled in the Department of Communication Sciences and Disorders.

Phi Theta

Phi Theta is Baylor University's club for students interested in physical therapy, occupational therapy, or sports medicine. It serves as a resource for students who are seeking information about physical therapy and

occupational therapy schools and job opportunities. Guest speakers include representatives from physical therapy and occupational therapy schools and local physical therapists and occupational therapists. Field trips to local rehabilitation clinics and professional schools are also made.

Athletic Training Student Association

The Athletic Training Student Association was organized and chartered in 2006. Its purpose is to promote and enhance athletic training both on and off campus through education, community service, team building and leadership development, funds development, and recruiting and promotion. Membership is open to all athletic training students.
