| MTH 1322                          | Calculus II                         | 3 |
| MTH 2311                          | Linear Algebra                      | 3 |
| STA 3381                          | Probability and Statistics          | 3 |
| STA 4373                          | Computational Methods in Statistics | 3 |

#### Other Requirements

##### Lifetime Fitness

Select one semester hour

##### Chapel

Complete two semesters of Chapel 2

##### Required Minor

Select 18-21 semester hours 18-21

Minors in Mathematics and Computer Science will not apply.

##### Advanced Work

"3000" or "4000" numbered courses minimum 36 semester hours

The requirements for a minor and advanced work are the same as for the Bachelor of Science in Computer Science degree.

#### Total Hours

117-123

## Computer Science Fellows, B.S.C.

### Computer Science Fellows Program

The Computer Science Fellows Program is designed for highly motivated students entering the School of Engineering & Computer Science with a wide range of interests who desire a more diverse experience across the disciplines. The program seeks to broaden Computer Science Fellows' backgrounds in their chosen area(s) of diversification while preparing them for graduate studies or for successful careers. The Computer Science Fellows is a major within the School of Engineering & Computer Science that allows Fellows to create an individualized course of study with the advice of a program Director who mentors them throughout the entire undergraduate experience. In the course of this mentoring process, the Director will in turn call upon the expertise of professors in other departments for assistance in serving the needs of the Fellow.

## Admission to the Program

Admission to the Computer Science Fellows Major is competitive and is separate from and subsequent to admission to Baylor University. Although the major is designed to appeal to students with high ACT/ SAT scores and class rank, or National Merit designees, admission is not based solely on scores and grades. Consideration is given to students with genuine intellectual curiosity, who have a desire to excel in computer science studies and take advantage of collaborative, cross-disciplinary undergraduate research.

For new students, after admission to the University and successful completion of their first semester (including CSI 1430 Introduction to Computer Science I with Laboratory), applicants must apply in writing to the Program Director of the Computer Science Fellows Major. The application includes three letters of recommendation from current or former teachers and an essay explaining how the applicant would benefit from the major. Acceptances are made on a rolling basis, and letters of admission are sent in the month following receipt of a complete application.

The major is open to incoming freshman or transfer students with at least three years or 90 hours remaining to complete their undergraduate degree at Baylor. Students who enter late, i.e., after their freshman year or as a transfer student with more than 36 Baylor credit hours, need to seek a special waiver to this requirement from the Program Director before they can be admitted to the program.

## Maintaining Computer Science Fellow Status

Computer Science Fellows will be required to maintain a 3.5 GPA through their sophomore-level courses (including CSI 3471 Software Engineering I, CSI 3344 Introduction to Algorithms and MTH 1322 Calculus II). Once admitted to the Upper Division of the Computer Science Fellows program (courses beyond those listed above), they must have at least a 3.25 GPA to graduate. If dismissed from the program, students must then fulfill the general requirements of the University as well as requirements for a different major to graduate.

## The Independent Reading List

In addition to the assigned texts in the Computer Science Fellows courses, each Fellow will, with the advice and approval of his or her Research Advisor, compose a list of computer science texts and related works. The Fellow will study the additional works independently throughout the junior year in CSF 3101 Advanced Readings and Research I, "Independent Readings I," and CSF 3102 Advanced Readings and Research II, "Independent Readings II," in preparation for his or her Senior thesis project.

## The Junior Readings Interview

Computer Science Fellows will take CSF 3001 Independent Reading Survey, an interview addressing their independent readings lists, in the spring semester of the junior year. They will meet with a committee composed of faculty members (including their Research Advisor) and a senior Computer Science Fellow to demonstrate their knowledge of the selected texts and related works. Upon approval of the Fellows Committee, the student will be permitted to proceed with work on the senior thesis.

## The Senior Thesis

During their senior year, Computer Science Fellows will be approved to register for CSF 4V01 Research/Fellows Thesis I and CSF 4302 Fellows Thesis, "Senior Computer Science Fellows," preparing and submitting an extended study on a research topic based on the readings and research

conducted during their junior year. The program directors, including the respective Research Advisors, will approve the topic or project and evaluate the completed thesis.

## Course Requirements

The BSC degree with a major in Computer Science Fellows has the following course requirements<sup>1</sup>:

| Code   | Title  | Hours |
|--|--|-------|
| <b>Required Courses</b>  |  |       |
| REL 1310   | The Christian Scriptures   | 3     |
| REL 1350   | The Christian Heritage   | 3     |
| Two semesters of Chapel  |  | 0     |
| MTH 1321   | Calculus I   | 3     |
| MTH 1322   | Calculus II  | 3     |
| MTH 2311   | Linear Algebra   | 3     |
| Eight semester hours of science courses with associated labs chosen from among Biology, Chemistry, Geology, Neuroscience, or Physics. Each course must apply to a major in its department. |  | 8     |
| STA 3381   | Probability and Statistics   | 3     |
| <b>Computer Science Courses</b>  |  |       |
| CSI 1430   | Introduction to Computer Science I with Laboratory   | 4     |
| CSI 1440   | Introduction to Computer Science II with Laboratory  | 4     |
| CSI 2334   | Introduction to Computer Systems   | 3     |
| CSI 2350   | Discrete Structures  | 3     |
| CSI 3334   | Data Structures  | 3     |
| CSI 3344   | Introduction to Algorithms   | 3     |
| CSI 3471   | Software Engineering I   | 4     |
| Five additional upper-level CSI courses  |  | 15    |
| CSF 3101   | Advanced Readings and Research I (junior independent readings course)  | 1     |
| CSF 3102   | Advanced Readings and Research II (junior independent readings course)   | 1     |
| CSF 3001   | Independent Reading Survey (an exit survey to summarize a student's independent readings, and ascertain readiness for the senior thesis) | 0     |
| CSF 4V01   | Research/Fellows Thesis I  | 1-3   |
| CSF 4302   | Fellows Thesis <sup>2</sup>  | 3     |
| CSF 4001   | Senior Exit Survey   | 0     |
| CSI 4010   | Undergraduate Research Seminar   | 0     |
| Completion of 124 hours, including 36 hours of "3000" - "4000" level credits   |  |       |

The requirements for advanced credit, residence, chapel, and maximum credit are the same as for the Bachelor of Science in Computer Science degree. Additional information about requirements is listed under the "General University Regulations." Computer Science Fellows are not permitted to declare additional majors. Committee approval is required for graduation.

### Total Hours

71-73

<sup>1</sup> Students who enter the CSF program after the fall of their freshman year should meet with the CSF Director to discuss how best to complete the required courses.

<sup>2</sup> Presentation in the annual ECS Scholar's Day is mandatory for the fulfillment of CSF 4302 Fellows Thesis.

## Computer Science, B.A. Bachelor of Arts, Major in Computer Science

The B.A. student may choose a major or a minor in computer science. See the College of Arts & Sciences (p. 253) section of this catalog for the required courses of study.

## Engineering Semester Hour Requirements

The engineering degrees require a minimum of 127 semester hours. A semester hour is generally one fifty-minute classroom or one three-hour laboratory session per week. Some engineering courses have additional sessions scheduled to facilitate non-lecture group project activities or testing sessions.

## Program Overview

Engineering graduates design and implement products and systems that touch virtually every aspect of our lives. They are involved with telecommunications, computer systems, automobiles, aircraft and spacecraft, power plants, robotics, machinery of all types, medical equipment and prosthetics, home appliances, and manufacturing systems, to name a few. Many graduates continue their professional education by attending graduate school programs in engineering, law, medicine, or business.

Each of the three engineering programs builds on a common core of basic sciences and mathematics, humanities and social sciences, and engineering sciences developed primarily in the first two years of study. Mathematics and basic sciences provide the technical foundation for the engineering curriculum. The engineering sciences introduce basic areas of engineering and represent the bridge between the basic sciences and mathematics, on which they build, and the more advanced engineering applications and engineering design to which they lead. The humanities and social sciences component of the curriculum helps to prepare the student for the human and social influences on engineering applications and design and for increased appreciation and fulfillment in the broader aspects of life and culture. Other requirements include courses that contribute to communication and computer skills, ethics, engineering economics, and additional electives.

The Baylor engineering programs integrate design throughout the curriculum, with special emphasis in specific courses usually taken in the first freshmen semester, the first junior semester, and final senior semester, as well as in other courses in the program. Juniors take an engineering design course that teaches design methodology and the creative aspects of engineering. In addition, all students complete other courses with design content in their chosen major as well as a senior design course which emphasizes design of open-ended projects by multidisciplinary teams. These broadly-based engineering programs prepare students for the complex and multidisciplinary problems that face our contemporary society. These programs are designed to be completed in four years.

The Electrical and Computer Engineering and Mechanical Engineering programs contain a twenty-one hour mathematics core which meets

the course requirements for a mathematics minor. The minor must be approved by the Department of Mathematics.

## Requirements for Incoming Engineering Students

Most engineering courses require the use of a programmable calculator or software-based engineering tools typical of those used in the engineering profession. The most up-to-date equipment requirements can be found at [www.ecs.baylor.edu/equipment](http://www.ecs.baylor.edu/equipment) (<https://www.ecs.baylor.edu/?id=962189>). The laptop's software must include the currently adopted MS-Windows operating system and a number of other software packages. From time to time, each student will be required to purchase additional software as required for specific classes. Each student is required to maintain his or her laptop and its software in good working order until they graduate from the engineering program. Each student is solely responsible for software upgrades and the resolution of any compatibility problems related to the laptop's hardware.

## Pre-Engineering Status

The School of Engineering and Computer Science offers three engineering majors: Mechanical Engineering, Electrical and Computer Engineering, and Engineering. Students who wish to pursue engineering at Baylor will be required to begin in the non-degree-granting Pre-Engineering major. Incoming Pre-Engineering majors must be eligible to register for MTH 1321 Calculus I by meeting the prerequisite established by the Department of Mathematics. Credit or concurrent enrollment in is required to enroll in MTH 1321 Calculus I is required to enroll in EGR 1301 Introduction to Engineering. Students who are unable to qualify for MTH 1321 Calculus I must declare a major other than Pre-Engineering until they are eligible to register for this course.

To register for MTH 1321 Calculus I, you must meet any ONE of the following criteria:

1. A qualifying SAT/ACT score: RSAT math of at least 650 or SAT math of at least 630 or ACT math of at least 27;
2. A grade of B- or better in MTH 1320 (Pre-Calculus);
3. A score of 80 or better on the ALEKS math placement test.

To move into one of the degree-granting majors (Mechanical Engineering, Electrical and Computer Engineering, or Engineering), Pre-Engineering students must successfully complete the progression requirements below:

- Complete EGR 1301 Introduction to Engineering and EGR 1302 Introduction to Engineering Analysis with a grade of "B" or better
- Complete first-year mathematics courses (including at least one of the following courses: MTH 1321 Calculus I, MTH 1322 Calculus II, MTH 2311 Linear Algebra, or MTH 2321 Calculus III with a grade of "C" or better

Students who fail to meet these progression requirements will not be allowed to continue as a Pre-Engineering major. They will be transitioned to the "BA Undecided" major and encouraged to explore other major options at the University that may better fit their God-given strengths.

## Internal Transfer Policy into Pre-Engineering

Students who wish to enter Pre-Engineering after matriculating to Baylor must earn 12 credit hours in residence and a minimum 3.0 cumulative GPA in order to apply. Overall proficiency in math and science courses

will be evaluated, and students must either have earned credit for or be eligible to enroll in MTH 1321 (Calculus 1). Internal transfer students are subject to all Pre-Engineering policies and procedures. Students can submit a Change of Major Request Form through Bearweb to be reviewed for eligibility for Pre-Engineering. The Director of Advising will review requests in accordance with the established policy.

## External Transfer Policy into Pre-Engineering

All external transfer students must begin in Pre-Engineering and may only enter with a minimum 3.0 transfer GPA. Students must either have earned credit or be eligible to enroll in MTH 1321 Calculus I. External transfer students are subject to all Pre-Engineering policies and procedures. Upon entering Pre-Engineering, external transfer students who are transferring any engineering courses will be reviewed for eligibility to declare a degree-granting major.

## Foreign Language & Culture (FLC) Requirement

The Foreign Language and Culture (FLC) requirement can be satisfied by any of the following means:

1. Completing second-level proficiency (1302/1412 or higher) in a Foreign or Classical Language (minimum 3 hours)
  - a. ARB, CHI, FRE, GER, ITA, JPN, KOR, POR, RUS, SPA, SWA, GKC, HEB, LAT
2. Completing second-level proficiency (1406 or higher) in American Sign Language (minimum 3 hours)
  - a. CSD
3. Taking 3 hours of a Culture course included on the FLC Distribution List for Engineering Programs

### Foreign Language & Culture (FLC) Distribution List for Engineering Programs

| Code          | Title  | Hours |

- Electrical and Computer Engineering (B.S.E.C.E.) (p. 347)
- Engineering (B.S.E.) (p. 349)
- Mechanical Engineering (B.S.M.E.) (p. 350)

## Engineering & Computer Science (ECS)

### ECS 1101 ECS Leadership Development Seminar (1)

Pre-requisite(s): For engineering and computer science students only  
Provides insights into a student's present leadership strength and development needs. Prepares students for leadership positions, focusing on topics such as a philosophy of leadership, the role of power and authority in leadership, ethics, and goal setting for leadership development.

### ECS 1V10 Renaissance Scholar: Technology and the Arts (1-3)

Pre-requisite(s): Consent of instructor

A Renaissance Scholar is someone who is conversant across the entire range of human knowledge, from science to philosophy and technology to literature. Through the ages, people have strived to find meaning in their lives, to understand the world around them, and to use their creativity and ingenuity to improve both. Baylor's summer Renaissance Scholar program starts students on the path toward joining the ranks of the great scholars of the past. Issues of both historical and contemporary interest are considered from the perspectives of science, technology, literature, philosophy, theology, and even contemporary film. Students complement readings in the great texts of the world with the design, development, and implementation of two ancient engineering projects. Emphasis is placed on the theory and practical application of scientific and engineering concepts such as the harnessing of energy and the mythical stories that have inspired such activity, the desire for exploration, and the quest for knowledge ranging from ancient tales of self-discovery to the modern exploration of the cosmos.

### ECS 1V90 Special Topics in Freshman Engineering and Computer Science (1-4)

Introductory topics in engineering or computer science. The course may be repeated when topics vary.

### ECS 2101 ECS Professional Development (1)

Pre-requisite(s): Only open to majors in the School of Engineering and Computer Science

Personal development and branding, professional etiquette, resume production, career research, and interviewing skills. Exploration of career options, including assessments, internships, job search process, and graduate school admission. Topics will be customized for students pursuing majors in the School of Engineering and Computer Science.

### ECS 3301 Peer Leadership (3)

The class equips students to serve as peer leaders to new students in their first semester at Baylor.

## Electrical and Computer Engineering (B.S.E.C.E.)

The Electrical and Computer Engineering curriculum consists of two main course stems. In the electrical stem, students study signals and systems, electromagnetics, electronic circuit design and control systems design. In the computer stem, students study digital logic design, computer organization, embedded computer systems, hardware/software design and digital signal processing. With these two required stems, students gain a foundation in the major areas of electrical and computer engineering and are prepared for careers in a broad spectrum of industries. Elective courses allow a student to study a specialized field of interest, including areas like communication and networking, signal and image processing, optics and photonics, control and robotics, digital and embedded systems, wireless and microwave systems, and power and energy systems.

## Electrical and Computer Engineering Mission Statement

The mission of the Electrical and Computer Engineering program is to educate students within a caring Christian environment, in the discipline of electrical and computer engineering. We want our graduates to be motivated by Christian ideals and to view their career as a lifelong commitment to serving others. We strive to provide our students with

a strong technical foundation with an emphasis on professional, moral, ethical and leadership development.

## BSECE Program Educational Objectives

Within a few years after graduation, Baylor BSECE graduates will:

- Be productive and valuable engineers.
- Be successful in high-quality MS, PhD, JD, MBA, and MD programs.
- Be mindful of the moral and ethical relationships that their engineering decisions have with society and the world.
- Make positive contributions to their communities, churches, and society at large.

## BSECE Expected Graduate Outcomes

In support of the program objectives, graduates of the program must demonstrate that they have:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies

## B.S.E.C.E. Degree Requirements

| Code   | Title   | Hours |
|--|---|-------|
| <b>Required Courses</b>                          |   |       |
| Minimum 128 hours including the following:       |   |       |
| <i>Humanities and Social Sciences</i>            |   |       |
| <b>Literature</b>                                |   |       |
| GTX 2301   | Intellectual Traditions of the Ancient World : Literature and Thought | 3     |
| Select one additional course from the following: |   | 3     |
| GTX 2302   | Medieval Intellectual Traditions: Literature and Thought in Context   |       |
| ENG 2301   | British Literature  |       |
| ENG 2304   | American Literature   |       |
| ENG 2306   | World Literature  |       |
| ENG 2310   | American Literary Cultures  |       |
| REL 1310   | The Christian Scriptures  | 3     |
| REL 1350   | The Christian Heritage  | 3     |
| <b>Foreign Language and Culture</b>              |   |       |

Select one course from the Foreign Language and Culture Distribution List for Engineering Programs. Second level proficiency must be reached if a foreign language is chosen.

|             |  |   |
|-------------|--|---|

A grade of "C" or better in all of the Electrical and Computer Engineering hours counted towards major.

**Total Hours**

**128**

## Engineering (B.S.E.)

Students wishing to study General Engineering will declare their major as simply "Engineering." This major offers an accredited engineering degree with career flexibility. General Engineering students are required to take the same core courses common to other engineering majors at Baylor, plus additional upper-level classes in both Electrical and Computer Engineering and Mechanical Engineering. This program is intended for students who desire a broader, less specialized exposure to the

engineering disciplines, who are seeking a career outside of the typical career paths of Electrical and Computer Engineering or Mechanical Engineering, or who wish to supplement their engineering degrees with an additional area of study. Graduates of this program, depending on their choice of concentration or minor(s), will be well-qualified to enter diverse fields such as patent law, medicine, petroleum and energy, biomedical engineering, public policy, or humanitarian engineering.

The Humanitarian Engineering concentration is designed to prepare students to be engineers in the non-profit sector. Students graduating with the Humanitarian Engineering (HE) concentration might work on projects such as refugee shelter design, water well access in developing countries, or renewable energy systems for remote clinics, for example. Whether working in support of governments, private companies, non-profit organizations, or Christian mission groups, HE students will be exposed to the ethics and cultural humility, technologies, social enterprise, and environmental issues they are likely to encounter working in this sector.

## General Engineering Mission Statement

The mission of the General Engineering program is to educate students within a caring Christian environment, in the disciplines of engineering. We want our graduates to be motivated by Christian ideals and view their career as a lifelong commitment to others. We strive to provide our students with a technical foundation that is both broad and strong, with an emphasis on professional, moral, ethical and leadership development.

## BSE Program Educational Objectives

Within a few years after graduation, Baylor BSE graduates will:

- Establish themselves as competent, successful, and responsible members within their chosen career vocation.
- Make career and professional judgements, including moral and ethical considerations, informed by Christian ideals.
- Pursue opportunities for new knowledge and advancing skills through venues such as post-baccalaureate studies, continuing education, or mission field training.

## BSE Expected Graduate Outcomes

In support of the program objectives, graduates of the program must demonstrate that they have:

1. an ability to identify, formulate, and solve complex engineering problems by a applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions

7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies

## B.S.E. Degree Requirements

| Code  | Title  | Hours |
|---|--|-------|
| <b>Required Courses</b>   |  |       |
| Minimum 130 hours including the following:  |  |       |
| <i>Humanities and Social Sciences</i>   |  |       |
| Literature  |  |       |
| GTX 2301  | Intellectual Traditions of the Ancient World : Literature and Thought            | 3     |
| Select one additional course from the following:  |  | 3     |
| GTX 2302  | Medieval Intellectual Traditions: Literature and Thought in Context              |       |
| ENG 2301  | British Literature   |       |
| ENG 2304  | American Literature  |       |
| ENG 2306  | World Literature   |       |
| ENG 2310  | American Literary Cultures   |       |
| Religion  |  |       |
| REL 1310  | The Christian Scriptures   | 3     |
| REL 1350  | The Christian Heritage   | 3     |
| Foreign Language and Culture  |  |       |
| Select one course from the Foreign Language and Culture Distribution List for Engineering Programs. Second level proficiency must be reached if a foreign language is chosen. |  | 3     |
| Additional Courses  |  |       |
| ENG 2301  | British Literature   | 3     |
| or PSC 1387   | The U.S. Constitution, Its Interpretation, and the American Political Experience |       |
| Chapel – two semesters  |  | 0     |
| <i>Mathematics and Basic Sciences</i>   |  |       |
| CHE 1301  | Basic Principles of Modern Chemistry I   | 3     |
| MTH 1321  | Calculus I   | 3     |
| MTH 1322  | Calculus II  | 3     |
| MTH 2311  | Linear Algebra   | 3     |
| MTH 2321  | Calculus III   | 3     |
| MTH 3325  | Ordinary Differential Equations  | 3     |
| STA 3381  | Probability and Statistics   | 3     |
| One additional “3000” or “4000” level approved math or science class  |  | 3     |
| PHY 1420  | General Physics I  | 4     |
| PHY 1430  | General Physics II   | 4     |
| <i>Other Requirements</i>   |  |       |
| Writing/Communication   |  |       |
| ENG 1310  | Writing and Academic Inquiry Seminars  | 3     |
| PWR 3300  | Technical Writing  | 3     |
| Engineering Economics   |  |       |
| EGR 2108  | Engineering Economics  | 1     |
| Ethics  |  |       |
| EGR 3305  | Social and Ethical Issues in Engineering   | 3     |
| Lifetime Fitness – three courses  |  | 3     |
| New Student Experience  |  |       |
| EGR 1101  | Engineering New Student Experience   | 1     |

|  |   |                |
|--|---|----------------|
| <i>Engineering Major</i>   |   |                |
| EGR 1301   | Introduction to Engineering                                 | 3              |
| EGR 1302   | Introduction to Engineering Analysis                        | 3              |
| EGR 3380   | Engineering Design I  | 3              |
| EGR 4390   | Engineering Design II                                       | 3              |
| ME 2345  | Thermodynamics  | 3              |
| ELC 2330 & ELC 2130  | Electrical Circuit Theory and Electrical Circuit Laboratory | 4              |
| ELC 3335   | Signals and Systems   | 3              |
| ME 2320  | Statics   | 3              |
| ME 2321  | Dynamics  | 3              |
| ME 3420  | Instrumentation and Measurements                            | 4              |
| Select one of the following:   |   | 4              |
| ELC 2337/2137  | Digital Logic Design  |                |
| CSI 1430   | Introduction to Computer Science I with Laboratory          |                |
| CSI 1401   | Introduction to Programming I                               |                |
| Approved Engineering electives   |   | 12-13          |
| A grade of “C” or better in all of the Engineering hours counted towards the major.  |   |                |
| <i>Concentration Requirements</i>  |   |                |
| Select a minimum of 18 hours from the following:   |   | 18             |
| Any minor offered by the university other than Engineering or Mathematics. Note that an additional minor in Mathematics can be completed by the proper choice of 2c, but it will not satisfy this requirement.   |   |                |
| An established targeted concentration in Biomedical, Geo/Petro, Environmental, or Humanitarian Engineering. The Biomedical concentration requires specific biomedical engineering courses in biomaterials, biomechanics, and bioinstrumentation. The Geo/Petro concentration further requires geology courses aimed at careers in the energy industry. The Environmental concentration builds upon environmental science coursework in air and water quality analysis. The Humanitarian Engineering concentration is aimed toward engineers who wish to pursue missions-related careers in bettering the lives of populations in developing countries. |   |                |
| <b>Total Hours</b>   |   | <b>130-131</b> |

## Mechanical Engineering (B.S.M.E.)

The Mechanical Engineering curriculum consists of two main course stems. In the thermal/fluids stem, students study fluid mechanics, heat transfer and thermodynamics. In the materials/mechanical systems stem, students study engineering materials, manufacturing processes, control systems and machine design. With these two required stems, students gain a foundation for the major areas of mechanical engineering and are prepared to enter a variety of industries. In addition to the required stems, students can further specialize by choosing electives in the areas of sustainable engineering, energy systems design, analysis and design of propulsion systems, advanced structural analysis, computational methods for fluids-thermo, biomaterials, biomechanics, aeronautics, robotics, and other topics. These electives add to the student's ability to apply fundamentals and to design machines and energy systems.

## Mechanical Engineering Mission Statement

The mission of the Mechanical Engineering undergraduate program is to educate students, within a caring Christian environment, in the discipline of mechanical engineering. Our graduates will be equipped with the fundamental technical, communication, and teamwork skills to succeed in their chosen careers. They will be empowered by innovative problem-solving creativity and an entrepreneurial mindset. They will be motivated by Christian ideals and a vocational calling to improve the quality of life worldwide.

## BSME Program Educational Objectives

Within a few years after graduation, Mechanical Engineering graduates will:

- Have a career informed by Christian ideals and a vocational calling to improve people's quality of life worldwide.
- Be recognized as competent, successful, and ethical in their profession or in advanced study, whether in engineering or a related field.
- Take initiative to pursue knowledge and develop skills within their profession through graduate school or by continuing education.

## BSME Expected Graduate Outcomes

In support of the program objectives, graduates of the program must demonstrate that they have:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies

| <b>Engineering Economics</b>  |  |                |
| EGR 2108  | Engineering Economics  | 1              |
| <b>Ethics Elective</b>  |  |                |
| EGR 3305  | Social and Ethical Issues in Engineering   | 3              |
| or EGR 3315   | Ethics of International Service  |                |
| Lifetime Fitness – three courses  |  | 3              |
| <b>New Student Experience</b>   |  |                |
| EGR 1101  | Engineering New Student Experience   | 1              |
| <b>Mechanical Engineering Major</b>   |  |                |
| Select one of the following two options:  |  | 61-67          |
| Option A - Mechanical Engineering Major (Mechanical Engineering Concentration)  |  |                |
| Option B - Mechanical Engineering Major (Aerospace Engineering Concentration)   |  |                |
| <b>Total Hours</b>  |  | <b>125-131</b> |

### Option A - Mechanical Engineering Major (Mechanical Engineering Concentration)

| Code                    | Title  | Hours |
|-------------------------|--|-------|
| <b>Required Courses</b> |  |       |
| EGR 1301                | Introduction to Engineering                                  | 3     |
| EGR 1302                | Introduction to Engineering Analysis                         | 3     |
| ELC 2320                | Electric Circuit Theory for non-ECE majors                   | 3     |
| EGR 2170                | Introduction to Computer Aided Design                        | 1     |
| EGR 3380                | Engineering Design I   | 3     |
| ELC 4335                | Systems Modeling and Control                                 | 3     |
| EGR 4390                | Engineering Design II  | 3     |
| ME 2320                 | Statics  | 3     |
| ME 2321                 | Dynamics (ME 2170)   | 3     |
| ME 2345                 | Thermodynamics   | 3     |
| ME 3122                 | Materials and Manufacturing Processes Lab                    | 1     |
| ME 3145                 | Thermal/Fluids Laboratory                                    | 1     |
| ME 3320                 | Strength of Materials  | 3     |
| ME 3321                 | Fluid Mechanics  | 3     |
| ME 3322                 | Mechanical Engineering Materials and Manufacturing Processes | 3     |
| ME 3323                 | Machine Design   | 3     |
| ME 3420                 | Instrumentation and Measurements                             | 4     |
| ME 3345                 | Advanced Thermodynamics                                      | 3     |
| ME 4325                 | Dynamic Systems  | 3     |
| ME 4327                 | Numerical Methods for Engineers                              | 3     |
| ME 4345                 | Heat Transfer  | 3     |

#### Engineering Electives

|  |  |   |
|--|--|---|
| Select three courses from the following: |  | 9 |
| EGR 3V95                                 | Internship Experience  |   |
| EGR 4361                                 | Conventional & Alternative Energy Systems                    |   |
| EGR 4375                                 | Elements of Nuclear Engineering                              |   |
| EGR 4396                                 | Special Topics in Engineering                                |   |
| EGR 4V97                                 | Special Projects in Engineering                              |   |
| BME 4370                                 | Biomaterials: Form and Function                              |   |
| BME 4374                                 | Biomechanics   |   |
| BME 4376                                 | Introduction to the Design and Evaluation of Medical Devices |   |
| ELC 4330                                 | Introduction to Robotics                                     |   |
| ELC 4372                                 | Bioinstrumentation   |   |
| ME 4305                                  | Sustainable Engineering                                      |   |
| ME 4320                                  | Computer-Aided Structural Analysis                           |   |
| ME 4322                                  | Computer-Aided Engineering and Design                        |   |
| ME 4323                                  | Mechanical Vibrations  |   |
| ME 4324                                  | Introduction to Finite Element Methods                       |   |
| ME 4330                                  | Introduction to Robotics                                     |   |
| ME 4336                                  | Energy Systems Design  |   |
| ME 4337                                  | Introduction to Computational Fluid Dynamics                 |   |
| ME 4339                                  | Tribology  |   |
| ME 4344                                  | Composite Materials  |   |
| ME 4346                                  | Introduction to Aeronautics                                  |   |
| ME 4347                                  | Analysis and Design of Propulsion Systems                    |   |

|         |  |  |
|---------|--|--|
| ME 4349 | Aircraft Structural Analysis                                 |  |
| ME 4350 | Aircraft Flight Dynamics and Control                         |  |
| ME 4356 | Introduction to Space Flight                                 |  |
| ME 4357 | Cardiovascular Engineering and Instrumentation               |  |
| ME 4360 | Renewable Energy Devices                                     |  |
| ME 4377 | Solar Energy   |  |
| ME 4382 | Selection of Materials and Manufacturing Processes in Design |  |
| ME 4384 | Engineering with Plastics                                    |  |
| ME 4385 | Failure Analysis and Product Liability                       |  |
| ME 4386 | Properties and Processing of Electronic Materials            |  |
| ME 4388 | Corrosion and Sustainable Metallurgy                         |  |
| ME 4V97 | Special Projects in Mechanical Engineering                   |  |

A grade of "C" or better in all of the Mechanical Engineering hours counted towards major.

**Total Hours** **67**

### Option B - Mechanical Engineering Major (Aerospace Engineering Concentration)

| Code                    | Title  | Hours |
|-------------------------|--|-------|
| <b>Required Courses</b> |  |       |
| EGR 1301                | Introduction to Engineering                                  | 3     |
| EGR 1302                | Introduction to Engineering Analysis                         | 3     |
| EGR 2170                | Introduction to Computer Aided Design                        | 1     |
| ELC 2320                | Electric Circuit Theory for non-ECE majors                   | 3     |
| EGR 3380                | Engineering Design I   | 3     |
| EGR 4390                | Engineering Design II  | 3     |
| ME 2320                 | Statics  | 3     |
| ME 2321                 | Dynamics   | 3     |
| ME 2345                 | Thermodynamics   | 3     |
| ME 3122                 | Materials and Manufacturing Processes Lab                    | 1     |
| ME 3145                 | Thermal/Fluids Laboratory                                    | 1     |
| ME 3320                 | Strength of Materials  | 3     |
| ME 3321                 | Fluid Mechanics  | 3     |
| ME 3322                 | Mechanical Engineering Materials and Manufacturing Processes | 3     |
| ME 3323                 | Machine Design   | 3     |
| ME 3420                 | Instrumentation and Measurements                             | 4     |
| ME 4325                 | Dynamic Systems  | 3     |
| ME 4327                 | Numerical Methods for Engineers                              | 3     |
| ME 4345                 | Heat Transfer  | 3     |
| ME 4346                 | Introduction to Aeronautics                                  | 3     |
| ME 4347                 | Analysis and Design of Propulsion Systems                    | 3     |
| ME 4350                 | Aircraft Flight Dynamics and Control                         | 3     |

#### Aerospace Engineering Elective

|                                       |  |   |
|---------------------------------------|--|---|
| Select one course from the following: |  | 3 |
| ME 4322                               | Computer-Aided Engineering and Design        |   |
| ME 4324                               | Introduction to Finite Element Methods       |   |
| ME 4337                               | Introduction to Computational Fluid Dynamics |   |

|  |  |
|--|--|
| ME 4344  | Composite Materials  |
| ME 4349  | Aircraft Structural Analysis                                 |
| ME 4356  | Introduction to Space Flight                                 |
| A grade of "C" or better in all of the Mechanical Engineering hours counted towards major.   |  |
| <i>Engineering Elective</i>  |  |
| Select one course from the following list of courses or any course listed in section 'c' that was not used to satisfy the Aerospace Engineering Elective |  |
| EGR 3V95   | Internship Experience  |
| EGR 4361   | Conventional & Alternative Energy Systems                    |
| EGR 4375   | Elements of Nuclear Engineering                              |
| EGR 4396   | Special Topics in Engineering                                |
| EGR 4V97   | Special Projects in Engineering                              |
| BME 4370   | Biomaterials: Form and Function                              |
| BME 4374   | Biomechanics   |
| BME 4376   | Introduction to the Design and Evaluation of Medical Devices |
| ELC 4330   | Introduction to Robotics                                     |
| ELC 4372   | Bioinstrumentation   |
| ME 4305  | Sustainable Engineering                                      |
| ME 4320  | Computer-Aided Structural Analysis                           |
| ME 4323  | Mechanical Vibrations  |
| ME 4330  | Introduction to Robotics                                     |
| ME 4336  | Energy Systems Design  |
| ME 4339  | Tribology  |
| ME 4357  | Cardiovascular Engineering and Instrumentation               |
| ME 4360  | Renewable Energy Devices                                     |
| ME 4377  | Solar Energy   |
| ME 4382  | Selection of Materials and Manufacturing Processes in Design |
| ME 4384  | Engineering with Plastics                                    |
| ME 4385  | Failure Analysis and Product Liability                       |
| ME 4386  | Properties and Processing of Electronic Materials            |
| ME 4388  | Corrosion and Sustainable Metallurgy                         |
| ME 4396  | Special Topics in Mechanical Engineering                     |
| ME 4V97  | Special Projects in Mechanical Engineering                   |
| A grade of "C" or better in all the Mechanical Engineering hours counted towards major.  |  |
| <b>Total Hours</b>   | <b>67</b>  |

## ECS Minors

### Engineering & Computer Science (ECS)

#### ECS 1101 ECS Leadership Development Seminar (1)

Pre-requisite(s): For engineering and computer science students only. Provides insights into a student's present leadership strength and development needs. Prepares students for leadership positions, focusing on topics such as a philosophy of leadership, the role of power and authority in leadership, ethics, and goal setting for leadership development.

#### ECS 1V10 Renaissance Scholar: Technology and the Arts (1-3)

Pre-requisite(s): Consent of instructor

A Renaissance Scholar is someone who is conversant across the entire range of human knowledge, from science to philosophy and technology to literature. Through the ages, people have strived to find meaning in their lives, to understand the world around them, and to use their creativity and ingenuity to improve both. Baylor's summer Renaissance Scholar program starts students on the path toward joining the ranks of the great scholars of the past. Issues of both historical and contemporary interest are considered from the perspectives of science, technology, literature, philosophy, theology, and even contemporary film. Students complement readings in the great texts of the world with the design, development, and implementation of two ancient engineering projects. Emphasis is placed on the theory and practical application of scientific and engineering concepts such as the harnessing of energy and the mythical stories that have inspired such activity, the desire for exploration, and the quest for knowledge ranging from ancient tales of self-discovery to the modern exploration of the cosmos.

#### ECS 1V90 Special Topics in Freshman Engineering and Computer Science (1-4)

Introductory topics in engineering or computer science. The course may be repeated when topics vary.

#### ECS 2101 ECS Professional Development (1)

Pre-requisite(s): Only open to majors in the School of Engineering and Computer Science

Personal development and branding, professional etiquette, resume production, career research, and interviewing skills. Exploration of career options, including assessments, internships, job search process, and graduate school admission. Topics will be customized for students pursuing majors in the School of Engineering and Computer Science.

#### ECS 3301 Peer Leadership (3)

The class equips students to serve as peer leaders to new students in their first semester at Baylor.

## Engineering Minor

All students pursuing a minor in Engineering should be advised by the School of Engineering & Computer Science to ensure they are completing appropriate courses for the minor. Exclusions may apply to engineering electives. These exclusions can be found on the ECS website.

### Requirements for Minor in Engineering

| Code  | Title                                | Hours     |
|---|--------------------------------------|-----------|
| <b>Required Courses</b>   |                                      |           |
| A minor in engineering requires twenty-one semester hours in engineering including: |                                      |           |
| EGR 1301  | Introduction to Engineering          | 3         |
| EGR 1302  | Introduction to Engineering Analysis | 3         |
| At least nine (9) semester hours of "3000" or "4000" level engineering electives    |                                      | 9         |
| A grade of "C" or better in all engineering courses used for the minor.             |                                      |           |
| <b>Total Hours</b>  |                                      | <b>15</b> |

## Computer Science Minor

### Requirements for a Minor in Computer Science

| Code  | Title   | Hours     |
|---|---|-----------|
| <b>Required Courses</b>   |   |           |
| Twenty-three semester hours in computer science including the following:                          |   |           |
| CSI 1430  | Introduction to Computer Science I with Laboratory  | 4         |
| CSI 1440  | Introduction to Computer Science II with Laboratory | 4         |
| CSI 2350  | Discrete Structures                                 | 3         |
| CSI 3334  | Data Structures                                     | 3         |
| CSI 3344  | Introduction to Algorithms                          | 3         |
| Six semester hours of "3000" - "4000" level computer science elective that apply toward the major |   | 6         |
| A grade of "C" or better in computer science courses used for the minor.                          |   |           |
| <b>Total Hours</b>  |   | <b>23</b> |

## Data Science Minor

### Requirements for a Minor in Data Science

| Code   | Title                          | Hours     |
|--|--------------------------------|-----------|
| <b>Required Courses</b>  |                                |           |
| Twenty semesters hours in computer science and data science including the following: |                                |           |
| CSI 1401   | Introduction to Programming I  | 4         |
| CSI 1402   | Introduction to Programming II | 4         |
| CSI 2300   | Introduction to Data Science   | 3         |
| Select nine semester hours from the following "3000" - "4000" level courses:         |                                | 9         |
| DSC 3310   | Cloud Computing                |           |
| DSC 3334   | Algorithms and Data Structures |           |
| DSC 3335   | Database Design & Application  |           |
| DSC 3344   | Analytics for Machine Learning |           |

## Robbins College of Health and Human Sciences

### Introduction

On May 16, 2014, after more than three years of evaluation and input from Baylor regents, deans, faculty and staff, and external entities, including healthcare partners and the consulting firm Grant Thornton, the Baylor Board of Regents approved the creation of the College of Health and Human Sciences. The academic units that form the College - Communication Sciences and Disorders, Human Sciences and Design, Health, Human Performance and Recreation, Department of Public

Health, and the Division of Health Professions - share a common purpose: improving health and the quality of life. A transformational naming gift was made in 2014 renaming the college the Robbins College of Health and Human Sciences.

Robbins College (HHS) is creating curricula that promotes a team-based approach to transformational education and research that has established interdisciplinary research collaborations to advance solutions for improving quality of life for individuals, families, and communities.

### Mission

Robbins College at Baylor University draws upon Baylor's Christian mission and both innovation and tradition to prepare scholars and leaders who can translate theory into practice through translational research and advance knowledge of health, human behavior, and quality of life. Robbins College strives to:

- Create and support an interdisciplinary environment for discovery, learning, and engagement through transformational education
- Promote and emphasize evidence-based research practice and innovative approaches
- Hire and retain faculty who are leaders in the health and human sciences
- Develop and deliver educational programs that attract and prepare undergraduate and graduate students for professions dedicated to the improvement of health, human behavior and quality of life.
- Support research that discovers new ideas, advances knowledge with novel questions and is responsive to ever-changing conditions of health, human sciences and quality of life.
- Engage with diverse constituencies and communities to address a broad spectrum of human needs.

## Endowed Positions in the Robbins College of Health and Human Sciences Chairs

Brown Foundation Endowed Chair

The Mary Gibbs Jones Endowed Chair in Family & Consumer Sciences

The Martin Family Endowed Chair in Communication Sciences and Disorders

### Scholarships

*An asterisk (\*) denotes that the scholarship also is listed under another department.*

### Department of Communication Sciences and Disorders

The Dr. Madalene Barnett Scholarship in Communication Sciences and Disorders

The James F. and Beverly H. Eberts Scholarship in Speech Pathology and Audiology

The Abbey and Ann Elliston Scholarship

The Don and Faith Martin Scholarship

The Speech Pathology/Audiology Scholarship

The Hallie Mae Holman Scholarship in Speech Pathology

The Rhonda S. Reynolds Scholarship Fund

Communication Disorders Scholarship

### Department of Human Sciences and Design

The Human Sciences and Design Department Scholarship

The Florence M. Allen Scholarship in Human Sciences and Design

The Sally B. Burkett Scholarship in Human Sciences and Design  
 The Wilma Pitts Griffin Scholarship  
 The Mary Gibbs Jones Scholarship in Human Sciences and Design  
 The Tommie and John Lawhon III Scholarship in Human Sciences and Design  
 The Launa A. Morrow Memorial Endowed Scholarship Fund  
 The William and Laverne Nelson Scholarship  
 The Alma Holmes Nichols Scholarship  
 The Mr. and Mrs. Clyde R. Robertson Memorial Scholarship in Human Sciences and Design  
 The Retha Sanders Scholarship in Human Sciences and Design  
 The Eunice Clark Scaief Memorial Scholarship in Human Sciences and Design  
 The Mr. and Mrs. T.D. Stevens Academic Scholarship in Human Sciences and Design  
 The Melba Justice Scholarship  
 The Greta and Murray Watson Scholarship  
 The Terry L. Brown Scholarship  
 Lelda C. Walker and Granddaughter Kelly L. Walker Endowed Scholarship Fund  
 Shannon Pratt Gledich Endowed Scholarship Fund  
 Apparel Design and Product Development Endowed Scholarship Fund

## Department of Health, Human Performance and Recreation

Brenda Boiles Scholarship  
 Myra Millard Scholarship  
 Lloyd Russell Scholarship  
 "Dutch" Schroeder Scholarship  
 Olga Fallen Scholarship  
 Eveline Kappes Scholarship  
 Halye & Norman Frederick Scholarship  
 T'Dee L. Bracken Scholarship in Elementary or All-Level Physical Education  
 Frank "Pogo" Smith Scholarship in Recreation  
 Roper Family Scholarship in Outdoor Recreation  
 LT & Genevieve Halbert Scholarship in Recreation  
 Red & Sandra Covington Scholarship in Athletic Training  
 Red & Sandra Covington Scholarship in Health Science Studies, Pre-Med/Pre-Dent  
 Brendon Chase Mooney Scholarship in Exercise Physiology  
 Burna F. Battles Scholarship in Recreation  
 Mary E. Tindle Endowed Scholarship  
 Joan Karel Mooney Endowed Scholarship

## Robbins College of Health and Human Sciences Faculty

| Name                        | Title   |
|-----------------------------|---|
| Sheri L. Dragoo, Ph.D.      | Interim Dean  |
| Denny Kramer, Ph.D.         | Associate Dean for Graduate Programs and Division of Health Professions |
| Michaela J. Ritter, Ed.D.   | Associate Dean for Undergraduate and International Studies              |
| Renee Umstattd-Meyer, Ph.D. | Associate Dean for Research   |

## Department of Communication Sciences and Disorders

Diane Loeb, Ph.D., Chair  
 Marnie C. Abrahams, M.A.  
 Paul Blanchet, Ph.D.  
 Nicki Brown, M.S.  
 Melony Cannon, M.S.  
 Kristen Davis, M.S.  
 Carrie D. Drew, Au.D.  
 Samantha Dvorak, SLP.D.  
 J. David Garrett, Ph.D.  
 Venessa Grandjean, SLP.D.  
 Jeremy Hathway, M.S.  
 Lewis Lummer, Ed.D.  
 Steven Moates, SLP.D.  
 Kristen Muller, Ph.D.  
 D'Anna Nowack, SLP.D.  
 Jungjun Park, Ph.D.  
 Jana Parker, M.S.  
 Brittany Perrine, Ph.D.  
 Donna C. Powell, M.S.  
 Alison Prael, Ph.D.  
 Deborah A. Rainer, M.S.  
 Hollie R. Sammons, M.S.  
 Janet Sanker, M.A.  
 Susan L. Sherman, M.S.  
 Kristle Soto, M.S.  
 Janice A. Stewart, M.S.  
 Nadine Welch, M.S.  
 Lori A. Wrzesinski, M.S.  
 Hyunsoo Yoo, Ph.D.  
 Yang-Soo Yoon, Ph.D.

## Department of Human Sciences and Design

Sheri L. Dragoo, Ph.D., Chair  
 Amber Arnold, M.S., R.D.  
 Maria L. Boccia, Ph.D.  
 Michelle R. Brown, M.A.  
 Rochelle R. Brunson, Ph.D.  
 Nick Cox, Ph.D.  
 Ruthie Davis, M.S.  
 Lorynn R. Divita, Ph.D.  
 Jaynie Fader, M.S.  
 LesLee Funderburk, Ph.D.  
 Leigh Greathouse, Ph.D.  
 Debra Harris, Ph.D.  
 Elise King, M.I.D.  
 Michelle L. Law, Ph.D.  
 Briana M. Martinez, Ph.D.  
 Nicole McAninch, Ph.D.  
 Karen Melton, Ph.D.  
 Dawn Michaelson, Ph.D.  
 April J. Stull, Ph.D.  
 Ann M. Theriot, M.A.  
 Stanley R. Wilfong, Jr., M.S., R.D.  
 Jeong-Ju Yoo, Ph.D.

## Department of Health, Human Performance, and Recreation

W. Dale Connally, Ph.D., Chair  
 Justin Adeyemi, Ph.D.  
 Tricia D. Blalock, PT, DPT, MPH, CLT  
 Cory M. Dungan, Ph.D.  
 Jeff Forsse, Ph.D., ACSM EP-C  
 Andrew Gallucci, Ph.D.  
 Paul Gordon, Ph.D., MPH  
 Heather Hudson, Ed.D., LAT, ATC  
 Mary Ann Jennings, Ed.D.  
 Yunsuk Koh, Ph.D.  
 Brian C. Leutholtz, Ph.D., FACSM  
 Kelli K. McMahan, Ph.D.  
 Andrew R. Meyer, Ph.D.  
 Glenn A. Miller, Ph.D.  
 Joon Y. Park, Ph.D.  
 Jaeho Shim, Ph.D.  
 Cory M. Smith, Ph.D.  
 Erika Sutton, PT, DPT, FAAOMPT  
 Michael Wiggs, Ph.D.  
 Matthea Williams, Ed.D.  
 Margaret E. Wooddy, Ph.D.  
 Christopher J. Wynveen, Ph.D.

## Department of Public Health

Eva J. Doyle, Ph.D., MSED, Chair  
 Emmanuel A. Akowuah, Dr.PH., MS  
 Matthew Asare, Ph.D., MPH., MBA  
 Rodney G. Bowden, Ph.D.  
 Ebun O. Ebunlomo, Ph.D., MPH  
 Beth A. Lanning, Ph.D.  
 Emeka Okafor, Ph.D., MPH  
 Jasmine Opusunju, Dr.PH, MSED  
 Margo Shanks, MPH  
 Renee Umstattd-Meyer, Ph.D.  
 Liang Wang, M.D., Dr. PH., MPH  
 Kelly R. Ylitalo, Ph.D.

## Degrees and Requirements

### Undergraduate Programs

Please refer to the outlines of degree requirements in this catalog.

#### Majors

##### Bachelor of Science

- Apparel Design and Product Development
- Apparel Merchandising
- Child and Family Studies - Child Development Concentration
- Child and Family Studies - Child Life Concentration
- Child and Family Studies - Family Life Education Concentration
- Child and Family Studies - Pre-Occupational Therapy Concentration
- Communication Sciences and Disorders - Speech Pathology
- Communication Sciences and Disorders - Deaf Education
- Exercise Physiology
- Human Sciences and Design
- Health Science Studies - Pre-Athletic Training
- Health Science Studies - Pre-Medical/Pre Dental

- Health Science Studies - Pre-Physical Therapy
- Health Science Studies - Pre-Physician Assistant
- Health Science Studies - Health Professions
- Interior Design
- Nutrition Sciences

##### Bachelor of Science in Education

- Health, Kinesiology, and Leisure Studies
- Physical Education - All levels
- Recreation Leisure Services - Outdoor Recreation
- Recreation Leisure Services - Recreation Ministry
- Recreation Leisure Services - Community Sport

##### Bachelor of Science in Public Health

- Public Health

##### Secondary Majors

- Recreation and Leisure Services

##### Minors

- American Sign Language
- Apparel Merchandising
- Child and Family Studies
- Dance
- General Human Sciences and Design
- Nutrition Sciences
- Outdoor Education and Leadership
- Recreation Ministry

## Graduate Programs in the College of Health and Human Sciences

Note: See the Graduate School Catalog for descriptions of these programs.

#### I. Master of Science

Communication Sciences and Disorders  
 Nutrition Sciences  
 Exercise Physiology  
 Sport Pedagogy

#### II. Master of Athletic Training

Athletic Training

#### III. Master of Public Health

Community Health  
 Epidemiology  
 Environmental Health Science

#### IV. Doctor of Philosophy

Exercise & Nutrition Sciences

## Degree Requirements

### General Regulations for the College of Health and Human Sciences

Certain regulations are common to all of the undergraduate degrees conferred by the Robbins College of Health and Human Sciences. Additional regulations are listed in this catalog under "General University Regulations."

1. Minimum requirement: 124 semester hours. Some programs may exceed the minimum.

2. Residence requirement: minimum sixty semester hours. After a student achieves senior standing (90 earned credits), all upper division courses (3000 or 4000 level) must be taken in residence (or in a Baylor approved study abroad program).  
Note: After matriculation, a student may transfer a maximum of fifteen semester hours to Baylor.
3. Grade point average: minimum of 2.00 ("C") overall and also in the major and minor for work at Baylor. Some departments require a "C" or better in every course applying to the major or minor.
4. Course substitutions: Students who substitute an upper-level course for a lower-level requirement may not retain the upper-level credit. The exception to this policy is when a lower-level course is a specific prerequisite for the upper-level course.
5. English: Because strong writing skills are essential for success in all academic programs, students are encouraged to take writing courses early in their academic careers.
6. Foreign Language:
  - a. American Sign Language, Arabic, Chinese, French, German, Greek, Hebrew, Italian, Japanese, Korean, Latin, Portuguese, Russian, Spanish, and Swahili may be used.
  - b. Students who have taken courses in Spanish, French, or German may need to take the placement test in that language, given at the Language Acquisition Center, 300 Draper. These test scores will help advisors place students at the most appropriate level to begin their foreign language study at Baylor.
  - c. Students who have taken courses in Latin may take a placement test in the Classics Department Office, 333 Morrison Hall.
  - d. Students who have taken courses in American Sign Language may take a placement test.
  - e. If a student has taken high school courses in a language for which a placement test is unavailable, the student should consult with the department (Modern Languages and Cultures or Classics) to determine the appropriate level at which to begin foreign language courses at Baylor.
7. Teacher Certification: Students seeking teacher certification should contact the School of Education for complete requirements.
8. Lifetime Fitness:
  - a. It is waived for students who have reached age 25 at the time of matriculation to Baylor; veterans (one semester hour per 135 days active duty); students in Aerospace Studies (one hour per semester selected from AS 1111 Leadership Laboratory, AS 1112 Leadership Laboratory, AS 2111 Leadership Laboratory, AS 2112 Leadership Laboratory; laboratory required); students in Military Science (one hour per semester selected from MILS 1111 Leadership Lab I, MILS 1112 Leadership Lab II, MILS 2111 Basic Leadership Lab I, MILS 2112 Basic Leadership Lab II; laboratory required); athletic participants (one hour for sport participation, maximum waiver two semesters); marching band (one hour for each fall semester, maximum waiver two semesters). One hour of PPS 1100 Introduction to Citizenship and Community Service may substitute for one semester of LF on the B.S. degree. One hour of PUBH 1145 Health and Human Behavior may substitute for one semester of LF, except for students who have completed BIC 1112 Examined Life.
  - b. For those students with physical disabilities, an adaptive and/or academically oriented program will be provided. Students with disabilities should present to coordinators at registration a medical statement from the Baylor physician outlining the nature of their disability and recommendation for activity.
  - c. A maximum of four Lifetime Fitness courses may be counted on a degree program.
  - d. For further information, see the list in this section of this catalog.
9. Chapel: Students entering as freshmen or who transfer as freshmen or sophomores are required to attend two semesters of Chapel. Students who transfer to Baylor and are classified as juniors or seniors must attend one semester of Chapel.
10. Major:
  - a. One required; others, if available on the same degree, may be elected from the list of majors included in the section in this catalog on undergraduate programs for each degree. See departmental sections for specific requirements.
  - b. Twenty-seven hours minimum required; higher for some majors.
  - c. Residence – minimum twelve hours, all advanced.
  - d. Advanced work – minimum fifteen hours.
  - e. Grade point average – a minimum of 2.00 ("C") on all courses in the major taken at Baylor. Some departments require a "C" or better in every course applying to the major.
11. Secondary Major:
  - a. Optional; may elect one or more secondary majors. Specific requirements in departmental sections of this catalog.
12. Minor:
  - a. Optional; may elect one or more minors. Specific requirements in departmental sections of this catalog.
  - b. Eighteen hours minimum required; slightly higher for some minors.
  - c. Residence – minimum twelve hours, nine hours advanced.
  - d. Advanced work – minimum nine hours.
  - e. No more than a maximum of three hours from the major or secondary major may be applied to the minor.
  - f. Grade point average – a minimum of 2.00 ("C") on all courses in the minor taken at Baylor. Some departments require a "C" or better in every course applying to the minor.
13. Advanced work ("3000" or "4000" numbered courses): minimum thirty-six semester hours.
  - a. To be earned after junior status is attained.
  - b. Mathematics, physics, chemistry, biology, and language courses at the "3000" level may be taken as soon as necessary prerequisites are completed and will be considered advanced work.
  - c. No junior college course, regardless of content, will be considered advanced.
  - d. No transferred course will be considered advanced unless it was so rated by the college where taken, and unless Baylor's equivalent course is advanced.
  - e. Please refer to the section on eligibility for courses in this catalog.
14. Maximum credit: Within the minimum of 124 hours required for a degree, the following maximum credits are applicable:
  - a. four courses of Lifetime Fitness and
  - b. ten hours of applied music and/or ensemble.

## Attendance Policy for the College of Health and Human Sciences

To earn course credit in the College of Health and Human Sciences, a student must attend at least 75 percent of all scheduled class meetings. Any student who does not meet this minimal standard will automatically

receive a grade of “F” in the course. Faculty members may establish more stringent requirements regarding attendance, punctuality, and participation. Any attendance requirements and penalties for excessive absences will be set forth in the syllabus for each course.

If a student’s required participation in a University-sponsored activity causes the student to miss class, this is ordinarily considered an absence and shall count against the student when determining whether a student has attended the required 75 percent of class meetings. However, if in this event the student seeks to make arrangements prior to the absence to complete scheduled assignments, the faculty member will work with the student to allow for the completion of missed classwork and assignments.

In the event of serious illness, accident, or death in the family, students should contact their professors as soon as they are able. When such a crisis prohibits the student from being able to make immediate contact, the office of the Chaplain notifies faculty when information is available; the Chaplain, does not, however, pursue official verification of such reports. Requests by faculty to verify the nature of an absence should be made to the student upon the student’s return. Students are usually allowed to make up classwork and/or tests missed which result from such crises; however, the absences shall count against the student when determining whether a student has attended the required 75 percent of class meetings. In some circumstances, the instructor may choose to assign an alternate quiz/assignment or drop/waive the missed quiz/assignment in such a way that it does not penalize the student’s final grade. As these instances are academic matters, any dishonesty on the part of the student in such a situation is considered a violation of the University Honor Code.

In addition to the College of Health and Human Sciences Attendance Policy, faculty and students will be guided by the University Attendance Policy in the Undergraduate Catalog.

## Bachelor of Science

| Code  | Title  | Hours |
|---|--|-------|
| <b>Requirements</b>   |  |       |
| Minimum Requirement   |  | (124) |
| Residence Requirement – minimum   |  | (60)  |
| Grade point average – minimum of 2.00 (“C”) overall and in the major for work done at Baylor. |  |       |
| <b>Basic Requirements</b>   |  |       |
| <i>Chapel</i>   |  |       |
| Chapel – two semesters  |  | 0     |

| <i>Communication and Media Literacy (One Course)</i>  |  |       |
| Select 3 hours from the Communication and Media Literacy distribution list.                   |  | 3     |

### Contemporary Social Issues (One Course)

|   |   |
|---|---|
| Select 3 hours from the Contemporary and Social Issues distribution list. | 3 |
|---|---|

### Fine Arts and Performing Arts (One Course)

|  |     |
|--|-----|
| Select 2-3 hours from the Fine Arts and Performing Arts distribution list. | 2-3 |
|--|-----|

### Foreign Languages and Cultures

|                  |     |
|------------------|-----|
| Select 3-8 hours | 3-8 |
|------------------|-----|

### Formal Reasoning (One Course)

|   |   |
|---|---|
| Select 3 hours from the Formal Reasoning distribution list. | 3 |
|---|---|

### Research, Writing, & Literature (Two Courses)

|  |   |
|--|---|
| Select 6 hours from the Research, Writing, and Literature distribution list. | 6 |
|--|---|

### Scientific Method I (with Laboratory Experience)

|   |  |
|---|--|
| One 4-hour course with included lab or lecture and matching lab |  |
|---|--|

|   |   |
|---|---|
| Select 4 hours from the Scientific Method I (with Laboratory Experience) distribution list. | 4 |
|---|---|

### Scientific Method II—Additional Science or Grand Challenges of Science

|                              |     |
|------------------------------|-----|
| Select one of the following: | 3-4 |
|------------------------------|-----|

|   |  |
|---|--|
| Select 3-4 hours from the Scientific Method II—Grand Challenges of Science Course distribution list |  |
|---|--|

Or another 4-hour course from Scientific Method I

### Lifetime Fitness

|                |   |
|----------------|---|
| Select 3 hours | 3 |
|----------------|---|

### Major

One required; others may be elected from the list of majors for this degree included in the section in this catalog on undergraduate programs. See departmental sections for specific requirements.

### Minor

Optional; may elect one or more minors. Specific requirements in departmental sections of this catalog.

### Advanced Work Minimum

|                                   |    |
|-----------------------------------|----|
| “3000” or “4000” numbered courses | 36 |
|-----------------------------------|----|

### Maximum Credit

Within the minimum of 124 hours required for a degree, the following maximum credits are applicable:

|  |  |
|--|--|
| (1) four courses of Lifetime Fitness, and      |  |
| (2) ten hours of applied music and/or ensemble |  |

|                    |              |
|--------------------|--------------|
| <b>Total Hours</b> | <b>81-88</b> |
|--------------------|--------------|

Additional information on the requirements for advanced credit, residence, chapel, minimum grade point average, maximum credit, and majors and minors is listed under the “General Regulations for the College of Health and Human Sciences” and “General University Regulations.”

with Laboratory Experience Distribution List

### Lifetime Fitness Distribution List (Three Courses)

| Code                                   | Title   | Hours |
|--|---|-------|
| Select three hours from the following: |   |       |
| Any LF-prefix course                   |   | 3     |
| PUBH 1145                              | Health and Human Behavior <sup>1</sup>                            | 1     |
| PPS 1100                               | Introduction to Citizenship and Community<br>Service <sup>1</sup> | 1     |

<sup>1</sup> Students may choose either PUBH 1145 Health and Human Behavior  
or PPS 1100 Introduction to Citizenship and Community Service to  
replace one of the 3 required LF courses. Two hours of the Lifetime  
Fitness requirement must be met by activity LF courses.

## Honor Societies

### Kappa Omicron Nu

Kappa Omicron Nu is a national honor society in the field of human sciences, which has been on campus since 1972. Human Sciences and Design majors are eligible after completing twelve hours in Human Sciences and Design courses with a 3.6 GPA and a 3.4 overall GPA. The goals of the organization include recognition of scholarship, development of leadership, association of students with faculty, and encouragement of research. New members are initiated in the fall and spring, and meetings are held monthly.

### Eta Sigma Gamma

Eta Sigma Gamma is a National Health Education Honorary which promotes the discipline by elevating the standards, ideals, competence, and ethics of professionally prepared men and women in Health Education. Membership is open to any Baylor student who has completed at least two semesters and officially declared a major or minor in community health education. Candidates must earn a grade point average of at least 2.7 (on a 4.0 grade point system) in one semester followed by an average of at least 2.5 in the next semester to be eligible for election in the Baylor chapter, Epsilon Alpha.

## Professional Organizations

### Baylor Apparel Professionals

Baylor Apparel Professionals is the organization for apparel design and product development and apparel merchandising majors. It offers a wide variety of educational and leadership opportunities. Through monthly programs, the students may network with professionals from the

fashion field to learn more about career opportunities in the industry. The organization initiates two field experiences yearly.

### **Baylor Interior Design Association (BIDA)**

The Baylor Interior Design Association is the student organization representing both student membership and involvement with the professional organizations of the American Society of Interior Designers (ASID) and the International Interior Design Association (IIDA). Members participate in monthly meetings, professional-sponsored student events and programs, and various other learning experiences that support and enhance their academic training.

### **Student Dietetic and Nutrition Association (SDNA)**

The Student Dietetic and Nutrition Association provides nutrition information and career information to the students in the organization as well as anyone else interested in dietetics. The membership of BSNA is open to any student with a declared major in nutrition science. BSNA is the student organization of the Texas Academy of Nutrition and Dietetics and the Academy of Nutrition and Dietetics.

### **Child and Family Studies Organization (CFSO)**

The Child and Family Studies (CFSO) organization is open to Child and Family Studies Majors and all other students interested in topics related to Child and Family Studies. CFSO holds monthly meetings, in which students learn about current trends in the field and engage with professionals from a variety of career paths. The organization further provides professional development opportunities by providing service to organizations who work with children and families and engaging in annual professional conferences.

### **National Student Speech Language Hearing Association (NSSLHA)**

The Baylor Chapter of the National Student Speech Hearing Language Association (NSSLHA) is an organization of students in the field of Speech/Language Pathology and Audiology. The purpose of the organization is to teach students to serve their profession and to encourage continued involvement in professional organizations. The organization addresses new directions and conflicts which arise within the field. In addition, NSSLHA provides opportunities for students to interact with professionals working in the field. Membership is open to students enrolled in the Department of Communication Sciences and Disorders.

### **Phi Theta**

Phi Theta is Baylor University's club for students interested in physical therapy, occupational therapy, or sports medicine. It serves as a resource for students who are seeking information about physical therapy and occupational therapy schools and job opportunities. Guest speakers include representatives from physical therapy and occupational therapy schools and local physical therapists and occupational therapists. Field trips to local rehabilitation clinics and professional schools are also made.

### **Athletic Training Student Association**

The Athletic Training Student Association was organized and chartered in 2006. Its purpose is to promote and enhance athletic training both on and off campus through education, community service, team building and leadership development, funds development, and recruiting and promotion. Membership is open to all athletic training students.

## **Academic Departments**

- Communication Sciences and Disorders (p. 362)
- Health, Human Performance, and Recreation (p. 367)
- Human Sciences and Design (p. 387)
- Public Health (p. 406)

## **Communication Sciences and Disorders**

### **Note for All Department of Communication Sciences and Disorders Majors**

The requirements governing the selection of courses and clinical practicum experiences must be individualized based upon the date when a student begins the program and the courses that he or she takes. Therefore, all students must consult with their advisor within the department for guidance in fulfilling the new American Speech-Language-Hearing Association's 2020 standards.

Students planning a career in audiology and speech pathology are encouraged to pursue a master's degree. Upon completion of the master's degree in communication sciences and disorders, students are eligible to seek certification by the American Speech-Language-Hearing Association and to seek licensure as speech pathologists.

The Masters (MS) education program in Speech-Language Pathology at Baylor University is accredited by:

The Council on Academic Accreditation in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association  
2200 Research Blvd.  
Rockville MD, 20850  
(301) 296-5700.

Practical experience is offered through the Baylor University Speech, Hearing, and Language Center, which provides diagnostic services and treatment for patients who have communication disorders. Services are provided to the community for a small fee. Appointments may be made at the clinic by calling 254-710-2568.

- Deaf Education Concentration - CSD, B.S. (p. 365)
- Speech Language Pathology and Audiology Concentration - CSD, B.S. (p. 365)

## **Communication Sciences and Disorders (CSD)**

### **CSD 1308 Survey of Speech Pathology and Audiology (3)**

An introduction to the nature and causes of speech, language, and hearing disorders and speech-language pathology as an educational and clinical field.

### **CSD 1360 Introduction to Deaf Education (3)**

Practical and legal aspects of Deaf Education, focusing on history of Deaf Education, the role of language and communication, and an overview of deaf programs in diverse settings.

**CSD 1405 American Sign Language I (4)**

Introduction to American Sign Language and Deaf culture: grammar, lexicalized signs, numbers and basic conversational language.

**CSD 1406 American Sign Language II (4)**

Pre-requisite(s): CSD 1405

Continuation of CSD 1405.

**CSD 2101 Professional Career Development (1)**

Resume and cover letter writing, interviewing, networking, and presenting professional self. Exploration of career options, including assessments, internships, job search process, and graduate school admission specific to Communication Sciences and Disorders.

**CSD 2301 American Sign Language III (3)**

Pre-requisite(s): Minimum grade of C- in CSD 1406

Development of intermediate skills with a focus on expressive language: grammar, non-manual markers, classifiers, lexicalized signs, and storytelling.

**CSD 2302 American Sign Language IV (3)**

Pre-requisite(s): Minimum grade of C- in CSD 2301

Continuation of CSD 2301: conversation, composition, grammar review, cultural readings, and ASL literature.

**CSD 2318 Language Development (3)**

Linguistic theory and language development in normal children.

**CSD 2351 Introduction to Phonological Science (3)**

Introduction to the phonological rules and processes of American English and an examination of descriptive, physiological, and acoustic phonetics.

**CSD 2357 Adult Development (3)**

Physical, intellectual, spiritual, social and emotional development in adulthood, emphasizing developmental tasks in adulthood.

**CSD 2360 Oral Deaf Education Principles and Practices (3)**

Techniques for developing spoken language in children with hearing loss using therapy, linguistic knowledge, technology and practice.

**CSD 3308 Introduction to Speech Sound Disorders (3)**

Pre-requisite(s): Must have completed and earned a "B" or better in each of the following courses: CSD 1308, 2318, 2351, and 3357

Disorders of articulation and phonologic processes, including etiology, methods of assessment, and techniques for remediation.

**CSD 3310 Principles of Interpreting (3)**

The profession of interpreting, including Code of Ethics, certification criteria, roles and responsibilities of an interpreter, and compensation.

**CSD 3311 American Sign Language V (3)**

Pre-requisite(s): CSD 1405, 1406, 2301, and 2302

This course builds on students' receptive and expressive skills in American Sign Language, challenging them to engage with more complex constructs within the realms of general discourse, performance narrative, and academic discussion.

**CSD 3312 Deaf Culture (3)**

A study of Deaf Culture, with special attention to historical and contemporary perspectives of the Deaf community: history, values, identity and enculturation, family, community, religion, language, arts, and education.

**CSD 3313 Linguistics of American Sign Language (3)**

This course will focus on specific aspects of linguistics and cognition that occur in a visual language as compared/contrasted to/with a spoken language.

**CSD 3314 ASL Literature and Visual Arts (3)**

Pre-requisite(s): CSD 3311

This course provides an overview of different genres of American Sign Language literature and art. Drama, fiction, folklore, humor, painting, short stories, and other forms of literature and arts relative to the Deaf community will be explored.

**CSD 3357 Anatomy and Physiology (3)**

A study of the anatomy and physiology of speech.

**CSD 3359 Neuroscience in Communication Sciences and Disorders (3)**

Pre-requisite(s): Grade of B or better in CSD 1308, 2318, 2351, and 3357

This course is designed to provide a comprehensive introduction to the neuroscience of speech, language, and swallowing and hearing. The student will learn about the relationship of neurological structures and functions and how this knowledge applies to the assessment and intervention of communication and swallowing disorders.

**CSD 4249 Clinical Application of Speech-Language Pathology (2)**

Pre-requisite(s): CSD 4477 or concurrent enrollment

Clinical application of approaches for identifying, assessing, and treatment of individuals with communication disorders.

**CSD 4301 Introduction to Clinical Audiology (3)**

Pre-requisite(s): Must have completed and earned a "B" or better in each of the following courses: CSD 1308, 2318, 2351, and 3357

Hearing sciences and approaches for evaluating hearing: anatomy and physiology of the ear, the decibel, ear pathology, pure-tone audiometry, speech audiometry, and acoustic-immittance audiometry.

**CSD 4302 Language Disorders in Children (3)**

Pre-requisite(s): Must have completed and earned a "B" or better in each of the following courses: CSD 1308, 2318, 2351, and 3357

Basic principles of intervention and assessment for children with language impairments.

**CSD 4305 Technology and Science in Communication Sciences and Disorders (3)**

This course is designated to provide a comprehensive introduction to the technology used in the science of studying speech, language, hearing, and swallowing. Current technology used during research and clinical practice in the field of communication sciences and disorders will be presented.

**CSD 4308 Disorders of Speech and Swallowing (3)**

Pre-requisite(s): Must have completed and earned a "B" or better in each of the following courses: CSD 1308, 2318, 2351, and 3357

Etiologies, characteristics, diagnosis, and treatment of disorders of speech and swallowing.

**CSD 4309 Medical Speech Pathology (3)**

Pre-requisite(s): Must have completed and earned a "B" or better in each of the following courses: CSD 1308, 2318, 2351, and 3357

Etiologies, characteristics, diagnosis, and treatment of disorders associated with medical speech pathology.

**CSD 4312 Advanced Clinical Audiology (3)**

Pre-requisite(s): CSD 4301 and must have completed and earned a "B" or better in CSD 1308, 2318, 2351, and 3357

Routine and advanced audiologic measures, including masking and evoked-potential tests. Practical clinical experiences.

**CSD 4322 ASL/English Interpreting I (3)**

Pre-requisite(s): CSD 2302

An introduction to the process of interpreting and development of required skills: communication theory, non-verbal communication, intralingual skills, translation to and from written English texts, and consecutive interpreting.

**CSD 4323 ASL/English Interpreting II (3)**

Pre-requisite(s): CSD 2302 and 4322

A continuation of ASL/English Interpreting I. Continued development of necessary interpreting skills, with an emphasis on simultaneous interpreting.

**CSD 4352 Diagnostic Methods (3)**

Pre-requisite(s): Must have completed and earned a "B" or better in each of the following courses: CSD 1308, 2318, 2351, and 3357 or Graduate Online CSD student

A study of diagnostic methods used in speech and language pathology, including interviewing, taking case histories, testing, and counseling. Evaluation of the standardization, reliability, and validity of existing tests. Practical application is required.

**CSD 4358 Speech Science (3)**

Pre-requisite(s): Must have completed and earned a 'B' or better in each of the following courses: CSD 1308, 2318, 2351, and 3357 or Graduate Online CSD student

Basic sciences underlying speech and hearing: physics of sound, the decibel, instrumentation, speech production, speech perception, and audition.

**CSD 4360 Language and Literacy Instruction for the Deaf I (3)**

Co-requisite(s):

Pre-requisite(s): CSD 1360

Contemporary practices in teaching literacy for Deaf/Hard of Hearing students, including bilingual assessment and intervention. Requires practicum hours.

**CSD 4361 Language and Literacy Instruction for the Deaf II (3)**

Co-requisite(s):

Pre-requisite(s): CSD 4360

A continuation of CSD 4360. Requires practicum hours.

**CSD 4368 Introduction to Aural Rehabilitation (3)**

Pre-requisite(s): CSD 4301 or consent of instructor; and must have completed and earned a "B" or better in each of the following courses: CSD 1308, 2318, 2351, and 3357 or CSD Online student

Methods for rehabilitating persons with hearing impairment: evaluating communicative needs, amplification devices, auditory-visual training, and modes of communication for the deaf and hearing impaired.

**CSD 4477 Clinical Methods (4)**

Pre-requisite(s): CSD 3308; and must have completed and earned a "B" or better in each of the following courses: CSD 1308, 2318, 2351, and 3357 or Graduate Online CSD student

Methods for treating individuals who have communication disorders. Observation of therapy conducted in the Baylor Speech, Hearing, and Language Clinic is required.

**CSD 4660 Internship I Deaf and Hard of Hearing EC-12 Part 1 (6)**

Co-requisite(s): CSD 4661

Pre-requisite(s): Minimum grade of B in both CSD 4360 and 4361, and satisfactory performance on the CSD departmental ASL proficiency exam

Full-time teaching experience in a Deaf/Hard of Hearing program. A mentor teacher and Baylor faculty will support teacher candidates as they gradually assume complete responsibilities for teaching. Course includes fifty-minute seminars to be attended each week.

**CSD 4661 Internship I Deaf and Hard of Hearing EC-12 Part 2 (6)**

Co-requisite(s): CSD 4660

Pre-requisite(s): Minimum grade of B in both CSD 4360 and 4361 and satisfactory performance on the CSD departmental ASL proficiency exam

Planning and preparing lessons and materials for full-time teaching. Includes completion of content modules, conferencing with mentor teacher and university supervisor, written lesson reflections, and observation of lessons taught by mentor teachers.

**CSD 4662 Internship II Deaf and Hard of Hearing EC-12 Part 1 (6)**

Co-requisite(s): CSD 4663

Pre-requisite(s): Minimum grade of B in both CSD 4660 and 4661  
Continuation of CSD 4660.

**CSD 4663 Internship II Deaf and Hard of Hearing EC-12 Part 2 (6)**

Co-requisite(s): CSD 4662

Pre-requisite(s): Minimum grade of B in both CSD 4660 and 4661  
Continuation of CSD 4661.

**CSD 4V85 Special Problems in Communication Sciences and Disorders (1-6)**

Pre-requisite(s): Fifteen semester hours in Communication Sciences and Disorders or Graduate Online CSD student

A conference course providing additional study in communication sciences and disorders. May be repeated once for credit.

**CSD 4V86 Health Science Leadership: Community Engagement and Service-Learning (1-3)**

Intensive integration of academic study and service-learning experiences with the community. Approval to take this course must be obtained from the faculty member and the CSD Chair. This course may be repeated once with faculty approval.

**CSD 4V87 Health Science Leadership: Applied Research (1-3)**

Intensive integration of academic study with an active research project under the supervision of a Communication Sciences & Disorders faculty member. Approval to take this course must be obtained from the faculty member and CSD Chair. This course may be repeated once if research continues.

**CSD 4V98 Health Science Leadership: Community Engagement and Service-Learning (1-3)**

Intensive integration of academic study and service-learning experiences with the community. Approval to take this course must be obtained from the faculty member and the CSD Chair. This course may be repeated once with faculty approval.

## American Sign Language (ASL) Minor

### Requirements for a Minor in "American Sign Language"

Our ASL minor is designed to provide an opportunity for students to work toward linguistic competency in ASL, a skill set that can be applied to careers in education, health, recreational services, speech-language pathology, interpreting, and more. While working toward linguistic competency students will also explore the literature, history, and culture of America's Deaf community and its influence on the larger global Deaf community. Students who have an interest in linguistics, language, culture, missions, and social justice issues will find this minor appealing.

Students wishing to transfer in ASL are to take the CSD departmental ASL placement exam if their college is not listed on the course equivalency list for Baylor University.

| Code   | Title                                 | Hours     |

<sup>1</sup> In order to be eligible to take the upper level CSD courses, students must have completed and earned a "B" or better in each of the following courses: CSD 1308 Survey of Speech Pathology and Audiology, CSD 2318 Language Development, CSD 2351 Introduction to Phonological Science, and CSD 3357 Anatomy and Physiology.

<sup>2</sup> Minimum grade of C in CSD 1406 American Sign Language II

## Health, Human Performance, and Recreation

The Department offers degree programs in Athletic Training, Exercise Physiology, Health, Kinesiology, and Leisure Studies, Health Science Studies, Physical Education (All-level teacher certification), and Recreation & Leisure Services. These programs offer a comprehensive array of didactic courses and laboratory experiences designed to develop high-quality professionals. The purpose of these programs is to prepare students for careers as physical education teachers and coaches, athletic trainers, public health educators, exercise physiologists, health/fitness specialists, and public or faith-based recreation professionals. The undergraduate degree program in Health Science Studies prepares students for careers in healthcare, such as dentistry, medicine, occupational therapy, and physical therapy through the pre-professional degree programs. The Department also offers a Health, Kinesiology, Leisure Studies program, which is designed to provide students a wide variety of career options. In addition, the Department houses the Lifetime Fitness nonmajor program, which offers over 25 different physical activity skill development courses to all Baylor students, including aerobics, bowling, golf, tennis, weight training, etc. Students pursuing the Bachelor of Science in Education degree with a teaching field in All-level Physical Education must meet School of Education certification requirements.

- Exercise Physiology, B.S. (p. 374)
- Health Sciences Studies, B.S. (p. 375)
- Health, Kinesiology, and Leisure Studies (p. 380)
- Intrauniversity Dance Minor (p. 381)
- Lifetime Fitness (p. 382)
- Outdoor Education and Leadership Minor (p. 383)
- Physical Education (All-Level) (p. 384)
- Recreation and Leisure Services (p. 386)
- Recreation and Leisure Services - Secondary Major (p. 387)
- Recreation Ministry Minor (p. 387)

## Human Performance (HP)

### HP 1101 Theory and Practice in Gymnastics (1)

Pre-requisite(s): Departmental consent required

An introductory skill course beginning with educational gymnastics and progressing to Olympic gymnastics.

### HP 1102 Theory and Practice in Track and Field (1)

Pre-requisite(s): Department consent required

An introductory skill course in track and field meeting during the spring semester of the freshman year.

### HP 1103 Theory and Practice in Dance (1)

Pre-requisite(s): Departmental consent required

A comprehensive skills course in the fundamentals of dance. Included are folk, aerobic, and modern dance skills.

### HP 1108 Elementary School Physical Activities (1)

This is an activity course for students interested in working with elementary age students. It is designed to introduce Baylor students to developmentally appropriate activities for elementary age children in the areas of fundamental skills, perceptual motor skills, games and sports skills, rhythmic activities and gymnastic skills. Through the context of movement, students will be exposed to the techniques, behaviors and approaches used by effective elementary physical education teachers.

### HP 1144 Theory and Practice in Tumbling and Dance (1)

Pre-requisite(s): Departmental consent required

A course designed to develop fundamental skills in tumbling and dance (folk, modern and aerobic) and to introduce students to the responsibilities of a cheerleader and/or drill team sponsor.

### HP 1201 Driver Education and Training (2)

A comprehensive driver education course covering all aspects of driving-learning to drive, traffic laws, mechanics of driving, the automobile, proper driving attitudes, and defensive driving. Upon successful completion of course requirements, students receive a Driver Training Certificate for insurance purposes.

### HP 1202 First Aid (2)

Cross-listed as RLS 1202

Pre-requisite(s): For RLS 1202: RLS majors only; for HP 1202: no prerequisite required

A course designed to teach the knowledge and techniques of first aid and emergency procedures. A Red Cross Standard First Aid Certificate is granted on completion.

### HP 1233 Red Cross Water Safety (2)

Pre-requisite(s): Departmental approval required

The most advanced aquatic course offered for certification by the American Red Cross. Prerequisites include prior certification in CPR and either Emergency Water Safety or Life Guarding. This course includes a review of swimming and lifesaving skills, analysis and remediation of stroke mechanics, lesson planning, classroom management, and teaching technique for the aquatic environment.

### HP 1236 Dance Choreography (2)

Pre-requisite(s): A minimum grade of C in HP 1103 or LF 1106 or consent of instructor

See required courses for the major.

### HP 1420 Human Anatomy (4)

Pre-requisite(s): HHPR (EP, HSS, PHSS, HKLS, PEDA, REC) and Public Health (PH) majors only

An introductory course designed to teach the basic life systems in the human body. Detailed examination of the circulatory, muscular, skeletal, respiratory, and endocrine systems will be emphasized.

### HP 1421 Introduction to Human Physiology (4)

Pre-requisite(s): HHPR (EP, HSS, PHSS, HKLS, PEDA, REC) and Public Health (PH) majors only

Provides the scientific foundation for the field of medicine, exercise physiology and all professions related to human health. Basic chemical and biological concepts will provide students the framework to comprehend physiological principles.

**HP 2102 Fitness Concepts and Testing Procedures (1)**

The acquisition of essential skills and knowledge in fitness education that lead to excellent physical conditioning and the ability to administer a variety of fitness tests. Students must demonstrate specified levels of physical fitness to complete the course.

**HP 2304 Advanced First Aid (3)**

Acquisition of skills and knowledge to qualify for Advanced First Aid certification through the American Red Cross or equivalent agency. Additional material in emergency care from a supplementary text is included. Practical application skills are performed.

**HP 2306 Anatomical Kinesiology (3)**

Pre-requisite(s): A minimum grade of C in HP 1420; HHPR (EP, HSS, PHSS, HKLS, PEDA, REC) and Public Health (PH) majors only

A course designed to develop an understanding of human movement through the study of neuromuscular control, anatomical structures, and mechanical principles.

**HP 2307 Biomechanics (3)**

Pre-requisite(s): HHPR (EP, HSS, PHSS, HKLS, PEDA, REC) and Public Health (PH) majors only

An overview of the principles and methods of analyzing human movement from a mechanical and quantitative perspective.

**HP 2309 Medical Conditions and Pharmacology (3)**

Pre-requisite(s): HP 2340 and HP 2342

Athletic Training Majors Only. This course covers the evaluation and prevention of the most common medical conditions. It also covers medications commonly encountered in the practice of physical medicine. It will include categories of drugs; generic and trade names of common drugs; the use, effects and precautions of common drugs; and drug-drug-interactions and pharmacokinetic principles.

**HP 2341 Prevention and Care of Athletic Injuries (3)**

Pre-requisite(s): A minimum grade of C in HP 1420

The course is designed to teach the basic athletic training needs, to teach fundamental skills and methods in athletic training, and to train an individual to take care of both injured and uninjured athletes.

**HP 2409 Emergency Medical Technician - Basic (4)**

Pre-requisite(s): Departmental consent required

This is a Texas Department of Health approved course leading to state certification as an Emergency Medical technician. The class requires classroom and field studies in applicable skills and environment. National Registry Exam available on completion.

**HP 2420 Exercise Physiology (4)**

Pre-requisite(s): A minimum grade of C in HP 1420; HHPR (EP, HSS, PHSS, HKLS, PEDA, REC) and Public Health (PH) majors only

This course provides lecture and lab experience in that aspect of sports medicine which involves the study of the body's response, adjustments, and adaptations to exercise.

**HP 3136 Innovative Games and Adventure Activities (1)**

Designed to assist the student in studies of the mechanics and techniques of each activity. Includes the skills, rules, principles and purposes of each activity. First semester sophomores and above are eligible to enroll in this course.

**HP 3300 Pedagogy of Team Sports (3)**

This course is designed to provide practice in teaching skills, to increase knowledge of games and difference sports rules, and to develop an appreciation for the basic skills in a variety of team sports. First semester sophomores and above are eligible to enroll in this course.

**HP 3301 Pedagogy of Individual Sports (3)**

This course is designed to provide practice in teaching skills, to increase knowledge of the games and different sports rules, and to develop an appreciation for the basic skills in a variety of individual sports. First semester sophomores and above are eligible to enroll in this course.

**HP 3302 Pedagogy of Dance (3)**

Pre-requisite(s): LF 1118 and 1148; or LF 1119

Course includes history, pedagogy, curriculum design, music selection, costuming, creative activities, and dance resources. Field experience includes observation, journal entries, and assisting in a dance environment.

**HP 3311 Essentials of Ethics in Healthcare (3)**

Cross-listed as HED 3311

Pre-requisite(s): REL 1310 and REL 1350

This course presents students with the opportunity to explore current healthcare ethical dilemmas, consider bias, and participate in the formulation of Christian responses in difficult healthcare situations. REL 1310 The Christian Scriptures and REL 1350 The Christian Heritage are prerequisites.

**HP 3312 Introduction to Standardized Patient Methodology (3)**

Cross-listed as THEA 3310

Pre-requisite(s): HHPR THEA majors only

Prior to enrollment students must audition and be selected. In this course students will be provided an introduction to the methodology of standardized patient encounters. Students will learn to be Simulation Performers (e.g., patients, family members) to provide standardized, real-life healthcare scenarios in the training of healthcare providers to improve medical and communication skills.

**HP 3320 Fundamentals of Exercise Biochemistry (3)**

Pre-requisite(s): Upper-level standing

Credit or concurrent enrollment in HP 2420. HHPR (EP, HSS, PHSS, HKLS, PEDA, REC) and Public Health (PH) majors only. An overview of biochemistry and metabolism related to exercise, training adaptations, and nutrition.

**HP 3330 Research Methods and Design in Exercise Science (3)**

Pre-requisite(s): HHPR (EP, HSS, PHSS, HKLS, PEDA, REC) and Public Health (PH) majors only

Introduction to research methods in exercise science including research designs, collection of data with appropriate statistical techniques, as well as the critique of peer reviewed research.

**HP 3346 Elementary School Physical Education (3)**

Pre-requisite(s): Elementary education majors and sophomore standing or above, HHPR majors, or permission from HP program director  
This course is designed for elementary education majors (EC-6 Generalist) and for those interested in working with young children. Students are introduced to the techniques and approaches used by effective physical education teachers as they design and implement elementary physical education programs. Class time is spent in the classroom, the gym, and in local schools exploring how children learn motor skills and adopt physically active lifestyles.

**HP 3368 Adapted Human Performance (3)**

Pre-requisite(s): Upper level standing

A study of the theory of corrective human performance with special emphasis on the analysis of movement and postural deviations and the choice of and application of exercises and activities for their correction.

**HP 3369 Perceptual Motor Skills Development (3)**

Pre-requisite(s): A minimum grade of C in HP 3346; and upper level standing

This course will identify normal developmental sequences and performance patterns of primary and intermediate age children. The emphasis will be the correlation of this information with skills.

**HP 3381 Fundamentals of Human Performance (3)**

Pre-requisite(s): Upper-level standing

This course examines the goals, objectives, and evaluation of exemplary programs.

**HP 3382 Risk Management in HHPR (3)**

Cross-listed as RLS 3382

Pre-requisite(s): Junior level standing; RLS 3382 for RLS majors only; HHPR (EP, HSS, PHSS, HKLS, PED, REC) and Public Health (PH) majors only

Course explores the legal principles and rules of laws affecting administration and operation of health, physical education, recreation, sports programs, resources, areas, and facilities. Risk management and legal concepts are applied to contracts, human rights, property, products liabilities, negligence, and torts.

**HP 3V50 Clinical Research Collaboration (1-3)**

See HED 3V50 for course description.

**HP 3V79 Seminar in HHPR (1-6)**

hrs.

**HP 4301 Choreography and Production (3)**

Pre-requisite(s): LF 1118 and 1148; or LF 1119

This course is designed to enhance a student's performance skills in modern, ballet, and jazz dance. "Choreography" will include original routines using music selection, development of choreography, costuming, lighting, peer teaching, and written step instructions. "Production" will include performance in class as well as experience in production of a show at the end of the semester.

**HP 4352 Exercise and Sport Nutrition (3)**

Pre-requisite(s): HP 2420 and upper-level standing or consent of instructor

An overview of the role of nutrition as a means to enhance health and performance in exercise and sport. Topics to be covered include principles of healthful nutrition, energy metabolism, and nutrients, regulation of metabolism by vitamins and minerals, weight control, and analysis of the validity of proposed nutritional ergogenic aids.

**HP 4354 Techniques of Strength Training and Conditioning (3)**

Pre-requisite(s): HP 2306 and 2420

This course is to study current principles and procedures essential to strength training and conditioning practices. Emphasis is placed on the development and practical applications of aerobic conditioning, joint flexibility, muscular strength, power, and endurance programs.

**HP 4363 Philosophy, Principles, and Administration of Human Performance (3)**

Cross-listed as EDL 4363

Pre-requisite(s): Upper-level standing

Understanding of the fundamental principles and philosophy of human performance as they relate to program development, methodology, organization, and administration. Historical concepts, objectives, and purposes of human performance are also emphasized.

**HP 4368 Motor Learning and Development (3)**

Pre-requisite(s): Upper level standing

HHPR (EP, HSS, PHSS, HKLS, PED, REC) and Public Health (PH) majors only. Skill learning and skill performance, covering the gradual development of human physical abilities over the centuries. The states of an individual's development from childhood to maturity will be studied. Included are factors affecting physical development, the nature of the learning process, and the methods suitable for both the early stages of skill learning and the advanced skill levels.

**HP 4369 Sports Psychology (3)**

Pre-requisite(s): Upper-level standing; HHPR (EP, HSS, PHSS, HKLS, PED, REC) and Public Health (PH) majors only

Examines psychological theories and techniques applied to sport to enhance the performance and personal growth of athletes and coaches. Lecture with an emphasis on discussion. The course is designed to help both present and future coaches to use sound psychological principles to be more effective. Emphasis is given to understanding personality, motivation, confidence, discipline, imagery use, psyching techniques, relaxation training, anxiety and choking, attention and concentration, the psychology of injury and rehabilitation, and clinical issues common in athletics.

**HP 4370 Successful Coaching (3)**

Pre-requisite(s): Upper-level standing

The course is designed to provide a foundation in the practical application of sport science and management. Specifically, the class will address the sport psychology, sport pedagogy, sport physiology and sport management aspects of successful coaching. A 20-hour field-based experience with a middle or high school sports team is required.

**HP 4372 Sociology of Sport (3)**

Cross-listed as SOC 4311

Pre-requisite(s): Upper-level standing

A course that studies the interaction of various social influences such as the mass media, economics, race, gender, religion, group behavior, politics, and education on sport.

**HP 4375 Exercise Prescription in Health and Disease (3)**

Pre-requisite(s): HP 4450 This course will enable the student to apply the skills learned to writing exercise prescriptions for healthy and diseased populations

Emphasis will be given to developing exercise programs for individuals with chronic diseases and disabilities.

**HP 4384 Qualitative Analysis of Human Movement (3)**

Pre-requisite(s): A minimum grade of C in HP 2306 and upper level standing

Advanced instruction in qualitative analysis of human movement, with training in methods of perceiving and measuring errors of movement in a variety of environments (teaching, coaching, and clinical evaluation).

**HP 4393 Facilities and Equipment in HHPR (3)**

Cross-listed as RLS 4393

Pre-requisite(s): Upper level standing; HHPR (EP, HSS, PHSS, HKLS, PED, REC) and Public Health (PH) majors only

Structural standards, operation, maintenance, function, design, and planning of human performance and recreation resources, areas, and facilities; and the selection, purchasing, and care of equipment appropriate to these programs and services.

**HP 4396 Religion and Sport (3)**

Cross-listed as REL 4396

See REL 4396 for course information.

**HP 4398 Sports-Related Ethics (3)**

Cross-listed as REL 4398

Perspective of the Judeo-Christian tradition of the moral concerns related to sports in American society. Various dimensions of the organized sports phenomenon, including those at the youth, secondary school, intercollegiate, and professional level. This course will not be accepted for credit toward a major or minor in religion or toward the six hour religion requirement by the University.

**HP 4450 Exercise Testing and Interpretation I (4)**

Pre-requisite(s): Prerequisite(s): HP 1421, Credit or concurrent registration in HP 2420; Current First Aid and CPR Certification  
Lectures will address the principles of common physical assessments used in clinical and fitness settings, the selection of appropriate assessments, results interpretation and the application of assessment results for exercise prescription and chronic disease risk reduction. Laboratory experiences are designed to develop competencies in physical assessment and results interpretation.

**HP 4471 Exercise Testing and Interpretation II (4)**

Pre-requisite(s): Prerequisite(s): HP 4450, Current First Aid and CPR Certification

Lectures and laboratory experiences build on information covered in HP 4450. This course is designed to develop and refine core competencies in conducting common physical assessments and interpreting results for exercise prescription and chronic disease risk reduction. Laboratory experiences include student engagement in comprehensive health and fitness profiles.

**HP 4V79 Internship in Human Performance (3-6)**

Pre-requisite(s): Departmental consent required

The internship provides hands-on experience for the human performance major in the area of his or her concentration. The experience includes a special project determined jointly by the student and the agency intern supervisor.

## Lifetime Fitness (LF)

**LF 1104 Adaptive Lifetime Fitness (1)**

Pre-requisite(s): Departmental consent required

Lifetime fitness activity class for students needing accommodation due to injury or disability. Prior to registration, students must present a medical statement from their physician outlining both the nature of the disability and recommendations for a variety of exercises to be done in class. The individualized exercise program is a total-body program with appropriate accommodations. A physical therapy exercise protocol that does not require an attending physical therapist may be utilized in class sessions. Participation in physical therapy sessions in a clinical setting will not substitute for an activity class. There is no waiver of the LF requirement. Course may be repeated for credit if necessary due to ongoing medical condition. Course is graded pass-fail.

**LF 1106 Beginning Aerobics (1)**

Concepts of physical fitness and the development of movement routines are fundamental to this course. Material covered includes a basic understanding of fitness with various assignments relating to that knowledge. Purchase of a lab manual is required.

**LF 1107 Intermediate Aerobics (1)**

This course incorporates all of the aspects of the beginner course. In addition, it teaches complex dance/exercise routines to music and provides a vigorous and complete workout for the more advanced student. Purchase of a lab manual is required.

**LF 1109 Swimmercize Aerobics (1)**

This course provides an enjoyable alternative to exercising on land. A water exercise class is an extremely efficient means of achieving fitness (particularly muscle tone) while using the natural resistance of water to exercise your body to the music.

**LF 1110 Aerobic Walking (1)**

This course is designed to provide students with a fitness foundation through the means of walking. Students will be given a fitness assessment profile, develop an exercise program, and participate in a series of small group and individual walks of varying lengths conducted over various terrains. Walking techniques and fitness strategies will be stressed. Conditioning emphasis will be placed on stamina, strength, flexibility, body composition, and muscle endurance. Student's progress of fitness and walking skills will be monitored and assessed regularly to assure completion of their goals and objectives.

**LF 1111 Aerobic Running (1)**

Students must be capable of running a mile without stopping at the beginning of the course. This class provides runners the opportunity to train and increase aerobic running capacity. Workouts are designed to meet individual fitness levels and goals. Health-related fitness components, safety, injury prevention, and training programs will be taught. Students develop an ability to maintain a high degree of aerobic fitness through long-distance running.

**LF 1112 Backpacking and Camping (1)**

A course designed to teach the values of wilderness experiences and the knowledge and skill necessary for enjoyable and safe basic wilderness living. Topics receiving emphasis include: safety, fitness, ecology, clothing, equipment, food preparation, emergency care, navigation and survival.

**LF 1113 Advanced Wilderness Pursuits (1)**

Application of baseline knowledge of land based activities to more specialized/advanced pursuits like thru-hiking, winter and/or glacier travel, canyoneering, or long expedition-style backpacking experiences. Development of physical fitness and specialized skills, techniques, concepts, and terminology requisite in adventure pursuits. A multi-day wilderness experience is required.

**LF 1114 Beginning Badminton (1)**

A course designed to teach the fundamental skills in badminton including appropriate stroke mechanics, serving, strategy, game variations, equipment selection, and rules and regulations.

**LF 1115 Intermediate Badminton (1)**

This course allows students to refine the skills previously developed, to participate at a higher level of competition, including refereed games, to increase their knowledge of court strategy, and to improve physical conditioning through increased performance.

**LF 1117 Beginning Ballet (1)**

This is an introductory course to ballet. The course provides training in technique, body placement, movement theory and terminology. Progressive classical ballet barre center work and floor combinations enable students to train their bodies in the proper classical technique of basic ballet.

**LF 1118 Intermediate Ballet (1)**

This course reviews the material present in basic ballet. More advanced ballet moves are used in an effort to progress to more difficult ballet routines.

**LF 1119 Advanced Ballet (1)**

Pre-requisite(s): Departmental consent required

This course is designed for the student who has had advanced level experiences in school or private ballet academy or has successfully completed the intermediate ballet class. Skills include refining basic moves and extensive work on dance routines.

**LF 1121 Beginning Bicycling (1)**

An introductory course covering bicycling knowledge, skills, and safety. Class rides will be from eight to ten miles. Required equipment: bicycle (safe, dependable, functioning, ten or more speeds), approved helmet, and means of repairing flat tire (frame pump, tire tools, patch kit, and wrench to get hub nut off, if needed).

**LF 1122 Intermediate Bicycling (1)**

An advanced-level course covering bicycling knowledge, skills, and safety. Class rides will be ten to fourteen miles. Although LF 1121, Beginning Bicycling, is not a prerequisite, students are expected to have mastered basic bicycling skills before enrolling in this course. Required equipment: safe, dependable, efficient bicycle with ten or more speeds; approved helmet; tire pump (frame type); and basic tool kit.

**LF 1123 Beginning Mountain Biking (1)**

This course is designed to prepare students with the basic skills needed for a lifetime of enjoyable mountain bike riding. Students are provided with an overall view of mountain biking, rules of the trail and road, safety, riding technique, clothing, equipment, and basic bike maintenance. Emphasis will be placed on the development of skills necessary to safely climb, descend, and maneuver a mountain bike through technical areas on various terrains.

**LF 1124 Beginning Bowling (1)**

The instructional format for this course includes skill development in grip, stance, approach, and ball delivery. Ball selection, scoring, rules and regulations, and practice will also be important ingredients of this class.

**LF 1125 Intermediate Bowling (1)**

This course incorporates the concepts learned in the beginner class with increased analysis and corrective feedback of present bowling techniques. Additional performance time allows students to enhance their skills.

**LF 1128 Varsity Sports Conditioning I (1)**

Pre-requisite(s): Departmental consent required

This course is designated as an entry level course for varsity athletes participating in intercollegiate sports.

**LF 1129 Varsity Sports Conditioning II (1)**

Pre-requisite(s): Departmental approval required

This course is a continuation of Varsity Conditioning I and allows athletes the opportunity to demonstrate the skills and knowledge acquired in Varsity Conditioning I.

**LF 1130 Social Dance (1)**

Introduction to social dance for the purpose of developing a lifetime recreational activity, often linked to social and professional situations. Various styles of social dance, such as fox trot, waltz, swing, rock and roll, country western, cha-cha, and tango, will be covered.

**LF 1134 Fitness Theory and Practice (1)**

A comprehensive course designed for the student desiring an in-depth understanding of the concepts of physical fitness including strength development, muscular endurance, cardiovascular endurance, body composition, stress, mood modifiers, and nutrition. A variety of energetic, practical experiences are incorporated to enhance the lectures.

**LF 1138 Beginning Golf (1)**

This course offers the students the opportunity to develop skills appropriate to the enjoyment of this healthy, lifetime sport. Students learn the proper stance, grip, and swing techniques for all clubs, as well as rules, terminology, and equipment selection.

**LF 1139 Intermediate Golf (1)**

Pre-requisite(s): LF 1138 or departmental consent required

A course designed for students who already possess the basic skills and knowledge necessary to play golf. Topics at the intermediate level include rules, productive practice, mental aspects, course management, ball flight laws, and continued in-depth look at the short game and full swing. Video analysis is utilized to enhance student learning.

**LF 1140 Advanced Golf (1)**

Pre-requisite(s): Departmental consent required

This course is for those students who own a set of clubs and have a handicap of less than twenty.

**LF 1147 Beginning Jazz Dance (1)**

A dramatic, disciplined, and versatile style of theatrical dance. Students will gain a broader base for creative development, expression, and movement than ballet. The major concepts of jazz dance include principles of proper body alignment, strength, and flexibility development, and knowledge of movement theory.

**LF 1148 Intermediate Jazz Dance (1)**

The intermediate-level jazz class greatly strengthens and builds upon a student's dance technique, increases knowledge and application of body alignment, flexibility and muscle control. Intermediate level includes more complex progressions, dance combinations, choreography, dance routines, and teaching skills.

**LF 1151 Beginning Martial Arts (1)**

This is a course designed to improve beginning self-defense techniques. Skills include kicking, punching, blocking, and offensive and defensive maneuvers. Martial Arts improve strength flexibility, body control, and self-confidence.

**LF 1152 Intermediate Martial Arts (1)**

Pre-requisite(s): LF 1151 or departmental consent required

This course reviews material covered at the beginning level of Martial Arts. The practice of fluid movements, sweeps, throws, falling and rolling, joint-locks and beginning self-defense maneuvers are introduced. This course also develops kata applications and introduces free sparring.

**LF 1153 Advanced Martial Arts (4)**

Pre-requisite(s): LF 1152 or departmental consent required

Students must have successfully completed Intermediate Martial Arts or have special permission of the instructor to enter advanced class. The advanced class will focus on applying the techniques of self-defense, as well as introducing the strategy and tactics used in free sparring. New martial arts techniques appropriate for each skill level will also be taught.

**LF 1156 Beginning Racquetball (1)**

Equipment selection, safety procedures, serves, strokes, volley, court strategy, rules, and actual play are combined to give the basics needed for enjoyable and knowledgeable participation.

**LF 1157 Intermediate Racquetball (1)**

This course refines the basics and offers the more advanced student the opportunity for increased participation and analysis and corrective feedback. Advanced shots such as overhead, backwall, Z, and drills strategy.

**LF 1158 Paddle Sports (1)**

This course is designed to provide the student with the knowledge and skills needed to participate in and enjoy kayaking, canoeing and stand up paddle boarding (SUP) as lifetime fitness and recreational activities. Special emphasis will be given to the development of sound fundamental knowledge and skills such as paddling and steering techniques; rolling; fitting, care and use of equipment; personal safety and fitness skills; and reading moving water.

**LF 1159 Sailing and Canoeing (1)**

A highly enjoyable recreational activity that provides the basic skills of seamanship necessary to canoe or sail safely and efficiently. The course content includes nautical terminology, types of sailing vessels, proper sailing mechanics, weather conditions, and emergency first aid care. American Red Cross certification is available upon completion of the course.

**LF 1160 Beginning Rock Climbing (1)**

This course is intended to provide students with the fundamentals of rock climbing for lifelong leisure involvement. Course content will address personal fitness, knowledge of sport, equipment, climbing safety, and technique. The majority of this course will take place within the indoor rock wall environment but skills taught will be transferable to a top rope, outdoor environment.

**LF 1161 Intermediate Rock Climbing (1)**

Pre-requisite(s): LF 1160 or departmental consent required

This course is intended to provide students with intermediate rock climbing skills and practices including multi-pitch belaying and rappelling, anchor systems, partner and self-rescue, route finding, minimal impact climbing, climbing hazards, and safety, as well as an introduction to sport lead climbing (indoor lead climbing). The majority of this course will take place within the indoor rock wall environment. A class weekend field trip is required.

**LF 1162 Outdoor Adventure Sports (1)**

Introduction to a variety of outdoor adventure sports, e.g., mountain biking, cycling, canoeing, kayaking, caving, rock climbing, bouldering, hiking, ice climbing, snow-shoeing, and geocaching. Focus will be on two to four activities to develop the entry level skills and fundamental techniques necessary for lifelong engagement in those pursuits. The course may include an overnight culminating experience.

**LF 1163 Beginning Self Defense (1)**

Practical self-defense for people with no previous training in martial arts. The course will emphasize risk avoidance, risk recognition, and escape. The tactics and strategy of physical confrontation will be introduced - falling, throws, punching, blocking, and kicking.

**LF 1168 Soccer (1)**

A comprehensive course in the fundamentals of soccer including dribbling, passing, kicking, and tackling skills, offensive and defensive strategies, rules and regulations, and conditioning.

**LF 1169 Intermediate Self Defense (1)**

Pre-requisite(s): A minimum grade of C in LF 1151 or 1163

Intermediate self-defense strategy and tactics for students who have already been introduced to the basic techniques of karate and/or self-defense training.

**LF 1170 Advanced Self Defense (1)**

Pre-requisite(s): A minimum grade of C in LF 1152 or 1169

Advanced self-defense strategy and tactics for students who already have an intermediate level of skill in karate and/or self-defense training with an emphasis on self-defense in a professional setting (teacher, therapist, counselor, etc.).

**LF 1171 Softball (1)**

This course stresses the fundamentals of throwing, catching, fielding, batting, rules and regulations, equipment selection, drills, and actual play.

**LF 1175 Beginning Swimming (1)**

This course in basic water safety is designed to make adults reasonably safe while in or near the water. Topics include: physical and mental adjustment to water, breathing and breath holding, kick on front and back, buoyancy and body positioning, propulsion and coordinated stroking, entries to water, and personal safety.

**LF 1176 Intermediate Swimming (1)**

A course that develops correct stroke technique, introduction to breast stroke, side stroke, butterfly, turns, diving, basic and emergency water safety, and daily conditioning through lap swimming.

**LF 1177 Advanced Swimming (1)**

This course is designed for the swimmer possessing sufficient skills in aquatics to allow for an understanding of the hydrodynamic principles associated with six strokes. This course will enable the individual to increase physical conditioning by designing individualized programs incorporating distance and interval training techniques into daily swim routines. Emergency water safety is stressed.

**LF 1178 Lifeguard Training (1)**

Pre-requisite(s): Departmental consent required

An advanced aquatic course that prepares the individual to deal with life-threatening situations in various aquatic environments. Advanced swimming skills are required. Skill areas include assists, carries, defenses, releases, equipment rescues, facility safety, and many others. National Red Cross Lifeguarding certification is offered upon successful completion.

**LF 1179 Beginning Tai Chi (1)**

Beginning Tai Chi focuses on slow body movements used to improve balance, coordination, concentration, awareness and timing. Instruction follows a practical scientific approach yielding illustrations of applications for each of the movements in daily life. The classical Tai Chi form will be used as a model to facilitate the known benefits of exercise and stress reduction. Cardiovascular training, strength and flexibility training, balance and coordination are interval parts of Tai Chi training, as well as the meditative/stress management techniques that are a part of the form.

**LF 1181 Beginning Tennis (1)**

This course teaches the basics for tennis. Included are tennis terminology, rules and regulations, etiquette, equipment selection, serve, volley, ball control, forehand and backhand strokes. In-class practice of drills and individual play is provided.

**LF 1182 Intermediate Tennis (1)**

This class refines previously learned skills of ball control, serve, forehand and backhand strokes. Included in intermediate tennis is doubles play and class games and tournaments.

**LF 1183 Advanced Tennis (1)**

The advanced tennis player must possess a detailed knowledge and understanding of stroke mechanics and corrective drills, rules, equipment, and terminology. The advanced tennis class provides an opportunity for play with others of the same proficiency in the game. Refining strokes and physical conditioning are stressed.

**LF 1189 Volleyball (1)**

This exciting team sport incorporates knowledge of the rules and court strategy with skills such as setting, bumping, serving, and conditioning to make a well-rounded player.

**LF 1190 Multi-terrain Volleyball (1)**

Pre-requisite(s): LF 1189 or formal competitive play

For the student who has experience in volleyball through competitive play, Multi-terrain Volleyball offers analysis and development of techniques and game strategy for Wallyball, played in racquetball courts; Outdoor Volleyball, played on sand courts; and Indoor Volleyball. Emphasis is on refinement of skills of the game, conditioning, safety, court strategy, rules, and actual play for enjoyable and knowledgeable lifelong participation.

**LF 1192 Weight Control (1)**

A course designed to teach weight control through a combination of proper diet, nutritional advice, and exercise. Toning and conditioning your body is accomplished through weight training, circuit training and exercise routines performed to music.

**LF 1194 Beginning Weight Training (1)**

This course incorporates basic anatomic and physiological principles to specific lifts, exercises, muscles, and training techniques pertinent to the development of an individualized weight training program.

**LF 1195 Intermediate Weight Training (1)**

This course is designed for the advanced students and will review basic concepts covered in the beginning course. In addition, more advanced techniques and training principles will be incorporated into each student's individual exercise routine.

**LF 1197 Beginning Relaxation/Fitness (1)**

The beginning level provides a basic set of exercises which form the foundation of a regular daily routine. Relaxation techniques provide an effective approach to stress reduction. Emphasis is on improving postural alignment increasing strength, flexibility, endurance, improving concentration, and reducing stress.

**LF 1198 Intermediate Relaxation/Fitness (1)**

Pre-requisite(s): LF 1197 or departmental consent required

The intermediate level provides a comprehensive series of exercises designed to maintain the proper curvature of the spine, and to keep all systems of the body healthy. A wide range of intermediate exercises are presented for students to incorporate into their basic exercise routine. Therapeutic exercises are introduced for specific disabilities.

**LF 1199 Advanced Relaxation/Fitness (1)**

Pre-requisite(s): LF 1198 or departmental consent required

The advanced level is structured for the student who has developed strength, stamina and flexibility. Advanced exercises are introduced to maximize the potential for good health and vitality. Students learn to adapt the exercises to suit the various life cycles. Concentration on postural refinement is emphasized.

## Recreation & Leisure Services (RLS)

**RLS 1202 First Aid (2)**

Cross-listed as HP 1202, RED 1202

See HP 1202 for course information.

**RLS 1234 Canoeing Instructor Certification (2)**

This course is designed to qualify a student as an American Red Cross Canoeing Instructor. Upon completion of the course the student will be able to organize, teach, and issue certification for Red Cross basic canoeing courses.

**RLS 1235 Sailing & Canoeing Instructor (2)**

Pre-requisite(s): LF 1159

Qualifies a student as an American Red Cross Instructor for sailing and canoeing. Upon completion of the course the student will be able to organize, teach, and issue certification for Red Cross basic sailing and canoeing courses.

**RLS 1396 Introduction to Leisure Services (3)**

Introduction to the concepts of leisure and recreation, the components of leisure service systems and the role of recreation in human experience and society. A survey of the historical development of recreation and leisure and its corresponding philosophical and theoretical thought.

**RLS 2201 Adventure Recreation Leadership and Challenge Course Facilitation (2)**

This course is designed to provide students with the knowledge, skills, and practical experience necessary to lead adventure recreation experiences: group initiatives, low challenge courses, and high challenge courses. The course will consist of classroom and laboratory experiences in the Rec Lab and at the Challenge Course at Eastland Lakes.

**RLS 2202 Climbing Wall Instructor Certification Course (2)**

Pre-requisite(s): Must have a Baylor University belay certification prior to the first day of class or have belaying experience

At least one year documented personal climbing experience (a minimum of occasions climbing indoors and/or outdoors.) Prior teaching experience or have observed at least two belay classes at the Baylor Rock Wall are highly recommended. Approval by course instructor required. Climbing ability for AMGA certification: 5.9 top rope and 5.8 for lead certification on artificial structures. This course is designed for climbers interested in becoming climbing wall instructors. This class will focus on how to teach climbing skills, develop lessons, manage risk, and perform rescues. The focus areas are specific to the AMGA Climbing Wall Instructor Course but are similar skill sets required for outdoor leaders in many settings. The course will emphasize educational theories, lesson plan development, and giving/receiving feedback.

**RLS 2301 Camp Counseling and Administration (3)**

This course will deal with the administration and organization of resident and day camps. It will also cover the responsibilities of the different camp leadership (counselor, nurse, cook, etc.).

**RLS 2388 Leisure and Lifestyle Well-Being (3)**

Develop the knowledge and skill to develop programs and services to educate the public for leisure and to improve student's personal health through lifestyle decision-making. To understand the role of leisure in the American lifestyle and to assist the American public to develop a more enjoyable life (experience quality of life) through leisure education, skills, leadership strategies and resources. Lab experience required.

**RLS 2389 Leadership and Facilitation in Leisure Services (3)**

Facilitate development of leisure lifestyle and use of leisure resources, and the ability to use leadership techniques to organize and conduct leisure programs and services. Acquire a knowledge of the role and content of leisure programs and services. This is accomplished through such as indoor/outdoor games, mixers, table games, skits/stunts, songs, stories, hobbies/crafts, and planning socials/picnics/retreats.

**RLS 2395 Foundations of Therapeutic Recreation (3)**

Psychological, sociological, physiological, historical significance of therapeutic recreation, philosophy, theories, practices of health and human service professionals, and functioning needs and implications of therapeutic recreation with persons with disabilities with experiential opportunity.

**RLS 3301 Theory & Practice of Outdoor Adventure Programs (3)**

Pre-requisite(s): RLS major or upper-level standing  
Outdoor Adventure experiences are a desired programming element offered in comprehensive leisure service agencies and may also be the primary or sole focus of an agency. This course is designed to introduce students to the philosophical and theoretical foundations of outdoor adventure programming. The course will also explore the many core competency areas required of outdoor adventure administrators that occur in the field, managerial, educational and leadership realms. Through classroom and field experiences, students will be able to increase knowledge related to the career path for the professional, implications/benefits for the participant and programming considerations of outdoor adventure experiences. Weather and schedule permitting, the course will expose students to a variety of institutional, front country type outdoor adventure experiences including caving, biking, rock climbing, backpacking, camping and rappelling. All equipment furnished except bicycle. Two week-end trips, one Saturday, and three evenings required.

**RLS 3302 Program Planning in Leisure Services (3)**

Pre-requisite(s): RLS major or upper-level standing  
Students will become aware of programming content and process including assessment, planning, implementation and evaluation of services. Students will develop an awareness of professional practices/principles, resources, promotion and marketing, and computer applications.

**RLS 3303 Outdoor Adventure Certifications (3)**

Designed to help students acquire foundational knowledge of outdoor leadership and receive certifications in three areas covering Wilderness Medicine, Leave No Trace: Outdoor Ethics, and Wilderness Education Associates: National Standard Protocol. All equipment furnished. One weekend trip required.

**RLS 3382 Risk Management in HHPR (3)**

Cross-listed as HP 3382, RED 3382  
See HP 3382 for course information.

**RLS 3396 Field Laboratory in Leisure Services (3)**

Pre-requisite(s): A minimum grade of C in RLS 1396, 2388, 2389, and 3302  
Field experience in selected leisure service delivery settings with supervision by qualified professional. Documentation of 200 clock hours during semester. (Graded)

**RLS 4301 Outdoor Education (3)**

Pre-requisite(s): RLS major or upper-level standing  
This course will deal with ways to use the outdoors to facilitate and enrich learning related to the school curriculum. It will also deal with ways to enjoy and protect our natural environment. Some of the skills involved are the use of nature games, compass and map games, conservation projects, natural crafts, field investigations, trail building, and teaching various classroom subjects in an outdoor setting.

**RLS 4331 Meanings, Culture, and Philosophy of American Landscapes (3)**

A critical approach to understanding the meanings, culture, and philosophies Americans ascribe to natural landscapes. Traditional perspectives including colonial American, romantic, and science-based conservation are characterized, as well as revisionist themes aligned with gender, cultural pluralism, and societal meanings of natural resource based protected areas.

**RLS 4390 Independent Study in Recreation (3)**

Pre-requisite(s): For majors only  
Additional in-depth study in a particular area under the supervision of a faculty member.

**RLS 4391 Leisure Service Management (3)**

Develop understanding of management as applied to leisure systems. Content includes organizational theories/behavior, personnel and fiscal management, legal and legislative concepts, and computer use in the management functions.

**RLS 4392 Professional Issues and Practices in Leisure Services (3)**

Pre-requisite(s): A minimum grade of C in RLS 1396, 2388, 2389, 3302, and 3396  
Examination and application of research and evaluation models and methodologies to planning and delivering programs. Computer applications with statistical analysis of data to evaluate actual programs. Students study current professional issues, trends, organizations, and professionalism. Students prepare for internship, develop professional resources, and practice articulating professional philosophies.

**RLS 4393 Facilities and Equipment in HHPR (3)**

Cross-listed as HP 4393, RED 4393  
See HP 4393 for course information.

**RLS 4395 Principles of Church Recreation (3)**

History, philosophy, objectives, and administration of recreation in the church and how it relates to the total ministry of the church. It will include an overview of various areas of church recreation and an investigation of leisure and its value in a church setting.

**RLS 4396 Considerations for Diverse Populations in Leisure Programming (3)**

Pre-requisite(s): RLS major or upper-level standing  
In-depth investigation into the nature and implications of social class, ethnicity and race, gender, age, illness and disability upon individuals and their leisure/recreation patterns and leisure service delivery, with consideration of societal attitudes, role of leisure professionals, relevant legislation, programming opportunities, and resources for service delivery. Field experience required.

**RLS 4V13 Recreation & Leisure Services Field School (3-9)**

Short-term educational travel to a selected area(s) to observe and analyze social, economic, and environmental systems relative to natural resource management and outdoor recreation environments and to develop leadership and technical skills necessary to manage both environments and people associated with recreation programming. Methodologies may include ethnography, service and/or experiential learning, and application of the scientific method.

**RLS 4V94 Internship in Leisure Services (3-9)**

Pre-requisite(s): 2.25 overall GPA and 2.5 GPA in major and completed all major courses in RLS  
Full-time work placement internship with a leisure service agency involving application of major courses in day-to-day operations and a project mutually agreed upon by the instructor and agency. (Graded)

## Health Sciences Studies, B.S.

Tricia Blalock, PT, DPT, MPH, CLT

Director of Health Science Studies

## Degree Requirements

Degree Requirements - minimum 124 sem. hrs.

- Minimum - 36 hrs. advanced/upper level credit total hours
- Minimum - 60 semester hours must be earned in residence
- After a student achieves senior standing (90 earned credits), all upper division courses (3000 or 4000 level) must be taken in residence (or in a Baylor approved study abroad program).
- No course may be taken pass-fail; Courses taken pass/fail will not be eligible for transfer

Transfer students must have a cumulative GPA corresponding to the minimum requirements for each track.

Students who wish to change their major to Health Science Studies after completing course work at Baylor may do so only at the end of a full semester. Students must be eligible to register for BIO 1305 Modern Concepts of Bioscience and BIO 1105 Modern Concepts of Bioscience Laboratory, and CHE 1301 Basic Principles of Modern Chemistry I and CHE 1101 General Chemistry Laboratory I, and have a cumulative GPA corresponding to the minimum requirements for each track:

| Program                 | Cumulative GPA     |
|-------------------------|--------------------|
| Pre Medical/Dental      | 3.2 cumulative GPA |
| Pre Physician Assistant | 3.2 cumulative GPA |
| Pre Physical Therapy    | 3.2 cumulative GPA |
| Pre Athletic Training   | 3.0 cumulative GPA |
| Health Professions      | 3.0 cumulative GPA |

Students whose cumulative GPA falls below the minimum requirement in any semester will be placed on probation for one semester. Students whose cumulative GPA falls below the required minimum for their track for a second consecutive semester will be dismissed from the track and must select another major or alternative track for which they do have the minimum cumulative GPA. Students will not be permitted to re-enter a track once dismissed.

## Pre-Physical Therapy Option

Three upper level credit hours from the Research, Writing, and Literature distribution list 3

*Scientific Method I (with Laboratory Experience)*

BIO 1305 Modern Concepts of Bioscience 4  
& BIO 1105 and Modern Concepts of Bioscience Laboratory

*Scientific Method II*

CHE 1301 Basic Principles of Modern Chemistry I 4  
& CHE 1101 and General Chemistry Laboratory I

*Lifetime Fitness*

PUBH 1145 Health and Human Behavior 1

Three LF activity courses 3

**Major Requirements**

*HHPR Required Courses*

HED 1350 Dimensions of Health Science Studies 3

HP 1420 Human Anatomy 4

HP 2306 Anatomical Kinesiology 3

HP 2341 Prevention and Care of Athletic Injuries 3

or HP 2304 Advanced First Aid

HP 2420 Exercise Physiology 4

HP 3330 Research Methods and Design in Exercise Science 3

*Restricted Electives*

Select 9 semester hours from the following: 9

HED 3300 Clinical Skills Training and Assessment

HP/HED 3311 Essentials of Ethics in Healthcare

HED 4305 A Biblical Theology of Suffering for Health Care Providers

HP 3368 Adapted Human Performance

HP 4352 Exercise and Sport Nutrition

HP 4354 Techniques of Strength Training and Conditioning

HP 4368 Motor Learning and Development

HP 4369 Sports Psychology

HP 4375 Exercise Prescription in Health and Disease

HP 4393 Facilities and Equipment in HHPR

HP 4398 Sports-Related Ethics

PUBH 4320 Men's Health and Wellness

PUBH 4321 Human Sexuality

PUBH 4327 Dying and Death Education

*Required Courses in Other Fields*

BIO 1306 Modern Concepts of Bioscience, continued 4  
& BIO 1106 and Modern Concepts of Bioscience Laboratory

BIO 2401 Human Anatomy and Physiology of Motion 8  
& BIO 2402 and Innervation and Human Anatomy and Physiology of Metabolism and Processing

CLA 3381 Medical Terminology 3

NUTR 3314 Consumer Nutrition 3

MGT 3301 Managing People in Organizations 3

PHY 1408 General Physics for Natural and Behavioral 8  
& PHY 1409 Sciences I and General Physics for Natural and Behavioral Sciences II

STA 1380 Elementary Statistics 3  
or STA 2381 Introductory Statistical Methods

A maximum of 15 credit hours of coursework (MS level courses) will count towards both degrees. These 15 credit hours include the following MS courses which are already embedded in the 36-credit hour MATR degree (see Graduate catalog). 15

**Total Hours** 124-125

A joint 5-year BS/MSAT program in Athletic Training through the Pre-AT track in Health Science Studies is available. Undergraduate students interested in a degree in athletic training need to declare Health Science Studies as their major and follow the curriculum for the Pre-Athletic Training Track. This joint degree program will allow students to obtain two degrees in five years. Undergraduate students can apply for admission into the Master of Athletic Training degree program after the completion of 89 undergraduate hours.

**Requirements**

To obtain a BS and MATR in the joint degree program, a student must complete all hours in both the undergraduate HSS program and the Master of Athletic Training program. Upon acceptance into the program, students will be eligible to take the graduate level courses.

A maximum of 15 credit hours of coursework (MS level courses) will count towards both degrees. These 15 credit hours include the following MS courses which are already embedded in the 36-credit hour MATR degree (see Graduate catalog).

| Code     | Title   | Hours |
|----------|---|-------|
| HP 5301  | Introduction to Patient Care                                  | 3     |
| HP 5302  | Evaluation and Diagnosis in Athletic Training I               | 3     |
| HP 5303  | Therapeutic Interventions I                                   | 3     |
| HP 5379  | Research Methods in Health, Human Performance, and Recreation | 3     |
| STA 5300 | Statistical Methods <sup>1</sup>                              | 3     |

<sup>1</sup> cross-listed as EDP 5334 Statistical Methods

For more information, contact the Program Director of Athletic Training and/or refer to the Graduate catalog.

**Pre-Physician Assistant Option**

## Intrauniversity Dance Minor

The Intrauniversity Dance Minor is available to majors in all disciplines, and is designed for students with previous dance training who wish to continue the pursuit of their interests within the context of their university studies. Students will study intermediate/advanced technique/theory, dance history/pedagogy, and the creative process of performance production as well as complete a dance practicum. This minor supports and enriches opportunities in music/music education, theatre arts choreography, public/private teaching professions, various professional performance opportunities, and sponsorship of drill team/cheerleader organizations.

## Degree Plan

| Code                                    | Title  | Hours |
|---|--|-------|

## Lifetime Fitness

Mary Ann Jennings, Coordinator

### General Policy

The purpose of the Division of Lifetime Fitness for nonmajor students is to provide health education, physical fitness education, and recreation education activities that will provide mental, physical, social, and leisure time preparation for lifetime fitness for all students.

Lifetime Fitness is an elective program consisting of lifetime fitness/sport/recreation activity labs. Courses carry a credit value of one semester hour, thus serving the requirement of a semester-by-semester experience at the University. Multi-credit activity labs from other universities will only transfer one semester of the University requirement.

Courses in Health, Human Performance, or Recreation, as well as courses elsewhere, at the "2000" level, "3000" level, and "4000" level may not be applied in any way to this University requirement. (See the following section Course Offerings for a listing of the LF 1104 Adaptive Lifetime Fitness-LF 1199 Advanced Relaxation/Fitness courses that apply.) A maximum of four Lifetime Fitness courses may be counted toward a degree.

A student may not repeat a numbered course, except LF 1104 Adaptive Lifetime Fitness, unless a grade of "D" or "F" was earned in that course. A student may not take a course at a lower level after passing the subject at a higher level (intermediate or advanced).

Variations from the University requirements for Lifetime Fitness activity courses exist. In the instance where the requirement may be waived, the waiver allows the hours associated with the LF requirement to be fulfilled by taking other courses. (The waiver does not reduce in any way total hours required for graduation). It is the responsibility of each student to ascertain from his or her Degree Plan Office/Dean's Office if any of the following variations apply:

**Age:** This requirement **may** be waived for persons over 25 years of age at the time of matriculation to Baylor. If a person reaches age 25 subsequent to matriculation, the requirement stipulated in the degree plan must be completed. (The waiver allows the hours associated with the LF requirement to be fulfilled by taking other courses. The waiver does not reduce in any way total hours required for graduation.)

**Aerospace Studies and Military Science:** Students in Aerospace Studies and Military Science who are required to take the respective Leadership Labs garner one credit hour per semester for a maximum of four semesters credit.

**Band:** One hour of credit will be granted each fall semester for those enrolled in marching band. The maximum number of credits vary by College/School.

**Athletes:** All students actively on a NCAA athletic roster may receive two semesters of LF credit by enrolling and completing LF 1128 Varsity Sports Conditioning I and LF 1129 Varsity Sports Conditioning II. The remaining credit, as specified by degree, must be taken from the available courses.

**Military Veterans:** Students who are military veterans will be exempted from one semester of activity for each 135 days of active duty. Students must submit a copy of DD Form 214, or similar military documentation, to the Program Director to be granted this exemption. (The waiver allows the hours associated with the LF requirement to be fulfilled by taking other courses. The waiver does not reduce in any way the total hours required for graduation.)

**Adaptive Lifetime Fitness:** No student with a disability is excused from lifetime fitness classes. Prior to the beginning of each semester, students with disabilities need to contact Dr. Mary Ann Jennings (ext. 4025) and must present a medical statement from a physician outlining the nature of the disability and recommendations for activity. Dr. Jennings will forward the request to Dr. Margaret Woody, the coordinator of LF 1104 Adaptive Lifetime Fitness. An individualized rehabilitation program and academic-oriented program will be provided, as outlined and approved by the attending physician.

### Course Offerings

Listed below are the health and Lifetime Fitness activity classes that apply. Each course counts toward one semester of the University requirement. All classes are graded in accordance with established University policy. Students may elect to take any course on a pass/fail basis, but this decision must be made at the time of registration or during the drop-add period. All business students must take Lifetime Fitness activity courses on a graded basis. Elementary education majors must register for PUBH 1145 Health and Human Behavior on a graded basis.

**Note: Courses in Health, Human Performance, or Recreation at the "2000" level, "3000" level, and "4000" level may not be applied in any way to this University requirement.**

A description of courses and levels are as follows:

| Code    | Title  | Hours |
|---------|--|-------|
| LF 1104 | Adaptive Lifetime Fitness (Departmental approval required) | 1     |
| LF 1106 | Beginning Aerobics   | 1     |
| LF 1107 | Intermediate Aerobics                                      | 1     |
| LF 1109 | Swimmercize Aerobics                                       | 1     |

|         |   |   |
|---------|---|---|
| LF 1110 | Aerobic Walking   | 1 |
| LF 1111 | Aerobic Running   | 1 |
| LF 1112 | Backpacking and Camping   | 1 |

| LF 1130 | Social Dance  | 1 |
| LF 1134 | Fitness Theory and Practice                                     | 1 |
| LF 1138 | Beginning Golf  | 1 |
| LF 1139 | Intermediate Golf (Departmental approval required)              | 1 |
| LF 1140 | Advanced Golf (Departmental approval required)                  | 1 |
| LF 1147 | Beginning Jazz Dance  | 1 |
| LF 1148 | Intermediate Jazz Dance   | 1 |
| LF 1151 | Beginning Martial Arts  | 1 |
| LF 1152 | Intermediate Martial Arts                                       | 1 |
| LF 1153 | Advanced Martial Arts (Departmental approval required)          | 4 |
| LF 1156 | Beginning Racquetball   | 1 |
| LF 1157 | Intermediate Racquetball  | 1 |
| LF 1158 | Paddle Sports   | 1 |
| LF 1159 | Sailing and Canoeing  | 1 |
| LF 1160 | Beginning Rock Climbing   | 1 |
| LF 1161 | Intermediate Rock Climbing                                      | 1 |
| LF 1163 | Beginning Self Defense  | 1 |
| LF 1168 | Soccer  | 1 |
| LF 1169 | Intermediate Self Defense                                       | 1 |
| LF 1170 | Advanced Self Defense   | 1 |
| LF 1171 | Softball  | 1 |
| LF 1175 | Beginning Swimming  | 1 |
| LF 1176 | Intermediate Swimming   | 1 |
| LF 1177 | Advanced Swimming   | 1 |
| LF 1178 | Lifeguard Training (Departmental approval required)             | 1 |
| LF 1179 | Beginning Tai Chi   | 1 |
| LF 1181 | Beginning Tennis  | 1 |
| LF 1182 | Intermediate Tennis   | 1 |
| LF 1183 | Advanced Tennis   | 1 |
| LF 1189 | Volleyball  | 1 |
| LF 1192 | Weight Control  | 1 |

|         |  |   |
|---------|--|---|
| LF 1194 | Beginning Weight Training  | 1 |
| LF 1195 | Intermediate Weight Training                                     | 1 |
| LF 1197 | Beginning Relaxation/Fitness                                     | 1 |
| LF 1198 | Intermediate Relaxation/Fitness (Departmental approval required) | 1 |
| LF 1199 | Advanced Relaxation/Fitness (Departmental approval required)     | 1 |

PUBH 1145 Health and Human Behavior may be substituted for any of the activities listed on the previous page, except for students who have completed BIC 1112 Examined Life.

**Note:** Lab Fees are required on courses numbered 1101-1199.

**Note:** Except for students in the College of Arts & Sciences, the following course may be substituted for one of the activities listed above.

PUBH 1145 Health and Human Behavior

**Otherwise, courses in Health, Human Performance, and Recreation carrying the prefix HP, HED, PUBH, and RLS may NOT be applied in any way to this University requirement.**

**Note:** Courses in Health, Human Performance, or Recreation at the "2000" level, "3000" level, and "4000" level, as well as courses elsewhere, may not be applied in any way to this University requirement.

## Outdoor Education and Leadership Minor

The Recreation and Leisure Services Program offers a 19-credit hour minor in Outdoor Education and Leadership. This minor is designed for students with career interests in outdoor leadership within a variety of settings. This minor is also designed for students interested in personal and/or leadership development that is transferable to any field. Courses and field experiences are intended to provide an introductory and foundational set of skills and abilities required of outdoor leaders who serve in assistant or entry-level roles in the delivery and oversight of outdoor education and adventures experiences.

## Requirements for a Minor in Outdoor Education and Leadership

| Code   | Title   | Hours |
|--|---|-------|
| <b>Required Courses</b>                            |   |       |
| Nineteen semester hours including the following:   |   |       |
| <i>Foundations</i>                                 |   |       |
| RLS 3301   | Theory & Practice of Outdoor Adventure Programs                   | 3     |
| RLS 4301   | Outdoor Education   | 3     |
| RLS 4331   | Meanings, Culture, and Philosophy of American Landscapes          | 3     |
| <i>Certifications/Leadership</i>                   |   |       |
| Select ten semester hours including the following: |   | 10    |
| RLS 2201   | Adventure Recreation Leadership and Challenge Course Facilitation |       |
| RLS 2202   | Climbing Wall Instructor Certification Course                     |       |
| RLS 3303   | Outdoor Adventure Certifications                                  |       |

|                    |  |
|--------------------|--|
| RLS 4V13           | Recreation & Leisure Services Field School |
| RLS 3396           | Field Laboratory in Leisure Services       |
| RLS 4V94           | Internship in Leisure Services             |
| <b>Total Hours</b> | <b>19</b>                                  |

## Physical Education (All-Level)

Dr. Margaret Woody, Director

### Applying for a Program Leading to Certification

*Admission to Baylor and declaring a major or minor in education does not enroll a student in a School of Education program leading to initial certification as a classroom teacher in the State of Texas.* Students who plan to earn a teaching certificate must meet minimum state of Texas and Baylor University standards and apply separately for admission to candidacy in the appropriate Baylor School of Education program. More information and required documents are available at <http://www1.baylor.edu/tca> (<http://www1.baylor.edu/tca/>). The application materials should be filled out and brought to the Office of Professional Practice (MMSCI 116) the semester prior to entering the junior level Teaching Associate (TA) experience. Acceptance and retention is contingent upon meeting all requirements for the program.

### Requirements for Retention in Teacher Education

1. Completion of TED 1312 Introduction to Teaching I by all candidates is required.
2. Grade point averages (calculation of grade point average is based on work attempted at Baylor University only) required to remain in all certification programs are as follows:  
2.75 Overall  
2.75 Academic Major  
2.75 TED courses
3. Grade point averages for retention in the School of Education and admission to Internship will include calculations of incomplete courses in appropriate areas. An incomplete will count as the equivalent of a failing course in grade point calculations until the final grade is available.
4. Candidates must maintain satisfactory progress (rating equal to or greater than 4 on a 9 point-scale) in development of an electronic portfolio.
5. In order to enroll in the Teaching Associate field experience courses, a candidate must attain junior status (60 hours) and complete 12 semester hours in the candidate's teaching field. The State of Texas requires candidates seeking certification in 6-12 Physical Science, 7-12 Life Science, 4-8 and 7-12 Science, and 4-8 and 7-12 Science and Mathematics must complete 15 semester hours in their teaching field prior to admittance.
6. In order to enroll in the Intern field experience courses, a candidate must successfully complete the Teaching Associate year and complete 18 semester hours in the candidate's teaching field. In addition, a candidate must earn a 3.0 each semester in each Teaching Associate and/or Practicum courses.
7. Candidates who do not successfully complete the coursework and/or field experiences required for educator certification may be advised to substitute other coursework to complete a degree. In such cases the

candidates will sign a form relinquishing the right to seek certification through Baylor University.

8. Any TED course may be repeated only one time for students to continue in any School of Education major. Any student wanting to retake a TED class more than one time will need to appeal to the Dean's Office.

## Tests for Admission and Certification

### Texas Higher Education Assessment (THEA)

Acceptable scores on the Texas Higher Education Assessment or qualification by exemption is required before admission into a state approved teacher education program. The passing score on the reading and mathematics parts must be 230 or higher and the writing part 220 or higher.

Exemption from the THEA Test:

- Texas Assessment of Knowledge and Skills (TAKS):** For a period of five (5) years from the date of testing, a student who is tested and performs on the Eleventh grade exit-level Texas Assessment of Knowledge and Skills (TAKS) with a minimum scale score of 2200 on the math section and/or a minimum scale score of 2200 on the English Language Arts section with a writing subsection score of at least 3, shall be exempt from the assessment required under this title for those corresponding sections.
- State of Texas Assessments of Academic Readiness (STAAR) End-of course (EOC):** For a period of five (5) years from the date of testing, a student who is tested and performs with a minimum score of Level 2 on the English III shall be exempt from both reading and writing, and a minimum score of Level 2 on the Algebra II EOC shall be exempt from the mathematics section.
- Scholastic Assessment Test (SAT):** For a period of five (5) years from the date of testing, a student who is tested and scores a combined critical reading (formerly "verbal") and mathematics score of 1070 with a minimum of 500 on the verbal test and/or the mathematics test shall be exempt for those corresponding sections.
- American College Test (ACT):** For a period of five (5) years from the date of testing, a student who is tested and scores a composite score of 23, with a minimum of 19 on the English test and/or the mathematics test shall be exempt for those corresponding sections.

**Note:** To approve the exemption, Baylor University needs appropriate documentation:

- For SAT or ACT, Baylor University must receive official scores sent directly from the testing company. The correct college code must be entered on the test at the time of test registration.
- For TAKS, scores are printed on a label affixed to official high school transcripts. Transcripts must be sent to Baylor University.

### TOEFL Requirement

The TOEFL is required for out of country students that graduate from high schools where the language of instruction is not English. The candidates must take all three portions of the TOEFL and score a minimum of 26 on the speaking section (no overall score required).

### Human Performance – Secondary School Teaching Field

Minimum Requirement -3 9 hrs.

## 5 Year Joint BSEd/MS in Sport Pedagogy

The BSEd/MS joint program is a 5-year program of study. The joint degree program will allow qualified students in the All-Level Physical Education (ALPE) program the opportunity to obtain a Bachelor of Science in Education (BSEd, 124 credit hours) and a Master of Science in Sport Pedagogy (MS, 36 credit hours) and Texas Teaching Certification in five years of full-time study. All requirements for both the BSEd and MS must be met and the degrees awarded concurrently.

### Admission

Undergraduate students in the ALPE program can apply for the BSEd/MS joint program at the end of their junior year. Applicants must be ALPE majors and have a GPA of 2.75 or higher in both total hours and in the major prior to applying for the program and have satisfactorily completed additional teacher certification eFolio requirements prior to applying for the teacher certification. Applicants must obtain approval of the undergraduate ALPE advisor and program director, approval from the graduate Sport Pedagogy director, and they will be admitted with provisional status until they have completed at least one semester of graduate work.

At the end of the junior year, candidates with 90 or more undergraduate hours and a GPA of 3.0 or better may continue the joint degree program. Those who do not have a 3.0 or better and those who choose to withdraw from the joint degree program will be allowed to finish the BSEd in ALPE if they meet undergraduate requirements for teacher certification. The BSEd degree will be awarded with the MS upon completion of all degree requirements.

### Requirements/Qualifications

To obtain a BSEd/MS in the joint degree program, a student must complete all hours in both the undergraduate ALPE program and the Master of Science in Sport Pedagogy program. ALPE candidates with 90 undergraduate hours and a 3.0 GPA will be eligible to apply for the MS in Sport Pedagogy. Upon acceptance into the MS Sport Pedagogy program, students will be eligible to take the graduate level courses.

A maximum of 15 credit hours of coursework (MS level courses) will count towards both degrees. These 15 credit hours include the following MS courses, which are already embedded in the 36 credit hour MS degree (see undergraduate catalog):

| Code               | Title                                | Hours     |
|--------------------|--------------------------------------|-----------|
| HP 5V90            | Internship                           | 6         |
| HP 5354            | Methods of Strength and Conditioning | 3         |
| HP 5335            | Sport Pedagogy                       | 3         |
| HP 5384            | Biomechanics of Human Movement       | 3         |
| <b>Total Hours</b> |                                      | <b>15</b> |

Joint degree students must take an additional 9 credit hours of undergraduate elective coursework to reach the required 124 undergraduate hours. These 9 elective credit hours in combination with the 15 hours of above count for TED 4670 Internship Physical Education Part I, TED 4671 Internship Physical Education Part II, TED 4672 Internship Physical Education Part III, and TED 4673 Internship Physical Education Part IV (undergraduate PE internship coursework).

| RLS 4392 | Professional Issues and Practices in Leisure Services |
| RLS 4393 | Facilities and Equipment in HHPR                      |

**Restricted Electives for Each Track**

Select one of the following tracks: 6

**Outdoor Recreation Track**

|                        |  |
|------------------------|--|
| RLS 4301<br>& RLS 4331 | Outdoor Education<br>and Meanings, Culture, and Philosophy of<br>American Landscapes |
|------------------------|--|

**Recreation Ministry Track**

|                        |  |
|------------------------|--|
| HP 4396<br>or REL 2480 | Religion and Sport<br>Introduction to Ministry |
| RLS 4395               | Principles of Church Recreation                |

**Total Hours** 30

A minimum of 27 of the 30 required hours for the secondary major must be completed in residence.

## Recreation Ministry Minor

(See Intrauniversity Programs (p. 253) College of Arts &amp; Sciences)

## Human Sciences and Design

As one of the four units in the Robbins College of Health and Human Sciences, the Department of Human Sciences and Design offers six majors which seek to improve the quality of life of individuals, families, and communities. As of Summer 2015, departmental courses will be offered under five prefixes: ADM (Apparel Design/Merchandising), CFS (Child and Family Studies), HSD (cross-disciplinary Human Sciences and Design), ID (Interior Design), and NUTR (Nutrition Sciences). For Human Sciences and Design courses (ADM, CFS, HSD, ID, or NUTR) that are pre-requisites for other courses, students must receive a grade of C or better to advance to the next course. Any (ADM, CFS, HSD, ID, or NUTR) course may be repeated only two times for students to continue in the Human Sciences and Design major or minor.

- Apparel Design and Product Development (p. 393)
- Apparel Merchandising (p. 394)
- Apparel Merchandising Minor (p. 395)
- Child and Family Studies (p. 395)
- Child and Family Studies Minor (p. 401)
- Family and Consumer Sciences (p. 401)
- Interior Design (p. 402)
- Nutrition Sciences (p. 403)
- Nutrition Sciences Minor (p. 406)

## Apparel Design and Merchandising (ADM)

**ADM 1241 Apparel Aesthetics (2)**

Pre-requisite(s): For apparel merchandising and apparel design majors Study of the aesthetic elements and principles of apparel design and visual merchandising, including value, color, light, line, shape, mass, texture, space, complexity, order, and the Gestalt theory as it relates to design.

**ADM 1300 Fashion Theory and Consumption Behavior (3)**

Contemporary apparel consumption behavior from social and psychological perspectives.

**ADM 1311 Apparel Design Construction (3)**

Creative design studio introducing professional construction techniques, product development, and techniques of sketching and creating ready-to-wear garments.

**ADM 1321 Apparel Design & Development (3)**

Pre-requisite(s): A minimum grade of C in ADM 1311

Apparel construction techniques including knitwear, basic pattern design, creative design including fabric manipulation, felting, machine embroidery, and various other embellishment processes used to address the aesthetic requirements of the end consumer.

**ADM 1391 Introduction to the Apparel Industry (3)**

Comprehensive overview of the apparel industry, including trend research, design, product development, merchandising, sourcing, manufacturing, distribution, retail management, and career opportunities.

**ADM 2310 Textile Science (3)**

Pre-requisite(s): Either CHE 1300 and 1100, CHE 1301 and 1101, or CHE 1405

The structure and performance of fabrics; examination of fibers, yarns, fabrication finishes and the processes used to enhance the aesthetics and functional aspects of the fabrics.

**ADM 2311 Fashion Illustration (3)**

Pre-requisite(s): A minimum grade of C in ADM 1241 or concurrent enrollment

Technical sketching and fashion illustration techniques using a variety of media. (0–6)

**ADM 2371 Apparel Quality Analysis (3)**

Study of garment construction factors which affect the wholesale cost, specification buying, and merchandise selection category.

**ADM 2373 Intermediate Apparel Studio (3)**

Pre-requisite(s): A minimum grade of C in ADM 1321

Apparel design using the principles of flat pattern with emphasis on the design, fit, alteration, and construction of fashionable wearing apparel.

**ADM 3301 Contemporary Tailoring and Design (3)**

Pre-requisite(s): A minimum grade of C in ADM 1241 and 2373

Provides industry methods for design, flat pattern, and mass production of tailored garments with a strong emphasis on wool fabrics.

**ADM 3340 Digital Retailing Strategies (3)**

Pre-requisite(s): ADM 1391 and MKT 3301 or MKT 3305 with a minimum grade of C in each of the courses

Analysis of electronic merchandising and its impact to improve and/or transform consumer experience in digital markets through consumer products and services for business to business and business to consumer. Emphasis is placed on understanding data analytics to inform strategy development.

**ADM 3361 Apparel Merchandising Technology (3)**

Pre-requisite(s): A grade of C or better in ADM 2311

Use of software to conceptualize fashion designs and create industry-standard merchandising materials and presentations.

**ADM 3363 Product Development & Pattern Design Technology (3)**

Pre-requisite(s): A minimum grade of C in ADM 2373

Use of digital technology for apparel design, product development and pattern creation.

**ADM 3364 History of Dress (3)**

Pre-requisite(s): A minimum grade of C in ADM 1241 and 2310

The history of dress from ancient times through the twenty-first century, examining dress in the context of social, economic, and artistic development of Western culture.

**ADM 3365 Global Dress and Culture (3)**

Pre-requisite(s): ADM 1241

Summer study tour with an emphasis on fashion as a system of design and production, fashion change, commerce and the intersections of fashion changes and trends in art, society and culture from a global perspective.

**ADM 3373 Advanced Apparel Studio (3)**

Pre-requisite(s): A minimum grade of C in ADM 2310, 2311, 3301, and 3363

Creative designing; integrating and contrasting theories of advanced pattern design and construction techniques for ready-to-wear using a variety of fabrics for specific markets.

**ADM 3391 Retail Buying I (3)**

Pre-requisite(s): ADM 1391, BUS 1305 and ACC 2301 or ACC 2303 with a minimum grade of C in each of the courses

Merchandising mathematical calculations for buying; theory and quantitative analysis of inventory, planning, pricing, and control for the profitable management of retail environments.

**ADM 3393 Visual Merchandising and Promotion (3)**

Pre-requisite(s): A minimum grade of C in both ADM 1241 and ADM 1391  
Study of display elements and techniques, visual merchandising, special event strategies, public relations, and internet promotions.

**ADM 3396 International Fashion Forecasting (3)**

Pre-requisite(s): A minimum grade of C in one of the following courses: ADM 1241, ADM 1300 or ADM 1391

Influence of culture, economics and politics on fashion trends in a society from a global perspective in a study abroad program.

**ADM 3V90 Pre-Professional Internship (1-3)**

Pre-requisite(s): Consent of the instructor through an application process in the prior semester

Optional, variable credit (1-3 hours), pre-professional internship or practicum experience pertinent to apparel design or merchandising majors taken prior to the required professional internship (ADM 4392 or 4394). May not be substituted for the required internship course. Open also to GFCS majors and merchandising minors with instructor permission. Course may be repeated for up to three semester hours of credit.

**ADM 4132 Apparel Industry Field Study (1)**

Pre-requisite(s): Three semester hours of clothing or textiles

Field study of the textile and apparel industry. May be repeated once.

**ADM 4190 Pre-Internship Seminar for Apparel Merchandising and Apparel Design Majors (1)**

Pre-requisite(s): Apparel Merchandising and Apparel Design majors only; ADM 1391 or ADM 1300 with a "C" or better; Junior level standing; should be completed 1-2 semesters prior to internship course

The study and preparation for the internship experience. Application of professional skills related to various forms of written and verbal communication, interview techniques, and ethics.

**ADM 4232 Apparel Field Study (2)**

Pre-requisite(s): Three semester hours of clothing or textiles

Study and research of selected designers, retailers, or manufacturing firms. May be repeated once.

**ADM 4310 Textiles and Apparel in a Global Economy (3)**

Pre-requisite(s): A minimum grade of C in ADM 3391, ECO 1305 or consent of instructor

A study of global textile and apparel industries including the effects and involvement of the global market on the production and merchandising of U.S. textiles and apparel.

**ADM 4312 Textile Testing and Analysis (3)**

Pre-requisite(s): A minimum grade of C in ADM 2310

Standards, specifications and principles of testing applied to textile products. Theory and analysis of aesthetic, durability, comfort and functional performance of textiles. Application of research principles in testing and analysis of textile products

**ADM 4363 Apparel Design Technology (3)**

Pre-requisite(s): A minimum grade of C in ADM 2311 and 3363

Use of software and technology to create apparel color stories, sketches, fabric designs, construction details drawings, merchandising materials, and product specifications.

**ADM 4371 Advanced Collection Development (3)**

Pre-requisite(s): A minimum grade of C in ADM 3373 and 4363  
Research, planning, and development of a cohesive apparel collection for a target market incorporating industry standards and techniques.

**ADM 4391 Retail Buying II (3)**

Pre-requisite(s): A grade of C or better in ADM 3391  
Analysis of the process of retail buying for various demographics and target markets; development of a six month buying plan and assortment plan to improve inventory control.

**ADM 4392 Apparel Merchandising Internship (3)**

Pre-requisite(s): A minimum grade of C in ADM 2310, ADM 3391, 3393 and 4190  
Field experience in apparel retailing, sales, management, buying, visual display and promotion, and distribution. Required campus seminars and a required minimum of 240 hours.

**ADM 4393 Case Studies in Apparel and Retailing (3)**

Pre-requisite(s): A minimum grade of C in ADM 3391 and senior standing or approval of instructor  
Analysis of current events and topical issues in apparel merchandising. Applied problem-solving through case studies related to apparel sourcing, retailing, and other merchandising functions.

**ADM 4394 Apparel Design Internship (3)**

Pre-requisite(s): A minimum grade of C in ADM 2310, 3363, 3373, and 4190  
Supervised professional field experience with an approved apparel firm designed to integrate academic learning with professional practice. Required campus seminars and a minimum of 240 hours field experience.

**ADM 4396 Fashion Trend Analysis and Forecasting (3)**

Pre-requisite(s): A minimum grade of C in ADM 2310  
Analysis of demographics, psychographics, geodemographics, and popular culture on consumption patterns of consumers.

## Child and Family Studies (CFS)

**CFS 1315 Development of Individual and Family Relationships (3)**

An introductory study of individual development integrating interpersonal and intrafamily relationships across the family life course.

**CFS 2355 Child Development (3)**

Physical, intellectual, emotional, and social development from birth to middle childhood. One hour each week working with children in a community setting is required.

**CFS 2357 Adult Development (3)**

Physical, intellectual, spiritual, social and emotional development in adulthood, emphasizing developmental tasks in adulthood.

**CFS 3304 Introduction to Research (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
Research methods, experimental procedures, writing, reporting data, and evaluating current research within various areas of human sciences. The format of the course includes a combination of lecture and discussion, writing assignments, literature review, and/or oral presentations.

**CFS 3324 Children and Families with Special Needs (3)**

Social, educational, and vocational challenges faced by families with children with special needs.

**CFS 3325 Child Health Programs (3)**

Pre-requisite(s): Junior standing or consent of instructor  
Theory and community practice of current and proposed public health programs benefiting children. Course targets future child life specialists, dietitians, nurses, educators, social workers, and public health administrators.

**CFS 3350 Individual and Family Financial Management (3)**

Study of individual and family financial decisions, planning and management.

**CFS 3354 Family Life Education and Ethics (3)**

Pre-requisite(s): CFS 1315 and 2355  
Historical, philosophical and theoretical foundations of Family Life Education (FLE); role of a FL educator, frameworks of FLE design, delivery and ethical guidelines.

**CFS 3356 Theories of Family Development (3)**

Pre-requisite(s): Upper-level standing  
A theoretical study of societal changes affecting families over the life course. Using a systems paradigm, emphasis is placed on effective communication and knowledgeable choices regarding marriage, parenting, divorce, family crises, and aging.

**CFS 3357 The Preschool Child (3)**

Pre-requisite(s): A minimum grade of C in CFS 2355 or consent of instructor  
A study of the social relationships and adjustments of the young child in group situations, including supervised participation and the planning and implementation of curriculum.

**CFS 3358 Infant and Toddler Development (3)**

Pre-requisite(s): CFS 2355  
The developmental sequence from prenatal to three years, emphasizing the relationship and interactive process between infants, toddlers, and their primary caregivers in family and group situations. Two hours each week working with infants/toddlers in community center required (2-2).

**CFS 3362 Child Life Theory and Practice (3)**

Pre-requisite(s): A minimum grade of C in CFS 2355 and upper-level standing or consent of instructor  
Historical and theoretical perspective on development of child life field and information on fundamental skills required to help children and families cope with the stress of a health care experience.

**CFS 3368 Theory and Principles of Play (3)**

Pre-requisite(s): A minimum grade of C in CFS 2355 or consent of instructor  
The study of play theory, creativity, guidance, and implementation of developmentally-appropriate practice in diverse settings for children in early childhood. Requires completion of 20 lab hours at the Piper Center.

**CFS 4191 Professional Practices in Child and Family Studies (1)**

Pre-requisite(s): Upper-level standing and a minimum of 12 credit hours of CFS courses completed with a C or better  
The study and preparation for the Child and Family Studies practicum experience. Application of professional skills related to various forms of written and verbal communication, interview techniques, and ethics.

**CFS 4340 Resource Management (3)**

Pre-requisite(s): Upper-level standing  
Emphasis on a systems approach to time, energy, and resource management. Strategies for maximizing management influences on individual and family welfare. Designed to include occupational competencies and analyze career and job opportunities.

**CFS 4356 The Family: A Global Perspective (3)**

Families around the world: functions, roles, responsibilities, environmental influences, and interactions with other societal institutions.

**CFS 4357 Child and Family Policy and Advocacy (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
Exploration of the reciprocal influences between children and families and all branches of government, including public/private sectors at local, state, and federal levels. Emphasis placed on models, skills, and approaches necessary to advocate for and influence policy.

**CFS 4358 Planning and Administration of Child and Family Programs (3)**

Pre-requisite(s): FCS 3304; and upper-level standing or consent of instructor  
Administration and planning of programs serving children and families. Emphasis is placed on program planning, evaluation, ethics, and professionalism as they apply to child and family programs.

**CFS 4359 Parenting Theory and Approaches (3)**

Pre-requisite(s): CFS 1315 and CFS 2355, or consent of instructor  
Theory-based study of parenting approaches, issues, and outcomes for applied practice with diverse families across the lifespan, including the creation, implementation, and identification of parent education resources to support individual and family well-being.

**CFS 4363 Adolescent Development (3)**

Pre-requisite(s): CFS 2355 and Upper-level standing  
The psychosocial, social-emotional, and cognitive language development of adolescents.

**CFS 4364 Child and Family Ministry (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
Biblical framework, contemporary issues, models, skills, and approaches of child and family ministry, covering faith-based settings.

**CFS 4367 Family Transitions, Stress, and Resilience (3)**

Pre-requisite(s): Upper-level standing or consent of the instructor  
Current theory and models seeking to understand family transitions, stress, coping, adaptation, and resilience.

**CFS 4368 Family Perspectives on Aging (3)**

Pre-requisite(s): Upper-level standing  
A study of normative aging processes within the family context.

**CFS 4390 Child and Family Studies Practicum (3)**

Pre-requisite(s): A minimum grade of C in CFS 2355, 3356, 4359, and 4191; and consent of instructor  
Requires a minimum of one hundred and fifty clock hours of directed experiences in a program-related professional setting, plus weekly online class activities and discussions. May be repeated in a different setting for a maximum of 6 credits.

**CFS 4695 Internship in Child Life (6)**

Pre-requisite(s): A minimum grade of C in CFS 3357, 4359, 4362; senior standing; and consent of instructor  
Supervised child life internship in an approved hospital for four hundred or more hours. Written reports and research required.

## Human Sciences and Design (HSD)

**HSD 1104 New Student Seminar in Human Sciences and Design (1)**

History, interdependence and integrative nature of HSD program areas and their role in the study of health and human sciences. A New Student Experience (NSE) course examining techniques for academic success, finding purpose and connection with Baylor, and professional and career options.

**HSD 1231 Design and Creative Technologies (2)**

The study of art and design principles through the use of creative technologies including image creation and editing software, digital sketching and illustration, and project management systems, to develop communication and marketing materials.

**HSD 2100 Directed Study in Human Sciences and Design (1)**

Pre-requisite(s): Consent of instructor  
Individual study of selected areas of interest in human sciences and design.

**HSD 2200 Directed Study in Human Sciences and Design (2)**

Pre-requisite(s): Consent of instructor  
Individual study of selected areas of interest in human sciences and design.

**HSD 3100 Applied Undergraduate Research in Human Sciences and Design (1)**

Pre-requisite(s): Junior level standing  
In-depth undergraduate research. This class is intended for application-oriented, individualized professor-supervised undergraduate research applications.

**HSD 3320 Methods of Teaching Human Sciences and Design (3)**

Pre-requisite(s): Fifteen hours of human sciences and design, junior standing, and admission to the School of Education  
Teaching materials and methods, media, and the philosophy of vocational education.

**HSD 3321 Curriculum and Evaluation in Human Sciences and Design (3)**

Pre-requisite(s): Junior standing, eighteen hours of human sciences and design and admission to the School of Education  
Curriculum planning, teaching strategies, evaluation, and classroom management. Each student will spend two hours each week in an approved field experience.

**HSD 3375 Global Perspectives in Housing (3)**

Pre-requisite(s): Upper-level standing  
Research and exploration in housing differences around the world as a factor of cultural, political, environmental, economical and social influences.

**HSD 4322 Student Teaching in Human Sciences and Design (3)**

Pre-requisite(s): A minimum grade of C in HSD 3321; and senior standing; and completion of all human sciences and design and education courses  
Supervised observation of and participation in various phases of a high school vocational home economics program for a full school day for a half semester. Required for vocational home economics teaching certificate.

**HSD 4332 Occupational Human Sciences and Design (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
Study of the occupational human sciences and design programs in Texas. Each student will spend two hours each week in an approved field experience.

**HSD 4623 Student Teaching in Human Sciences and Design (6)**

Pre-requisite(s): A minimum grade of C in HSD 3321, senior standing; completion of all human sciences and design and education courses  
Continuation of HSD 4322. Required for vocational family and consumer sciences teaching certificate.

**HSD 4V93 Special Studies in Human Sciences and Design (1-3)**

Pre-requisite(s): Senior standing; or consent of instructor  
 Current issues in human sciences and design will be examined through seminars, special topics, practicums and individual research experiences. May be repeated with different content for a maximum of six semester hours.

---

## Interior Design (ID)

**ID 1313 Interior Design Graphics I (3)**

Pre-requisite(s): Interior Design majors or consent of instructor  
 Introduction to basic techniques of architectural drafting with an emphasis on industry standards, architectural symbols, lettering, and line weights. Graphics will focus on interior floor plans, elevations, sections, details, and axonometric drawings.

**ID 1332 Introduction to Interior Design (3)**

The elements and principles of design; their theories and applications related to the built environment, including programming, spatial relationships, materials and components, design styles, sustainability, and universal design; and an overview of the profession.

**ID 2090 Sophomore Portfolio (0)**

Pre-requisite(s): Sophomore standing in the program, ID 2315 2322  
 Students in this course will successfully complete the Sophomore Portfolio Review which includes the following: Conceptual Problem - Creative Thinking and Writing, Conceptual Problem - Application/Elements/Principles and Presentation to External Reviewers. Students will not be allowed to register for upper-level studios unless they have completed this requirement.

**ID 2314 Interior Design Graphics II (3)**

Pre-requisite(s): A minimum grade of C in ID 1313  
 Perspective drawing as it relates to interior design with an emphasis on one and two-point perspective techniques (both technical and free-hand). Advanced section and axonometric drawings.

**ID 2317 Space Planning (3)**

Pre-requisite(s): ID 1313  
 Introduction to Interior Design space planning techniques, based on the principles and elements of design. The course will use modeling (both digital and physical) to increase the understanding of spatial relationships with an emphasis on ergonomics, anthropometrics and proxemics.

**ID 2318 ID Digital Presentation (3)**

Pre-requisite(s): ID 2314  
 Introduction to digital presentation techniques and graphic software programs that aid with the development of digital presentation boards. Composition, color and print quality will be emphasized.

**ID 2320 Building Materials and Finishes for Interiors (3)**

Pre-requisite(s): A minimum grade of C in ID 2314, 2315 and credit with a minimum grade of C or concurrent enrollment in ADM 2310  
 General analysis, selection, estimation, and application of materials and finishes in the design of components of the built environment including testing standards, specifications, color theory, textile applications, and cultural and global influences.

**ID 2322 Computer-Aided Drafting and Design I (3)**

Pre-requisite(s): A minimum grade of C in ID 1313  
 Emphasis on a broad range of two-dimensional computer-aided drafting and design techniques for interiors as specified by industry standards, including computer graphics and various aspects of project management.

**ID 2325 Building Systems for Interiors (3)**

Pre-requisite(s): A minimum grade of C in ID 1313 and 1332; or consent of instructor  
 Study of structures, building materials, construction techniques, mechanical and electrical systems, and their impact on the design of the built environment.

**ID 2350 Building Codes for Interiors (3)**

Pre-requisite(s): A minimum grade of C in ID 1313 and 1332; or consent of instructor  
 Study of building and interior codes used in the design of the built environment, which includes model codes, standards, regulations, Life Safety, ADA, sustainability, electrical, and plumbing.

**ID 2375 History of Interiors I (3)**

Survey of influential architectural movements, interiors, furnishings, and the decorative arts related to major cultures from Antiquity through the early 19th century, with special emphasis on periods of design influenced by Classicism.

**ID 2395 History of Interiors II (3)**

Survey of architectural styles, movements, influences, interiors, furnishings, and the decorative arts from the mid-19th century to the present in Europe and America. Strong emphasis on 20th-century masters.

**ID 3198 Internship Seminar (1)**

Pre-requisite(s): A minimum grade of C in ID 3418 or concurrent enrollment  
 Study and preparation for the internship experience. Application of professional skills related to various forms of written communication, interview techniques, and ethics. Portfolio design and development.

**ID 3317 Lighting for Interiors (3)**

Pre-requisite(s): A minimum grade of C in ID 2314  
 Technical and psychological aspects of the illumination of interior environments that support human performance, environmental issues, aesthetic appeal, and the health, safety, and welfare of the user.

**ID 3322 Computer-Aided Drafting and Design II (3)**

Pre-requisite(s): A minimum grade of C in ID 2322  
 Emphasis on three-dimensional computer-aided drawing techniques for interior design and presentation, using BIM (Building Information Modeling) software.

**ID 3418 Interior Design Studio I (4)**

Pre-requisite(s): A minimum grade of C in ADM 2310, ID 2320, 2322, and minimum grade of C or concurrent enrollment in ID 3317  
 Successful completion of ID 2090. ID 2375 and 2395 recommended.  
 Application of design components for residential environments.  
 Development of the design process with emphasis on research and programming, human behavior, lifestyle concerns, environmental issues, special needs populations; and consideration of cultural, regional, and geographic influences. Includes material/finish specifications, budget application and team-based design solutions.

**ID 3426 Interior Design Studio II (4)**

Pre-requisite(s): A minimum grade of C in ID 3317, 3318 and credit with a minimum grade of C or concurrent enrollment in ID 3322  
 Application of design components for small-scale commercial projects, with emphasis on research, programming, conceptual development, creative problem solving, building codes, life safety, environmental issues, and universal design. Includes estimation, specification, and applications of materials/finishes, lighting applications, and team-based design solutions.

**ID 4123 Interior Design Capstone Research (1)**

Pre-requisite(s): A minimum grade of "C" in ID 3426

Introduction to methods and techniques of interior design research.

Students develop a research framework which they will apply to the design of their capstone project the following semester. Various types of qualitative, quantitative, and historical methods of design research will be discussed.

**ID 4320 Business Practices and Procedures for Interior Design (3)**

Pre-requisite(s): A minimum grade of C in ID 4418 or concurrent enrollment

Business practices and procedures, ethics, project coordination, licensure, and legal aspects related to the interior design profession.

**ID 4326 Sustainable Design (3)**

Pre-requisite(s): Junior or senior standing or consent of instructor

Sustainable Design course provides an overview of sustainable practice, accreditation and certification standards, and other relevant programs like The Well Building Standard and GreenGuard. This course will prepare the student to take the USGBC Green Associate exam prior the end of the semester.

**ID 4398 Interior Design Internship (3)**

Pre-requisite(s): A minimum grade of C in ID 3198 and 3426

ID 3322 recommended. Supervised internship in an approved design-related work environment. Minimum of 240 hours.

**ID 4418 Interior Design Studio III (4)**

Pre-requisite(s): A minimum grade of C in ID 3426 and credit with a minimum grade of C or concurrent enrollment in ID 3322

Application of design components for large-scale commercial projects including open office systems, with increased emphasis on thorough research and programming, conceptual development, creative problem-solving, application of building codes, environmental issues, and universal design. Includes estimation, specification, and application of material/finishes, lighting applications, and team-based design solutions.

**ID 4433 Interior Design Studio IV (Capstone) (4)**

Pre-requisite(s): A minimum grade of C in ID 4418 and 4320

A comprehensive capstone studio that will provide an advanced integrative application of the design process resulting in complex design solutions and complete project documentation. Final portfolio presentation required.

## Nutrition Sciences (NUTR)

**NUTR 1401 Introduction to Food Science (4)**

Comprehensive study and experimental laboratory investigation of food constituents with a focus on chemical and physiochemical properties and reactions, including sensory evaluation, microbial safety, and food preservation.

**NUTR 2101 Introduction to the Profession of Nutrition and Dietetics (1)**

History of the profession and the skills and functioning of nutrition and dietetics professionals. Prepares students for their undergraduate major and for entrance into the supervised practice.

**NUTR 2351 Nutrition (3)**

Pre-requisite(s): CHE 1300 or 1301 or 1405; or BIO 1305 or 1401 or 1405  
Scientific approach to the essential nutrients for human growth and development. Macronutrients, micronutrients, and human metabolism have details coverage; a computer diet analysis is conducted.

**NUTR 2380 Intro to Food Delivery Systems (3)**

Pre-requisite(s): A minimum grade of C in NUTR 1401 and NUTR 2351, or consent of the instructor

Introduction to meal service in the setting of the home, institutions, childcare, and restaurants. Management of meal planning, preparation, and service. Emphasis on equipment usage and maintenance and time, money, and nutrient management.

**NUTR 3188 Introduction to the Nutrition Care Process (1)**

Pre-requisite(s): Upper-level standing

Introduction to the Nutrition Care Process (NCP) with an emphasis on the Nutrition Assessment and Nutrition Diagnosis components of this standard protocol, including application of nutrition-focused physical assessment. Medical terminology pertinent to the NCP will also be discussed.

**NUTR 3314 Consumer Nutrition (3)**

Pre-requisite(s): Upper-level standing

Survey of basic nutrition and current issues focusing on personal nutrient needs. Not open to nutrition sciences majors, minors or other students who have taken NUTR 2351.

**NUTR 3351 Nutrition Counseling and Education (3)**

Pre-requisite(s): A minimum grade of C in NUTR 2351

Nutrition counseling and education strategies that can be used for dietary behavior change, emphasizing practical aspects of nutrition counseling.

**NUTR 3386 Experimental Foods (3)**

Pre-requisite(s): A minimum grade of C in NUTR 1401; and BIO 1305, CHE 1301 and 1341, STA 1380 or 2381

Investigation of the composition, functional properties, and reactions of food components. The study of chemical-physical changes which result from processing materials comprising foods. Study of experimental techniques for product development.

**NUTR 3388 Introduction to Medical Nutrition Therapy (3)**

Pre-requisite(s): BIO 1305, [2401 and 2402] or 3322; CHE 1301, 1341; NUTR 3188; and a minimum grade of C in NUTR 2351

In-depth study and proficiency testing of the nutrition care process, medical vocabulary, medical records, clinical math, diabetes, and cardiovascular disease.

**NUTR 3435 Food Service Production (4)**

Pre-requisite(s): A minimum grade of C in NUTR 1401, 2351, and 2380

Quality food production techniques, procedures, and management of meals serving fifty or more people. The function and methods of food management (for profit) will be emphasized in this course.

**NUTR 4151 Nutrition Practicum (1)**

Pre-requisite(s): Departmental approval required

Supervised field experiences in nutrition education and program delivery. A minimum of one hour each week is required in a seminar setting. May be repeated for a maximum of 4 credit hours.

**NUTR 4200 Seminar in Nutrition Sciences (2)**

Pre-requisite(s): Senior standing or consent of the instructor

Professional aspects of nutritional sciences with concentration on ethics, credentialing, communications, marketing, and public policy techniques.

**NUTR 4351 Life Cycle Nutrition (3)**

Pre-requisite(s): A minimum grade of C in NUTR 2351 or consent of instructor

Nutritional needs of individuals as they progress through the life cycle from birth through aging, with considerations of concomitant problems.

**NUTR 4352 World Nutrition (3)**

Pre-requisite(s): A minimum grade of C in NUTR 2351 or consent of the instructor

World hunger as a major international problem. The effects of malnutrition on growth, health, and economic output will be examined.

**NUTR 4386 Nutrition for Sport and Fitness (3)**

Pre-requisite(s): NUTR 2351, BIO [2401 and 2402] or 3322, and upper-level standing or consent of instructor

Nutritional concepts for individuals and team sport participants across the life cycle with a particular focus on selection of optimal dietary approaches as related to performance needs, maximizing performance, body comparison, energy balance, and unique nutrient needs for specific sport participants. Food and nutrition quackery in sports will also be addressed.

**NUTR 4387 Advanced Nutrition (3)**

Pre-requisite(s): Nutrition Sciences majors must have a grade of C or higher in NUTR 2351, BIO 1305, CHE 1301, 1341, and 3341

Nutrients and their roles in human health. Emphasis on trends in nutritional research.

**NUTR 4388 Medical Nutrition Therapy (3)**

Pre-requisite(s): A minimum grade of C in NUTR 3388

In-depth study of various disease states with a focus on pathophysiology and evidence-based medical nutrition therapy interventions. Field experience in clinical dietetics is required.

**NUTR 4395 Special Studies in Nutrition, Food science and food production (3)**

Current issues in nutrition, food science or food production can be explored through seminars, special topics, and practicums. May be repeated with different content for a maximum of 6 semester hours.

## Apparel Design and Product Development

Dr. Lorynn Divita, Division Leader

The apparel design and product development major fosters the development of knowledge and skills in creative and technical design, trend analysis, apparel production, and textile performance. Students use leading-edge technology to design and create apparel products, develop product specifications, analyze textile materials, and illustrate fashion. In the design studio, students learn product development and production techniques used in the apparel industry, including digital fabric printing.

| Code   | Title  | Hours |
|--|--|-------|
| <b>Required Courses</b>                              |  |       |
| Minimum Requirement                                  |  | (124) |
| Residence Requirement                                |  | (60)  |
| Grade point average – minimum of 2.00 ("C") overall. |  |       |
| <b>Basic Requirements</b>                            |  |       |
| Chapel – two semesters                               |  | 0     |
| ENG 2310   | American Literary Cultures   | 3     |
| HIS 1300   | The United States in Global Perspective  | 3     |
| PSC 1387   | The U.S. Constitution, Its Interpretation, and the American Political Experience | 3     |
| REL 1310   | The Christian Scriptures   | 3     |
| REL 1350   | The Christian Heritage   | 3     |
| <i>Communication and Media Literacy</i>              |  |       |

Select 3 hours from the Communication and Media Literacy Distribution list. 3

*Contemporary Social Issues*

ECO 1305 Issues in Economics for Non-Business Majors 3

*Fine Arts and Performing Arts*

ADM 1241 Apparel Aesthetics 2

*Foreign Languages & Cultures*

Select 3-4 hours from the Foreign Languages and Cultures Distribution List. 3-4

*Formal Reasoning*

Select one course from the Formal Reasoning Distribution list. 3

*Research, Writing & Literature*

ENG 1310 Writing and Academic Inquiry Seminars & PWR 3300 and Technical Writing 6

*Scientific Method I*

Select one of the following: 4

CHE 1405 Chemistry and Society

CHE 1301 Basic Principles of Modern Chemistry I & CHE 1101 and General Chemistry Laboratory I

CHE 1300 Introductory Chemistry & CHE 1100 and Introductory Chemistry Laboratory

*Scientific Method II*

NUTR 3314 Consumer Nutrition 3

*Lifetime Fitness*

Select three hours 3

**Major Requirements***Apparel Courses*

ADM 1311 Apparel Design Construction 3

ADM 1300 Fashion Theory and Consumption Behavior 3  
or ADM 1391 Introduction to the Apparel Industry

ADM 1321 Apparel Design & Development 3

ADM 2310 Textile Science 3

ADM 2311 Fashion Illustration 3

ADM 2373 Intermediate Apparel Studio 3

ADM 3301 Contemporary Tailoring and Design 3

ADM 3363 Product Development & Pattern Design Technology 3

ADM 3364 History of Dress 3

or ADM 3365 Global Dress and Culture

ADM 3373 Advanced Apparel Studio 3

ADM 4190 Pre-Internship Seminar for Apparel Merchandising and Apparel Design Majors 1

ADM 4312 Textile Testing and Analysis 3

ADM 4363 Apparel Design Technology 3

ADM 4371 Advanced Collection Development 3

ADM 4394 Apparel Design Internship 3

ADM 4396 Fashion Trend Analysis and Forecasting 3  
or ADM 3396 International Fashion Forecasting

*Required Courses in Other Fields*

ACC 2301 Survey of Accounting 3

ENT 3315 Starting and Managing a Business 3

MKT 3301 Marketing Concepts 3

|   |   |                |
|---|---|----------------|
| Select two courses from the following: <sup>1</sup>   |   | 6              |
| ART 1310  | Drawing I   |                |
| ART 1314  | 2D Design   |                |
| ART 2310  | Figure Drawing I <sup>1</sup>   |                |
| ART 2334  | Introduction to Darkroom Photography (for non-art majors)   |                |
| ART 2336  | Introduction to Digital Photography (for non-majors)  |                |
| ART 2350  | Jewelry and Metalsmithing (for non-art majors)  |                |
| ART 3314  | Fabric Surface Design   |                |
| ART 3315  | Non-Woven/Off-Loom Fabric Structures  |                |
| ART 3316  | Weaving   |                |
| <i>HSD Core</i> <sup>2</sup>  |   |                |
| HSD 1104 & CFS 1315   | New Student Seminar in Human Sciences and Design and Development of Individual and Family Relationships | 4              |
| or CFS 4356   | The Family: A Global Perspective  |                |
| <i>Electives (if needed to reach 124 minimum hours)</i>   |   | 2              |
| Dependent on Foreign Languages and Cultures hours. May use to complete minor in Entrepreneurship, Business Administration, or other area, if desired. |   | 12-15          |
| An approved, 240-hour, on-site internship is required following the completion of all prerequisite apparel design courses. <sup>3</sup>               |   |                |
| A grade of "C" or better in Human Sciences and Design Courses (ADM, CFS, HSD, ID, or NUTR).   |   |                |
| <b>Total Hours</b>  |   | <b>124-128</b> |

<sup>1</sup> Please note that ART 2310 Figure Drawing I has a prerequisite that would require an additional ART course. Prerequisites for other courses may be petitioned by apparel design majors to be waived through the Art Department.

<sup>2</sup> NUTR 3314 Consumer Nutrition is included in basic studies requirements above.

<sup>3</sup> The required, for-credit course, ADM 4394 Apparel Design Internship (listed above), provides credit for the internship experience.

## Apparel Merchandising

Dr. Lorynn Divita, Division Leader

Students in the apparel merchandising program have opportunities to develop knowledge of retail functions, merchandising principles, forecasting trends, and textile selection and evaluation. Graduates are prepared for professional careers in merchandise buying, retail management, visual merchandising, planning and allocation, digital retailing, and product development.

| & ADM 4232  | and Apparel Field Study               |           |
| A grade of "C" or better in ADM courses used for the minor. |                                       |           |
| <b>Total Hours</b>  |                                       | <b>18</b> |

## Child and Family Studies

**Dr. Nicole McAninch, Division Leader**

The Child and Family Studies program emphasizes individual and family well-being across the lifespan through the study of human development and family relationships. The program offers certification in Family Life Education (CFLE) through the National Council on Family Relations and the coursework preparation for certification as a Child Life Specialist through the Child Life Council. Students gain hands-on experience through the Piper Center for Family Studies and Child Development, a NAEYC-accredited lab school.

## Child Development Concentration

The child development concentration is an excellent option for students interested in the holistic study of children's development from conception through emerging young adulthood, for application in early childhood, nonprofit, ministry, healthcare, and other institutional settings.

| Code   | Title  | Hours |
|--|--|-------|
| <b>Requirements</b>                                  |  |       |

*Required Courses in Other Fields*

|   |   |     |
|---|---|-----|
| Select 12 semester hours from the following:  |   | 12  |
| LS 3305   | Children's Literature   |     |
| LS 4320   | Young People's Literature   |     |
| EDP 3324  | Learning and Development  |     |
| SOC 3360  | Juvenile Delinquency  |     |
| PUBH 3325   | Maternal and Infant Health  |     |
| PUBH 4321   | Human Sexuality   |     |
| Select one of the following options:  |   | 15  |
| <b>Option 1</b>   |   |     |
| Completed minor in a supporting area, such as American Sign Language, Business Administration, Educational Psychology, Informal Education, International Studies, Leadership Studies, Legal Reasoning & Analysis, Medical Humanities, Nutrition Sciences, Poverty Studies and Social Justice, Recreation Ministry, Religion, and Women's and Gender Studies. No more than one course in the minor can count for any other area in the major or degree requirements. See individual minors for course and grade requirements. General electives hours may be required to complete some minors. |   |     |
| <b>Option 2</b>   |   |     |
| Select 15 hours in addition to any courses selected in (B) above from the following:  |   |     |
| Any additional CFS 3000 or 4000 course  |   |     |
| CLA 3381  | Medical Terminology   |     |
| CSS 4311  | Conflict and Communication  |     |
| CSS 4313  | Communication and the Family  |     |
| PUBH 4321   | Human Sexuality   |     |
| PUBH 4327   | Dying and Death Education   |     |
| REL 3382  | Cross-Cultural Ministry   |     |
| REL 3390  | Christian Ethics  |     |
| SOC 3311  | The Sociology of Race and Ethnicity   |     |
| SOC 3355  | Introduction to the Economics of Poverty and Discrimination   |     |
| SOC 4310  | Death and Dying   |     |
| SOC 4353  | Sociology of Medicine   |     |
| SWO 4316  | Trauma, Loss, and Mourning  |     |
| TED 3380  | Social Issues in Education  |     |
| <b>Option 3: Family Life Education Certification <sup>2</sup></b>   |   |     |
| CFS 4356  | The Family: A Global Perspective  |     |
| CFS 4367  | Family Transitions, Stress, and Resilience  |     |
| CFS 4357  | Child and Family Policy and Advocacy (Three additional hours of upper-level elective from Option 2) |     |
| or SWO 4322   | Social Policy for Social Work Practice  |     |
| PUBH 4321   | Human Sexuality   |     |
| Three additional hours of upper-level elective from Option 2  |   |     |
| <b>HSD Core <sup>3</sup></b>  |   |     |
| HSD 1104  | New Student Seminar in Human Sciences and Design  | 1   |
| <i>Electives (if needed to reach 124 minimum hours)</i>   |   |     |
| Dependent on the foreign languages and professional electives option selected.  |   | 6-8 |
| An approved, on-site internship is required following the completion of prerequisite courses. <sup>1</sup>  |   |     |

A grade of “C” or better in Human Sciences and Design Courses (ADM, CFS, HSD, ID, or NUTR), required courses in other fields (section B above), and all professional electives used for the major.

**Total Hours** **124-128**

<sup>1</sup> The required, for-credit course, CFS 4390 Child and Family Studies Practicum (listed above), provides credit for the internship experience.

<sup>2</sup> If this option is selected, CFS 4356 The Family: A Global Perspective cannot count as the Contemporary Social Issues course for basic studies.

<sup>3</sup> HSD 1231 Design and Creative Technologies, NUTR 2351 Nutrition/NUTR 3314 Consumer Nutrition are included in basic studies courses above.

## Child Life Concentration

The child life concentration is designed for students interested in pursuing certification as a Child Life Specialist through the Association for Child Life Professionals in order to pursue certification. Students in the Child Life concentration are encouraged to check with the Child and Family Studies division director related to non-academic requirement for becoming a certified Child Life Specialist.

*Professional Electives*

Select one of the following options: 15

## Option 1

Completed minor in a supporting area, such as Communication Sciences & Disorders, Educational Psychology, International Studies, Leadership Studies, Medical Humanities, Nutrition Sciences, Poverty Studies and Social Justice, Religion, and Women's and Gender Studies. No more than one course in the minor can count for any other area in the major or degree requirements. See individual minors for course and grade requirements. General electives hours may be required to complete some minors.

## Option 2

Select 15 hours in addition to any courses selected in (B) above from the following:

Any additional CFS 3000 or 4000 course

|           |   |
|-----------|---|
| BIO 2401  | Human Anatomy and Physiology of Motion and Innervation      |
| BIO 2402  | Human Anatomy and Physiology of Metabolism and Processing   |
| CSS 4311  | Conflict and Communication                                  |
| CSS 4313  | Communication and the Family                                |

| CFS 4357<br>or SWO 4322 | Child and Family Policy and Advocacy<br>Social Policy for Social Work Practice |
| PUBH 4321               | Human Sexuality  |

Three additional hours of upper-level elective from Option 2

*HSD Core* <sup>3</sup>

|          |  |   |
|----------|--|---|
| HSD 1104 | New Student Seminar in Human Sciences and Design | 1 |
|----------|--|---|

*Electives*

Dependent on the foreign languages and professional electives option selected. <sup>4</sup> 8-10

A grade of "C" or better in Human Sciences and Design Courses (ADM, CFS, HSD, ID, or NUTR), required courses in other fields (section B above), and all professional electives used for the major.

An approved, on-site internship is required following the completion of prerequisite courses. <sup>1</sup>

Students will need 50 – 100 volunteer hours of clinical experience, a Child Life practicum, a Child Life Internship, and a passing grade on the Child Life Certification exam to become a Child Life Specialist.

**Total Hours** 124-128

<sup>1</sup> The required, for-credit course, CFS 4390 Child and Family Studies Practicum (listed above), provides credit for the internship experience.

<sup>2</sup> If this option is selected, CFS 4356 The Family: A Global Perspective cannot count as the Contemporary Social Issues course for basic studies.

<sup>3</sup> HSD 1231 Design and Creative Technologies, NUTR 2351 Nutrition/NUTR 3314 Consumer Nutrition are included in basic studies courses above.

<sup>4</sup> Students may complete CFS 4695 Internship in Child Life to satisfy some of these hours.

## Family Life Education Concentration

The concentration in Family Life Education prepares students to provide preventive services for children and families in a variety of settings. The courses required in the Family Life Education Concentration of the Child and Family Studies program is approved by the National Council on Family Relations (NCFR) for students to receive certification as a Family Life Educator following graduation. Successful completion of the coursework in this concentration qualifies students to apply for provisional certification through the National Council on Family Relations.

| CFS 4359  | Parenting Theory and Approaches                    | 3         |
| Complete 6 additional semester hours of "3000-4000" level CFS electives |  | 6         |
| A grade of "C" or better in all courses used for the minor.             |  |           |
| <b>Total Hours</b>  |  | <b>18</b> |

## Family and Consumer Sciences

Dr. Nicole McAninch, Division Leader

The Family and Consumer Sciences degree program provides an in-depth study of issues that affect individuals, families, and communities in a global society. Students in this major are equipped to work with

diverse populations around basic needs of food, shelter, clothing, and relationships. Graduates from the Family & Consumer Sciences program often find career opportunities in government agencies, fashion retail, schools, restaurants, community centers, churches, childcare centers, or social service organizations, among others.

<sup>1</sup> CFS 4356 The Family: A Global Perspective is required, included in basic studies above.

<sup>2</sup> HSD 1231 Design and Creative Technologies, NUTR 2351 Nutrition/NUTR 3314 Consumer Nutrition are included in basic studies courses above.

## Interior Design

### Michelle R. Brown, Division Leader

The Interior Design program is accredited by the Council for Interior Design Accreditation (CIDA), the national accrediting agency for interior design education. The curriculum provides opportunity to develop the skills, knowledge, and learning experiences that prepare students for professional careers with interior design and architectural firms, other design-related careers, or graduate education. The program addresses competencies necessary for passing the NCIDQ (National Council for Interior Design Qualification) exam, a step required in Texas and many other states for interior design certification or licensure. The program incorporates a strong liberal arts background with supporting courses in the arts, sciences, and humanities. The freshman and sophomore years focus on building a strong knowledge base in design, addressing both residential and commercial design venues. The junior and senior years allow for application of knowledge and skills with a strong emphasis on design research and creative problem solving. Study abroad programs are offered to further enhance the educational experience. Students have 24-hour access to drafting facilities, resource areas, and a computer lab. Membership in the Interior Design Association at Baylor, a student organization representing professional student chapters of the American Society of Interior Designers (ASID) and the International Interior Design Association (IIDA), is available for students, offering an introduction into

the professional field of interior design. With easy access to the Dallas Design Center, strong professional involvement and industry support are available for students. Various professional organizations at state and national levels offer career day experiences, resources, and mentoring.

Post-matriculation students wishing to change their major to Interior Design must have a minimum GPA of 2.25 in order to be accepted into the Interior Design program. Due to course sequencing, a minimum of three years is required to complete major requirements for interior design.

| <b>Total Hours</b>  |   | <b>124-125</b> |

<sup>1</sup> NUTR 3314 Consumer Nutrition and CFS 4356 The Family: A Global Perspective are included in basic studies requirements above.

<sup>2</sup> The required, for-credit course, ID 4398 Interior Design Internship (listed above), provides credit for the internship experience.

## First Year Review

Successful completion of the First-Year review is required for advancement to the Sophomore level studios. At the end of the first year review the following is required:

A minimum GPA of 2.85 or higher in the ID and Art courses required in the freshman level studio sequencing.

### Second Year Review

This review is a selective process by which the design faculty identifies students who are prepared in skills and knowledge to proceed to the junior level studio courses. Requirements for Second Year Review:

1. Overall GPA of 2.5 at the end of the fall term prior to the Second Year Review to make application.
2. A 2.85 overall in Interior Design Courses at the end of the Spring Semester

## Nutrition Sciences

### Stan Wilfong, Division Leader

Students in nutrition sciences are preparing for a professional career dealing with human nutrition, emphasizing disease prevention, disease management and maintaining good health by high quality nutrient intake.

Students also become proficient in preparing nutritious foods for all phases of the life cycle. There are three concentrations within nutrition sciences: pre-dietetics, pre-health and food management. Membership in the Academy of Nutrition and Dietetics is based on the major of Nutrition Sciences and is open to undergraduate students.

- Food Management Concentration (p. 403)
- Pre-Dietetics Concentration (p. 404)
- Pre-Health Concentration (p. 405)

## Food Management Concentration

The Food Management concentration is for those applying their nutrition expertise to food delivery in healthcare settings, preschools, school lunches, or other institutional settings.

Electives (to reach 124 minimum hours) 22

A grade of "C" or better is required for all Human Sciences and Design Courses (NUTR, CFS, HSD).

**Total Hours****124-126**

## Pre-Dietetics Concentration

The pre-dietetics concentration prepares students to pursue a post-graduation supervised practice in dietetics and eventually sit for the exam to become a registered dietitian. Students will receive a verification statement upon completion of the major. The curriculum in the Nutrition Sciences program is currently granted accreditation by:

The Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics  
120 South Riverside Plaza, Suite 2190  
Chicago, IL 60606-6995  
312-899-0040 Ext. 5400

Successful completion of the Nutrition Sciences Pre-Dietetics program, university graduation requirements, an accredited internship, and other ACEND requirements qualifies the student to take the Commission on Dietetics Registration (CDR) examination to become a Registered Dietitian.

**Admission Requirements**

Nutrition Sciences majors can be enrolled into the Pre-Dietetics Concentration at the beginning of their Junior year if they meet the minimum 3.0 GPA requirement and have the approval of the Director of the Didactic Program in Dietetics (DPD program).

|  |   |
|--|---|
| Complete 0-3 hours of electives (to reach 124 minimum hours) | 3 |
|--|---|

A grade of "C" or better is required for all courses used to complete a degree in Nutrition Sciences with a pre-dietetics concentration.

|                    |                |
|--------------------|----------------|
| <b>Total Hours</b> | <b>124-126</b> |
|--------------------|----------------|

## Pre-Health Concentration

The pre-healthcare concentration in nutrition is an excellent option for students preparing for professional careers in the medical or health care field (pre-med, physician assistant, dentistry, etc.). Extensive research supports the role of diet in health and disease states. Please check with the Pre-Health office on campus regarding requirements of the programs to which you aspire, to be sure you are meeting all prerequisites while enrolled in the nutrition sciences Pre-Health option. You may petition for changes to the science course requirements if there is a discrepancy.

## Public Health

### Department of Public Health

The Department of Public Health is home to all accredited public health degree programs at the undergraduate and graduate levels that prepare students for public health practice and research. Our graduates promote health in local and global settings as they work in government-sponsored public health agencies, non-profit organizations, university and corporate wellness programs, and population health programs in healthcare settings. The undergraduate program includes a Bachelor of Science in Public Health (BSPH) degree and a joint degree that combines the BSPH with a Master of Public Health (MPH) in Community Health.

Students may only change their major to PUBH and be admitted into the PUBH program during the designated eligibility period, and only at the end of a full semester (fall or spring) through the 5th class day of the following term.

To change to PUBH, current Baylor students must meet the following criteria:

1. Meet the minimum GPA requirement:

\*Cumulative GPA of 2.75

- Bachelor of Science in Public Health (BSPH) (p. 408)
- BSPH/MPH in Community Health Education Joint Degree (p. 409)

## Public Health (PUBH)

### **PUBH 1145 Health and Human Behavior (1)**

The intent of this class is to explore a variety of health issues pertinent to the following topics: stress, mental/emotional health, aging, death, human sexuality, chemical use, nutrition, exercise, chronic and degenerative diseases, and infectious diseases.

### **PUBH 2313 Consumer Health (3)**

The basic principles involved in purchasing health goods and health services are presented. Topics include advertising, health insurance, selecting health professionals, and the use of health care agencies.

### **PUBH 2330 Introduction to Public and Population Health (3)**

Pre-requisite(s): Public Health major, minor or consent of instructor  
Introduces students to historical and theoretical foundations of community, public, and population health, social determinants of health and programs designed to address public health issues. The course is designed to cover the seven competency areas of an entry-level health education specialist and the foundational dimensions of public health. Professional preparation including career opportunities, mock interviews, and resume and cover letter writing are also included.

### **PUBH 2331 Health Concepts and Competencies (3)**

Pre-requisite(s): Public Health major, minor or consent of instructor  
PUBH 2330 or concurrent enrollment. History, philosophy, and ethics in the practice of health education. Development of skill in the seven areas of responsibility with emphasis on needs assessment, writing goals and objectives, and planning for effective health education programs in school and community settings.

### **PUBH 2332 Survey of Public Health - for NON MAJORS (3)**

This is an introductory course to public health for non-Public Health majors. The course will introduce students to the goals, principles, core functions, and essential services of public health. Students will learn about the social determinants of health and how they impact behavior-related health issues. The course will provide a general overview of the different public health eras and initiatives, with a focus on the disciplinary nature of the

### **PUBH 3313 Nutrition (3)**

Pre-requisite(s): Upper-level standing

A study of the fundamental, as well as relevant, current research and issues in nutrition in the United States and the world.

### **PUBH 3314 Environmental Health (3)**

A course designed for the study of environmental health hazards such as air, water, solid wastes, noise pollution, radiation, pesticides, food additives, metallic menaces, substandard housing, urban environment, and population dynamics. The role of conservation and governmental agencies concerned with pollution control is included in the course.

### **PUBH 3317 Mood-Modifying Substances (3)**

Analysis of major mood-modifying substances, including alcohol and tobacco, and also use and misuse of over-the-counter and prescription drugs. Many alternatives to chemical use and methods of effectively working with school-aged children will be addressed.

### **PUBH 3320 Stress Management/Mental-Emotional Health (3)**

Pre-requisite(s): Upper-level standing

To introduce students to the topic of stress and its impact on their lives; further, to develop behavioral skills in which to deal healthfully with the impact of a technological society. The second half of the class will devote itself to topics and activities that relate to feelings of positive self-worth and psychosomatic wellness.

### **PUBH 3325 Maternal and Infant Health (3)**

The purpose of this course is to provide students contextual insight into multilevel influences that shape current maternal and infant health outcomes. Students will improve their understanding of the historical basis for contemporary global and domestic approaches to prenatal care, childbirth, postpartum practices, as well as public policy.

### **PUBH 3331 Planning in Public and Community Health (3)**

Pre-requisite(s): Public Health major, minor

PUBH 2330 and 2331 Provides in-depth focus on program planning in health education that includes planning models and strategies. Experiential learning through a group writing project serves as the framework for each component of the program plan.

### **PUBH 3350 Human Physiology for Allied Health Professionals (3)**

Pre-requisite(s): A minimum grade of C in HP 1420

Survey of the function and interrelationship of body systems with emphasis on the homeostasis of these systems.

### **PUBH 3351 Epidemiology/Vital Statistics (3)**

An introductory epidemiology course for students interested in public health. Topics will include historical foundations, study designs, and organizing and analyzing epidemiologic data.

### **PUBH 4320 Men's Health and Wellness (3)**

Pre-requisite(s): Upper-level standing

Focuses on issues specific to men's overall health and wellness, concepts of multiple masculinities, men's body image and the portrayal of men in media. This course is available to men and women.

### **PUBH 4321 Human Sexuality (3)**

Pre-requisite(s): Upper-level standing

A health education course in which basic concepts of human sexuality are analyzed and discussed. The course is designed to help students better understand the influences that affect the complex nature of human interaction and to provide accurate information needed to help develop responsible decision making skills.

### **PUBH 4323 Professional Field Experiences in Health (3)**

Pre-requisite(s): Junior standing, twenty-one semester hours in health education courses and consent of the division director

Planned experiences in various community agencies including both public and voluntary health organizations.

### **PUBH 4327 Dying and Death Education (3)**

Pre-requisite(s): Upper-level standing

A course of death education designed to help students develop constructive attitudes, values, and practices. This experience will nurture an appreciation of the connection between life and death.

### **PUBH 4331 Intervention Design in Public and Community Health (3)**

Pre-requisite(s): Public Health major, minor or consent of instructor  
PUBH 2331 and 3331. Theories and methods used in designing culturally appropriate intervention in public and community health. A special emphasis is focused on social marketing techniques used to promote healthy behaviors and lifestyle changes.

**PUBH 4333 Evaluation in Public and Community Health (3)**

Pre-requisite(s): Public Health major, minor

PUBH 2330, 3331 and 4331. Focuses on process, impact, and outcome evaluation of public and community health interventions. Other skills covered include research design, data collection tools, quantitative methods, qualitative methods, data analysis, and data interpretation and visualization.

**PUBH 4340 Global Health (3)**

Overviews global health issues and the role of health education and public health worldwide.

**PUBH 4341 Cross-Cultural Health Communication (3)**

Overviews cross-cultural communication concepts/strategies used in health education to assess health needs and communicate health information. Designed for field-based international or local culture-specific settings.

**PUBH 4355 Human Diseases (3)**

Pre-requisite(s): A minimum grade of C in PUBH 3350

Basic principles of pathophysiology and mechanism of diseases affecting the human body, including basic principles of epidemiology with emphasis on the causation and effects of disease on human populations.

**PUBH 4V80 Professional Internship in Health (1-6)**

Pre-requisite(s): Senior standing, twenty-four semester hours in health education courses and consent of the division director

Designed to provide students with planned experiences with professionals in various health, allied health and/or community health settings including public, private, and health agencies.

It is the responsibility of the student to complete prerequisites or seek permission from instructors to enroll in classes requiring such prerequisites.*

## BSPH/MPH in Community Health Education Joint Degree

Dr. Beth A. Lanning and Mrs. Margo Shanks, Co-Directors

The BSPH/MPH in Public Health joint program is a 5-year program of study. This joint degree program enables qualified students to obtain a Bachelor of Science in Public Health and a Master of Public Health in Community Health in a minimum of five years of full-time study. All requirements for the BSPH and MPH must be met, and the degrees are awarded concurrently.

## Admission

Undergraduate students in the BSPH program can apply for the BSPH/MPH joint program at the end of their junior year. Applicants must be BSPH majors and have a GPA of 3.2 or higher prior to applying for the program. The applicants must obtain approval of the undergraduate BSPH advisor and program director, and the MPH program director and must be admitted under provisional status until they have completed at least one semester of graduate work. Students will also be required to take the GRE before being admitted into the program and meet all requirements for entry into the Baylor Graduate School as an MPH student. The BSPH degree will be awarded with the MPH upon completion of all degree requirements. Students who decide to withdraw or who do not maintain a 3.2 GPA will be allowed to finish the BSPH but will have admission to the graduate MPH program cancelled, and any graduate work completed will appear on the undergraduate transcript and will count on the bachelor's degree. These students will not be allowed to re-enter the joint degree program at a later date.

## Requirements

A maximum of 15 credits of course work (MPH-level courses) will count toward both degrees. These 15 credit hours include the following MPH courses, which are already embedded in the 42-credit hour MPH degree (see graduate catalog).

| Code      | Title  | Hours |
|-----------|--|-------|
| PUBH 5337 | Public Health Concepts in Epidemiology                 | 3     |
| PUBH 5350 | Assessment and Planning in Public and Community Health | 3     |
| PUBH 5360 | Evaluation in Public and Community Health              | 3     |
| PUBH 5V94 | Public Health Practicum (permission required)          | 3     |
| PUBH 5V90 | Public Health Internship (permission required)         | 6     |

Though other students in the MPH program have the option of completing a thesis instead of the final 400-hour internship, students in the joint program must complete the 400-hour internship to satisfy contact hour requirements from the national accrediting body for the undergraduate portion of the joint degree. Joint degree students are strongly encouraged to complete as many undergraduate courses as possible prior to beginning MPH courses and to take no more than one undergraduate course per semester while taking MPH courses. Students are encouraged to contact appropriate advisors in each program for further details.

## Louise Herrington School of Nursing Introduction

The Baylor School of Nursing was established in 1909 as a diploma program within the Baylor Hospital in Dallas, Texas, the predecessor of the present Baylor University Medical Center.

The Louise Herrington School of Nursing is among the oldest baccalaureate nursing programs in the United States. The first class of Bachelor of Science in Nursing students was admitted in 1947. In 1949, the School became one of 10 degree-granting schools and colleges at Baylor University.

The Louise Herrington School of Nursing is accredited by the Commission on Collegiate Nursing Education and approved by the Texas State Board of Nursing. A graduate of the program is academically qualified to write the National Council of State Boards of Nursing Licensure Examination (NCLEX-RN) in any state, and upon achieving a passing score on this examination, to be licensed as a registered nurse (R.N.) by the state.

The School of Nursing, is located on the Baylor University Medical Center campus a few blocks northeast of downtown Dallas.

There are approximately 500 undergraduate students enrolled in the nursing major on the Dallas campus. Students may complete all pre-nursing requirements at any regionally accredited institution and transfer directly into the nursing major on the Dallas campus.

## Program Overview

The Louise Herrington School of Nursing offers two pathways to the Bachelor of Science in Nursing (BSN) Degree.

### Traditional Track

This track (pre-nursing and nursing) is designed to be completed in four years - eight academic semesters. Prerequisite courses may be taken on the Baylor-Waco campus or at another college or university.

### FastBacc Track®

This track is an academically rigorous 12 month accelerated curriculum designed for individuals who have completed a bachelor's degree in a non-nursing discipline.

### Distance Accelerated BSN Track

This 12 month track is Low Residency, rigorous accelerated curriculum, designed for second degree students, who wish to complete their BSN with Online instruction, and clinicals managed with Preceptors.

## Admission

### Minimum Requirements

Students are officially admitted to the Traditional Track in the fall and spring semesters each year. Students are admitted into the FastBacc® Track each summer.

All entering freshman students who wish to study nursing will be required to register in the non-degree granting Pre-Nursing (PNU1) major. Students in the Pre-Nursing major must complete the HESI A2 exam achieving a grade of 80 or higher in the Math and Verbal Composite sections of the nursing admission exam before progressing into the Pre-Nursing (PNU2) major. The nursing admission exam may be repeated once a semester for a maximum of three times.

A student may remain in the PNU1 major for a maximum of three academic semesters. A student must be classified as a PNU2 student to apply for admission to the LHSON. A student may remain in the PNU2 major for a maximum of three academic semesters.

In order to declare the major of PNU2, a PNU1 student must meet the following lower division requirements:

1. Completion of at least two of the four required lower division science courses with a science GPA of 2.75 or greater.
2. Completion of NUR 1101 Introduction to the Art and Science of Nursing, New Student Experience with a grade of "C" or higher or successful completion of an equivalent course.
3. Completion of the HESI A2 Math and Verbal Composite sections of the nursing admission exam with a grade of 80 or higher in each category.
4. Cumulative GPA of 2.50 or higher.
5. Pre-nursing students may repeat a required lower division course only once.
6. Pre-nursing students may repeat no more than two required lower division courses.
7. Courses with a grade of "C" or higher may not be repeated to raise either the cumulative or pre-nursing GPA.

Students wishing to apply to the LHSON must be classified as a PNU2, Post-Baccalaureate, or Transfer student. Post-Baccalaureate and Transfer students are not required to complete a New Student Experience course. All applicants must meet the following admission criteria:

1. Applicants must be admitted to Baylor University or be Baylor University students in good standing with a minimum of 30 credit hours in residence.
2. Formal application to the School of Nursing is required. Applications, including both University and School of Nursing applications may be accessed on the School of Nursing website. Application deadlines for the Traditional Track are January 15 for fall admission and July 15 for spring admission. The deadline for FastBacc® Track admission is January 15.
3. Required lower division courses must be completed during the full academic semester prior to admission. Fall admission courses must be completed by the end of the preceding spring semester.
4. Students may be provisionally registered for the first semester classes pending official transcripts of required lower division courses. Students will not be allowed to register for future semesters if all official transcripts of required lower division work taken elsewhere are not on file with Baylor. See the Sample Curriculum Plans for the Traditional and FastBacc® tracks at the end of the nursing section for all course requirements.
5. A minimum grade of "C" (not "C-") is mandatory in each required lower division course. Students must achieve a minimum cumulative GPA of 3.0 on all completed required lower division courses. The overall cumulative GPA must be a 2.50 or higher for admission to the program. The science GPA must be 2.75 or higher for admission to the School of Nursing. Applicants may only repeat a required lower division course one time. Only the most recently completed course grade will count for admissions purposes. Students who fail the same required lower division course twice are not eligible to apply.
6. Applicants may only repeat a maximum of two required lower division courses.
7. The School of Nursing has adopted core performance standards for admission and progression within the major. The core performance standards identify behaviors which are essential to the responsibilities of a student nurse. These include, but are not limited to, psychomotor and sensory abilities, critical thinking, and communication skills. Students must sign the core performance document provided by the School of Nursing signifying that they are able to meet these standards and behaviors.

8. Students must complete the pre-admission criminal background check required by the Texas Board of Nursing prior to orientation and/or any participation in course activities at the School of Nursing. All students, prior to the beginning of their first clinical rotation, are required to complete an additional more in-depth background screen and to pass a drug screen as outlined in the Undergraduate Student Handbook. A positive drug screen and/or failure to clear either of the criminal background checks will prohibit the student from attending the school of nursing.
9. Students desiring to transfer from another School of Nursing are required to provide a letter of good standing from the former school of nursing in situations where nursing credits have been earned even though the student may not be seeking transfer credits from their previous course of study.
10. Regardless of the number of credit hours accepted for transfer, the 60 hour residency requirement must be met.
11. Nursing applicants are required to take the designated nurse admission examination as part of the application process. Minimum scores of 80 on each of the HESI A2 Math and Verbal Composite portions are required to be admitted to the nursing program. There is a fee associated with the required testing, and the HESI A2 exam may be taken once a semester with no more than three attempts to achieve the required scores on the exam.
12. Students for whom English is their second language are required to take the Test of English as a Foreign Language (TOEFL). Minimum scores for admission consideration are:  
Paper Based Test of 560,  
Computer Based Test of 220,  
Internet Based Test (iBT) of 83.
13. Acceptance to the School of Nursing is term specific. Students are not granted automatic deferment of acceptance. Due to the competitive nature of admission to the nursing program, future acceptance to the School of Nursing is not guaranteed.

For additional information regarding admission to the School of Nursing, contact:

Dallas Campus  
Louise Herrington School of Nursing  
Student Services  
333 N. Washington Ave  
Dallas, TX 75246  
Phone: 972-576-9100

## **Baylor University Medical Center Woman's Auxiliary Foree Scholarship**

A limited number of scholarships are available to students who are receiving other forms of financial aid. The application procedure is

coordinated between the Student Services Office and the Woman's Auxiliary.

## **Work-Study Employment**

Students employed by the University or School are limited to working twenty hours per week. Students who fail to meet the academic standards in the School of Nursing due to employment will receive no special consideration regardless of financial need.

## **Student Life, Services, and Facilities**

The regents, administration, and faculty of Baylor University believe that students should have comprehensive and varied opportunities for physical, intellectual, social, cultural, religious and emotional development. To this end a variety of services, activities and facilities is available to students.

## **Student Ministries**

The Student Ministries Office provides faith-based opportunities for students on the Dallas campus. Activities include Bible studies, local mission opportunities, retreats, and domestic and international mission trips.

The Office of Student Ministries is committed to providing a well-balanced program of ministry opportunities for all students on the Dallas campus. Students are involved in leadership at various levels throughout the program.

## **Professional Organizations**

All students enrolled in nursing courses are eligible for membership in the Baylor Student Nursing Association (BSNA), an affiliate of the national and state Nursing Students Associations. Nursing Christian Fellowship (NCF) is both a Christian professional, organization and a ministry of and for nurses and nursing students. NCF is a ministry of InterVarsity Christian Fellowship. Membership is open to all students at the School of Nursing. Information, qualifications, and application forms for any of the student organization are available in the Office of Student Services.

The School sponsors the Eta Gamma chapter of Sigma Theta Tau International nursing honor society. Qualified students are invited during their final semester for membership in Sigma Theta Tau International based upon criteria set forth by Sigma Theta Tau International.

## **Health Services**

ALL students in the School of Nursing are required to carry personal health insurance coverage. Health Insurance coverage is available through the sponsorship of Baylor University. A description of the Combined Insurance Company plan offered through Baylor University is available at <https://baylor.myahpcare.com>. The School of Nursing has a partnership to provide same-day appointments with a physicians' group at Baylor Scott and White Medical Center and Baylor University Medical Center for minor health problems. However, students are responsible for all health care costs incurred while a student at Baylor.

## **Counseling Services**

Various avenues for personal counseling services are available to students on the Dallas campus. The Director of Student Services and the Chaplain are available to provide limited counseling and/or referrals when needed or requested by the student. The School of Nursing contracts with a local counseling practice to provide services to students at no cost. These services are confidential and students may self-refer. The practice is comprehensive and can see students for a variety of reasons

including test anxiety stress, depression, relationship counseling, and eating disorders. All counselors are licensed professional counselors and professing Christians. Students may be seen by appointment as well as through on campus well-being seminars.

## Tom Landry Center

The Baylor Tom Landry Center located adjacent to the School of Nursing, provides a comprehensive fitness facility for students. Students taking a minimum of twelve semester hours are given a complimentary membership which entitles them to use this facility during certain designated hours of operation.

## Learning Resource Center

The Learning Resource Center (LRC) serves as the library for the Louise Herrington School of Nursing. Located in the Nursing School building at 333 Washington Avenue in Dallas, the LRC is open for twenty-four-hour study. Secure access is controlled by a Dallas-issued ID badge.

On weekdays, the LRC is staffed by a credentialed medical librarian. The librarian offers appointments with nursing students or faculty for intensive individual research sessions or consulting. Appointments may be in person, by telephone or electronically. Student workers are available to assist Nursing School users evenings and weekends. The LRC houses thousands of book and journal volumes and has access to more than 81 nursing journal titles in electronic or print format, as well as online access to all of Baylor University's Waco campus electronic resources. The LRC resources include citation and full text databases, e-books, reference material, printers, a full-color touch screen scanner, audiovisuals such as streaming videos, DVDs, CDs, models, kits, and clinical equipment. The LRC has computers for student use, study rooms, spaces for small group work, individual study areas, and spaces for relaxation. The LRC can obtain journal articles or books not owned by the university via a national network of health sciences libraries as well as through nonmedical library networks.

## Advisement

The Office of University Advisement and the Pre-nursing Coordinator on the Waco campus collaborate to advise students enrolled at Baylor as pre-nursing majors. The Academic Support Specialist for Academic Affairs will register all incoming students. All students are encouraged to meet with the Coordinators of Academic Success during their first semester at the School of Nursing to discuss academic progression in their courses. Students who may need to deviate from the standard nursing curriculum progression will receive an individualized program of study developed by the Academic Support Specialist for Academic Affairs.

## The Success Center

The Success Center within the Louise Herrington School of Nursing assists nursing students by providing academic support services and designated study spaces. The Center includes areas designed for individual and group study and also provides a private testing area for students requiring testing accommodations or for administration of make-up exams.

Academic referrals may be made to the Success Center; referred students are provided support and information regarding test taking skills, note taking skills, study skills, time management, stress management, goal setting and critical thinking. The staff of the Success Center coordinates free tutoring for nursing students.

## Career Planning

The Nursing School offers career services support including guidance in writing résumés and cover letters, preparing for interviews, and writing thank you letters. Students are encouraged to attend the various hospital presentations and recruiting events provided by the Coordinator of Career Services and Alumni Relations.

## Dining

The Tom A. and Suzanne P. Martin Café provides food and beverages for sale along with refrigerators and microwaves for personal food preparation. A variety of public restaurants are located within the immediate vicinity of campus. Students receive a discount on meals purchased at the Baylor University Medical Center (BUMC) cafeterias when they present their BUMC ID.

## Parking and Building Access

Parking on the Dallas Campus is by permit only. Parking stickers may be purchased from the Baylor University Medical Center Parking Services for \$50 per semester, and provide access to designated garage and lots. Baylor Police patrol the BUMC campus and provide building security. A security escort is available to students upon request. Emergency call boxes are stationed at a variety of locations within and around the perimeter of the medical center.

Entrance to the School of Nursing is controlled. BUMC issued badges allow access to the building and parking lot. Students are required to wear a BUMC ID.

## White Coat Ceremonies

Entering junior level students are welcomed into the profession of nursing with a ceremony prior to their clinical rotation in the fall, spring and summer semesters. In order to participate in the ceremony, students must have satisfactorily completed all requirements and be in good academic standing.

## Pinning Ceremonies

Graduating seniors are honored with a ceremony at the conclusion of the fall and spring semesters. In order to participate in the pinning ceremonies, students must have satisfactorily completed all requirements for the Bachelor of Science degree in nursing.

## Commencement Ceremonies

Graduation exercises are held on the Waco campus in May, August and December. Students are recognized during the commencement ceremony and graduating senior students are strongly encouraged to attend. Students must notify the University if they are not participating in their commencement ceremony.

No student may graduate until all degree requirements are complete and the necessary official records are in the Office of the Registrar. The University reserves the right to correct errors in records at any time. Diplomas are dated and available only as of the official closing date of a semester or full summer session.

## Academic Policies and Procedures

Progression in the major toward an anticipated date of graduation is contingent upon successful completion, with a grade of "C" (not "C-") or above, in **all** courses the first time attempted in a full-time or approved part-time plan of study.

Any student who does not achieve a grade of "C" (not "C-") or above in any nursing course and who plans to continue in the program must have a revised plan of study and new graduation date approved by the Associate Dean for Prelicensure programs within two weeks following the semester in which the deficiency was received.

In most instances, a student who must repeat a course will delay curriculum progression.

### Course Repetition in the Nursing Major

A grade of "C" (71.00) is required in all courses in the nursing major. If a student does not achieve a grade of "C" (71.00) or above in a nursing course, the course must be repeated the NEXT semester it is offered if space is available in the class unless written approval is received from the Associate Dean of Pre-licensure Program or Dean. A student may repeat one nursing course. A student who fails two or more nursing courses will not be eligible to continue in the major. The student may be eligible to continue studies in another major within the University.

### Drop/Withdrawal Policy

Students may enroll in a nursing course up to two times. Students enrolled in the undergraduate nursing program who previously withdrew, dropped, or failed a Nursing course may not subsequently withdraw from the same course. Nursing students have one opportunity to withdraw, drop or fail a nursing course. Students are required to complete pre-requisite courses prior to moving forward in the major. Students taking a nursing course previously withdrawn, dropped, or failed are required to earn a minimum of C or higher to pass the repeated nursing course. The second drop/withdrawal from a previously withdrawn nursing course constitutes a dismissal from the Program. Exceptions to this policy may be entertained due to extraordinary non-academic circumstances. Requests for exception to policy will be reviewed by the Associate Dean for the Pre-Licensure Program.

### Readmission Following Academic Dismissal

A student who was dismissed from the nursing program for academic reasons is not eligible for readmission for three (3) academic years. Readmission applications are processed through the Louise Herrington School of Nursing Student Services and are reviewed by the LHSON Undergraduate Academic Policies Committee. The readmission applicant must meet all admission requirements stated in the academic catalog that are current when the application is submitted. In addition to the readmission application, the applicant must submit current nursing entrance test scores, which supports the applicants' potential for success if readmitted. Readmission is to the beginning level of the nursing curriculum and is a highly selective process. Students who have been readmitted must pass all nursing courses attempted. Subsequent failure of any one course will result in permanent dismissal from the Louise Herrington School of Nursing.

### Continuation in the Major Following Interruption for Non-Academic Reasons

Former students in good standing who have withdrawn or taken a semester off due to non-academic reasons (health, pregnancy, family emergencies, financial, etc.) may be eligible to return to the School of Nursing the following semester. The student will need to meet with the Associate Dean for Prelicensure Programs to develop a degree plan for continuation in the major.

If a student requests a leave of absence due to a non-academic reason and this leave exceeds one year from the date of withdrawal, a competency evaluation will need to be scheduled with the Academic

Support Specialist - Academic Affairs. Reentry to the program is contingent on meeting the following requirements: Successful completion of a health assessment exam, CPE skills, and satisfactory conversion score of no less than 71% on the applicable HESI specialty exam(s) as determined by the Associate Dean for Prelicensure Programs. Cost of HESI specialty exam(s) will be at the student's expense. Students re-entering the program after a lapse of one semester or greater must also successfully complete background and drug screening.

### Professional Responsibility/Code of Ethics

Throughout the entire course of study in the School of Nursing, students are reminded that they are studying to become a member of an honored profession and of the responsibility that such membership entails. The ethical standards of conduct of the professional nurse as a member of a service profession in a self-governing society are upheld in a manner consistent with the purposes of a Christian university.

Within the academic and clinical settings, professional nursing students must;

1. Adhere to the American Nurses Association Code of Ethics.
2. Uphold all academic and clinical institutional policies related to academic and clinical performance, reserving the right to appeal using the procedure outlined in the Baylor University Honor Code.
3. Actively promote the highest level of moral and ethical principles and accept responsibility and accountability for their actions.
4. Treat others with respect and promote an environment that respects human rights, values, cultural and spiritual beliefs.
5. Maintain client confidentiality.
6. Communicate the care for clients in a truthful, timely and accurate manner.

### Cardiopulmonary Resuscitation (CPR) Certification

Students must be certified/recertified in the American Heart Association (AHA) Basic Life Support Course C for Healthcare Provider (BCLS) prior to the first day of the clinical class in each semester. A course will be offered for students during Orientation and upon exiting the program. There is a fee associated with each BCLS course. We strongly recommend students take the course at the time they enter the program to remain current throughout their academic attendance. Certification must stay current throughout any given semester. No student will be allowed in the clinical setting until fulfillment of this requirement is documented.

### Immunizations

Prior to attending clinical, all students must provide documentation of a current TB test (Option 1: QuantiFeron Gold, IGRA or T-Spot blood test; Option 2: Two rounds of TB skin testing within 3 weeks of each other). Students with a positive TB test must provide documentation of positive TB screen along with a chest x-ray report. In addition, students must provide documentation indicating they have received the following immunizations: Hepatitis B (3 part series), MMR (2 part series), Tdap and Varicella (2 part series). A titer confirming immunity may be substituted for proof of immunization for Hep B, MMR, and Varicella. No student will be allowed in the clinical setting until fulfillment of this requirement is documented. The full Hep B series of three immunizations must be completed prior to orientation. Students applying to any nursing school should begin the Hep B series at least 6-9 months prior to anticipated start date as the full course requires 6 months to complete. Annual flu immunization is required each year. Deadlines vary by season. Students

are required to be in compliance by established deadlines to attend clinical practicum.

## Personal Health Coverage

All students in the School of Nursing are required to carry personal health insurance coverage in order to attend clinical. Health Insurance coverage is available through the sponsorship of Baylor University. A description of the Combined Insurance Company plan offered through Baylor University is available at <https://baylor.myahpcare.com>. Health coverage must be maintained throughout the nursing program.

## Latex Allergy

Students may be exposed to products containing latex in the clinical environment and should carefully consider this personal risk if they have a history of latex allergy. Students are advised to discuss any concerns with their health care provider before beginning nursing classes.

## OSHA Guidelines

All students are expected to adhere to the School of Nursing OSHA guidelines as well as the guidelines of any institution in which they have a clinical rotation.

## Professional Liability Insurance

Each year the Louise Herrington School of Nursing makes arrangements with an insurance company to provide professional liability insurance for nursing students. Questions concerning coverage may be addressed to the insurance agency from which Baylor obtains the insurance.

## Employment Outside of the University

Students are strongly advised that work hours should not exceed 24 hours per week. Students who fail to meet the academic standards in the School of Nursing due to employment will receive no special consideration regardless of financial need. Students employed by clinical agencies should be aware that neither the University nor the School of Nursing assumes any responsibility for their activities as employees of an agency.

## Professional Licensure

### Licensing Examination for State Registration

During the semester prior to graduation, students will complete an application for the National Council for Licensing Examination (NCLEX-RN) and an application to the Board of Nursing in the state in which they are seeking licensure. There is a fee for the NCLEX-RN application and for licensure by the various state boards. (Board application fees vary by state.) The Academic Affairs Office assists students in the application procedure but assumes no responsibility for late or incorrect applications.

Successful completion of the nursing program does not guarantee successful passage of the licensing examination. In addition, the Texas State Board of Nursing may refuse an applicant permission to write the exam for reasons cited in "Texas Statutes Regulating the Practice of Professional Nursing."

### Licensure as a Registered Nurse

Several requirements must be met before a student is eligible for licensure. Students must submit verification of completion of all requirements for graduation from an approved nursing education program. In addition, all individuals seeking licensure as a registered nurse in the State of Texas must submit, along with a fee required by the board, a complete and legible set of fingerprints on a Board approved

form for the purpose of obtaining a criminal history from the Texas Department of Public Safety and the Federal Bureau of Investigations.

All convictions, guilty pleas and nolo contendere pleas must be reported, except for minor traffic violations not related to the use of drugs or alcohol. This includes misdemeanors, felonies, "driving while intoxicated (DWI)" and "driving under the influence (DUI)." Crimes must be reported even if they are a suspended imposition of a sentence. All prior or current disciplinary action against another professional license must be reported, whether it occurred in Texas or in another state or country. All pending charges must be reported to the Board.

Applicants must file a "Petition for Declaratory Order" to declare prior criminal record and disciplinary actions. Forms and instructions are available on the website for the Texas State Board of Nursing: <https://www.bon.texas.gov>.

## School of Nursing Faculty

| Name                    | Title                                       |

# Curriculum

## Curriculum

### Philosophy

The faculty of the Louise Herrington School of Nursing believes in the philosophy, the Christian mission, and the goals of Baylor University and, in harmony with these, provides an environment in which the nursing student may grow in professional competence and Christian spirit.

The faculty believes nursing is a service to humanity and is motivated by love for God and society. A commitment to this belief provides a foundation for teaching and learning in the School of Nursing.

The faculty believes the aim of undergraduate and graduate education in nursing is to provide an opportunity for personal and professional development. Professional education includes a study of the arts, sciences and humanities and enhanced in a Christian setting beginning at the baccalaureate level. The faculty believes that baccalaureate education in nursing is the basis for professional practice as a nurse generalist and should be equally accessible to generic students and to other students who have previous formal educational experience in nursing. The nurse generalist has the knowledge, skills, and competencies necessary for assuming the responsibility of entry-level professional nursing positions and for graduate study in nursing.

The faculty believes specialization occurs at a graduate level of education in the refinement of existing skills, expansion of knowledge, and development of competencies in a specific area of nursing practice. The faculty believes that individuals learn in a variety of ways. Learning is a life-long process built upon previous knowledge and experience. Learning occurs in a variety of situations and settings and should become self-directed over time. Knowledge acquisition, critical inquiry, reflection and decision-making prepare learners to respond to issues that confront them as professionals.

The faculty believes that effective teaching employs a variety of strategies to foster independence, critical thinking, and self-discovery. The teacher as a facilitator strives to be innovative and flexible in planning, implementing, and evaluating educational experiences consistent with curriculum goals and objectives. The teacher as a scholar participates in endeavors to acquire, create, and use new knowledge. As members of the academic community, the faculty recognizes that its professional role includes formal teaching, scholarly pursuits, and community service.

The faculty believes the individual, in constant interaction with the changing environment, responds as a unified whole to life situations. In addition, the individual impacts the environment and his/her own welfare through a personal relationship with the Creator. As an integral part of a family, group or community the individual affects, and is affected by both culture and society.

The faculty believes that health is a basic human condition which is uniquely perceived by individuals and groups. Health is a dynamic state of human functioning wherein clients exist with varying degrees of wellness and illness. The higher the level of human need fulfillment, the more optimal the state of wellness for the client. Individuals have the right to pursue that level of health perceived by them to be optimal, taking into account their social and cultural definitions of health. The level of health that individuals can attain is influenced by the levels of health of

families and communities of which they are a part and with whom they coexist.

The faculty believes that professional nursing is the caring for individuals, families, groups, communities, and society through the diagnosis and treatment of the responses to actual or potential threats to health and through facilitating human need fulfillment. Professional nursing is a practice discipline which has evolved from a rich, unique heritage. It encompasses the arts, sciences, ethics, and politics. Nursing has a dynamic body of knowledge based on nursing research and on the application of theories and concepts from the physical and behavioral sciences and the humanities. Professional nursing utilizes the nursing process in a caring, interactive manner to promote optimal wellness. Through a variety of roles, professional nursing contributes to the improvement of health care services to society.

## Purposes

1. Provide graduates with a Christian foundation for continued personal and professional growth.
2. Prepare beginning nurse generalists who can provide professional nursing care based on bio-psychosocial-spiritual theories and principles to individuals, families, groups, communities, and society in a variety of settings.
3. Prepare a practitioner to assume the responsibilities of a professional person in contemporary society.
4. Provide a foundation for graduate study in nursing.

## Program Outcomes

The curriculum is designed to provide learning experiences that will prepare the graduates to:

1. Synthesize liberal education and Christian principles in safe, compassionate professional nursing care.
2. Practice as a professional nurse to facilitate human need fulfillment of individuals, families, groups, communities and populations across the lifespan in a variety of healthcare settings.
3. Utilize the human needs framework and current evidence as a basis for professional nursing practice.
4. Utilize information management systems to deliver, evaluate, and improve the safety and effectiveness of patient care.
5. Demonstrate effective communication, collaboration, and care coordination as a member of the inter-professional health care team to improve health outcomes.
6. Demonstrate professional, ethical, moral, legal, and spiritual concepts into one's practice within a global environment.
7. Synthesize leadership and management strategies in the delivery of health promotion and disease prevention at the individual and population level.
8. Demonstrate understanding of healthcare policy, finance, and regulatory standards on quality outcomes and nursing practice.

<sup>1</sup> Students are responsible for completion of approved general education courses in the regular semester prior to beginning classes at the School of Nursing. In other words, completion of pre-requisite classes for students beginning nursing courses in the fall semester must be

completed in the spring prior to beginning classes or during the fall semester for January entry into the nursing program.

<sup>2</sup> ENG 1302 Thinking and Writing will be accepted as dual credit or transfer credit only. BU Freshmen will take ENG 1310 Writing and Academic Inquiry Seminars and ENG 2310 American Literary Cultures.

<sup>3</sup> Students must complete one of the following options. Students must take a foreign language through second level proficiency. **Or** students must complete one Communications & Media Literacy Course and one Fine Arts Course. Complete list of acceptable courses may be found through the College of Arts & Sciences Core Curriculum website, or by consulting your Degree Audit.

<sup>4</sup> BIO Requirements are the BIO 2401 Human Anatomy and Physiology of Motion and Innervation, BIO 2402 Human Anatomy and Physiology of Metabolism and Processing, and BIO 1302 Introductory Microbiology/BIO 1102 Introductory Microbiology Laboratory courses. These will be assigned by your advisor to ensure all students are able to complete the sequence in a timely fashion. If students do not register as assigned, they may be dropped from the courses and placed into the assigned course that may not be the original class day or time.

<sup>5</sup> HIS 1300 The United States in Global Perspective is preferred.

<sup>6</sup> The choices of literature include ENG 2301 British Literature and ENG 2306 World Literature.

<sup>7</sup> May be in a discipline other than mathematics if the course is judged as equivalent to STA 1380 Elementary Statistics at Baylor.

<sup>8</sup> Course must cover entire life span.

## Sample Curriculum Plan – Accelerated January Start

Most students have at least 9 hours of dual credit or AP placement; most commonly students will have ENG 1302 Thinking and Writing, CHE 1300 Introductory Chemistry, SOC 1305 Introduction to Sociology, or STA 1380 Elementary Statistics. Summer enrollment may be used to increase credit hour earnings needed for accelerated January start.

<sup>1</sup> Students are responsible for completion of approved general education courses in the regular semester prior to beginning classes at the School of Nursing. In other words, completion of pre-requisite classes for students beginning nursing courses in the fall semester must be completed in the spring prior to beginning classes or during the fall semester for January entry into the nursing program.

<sup>2</sup> ENG 1302 Thinking and Writing will be accepted as dual credit or transfer credit only. BU Freshmen will take ENG 1310 Writing and Academic Inquiry Seminars and ENG 2310 American Literary Cultures.

<sup>3</sup> May be in a discipline other than mathematics if the course is judged as equivalent to STA 1380 Elementary Statistics at Baylor.

<sup>4</sup> Students must complete one of the following options. Students must take a foreign language through second level proficiency. **Or** students must complete one Communications & Media Literacy Course and one Fine Arts Course. Complete list of acceptable courses may be found through the College of Arts & Sciences Core Curriculum website, or by consulting your Degree Audit.

<sup>5</sup> Course must cover entire life span.

<sup>6</sup> Must be course equivalent to HIS 1300 The United States in Global Perspective, HIS 1305 World History to 1500, HIS 1307 World History since 1500, HIS 1365 United States History to 1877 or HIS 1366 United States History since 1877. Note: HIS 1300 The United States in Global Perspective is preferred.

<sup>7</sup> The choices of literature include ENG 2301 British Literature and ENG 2306 World Literature.

<sup>8</sup> BIO Requirements are the BIO 2401 Human Anatomy and Physiology of Motion and Innervation, BIO 2402 Human Anatomy and Physiology of Metabolism and Processing, and BIO 1302 Introductory Microbiology/BIO 1102 Introductory Microbiology Laboratory courses. These will be assigned by your advisor to ensure all students are able to complete the sequence in a timely fashion. If students do not register as assigned, they may be dropped from the courses and placed into the assigned course that may not be the original class day or time.

## Honors College

## Honors College

The Honors College offers a number of innovative and challenging interdisciplinary programs designed especially for students with superior academic records and independent motivation. Honors College programs feature seminar classes, high faculty-student interaction, thesis options, and assistance in pursuing scholarships and entrance to professional and graduate programs. The programs of the Honors College include the Baylor Interdisciplinary Core, the Great Texts Program, the Honors Program, and the University Scholars Program.

## Scholarships

Joseph and Kelly Armes Endowed Scholarship

John and Chiara Blair Endowed Fund for Leadership in Health Care

Susan Burrow Colón Scholarship Fund in the Honors College

Kelly L. Crider Towle Endowed Scholarship Fund for Washington, D.C. and State Internship

Cunningham Vision Endowed Fund

Gordon A. Davis Endowed Scholarship

## Baylor Interdisciplinary Core (BIC)

Since the fall of 1995, Baylor University has offered an option for the general education requirements of all undergraduate degree programs. The Baylor Interdisciplinary Core (BIC) seeks to integrate the various academic disciplines with a set of comprehensive interdisciplinary courses that provide a coherent approach to knowledge and learning. It is structured so that individuals see and appreciate relationships and connections among issues, disciplines, and thinkers, so that they are encouraged to synthesize material and to develop a comprehensive perspective. The curriculum emphasizes critical thinking, active learning, connected learning (among disciplines), the close reading of primary sources, writing and speaking skills, and the development of a global perspective. Central to the curriculum is a common core of thirty-nine hours of coursework designed for every degree program in each of the University's undergraduate schools. The curriculum is organized around five sequences of courses designated as The Examined Life, World Cultures, The World of Rhetoric, The Natural World, and The Social World.

## Admission to the Program

All regularly admitted students to Baylor University are eligible to apply for the Baylor Interdisciplinary Core program. Enrollment is limited to 200 incoming freshmen each academic year, and admission will be determined by the BIC Admissions Committee. For more information contact

Baylor Interdisciplinary Core  
One Bear Place #97350  
Waco, TX 76798-7350

For additional information about Baylor University, call 1-800-BAYLOR-U (1-800-229-5678).

Degree requirements for the various degrees offered through the BIC program are listed on the following pages.

- College of Arts and Sciences (p. 424)
- Robbins College of Health and Human Sciences (p. 425)
- School of Social Work (p. 426)
- Hankamer School of Business (p. 426)
- School of Education (p. 428)
- School of Engineering and Computer Science (p. 428)
- School of Music (p. 430)
- School of Nursing (p. 432)

## Baylor Interdisciplinary Core (BIC)

### BIC 1112 Examined Life (1)

Co-requisite(s): BIC 1313, BIC 1314

Pre-requisite(s): Students must be accepted into the Baylor Interdisciplinary Core Program to enroll

New Student Experience course explores interconnected aspects of human flourishing and invites first-year students to reflect critically upon their lives as a part of a global community of which the university is a microcosm. Students engage theories of human development and wellness to encourage greater intellectual, physical, emotional, social, and spiritual awareness. The course will introduce students to the goals, structure, and rational.

### BIC 1313 World of Rhetoric I (3)

Co-requisite(s): BIC 1112, BIC 1314

Pre-requisite(s): Students must be accepted into the Baylor Interdisciplinary Core Program to enroll in BIC 1313

Emphasizes those principles essential to the production of clear and effective informative and persuasive/argumentative communication. Assignments will include communication exercises designed to engage students in activities that develop critical thinking, logical reasoning, and effective communication skills. Course work will include the writing of informative, persuasive, and critical essays and the presentation of informative and persuasive speeches. Thematically linked with the other first semester courses in the BIC, the course units are designed to provide students with the written and oral communication skills necessary to function effectively in university courses both within and outside of the Interdisciplinary Core.

### BIC 1314 World Cultures I: Roots of Culture (3)

Co-requisite(s): BIC 1112, BIC 1313

Pre-requisite(s): Students must be accepted into the Baylor Interdisciplinary Core Program to enroll

Embraces the period from the dawn of civilizations to 500 A.D. The course is arranged chronologically and seeks to widen views of our own culture by studying selected early civilizations and their values. Original sources will be selected from such cultures as the prehistoric, Mesopotamian, Chinese, Hebrew, Greek, early Christian, and Roman. By reading and studying original texts and objects from these cultures, students will be exposed to widely differing views of what it means to be human. They will also have the opportunity to refine critical writing and speaking skills. The course will provide students with the broad cultural and historical context in which they may examine their own identities.

### BIC 1323 World of Rhetoric II: Rhetoric in Context (3)

Co-requisite(s): BIC 1324

Pre-requisite(s): BIC 1313

Focuses on the continued development of critical reading, thinking, and writing skills by building on the instruction and content of BIC 1313, The World of Rhetoric I: Writing and Speaking. Throughout the course students will engage in the reciprocal process of reading, responding to, and analyzing the rhetorical strategies and arguments presented by a variety of significant authors from different time periods. Major assignments will require increasingly complex writing tasks, from presenting a factual summary of a single essay through preparing a multiple-source research project.

### BIC 1324 World Cultures II: Religion and Culture (3)

Co-requisite(s): BIC 1323

Pre-requisite(s): BIC 1314

A study organized around several major themes including the medieval world and its ideals, both in the West and East, and the new technological, scientific, and social forces that emerged to challenge these ideals. The first theme explores the medieval unity and its expressions in selected works of art, music, and literature. The second relates to the rise of mercantilism and urbanism, and especially to key discoveries in science. World geography will provide a key component of the course. The development or refinement of critical thinking, writing, and speaking skills will be fundamental goals.

### BIC 2330 Social World I: The City and the Soul (3)

Co-requisite(s): BIC 2334

Pre-requisite(s): BIC 1324

This course studies classic works from the ancient and medieval traditions of social and political thought up to the modern rejection of those traditions inaugurated by Machiavelli. Ancient and medieval thinkers typically conceived of civic life as involving an ordering of the soul as well as an arrangement of physical conditions and resources, while early moderns like Machiavelli promote a realism dominated by the concepts of material self-interest and bodily security. With this course, we thus seek to put in place a framework to facilitate our own reconsideration of the famous "quarrel between the ancients and the moderns" on perennial questions of social and political organization. Representative texts include Aristotle's *Politics* and *Ethics*, Cicero's *de Republica*, Augustine's *City of God*, Aquinas' *On Kingship*, and John of Salisbury's *Policraticus*, in addition to Machiavelli's *Prince* and *Discourses on Livy*.

### BIC 2334 World Cultures III: The Modern World (3)

Co-requisite(s): BIC 2330

Pre-requisite(s): BIC 1324

Focuses on the scientific revolution and continuing advances in the sciences, and on revolutionary ideas in other areas of human experience—political, religious, social, artistic, and economic. The course will explore efforts of the modern mind to respond creatively to the tensions created by these changes, including the tension between religious and naturalistic world views, the tension between the vast extension of knowledge and the increasing recognition of its limits, the tension between individuality and community, and the tension between the experience of fragmentation and the quest for wholeness.

### BIC 2340 Social World II: The Conditions and Possibilities of Human Fulfillment (3)

Co-requisite(s): BIC 2344

Pre-requisite(s): BIC 2330

This course studies classic modern works of western social and political thought that have played a formative role in the rise of modern political life and contemporary social conscience. In works by Hobbes and Locke, for example, we explore the origins of contemporary liberal democracy and consider the initial efforts to formulate a social science on the model of modern natural science. In works by Rousseau and Marx, we encounter the first great critical assessment of modern liberalism and examine its impact on the political landscape of modernity as well as on the study of social and political life. Utilizing the framework erected in the previous semester (Social World I), we also continue our mediation of the famous "quarrel between the ancients and the moderns" on certain perennial questions of human existence. Representative texts include Hobbes' *Leviathan*, Locke's *Letter Concerning Toleration* and *Second Treatise*, Rousseau's *Social Contract*, Smith's *Wealth of Nations*, Marx's *German Ideology*, and Weber's *The Protestant Ethic and the Spirit of Capitalism*.

**BIC 2344 World Cultures IV: The United States in the World (3)**

Co-requisite(s): BIC 2340

Pre-requisite(s): BIC 2334

Concentrates on the United States and on its experience within the broader global framework. The focus will be the historical development of the nation, including its origins, its regional traditions, its spread westward, its movement into global markets in the twentieth century, and its cultural pluralism. Emphasis will also be placed upon the elements that have made for community in the United States and upon the linkages of United States historical and cultural development with the broader global themes portrayed in World Cultures III.

**BIC 2437 The Natural World I: Primary Ideas in Science (4)**

Pre-requisite(s): BIC 1323 and 1324

The first course of a two-semester sequence encompassing lecture and laboratory experiences that emphasize the foundations of natural science, science as a way of knowing, and the uses of science. Historical influences on the development of science and the interrelationship between science and culture will be explored. Lecture and laboratory material in The Natural World will be integrated. Laboratories will involve hands-on, discovery-based learning which will lead the student to make connections between observation and interpretation of natural phenomena through critical thinking and will seek to provide students with an understanding of the scientific method, hypothesis formulation and testing, collection of data, analysis of data, and interpretation of data in the context of hypotheses.

**BIC 2447 The Natural World II: Global Science Issues (4)**

Pre-requisite(s): BIC 2437

A continuation of The Natural World I.

**BIC 3358 Examined Life II: Biblical Heritage and Contemporary Ethical Issues (3)**

Pre-requisite(s): BIC 2340 and 2344

In-depth study of selected texts from the Old and New Testaments and examination of the approaches and resources used today and throughout Christian history in such study. Biblical perspectives on such ethical issues as human rights, environmental concerns and resource allocation will be examined to provide a bridge between the literary/cultural settings of the Bible and contemporary human experience and decision making.

**BIC 4374 World Cultures V: Differing Visions and Realities (3)**

Pre-requisite(s): BIC 3358

Explores differing visions and realities in a selected sample of non-Western cultures. The initial interdisciplinary study will reveal themes that transcend cultural differences. Students will then investigate the expression of these themes in a culture fundamentally different from their own.

**BIC 4389 Examined Life III Capstone: Special Topics (3)**

Pre-requisite(s): BIC 3358

Synthesizes learning in two or more disciplines, or in some way connects modes or areas of learning not normally connected. This capstone course represents the culmination both of the Baylor Interdisciplinary Core experience and of the undergraduate experience. By integrating learning, and application, this course will bridge the gap between undergraduate life and life after graduation, leading students to form connections between their lives in the university and their lives in the wider community. The course will include significant written and oral projects. Religion majors and minors must repeat course once under a different topic.

# College of Arts and Sciences

## Bachelor of Arts (BIC), Bachelor of Science (BIC), Bachelor of Fine Arts (BIC), Bachelor of Aviation Science (BIC)

### College of Arts & Sciences

| Code  | Title  | Hours |

| BIC 2437 & BIC 2447   | The Natural World I: Primary Ideas in Science and The Natural World II: Global Science Issues                    | 8     |
| Students may petition two laboratory science courses required by their major from the approved list.  |  |       |
| <i>The Examined Life</i>  |  |       |
| BIC 1112  | Examined Life  | 1     |
| BIC 3358  | Examined Life II: Biblical Heritage and Contemporary Ethical Issues  | 3     |
| BIC 4374  | World Cultures V: Differing Visions and Realities  | 3     |
| or BIC 4389   | Examined Life III Capstone: Special Topics   |       |
| <b>Additional Core Requirements</b>   |  |       |
| <i>Formal Reasoning</i>   |  |       |
| Complete 3 hrs.   |  | 3     |
| <i>Foreign Language and Culture (Two to Four Courses)</i>   |  |       |
| To meet this requirement, students must:  |  |       |
| (1) attain an appropriate level of proficiency and  |  |       |
| (2) complete at least 6 hours in residence  |  |       |
| Complete <b>one</b> of the following options:   |  | 8-12  |
| <b>Option One</b>   |  |       |
| 8 hours selected from intensive language courses in German or Spanish (both courses must be from the same language and both must be completed in residence): 1412 and 2412. |  |       |

**Option Two**

9 hours from the Foreign Language and Culture distribution list, including the completion of at least one language through the third level of proficiency (2310 course or equivalent) Arabic, Chinese, French, German, Greek, Hebrew, Italian, Japanese, Korean, Latin, Portuguese, Russian, Spanish, or Swahili may be used.

**Option Three**

12 hours from the Foreign Language and Culture distribution list, including the completion of two classical languages through the second level of proficiency (1302 course or equivalent). Aramaic, Hebrew, Latin, and Greek may be used.<sup>1</sup>

**Creative Arts Experiences**

Four events

BIC students are required to attend 4 approved events (after completion of World Cultures I-IV) from the following categories: Art, Film, Music, Theatre, or Literature/ World Cultures. Students may complete only one event per category for credit with up to 4 events per year.

Chapel – two semesters, usually freshman year

**Major**

One required, others may be elected from the list included in the Arts and Sciences section of this catalog. See departmental sections for specific requirements.

**Minor**

Optional, may elect one or more minors. Specific requirements in departmental sections of this catalog.

**Advanced Work Minimum**

"3000" or "4000" numbered courses

**Maximum Credit**

Within the minimum of 124 hours required for a degree, the following maximum credits are applicable:

- (1) four courses of lifetime fitness (activity) and
- (2) ten hours of applied and/or ensemble music

<sup>1</sup> Students may be able to complete their requirements for this distribution list in as few as 6 hours if they have a higher level of proficiency; for example, if they bring in transfer credit, have CBE credit, or had a strong high school background in a language. Students meeting any of these criteria are strongly encouraged to consult with the Department of Modern Languages and Cultures, Classics, (Latin or Greek), or Religion (Hebrew) for recommendations on placement and appropriate classes.

**Note:** Students who pursue a BM, BME, or BA (Music) degree (other than string majors) will encounter scheduling conflicts between required BIC classes and required music ensembles, making participation in the BIC impossible.

| QBA 2302 & QBA 3305  | Business Data Analysis I and Introduction to Business Analytics       | 6 |

#### Major

See School of Business section of this catalog for specific requirements. (12 hours minimum) 12

#### Free Electives

Elective hours must be taken for a grade and are only needed to reach 124 hours for graduation.

Electives may include:

|          |   |
|----------|---|
| BIC 4374 | World Cultures V: Differing Visions and Realities |
| BIC 4389 | Examined Life III Capstone: Special Topics        |

#### Business School Admission

Admission requirements for the Hankamer School of Business include a minimum of sixty credit hours, minimum 3.0 GPA overall, and minimum grade of C in all "1000" - "2000" level business core courses.

## Hankamer Scholars Program - Hankamer School of Business

| Code                 | Title | Hours |
|----------------------|-------|-------|
| <b>Requirements</b>  |       |       |
| Minimum requirement  |       | (124) |
| Resident requirement |       | (60)  |

Grade point average - minimum of "C" in each required Scholars' course; Scholars must earn and maintain a minimum 3.4 GPA. If a Scholar does not complete all of the Scholars' requirements by the end of the first year, then he/she will be transitioned to the traditional BBA curriculum.

#### Interdisciplinary Core Requirements

|                       |   |   |
|-----------------------|---|---|
| <i>World Cultures</i> |   |   |
| BIC 1314              | World Cultures I: Roots of Culture                | 3 |
| BIC 1324              | World Cultures II: Religion and Culture           | 3 |
| BIC 2334              | World Cultures III: The Modern World              | 3 |
| BIC 2344              | World Cultures IV: The United States in the World | 3 |

#### The World Rhetoric

|                     |   |   |
|---------------------|---|---|
| BIC 1313 & BIC 1323 | World of Rhetoric I and World of Rhetoric II: Rhetoric in Context | 6 |
|---------------------|---|---|

#### The Social World

|                     |  |   |
|---------------------|--|---|
| BIC 2330 & BIC 2340 | Social World I: The City and the Soul and Social World II: The Conditions and Possibilities of Human Fulfillment | 6 |
|---------------------|--|---|

#### The Natural World

|             |   |   |
|-------------|---|---|
| BIC 2437    | The Natural World I: Primary Ideas in Science | 4 |
| or BIC 2447 | The Natural World II: Global Science Issues   |   |

#### The Examined Life

|          |   |   |
|----------|---|---|
| BIC 1112 | Examined Life   | 1 |
| BIC 3358 | Examined Life II: Biblical Heritage and Contemporary Ethical Issues | 3 |

#### Additional Core Requirements

##### Language/Communication Option

Select one course from the following:

|  |                           |   |
|--|---------------------------|---|
| JOU 3372   | Writing for Media Markets | 3 |
| or FDM 3372  | Writing for Media Markets |   |
| ENG 3000-4000 level course or PWR 3000-4000 level course, or Foreign Language (including American Sign Language) |                           | 3 |
| Chapel - two semesters   |                           | 0 |

#### Required courses for Scholars to declare a major in the Business School

|                                    |  |   |
|------------------------------------|--|---|
| ACC 2303 & ACC 2304                | Financial Accounting and Managerial Accounting   | 6 |
| BUS 1101 & BUS 1350                | Connect to Hankamer School Bus and Software Applications for Business Productivity and Decision-Making | 4 |
| MTH 1309 or MTH 1321               | Calculus for Business Students<br>Calculus I   | 3 |
| ECO 1380                           | Introduction to Economic Analysis and Policy   | 3 |
| QBA 2302                           | Business Data Analysis I   | 3 |
| BIC 1323                           | World of Rhetoric II: Rhetoric in Context  | 3 |
| Select one Lifetime Fitness course |  | 1 |

#### Major Requirements

See School of Business section of this catalog for specific requirements.

#### Free Electives

Elective hours must be taken for a grade and are only needed to reach 124 hours for graduation. Electives may include BIC 4374 World Cultures V and BIC 4389 BIC Capstone.

Business Major Declaration

Scholars can declare their major(s) one year early at the beginning of their sophomore year if they successfully complete all of the Scholars' first year courses.

Bachelor of Business Administration (BIC)
Baylor Business Fellows - Hankamer School of Business

| Code   | Title  | Hours |
|--|--|-------|

## Great Texts Program

The Great Texts program is an interdisciplinary program that explores the richness and diversity of the Western intellectual heritage. The centerpiece of the program is a major and minor concentration of studies that students may select as the focus of their undergraduate education. Students pursuing a major in Great Texts of the Western Tradition will find a sustained curriculum in the greatest works of human intellectual and creative achievement which will be a profound asset in any profession or graduate study. Students in the applied arts may want to pursue a second major or a minor in Great Texts to strengthen their liberal arts background and broaden their educational horizons. Students pursuing a bachelor of arts degree will see the Great Texts major as a foundational study for any traditional humanities discipline, and students in the sciences will find this major to offer an opportunity to read broadly about the history of human thought, including the history of science.

| <b>Total Hours</b>  |   | <b>18</b> |

## Honors Program

Established in 1959, the Honors Program offers talented, highly motivated students at the university the opportunity to broaden their intellectual horizons in numerous ways. Through exploring their major fields of study intensely, through integrating many areas of knowledge, and through application of independent research techniques, Honors Program students form a community of shared learning with one another and with faculty members from all disciplines. All University Scholars are also automatically part of the Honors Program. The Honors Program is a four-year departmental and interdisciplinary program consisting of the features described below. Students admitted into the Honors Program become eligible to apply for residence in the Honors Residential College.

## Lower-Division Honors

### Honors Classes

During the first and second years, participants in the program enroll in special Honors sections of certain courses required for the bachelor's degree. The subject matter of these sections is the same as that of regular sections, but the instruction, discussions, and supplementary readings are adapted to the interests and capabilities of superior students. Participants are expected to complete at least seven Honor units (roughly twenty-one credit hours in Honors coursework or the approved equivalent) no later than the completion of the second full year of academic study (sixty hours). They should maintain an overall grade point average and an Honors grade point average of at least 3.5.

### First-Year Seminars

First-Year Seminars are Honors courses that allow freshmen to explore special topics with Honors faculty from across many disciplines. The seminars are designed to encourage the early acquisition of critical thinking, writing, and research skills and to introduce freshmen to opportunities for cultural and intellectual enrichment on campus.

### Great Texts Courses

The Great Texts courses (GTX) designed for the Honors Program focus on the reading and discussion of classic texts in the intellectual tradition of liberal arts and sciences. Two Honors GTX courses are required as part of the lower-division Honors curricula and contribute six hours to the twenty-one hours of Honors courses. The Great Texts courses will

sometimes substitute for designated courses in the core curricula. All Honors Program students completing majors within the College of Arts & Sciences must select from one of the following four courses to satisfy their Literature in Context Distribution List requirement:

| Code     | Title   | Hours |
|----------|---|-------|
| CLA 2301 | Literature of Ancient Greece  | 3     |
| CLA 2302 | Literature of Ancient Rome  | 3     |
| CLA 2306 | Greek and Roman Mythology   | 3     |
| GTX 2301 | Intellectual Traditions of the Ancient World : Literature and Thought | 3     |

## Upper-Division Honors

Students completing the requirements of lower-division Honors with an overall grade point average of at least 3.5 may continue with their Honors Program track during their remaining semesters at Baylor. Students with a grade point average slightly below 3.5 at this time may petition the program director to continue with Honors on a probationary status. Students who have not participated in Honors during their first sixty hours at Baylor may apply for admission if they have a 3.5 overall grade point average and have the recommendation of the department in which they are majoring. These upper-division Honors students complete the following elements of advanced scholarship.

### Honors Colloquium

Beginning the fall semester of the third year (or as early as spring of the second year with permissions) participants enroll in a two-hour Colloquium course where small, informal groups meet regularly during each semester to discuss significant books and issues in various academic disciplines. The Colloquium course may concentrate on Great Texts, but most sections serve to familiarize Honors students with a variety of contemporary issues and with the unique perspectives of scholarly disciplines outside their major fields.

### Junior/Senior Advanced Study in the Major Field

Participants may select up to three junior- or senior-level courses in which, by contract with the faculty of each course, they pursue advanced academic study beyond that required of non-Honors students enrolled in the same course. Often the advanced study of these junior-level courses becomes a part of the senior thesis project.

### Advanced Readings and Research

During the junior year, Honors students undertake two sections of "Advanced Readings" (one hour each), in order to explore specific topics with the guidance of a faculty mentor. These readings courses enable students to begin to define an area of research interest that will become the basis for the Honors thesis. The Honors Program may also host seminars for these students on research methods and thesis-writing strategies.

### Honors Thesis

Beginning with the Advanced Readings courses (see above) and continuing into the four hours of senior-year Honors Thesis courses, upper-division Honors students apply the methods of their chosen discipline(s) to the investigation of a specific topic of interest. The result of this investigation is a thesis project directed by a Baylor faculty member, who is selected by the Honors student in consultation with program faculty/staff. The thesis project introduces each Honors student to the techniques of research, analysis, writing, and performance that are encountered at the graduate level; it aims, in other words, to cultivate

the intellectual skills and habits that are essential to critical inquiry and advanced scholarship.

## Oral Examinations

To complete the requirements for graduation in Honors, participants must defend the Honors thesis in a one-hour oral examination before a committee consisting of the faculty director, at least one other departmental representative, and another Baylor faculty member or a member of the University's Honors faculty advisory committee. Whenever possible, a visiting examiner, competent in the student's major field, will also serve on the examining committee.

## Admission to the Program

Students interested in entering the program as freshmen should call 254-710-1119 or write for an application at:

Director, The Honors Program  
Baylor University  
One Bear Place # 97122  
Waco, TX 76798-7122  
<http://www.baylor.edu/honorsprogram> (<http://www.baylor.edu/honorsprogram/>)

## University Scholars Program

The University Scholars Program is designed for intellectually gifted, highly motivated students with a wide range of interests and a genuine love of learning. The program seeks to broaden these students' backgrounds in the liberal arts while preparing them for a career through concentrated study in several areas. In order to achieve their full academic potential, University Scholars enjoy exclusive exemption from virtually all core curriculum requirements. Additionally, since "University Scholars" is a declared major, these students are not subject to the specialized course requirements of a traditional major though they may declare a minor or secondary major. As a result, Scholars are free to create an individualized course of study with the advice of a program director who mentors them throughout their entire four years.

## Admission to the Program

To ensure that students gain the full benefit from the program, University Scholars will not accept students who have fewer than three years or 90 hours remaining to complete their undergraduate degree at Baylor. All Scholars must therefore complete at least 90 hours as students within the program.

The following are the criteria for admission into the University Scholars Program:

1. Responses to the three essay questions on the Honors College application
2. Class rank and GPA
3. SAT/ACT/CLT scores are optional and may be considered, if available

## Maintaining University Scholars Status

To remain in and graduate from the program, Scholars must maintain a 3.5 minimum grade point average. If released from the program, students must then fulfill the general requirements of the university in addition to the requirements for a major.

## When to Apply for Admission to the Program

Applicants are admitted and notified on a rolling basis throughout the year. Students who wish to know their status before the May 1 college notification deadline must apply with all related application materials no later than April 1. Interested students are encouraged to apply as early as possible for advising and housing purposes.

Admitted University Scholars are eligible to apply for housing in the Honors Residential College.

## The University Scholars Program and Other Special Programs

The University Scholars Program maintains a close relationship with both the Honors Program and the Baylor Interdisciplinary Core. All University Scholars are in the Honors Program and should, in discussion with their University Scholars director, complete the requirements for the Honors Program graduation.

For University Scholars in the Baylor Interdisciplinary Core, BIC courses will substitute for the following required UNSC courses: GTX 2301 Intellectual Traditions of the Ancient World : Literature and Thought, GTX 2302 Medieval Intellectual Traditions: Literature and Thought in Context, and UNSC 3301 University Scholars Capstone HNR.

## Degree Requirements

| Code  | Title   | Hours      |
|---|---|------------|
| <b>Requirements</b>   |   |            |
| REL 1310  | The Christian Scriptures  | 3          |
| REL 1350  | The Christian Heritage  | 3          |
| Chapel – complete two semesters                                 |   | 0          |
| GTX 2301  | Intellectual Traditions of the Ancient World : Literature and Thought | 3          |
| GTX 2302  | Medieval Intellectual Traditions: Literature and Thought in Context   | 3          |
| UNSC 3301   | University Scholars Capstone HNR                                      | 3          |
| UNSC 3001   | Exit Interview HNR  | 0          |
| <i>Thesis Preparation Courses</i>                               |   |            |
| HON 3100  | Advanced Readings & Research  | 1          |
| HON 3101  | Advanced Readings & Research  | 1          |
| HON 3200  | Colloquium  | 2          |
| HON 4V87  | Honors Thesis   | 4          |
| HON 4088  | Honors Exit Review  | 0          |
| <i>Areas of Interest</i>  |   |            |
| Complete 103 semester hours from areas of interest <sup>1</sup> |   | 103        |
| <b>Total Hours</b>  |   | <b>126</b> |

<sup>1</sup> Completion of at least 90 credit hours in residence.

The requirement for advanced credit, residence, chapel, and maximum credit are the same as for the Bachelor of Arts degree. Additional information about requirements is listed under the "General Regulations for the College of Arts & Sciences" and "General University Regulations."

# School of Music

## General Information

### The School of Music

As a vital professional school within Baylor University, the School of Music has been a member in good standing of the National Association of Schools of Music since 1930. Degrees offered in the School of Music satisfy all requirements of this accrediting agency. Degree programs leading to the Bachelor of Music Education degree also conform to certification requirements of the Texas Education Agency.

Regulations and requirements not specifically described in this section will be governed by University rules listed elsewhere in this catalog.

### Our Mission

The Baylor University School of Music provides transformational experiences that prepare students for careers in music. Our students thrive in a Christian environment characterized by a nurturing resident faculty, an unwavering pursuit of musical excellence, a global perspective, dedication to service, and devotion to faith. They investigate the rich musical and cultural heritage of the past, develop superior musical skills and knowledge in the present, and explore and create new modes of musical expression for the future. While preparing for future leadership roles, our students join with the School of Music faculty in enhancing the quality of community life, enriching the larger culture, and making Baylor a place in which heart, mind, and soul coalesce.

### Buildings and Equipment

The School of Music currently is housed in two facilities, the Waco Hall complex and the Glennis McCrary Music Building. The Waco Hall complex contains 500-seat Roxy Grove Hall, 120-seat Recital Hall II, as well as classroom, rehearsal, practice, and storage spaces. The Waco Hall complex also includes office and studio spaces for vocal and keyboard studies, music history, music theory, music education, composition, church music, and a suite devoted to piano pedagogy.

Housed within the multi-level 70,000 square-foot Glennis McCrary Music Building is the 1,000-seat Mary Gibbs Jones Concert Hall, the 200-seat Meadows Lecture/Recital Hall, and an organ teaching and performing hall. The building features seventy-eight practice and rehearsal rooms, a recording studio, technology lab, choral and instrumental rehearsal halls, special areas for chamber music and seminars, instrumental and choral music libraries, and studio and office spaces for the division of instrumental studies and ensemble directors.

Baylor University has one of the largest collections of organs in the country, six instruments for performance and teaching and numerous practice organs. The School of Music maintains an inventory of over 200 pianos including six Steinway concert grands and two electronic keyboard labs. A large variety of instruments for the study and performance of Renaissance and Baroque music, as well as electronic music laboratories, provide for a wide range of musical experiences.

### Fine Arts Library

The Crouch Fine Arts Library (CFAL), located on Level 3 of Moody Memorial Library building, provides outstanding collections for music study and research, including more than 116,000 music scores, 75,000 audio and visual recordings, and 54,000 fine arts books. The library also provides a wide variety of online resources to support music study, performance, and research. These include research databases for music literature as well as reference works, e-books, music scores, audio and

video recordings, and archival collections. Listening/viewing stations are available for all media types found in the Library, and a 12-station computer lab provides music software and MIDI keyboards as well as productivity applications. The CFAL has a variety of study spaces for individuals and groups, and two seminar rooms equipped with pianos, computers, projectors, Internet access, and high-quality speakers. Staff members are available to assist students and faculty members. More information is available from the CFAL website at <http://www.baylor.edu/library/finearts> (<http://www.baylor.edu/library/finearts/>).

### Artist Attractions

Each year, large numbers of professional artists perform and teach in the School of Music and serve as role models and mentors for students. The School of Music also presents visiting musicians of distinction as part of the Distinguished Artist Series (DAS) and the Lyceum Series. The DAS is a premier concert series funded by Baylor University. The Lyceum Series offers lectures, master classes, and workshops by outstanding artist teachers and is supported, in part, by a grant from the Meadows Foundation, Inc., of Dallas. Other special events include the Hearn Innovators in Christian Music Series and the Northcutt Lectures in Church Music and the Joy Vee Davis Lecture Series in Music Education.

### Music Societies and Clubs

The following national groups have chapters in the School of Music: Mu Phi Epsilon, national music fraternity; Phi Mu Alpha Sinfonia, national professional music fraternity; Kappa Kappa Psi, national honorary band fraternity; Tau Beta Sigma, national honorary band sorority, and Pi Kappa Lambda, national music honor society. There are student chapters of the Music Educators National Conference and the Music Teachers National Association, and the Baylor Association of Church Musicians.

### Center for Christian Music Studies

Established in 1984 as the Institute for Church Music and Worship, the Center for Christian Music Studies is an integral part of the School of Music. The Center strives to prepare Christians to serve and worship God through music and the arts.

### Performing Ensembles

The School of Music offers a full array of bands, choirs, orchestras, and smaller ensembles, such as jazz and early music ensembles. Any Baylor student in any major may audition for and perform in one of these ensembles and, in doing so, can experience one of the joyous experiences in Baylor campus life. To participate, students should contact the School of Music or the office of the ensemble of interest.

### Entrance Requirements in Music

**In addition to admission to the University, an applicant for any music major must apply to the School of Music and audition on their principal instrument for acceptance in the school.** Please note, the music application is separate from the Baylor University application. Students accepted as music majors are notified by the Office of the Dean. Detailed information about audition expectations and repertoire are available on the School of Music website. Applicants for a major in church music, music history and literature, music theory, or composition must, additionally, be approved by the faculty of that program. Students who wish to major in music history and literature or music theory are required to submit a sample of their research or writing.

## Tests

Candidates applying for entrance into any applied music or music theory class must give evidence of being prepared for the work therein, as demonstrated by placement tests.

### Placement Tests – Piano

In addition to admissions auditions in their applied major, all freshmen and transfer students entering a music degree program will take a piano placement test prior to initial enrollment in a piano course. At the placement, each student's level of competency (in repertoire, technique, reading, and skill activities) will be assessed, and the student will be placed at the appropriate level within the curriculum. Students with preexisting keyboard skills may test out of one or more semesters of piano instruction.

### Placement Tests – Theory and Musicianship

An entrance test in music theory to determine the student's background and readiness for admission to Music Theory I and either Introductory Musicianship or Musicianship I is given prior to initial enrollment in a theory course. Transfer students must take a transfer theory diagnostic exam prior to enrollment in a theory course.

### Achievement Tests – Applied Music Juries

All students taking applied music for credit toward a music degree must take an achievement test in applied music at the end of each semester.

### Barrier Placement Juries – Applied Music

Students may register for upper division courses in applied music only after successfully completing the sophomore barrier placement jury.

### Credit in Applied Music

Majors in all applied music areas except keyboard will receive two semester hours credit for an hour of instruction at the lower division (freshman-sophomore) level, and two to four hours at the upper division and graduate levels. Piano and organ majors will receive three or four semester hours credit for an hour of instruction throughout their entire degree programs. All other students will receive one semester hour credit per half-hour lesson. The maximum amount of credit that can be earned in one applied music subject in any one semester is four semester hours. No student may be registered for more than one section of a given applied music subject in a semester.

In a summer-session term, five hours of private instruction are given for one hour of credit, and ten hours of instruction are given for two hours of credit. The maximum credit that can be earned in a summer term in one subject of applied music is two semester hours. The maximum total applied music credit that can be earned in one summer session term is three semester hours. Applied music courses are only open in summer sessions to B.M., B.M.Ed., or B.A. Music-Applied students in their primary applied concentration with the approval of the Associate Dean for Academic Affairs.

### Applied Music Credit on Non-Music Degrees

A maximum of ten semester hours of applied music and/or ensemble is accepted on the Bachelor of Arts, Bachelor of Science, and Bachelor of Business Administration degrees as elective credit.

### Transfer Credit

Credit in music courses earned in accredited institutions is accepted for transfer subject to the following provisions:

1. The minimum grade accepted for transfer is "C."
2. Credit in applied music toward a major in applied music is accepted only after a test to determine the actual accomplishment of the student in technique and repertoire.

### Course Numbers for Applied Music

All applied music subjects (private instruction) have four elements. The first digit indicates the level as follows:

| Digit | Family                 |
|-------|------------------------|
| 1     | Undergraduate          |
| 3     | Advanced Undergraduate |
| 5     | Graduate               |

The second digit indicates the amount of credit in semester hours. It is followed by a letter indicating the instrument "family":

| Digit | Family         |
|-------|----------------|
| V     | for voice      |
| B     | for brass      |
| P     | for percussion |
| K     | for keyboard   |
| S     | for strings    |
| H     | for harp       |
| W     | for woodwinds  |

The last digit identifies the instrument within the "family" as follows:

| Digit | Family           |
|-------|------------------|
| K1    | for piano        |
| K2    | for organ        |
| K3    | for harpischord  |
| K4    | for carillon     |
| K5    | for accompanying |
| W1    | for flute        |
| W2    | for oboe         |
| W3    | for clarinet     |
| W4    | for bassoon      |
| W5    | for saxophone    |
| B1    | for trumpet      |
| B2    | for horn         |
| B3    | for trombone     |
| B4    | for euphonium    |
| B5    | for tuba         |
| S1    | for violin       |
| S2    | for viola        |
| S3    | for cello        |
| S4    | for bass         |
| P1    | for percussion   |
| P2    | for timpani      |
| V1    | for voice        |
| H1    | for harp         |

Applied *class instruction* subjects are:

| Code     | Title  | Hours |
|----------|--|-------|
| MUS 1131 | Class Piano, Grade Level I (For Music Majors) (grade level Is)     | 1     |
| MUS 1132 | Class Piano, Grade Level II (For Music Majors) (grade level IIs)   | 1     |
| MUS 1133 | Class Piano, Grade Level III (For Music Majors) (grade level IIIs) | 1     |
| MUS 1124 | Class Voice (generally for non-performance majors)                 | 1     |
| MUS 1125 | Beginning Class Piano (instruction for non-music majors)           | 1     |

## Student Load

The maximum credit load for an average student seeking the degree of Bachelor of Music or Bachelor of Music Education is nineteen semester hours. The maximum load for an entering freshman is sixteen semester hours. Superior students (who average the grade of "B" on all previous work as well as on the work of the preceding term) may carry up to twenty-two semester hours with the approval of the Associate Dean for Academic Affairs.

## Recitals

### Junior and Senior Recitals

A senior recital is required of every degree candidate in applied music. It must be completed no later than two weeks before commencement. A junior recital is required of every prospective graduate in applied music as prerequisite for senior work. Junior or senior recitals may be given only by students of junior or senior standing (sixty or ninety semester hours, respectively).

All B.M.E. candidates are required to give a public solo performance demonstrating their ability in their applied major. A hearing must be passed prior to the performance. The performance must be a half-recital to be given in a formal recital setting.

The student must be enrolled for applied music during the term in which the recitals are given.

All composition majors will present a recital of their works while enrolled in MUS 40C1 Degree Recital - Composition.

### Recital Attendance

All B.M., B.M.E., and B.A. Music majors must successfully complete six semesters of MUS 1001 Recital Attendance (0 hours credit, graded Pass/Fail). MUS 1001 Recital Attendance requirements for secondary music majors and music minors are listed in the sections outlining the requirements for that program. Specific regulations concerning satisfaction of the MUS 1001 Recital Attendance requirement may be found in the course syllabus.

## Ensembles

All students pursuing a B.M. or B.M.E. degree must be enrolled in a large ensemble every semester of residence, except for the student teaching semester for B.M.E. students. Large ensembles include: Instrumental – Baylor Symphony, Campus Orchestra, Wind Ensemble, Symphonic Band, Concert Band, and Marching Band; Vocal – A Cappella Choir, Concert Choir, Chamber Singers, Bella Voce, Men's Choir, and Women's Choir. Upon completion of two semesters of large ensemble participation, ensemble requirements for Keyboard majors may be fulfilled by Studio Accompanying, Chamber Music, and Piano Ensemble. See individual keyboard degree programs for details.

## Course Repetition Policy

Students enrolled in music degrees (B.M., B.M.E., B.A. Music) may not repeat a course in the Music Core or in their major after receiving a grade of F in that course for the second time.

## Class Attendance Policy

School of Music policy requires that to earn credit in a course a student must be officially enrolled by the end of the second full week of the semester and attend at least 75% of all class meetings. Faculty members may establish additional attendance requirements as outlined in course syllabi. Any student who is not present for at least 75% of the scheduled class sessions for any course will automatically receive a grade of "F" in the course. Any University-related activity necessitating an absence from class will count as an absence when determining whether a student has attended the required 75% of class meetings.

## Honors Program

School of Music students participate in many of the programs offered by the Honors Program within the Baylor Honors College. For detailed information concerning these opportunities, consult the Honors College section of this catalog.

## Special Music Scholarships

Numerous music scholarships are awarded annually to music majors. These are in addition to any financial aid a student may receive from the University through the Student Financial Aid Office. Qualifying for a music scholarship is by the audition process. Scholarships are awarded for one academic year (unless otherwise specified) and are renewable contingent upon sustaining a satisfactory grade point average, enrollment as a fulltime student in the School of Music, and other participation expectations and requirements. Students are recommended for scholarships to the Office of the Dean by the School of Music Scholarship Committee each year. Detailed information about the audition process and for receiving music scholarships may be found in the Student Handbook on the School of Music website.

## Endowed Scholarships

School of Music scholarships are funded by generous gifts from donors. Most are named in honor of an individual or individuals whose memories will live on in perpetuity through these wonderful endowments. The School of Music is deeply grateful for the following endowed scholarships:

The Rildia Bee O'Bryan Cliburn Endowed Scholarship  
The Mary Etta Mason Memorial Scholarship  
The Robert and Enid Markham Organ Scholarship  
The Martha Barkema Voice Scholarship  
The Jeannette C. Clift Music Scholarship  
The Omie Scarborough Clements Memorial Scholarship  
The Mark Evyan Hollis Golden Wave Band Scholarship  
The Stivers Memorial Music Scholarship Fund  
The D. Wesley and E. Kay Anthony Music Scholarship  
The Ruby Poole Music Scholarship  
The Elizabeth Brient Smith Endowed Piano Scholarship  
The Florine Beall Shank Scholarship  
The Ruth Dean Morris Music Scholarship  
The Bedford D. and Joyce Harlan Edwards Scholarship  
The Luther Alvin and Audrey M. Griffith Memorial Scholarship Fund  
The Columbus Avenue Baptist Church Scholarship  
The Houston Gala Scholarship for Exceptional Music Students  
The Lois Elizabeth Smith Memorial Music Scholarship

- The Mary Francis Crumpler Sharp Church Music Scholarship  
 The Lyle Skinner Scholarship  
 The Bernard A. and Bessie Hess Smith Award  
 The Gladys C. Stinson Scholarship  
 The Walter and Emilie Spivey Endowed Scholarship  
 The Martha Barkema Mu Phi Epsilon Scholarship  
 The Fred and Princess Cameron Music Scholarship  
 The Mollie Waldrop Cowden Music Scholarship  
 The Alan Wrotenbery Scholarship Fund  
 The John McFadden Memorial Music Scholarship  
 The Ruth G. Burr Endowed Academic Scholarship Fund  
 The Silvio and Isabel Scionti Piano Scholarship  
 The Dean's Award for Outstanding Performance  
 The Golden Wave Alumni Band Scholarship  
 The Richard A. and Helen Ann Shanley Endowment Fund Scholarship  
 The Helen Ann Shanley Endowed Music Scholarship  
 The Mary Ila and O. Herbert Colvin Endowed Scholarship  
 The Lois Barfield Wimberly Endowed Scholarship  
 The Kenneth Gauntt Scholarship Fund  
 The Ruby Lee McKellar Endowed Memorial Music Scholarship Fund  
 The Jon Anne Jackson Endowed Scholarship Fund  
 The Thelma Jackson Smith Endowed Scholarship Fund  
 The Richard M. Willis Fellowship in Composition Endowed Scholarship Fund  
 The Robert H. and Betty B. Young Endowed Music Scholarship Fund  
 The Virginia Furrow Singers Music Scholarship  
 The Ruby V. Burns Memorial Scholarship Fund  
 The Johnnie and Jessie Gilstrap Memorial Scholarship Fund in Organ  
 The John F. Baugh Endowed Scholarship Fund  
 The Tom and Joan Branyon Scholarship  
 The William E. and Alice Rebecca Carson Memorial Endowment Scholarship  
 The Robert G. and Lorene Carson Bowers Scholarship  
 The Lorene Taylor and Floyd F. Davidson Endowed Scholarship Fund in Music  
 The William Carey Ring Memorial Endowed Band Scholarship Fund  
 The Ann Peebles Cunningham Piano/Voice Endowed Scholarship Fund  
 The Miriam Elizabeth Hebert Memorial Endowed Scholarship Fund  
 The Erkalene McCormack Ousley Endowed Scholarship Fund in Music Education  
 The Joyce Jones Organ Scholar Award  
 The Robert H. and Betty B. Young Endowed Choral Music Fund  
 The Kenneth Howard Choral Music Education Endowed Award Fund  
 The Norman Petty Memorial Choral Endowed Scholarship Fund  
 The C. E. and Gladys M. Bedwell Endowed Scholarship Fund in Piano  
 The Lucille Ashby Dufner Endowed Scholarship Fund in Music  
 The Fay Brannon Ebeling and Clara Brannon Ransome Endowed Scholarship Fund in Music  
 The H. Wendell and Ethel K. Ford Scholarship Fund  
 The John Mark and Geraldine Mills Lilley Endowed Scholarship Fund in Music  
 The W. E. Livesay Endowed Music Scholarship Fund  
 The William C. Lortz Music Scholarship Fund  
 The Christine and Euell Porter Endowed Music Scholarship  
 The Elizabeth Parkhill Scott Golden Wave Band Endowed Scholarship Fund  
 The Merle Moore Smith Piano Scholarship Fund  
 The Mildred Vermillion Soniat Memorial Scholarship Fund  
 The Willard J. and Betty Still Endowed Scholarship Fund  
 The Lloyd E. and Jan Dube Swiggum Endowed Scholarship Fund in Music  
 The Joan T. Trew Family Endowed Scholarship Fund in Music  
 The John Mack Ousley Endowed Scholarship
- The Jack Terrell Family Endowed Scholarship in Church Music  
 The Dwain and Carolyn Bruner Golden Wave Band Endowed Scholarship  
 The William Jr. and Mary Covington Endowed Scholarship Fund in Christian Music  
 Zachary Evans Retz Memorial Endowed Scholarship Fund in Music  
 Donald I. Moore Endowed Scholarship Fund  
 Hugh Sanders Memorial Endowed Scholarship Fund in Choral Music  
 The Harold and Bettye Green Endowed Music Scholarship Fund  
 The C. T. "Sparkey" and Merrie Beckham Endowed Academic Scholarship  
 The Marilyn Thompson Mueller Endowed Academic Scholarship Fund  
 The Lester N. and Mable Yeager Music Scholarship Fund  
 The Gullledge Memorial Music Scholarship  
 The Mr. and Mrs. Walker G. Harman Music Scholarship  
 The Friends of the School of Music Scholarship Fund  
 The A. L. Shelton Music Scholarship  
 The Sidney Lee and Cora Lynn Brannon Memorial Scholarship Fund  
 The Joel M. Lamkin Memorial Scholarship Fund  
 The Gladys H. and Granville C. Morton Scholarship Fund  
 The Anel M. Unger Scholarship  
 The Larry Vanlandingham Music Scholarship  
 The Billy Ray and Joan Hearn Music Scholarship  
 The Dr. Elwyn A. Wienandt Music Scholarship Fund  
 The Betty Patterson Music Scholarship Fund  
 The Waco Symphony Council Endowed Scholarship Fund  
 The Eula Mae Baugh Endowed Music Scholarship  
 The Josephine and George Musselman Endowed Music Scholarship Fund  
 The C. Gwin and Brenda K. Morris Endowed Scholarship Fund  
 The Mr. and Mrs. E. C. Kellogg Memorial Music Scholarship  
 The Glennis McCrary Goodrich Scholarship Fund in Music  
 The Carl and Becky Bradley Golden Wave Band Endowed Scholarship Fund  
 The Bonnie Williams Christensen Memorial Music Scholarship Fund  
 The Gene and Ruth Royer School of Music Endowed Scholarship Fund  
 The Virginia Glen-Calvert Endowment Music Scholarship Fund  
 The Robert T. and Ann V. Miller Endowed Scholarship Fund in Music  
 The Logan Family Fund for Endowed Music Scholarships  
 The Getterman Family Endowed Scholarship Fund in Music  
 The Babs Baugh Endowed Scholarship Fund in Music  
 The Katherine Jane Herlihy Memorial Endowed Music Scholarship Fund  
 The Vinnie Edwards and Robert Hardee McCrary Memorial Scholarship Fund  
 The Nell Milburn Menn Endowed Scholarship Fund  
 The Ted and Sue Getterman Family Endowed Scholarship Fund in Music  
 The Randy and Jeanine Haube Lofgren Endowed Scholarship Fund in Music  
 The Joseph Hal and Allyne Machat Endowed Scholarship Fund in Music  
 The Kay Pitzer Mallett Endowed Scholarship Fund  
 The Anna and Harry Jeanes Endowed Scholarship Fund in the School of Music  
 The Ann Wells Harder Endowed Scholarship fund in Music  
 The Barbara Kay Weathers Endowed Scholarship Fund in Music  
 The Bennett-Cowan Endowed Scholarship Fund in Music  
 The Dean William May Endowed Scholarship Fund  
 The Jimmie and Arthur Stelley Endowed Scholarship in Music  
 The Sarah Harvey Wilkinson and W. James Wilkinson Endowed Scholarship fund in Music  
 The Jack Stewart Endowed Scholarship Fund in Music  
 The Jim and Tammy Ekrut Endowed Scholarship Fund  
 The Billy Ray Hearn Scholarship Fund  
 The Rebecca Crews Chapman Endowed Scholarship in Voice  
 The Kelley/Weldert Family Scholarship in Music  
 The Newsome/Anderson Music Scholarship

The Kurt and Patricia Kaiser Music Scholarship  
 The Vara Martin Daniel Music Scholarship  
 The Patrick and Beth Musgrave Music Scholarship  
 The Wayne Fisher Jazz Scholarship  
 The Eula Merle Harrison Music Scholarship  
 The Dr. Mary & Thomas Sanders Music Scholarship  
 The Barbara Bennet Music Scholarship  
 The Arthur and Geneva DeLoach Music Scholarship  
 The Asa and Dorothy Newsome Music Scholarship  
 The Daniel Sternberg/Rountree Music Scholarship  
 The Center for Christian Music Scholarship

## Music Scholarships for Non-Music Majors

Most scholarships in the School of Music are reserved for music majors only. There are awards available, however, for special student contributors to the ensemble program, such as, those who serve in leadership roles in the Baylor University Golden Wave Marching Band.

## Classroom Music Courses

| Code  | Title                                   | Hours |
|---|---|-------|
| Classroom music hours may be selected from the following: |   |       |
| MUS 2207  | Elementary Composition I                | 2     |
| MUS 2208  | Elementary Composition II               | 2     |
| MUS 3135  | Special Learners in the Music Classroom | 1     |
| MUS 3202  | Choral Arranging and Composition        | 2     |
| MUS 3203  | Arranging for Popular and Jazz Idioms   | 2     |
| MUS 3207  | Composition                             | 2     |
| MUS 3212  | String Methods (For String Majors)      | 2     |
| MUS 3260  | Instrumental Conducting                 | 2     |
| MUS 3261  | Choral Conducting                       | 2     |
| MUS 3306  | Orchestration                           | 3     |
| MUS 3307  | Intermediate Composition                | 3     |
| MUS 3308  | Intermediate Composition                | 3     |
| MUS 3310  | Beginning Jazz Improvisation            | 3     |
| MUS 3312  | Piano Pedagogy I                        | 3     |
| MUS 3313  | Piano Pedagogy II                       | 3     |
| MUS 3314  | Piano Pedagogy III                      | 3     |
| MUS 3321  | Music in World Cultures                 | 3     |
| MUS 3322  | Popular Musics                          | 3     |
| MUS 3323  | Jazz and its History                    | 3     |
| MUS 4203  | Electroacoustic Music Composition       | 2     |
| MUS 4204  | Advanced Orchestration                  | 2     |
| MUS 4205  | Theoretical Systems                     | 2     |
| MUS 4210  | Organ Methods                           | 2     |
| MUS 4219  | Marching Band/Jazz Pedagogy             | 2     |
| MUS 4236  | Performer Wellness                      | 2     |
| MUS 4237  | Creative Entrepreneurship in Music      | 2     |
| MUS 4260  | Orchestral Conducting                   | 2     |
| MUS 4261  | Advanced Choral Conducting              | 2     |
| MUS 4262  | Band Conducting                         | 2     |
| MUS 4301  | Advanced Analysis                       | 3     |
| MUS 4304  | Counterpoint                            | 3     |
| MUS 4305  | Advanced Counterpoint                   | 3     |
| MUS 4307  | Advanced Composition I                  | 3     |

## School of Music Faculty and Staff

| Name                         | Title                               |
|------------------------------|-------------------------------------|
| Gary Mortenson, D.M.A.       | Dean                                |
| Michael L. Alexander, D.M.A. | Associate Dean for Academic Affairs |
| Michael N. Jacobson, D.M.A.  | Associate Dean for Operations       |
| Timothy R. McKinney, Ph.D.   | Associate Dean for Graduate Studies |

## Division of Academic Studies

Scott McAllister, D.M.A., Director  
 James M. Bennighof, Ph.D.  
 C. Randall Bradley, D.M.A.  
 Alfredo Colman, Ph.D.  
 Jann M. Cosart, D.M.  
 Amy Fleming, Ph.D.  
 Monique Ingalls, Ph.D.  
 Ben Johansen, Ph.D.  
 Eric C. Lai, Ph.D.  
 Horace Maxile, Jr., Ph.D.  
 Timothy R. McKinney, Ph.D.  
 Jana K. Millar, Ph.D.  
 Samuel Parler, Ph.D.

Angela Ripley, Ph.D.  
Edward J.F. Taylor, Ph.D.  
Robin Wallace, Ph.D.  
Laurel E. Zeiss, Ph.D.

## Division of Ensembles

Lynne Gackle, Ph.D., Director  
Stephen Gusukuma, D.M.A.  
Miguel Harth-Bedoya, M.M.  
Stuart Ivey, D.M.A.  
Isaiah Odajima, D.M.A.  
Alex Parker, M.M.  
Jen Stephenson, D.M.A.  
J. Eric Wilson, D.M.A.

## Division of Instrumental Studies

Todd Meehan, D.M.A., Director  
Euridice Alvarez-Icoza, D.M.A.  
Philip Borter, D.M.A.  
Charlotte Daniel, D.M.A.  
Kent Eshelman, D.M.A.  
Eka Gogichashvili, D.M.A.  
Michael N. Jacobson, D.M.A.  
Ran Kampel, M.M.  
Kristy Morrell, D.M.A.  
Sandor Ostlund, D.M.A.  
L. Brent Phillips, M.M.  
Wortley F. "Wiff" Rudd, M.M.  
Mark Schubert, M.M.  
Patricia Shih, A.D.  
Ann Shoemaker, M.M.  
Kathryn S. Steely, D.M.

## Division of Keyboard Studies

Brian R. Marks, D.M.A., Director  
Bradley C. Bolen, D.M.A.  
Isabelle Demers, D.M.A.  
Cameron Hofmann, D.M.A.  
Kae Hosoda-Ayer, D.M.A.  
Terry Lynn Hudson, D.M.A.  
Lesley McAllister, D.M.A.  
Rajung Yang, D.M.A.

## Division of Music Education

Michele L. Henry, Ph.D., Director  
Michael L. Alexander, D.M.A.  
Kelly Jo Hollingsworth, Ph.D.  
David W. Montgomery, D.M.A.

## Division of Vocal Studies

Jamie Van Eyck, D.M.A., Director  
Robert L. Best, D.M.A.  
Mark Diamond, D.M.A.  
Kimberly Monzón, D.M.A.  
Jeffrey Peterson, D.M.A.  
Deborah Williamson, D.M.A.

## School of Music Staff

| Name                        | Title   |
|-----------------------------|---|
| June Campbell, B.M.E.       | Assistant to the Associate Dean for Academic Affairs and Administrative Associate, Music Education and Vocal Studies Division |

| Jamie Duerksen, M.M./M.Div. | Reserves and Technology Coordinator, Crouch Fine Arts Library   |
| Beth Farwell, M.M./M.L.I.S. | Music Liaison Librarian, Crouch Fine Arts Library   |
| James Grady                 | Multi-Media Specialist/Building Manager   |
| Jill Gusukuma, M.M.         | Choral Activities Administrative Associate  |
| McKenna Lalani, M.Ed.       | Undergraduate Academic Programs Manager   |
| Alison Larson, M.A., M.L.S. | Public Services Coordinator, Crouch Fine Arts Library   |
| Callan Monroe, BMED         | Admissions and Recruiting Coordinator   |
| Jonathan Patterson, M.M.    | Piano Technician  |
| Teresa Reid                 | Administrative Associate, Keyboard Studies Division   |
| Darren Roos, B.A.           | Piano Technician  |
| Angeline Townsend, L.T.C.L. | Assistant to the Dean   |
| Angela Traylor, B.B.A.      | Financial Manager   |
| Ruth Tucker                 | School of Music Host  |
| Richard Veit, M.A.          | Concert and Promotion Manager   |
| Russell Wiley               | Budget Assistant  |

## Endowed Positions

### Chairs

The Vara Martin Daniel Chair in Music  
The Mary Gibbs Jones Chair in Music  
The Charles W. Evans Chair in Voice

### Professorships

The Mary Franks Thompson Professorship in Orchestral Studies  
The Ben H. Williams Distinguished Professorship in Music  
The L. N. and Mable Yeager Professorship in Music

## Degree Programs

The School of Music offers the following bachelor's degree programs:

### Bachelor of Music Degree

This is typically a four-year degree program leading to the Bachelor of Music degree with majors in performance, church music, history and literature, piano pedagogy, music theory, and composition. The Bachelor of Music is a professional degree.

- Performance - Woodwinds, B.M. (p. 443)
- Performance - Brass, B.M. (p. 444)
- Performance - Strings, B.M. (p. 444)
- Performance - Percussion, B.M. (p. 444)

- Performance - Piano, B.M. (p. 445)
- Performance - Organ, B.M. (p. 445)
- Performance - Voice, B.M. (p. 445)
- Piano Pedagogy, B.M. (p. 446)
- Church Music - Voice Emphasis, B.M. (p. 446)
- Church Music - Keyboard Emphasis, B.M. (p. 447)
- Church Music - Instrumental Emphasis, B.M. (p. 447)
- Composition, B.M. (p. 448)
- Music History and Literature, B.M. (p. 448)
- Theory, B.M. (p. 449)

Bachelor of Music Education Degree

This degree program is designed for prospective teachers in the public and private schools. It is a professional degree that conforms to the certification requirements of the Texas Education Agency. Students in the Bachelor of Music Education degree program will major in either instrumental music education or choral music education, depending on their applied area.

- Choral Music - Voice Concentration, B.M.E. (p. 450)
- Choral Music - Keyboard Concentration, B.M.E. (p. 451)
- Instrumental Music - String Concentration, B.M.E. (p. 451)
- Instrumental Music - Woodwind, Brass, Percussion Concentrations, B.M.E. (p. 452)

Bachelor of Arts Degree

The Bachelor of Arts degree with a major in music is offered through the College of Arts & Sciences. In this degree, students may pursue studies that emphasize either applied music, academic studies or church music.

- Bachelor of Arts in Music (p. 442)

The Secondary Major in Instrumental Performance or Keyboard Performance

This program allows advanced instrumental players to continue their interest in music performance while pursuing another academic career path. The secondary major is differentiated from a music major in that academic music requirements are reduced while retaining private instruction, participation in ensembles and chamber music, and a recital in the senior year. Upon graduation, a student earns one baccalaureate degree in an area other than music. Although not awarded a second degree in music, the student’s transcript will reflect that he or she has earned a Secondary Major in Instrumental or Keyboard Performance.

- Instrumental Music Performance - Secondary Major (p. 452)
- Keyboard Music Performance - Secondary Major (p. 452)

Minoring in Music

Any undergraduate student at Baylor University, in any major other than music, may elect to minor in music by completing at least 21 semester hours as outlined in the Minor of Music section of this catalog. The minor is designed to broaden the educational experience of students by providing a variety of musical experiences. No admission audition is required for the music minor. Students may choose between an academic minor in general music or an academic minor in church music.

- Music Minor (p. 453)

Responsibility for curriculum and degree planning lies with the student, whose advisor, in conjunction with the Dean’s Office, will provide guidance and advice.

Bachelor of Arts in Music Requirements for a Bachelor of Arts in Music

See the Arts and Sciences Intrauniversity Programs (p. 253) in this catalog.

Bachelor of Music

| Code  | Title  | Hours |
|---|--|-------|
| Requirements  |  |       |
| Total Hours for Degree – minimum of 124 sem. hrs.   |  | (124) |
| Residence Requirement – minimum   |  | (60)  |
| Grade point average – minimum of 2.00 overall, and also in the major for work done at Baylor.   |  |       |
| Basic Requirements  |  |       |
| Chapel  |  |       |
| Complete two semesters  |  | 0     |
| Creative Arts Experience  |  |       |
| Attend twelve events  |  | 0     |
| Students are required to attend 12 approved events with at least 2 events from each of the following categories: Art, Film, Music, Theatre, and Literature/World Cultures. Transfer students with 30 hours will attend 10 events. |  |       |
| Literature in Context   |  |       |
| Select 3 hours from the School of Music Literature in Context distribution list.  |  | 3     |
| History   |  |       |
| Select one course from the following:   |  | 3     |
| HIS 1300  | The United States in Global Perspective  |       |
| HIS 1305  | World History to 1500  |       |
| HIS 1307  | World History since 1500   |       |
| Political Science   |  |       |
| PSC 1387  | The U.S. Constitution, Its Interpretation, and the American Political Experience | 3     |
| Religion  |  |       |
| REL 1310 & REL 1350   | The Christian Scriptures and The Christian Heritage                              | 6     |
| Foreign Languages and Culture   |  |       |
| Select a minimum of 6 hours from the SOM Foreign Language and Cultural Competency distribution list. <sup>1</sup>   |  | 6-12  |
| Formal Reasoning -or- Scientific Method I: Course w/Lab Experience  |  |       |
| Select 3 hours from the Formal Reasoning distribution list or 4 hours (one 4-hour course with included lab or 3-hour lecture and matching 1-hour lab course) from the Scientific Method I distribution list.                      |  | 3-4   |
| Research Writing  |  |       |
| ENG 1310  | Writing and Academic Inquiry Seminars  | 3     |
| Select one of the following:  |  | 3     |
| PWR 3300  | Technical Writing  |       |
| PWR 3303  | Persuasive and Argumentative Writing   |       |

|   |                                  |   |
|---|----------------------------------|---|
| PWR 3318  | Professional & Workplace Writing |   |
| <b>Lifetime Fitness</b>                                 |                                  |   |
| Select two activity courses                             |                                  | 2 |
| Voice majors must fulfill this requirement by taking:   |                                  |   |
| LF 1197   | Beginning Relaxation/Fitness     |   |
| Select one course from the following:                   |                                  |   |
| LF 1106   | Beginning Aerobics               |   |
| LF 1107   | Intermediate Aerobics            |   |
| LF 1110   | Aerobic Walking                  |   |
| LF 1111   | Aerobic Running                  |   |
| LF 1117   | Beginning Ballet                 |   |
| LF 1118   | Intermediate Ballet              |   |
| LF 1119   | Advanced Ballet                  |   |
| LF 1130   | Social Dance                     |   |
| LF 1147   | Beginning Jazz Dance             |   |
| LF 1148   | Intermediate Jazz Dance          |   |
| LF 1176   | Intermediate Swimming            |   |
| LF 1192   | Weight Control                   |   |
| LF 1194   | Beginning Weight Training        |   |
| LF 1195   | Intermediate Weight Training     |   |
| LF 1198   | Intermediate Relaxation/Fitness  |   |
| LF 1199   | Advanced Relaxation/Fitness      |   |
| <b>Electives</b>  |                                  |   |
| Optional; may be required to reach 124 sem. hr. minimum |                                  |   |

<sup>1</sup> B.M. voice and B.M. music history and literature majors must take two semesters each of two languages (12 sem. hrs). B.M. voice majors must select from Italian (ITA), French (FRE), or German (GER).

Distribution lists (p. 453) appear at the end of the School of Music section of this catalog.

## Music Core for Bachelor of Music Degree

| Code                     | Title   | Hours |
|--------------------------|---|-------|
| <b>Core Requirements</b> |   |       |
| MUS 1301                 | Theory I (must have a grade of "C" or above) <sup>1,2</sup>         | 3     |
| MUS 1101                 | Musicianship I (must have a grade of "C" or above) <sup>1,2</sup>   | 1     |
| MUS 1302                 | Theory II (must have a grade of "C" or above) <sup>1,2</sup>        | 3     |
| MUS 1102                 | Musicianship II (must have a grade of "C" or above) <sup>1,2</sup>  | 1     |
| MUS 2301                 | Theory III (must have a grade of "C" or above) <sup>1,2</sup>       | 3     |
| MUS 2101                 | Musicianship III (must have a grade of "C" or above) <sup>1,2</sup> | 1     |
| MUS 2302                 | Theory IV <sup>1,2</sup>  | 3     |
| MUS 2102                 | Musicianship IV <sup>1,2</sup>                                      | 1     |
| MUS 3301                 | Theory V  | 3     |
| MUS 3324                 | The History of Music before 1600 <sup>2</sup>                       | 3     |
| MUS 3325                 | The History of Music from 1600 to 1800 <sup>2</sup>                 | 3     |
| MUS 3326                 | The History of Music from 1800 to World War I <sup>2</sup>          | 3     |

|                    |   |           |
|--------------------|---|-----------|
| MUS 3327           | The History of Music from World War I to the Present <sup>2</sup> | 3         |
| MUS 1001           | Recital Attendance (6 semesters)                                  | 0         |
| <b>Total Hours</b> |   | <b>31</b> |

<sup>1</sup> Undergraduate majors in music theory must make a grade of "B" or above.

<sup>2</sup> Undergraduate majors in music history and literature must make a grade of "B" or above.

## Performance - Woodwinds, B.M. Requirements for a Major in Performance – Woodwinds

### Flute, Oboe, Clarinet, Bassoon, Saxophone

| Code   | Title   | Hours        |
|--|---|--------------|
| <b>Requirements</b>  |   |              |
| Fifty-two semester hours including:  |   |              |
| MUS 2260<br>& MUS 4335   | Elementary Conducting (Music Education<br>Elementary)<br>and Woodwind Literature and Pedagogy | 5            |
| <b>Performance</b>   |   |              |
| Twenty-four semester hours applied music. Credit earned for applied music study may not be used to satisfy degree requirements until candidate is officially admitted to the School of Music. Any exceptions to this policy must be approved by the Dean of the School of Music. |   | 24           |
| Four semester hours secondary applied (Piano Level IIs). Must have a grade of "C" or above in all secondary piano courses. <sup>1</sup>  |   | 4            |
| A minimum of eight semester hours of large ensemble; enrollment in ensemble in the major performing area required for every term in residence.   |   | 8            |
| Four to six semester hours of chamber music <sup>2</sup>   |   | 4-6          |
| Junior and senior recitals   |   |              |
| Five to seven semester hours classroom music courses <sup>3</sup>  |   | 5-7          |
| <b>Supportive Courses</b>  |   |              |
| Thirty-one semester hours music core   |   | 31           |
| <b>Total Hours</b>   |   | <b>81-85</b> |

<sup>1</sup> The s in Piano Levels indicates that the curriculum in these levels is designed for secondary piano students.

<sup>2</sup> Chamber and classroom music courses must total at least eleven hours, of which at least four must be chamber, at least five must be classroom music, and the remaining two may be taken in either category.

<sup>3</sup> See list of Classroom Music Courses (p. 440)

Applied music study in an area other than the major may be substituted for two of the classroom music hours. Piano study may be used to satisfy this requirement only after piano requirements have been completed.

## Performance - Brass, B.M.

### Requirements for a Major in Performance – Brass

#### Trumpet, Horn, Trombone, Euphonium, Tuba

| Code   | Title  | Hours        |
|--|--|--------------|
| <b>Requirements</b>  |  |              |
| Fifty-two semester hours including:  |  |              |
| MUS 2260 & MUS 4336  | Elementary Conducting (Music Education & Elementary) and Brass Literature and Pedagogy | 5            |
| <b>Performance</b>   |  |              |
| Twenty-four semester hours applied music. Credit earned for applied music study may not be used to satisfy degree requirements until candidate is officially admitted to the School of Music. Any exceptions to this policy must be approved by the Dean of the School of Music. |  | 24           |
| Four semester hours secondary applied (Piano Level IIs). Must have a grade of "C" or above in all secondary piano courses. <sup>1</sup>  |  | 4            |
| A minimum of eight semesters of large ensemble; enrollment in ensemble in the major performing area required for every term in residence.  |  | 8            |
| Four to six semester hours of chamber music <sup>2</sup>   |  | 4-6          |
| Junior and senior recitals   |  |              |
| Five to seven semester hours classroom music courses <sup>2, 3</sup>   |  | 5-7          |
| <b>Supportive Courses</b>  |  |              |
| Thirty-one semester hours music core   |  | 31           |
| <b>Total Hours</b>   |  | <b>81-85</b> |

<sup>1</sup> The s in Piano Levels indicates that the curriculum in these levels is designed for secondary piano students.

<sup>2</sup> Chamber and classroom music courses must total at least eleven hours, of which at least four must be chamber, at least five must be classroom music, and the remaining two may be taken in either category.

<sup>3</sup> See list following of Classroom Music Courses (p. 440)

Applied music study in an area other than the major may be substituted for two of the classroom music hours. Piano study may be used to satisfy this requirement only after piano requirements have been completed.

## Performance - Strings, B.M.

### Requirements for a Major in Performance – Strings

#### Violin, Viola, Cello, Bass, Harp

| Code                                 | Title  | Hours |
|--------------------------------------|--|-------|
| <b>Requirements</b>                  |  |       |
| Fifty-four semester hours including: |  |       |
| MUS 2260                             | Elementary Conducting (Music Education & Elementary) | 2     |
| MUS 4334                             | String Chamber Literature                            | 3     |
| MUS 4321                             | Symphonic Literature                                 | 3     |
| <b>Performance</b>                   |  |       |

Twenty-four semester hours applied music. Credit earned for applied music study may not be used to satisfy degree requirements until candidate is officially admitted to the School of Music.

Four semester hours secondary applied (Piano Level IIs). Must have a grade of "C" or above in all secondary piano courses. (Students may elect to substitute up to 2 credits of early music ensemble towards the secondary instrument requirement once the piano requirement has been met.) <sup>1</sup>

A minimum of eight semesters of large ensemble; enrollment in ensemble in the major performing area required for every term in residence.

Select four to six semester hours of chamber music from the following:

|           |  |
|-----------|--|
| MUEN 1130 | Chamber Music (Strings) (Bowed Strings - four semesters) |
| MUEN 1134 | Harp Ensemble (Harp Majors - six semesters)              |

Junior and senior recitals

Four semester hours of Orchestral Excerpts repertoire courses

Select two semester hours from the following:

|           |   |
|-----------|---|
| MUEN 1120 | Early Music Ensemble (Bowed Strings only) |
| MUEN 1106 | Jazz Ensemble (Double Bases only)         |
| MUEN 1130 | Chamber Music (Strings)                   |

#### Supportive Courses

Thirty-one semester hours music core

**Total Hours** **85-87**

<sup>1</sup> The s in Piano Levels indicates that the curriculum in these levels is designed for secondary piano students.

## Performance - Percussion, B.M.

### Requirements for a Major in Performance – Percussion

| Code   | Title   | Hours |
|--|---|-------|
| <b>Requirements</b>  |   |       |
| Fifty-two semester hours including:  |   |       |
| MUS 2260 & MUS 4333  | Elementary Conducting (Music Education & Elementary) and Percussion Literature and Pedagogy | 5     |
| <b>Performance</b>   |   |       |
| Twenty-four semester hours applied music. Credit earned for applied music study may not be used to satisfy degree requirements until candidate is officially admitted to the School of Music. Any exceptions to this policy must be approved by the Dean of the School of Music. |   | 24    |
| Four semester hours secondary applied (Piano Level IIs). Must have a grade of "C" or above in all secondary piano courses. <sup>1</sup>  |   | 4     |
| A minimum of eight semesters of large ensemble; enrollment in ensemble in the major performing area required for every term in residence.  |   | 8     |
| Four to six semester hours of chamber music <sup>2</sup>   |   | 4-6   |
| Junior and senior recitals   |   |       |
| Five to seven semester hours classroom music courses <sup>3</sup>  |   | 5-7   |

**Supportive Courses**

|                                      |              |

| Eleven semester hours classroom music courses <sup>2, 3</sup>  |   | 11        |
| <b>Supportive Courses</b>  |   |           |
| Thirty-one semester hours music core   |   | 31        |
| <b>Total Hours</b>   |   | <b>85</b> |

<sup>1</sup> The s in Piano Levels indicates that the curriculum in these levels is designed for secondary piano students.

<sup>2</sup> Chamber and classroom music courses must total at least eleven hours, of which at least four must be chamber, at least five must be classroom music, and the remaining two may be taken in either category.

<sup>3</sup> See list of Classroom Music Courses (p. 440)

## Bachelor of Music Education

### Requirements for Teacher Certification

Teachers in Texas elementary and secondary schools are required by law to hold a valid Texas teacher's certificate for the subject to which they are assigned. The program for teacher certification in music is a joint program of the School of Music and the School of Education. Advisement forms indicating a suggested sequence of course work, prerequisites for student teaching, and other standards and procedures for each of the Bachelor of Music Education degrees are available on the School of Music website or from the Director of Music Education.

## Requirements for Admission and Retention in Music Teacher Education – School of Music

During the sophomore year, each Bachelor of Music Education student must apply for professional review and for admittance into teacher candidacy in Music Education. Transfer students with sixty semester hours or more must apply after completing MUS 1330 Introduction to Music Education. The standards and procedures for the B.M.E. Sophomore Evaluation are included in the Student Handbook for the School of Music. Application forms are available from the Division Director. Before meeting with the music education faculty, the student must complete the required procedures and satisfy all requirements for admission and retention in the music education program as described in the Student Handbook for the School of Music. A student who meets the requirements for a B.M.E. degree must also meet the requirements for Texas Teacher Certification.

No student will be allowed to register for upper division music education courses before the student has been admitted to teacher candidacy in music education following successful completion of the Music Education Evaluation. Standards required for admission to upper level music education courses must be maintained in subsequent enrollments.

| Code   | Title   | Hours |
|--|---|-------|
| <b>Requirements</b>  |   |       |
| Total Hours for Degree – minimum of 124 sem. hrs.  |   | (124) |
| Residence Requirement – minimum (including the last thirty hours)                        |   | (60)  |
| Grade point average – minimum of 2.75 overall and also in music for work done at Baylor. |   |       |
| Must have a grade of "C" or above in each of the following courses:                      |   |       |
| MUS 1330   | Introduction to Music Education                   | 3     |
| MUS 3132   | Choral Methods I                                  | 1     |

## Instrumental Music - String Concentration, B.M.E.

### Requirements for a Major in Instrumental Music, String Concentration

Violin, Viola, Cello, Double Bass, Harp

| Code  | Title  | Hours     |
|---|--|-----------|
| <b>Requirements</b>   |  |           |
| Forty-four semester hours including:  |  |           |
| MUS 1216  | Band Techniques for String Majors                  | 2         |
| MUS 2260  | Elementary Conducting (Music Education Elementary) | 2         |
| MUS 3212  | String Methods (For String Majors)                 | 2         |
| MUS 3260  | Instrumental Conducting                            | 2         |
| MUS 3136  | Instrumental Methods I                             | 1         |
| MUS 3236  | Instrumental Methods II                            | 2         |
| Select four hours in class instruments from the following:  |  | 4         |
| MUS 1117  | Violin (for string majors)                         |           |
| MUS 1118  | Viola (for string majors)                          |           |
| MUS 1120  | Cello (for string majors)                          |           |
| MUS 1121  | Double-Bass (for string majors)                    |           |
| <b>Applied Music</b>  |  |           |
| Fourteen semester hours applied concentration. Credit earned for applied music study may not be used to satisfy degree requirements until candidate is officially admitted to the School of Music. Any exceptions to this policy must be approved by the Dean of the School of Music. |  | 14        |
| Four semester hours secondary applied (Piano Level IIs). Must have a grade of "C" or above in all secondary piano courses. <sup>1</sup>   |  | 4         |
| A minimum of seven semesters of large ensemble; enrollment in ensemble in the major performing area required for every term in residence, except during the student teaching semester.  |  | 7         |
| Four semester hours chamber music   |  | 4         |
| BME Recital   |  |           |
| <b>Supportive Courses</b>   |  |           |
| Thirty-one semester hours music core  |  | 31        |
| <b>Total Hours</b>  |  | <b>75</b> |

<sup>1</sup> The s in Piano Levels indicates that the curriculum in these levels is designed for secondary piano students.

## Instrumental Music - Woodwind, Brass, Percussion Concentrations, B.M.E.

### Requirements for a Major in Instrumental Music - Woodwind (Flute, Oboe, Clarinet, Bassoon, Saxophone), Brass (Trumpet, Horn, Trombone, Euphonium, Tuba), Percussion Concentrations

| Code  | Title  | Hours        |
|---|--|--------------|
| <b>Requirements</b>   |  |              |
| Forty-five semester hours including:  |  |              |
| MUS 1111  | Flute-Saxophone                                    | 1            |
| MUS 1112  | Oboe-Bassoon                                       | 1            |
| MUS 1113  | Clarinet   | 1            |
| MUS 1114  | Trumpet-Horn                                       | 1            |
| MUS 1115  | Trombone-Baritone-Tuba                             | 1            |
| MUS 1116  | Strings (for nonstring players)                    | 1            |
| MUS 1119  | Percussion <sup>1</sup>                            | 1            |
| MUS 2260  | Elementary Conducting (Music Education Elementary) | 2            |
| MUS 3260  | Instrumental Conducting                            | 2            |
| MUS 3136  | Instrumental Methods I                             | 1            |
| MUS 4219  | Marching Band/Jazz Pedagogy                        | 2            |
| <b>Applied Music</b>  |  |              |
| Fourteen semester hours applied concentration. Credit earned for applied music study may not be used to satisfy degree requirements until candidate is officially admitted to the School of Music. Any exceptions to this policy must be approved by the Dean of the School of Music. |  | 14           |
| Four semester hours secondary applied (Piano Level IIs). Must have a grade of "C" or above in all secondary piano courses. <sup>2</sup>   |  | 4            |
| A minimum of seven semesters of large ensemble; enrollment in ensemble in the major performing area required for every term in residence, except during the student teaching semester. Enrollment in marching band is required during the first two years of residency.               |  | 7            |
| Four to five semester hours chamber music (four hours for woodwinds/brass and five hours for percussion)  |  | 4-5          |
| BME Recital   |  |              |
| <b>Supportive Courses</b>   |  |              |
| Thirty-one semester hours music core  |  | 31           |
| <b>Total Hours</b>  |  | <b>74-75</b> |

<sup>1</sup> Percussion majors do not have to take MUS 1119 Percussion.

<sup>2</sup> The s in Piano Levels indicates that the curriculum in these levels is designed for secondary piano students.

## Secondary Major Instrumental Music Performance

### Requirements for a Secondary Major in Instrumental Music Performance

| Code  | Title                                      | Hours     |
|---|--|-----------|
| <b>Requirements</b>                                   |  |           |
| Thirty-five semester hours including:                 |  |           |
| Undergraduate Applied Music in Emphasis Area          |  | 8         |
| Advanced Undergraduate Applied Music in Emphasis Area |  | 8         |
| Large Ensemble in Emphasis Area                       |  | 8         |
| Secondary Ensemble in Emphasis Area                   |  | 4         |
| MUS 1301  | Theory I <sup>1</sup>                      | 3         |
| MUS 1101  | Musicianship I <sup>1</sup>                | 1         |
| MUS 3315  | Survey of Music Literature                 | 3         |
| MUS 1001  | Recital Attendance (four semesters)        | 0         |
| MUS 40**  | Full Solo Recital (pass/fail; zero credit) | 0         |
| <b>Total Hours</b>                                    |  | <b>35</b> |

<sup>1</sup> Theory placement exam required. If a student wishes to use transfer credit or credit by exam for these courses, the student must take the next courses in the theory and musicianship sequence to total 4 credit hours in Theory/Musicianship earned at Baylor.

Admission to a secondary major in Instrumental Music Performance is by audition only, and students must enter this program before earning 45 credit hours at Baylor. This major is available only for woodwinds, brass, string, or percussion instruments. All hours of applied music in the emphasis area must be taken in the same instrument.

## Secondary Major Keyboard Music Performance

### Requirements for a Secondary Major in Keyboard Music Performance

| Code  | Title                                      | Hours     |
|---|--|-----------|
| <b>Requirements</b>                                   |  |           |
| Thirty-five semester hours including:                 |  |           |
| Undergraduate Applied Music in Emphasis Area          |  | 8         |
| Advanced Undergraduate Applied Music in Emphasis Area |  | 10        |
| Large Ensemble  |  | 2         |
| Secondary Ensemble or Applied Music <sup>1</sup>      |  | 4         |
| Select eight hours from the following: <sup>2</sup>   |  | 8         |
| MUS 1301  | Theory I                                   |           |
| MUS 1101  | Musicianship I                             |           |
| MUS 1302  | Theory II                                  |           |

| MUS 3315  | Survey of Music Literature                 | 3         |
| MUS 1001  | Recital Attendance                         | 0         |
| MUS 40**  | Full Solo Recital (pass/fail; zero credit) | 0         |
| <b>Total Hours</b>                                    |  | <b>35</b> |

<sup>1</sup> Studio Accompanying; Piano Ensemble (for students whose emphasis area is organ substitute MUS 2113 Introductory Service Playing); Chamber Music. Up to two hours may be secondary study on another keyboard instrument.

<sup>2</sup> Theory placement exam required. If a student wishes to use transfer credit or credit by exam for these courses, the student must take the next courses in the theory and musicianship sequence to total 8 credit hours in Theory/Musicianship earned at Baylor.

Admission to a secondary major in Keyboard Music Performance is by audition only, and students must enter this program before earning 45 credit hours at Baylor. This major is available only for keyboard instruments. All hours of applied music in the emphasis area must be taken in the same instrument.

## Church Music Minor

### Academic Minor in Church Music

A student majoring in an area of study other than music may elect a minor in church music by completing the twenty-four semester hour requirements listed below. Additionally, the prospective minor must consult with the Director of the Church Music Program prior to beginning church music courses. The purpose of this meeting is to establish a relationship with the church music faculty and to discuss the student's purpose in pursuing the minor.

| Code                                     | Title  | Hours     |
|--|--|-----------|
| <b>Requirements</b>                      |  |           |
| Twenty-four semester hours including:    |  |           |
| MUS 1301                                 | Theory I (must earn grade of "C" or higher)        | 3         |
| MUS 1101                                 | Musicianship I (must earn grade of "C" or higher)  | 1         |
| MUS 3315                                 | Survey of Music Literature                         | 3         |
| MUS 2260                                 | Elementary Conducting (Music Education Elementary) | 2         |
| MUS 4373                                 | Worship in the Church                              | 3         |
| MUS 4374                                 | The Song of the Church                             | 3         |
| MUS 4375                                 | Leadership in Music Ministry                       | 3         |
| Four hours of applied lessons including: |  | 4         |
| MUS 11V1                                 | Undergraduate Voice                                |           |
| Piano Level IIs                          |  |           |
| Two hours of choral ensembles            |  | 2         |
| MUS 1001                                 | Recital Attendance (two semesters)                 | 0         |
| MUS 1007                                 | Church Music Forum (four semesters)                | 0         |
| <b>Total Hours</b>                       |  | <b>24</b> |

## Music Minor

### Academic Minor in Music

A student majoring in an area of study other than music may elect a minor in music by completing the twenty-one semester hour requirements listed below:

| Code                                 | Title | Hours |
|--------------------------------------|-------|-------|
| <b>Requirements</b>                  |       |       |
| Twenty-one semester hours including: |       |       |

|   |                                    |           |
|---|------------------------------------|-----------|
| MUS 1301  | Theory I                           | 3         |
| MUS 1101  | Musicianship I                     | 1         |
| MUS 3315  | Survey of Music Literature         | 3         |
| Six hours of Classroom Music Courses  |                                    | 6         |
| Eight hours of additional electives, selected from courses with MUS or MUEN prefix <sup>1</sup> |                                    | 8         |
| MUS 1001  | Recital Attendance (two semesters) | 0         |
| <b>Total Hours</b>  |                                    | <b>21</b> |

<sup>1</sup> MUS 1100 Introductory Musicianship, MUS 1200 Introductory Music Theory, MUS 1321 Engaging with Music may not be selected as electives.

## Diana R. Garland School of Social Work

### General Information

#### Introduction

Social work has been a part of the University's curriculum since the first course was taught in the Department of Sociology in 1936. In 1969, the department launched a complete baccalaureate social work program to prepare students for the beginning level of social work practice. The School of Social Work was established in 1999 when Baylor began offering the master of social work degree. The program was moved from within the Department of Sociology, Anthropology, Social Work and Gerontology to become a separate department in the College of Arts & Sciences. In September 2004, the School of Social Work was granted independent status. To honor the founding dean, the School of Social Work was renamed the Diana R. Garland School of Social Work (GSSW) in 2015.

#### BSW Mission Statement

The mission of the Diana R. Garland School of Social Work Baccalaureate Program is to prepare generalist social workers in a Christian context for worldwide service and leadership.

#### Program Philosophy

The primary objective of the BSW program is to provide high quality educational preparation for generalist social work practice with individuals, families, groups, and communities. An equally important objective is to prepare students for graduate social work education.

#### Goals

The goals of the Diana R. Garland School of Social Work are:

1. To produce alumni who are:
  - influencing (through service and leadership) the social welfare of people, families, and communities globally.
  - ethically integrating religious faith with social work practice.
  - culturally responsive and competent.
  - effective in creating healthy organizations.
2. To produce research by the school and its alumni that:
  - provides resources and models for excellence in professional social work practice that contribute to social justice and the wellbeing of individuals, families, and communities.
  - provides resources and models that are respectful, faithful, and effective for communities of faith and religiously-affiliated organizations.

#### Financial Aid

Students entering or enrolled in the Diana R. Garland School of Social Work may apply for financial assistance through the Student Financial Aid Office. A comprehensive program of financial aid is available that includes both academic-based and need-based scholarships, as well as grants, loans, and part-time employment. Financial aid information and applications may be obtained from:

Baylor University  
Student Financial Aid Office  
One Bear Place #97028  
Waco, TX 76798-7028  
254-710-2611 or 1-800-Baylor-U

## Scholarships

Students enrolled may also apply for financial assistance in the Diana R. Garland School of Social Work. The GSSW has limited scholarship funds available for students who have been admitted to the major and who have proven their commitment by posting good grades. Scholarships are awarded annually based on need and academic achievement. Need is determined through the Office of Financial Aid by means of a completed FAFSA and/or CSS Profile. Applications are due each spring for the upcoming academic year. Inquiries regarding the GSSW undergraduate scholarship application can be directed to the BSW Program Manager.

## Student Organizations

### Phi Alpha

Phi Alpha is a national honor society for professional social work. The Eta Sigma Chapter of Phi Alpha was chartered at Baylor University in 1998. The organization's purpose is to promote a closer bond among students of social work and to foster humanitarian goals and ideals. Phi Alpha proudly encourages high standards of education for social workers and invites into membership those who have attained excellence in scholarship and achievements in social work. To be eligible for membership you must satisfy the following requirements:

- Have completed 9 semester hours of required social work courses or at least 37.5% of the total hours/credits required for the degree, whichever is later achieved.
- Achieve a GPA in the top 35% of the respective degree program (BSW, MSW, or PhD)

### Social Work Student Association

The school encourages social work students to participate in opportunities to engage and organize related to their interests. Students can participate in the governance of the school through student representation on GSSW committees, coordinate their interests, and act cooperatively on behalf of all social work students and those they serve.

## Advisement

To enhance Baylor's learning environment, the university's undergraduate academic advisors offer services designed to help students formulate academic goals and develop their personal potential. In addition to selecting classes, professional and faculty advisors work with students in reviewing general degree plans and audits, finding and developing specific academic plans within a major or program, and achieving personal goals. To facilitate students in making important life decisions, advisors and mentors also connect students with departmental and campus resources as well as community and professional opportunities.

### Pre-Social Work Academic Advising

Pre-social work students who have completed less than 30 semester hours are advised in the Office of University Advisement in the Paul L. Foster Success Center. Pre-social work students who have completed thirty semester hours or more and students who have been admitted to the major will be advised by the academic advisor in the GSSW.

### Social Work Academic Advising

Once students are admitted to the social work major, the academic advisor will create and maintain an educational plan that helps students identify and register for social work courses. The advisor will refer students to their professional advisors for professional development advising.

## Application for Admission

Students wishing to pursue the Bachelor of Social Work (BSW) degree must apply for admission to the major. Students who transfer to Baylor University should discuss application for admission to the program with the program manager for baccalaureate studies. Admission to the major requires, the following:

1. A written application demonstrating a commitment to social work values and the profession.
2. Completion of SWO 2321 Introduction to Social Work, or its equivalent, with a minimum grade of "C" in the course. It is recommended that SWO 2321 Introduction to Social Work be taken in the sophomore year.
3. A written response to essay questions summarizing your personal and professional values. The content and evaluation of this essay must reflect professional values and demonstrate self-awareness, professional development, and ethical decision making.
4. An overall GPA of 2.7 on a four-point scale and a grade of "C" or better in all social work courses.
5. A signed Student Code of Conduct, including affirmation of the Code of Ethics as outlined by the National Association of Social Workers (provided in SWO 2321 Introduction to Social Work).

The Dean of the GSSW appoints an admissions committee that will review applications in the spring and summer semesters of each year. This committee, based on the material supplied them, their professional judgment, and the number of positions available for entering students, shall determine the suitability of the Baccalaureate Social Work Program for the applicant and notify them of one of the outcomes stated below.

1. Admitted, contingent upon earning a C or better in SWO 2321 Introduction to Social Work, or its equivalent, and achieving a minimum 2.7 overall GPA prior to entering the major.
2. Not Admitted.
  - a. If student is not admitted, they must wait one year to re-apply. The student is not allowed to reapply to the term for which they were originally denied.

Meeting the minimum standards of the major does not guarantee admission. The written decision of the admissions committee will be communicated to the applicant within fifteen days of the decision date. Students are confirmed as "admitted" when they accept their offer of admission which outlines the standards and conditions for maintaining their standing in the program. Students must be admitted to the program prior to enrolling in Practice I (SWO 3371 Social Work Practice I: Generalist Practice).

Students must maintain a GPA of 2.7 or higher and not have a grade below "C" in social work courses to continue in the major. To be eligible for field internship, students must have a minimum grade of "B" in Practice I (SWO 3371 Social Work Practice I: Generalist Practice), Practice II (SWO 4372 Social Work Practice II: Generalist Practice with Groups), and Practice III (SWO 4373 Social Work Practice III: Generalist Practice with Organizations and Communities) and a GPA of 2.7 or higher in the major. To be eligible to graduate, students must have a minimum grade of "B" in Internship I (SWO 4491 Social Work Internship I) and II (SWO 4492 Social Work Internship II).

Additional details regarding policies and procedures related to the BSW program, including probation within the major, are found in the BSW Student Handbook. Inquiries regarding the GSSW undergraduate application can be directed to the BSW program manager.

## Field Education

### Mission

Field internship is the practical application of the knowledge, values and skills acquired in the classroom. The primary goal of the internship is education and preparation for professional practice. The aim of the Field experience is to provide interns the opportunity to develop and integrate values, knowledge, and skills learned in the classroom with practice in actual practice settings. Practice settings include non-sectarian and religiously affiliated agencies and organizations. Through the internship experience, theory is applied, skills learned, and attitudes, values, and ethical dilemmas are examined. It is expected that each intern will be fully engaged in the professional learning opportunities provided by the placement site under the supervision of the Field Instructor. Baccalaureate interns will be expected to achieve skill development similar to entry level generalist practitioners.

### Field in the Curriculum

Baccalaureate Field internship begins after the student has successfully completed the core Social Work courses. At a minimum, these include: Introduction to Social Work, Human Behavior and the Social Environment I and II, and Practice I, II and III. To be eligible for field internship, students must have a minimum grade of "B" in Practice I (SWO 3371 Social Work Practice I: Generalist Practice), Practice II (SWO 4372 Social Work Practice II: Generalist Practice with Groups), and Practice III (SWO 4373 Social Work Practice III: Generalist Practice with Organizations and Communities) and a GPA of 2.7 or higher in the major.

Field internship is the application of the knowledge and skills the student has obtained in the core classroom courses. This includes two semesters of Field instruction taken concurrently with other courses. Internship I and II each require the student to complete at minimum, 16 hours per week for 15 weeks, for a minimum total of 240 hours per semester or 480 hours total. During the semesters of Field internship, students are not permitted to take more than 15 semester hours (including Field internship) without the consent of the Associate Dean for Academic Affairs. To be eligible to graduate, students must have a minimum grade of "B" in Internship I (SWO 4491 Social Work Internship I) and II (SWO 4492 Social Work Internship II).

### Field Orientation

Prior to beginning Field internship, all students must attend Field internship orientation. This orientation includes presentation of Field policies, discussion of Field requirements and evaluation, grading procedures, and a description of the Field faculty/liaison system. Failure to attend this orientation will prohibit entry into Field internship and will therefore delay a student's course of study.

**The Application/Registration Process for Field Internship is found in the Field Education Manual along with all other policies and procedures related to Field Education.**

Students who are denied admission to the Field internships are informed in writing and are directed to contact their advisor regarding the effect on the completion of the degree plan

## School of Social Work Faculty and Staff

Christen Argueta, M.S.W., Director of Online MSW Program  
Carrie Arroyo, M.S.W.

MTH 1321 Calculus I

STA 1380 Elementary Statistics

### Literature in Context (One Course)

Select 3 hours from the Literature in Context distribution list. 3

### Research Writing

ENG 1310 Writing and Academic Inquiry Seminars 3

### Scientific Method I: Course with Laboratory Experience

Select 4 hours (one 4-hour course with included lab or 3-hour lecture and matching 1-hour lab course) from each of the following two groups: 4

BIO 1401 Current Issues in Human Biology

or BIO 1305 Modern Concepts of Bioscience  
& BIO 1105 and Modern Concepts of Bioscience Laboratory

NSC 1306 Introduction to Neuroscience  
& NSC 1106 and Introduction to Neuroscience Laboratory

### Lifetime Fitness

Select one course 1

### Major Requirements <sup>2</sup>

SWO 2320 Human Diversity and Leadership 3

SWO 2321 Introduction to Social Work 3

SWO 3351 Human Behavior and the Social Environment I 3

SWO 3352 Human Behavior and the Social Environment II 3

SWO 3371 Social Work Practice I: Generalist Practice 3

SWO 4301 Social Work Research 3

SWO 4305 Data Analysis for Social Work 3

SWO 4322 Social Policy for Social Work Practice 3

SWO 4372 Social Work Practice II: Generalist Practice with Groups 3

SWO 4373 Social Work Practice III: Generalist Practice with Organizations and Communities 3

SWO 4491 Social Work Internship I 4

SWO 4492 Social Work Internship II 4

Any 2-3 hour Social Work elective 2-3

### Minor – Optional

May elect one or more minors. Specific requirements in departmental sections of this catalog.

### Advanced Work Minimum

“3000” or “4000” numbered courses 36

The requirements for advanced credit, residence, chapel, minimum grade point average, and maximum credit are the same as for the bachelor of arts degree. Additional information about requirements is listed under the “General University Regulations.”

**Total Hours** 126-131

<sup>1</sup> Students who bring in credit for foreign language or have proficiency in a language other than English are encouraged to consult with the Department of Modern Languages and Cultures, Classics (Latin or Greek), or Religion (Hebrew) for recommendations on placement and appropriate classes.

<sup>2</sup> It is highly recommended that all students who enter Baylor in the fall semester, with the declared major of pre-social work, enroll in SWO 1101 Social Justice and New Beginnings at Baylor.

For curricular requirements within the Garland School, the following courses are pre-approved to satisfy the Foreign Language and Culture requirement:

## Foreign Language and Culture Distribution List

## Christian Ministry Certificate

### Certificate in Christian Ministry

Beginning fall, 2011, social work majors can attain a Certification in Christian Ministry. This will help provide the necessary underpinning in working in and with congregations, religiously-affiliated organizations, and for some students, in missions.

The Certificate requires 19 semester hours of the following courses:

| Code   | Title                     | Hours     |
|--|---------------------------|-----------|
| <b>Required Courses</b>                          |                           |           |
| Nineteen semester hours including the following: |                           |           |
| REL 1310   | The Christian Scriptures  | 3         |
| REL 1350   | The Christian Heritage    | 3         |
| REL 2480   | Introduction to Ministry  | 4         |
| REL 3381   | Communication in Ministry | 3         |
| REL 3390   | Christian Ethics          | 3         |
| REL 4340   | Christian Missions        | 3         |
| <b>Total Hours</b>                               |                           | <b>19</b> |

## Poverty Studies and Social Justice Minor

### Requirements for a Minor in Poverty Studies and Social Justice

| Code   | Title   | Hours |
|--|---|-------|
| <b>Required Courses</b>  |   |       |
| Eighteen semester hours including the following:   |   |       |
| ECO 3355   | Introduction to the Economics of Poverty and Discrimination | 3     |
| SWO 4315   | Foundations for Social Justice                              | 3     |
| SWO 4322   | Social Policy for Social Work Practice                      | 3     |
| Select nine semester hours from additional hours taken from courses related to social justice and approved by the School of Social Work: |   | 9     |
| ANT 1306   | Cultural Anthropology in Global Context                     |       |
| ANT 1325   | Introduction to Global Health                               |       |

| PHI 2305           | Philosophy and Religion                           |
| <b>Total Hours</b> | <b>18</b>   |

<sup>1</sup> Students in the BIC may take BIC 1314 World Cultures I: Roots of Culture or BIC 1324 World Cultures II: Religion and Culture in place of REL 3345 World Religions.

## Interdisciplinary Programs and Academic Resources

The programs and services in this area enrich the academic programs of the entire University. Interdisciplinary Programs and Academic Support Services consist of two primary components:

1. Interdisciplinary study programs. A wide variety of programs crossing the boundaries of various academic units provides interdisciplinary opportunities for students and faculty, thereby enhancing the quality of the University experience. The University's involvement with international studies and programs finds its logical home within the interdisciplinary scope of this area. This involves international students in Baylor's various academic units, exchange programs, and study abroad programs, as well as academic programs with an international focus.
2. The learning resource base is an integral component of the entire University. This consists of the Baylor University Libraries, the museum complex, and the Baylor University Press.

## Center for Global Engagement

Jeffrey Hamilton, Ph.D., Vice Provost for Global Engagement, and Jo Murphy Chair  
 Lynae Jordan, Assistant to the Vice Provost for Global Engagement and Office Manager  
 Holly Joyner, M.A., Assistant Director of Marketing and Communications  
 Jorge Vielledent, M.S. Ed, MBA, Financial Manager

## International Student and Scholar Services

Mark Bryant, Ed.D., Director of International Student and Scholar Services  
 Grace Semple-Paul, J.D., Assistant Director of International Student and Scholar Services and J-1 Scholar Advisor  
 Leslie Hicks, International Student Advisor  
 Brandon Hoyer, M.S. Ed., International Programs Coordinator  
 Timothy L. Johnson, International Student Advisor  
 Delores Melendez, International Student Records Management Associate

## Study Abroad

Bo White, Ed.D., M.Div., Director of Study Abroad  
 Kodi Henderson, M.A., Assistant Director of Study Abroad  
 Sophia Ferris, Study Abroad Program Advisor  
 Katie Klingstedt, M.S. Ed., Study Abroad Program Advisor

## Global Baylor

(Quality Enhancement Plan)

Robert Leis, M.A., MBA, Assistant Director of Global Baylor

## Global Gateway

Cornell Menking, Ph.D., Director of Global Gateway Program  
 Meredith L. Moore, M.A., Senior Student Success Manager  
 Christine A. Fabiszewski, M.A., Lecturer, English for Academic Purposes  
 Matthew Piech, M.A., A.A.S., Lecturer, English for Academic Purposes  
 Tanya R. Vernon, M.A., Lecturer, English for Academic Purposes  
 Debra M. Wainscott, M.A., Lecturer, English for Academic Purposes

## Institutes

### Institute of Archaeology

Joseph V. Ferraro, Ph.D., Director  
 C. Alton Hassell, Ph.D., (*Chemistry*)  
 Lee C. Nordt, Ph.D., (*Geology*)

### J. M. Dawson Institute of Church-State Studies

C. Douglas Weaver, Ph.D., Director  
 Jerold Waltman, Ph.D., Editor of The Journal of Church and State

### Institute for Oral History

Stephen M. Sloan, Director  
 Adrienne Cain, B.A., M.L.S., Assistant Director  
 Steven Sielaff, B.A., M.A., Senior Editor and Collections Manager

## Academic Resources

### University Libraries

John S. Wilson, M.L.S., Interim Dean of University Libraries & Assoc. Dean of Special Collections and Director of the Texas Collection  
 Timothy M. Logan, M.F.A., Associate Vice President of the Electronic Library

### Central Libraries

Beth Elene Farwell, M.M., M.L.I.S., Director  
 Kenneth L. Cariveau, Jr., M.S.L.S., Associate Director  
 Sha Towers, M.M., M.L.S., Associate Director  
 John Bales, M.Div., M.L.I.S.  
 Eileen M. Bentsen, M.A., M.Phil., M.L.S.  
 Christina Chan-Park, Ph.D., M.P.A.  
 Clayton Crenshaw, M.M., M.S.L.S.  
 Bruce J. Evans, M.L.S.  
 Ellen Hampton Filgo, M.S.L.S.  
 Ben Johansen, Ph.D., M.M.  
 Kara Long, M.A., M.S.I.S.  
 Megan Martensen, M.S.I.S.  
 Allison M. McCormack, M.L.I.S.  
 Peter Ramsey, M.S.L.S.  
 Carol Carson Schuetz, M.S., M.L.S.  
 Sinai P. Wood, M.L.S.  
 Allison R. Yanos, M.L.S.

### Electronic Library

Amie Oliver, M.L.I.S., Associate Director  
 Debra Davendonis-Todd, M.L.I.S., Associate Director

*Academic Technology and Media Services*

David R. Burns, M.S.Ed.

#### *Client Services*

Richard D. Gerik, M.S., Director  
J. Michael Hutcheson, M.S.  
Conner J. Krey, B.B.A.

#### *Online Teaching and Learning Services*

Sandra M. Bennett, Ph.D., Director

#### *Resources and Collection Management Services*

Billie R. Peterson-Lugo, M.A.L.S., Director  
H. Denyse Rodgers, M.L.S.  
Darryl B. Stuhr, M.M.

## Special Libraries and Centers

### **Armstrong Browning Library**

Rita Patteson, M.L.S., Director  
Jennifer H. Borderud, M.A., M.S.I.S.  
Cynthia A. Burgess, M.L.I.S.

The Benjamin A. Gilman Scholarship  
The Glennis McCrary Goodrich International Scholarship  
The Dixon Wector Scholarship in American Civilization

Applications for all academic scholarships may be obtained by contacting the specific academic department.

## Institutes

### **Institute of Archaeology**

The Institute of Archaeology is a multidisciplinary unit anchored in the Department of Anthropology. The aim of the Institute is to enhance knowledge of the human past through the scientific recovery and analysis of artifacts and ecofacts from archaeological sites and to promote the wide diffusion and responsible interpretation of that knowledge on campus and in the wider community. These goals are carried out through the Institute's support of both faculty and student research, awarding scholarships to students engaged in archaeological fieldwork, and sponsorship of an active on-campus colloquium series.

### **J.M. Dawson Institute of Church-State Studies**

The J.M. Dawson Institute of Church-State Studies is the only interdisciplinary institute of its kind in American academia, providing scholars with the resources to examine the relationship between religion and politics, as well as the broader relationship between religion and society, from a variety of faith perspectives, cultural traditions, and academic disciplines. From its inception in 1957, the stated purpose of the Institute has been to stimulate academic interest and encourage research and publications in this vital interdisciplinary field. In carrying out its statement of purpose, the Institute has sought to honor a threefold commitment: to be interfaith, interdisciplinary, and international.

### **Institute for Oral History**

The Institute for Oral History provides ongoing oral history research and teaching, with various expressions of its work carried out through research, publications, educational outreach, and public programming. In addition to the full-time research staff, fellows are chosen annually from among the various disciplines of the Baylor faculty to expand the Institute's work into a wide variety of research areas.

## Center for Global Engagement (CGE)

The Center for Global Engagement is charged with supporting the mission of Baylor University to educate men and women for worldwide leadership and service. We do this by assisting faculty, staff, students participating in international activities such as study abroad programs, internships, research, and academic conferences. Additionally, the Center for Global Engagement works with international students and scholars who come here to join our academic community, assisting with the visa process, orientation and integration into the university and life in the United States. Finally, by sponsoring academic and cultural events across campus throughout the year, the Center works to broaden our community's exposure to cultural diversity and prepare students to live in a global society.

Please visit the Center for Global Engagement's website at [www.baylor.edu/globalengagement](http://www.baylor.edu/globalengagement) (<http://www.baylor.edu/globalengagement/>).

**Current faculty-led group study abroad programs include:**

| Program   | Faculty Member                              |
|---|---|
| Archaeology Research in Italy                     | Dr. Davide Zori                             |
| Baylor Academy of the Advocate – St Andrews (Law) | Dr. William Counseller, Mr. Stephen Rispoli |
| Baylor Arts Festivals Abroad                      | Dr. Jojo Percy                              |
| Baylor Business in Europe                         | Dr. Leslie Palich                           |
| Baylor Business in Sydney                         | Dr. Chris Pullig                            |
| Baylor Education in Costa Rica                    | Dr. Richard Strot                           |
| Baylor in Argentina                               | Dr. Joan Supplee                            |
| Baylor in Australia                               | Dr. Christopher Wynveen                     |
| Baylor in Barbados                                | Dr. Curt Nicols                             |
| Baylor in Brazil                                  | Dr. Eva Doyle, Dr. Robert Doyle             |
| Baylor in Budapest                                | Prof. Maxey Parrish                         |
| Baylor in Denia                                   | Dr. Allyson Irom                            |
| Baylor in Germany                                 | Dr. Jennifer Good                           |
| Baylor in Great Britain                           | Dr. James Henderson, Dr. Charles Weaver     |
| Baylor in Greece                                  | Dr. Scott Moore                             |
| Baylor in Italy                                   | Dr. Dan Hanchey                             |
| Baylor in Japan                                   | Dr. Yuko Prefume                            |
| Baylor in London - Communication                  | Dr. Kayla Rhidenour                         |
| Baylor in Madrid                                  | Dr. Rosario Colchero-Dorado                 |
| Baylor in Morocco                                 | Dr. Lynn Whitcomb                           |
| Baylor in New Zealand                             | Dr. Clay Butler                             |
| Baylor in Oxford                                  | Dr. Elizabeth Flowers, Dr. Laine Scales     |
| Baylor in Paris                                   | Dr. Alexandre Thiltges                      |
| Baylor in Peru                                    | Dr. Clay Butler                             |
| Baylor in Tuscany                                 | Dr. Tiziano Cherubini                       |
| Baylor Nursing in Great Britain                   | Dr. Lyn Prater                              |
| European Business Seminar                         | Dr. Richard Easley                          |
| Apparel Studies European Tour                     | Dr. Lorynn Divita                           |
| Global Health in Africa                           | Dr. Lori Spies, Dr. Beth Lanning            |
| Health Sciences in Costa Rica                     | Dr. Tricia Blalock, Dr. Kim Smith           |
| Interior Design Study Abroad                      | Prof. Ann Theriot                           |

**Current semester or year-long exchange and study abroad programs include the following:**

## Academic Resources

### University Libraries

#### Mission Statement

The mission of the Baylor University Libraries is to support excellence in teaching and learning, enhance research and discovery, and foster scholarship and success by providing academic life centers, scholarly resources, and technological innovation.

The Libraries will accomplish the mission by:

- Developing and implementing appropriate strategies to support student success
- Providing an infrastructure that effectively supports the academic mission of Baylor University

- Building, preserving and providing access to collections, especially those unique to Baylor University
- Developing partnerships and enhancing relationships locally, regionally and nationally to promote the reputation of the Libraries and the university, and ensuring effective resource management
- Highlighting collections, services and facilities through strategic engagement
- Sustaining and promoting a culture of efficient and effective administrative practices

### Moody Memorial Library and Jesse H. Jones Library

Moody Memorial Library and Jesse H. Jones Library, or the "Central Libraries," together are the main research library for the university. Located at the end of Fountain Mall on South Third Street, these adjoining libraries house over 2.5 million volumes, including rare materials, and over 140,000 media items for undergraduate, graduate and faculty research. The Libraries provide access to thousands of electronic resources including e-books, online journals and databases covering a wide range of research areas. Subject specialist liaison librarians and staff are available to provide research assistance. Students heavily utilize the library as a place for individual and group study. The Moody Garden Level Study Commons, the Prichard Family Information Commons and Allbritton Foyer are popular study areas open 24 hours/day, from 1 p.m. Sunday to 11 p.m. Friday during the fall and spring semesters. The Moody Foyer is also home to a Starbucks.

For more information on the Central Libraries, visit [www.baylor.edu/library/](http://www.baylor.edu/library/) (<http://www.baylor.edu/library/>).

### Electronic Library

The Electronic Library provides services and resources to assist the Baylor academic community with technology-based tools for teaching, learning and research. Faculty and staff in the Electronic Library support the use of electronic information resources within the library system, including online databases, digital materials, electronic tools for scholarship, and technology-enhanced learning. The Electronic Library also supports technology for teaching and learning by providing resources for classroom technology, faculty development and support, student computing services, web-based course materials and research computing. By combining the roles of the librarian and the academic technology professional, the Electronic Library is able to support the innovative use of technology to access a wide range of electronic and digital resources for scholarship.

For additional information, visit [www.baylor.edu/library/el/](http://www.baylor.edu/library/el/) (<https://www.baylor.edu/library/>).

### Armstrong Browning Library

A world-renowned special collection focusing on the lives and works of the 19th-century British poets, Robert and Elizabeth Barrett Browning, this library houses the largest collection of their letters, manuscripts and other primary materials in existence. *The Brownings: A Research Guide* ([www.browningguide.org](http://www.browningguide.org) (<http://www.browningguide.org>)), an online database created by the library, facilitates the study of the Brownings and their circle. In recent years the collection has broadened its scope and presently serves students and scholars researching many aspects of the Victorian period. All library materials are used in the Belew Scholars' Room located on the third floor, where staff members are available to assist patrons. The building itself contains magnificent architectural features and attracts thousands of visitors each year. For a quiet and concentrated study atmosphere reminiscent of a college library at

Oxford or Cambridge, Baylor students are encouraged to use the John Leddy-Jones Research Hall on the second floor from 9 a.m. to 5 p.m. on weekdays and 10 a.m. to 2 p.m. on Saturdays. The inspirational McLean Foyer of Meditation is available during the same hours; and the Garden of Contentment can be enjoyed at any time.

For additional information, visit [www.baylor.edu/library/abl/](http://www.baylor.edu/library/abl/) (<https://www.baylor.edu/library/?id=973825>).

## The Keston Center for Religion, Politics, and Society

The Keston Institute was officially formed in the United Kingdom in 1969 under the direction of Michael Bourdeaux to document the fight for religious freedom by believers living under communism in Eastern Europe and the former Soviet Union. The archive and library provided the core of Keston's operations and contained unique items on religions and Christian denominations, including the stories of individuals and their witness.

In 2007, the Keston Institute passed the care of its archive and library to the newly-formed Keston Center for Religion, Politics, and Society at Baylor. As part of the University Libraries, the Keston Center works with the Keston Institute in Oxford in carrying out its mission to promote research, teaching, and understanding of religion and politics in communist, post-communist, and other totalitarian societies and the relationship between religion and Marxism.

Housed on the third floor of the Carroll Library, Keston materials are available for use in the Michael Bourdeaux Reading Room. For additional information, visit [www.baylor.edu/kestoncenter/](http://www.baylor.edu/kestoncenter/) (<http://www.baylor.edu/kestoncenter/>).

## The Texas Collection

Founded in 1923, The Texas Collection is a research center consisting of extensive printed materials and archives. Its holdings include books, periodicals, vertical files, maps, historical manuscripts, photographs, newspapers, Baylor University archives and other Texana-related materials. It is also a depository for Texas state documents, county microfilm records, oral memoirs and most graduate theses and dissertations completed at Baylor. These materials cover all aspects of life in Texas and provide opportunities for in-depth research by graduate and undergraduate students as well as faculty members and scholars from throughout Texas and the world. The Texas Collection is located in Carroll Library on the Burleson Quadrangle and is an excellent library for quiet study and research.

For more information visit [www.baylor.edu/library/texas/](http://www.baylor.edu/library/texas/) (<http://www.baylor.edu/library/texas/>).

## Baylor Collections of Political Materials

The materials in this collection, which focus on national and Texas politics, include the papers of former members of the United States Congress, the Texas Legislature, judges and other officials. The library houses materials about Texas politicians and provides an important resource for research by social and political scientists of both national and state-level political history and activities. The Baylor Collections of Political Materials is located in the W. R. Poage Legislative Library building.

For more information, visit [www.baylor.edu/library/poage/](http://www.baylor.edu/library/poage/) (<http://www.baylor.edu/library/poage/>).

## Baylor University Press

The Baylor University Press, in conjunction with the University Press Committee, is responsible for publishing academic research, thus advancing knowledge to scholars beyond campus boundaries. The office oversees all acquisitions, editing, production, and marketing activities.

## Mayborn Museum Complex

The Sue & Frank Mayborn Natural Science and Cultural History Museum Complex at Baylor University includes the Harry & Anna Jeanes Discovery Center, the Gov. Bill & Vara Daniel Historic Village, and the Strecker Museum Collection. The Mayborn Museum Complex brings together in one location the resources of hands-on discovery rooms and interactive natural science and cultural history galleries, including outdoor exhibits. This unusually rich combination provides a wide spectrum of engaging learning opportunities for all types of learners and visitors of all ages. The exhibits and education programs encourage families to learn together as they make choices and design their own museum experience. The multifaceted Museum Complex also serves as a learning laboratory for Baylor University students in the Department of Museum Studies, as well as many other disciplines across campus.

## Interdisciplinary Programs

### Pre-Law

Pre-Law at Baylor University is not a major, but instead consists of two academic designations, 'Pre-Law' and 'Pre-Law Interest.' There are no course prerequisites for attending law school. Rather, experts recommend that Pre-Law students maximize their education by taking the most rigorous and demanding classes possible. Students planning to attend law school should select a major that reflects their interests and aptitude. Pre-Law students thrive in many of Baylor's diverse academic programs but should carefully choose courses that will prepare them for law school success. A well-rounded Pre-Law curriculum will include courses that require substantial writing, under close scrutiny, the development of analytical reasoning skills, reading comprehension and oral expression, and courses relevant to a student's specific legal interests. Pre-Law students may want to consider adding a minor in Legal Reasoning and Analysis (see College of Arts & Sciences-Multidisciplinary Programs). Although not required for law school, this minor is designed to ensure optimal preparation for the academic rigors of law school.

Baylor Pre-Law helps students navigate this interdisciplinary preparation. The function of the Pre-Law program is to help students from all academic majors to explore the possibility of attending law school, move through the application process, and prepare for success in law school, and the legal profession. One-on-one professional advising is available to help Pre-Law students begin to prepare for law school. All designated students have access to the program's resources from the time they enter as freshmen. Regular workshops and speakers, connections with lawyer-alumni, and internship opportunities enable Pre-Law students to gain a realistic understanding of the legal profession, and to begin to develop the skills they need to succeed as future lawyers.

All students may add the 'Pre-Law' designation prior to the completion of 24 residential credit hours, at Baylor. Following the completion of the required 24 credit hours, students must hold, and maintain, a minimum cumulative GPA of 3.2. Those who do not meet this minimum GPA requirement cannot add, or retain, the Pre-Law designation beyond the completion of those initial 24 credit hours. However, they may choose the alternative 'Pre-Law Interest' designation, which does not require a minimum GPA and can be added at any stage of a student's

undergraduate studies, regardless of their cumulative GPA. Exceptions are made only in rare circumstances, and at the discretion of the Pre-Law Program Manager.

Students should note that regardless of their designation as either 'Pre-Law' or 'Pre-Law Interest,' they will have full access to the services and resources of the Pre-Law program. However, students who do not meet the academic requirements are encouraged to meet with the Pre-Law Program Manager to discuss their goals and how to improve their academic performance. The minimum GPA required for the 'Pre-Law' designation (3.2) will be assessed at the conclusion of each spring semester, allowing students who fall below the requirement at the end of the fall semester to retain the designation until the end of the spring, allowing them the chance to bring their cumulative GPA back up to the required 3.2.

More information about the services Baylor Pre-Law offers can be found at <http://www.baylor.edu/prelaw> (<http://www.baylor.edu/prelaw/>) or by contacting the Pre-Law Manager.

The adoption of either the 'Pre-Law' or 'Pre-Law Interest' designations does not restrict a student's career options in any way and as such, all students who are considering careers in the legal profession should add the full Pre-Law designation to their student records upon arriving at Baylor. Adding either the 'Pre-Law' or 'Pre-Law Interest' designations gives students access to Baylor Pre-Law emails and events and other Baylor Pre-Law resources. Students wishing to add or delete the Pre-Law designation on their student records should contact the Pre-Law Program Manager, or their academic advisor.

## Special Appointment

Certain broadly interdisciplinary courses which are available for elective credit for various degree programs are offered under the heading of University Studies.

## Courses of Instruction

### Prefixes for Courses of Instruction

| Subject                          | Prefix |
|----------------------------------|--------|
| Accounting                       | (ACC)  |

**Accounting (ACC)****ACC 2301 Survey of Accounting (3)**

Pre-requisite(s): Sophomore or upper-level standing; a minimum GPA of 2.75; not open to BBA students or other students who have taken ACC 2303

An introduction to accounting for non-business majors that follows the business cycle of a start-up company. Topics include researching a company, financing operations, planning and budgeting, and the basic accounting cycle.

**ACC 2303 Financial Accounting (3)**

Pre-requisite(s): Cumulative GPA of 3.0 or higher; Only open to BBA students

An introduction to corporate financial statements, their preparation, and their use in decision making by persons outside the organization. The course focuses on analyzing business transactions to chart their effects on the results of operations, the cash flows, and the financial position of businesses organized for profit.

**ACC 2304 Managerial Accounting (3)**

Pre-requisite(s): Cumulative GPA of 3.0 or higher

A minimum grade of C in ACC 2303. Only open to BBA students. An introduction to principles of managerial accounting. Emphasis is given to the development and use of accounting information to support managerial decision-making processes in manufacturing, service, and not-for-profit settings. Topics include managerial concepts and systems, various analyses for decision making, and planning and control.

**ACC 3101 Accounting Career Management Seminar (1)**

Pre-requisite(s): BUS 1101 and 2101

The course provides career exploration and development experiences designed for accounting majors in the first semester of the accounting core. It assists you in self-assessment, increasing personal marketability, choosing your career concentration focus, and developing various "soft skills" desired by hiring employers. The course offers unique professional development activities. Credit may not be received after receiving credit in BUS 3101.

**ACC 3301 Financial Accounting and Reporting I (3)**

Co-requisite(s): ACC 3303

Pre-requisite(s): ACC 2303 and 2304 with a B average; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

An examination of financial accounting considerations of business transactions. Emphasis is placed on understanding the accounting cycle, the conceptual framework underlying financial accounting, and recognition, measurement and reporting of receivables, inventories, property, plant and equipment, intangibles, liabilities, and stockholders' equity.

**ACC 3302 Financial Accounting and Reporting II (3)**

Co-requisite(s): ACC 3304

Pre-requisite(s): ACC 3301 and 3303 with minimum grade of C or better in each course; only open to accounting majors

A continuation course to ACC 3301, examining financial accounting considerations of business transactions. Emphasis is placed on understanding the recognition, measurement, and reporting of revenue, earnings per share, deferred taxes, pensions, and leases.

**ACC 3303 Accounting Information Systems (3)**

Co-requisite(s): ACC 3301

Pre-requisite(s): ACC 2303 and 2304 with a B average; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

An in-depth study of the application of information systems knowledge to the accounting environment. Emphasis is upon developing students' abilities to understand the processing of accounting data (with an emphasis on the computer environment) and the controls that are necessary to assure accuracy and reliability of the data processed by the accounting system.

**ACC 3304 Introduction to Federal Taxation (3)**

Co-requisite(s): ACC 3302

Pre-requisite(s): ACC 3301 and 3303 with minimum grade of C or better in each course; only open to accounting majors

An examination of the economic theory on which the United States taxation system is based and the legal principles surrounding income taxation.

**ACC 3305 Intermediate Accounting I (3)**

Pre-requisite(s): A minimum grade of C in ACC 2304; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

(Not open to accounting majors.) The first of two courses for non-accounting majors covering financial accounting concepts and practices applicable to business enterprises organized for profit. Topics include the accounting cycle, the conceptual framework underlying financial accounting, measurement and reporting issues relating to receivables, inventories, intangible assets, property and equipment, and an overview of the income statement and balance sheet. May not be taken after credit received for ACC 3301.

**ACC 3306 Intermediate Accounting II (3)**

Pre-requisite(s): ACC 3301 or 3305

(Not open to accounting majors). A continuation of ACC 3305 for non-accounting majors, focusing on current liabilities, long-term debt, investments, stockholders' equity, and the statement of cash flows. Coverage includes accounting issues related to pensions, leases, deferred income taxes, earnings per share, accounting changes, and error analysis. May not be taken after credit received for ACC 3302.

**ACC 3310 Accounting Research and Communication (3)**

Co-requisite(s):

Pre-requisite(s): ACC 3301 and 3303 with minimum grade of C or better; only open to accounting majors

Use of primary sources of authoritative literature in resolving complex, professionally-oriented problems, primarily in financial accounting and taxation. Development of critical thinking and written and oral communication skills through applied research cases.

**ACC 3331 Control and Audit of Information Systems (3)**

Cross-listed as MIS 3332

See MIS 3332 for course information.

**ACC 4308 Advanced Managerial Accounting (3)**

Co-requisite(s): ACC 4330

Pre-requisite(s): ACC 3302 and 3304 with a grade of C or better; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

Advanced study of managerial accounting and its use in both internal and external reporting, with an emphasis on managerial decision making. Course topics include various costing systems, cost-volume-profit analysis and the contribution approach to decision making, budgeting, and other managerial topics for planning and control.

**ACC 4310 Energy Accounting and Law (3)**

Pre-requisite(s): Recommended ACC 2303 and 2304

This course provides an overview of the oil and gas industry with respect to the accounting, tax, and legal functions of an organization. This includes the introduction of general terminology, history, and technical advances in the oil and gas industry as well as detailed analyses of industry specific accounting methods, cost recovery systems as well as financing and organizational structure trends in the industry.

**ACC 4320 Not-for-Profit and Governmental Accounting (3)**

Pre-requisite(s): ACC 4308 and 4330 with a grade of C or better in each course

(Not open to pre-business students). Examination of accounting, financial reporting, and budgeting for state and local governments, the federal government, and not-for-profit entities.

**ACC 4330 Auditing, Attestation and Assurance Services (3)**

Co-requisite(s): ACC 4308

Pre-requisite(s): ACC 3302 and 3304 with a grade of C or better; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

A study of the processes conducted by independent, internal, and governmental accountants to audit, attest, and provide assurance services on information provided by management. Theoretical concepts of materiality, audit risk, and evidential matter are explored, along with the auditor's understanding of controls in a sophisticated technological environment. The application of these concepts in a way that develops critical thinking and communications skills is emphasized.

**ACC 4340 Advanced Accounting (3)**

Pre-requisite(s): ACC 3302 and ACC 3304 with a grade of C or better in each course

(Not open to pre-business students.) A study of partnership accounting practices and the techniques followed to consolidate the financial statements of parent and subsidiary companies. Attention is also given to the distinctive accounting procedures associated with governmental and not-for-profit accounting.

**ACC 4350 Business and Professional Ethics for Accountants (3)**

Co-requisite(s):

Pre-requisite(s): ACC 3302 and 3304 with a grade of C or better; not open to pre-business students

Examination of moral and ethical issues within the accounting profession and the broader business environment. In addition to a broad study of ethical behavior and decision making, various professional codes of conduct within the accounting profession will be examined. Central to this examination will be the discussion of integrity, independence and objectivity, as well as accountants' legal liability.

**ACC 4377 Personal and Business Tax Planning (3)**

Pre-requisite(s): A minimum grade of C in ACC 2304; only open to BBA students; BBA students must be admitted to the Business School in order to take this course; not open to accounting majors

Basic tax concepts and principles. Extensive discussion of an individual's income deductions as well as family tax planning issues. Examination of the effect of taxes on business decisions, including a study of the various forms of businesses. Coverage also includes taxation of employee benefits, business expenses, and gift, estate, and trust taxation. Limited tax return preparation. May not be taken after credit received for ACC 3304.

**ACC 4378 International Accounting (3)**

Cross-listed as INB 4378

Pre-requisite(s): A minimum grade of C in ACC 2303 and 2304; not open to pre-business students

Examination of international accounting within the context of managing multinational enterprises (MNEs). The course will address accounting issues in the context of different countries. Exploration of the factors that influence accounting standards and practices and how those factors impact the harmonization of worldwide standards.

**ACC 4396 Internship in Accounting (3)**

Pre-requisite(s): ACC 3302 and 3304 with a grade of C or better in each course and consent of director of accounting internships; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

Supervised work, full-time, for a minimum of eight consecutive weeks with duties consistent with those of beginning accounting graduates.

**ACC 4V98 Special Studies in Accounting (1-6)**

Pre-requisite(s): Consent of instructor; not open to pre-business students

Individualized research in accounting. Student's proposals for special study project must be approved by the supervising faculty member. Offered on demand and by consent of the advisor for one to six semester hours. May be repeated several times under different topics.

## Aerospace Studies (AS)

**AS 1101 Heritage and Values I (1)**

Co-requisite(s): AS 1111

Introduces students to the United States Air Force and provides an overview of its basic characteristics, missions, and organization.

**AS 1102 Heritage and Values II (1)**

Co-requisite(s): AS 1112

Continuation of AS 1101.

**AS 1111 Leadership Laboratory (1)**

Co-requisite(s): AS 1101

A study of Air Force customs and courtesies, drill and ceremonies, career opportunities in the Air Force and the life and work of an Air Force officer. An extensive physical fitness program is taught, reinforced and evaluated. Students under contract must pass a physical fitness test each term. Field trips to Air Force installations are usually included.

**AS 1112 Leadership Laboratory (1)**

Co-requisite(s): AS 1102

A continuation of AS 1111.

**AS 2103 Team and Leadership Fundamentals I (1)**

Co-requisite(s): AS 2111

Provides a fundamental understanding of leadership and team building in the United States Air Force, including leadership, followership, effective communication, problem-solving, and self-assessment.

**AS 2104 Team and Leadership Fundamentals II (1)**

Co-requisite(s): AS 2112

A continuation of AS 2103.

**AS 2111 Leadership Laboratory (1)**

Co-requisite(s): AS 2103

A continuation of AS 1112.

**AS 2112 Leadership Laboratory (1)**

Co-requisite(s): AS 2104

A continuation of AS 2111.

**AS 3111 Leadership Laboratory (1)**

Co-requisite(s): AS 3301

A continuation of AS 2112.

**AS 3112 Leadership Laboratory (1)**

Co-requisite(s): AS 3302

A continuation of AS 3111.

**AS 3301 Leading People and Communicating Effectively I (3)**

Co-requisite(s): AS 3111

Utilization of cadets' field training experience to take a more in-depth look at leadership, with special emphasis on enhancing communication skills and their importance for a leader. Cadets practice leadership and management techniques in a supervised environment.

**AS 3302 Leading People and Communicating Effectively II (3)**

Co-requisite(s): AS 3112

A continuation of AS 3301.

**AS 4111 Leadership Laboratory (1)**

Co-requisite(s): AS 4301

A continuation of AS 3112.

**AS 4112 Leadership Laboratory (1)**

Co-requisite(s): AS 4302

A continuation of AS 4111.

**AS 4301 National Security (3)**

Co-requisite(s): AS 4111

Pre-requisite(s): Upper-level standing or consent of instructor

Gives college seniors the foundation to understand their role as military officers and how they are directly tied to our National Security Strategy. Overview of the complex social and political issues facing the military profession.

**AS 4302 Preparation for Commissioning (3)**

Co-requisite(s): AS 4112

A continuation of AS 4301.

## American Studies (AMS)

**AMS 4385 Seminar in American Studies (3)**

Pre-requisite(s): Senior standing or consent of program director

Studies the theory and practice of American Studies, presents students with the opportunity to analyze written and visual texts, and requires a major paper. Through written work and oral presentations, the course gives students a broad perspective on the American culture.

## Anthropology (ANT)

**ANT 1305 Introduction to Anthropology (3)**

A survey of human past and present physical and cultural diversity. The student is introduced to cultural anthropology, physical anthropology, archaeology, and linguistics, which provide a basis for understanding cultural diversity both within the U.S.A. and abroad.

**ANT 1306 Cultural Anthropology in Global Context (3)**

An introduction to global cultures with emphasis on socio-economic arrangements, religious beliefs, and responses of indigenous groups to modernization.

**ANT 1307 The Evolution of Human Societies: An Interdisciplinary Perspective (3)**

Explores the big-picture questions of how and why human societies evolved the way that they did and what factors contributed to the distinct trajectories in which those societies developed, and equally, those issues that contributed to their decline.

**ANT 1310 Cultural Geography (3)**

Cross-listed as GEOG 1310

An introductory course in human or cultural geography. Topics include geographical concepts and factors; systematic and regional approaches; geographic tools and techniques, stressing spatial interactions; reciprocal relations between peoples and geographical environments; geographical graphics; major earth regions and their interrelations.

**ANT 1325 Introduction to Global Health (3)**

An introduction to global health and illness from a cross-cultural and cross-border perspective.

**ANT 1360 Religion, Magic and Witchcraft (3)**

Cross-cultural variability in beliefs and practices related to the supernatural, including theories about social, psychological, and ecological functions.

**ANT 1404 Introduction to Human Evolution (4)**

An introduction to the study of humans as biological organisms.

Emphasis on evolutionary theory and natural selection as driving forces in human evolutionary history.

**ANT 1407 Introduction to Archaeology (4)**

A survey of archaeology, including the nature of archaeology, what archaeologists do, and major milestones in human cultural evolution.

**ANT 1V9R Research (3)**

Pre-requisite(s): Consent of instructor

Undergraduate research undertaken under the supervision of a faculty member. May be taken for a maximum of 6 hours.

**ANT 2302 The Emergence of World Civilizations (3)**

Cross-listed as ARC 2302

See ARC 2302 for course information.

**ANT 2304 Introduction to Biological Anthropology (3)**

A survey of the sub-field of biological anthropology, including anthropological genetics, primatology, paleoanthropology, human ecology, and bioarchaeology.

**ANT 2V9R Research (3)**

Pre-requisite(s): Consent of instructor

. Undergraduate research undertaken under the supervision of a faculty member. May be taken for a maximum of 6 hours.

**ANT 3301 Science, Society, and Culture (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Anthropological perspectives on controversial issues in the history of scientific thought as conveyed through original texts, popular films, and cultural critique.

**ANT 3307 Historical Archaeology (3)**

Cross-listed as ARC 3307

See ARC 3307 for course information.

**ANT 3308 Methods of Archaeology (3)**

Pre-requisite(s): Upper level standing or consent of instructor

Methods in contemporary archaeology.

**ANT 3310 Introduction to Linguistics (3)**

Cross-listed as ANT 4300, ENG 3310, ENG 4300, LING 3310

See ENG 3310 for course information.

**ANT 3320 Environment and Human Behavior (3)**

Cross-listed as ENV 3320

Pre-requisite(s): Upper-level standing or consent of instructor

Interrelationships between cultural and ecological systems, with focus on food production, economic exchange, and religious beliefs.

**ANT 3331 Human Osteology (3)**

Cross-listed as FORS 3331

Pre-requisite(s): Upper-level standing or consent of instructor

The detailed examination of the elements of the human skeleton, with an emphasis on identifying and siding individual bones and their bony structures.

**ANT 3340 Indigenous Cultures of Modern Mexico and Central America (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

The cultural history of the indigenous peoples of central Mexico, including their adaptation to, and conflict with, forces of modernity.

**ANT 3350 Native North Americans (3)**

A study of the natives of North America including prehistory, cultural development, and contemporary relationships with other cultural ethnic groups.

**ANT 3351 Ancient Civilizations of Mesoamerica (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

The emergence and evolution of Meso-American civilizations in Mexico and Central America. Focus on Olmecs and Teotihuacan, as well as the Toltecs, Mayas, and Aztecs.

**ANT 3375 Ethnographic Methods (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

The multiple ethnographic methods used in cultural anthropological field research.

**ANT 3394 Forensic DNA Analysis (3)**

Cross-listed as FORS 3394

See FORS 3394 for course information.

**ANT 3399 Archaeology of Texas (3)**

Pre-requisite(s): Upper-level standing

Texas prehistory, from the first inhabitants to the arrival of the Europeans. Chronology, theoretical approaches, and regional developments in North America affecting the cultures of the prehistoric peoples of Texas.

**ANT 3402 Social Statistics (4)**

Cross-listed as SOC 3402

See SOC 3402 for course information.

**ANT 3V9R Research (3)**

Pre-requisite(s): Consent of instructor

Undergraduate research undertaken under the supervision of a faculty member. May be taken for a maximum of 6 hours.

**ANT 4199 Senior Thesis I (1)**

Pre-requisite(s): Senior standing in anthropology major

Thesis project planning, including topic identification, literature review, bibliography compilation, and thesis proposal.

**ANT 4299 Senior Thesis II (2)**

Pre-requisite(s): Senior standing in anthropology major

Primary data collection, processing, and analysis, culminating in the thesis.

**ANT 4302 Archaeological Theory (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Use of archaeological data in reconstruction of past human cultural systems, with an emphasis on the role of archaeological theory in the process of interpretation.

**ANT 4305 Anthropological Theory (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Theoretical approaches to modern-day anthropology, with emphasis on political economy, Marxism, hermeneutics, ecology, and feminism.

**ANT 4306 Economic Anthropology (3)**

Cross-listed as ENV 4306

Pre-requisite(s): ANT 2305 or consent of instructor

Traditional food production systems worldwide are compared to patterns in modern capitalist societies.

**ANT 4310 Societies and Cultures of East Asia (3)**

Cross-listed as AST 4310

Cultural traits and social structures of China, Korea, and Japan in the context of their development from the traditional to the modern. Special attention on Japanese society in comparison with American society.

**ANT 4311 World Food Problems (3)**

Cross-listed as ENV 4310

See course information for ENV 4310.

**ANT 4312 Societies and Cultures of Africa (3)**

Current social issues and policies in the light of historical and cultural foundations of selected African countries.

**ANT 4314 Human Biological Variation (3)**

Pre-requisite(s): Upper level standing or consent of instructor

Mechanisms that contribute to biological diversity between and among human populations.

**ANT 4320 Culture, Personality and Identity (3)**

Cross-listed as SOC 4320

Pre-requisite(s): Upper-level standing or consent of instructor

A thorough investigation of the relationship between the individual and culture/society, with emphasis on the "culture and personality" school of contemporary humanistic social science.

**ANT 4321 Climate Anthropology (3)**

Cross-listed as ENV 4322

Pre-requisite(s): Upper-level standing or consent of instructor

An introduction to the causes and effects of climate change as it relates to people and power, ethics and morals, environmental costs and justice, and cultural and spiritual survival.

**ANT 4325 Medical Anthropology (3)**

Biological and sociocultural aspects of human health, disease, development, aging, and health care. Especially emphasized are the developmental, holistic, and cross-cultural perspectives on disease and the life cycle.

**ANT 4327 Human Catastrophe and Cultural Response (3)**

Cross-listed as ENV 4327

Impact of major catastrophes on human society with emphasis on coping strategies and the utility of disaster theory to help in the recovery process. Issues include disaster, toxic disaster, famine, epidemic, war and natural oppression.

**ANT 4330 Epidemiology (3)**

Pre-requisite(s): Some facility with quantitative methods, preferably with elementary knowledge of statistics

Epidemiological concepts and skills pertinent to the understanding of diseases. Assessment of cultural, ecological, environmental, occupational, and behavioral factors.

**ANT 4331 Global Health Ethics (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Focus on the ethics of global health to examine the motivations and worldviews driving how we define, research and address global health problems.

**ANT 4332 Global Health Disparities (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Principles of modern medical, biological, and psychological theory are applied to understand how economic and social inequities affect child development and health.

**ANT 4333 Formal Decision Analysis & Health Policy (3)**

Pre-requisite(s): ANT 4325, ANT 4330 or consent of instructor

Introduction to formal decision analysis, the administrative allocation of scarce resources in health care, and the application of decision-making strategies in public policy among indigenous peoples.

**ANT 4334 Child and Family Health in Global Perspective (3)**

Pre-requisite(s): Upper level standing or instructor consent

Principles of modern medical practice and evolutionary biology are used to understand family relationships and how/why they affect child development and health in global context.

**ANT 4335 The Human Fossil Record (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Seminar on the evolutionary history of humans. Emphasis on fossil evidence and primary texts.

**ANT 4336 Global Health Policy (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

History, theory, and practice of global health policies from the perspectives of public health, economics, and anthropology.

**ANT 4340 Environmental Archaeology (3)**

Cross-listed as ARC 4340, ENV 4340

Pre-requisite(s): Upper-level standing or consent of instructor

Distributional patterns of archaeological sites within specific environments. Archaeological/environmental field work in Texas, with respect to recent conservation laws protecting nonrenewable archaeological resources.

**ANT 4341 Archaeology of the Mediterranean (3)**

Pre-requisite(s): Upper-level standing

Environmental and cultural factors that led to the rise and fall of civilizations in the Mediterranean region.

**ANT 4344 African Archaeology (3)**

Pre-requisite(s): Upper-level standing

A survey of the African archaeological record, from emergence of stone tool technology 2.6 million years ago to the rise of complex civilizations and the African Diaspora.

**ANT 4348 Geoarchaeology (3)**

Cross-listed as GEO 4348

See GEO 4348 for course information.

**ANT 4350 Development and Indigenous People (3)**

Cross-listed as ENV 4350

See ENV 4350 for course information.

**ANT 4351 Futuristics (3)**

Cross-listed as ENV 4351

Pre-requisite(s): Upper-level standing or consent of instructor

Biological and cultural forces that will likely shape humankind's future. Emphasis on trends in demography, globalization, science, and technology.

**ANT 4353 Archaeology of North America (3)**

Cross-listed as ARC 4353

An archaeological survey of human societies in the United States and Canada from their earliest appearance in the New World to the arrival of Europeans. One-third of the course will focus on historical archaeology.

**ANT 4355 Forensic Anthropology (3)**

Cross-listed as FORS 4355

Pre-requisite(s): ANT 3331 or FORS 3331

Forensic anthropological techniques used in civil and criminal court cases, including analysis of skeletal material for sex, age, stature, and biological affinity.

**ANT 4358 Death, Injury and Physical Remains (3)**

Cross-listed as FORS 4359

See FORS 4359 for course information.

**ANT 4360 Anthropology of Religion (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Myth, ritual and religion in social and cultural anthropology. Emphasis on structural and functional analysis, including critiques of pertinent classical and contemporary works.

**ANT 4361 Ethnographic and Analytical Methods in Ethnomusicology (3)**

Cross-listed as MUS 4360

See MUS 4360 for course information.

**ANT 4362 Applied Anthropology (3)**

Cross-listed as ENV 4362

Pre-requisite(s): Upper level standing or consent of instructor

An introduction to applied anthropology where major research components are identified and specific fields such as medical, nutritional, environmental anthropology, and Third World development are discussed.

**ANT 4365 Primate Behavior (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

The complex social behavior of primates. Includes field trips. Graduate students produce a comprehensive research paper.

**ANT 4369 Seminar in Anthropology (3)**

Cross-listed as ENV 4369

Pre-requisite(s): Consent of instructor

Debate of current theoretical issues that reflect the continually changing nature of the discipline. Students will address all sides of a currently debated issue, drawing upon their studies in anthropology and related fields. Faculty participation.

**ANT 4371 Evolutionary Medicine (3)**

Pre-requisite(s): Upper level standing or instructor consent

Application of evolutionary theory to medicine using insights from evolutionary theory (biology) and human evolutionary ecology (biological and cultural anthropology) to inform our understandings of human health, development, and disease.

**ANT 4372 Sex, Hormones, and Behavior: Human Reproductive Ecology (3)**

Pre-requisite(s): Upper level standing or instructor consent  
Recent developments in human reproductive biology, human reproductive ecology, and fertility analysis. The major features of the human reproductive process are considered using a combination of demographic, physiological and evolutionary approaches.

**ANT 4373 One Health: Connecting Global Health and Conservation Medicine (3)**

Pre-requisite(s): Upper level standing or consent of instructor  
Analysis of the collaborative efforts among physicians, public health professionals, veterinarians, and social scientists to understand infectious disease exchange at the interface of human, wildlife, and livestock populations, and the varying ecological and cultural contexts in which these disease spillovers take place.

**ANT 4380 Bioarchaeology (3)**

Pre-requisite(s): ANT 3331 or FORS 3331  
Advanced osteological approaches to the study of human skeletal remains from archaeological sites, with an emphasis on the study of human diet and health in prehistory.

**ANT 43C9 Anthropology Capstone (3)**

Pre-requisite(s): ANT 1404, 2305, and 2307; and senior standing  
Integration of knowledge and experiences acquired from anthropology courses, research, and field school.

**ANT 4416 Human Evolutionary Anatomy (4)**

Cross-listed as BIO 4415  
Pre-requisite(s): Upper-level standing or consent of instructor  
Survey of regional and systemic human anatomy viewed from a comparative evolutionary perspective. Non-human primate and non-primate vertebrates will be used to illustrate the unique characteristics of human anatomical structures that have been honed by natural selection throughout our evolutionary history.

**ANT 4670 Field School in Archaeology (6)**

Pre-requisite(s): Consent of instructor  
Field training in archaeological excavation, survey, artifact processing, and analysis of material culture.

**ANT 4680 Field School in Cultural Anthropology (6)**

Cross-listed as ENV 4680  
Pre-requisite(s): Consent of instructor  
Residence for five to six weeks in a selected area to observe and analyze social, economic, and environmental systems.

**ANT 4690 Field School in Biological Anthropology (6)**

Pre-requisite(s): Consent of instructor  
Training in research techniques to gain an understanding of the methodology and its application in field research in various topics related to biological anthropology.

**ANT 4V15 Research Methods in Cultural Anthropology (3-6)**

Pre-requisite(s): Consent of instructor  
Lecture and field experience in the methods and techniques of social and cultural anthropology. May be repeated for a total of six semester hours with different topics.

**ANT 4V16 Archaeological Research (3-6)**

Cross-listed as ARC 4V16  
Pre-requisite(s): Consent of instructor  
Independent library and lab research focused on a current topic in archaeology. May be repeated for a total of six semester hours with different topics.

**ANT 4V17 Research Methods in Biological Anthropology (1-6)**

Pre-requisite(s): Upper-level standing or consent of instructor  
Lecture and lab experience in the methods and techniques of biological anthropological research. May be repeated for a total of six semester hours with different topics.

**ANT 4V20 Epidemiological Research Design (1-6)**

Pre-requisite(s): Upper level standing and instructor consent  
Application of epidemiological skills and methods to research questions. Emphasis on designing studies that will address real world clinical problems in cross-cultural context. May be repeated for a maximum of 6 hours.

**ANT 4V70 Special Topics in Anthropology (1-6)**

Pre-requisite(s): Consent of instructor  
A reading-research project in selected areas of ethnology, archaeology, or physical anthropology. May be repeated for credit up to a total of six semester hours, provided topic is different.

**ANT 4V9R Research (3)**

Pre-requisite(s): Consent of instructor  
Undergraduate research undertaken under the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Arabic (ARB)

**ARB 1101 Arabic Language Workshop (1)**

For Music students, supplemental language training to accompany regular 1301 language sections.

**ARB 1102 Arabic Language Workshop (1)**

For music students, supplemental language training to accompany regular 1302 language sections.

**ARB 1301 Introduction to Arabic (3)**

Introduction to Arabic language and culture(s); practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading). Progress toward novice proficiency level

**ARB 1302 Intro to Arabic (3)**

Pre-requisite(s): ARB 1301 or consent of instructor  
Introduction to Arabic language and culture(s); practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading). Progress from novice toward intermediate proficiency

**ARB 2310 Intermediate Spoken/Modern Standard Arabic (3)**

Pre-requisite(s): ARB 1302 or consent of instructor  
Practice in three communicative modes at intermediate-level proficiency: interpersonal, presentational (speaking, writing), and interpretive (listening, reading)

**ARB 2320 Arabic Popular Culture (3)**

Pre-requisite(s): ARB 2310 or four units of high school Arabic  
Exploration and familiarization with the most popular elements of Arabic culture relevant to daily life: (1) Friends and Family Relationship, (2) Celebrations of the Religious Occasions, (3) Business and Shopping, (4) Politics in the Middle East.

**ARB 3301 Advanced Arabic Grammar (3)**

Pre-requisite(s): ARB 2320 or consent of instructor or Division Director  
Review of grammar and study of advanced structures in complex communication.

**ARB 3302 Arabic Conversation and Composition (3)**

Pre-requisite(s): ARB 2320  
Advanced practice in oral and written communication.

**ARB 3304 Advanced Topics in Arabic Language and Literature (3)**

Pre-requisite(s): ARB 3302

Development of advanced skills in areas of writing, reading aloud, and listening in Modern Standard Arabic, on topics of general and professional interests, including aspects of Arabic culture and literature.

**ARB 3305 Arabic for Special Purposes (3)**

Pre-requisite(s): ARB 2320 or consent of instructor or Division Director  
Business, technical, and/or scientific discourses in the context of the Arabic language and Middle Eastern cultures.

**ARB 3V70 Special Topics (1-3)**

Prerequisite/s: Consent of instructor and Division Director of Asian and African Languages, in the department of Modern Foreign Languages.  
Independent study in Arabic Language, literature, or culture with a professor. With content changed, this course may be repeated once for a maximum of six hours of credit.

**ARB 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**ARB 4331 Classical Arabic Texts (3)**

Pre-requisite(s): ARB 3301, 3302, 3304, or 3305, or consent of instructor or Division Director  
Ideals and traditions of poetry and prose from the sixth to the nineteenth century, using sacred scriptures, early oratory, and masterpieces from the Near East, Egypt, and North Africa.

**ARB 4345 Media and Popular Culture in the Arabic-Speaking World (3)**

Pre-requisite(s): ARB 3301, 3302, 3304, or 3305; or consent of instructor or Division Director  
Current newspaper and magazine articles, radio broadcasts, and a variety of multimedia used to increase language skills and understanding of contemporary Arabic-speaking popular culture.

**ARB 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Aramaic (ARA)

**ARA 4303 Aramaic (3)**

Cross-listed as REL 4303

Pre-requisite(s): HEB 2310 or its equivalent

Grammar of Biblical Aramaic and of selected Aramaic portions of the Old Testament with a brief introduction to post-Biblical Aramaic materials.

## Archaeology (ARC)

**ARC 2302 The Emergence of World Civilizations (3)**

Cross-listed as ANT 2302

Cultural processes involved in both the Neolithic and Urban Revolutions that led to the emergence of state-level societies and the world's greatest civilizations.

**ARC 2308 Historical Geography of the Biblical World (3)**

An in-depth study of the world of biblical times with emphasis on relationships between places and events. The course will involve readings, lectures, and both travel to and archaeological study of important sites in biblical history.

**ARC 3303 Archaeology and the Bible (3)**

Cross-listed as REL 3303

See REL 3303 for course information.

**ARC 3307 Historical Archaeology (3)**

Cross-listed as ANT 3307

Pre-requisite(s): Upper-level standing or consent of instructor  
Integration of archaeological investigation with primary historical sources as applied to subjects ranging from colonial to modern times.

**ARC 4101 Seminar/Research (1)**

A combination of group seminars and individual or group research projects.

**ARC 4302 Archaeology and the Ancient Near East (3)**

Cross-listed as REL 4302

See REL 4302 for course information.

**ARC 4340 Environmental Archaeology (3)**

Cross-listed as ANT 4340, ENV 4340

See ANT 4340 for course information.

**ARC 4348 Geoarchaeology (3)**

Cross-listed as ANT 4348

See GEO 4348 for course information.

**ARC 4353 Archaeology of North America (3)**

Cross-listed as ANT 4353

See ANT 4353 for course information.

**ARC 4V16 Archaeological Research (3-6)**

Cross-listed as ANT 4V16

See ANT 4V16 for course information.

**ARC 4V50 Special Topics in Archaeology (1-4)**

Pre-requisite(s): Consent of instructor

Current topics in archaeological research. May be repeated once for credit up to a total of six semester hours provided topic is different.

## Art (ART)

**ART 1310 Drawing I (3)**

Realization of form and space through direct observation using a variety of drawing media. Perspective, sighting and measuring, methods of depicting light and shadow, composition, and basic drawing vocabulary.

**ART 1311 Drawing II (3)**

Pre-requisite(s): ART 1310

Expands on skills learned in ART 1310. Further investigation into line, mark, and value development and integration of color.

**ART 1314 2D Design (3)**

Designing in two dimensions, achieving unity using the elements and principles of design. Problem-solving assignments emphasizing visual relationships, incorporating a variety of media.

**ART 1316 3D Design (3)**

Pre-requisite(s): ART 1314

Art majors only. Designing in three dimensions, achieving unity using the elements and principles of design. Problem-solving assignments emphasizing visual relationships, incorporating a variety of media.

**ART 2310 Figure Drawing I (3)**

Pre-requisite(s): ART 1311 and Art majors only

Structural and relational studies of the human figure from observation. Emphasis on anatomy, tensions, proportions, gesture and compositional placement.

**ART 2311 Figure Drawing II (3)**

Pre-requisite(s): ART 2310

Advanced studies of the human figure with more dependence upon anatomy and complicated figure arrangement.

**ART 2320 Introduction to Oil Painting (for non-art majors only) (3)**

An introductory course in oil painting with an emphasis on application, color harmony and composition in a wide variety of subjects and approaches.

**ART 2321 Introduction to Acrylic Painting (for non-art majors only) (3)**

An introductory course in acrylic painting with an emphasis on application, color, harmony and composition in a wide variety of subjects and approaches.

**ART 2324 Introduction to Intaglio (for non-art majors only) (3)****ART 2325 Introduction to Lithography (for non-art majors only) (3)**

Fine art stone and/or plate lithography. Development of technical skills related to drawing, processing and printing.

**ART 2330 Introduction to Graphic Design (for non-art majors only) (3)**

Introduction to typography and concept development using design principles, the creative process, and problem-solving methodologies.

**ART 2332 Introduction to Digital Imaging for Graphic Design (for non-art majors) (3)**

Pre-requisite(s): ART 2330 or consent of instructor

Focuses on techniques and principles to enhance and manipulate images. Development of principles of visual organization, aesthetics and composition, using both raster and vector solutions

**ART 2333 Introduction to Brochure Design (for non-art majors) (3)**

Pre-requisite(s): ART 2330 and 2332 or consent of instructor

An exploration of the combination of type and image emphasizing hierarchy, layouts, grid, styles sheets, and other organizational structures of design in the context of brochures and multi-page documents.

Production and printing methods explored

**ART 2334 Introduction to Darkroom Photography (for non-art majors) (3)**

Black and white fine art photography, emphasizing 35mm cameras and wet lab darkroom processes. Cameras provided.

**ART 2336 Introduction to Digital Photography (for non-majors) (3)**

Color image development, in-house printing, file management, and digital workflow using Adobe Lightroom. Emphasis on aesthetic and conceptual development, study of historic and contemporary photographic genres. Students must have access to a digital SLR camera.

**ART 2340 Hand-Built Ceramics (for non-art majors only) (3)**

Hand-built ceramic forms for non-majors. Includes instruction in pinched, coiled, and slab construction; surfacing/glazing and firing techniques.

**ART 2341 Wheel-Thrown Ceramics (for non-art majors only) (3)**

Introduction to wheel-thrown ceramic form for non-majors. Includes instruction in foundational wheel-thrown forms, surfacing/glazing and firing techniques

**ART 2344 Wood Sculpture (for non-art majors) (3)**

Basic materials, methods and conceptual approaches to wood sculpture. Emphasis on elements and principles of design, in the context of traditional and contemporary approaches to making sculpture.

**ART 2345 Metal Sculpture (for non-art majors) (3)**

Pre-requisite(s): ART 2344

Basic materials, methods and conceptual approaches to welded steel sculpture. Emphasis on elements and principles of design, in the context of traditional and contemporary approaches to making sculptures.

**ART 2350 Jewelry and Metalsmithing (for non-art majors) (3)**

Basic materials, methods and conceptual approaches to metalsmithing and jewelry. Emphasis on elements and principles of design, in the context of traditional and contemporary approaches to making jewelry

**ART 3310 Advanced Drawing (Media) (3)**

Pre-requisite(s): ART 2311

A study of various techniques and different media used in drawing. Students will work on problems that will assist them in further drawing skills.

**ART 3312 Figure Drawing III (3)**

Pre-requisite(s): ART 2311

A continuation of the study and discipline of drawing the human figure using a variety of media including pencil, charcoal, and ink.

**ART 3314 Fabric Surface Design (3)**

Pre-requisite(s): ART 1316 and Art majors only

Introduction to applied fabric surface design treatments. Hand printed, dyeing, and embellishing techniques include tie-dye/shibori, discharge, appliqué, patchwork, embroidery and art quilt methods.

**ART 3315 Non-Woven/Off-Loom Fabric Structures (3)**

Pre-requisite(s): ART 1311 and 1316; Art majors only, or consent of instructor

Introduction to historical and contemporary techniques of basketry, off-loom structures, felt-making, looping, alternative book arts, and fabric construction. Emphasis on material exploration, ideation and design concepts.

**ART 3316 Weaving (3)**

Pre-requisite(s): ART 1316

For Art majors only. Introduction to loom weaving through the study of weave structures, fiber types and color relationships. Development of technical skill and design competency.

**ART 3320 Oil Painting (3)**

Pre-requisite(s): ART 1311 and 1316

For Art majors only. Emphasis on application, color harmony and composition in relation to conceptual development

**ART 3321 Acrylic Painting (3)**

Pre-requisite(s): ART 1311 and 1316; Art majors only

Emphasis on application, color harmony and composition in a wide variety of subjects and approaches.

**ART 3324 Intaglio (3)**

Pre-requisite(s): ART 1311, 1316

For Art majors only. Explores etching and other fine art intaglio processes. Conceptual and technical skills related to creating, processing and hand-printing the limited-edition fine art intaglio print.

**ART 3325 Lithography (3)**

Pre-requisite(s): ART 1311, 1316

For Art majors. Stone and/or plate lithography. Development of conceptual and technical skills related to creating, processing and hand-printing the limited-edition fine art lithograph print.

**ART 3326 Relief Printmaking (3)**

Pre-requisite(s): ART 1311, 1316

For Art majors. Development of conceptual and technical skills related to creating, processing and hand-printing the limited-edition fine art relief print.

**ART 3327 Screenprinting (3)**

Pre-requisite(s): ART 1311, 1316

For Art majors only. Development of conceptual and technical skills related to creating, processing and hand-printing the limited-edition fine art screenprint.

**ART 3330 Typography and Conceptual Development (3)**

Co-requisite(s): ART 3332

Pre-requisite(s): ART 1311 and 1316

ART 3330 must be taken concurrently with ART 3332. For Art majors.. Introduction to typography and conceptual development using design principles, the creative process, problem-solving methodologies.

**ART 3332 Digital Imaging for Graphic Design (3)**

Pre-requisite(s): ART 1311, 1316

Must be taken concurrently with ART 3330. For Art Majors only. Focuses on techniques and principles to enhance and manipulate images. Development of principles of visual organization, aesthetics and composition, using both raster and vector solutions.

**ART 3333 Publication Design (3)**

Pre-requisite(s): ART 3332 and Art majors only

Combining type and image emphasizing hierarchy, layouts, grid, styles sheets, and organizational structures of design in the context of brochures and multi-page documents. Production and printing methods explored.

**ART 3334 Photography I: Introduction to the Camera and Darkroom (3)**

Pre-requisite(s): ART 1311, 1316

For art majors only. Black and white fine art photography emphasizing 35mm cameras and the wet lab. Aesthetic and conceptual development through the introduction of historic and contemporary photographic genres, critiques, and readings. Cameras provided.

**ART 3336 Photography II: Introduction to Digital Photography and the Digital Lab (3)**

Pre-requisite(s): ART 3334 and Art majors only

Color image development, in-house printing, file management, and digital workflow using Adobe Lightroom. Emphasis on both aesthetic and conceptual development. Introduction of historic and contemporary photographic genres. Students must furnish a digital SLR camera.

**ART 3339 Medium and Large Format Photography (3)**

Pre-requisite(s): ART 3334

For Art majors only. Traditional and contemporary processes, including Holga and pinhole cameras, medium and large format photography, digital negatives, printing on fiber-based paper; and historical perspectives and theories in alternative processes

**ART 3340 Hand-Built Ceramics (3)**

Pre-requisite(s): ART 1311, 1316; Art majors only, or with consent of instructor

The design, construction, surfacing, firing, and historical traditions of hand-built ceramic form

**ART 3341 Wheel-Thrown Ceramics (3)**

Pre-requisite(s): ART 1311, 1316, Art Majors only, or consent of instructor

The design, construction, surfacing, firing, and historical traditions of wheel-thrown ceramic form.

**ART 3344 Wood Sculpture (3)**

Pre-requisite(s): ART 1311, 1316, For Art majors only

Materials, methods and conceptual approaches to wood sculpture. Emphasis on elements and principles of design, in the context of traditional and contemporary approaches to making sculpture.

**ART 3345 Metal Sculpture (3)**

Pre-requisite(s): ART 1311 and 1316

For Art majors only. Materials, methods and conceptual approaches to welded steel sculpture. Emphasis on elements and principles of design, in the context of traditional and contemporary approaches to making sculpture.

**ART 3350 Jewelry and Metalsmithing (3)**

Pre-requisite(s): ART 1311, 1316

For Art majors or consent of instructor. Materials, methods and conceptual approaches to metalsmithing and jewelry. Emphasis on elements and principles of design, in the context of traditional and contemporary approaches to making jewelry.

**ART 3V9R Research (3)**

Pre-requisite(s): Consent of instructor

Undergraduate research undertaken under the supervision of a faculty member. May be taken for a maximum of 6 hours.

**ART 4312 Figure Drawing IV (3)**

Pre-requisite(s): ART 3312

For Art majors only. Drawing the human figure as a point of departure in the development of personal content, skills and style.

**ART 4313 Advanced Fabric Design I (3)**

Pre-requisite(s): ART 3314 or 3316; upper-level standing; and consent of instructor

For Art majors only. Study of specific fabric design techniques and/or media selected by student in consultation with instructor.

**ART 4314 Advanced Surface Design (3)**

Pre-requisite(s): ART 3314, upper-level standing

For Art majors only or consent of instructor. Formal and improvisational screen-printing processes. Emphasis on design, technical competency, and conceptual development.

**ART 4316 Advanced Fabric Design II (3)**

Pre-requisite(s): ART 3314, 3316 or 4313; For Art majors only or consent of instructor

Advanced problems in fabric design with emphasis on conceptual development. Examination of aesthetic issues in contemporary fibers and the development of a personal vision. Completion of the BFA Senior Exhibition.

**ART 4320 Watercolor Painting (3)**

Pre-requisite(s): ART 1316 and 2310

For Art majors only. Techniques of the water-based media. Instruction gives much attention to creative style and individual criticism.

**ART 4321 Advanced Painting I (3)**

Pre-requisite(s): ART 1316, 2310, and either 3320 or 3321

For Art majors only. Study of a specific painting medium selected by the student in consultation with the instructor

**ART 4322 Advanced Painting II (3)**

Pre-requisite(s): ART 4321

For Art majors only. Advanced problems in media selected by the student in consultation with the professor

**ART 4323 Advanced Painting III (3)**

Pre-requisite(s): ART 4322

For Art majors only. Continuation of a self-directed program in consultation with instructor. Examination of aesthetic issues in contemporary painting and the development of a personal vision. Completion of the BFA Senior Exhibition

**ART 4324 Advanced Printmaking I (3)**

Pre-requisite(s): ART 3324, 3325, 3326, or 3327

For Art majors only. Emphasis on technical proficiency, creative expression and the creation of a body of work.

**ART 4325 Advanced Printmaking II (3)**

Pre-requisite(s): ART 4324

For Art majors only. A continuation of ART 4324 with emphasis on technical proficiency creative expression and the creation of a personal vision. Completion of the BFA Senior exhibition.

**ART 4329 Web Design (3)**

Pre-requisite(s): ART 4332

For Art majors only. Introduction to internet web page design with emphasis on process, concept, aesthetics, user experience, mark-up languages, and internet access software.

**ART 4330 Illustration (3)**

Pre-requisite(s): ART 2310, 3320, 3330 or 4320

For Art majors only. Illustrative art for graphic design. Emphasis on media, technique, style, and concept in advertising and editorial illustration.

**ART 4331 Package Design (3)**

Pre-requisite(s): ART 4332

For Art majors only. Exploration of advanced principles of design when applied to three-dimensional packaging forms. Emphasis on perspectives of aesthetics, form, manufacturing processes, sustainability, utility, marketing, and regulations.

**ART 4332 Identity Design (3)**

Pre-requisite(s): ART 3333

For Art majors. Exploration of theories and terminology of symbols and icons with an emphasis on branding and identity development.

**ART 4333 Portfolio Preparation (3)**

Pre-requisite(s): ART 4331

For Art majors only. Development of the final graphic design portfolio. Additional emphasis on self-assessment, professional skills such as job search strategies, interviewing, and presentation skills. (Should be taken the last semester prior to graduation.)

**ART 4335 Advanced Photography: Digital (3)**

Pre-requisite(s): ART 3336

Color image development using Adobe Photoshop. Conceptual exploration of photography as a fine art medium through guided projects, and historical and contemporary readings. Students must furnish a digital SLR camera. Fee \$50.

**ART 4336 Advanced Photography: Special Topics (3)**

Pre-requisite(s): ART 4335

For Art majors only. Emphasis on development of personal voice using Adobe Software, advanced photographic techniques and concepts. Creation of self-directed projects building on knowledge and understanding of photography as a fine art medium. Research current trends and technologies used in contemporary lens-based media.

**ART 4337 Advanced Photography: Portfolio and Exhibition (3)**

Pre-requisite(s): ART 4336

Capstone seminar for photography majors. Emphasis on professional standards, technical mastery and individual artistic expression informed by historical perspectives and theories. Development of conceptually coherent body of work for BFA Exhibition.

**ART 4338 Studio Topics in Graphic Design (3)**

Pre-requisite(s): ART 3333

For Art majors only. A category of topical courses designed to meet special needs, address issues in the professional field, and focus on research and experimentation in specialized media.

**ART 4340 Advanced Ceramics I (3)**

Pre-requisite(s): ART 3340, ART 3341; Art Majors only

Advanced study of ceramics building upon foundational content, skills, and perspectives developed in ART 3340 and ART 3341. Includes study of ceramic materials and glazes.

**ART 4341 Advanced Ceramics II (3)**

Pre-requisite(s): ART 4340

For Art majors only. Advanced study of ceramics building upon content, skills, and perspectives developed in ART 4340. Includes development of personalized body of artwork and study of high temperature firing dynamics.

**ART 4342 Advanced Ceramics III (3)**

Pre-requisite(s): ART 4341

For Art majors only. Continuation of a self-directed program in consultation with instructor. Examination of aesthetic issues in contemporary ceramics and the development of a personal vision.

**ART 4343 Advanced Ceramics IV (3)**

Pre-requisite(s): ART 4342

For Art majors only. Continuation of a self-directed program in consultation with instructor. Examination of aesthetic issues in contemporary ceramics and the development of a personal vision. Completion of the BFA Senior Exhibition.

**ART 4344 Advanced Sculpture I (3)**

Pre-requisite(s): ART 3344 and 3345

For Art majors only. Sculpture emphasizing the combination of materials, the use of alternative materials, casting approaches, and the development of a personalized body of artwork

**ART 4345 Advanced Sculpture II (3)**

Pre-requisite(s): ART 4344

For Art majors only. Continued emphasis on the combination of materials, the use of alternative materials, casting approaches, and the development of a personalized body of artwork.

**ART 4346 Advanced Sculpture III (3)**

Pre-requisite(s): ART 4345

For Art majors only. Self-directed program in consultation with instructor. Examination of aesthetic issues in contemporary sculpture and the development of a personal vision.

**ART 4347 Advanced Sculpture IV (3)**

Pre-requisite(s): ART 4346

For Art majors only. Continuation of a self-directed program in consultation with instructor. Examination of aesthetic issues in contemporary sculpture and the development of a personal vision. Completion of the BFA Senior Exhibition.

**ART 4355 Special Topics in Modern and Contemporary Art History - AAI (3)**

Pre-requisite(s): ART 2303; and upper-level standing or consent of the instructor

A research seminar on selected topics from modern and contemporary art. Subject varies year to year. May be repeated once with a change in content.

**ART 4356 Modern American Art History - AAI (3)**

Pre-requisite(s): ART 2303, upper-level standing or consent of instructor  
Modern art in the Americas from 1880 to 1945. Includes major artistic movements and their political, social, and historical contexts.

**ART 4358 Contemporary Art History - AAI (3)**

Pre-requisite(s): ART 2303 and upper-level standing or consent of instructor

A research seminar focused on the major trends in painting, sculpture, printmaking, performance, video, installation, and conceptual art from the 1960s to the present.

**ART 4381 Art since 1945—AAI (3)**

Pre-requisite(s): ARTH 2303; and upper level standing or consent of instructor

Modern art in a global context from 1945 to 1970, focusing on the development of Abstract Expressionism and its legacies.

**ART 4395 Internship in Studio Art (3)**

Pre-requisite(s): Minimum of six hours of upper-level course completion in the concentration and consent of the instructor

For Art majors only. A field experience under the supervision of a recognized professional artist, which will permit the student to receive concentrated and sufficiently lengthy training to become proficient in that art activity.

**ART 4V90 Special Problems in Studio Art (1-9)**

Pre-requisite(s): Written consent of the appropriate instructor

For Art majors only. Qualified students with established success in specified areas of art, especially their major concentration, may work on approved projects. May be repeated once with a change of content.

**ART 4V9R Research (3)**

Pre-requisite(s): Consent of instructor

Undergraduate research undertaken under the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Art History (ARTH)

**ARTH 1300 Introduction to Art (for non-art majors only) (3)**

The visual elements of art, its history, issues, functions, interpretations, materials and techniques. The creative process and the role of art and the artist in society, its reception and critical interpretation.

**ARTH 1V91 Studies in Art History (for non-art majors only) (1-4)**

Pre-requisite(s): Consent of department chair

Studies in art history for the non-major participating in a Baylor approved international program. May be repeated once with a change in content.

**ARTH 2302 Survey of Western Art I (3)**

Architecture, painting, sculpture and other media in relation to styles and cultural patterns from prehistoric times to 1400 CE. Includes the creative process and the role of art and the artist in society, their reception and critical interpretation.

**ARTH 2303 Survey of Western Art II (3)**

Architecture, painting, sculpture and other media in relation to styles and cultural patterns from 1400 CE to the present. Includes the creative process and the role of art and the artist in society, their reception and critical interpretation.

**ARTH 3352 Greek Art and Archaeology (3)**

Cross-listed as CLA 3352

Pre-requisite(s): ART 2302 and upper-level standing or consent of instructor

Greek art and archaeology from the Aegean Bronze Age through the first century BCE with emphasis on stylistic trends, the social functions of Greek art and material objects, and the relationship between art and various aspects of Greek life and thought.

**ARTH 3353 Roman Art and Archaeology (3)**

Cross-listed as CLA 3353

Pre-requisite(s): ART 2302; and upper-level standing or consent of instructor

Roman art and archaeology, beginning with the Etruscans and Archaic Rome, to the end of the fourth century CE. The social and political functions of objects and architecture are highlighted within historical and cultural contexts.

**ARTH 3354 Medieval Art and Architecture (3)**

Pre-requisite(s): ARTH 2302 or consent of instructor

Art created between the fourth and the fourteenth centuries with an emphasis on architecture.

**ARTH 3356 Nineteenth-Century Art History (3)**

Pre-requisite(s): ARTH 2303 or consent of instructor

Art of nineteenth-century Europe focusing on technique and style with political and social contexts.

**ARTH 3357 Baroque Art History (3)**

Pre-requisite(s): ARTH 2303

Seventeenth-century painting, sculpture and architecture with Italy as the vanguard country. Significant attention given to Spain and includes paintings from France, Flanders, and Holland.

**ARTH 3359 Northern Renaissance Art (3)**

Pre-requisite(s): ARTH 2302 and 2303 Art of northern Europe in the fifteenth and sixteenth centuries

Special attention will be given to the painters Van Eyck, Dürer, and Bruegel.

**ARTH 3369 Eighteenth-Century European Art (3)**

Pre-requisite(s): ART 2303 or consent of instructor

Art of eighteenth-century Europe focusing on technique and style with political and social contexts.

**ARTH 3370 Key Monuments in European Art (3)**

Pre-requisite(s): ARTH 2302 and 2303

Selected examples of art studies in situ in art centers of Europe, supplemented by readings, lectures, and collected illustrations and catalogs.

**ARTH 3375 Art History Methods and Theory (3)**

Pre-requisite(s): ARTH 2302 and 2303

Primary methods and theories used in the study of the history of art.

**ARTH 3390 Philosophy and the Arts (3)**

Cross-listed as PHI 3322

See PHI 3322 for course information.

**ARTH 3391 Women in Modern and Contemporary Art History (3)**

Pre-requisite(s): ART 2303 or consent of instructor

Major female artists of the twentieth and twenty-first centuries.

**ARTH 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**ARTH 4100 Field Studies in Art History (1)**

Pre-requisite(s): ARTH 2302 and 2303; and consent of department chair  
For Art majors only. Specialized field study with a specific destination for established art and art history students. Includes a research component. Requires concurrent enrollment in a listed co-requisite course. May be repeated four times with a change of content. Course does not apply to major or minor credit hours.

**ARTH 4354 Special Topics in 18th- and 19th-Century Art (3)**

Pre-requisite(s): ART 2303; and upper-level standing or consent of instructor

A research seminar on a selected topic of 18th- or 19th-century art. Subject varies year to year. May be repeated once with a change in content.

**ARTH 4355 Special Topics in Modern and Contemporary Art History (3)**

Pre-requisite(s): ARTH 2302 and 2303; and upper-level standing

A research seminar on a selected major artist or topic of early modern European art. Subject varies year to year. May be repeated once with a change in content.

**ARTH 4356 Modern American Art (3)**

Pre-requisite(s): ARTH 2302 and 2303; upper-level standing  
Artistic expression in the United States from 1900 to 1945.

**ARTH 4357 American Art (3)**

Pre-requisite(s): ARTH 2302 and 2303; and upper-level standing  
Artistic expression in the United States from the Colonial Period to 1900.

**ARTH 4358 Contemporary Art History (3)**

Pre-requisite(s): ARTH 2303, upper-level standing or consent of instructor

A research seminar focused on the major trends in painting, sculpture, printmaking, performance, video, installation, and conceptual art from the 1960s to the present.

**ARTH 4359 Special Topics in Art History (3)**

Pre-requisite(s): ARTH 2302 and 2303; and upper-level standing  
Topics not covered in other courses. Topic announced for semester or session; may emphasize a particular artist, movement, genre, theme, or problem. May be repeated once.

**ARTH 4360 History of Impressionism and Post-Impressionism (3)**

Pre-requisite(s): ART 2303 or consent of instructor

Art of the Impressionism and Post-Impressionism movements, 1850-1900, focusing on technique and style with social and political contexts.

**ARTH 4361 Greek Painted Pottery (3)**

Cross-listed as CLA 4361

Pre-requisite(s): ARTH 2302 and upper-level standing or consent of instructor

Techniques, stylistic changes, and social use and function of Greek painted pottery and its imagery from the Late Aegean Bronze Age through the Late Classical and Early Hellenistic periods. Focus is on vessels in the Archaic and Classical periods.

**ARTH 4362 Modern European Art (3)**

Pre-requisite(s): ARTH 2303; and upper-level standing  
Modern art in Europe from Post-Impressionism to 1945.

**ARTH 4363 Neoclassicism and Romanticism (3)**

Pre-requisite(s): ART 2303; and upper-level standing or consent of instructor

Art of the Neoclassicism and Romanticism movements, 1750-1850, focusing on technique and style with social and political contexts.

**ARTH 4364 Roman Sculpture (3)**

Cross-listed as CLA 4364

Pre-requisite(s): ARTH 2302 and upper-level standing  
Roman sculpture from the Republic to Constantine (c. 313 CE) focusing on style and technique with political and social contexts.

**ARTH 4365 Italian Renaissance Art History (3)**

Pre-requisite(s): ARTH 2303; and upper-level standing or permission of instructor

A selective study of the art of Italy during the Renaissance period (c. 1300-1550) as seen within its historical context. Emphasis on the art of Florence and Rome.

**ARTH 4366 Mannerism (3)**

Pre-requisite(s): ARTH 2303 and upper-level standing or consent of instructor

A specialized study of Mannerism (c.1520-85) painting as a transition between the Renaissance and Baroque periods in Italy. Emphasis on the cities of Florence and Rome.

**ARTH 4367 Special Topics in Italian Renaissance and Baroque Art History (3)**

Pre-requisite(s): ARTH 2303; and upper-level standing or consent of instructor

A specialized study of a major artist(s) or topic of Italian Renaissance or Baroque art. Subject varies year to year. May be repeated once with a change of content.

**ARTH 4368 Special Topics in Greek and Roman Art and Archaeology (3)**

Cross-listed as CLA 4368

Pre-requisite(s): ARTH 2302; and upper-level standing or consent of instructor

A research seminar on Greek or Roman Art and Architecture. May be repeated once with a change of content.

**ARTH 4369 Greek and Roman Sport and Spectacle (3)**

Cross-listed as CLA 4369

Pre-requisite(s): ART 2302; and upper-level standing or consent of instructor

History, origins, and political and social functions of sport and spectacle in Greece and Rome viewed through art, architecture, and material culture.

**ARTH 4370 The Art of Michelangelo and His Contemporaries (3)**

Pre-requisite(s): ARTH 2303; and upper-level standing or instructor permission

The sources, development, style and meaning of Michelangelo's art and the art of his sixteenth-century contemporaries within the historical context.

**ARTH 4396 Internship in Art History (3)**

Pre-requisite(s): ARTH 2302, 2303; upper-level standing; and consent of department chair

A field experience under the supervision of qualified museum or gallery personnel, which will make it possible for the student to receive on-the-job training in an area of art history.

**ARTH 4399 Senior Thesis in Art History (3)**

Pre-requisite(s): Consent of instructor and department chair  
Thesis preparing qualified seniors for graduate work in art history.

**ARTH 43C1 Aesthetic Perception and Experience (3)**

Cross-listed as ENG 43C1, MUS 43C1

See ENG 43C1 for course information.

**ARTH 4V91 Special Problems in Art History (1-9)**

Pre-requisite(s): ARTH 2302 and 2303; and upper-level standing; and consent of instructor and department chair

For Art majors only. Qualified students with established success in art history may research and report on special areas or topics in art history. May be repeated once with a change in content.

**ARTH 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Asian Studies (AST)

**AST 2380 The Peoples and Culture of Asia (3)**

An introduction to contemporary Asian economy, politics, and society.

**AST 3305 Traditional China (3)**

Cross-listed as HIS 3305  
See HIS 3305 for course information.

**AST 3307 Japan (3)**

Cross-listed as HIS 3307  
See HIS 3307 for course information.

**AST 3314 Politics and Problems of Developing Countries (3)**

Cross-listed as PSC 3314  
See PSC 3314 for course information.

**AST 3315 Geography of East Asia (3)**

Pre-requisite(s): Upper-level standing  
Geographical analysis of physical, cultural, economic, and political factors in East Asia, including land and resource usage, population changes, and economic development.

**AST 3345 World Religions (3)**

Cross-listed as REL 3345  
See REL 3345 for course information.

**AST 3390 Special Studies and Projects (3)**

Special studies and research projects in Asian studies; prior approval is required. With content changed, this course may be repeated once for a maximum of six semester hours credit.

**AST 3V80 Special Topics in Asian Studies (1-6)**

A study of special topics relating to Asia. With content changed, this course may be repeated once for a maximum of six semester hours credit.

**AST 4305 Modern China (3)**

Cross-listed as HIS 4305  
See HIS 4305 for course information.

**AST 4310 Societies and Cultures of East Asia (3)**

Cross-listed as ANT 4310  
See ANT 4310 for course information.

**AST 4325 Asian International Relations (3)**

Cross-listed as PSC 4325  
See PSC 4325 for course information.

**AST 4335 Asian Economic Development (3)**

Cross-listed as ECO 4335, INB 4335  
See ECO 4335 for course information.

**AST 4338 Economic Systems of the World (3)**

Cross-listed as ECO 4338, INB 4338  
See ECO 4338 for course information.

**AST 4340 East Asian Philosophy (3)**

Cross-listed as PHI 4340  
See PHI 4340 for course information.

**AST 4346 Topics in Asian Religions (3)**

Cross-listed as REL 4346  
See REL 4346 for course information.

**AST 4350 Seminar in Asian Studies (3)**

An interdisciplinary seminar focusing on appropriate topics in the field of Asian studies. With content changed, this course may be repeated once for a maximum of six semester hours.

**AST 4362 Traditional Music and Culture in Asia (3)**

Cross-listed as MUS 4362  
See MUS 4362 for course information.

**AST 4364 The Governments and Politics of the Asia-Pacific Region (3)**

Cross-listed as PSC 4364  
See PSC 4364 for course information.

**AST 4366 Oriental Views of Art (3)****AST 4374 Governments and Politics of East Asia (3)**

Cross-listed as PSC 4374  
See PSC 4374 for course information.

**AST 4376 Asian Literature in Translation (3)**

Cross-listed as MFL 4376  
Introduces major writers of Asia and their representative works. Course content varies. Readings may emphasize one national literature or survey the significant works in several literatures, stressing the genres and techniques specific to Asian cultures.

**AST 4388 Contemporary Chinese Society and Culture (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
Contemporary China's social, cultural, political and economic changes, transformations, challenges since 1978, through an interdisciplinary approach.

**AST 4390 Reading Course in Political Science (3)**

Pre-requisite(s): Senior standing and the consent of the chairperson of the department  
A tutorial course designed for advanced study in political science.

**AST 4V80 Contemporary Issues in Asian Studies (1-3)**

Flexible credit options for the study of contemporary issues in Asian studies for upper-level and graduate students. With content changed, this course may be repeated once for a maximum of six semester hours; a maximum of three hours may be earned for graduate credit.

## Aviation Management (AVIM)

**AVIM 1470 Fundamentals of Air Traffic Control (4)**

The course will introduce the student to the Air Traffic Control to include a brief story of Air Traffic Control, an introduction to the Federal Aviation Administration, an introduction to the FAAO/JO 710.65, terms of reference, general control, flight progress strips, radio and interphone communications, route and NAVAID description, weather information, altimeter settings, and automatic terminal information service procedures.

## Aviation Sciences (AVS)

**AVS 1300 Introduction to Aviation (3)**

Pre-requisite(s): Aviation Sciences (AVS) or Aviation Administration (AVA) majors, secondary majors, and minors only  
A survey of aviation with special attention to the history and impact of aviation on society as well as its technological progress.

**AVS 1301 Air Navigation (3)**

Pre-requisite(s): Aviation Sciences (AVS) or Aviation Administration (AVA) majors and secondary majors only

Instruction in Visual Flight rules navigation in the National Airspace System. Topics include sectional charts, flight computers, plotters, and navigation logs and publications. Qualifies as part of a program leading to Federal Aviation Administration Private Pilot certification.

**AVS 1302 Private Pilot Ground School (3)**

Pre-requisite(s): Aviation Sciences (AVS) or Aviation Administration (AVA) majors only

Basic ground school for the Federal Aviation Administration Private Pilot Certificate, providing the student with the necessary aeronautical knowledge that can be used for private pilot certification. Topics include principles of flight, radio procedures, weather, navigation, aerodynamics, and Federal Aviation Administration regulations.

**AVS 1303 Instrument Rating Ground School (3)**

Pre-requisite(s): AVS 1302

Ground school providing the necessary aeronautical knowledge required to successfully complete the Federal Aviation Administration (FAA) Instrument Rating written exam. Topics include basic radio instrument and navigation fundamentals, navigation systems, navigation instruments, charts used for instrument flight and Federal Aviation Administration regulations pertaining to instrument flight.

**AVS 1313 Introduction to Meteorology (3)**

Pre-requisite(s): Aviation Sciences (AVS) or Aviation Administration (AVA) majors, secondary majors, and minors only

Basic atmospheric structure and processes, clouds and precipitation, atmospheric pressure and winds, weather chart analysis, thunderstorms and hurricanes, weather observations and forecasting.

**AVS 1331 Private Pilot Flight (3)**

Pre-requisite(s): Aviation Sciences (AVS) or Aviation Administration (AVA) majors, secondary majors, and minors only

Dual flight instruction and solo flight time necessary to qualify for the FAA Private Pilot Certificate.

**AVS 1332 Instrument Rating Flight (3)**

Co-requisite(s): AVS 1303

Pre-requisite(s): AVS 1331

Dual flight instruction and solo flight time necessary to qualify for the FAA Instrument Rating.

**AVS 1361 Private Pilot Helicopter Flight (3)**

Co-requisite(s): AVS 1301, AVS 1302, AVS 1313

Pre-requisite(s): Departmental approval required

Flight training in preparation for the FAA Private Pilot Helicopter license.

**AVS 2151 Multi-Engine Flight (1)**

Pre-requisite(s): A grade of C or better in AVS 2239 or AIRP 2239

Prepares the student for the FAA multi-engine rating.

**AVS 2236 CFI-A Flight (2)**

Co-requisite(s): AVS 2349

Pre-requisite(s): A grade of C or better in AVS 2239 or AIRP 2239

Flight training in preparation for the FAA Certified Flight Instructor - Airplane (CFI-A) license.

**AVS 2304 Commercial Pilot Ground School (3)**

Pre-requisite(s): AVS 1303

Necessary aeronautical knowledge required to successfully complete the Federal Aviation Administration (FAA) Commercial Pilot written exam.

**AVS 2333 Commercial Flight I (3)**

Pre-requisite(s): AVS 1332

The first of two courses that combine to prepare a student for FAA Commercial Pilot certification. Focuses on cross-country procedures and commercial maneuvers and includes both solo and dual flight training.

**AVS 2334 Commercial Flight II (3)**

Co-requisite(s): AVS 2304

Pre-requisite(s): AVS 2333

Continues to prepare a student for FAA Commercial Pilot certification. Focuses on cross-country procedures and commercial maneuver and includes both solo and dual flight training.

**AVS 2349 Certified Flight Instructor Ground School (3)**

Pre-requisite(s): A grade of "C" or better in AVS 2337 or AIRP 2337

Ground school providing the necessary aeronautical knowledge to successfully complete the Federal Aviation Administration (FAA) Certified Flight Instructor and the Fundamentals of Instruction written exams.

**AVS 2362 Instrument/Commercial I Helicopter Flight (3)**

Co-requisite(s): AVS 1303

Pre-requisite(s): A grade of C or better in AVS 1361

The first of two (2) flight training courses in preparation for the FAA Commercial Pilot Helicopter License with Instrument Rating.

**AVS 2363 Instrument/Commercial II Helicopter Flight (3)**

Co-requisite(s): AVS 2304

Pre-requisite(s): AVS 2362

The second of two (2) flight training courses in preparation for the FAA Commercial Pilot Helicopter License with Instrument Rating.

**AVS 3235 Multi-Engine Flight (2)**

Pre-requisite(s): AVS 2334

Required flight training, fundamental knowledge, and a consistent flight schedule for earning the Multi-Engine rating. Includes preparation for FAA Multi-Engine Rating practical test.

**AVS 3236 Certified Flight Instructor - Airplane Flight (2)**

Co-requisite(s): AVS 3305

Pre-requisite(s): AVS 2334

Required flight training, fundamental knowledge, and comprehensive preparation for the FAA CFI-A practical test.

**AVS 3305 Flight Instructor Ground School (3)**

Pre-requisite(s): AVS 2304

Advanced ground school, providing students with preparation for the Federal Aviation Administration Certified Flight Instructor Certificate.

**AVS 3310 Aviation Law (3)**

A history of the development of aviation law as well as a study of its present status. Topics include state and federal regulations, tort law, contract law, FAA regulations, aircraft ownership, airport businesses, and the effect of other laws on aviation.

**AVS 3311 Aircraft Accident Investigation and Prevention (3)**

A comprehensive overview of the procedures and methods used and the skills required to investigate an aircraft accident with emphasis placed on accident prevention.

**AVS 3312 Aviation Safety (3)**

Pre-requisite(s): AVS 3311

Methods for assessing risk and predicting error generation potentials, illustrated through accident and incident case studies.

**AVS 3315 Advanced Aviation Meteorology (3)**

Pre-requisite(s): Aviation Sciences (AVS) or Aviation Administration (AVA) majors, secondary majors, and minors only  
 Discussion of physical processes in the atmosphere which affect aviation including thunderstorms, wind, icing, turbulence, ceiling, and visibility. Includes development and application of aviation weather products.

**AVS 3320 Flight Crew Career Development (3)**

Pre-requisite(s): AVS 2334  
 Examination of pilot qualifications required by airline, corporate, and military hiring entities.

**AVS 3341 UAS Foundations (3)**

Analysis of the capabilities and limitations of UAS technology including both hardware and software inclusions along with an examination of the concerns facing UAS integration into the National Airspace.

**AVS 3342 Applications of Unmanned Aircraft Systems (3)**

Applications of UAS technology for commercial, scientific, and governmental purposes with respect to physical and regulatory limitations. Discussion of professionalism and ethics as they apply to remote pilots.

**AVS 3350 Space Weather (3)**

The discovery, basic processes, and the health, technology, and societal impacts of space weather.

**AVS 3364 CFI Helicopter Flight (3)**

Co-requisite(s): AVS 3305  
 Pre-requisite(s): AVS 2363  
 Flight training in preparation for the FAA Certified Flight Instructor Helicopter license.

**AVS 3370 Aviation Leadership (3)**

A study of leadership topics such as leadership theory, teamwork, conflict management, supervision, and motivation with an emphasis on application within the aviation industry.

**AVS 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
 Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**AVS 4237 Certified Flight instructor - Instrument Flight (2)**

Pre-requisite(s): AVS 3236  
 Flight training, fundamental knowledge, and a consistent flight schedule required for earning the CFI-I certification rating. Includes preparation for the FAA CFI-I practical test.

**AVS 4238 Multi Engine Instructor Flight (2)**

Pre-requisite(s): AVS 3235 and AVS 4237  
 Flight training, fundamental knowledge, and a consistent flight schedule required for earning the Multi-Engine Instructor Certification. Includes preparation for the FAA Multi-Engine Instructor license practical test.

**AVS 4265 CFI-I Helicopter Flight (2)**

Pre-requisite(s): A grade of C or better in AVS 3464  
 Flight training in preparation for the FAA Certified Flight Instructor Instrument Helicopter license.

**AVS 4266 NVG Helicopter Flight (2)**

Pre-requisite(s): A grade of C or better in AVS 4265  
 Flight training in preparation for the FAA Helicopter Night Vision Goggle (NVG) logbook endorsement.

**AVS 4305 Special Topics in Aviation (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
 Study of advanced topics in aviation. This course may be repeated once under a different topic.

**AVS 4306 Instructor - Instrument Ground School (3)**

Pre-requisite(s): AVS 3305  
 Ground school providing the necessary aeronautical knowledge to successfully complete the Federal Aviation Administration (FAA) Certified Flight Instructor - Instrument written exam.

**AVS 4310 Aviation Management (3)**

Application of management concepts to the problems involved in airport operations, national air traffic control and air transportation systems.

**AVS 4314 Advanced Aircraft Systems (3)**

Study of large transport aircraft: turbine engines, pressurization, electrical, hydraulic, and fire protection systems. Emphasis on high altitude aerodynamics and performance.

**AVS 4315 Aerodynamics (3)**

Pre-requisite(s): Upper-level standing and Aviation Sciences majors only  
 Aircraft types, theory of flight, aerodynamics of the airplane, aircraft performance, effects of atmospheric conditions on performance, theory of aircraft stability and control, effects of flight loads on aircraft structure.

**AVS 4317 Aerospace Propulsion Systems (3)**

Current aerospace power plants, engines, and associated aircraft systems with an emphasis on power plants encountered during flight and ground training.

**AVS 4318 Avionics System Design (3)**

Cross-listed as ELC 4318  
 See ELC 4318 for course information.

**AVS 4321 Energy Economics (3)**

Cross-listed as ENV 4321  
 See ECO 4321 for course information.

**AVS 4323 The Environment and Economic Analysis (3)**

Cross-listed as ECO 4323, ENV 4323  
 See ENV 4323 for course information.

**AVS 4343 Human Aspects of Unmanned Aircraft Systems (3)**

Pre-requisite(s): AVS 3341  
 Assessment of the limits and skills employed by professional remote pilots in trapping and mitigating errors, as well as analyzing human error and management skills used to detect and stop errors during the day-to-day execution of remote pilot tasks. Exploration into the concepts of decision-making bias, stress, and methods for safely identifying and mitigating risk while making time critical decisions.

**AVS 4344 Safety Management of Unmanned Aircraft Systems (3)**

Pre-requisite(s): AVS 3342  
 Focus on the four pillars of a safety management system to include safety policy, safety risk management, safety assurance, and safety promotion.

**AVS 4375 Crew Resource Management (CRM) in Aviation (3)**

Cognitive processing theory, organizational behavior, interpersonal relationship skills, and other critical behavioral dynamics of professional flight crews.

**AVS 4377 Airport Management (3)**

Pre-requisite(s): Upper-level standing  
 An in-depth overview of the Federal Aviation Regulation Part 139 airport design standard as well as a study of both landside and airside airport business management, utilizing the American Association of Airport Executives' Body of Knowledge modules. Includes a study of the role of the airport in community development.

**AVS 4386 Remote Sensing (3)**

Cross-listed as BIO 4386, ENV 4386, GEO 4386  
 See GEO 4386 for course information.

**AVS 4390 Internship in Aviation (3)**

Pre-requisite(s): Upper-level standing and consent of instructor  
Supervised work within the aviation industry corresponding with the student's major and career goals. May be repeated for a total of six semester hours provided professional setting is different.

**AVS 4395 CFI Practicum - I (3)**

Pre-requisite(s): Departmental approval required  
Aviation capstone course that synthesizes and integrates previous learning to facilitate the students' transition to the professional world.

**AVS 4396 CFI Practicum - II (3)**

Pre-requisite(s): AVS 4395  
Aviation capstone course that continues integrating previous dual flight instruction while further honing flight skills and professionalism for transition to the professional world.

**AVS 4485 Introduction to Geographic Information Systems (4)**

Cross-listed as ENV 4384, ENV 4485, GEO 4485  
See GEO 4485 for course information.

**AVS 4487 Advanced GIS Analysis (4)**

Cross-listed as AVS 4387, ENV 4487, GEO 4487  
See ENV 4487 for course information.

**AVS 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Baylor Interdisciplinary Core (BIC)

**BIC 1112 Examined Life (1)**

Co-requisite(s): BIC 1313, BIC 1314  
Pre-requisite(s): Students must be accepted into the Baylor Interdisciplinary Core Program to enroll  
New Student Experience course explores interconnected aspects of human flourishing and invites first-year students to reflect critically upon their lives as a part of a global community of which the university is a microcosm. Students engage theories of human development and wellness to encourage greater intellectual, physical, emotional, social, and spiritual awareness. The course will introduce students to the goals, structure, and rational.

**BIC 1313 World of Rhetoric I (3)**

Co-requisite(s): BIC 1112, BIC 1314  
Pre-requisite(s): Students must be accepted into the Baylor Interdisciplinary Core Program to enroll in BIC 1313  
Emphasizes those principles essential to the production of clear and effective informative and persuasive/argumentative communication. Assignments will include communication exercises designed to engage students in activities that develop critical thinking, logical reasoning, and effective communication skills. Course work will include the writing of informative, persuasive, and critical essays and the presentation of informative and persuasive speeches. Thematically linked with the other first semester courses in the BIC, the course units are designed to provide students with the written and oral communication skills necessary to function effectively in university courses both within and outside of the Interdisciplinary Core.

**BIC 1314 World Cultures I: Roots of Culture (3)**

Co-requisite(s): BIC 1112, BIC 1313  
Pre-requisite(s): Students must be accepted into the Baylor Interdisciplinary Core Program to enroll  
Embraces the period from the dawn of civilizations to 500 A.D. The course is arranged chronologically and seeks to widen views of our own culture by studying selected early civilizations and their values. Original sources will be selected from such cultures as the prehistoric, Mesopotamian, Chinese, Hebrew, Greek, early Christian, and Roman. By reading and studying original texts and objects from these cultures, students will be exposed to widely differing views of what it means to be human. They will also have the opportunity to refine critical writing and speaking skills. The course will provide students with the broad cultural and historical context in which they may examine their own identities.

**BIC 1323 World of Rhetoric II: Rhetoric in Context (3)**

Co-requisite(s): BIC 1324  
Pre-requisite(s): BIC 1313  
Focuses on the continued development of critical reading, thinking, and writing skills by building on the instruction and content of BIC 1313, The World of Rhetoric I: Writing and Speaking. Throughout the course students will engage in the reciprocal process of reading, responding to, and analyzing the rhetorical strategies and arguments presented by a variety of significant authors from different time periods. Major assignments will require increasingly complex writing tasks, from presenting a factual summary of a single essay through preparing a multiple-source research project.

**BIC 1324 World Cultures II: Religion and Culture (3)**

Co-requisite(s): BIC 1323  
Pre-requisite(s): BIC 1314  
A study organized around several major themes including the medieval world and its ideals, both in the West and East, and the new technological, scientific, and social forces that emerged to challenge these ideals. The first theme explores the medieval unity and its expressions in selected works of art, music, and literature. The second relates to the rise of mercantilism and urbanism, and especially to key discoveries in science. World geography will provide a key component of the course. The development or refinement of critical thinking, writing, and speaking skills will be fundamental goals.

**BIC 2330 Social World I: The City and the Soul (3)**

Co-requisite(s): BIC 2334  
Pre-requisite(s): BIC 1324  
This course studies classic works from the ancient and medieval traditions of social and political thought up to the modern rejection of those traditions inaugurated by Machiavelli. Ancient and medieval thinkers typically conceived of civic life as involving an ordering of the soul as well as an arrangement of physical conditions and resources, while early moderns like Machiavelli promote a realism dominated by the concepts of material self-interest and bodily security. With this course, we thus seek to put in place a framework to facilitate our own reconsideration of the famous "quarrel between the ancients and the moderns" on perennial questions of social and political organization. Representative texts include Aristotle's *Politics* and *Ethics*, Cicero's *de Republica*, Augustine's *City of God*, Aquinas' *On Kingship*, and John of Salisbury's *Policraticus*, in addition to Machiavelli's *Prince* and Discourses on Livy.

**BIC 2334 World Cultures III: The Modern World (3)**

Co-requisite(s): BIC 2330

Pre-requisite(s): BIC 1324

Focuses on the scientific revolution and continuing advances in the sciences, and on revolutionary ideas in other areas of human experience—political, religious, social, artistic, and economic. The course will explore efforts of the modern mind to respond creatively to the tensions created by these changes, including the tension between religious and naturalistic world views, the tension between the vast extension of knowledge and the increasing recognition of its limits, the tension between individuality and community, and the tension between the experience of fragmentation and the quest for wholeness.

**BIC 2340 Social World II: The Conditions and Possibilities of Human Fulfillment (3)**

Co-requisite(s): BIC 2344

Pre-requisite(s): BIC 2330

This course studies classic modern works of western social and political thought that have played a formative role in the rise of modern political life and contemporary social conscience. In works by Hobbes and Locke, for example, we explore the origins of contemporary liberal democracy and consider the initial efforts to formulate a social science on the model of modern natural science. In works by Rousseau and Marx, we encounter the first great critical assessment of modern liberalism and examine its impact on the political landscape of modernity as well as on the study of social and political life. Utilizing the framework erected in the previous semester (Social World I), we also continue our mediation of the famous "quarrel between the ancients and the moderns" on certain perennial questions of human existence. Representative texts include Hobbes' *Leviathan*, Locke's *Letter Concerning Toleration* and *Second Treatise*, Rousseau's *Social Contract*, Smith's *Wealth of Nations*, Marx's *German Ideology*, and Weber's *The Protestant Ethic and the Spirit of Capitalism*.

**BIC 2344 World Cultures IV: The United States in the World (3)**

Co-requisite(s): BIC 2340

Pre-requisite(s): BIC 2334

Concentrates on the United States and on its experience within the broader global framework. The focus will be the historical development of the nation, including its origins, its regional traditions, its spread westward, its movement into global markets in the twentieth century, and its cultural pluralism. Emphasis will also be placed upon the elements that have made for community in the United States and upon the linkages of United States historical and cultural development with the broader global themes portrayed in World Cultures III.

**BIC 2437 The Natural World I: Primary Ideas in Science (4)**

Pre-requisite(s): BIC 1323 and 1324

The first course of a two-semester sequence encompassing lecture and laboratory experiences that emphasize the foundations of natural science, science as a way of knowing, and the uses of science. Historical influences on the development of science and the interrelationship between science and culture will be explored. Lecture and laboratory material in *The Natural World* will be integrated. Laboratories will involve hands-on, discovery-based learning which will lead the student to make connections between observation and interpretation of natural phenomena through critical thinking and will seek to provide students with an understanding of the scientific method, hypothesis formulation and testing, collection of data, analysis of data, and interpretation of data in the context of hypotheses.

**BIC 2447 The Natural World II: Global Science Issues (4)**

Pre-requisite(s): BIC 2437

A continuation of *The Natural World I*.**BIC 3358 Examined Life II: Biblical Heritage and Contemporary Ethical Issues (3)**

Pre-requisite(s): BIC 2340 and 2344

In-depth study of selected texts from the Old and New Testaments and examination of the approaches and resources used today and throughout Christian history in such study. Biblical perspectives on such ethical issues as human rights, environmental concerns and resource allocation will be examined to provide a bridge between the literary/cultural settings of the Bible and contemporary human experience and decision making.

**BIC 4374 World Cultures V: Differing Visions and Realities (3)**

Pre-requisite(s): BIC 3358

Explores differing visions and realities in a selected sample of non-Western cultures. The initial interdisciplinary study will reveal themes that transcend cultural differences. Students will then investigate the expression of these themes in a culture fundamentally different from their own.

**BIC 4389 Examined Life III Capstone: Special Topics (3)**

Pre-requisite(s): BIC 3358

Synthesizes learning in two or more disciplines, or in some way connects modes or areas of learning not normally connected. This capstone course represents the culmination both of the Baylor Interdisciplinary Core experience and of the undergraduate experience. By integrating learning, and application, this course will bridge the gap between undergraduate life and life after graduation, leading students to form connections between their lives in the university and their lives in the wider community. The course will include significant written and oral projects. Religion majors and minors must repeat course once under a different topic.

## Bioinformatics (BINF)

**BINF 1095 Bioinformatics First-year Seminar (0)**

Pre-requisite(s): Restricted to Bioinformatics majors

The Bioinformatics First-Year Seminar is designed to assist new students in making a successful transition from learning in high school (or from another college) to learning at Baylor. Students are guided to accept responsibility for their learning and to understand practices and values that will impact their undergraduate experience; to further instill practicing values that will lead to academic success; and to connect with other new students and faculty members in the department and across campus for the main purpose of helping them be successful in the department of Computer Science, Baylor, and beyond.

**BINF 3350 Genomics and Bioinformatics (3)**

Cross-listed as BIO 3350

Pre-requisite(s): BIO 2306

The overall objective of this course is to familiarize students with concepts in genomics, proteomics, systems biology and bioinformatics. Upon course completion students will be able to properly identify appropriate software for use in solving biologically relevant questions. Individuals will also be able to use software efficiently to address questions and maintain a reasonable web presence.

**BINF 3360 Introduction to Computational Biology (3)**

Pre-requisite(s): BINF 3350 and CSI 3344

An introduction to the computable issues in biology. Assignments will focus on gaining competency in the use of bioinformatics applications, algorithm design, Perl programming, protein structure modeling, and genome annotation.

**BINF 3V96 Bioinformatics Internship Experience (1-3)**

Pre-requisite(s): BINF 3350 and 3360; Consent of instructor  
Department arranged/approved summer intern work experience in bioinformatics-related position. Includes a minimum of eight weeks of employment.

**BINF 43C9 Bioinformatics Senior Capstone Project (3)**

Pre-requisite(s): Senior standing  
Minimum grade of C in both CSI 3335 and BINF 3360. A semester-long project course in which students will create a bioinformatics computing system. The project requires applying information technology according to established design management practices, including technical presentations (oral and written) by all students.

## Biology (BIO)

**BIO 1102 Introductory Microbiology Laboratory (1)**

Co-requisite(s): BIO 1302  
Pre-requisite(s): Credit or concurrent enrollment in BIO 1302  
Isolation, culture, morphology, and biochemical activities of microorganisms. Aseptic technique, microbiological staining, environmental sampling, and identification of unknown organisms will be covered. Does not count toward a major in Biology.

**BIO 1103 Human Ecology Lab: Our Place in Nature (1)**

Pre-requisite(s): Credit for or concurrent enrollment in BIO 1303  
Laboratory experiments illustrating topics in human ecology such as biodiversity, population growth, and conservation.

**BIO 1105 Modern Concepts of Bioscience Laboratory (1)**

Pre-requisite(s): BIO 1305 or concurrent enrollment  
Laboratory experiments illustrating modern concepts in the biological sciences, with emphasis on cell biology, metabolism, and genetics. A student will be granted a maximum of two attempts (where an earned grade or a "W" notation counts as an attempt) to earn a higher grade in BIO 1105 in order to fulfill a prerequisite or a course requirement for a degree, major, or minor.

**BIO 1106 Modern Concepts of Bioscience Laboratory (1)**

Pre-requisite(s): BIO 1306 or concurrent enrollment  
Laboratory experiments illustrating modern concepts in the biological sciences, with emphasis on morphology, general physiology, and ecology. A student will be granted a maximum of two attempts (where an earned grade or a "W" notation counts as an attempt) to earn a higher grade in BIO 1106 in order to fulfill a prerequisite or a course requirement for a degree, major, or minor.

**BIO 1125 Biological Research Preparedness (1)**

An examination of the types of biological research, including an introduction to the research faculty and facilities of the Department of Biology, experimental design, safety and ethics in research, analysis of scientific data, and writing in the sciences. A discussion of career planning is included.

**BIO 1302 Introductory Microbiology (3)**

Co-requisite(s): BIO 1102  
Pre-requisite(s): Credit for college-level biology or chemistry course (includes AP and/or IB credit) or consent of instructor  
Credit or concurrent enrollment in BIO 1102. Introduction to microbiology including the study of microbial growth, control of growth, microbial genetics, virulence factors, epidemiology, and the wide variety of contributions microbes make to quality of life. Does not count toward a major in biology.

**BIO 1303 Human Ecology: Our Place in Nature (3)**

Ecological issues in the media, including ecosystems and biodiversity. For non-majors.

**BIO 1305 Modern Concepts of Bioscience (3)**

Unifying principles common to all levels of biological organization, with emphasis on cell biology, metabolism, and genetics. BIO 1305 is not a prerequisite for BIO 1306. A student will be granted a maximum of two attempts (where an earned grade or a "W" notation counts as an attempt) to earn a higher grade in BIO 1305 in order to fulfill a prerequisite or a course requirement for a degree, major, or minor.

**BIO 1306 Modern Concepts of Bioscience, continued (3)**

Pre-requisite(s): BIO 1305 and BIO 1105; or BIO 1405 all with a C or better  
Continuation of the study of biological concepts with emphasis on morphology, general physiology, evolution, and ecology. A student will be granted a maximum of two attempts (where an earned grade or a "W" notation counts as an attempt) to earn a higher grade in BIO 1306 in order to fulfill a prerequisite or a course requirement for a degree, major, or minor.

**BIO 1401 Current Issues in Human Biology (4)**

An introductory course for non-biology majors examining biological issues in the current media, focusing primarily on the human subject.

**BIO 1405 Investigations of Modern Biology Concepts I (4)**

Pre-requisite(s): Consent of instructor  
Biological concepts with emphasis on cell biology, metabolism, and genetics. Students will work in small groups on inquiry-based projects in the area of microbiology, genetics, molecular biology, and genomics. Credit may not be received after receiving credit in BIO 1305 and BIO 1105. A student will be granted a maximum of two attempts (where an earned grade or a "W" notation counts as an attempt) to earn a higher grade in BIO 1405 in order to fulfill a prerequisite or a course requirement for a degree, major, or minor.

**BIO 1406 Investigations of Modern Biology Concepts II (4)**

Pre-requisite(s): Consent of instructor  
Biological concepts with emphasis on morphology, general physiology, evolution, and ecology. Includes field trips and small-group, hypothesis-based projects that will require outside class time. Credit may not be received after receiving credit in BIO 1306 and BIO 1106. A student will be granted a maximum of two attempts (where an earned grade or a "W" notation counts as an attempt) to earn a higher grade in BIO 1406 in order to fulfill a prerequisite or a course requirement for a degree, major, or minor.

**BIO 1V90 Individual Topics (1-9)**

Pre-requisite(s): Consent of instructor and department chair  
For undergraduates who wish to study individual topics not available in formal courses of the department. Directed reading, independent study or research, supervised library, laboratory or fieldwork, or presentation of material. Open project, which must be approved by the director. May be repeated once when different topics are studied.

**BIO 1V9R Research (3)**

Pre-requisite(s): Consent of instructor  
Undergraduate research undertaken under the supervision of a faculty member. May be taken for a maximum of 6 hours.

**BIO 2106 Genetics Laboratory (1)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better; and BIO 2306 or concurrent enrollment in BIO 2306

Laboratory studies illustrating the principles of genetics in living organisms.

**BIO 2201 Biology of Global Health (2)**

Pre-requisite(s): BIO 1105 and 1305, or BIO 1405; and BIO 1106 and 1306, or BIO 1406; all with grades of C or better

Explores the interdisciplinary nature of global health challenges and identifies biological principles that explain the emergence, virulence, and spread of infectious diseases.

**BIO 2306 Genetics (3)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better  
Basic principles of genetics including Mendelian inheritance, molecular genetics, and population genetics.

**BIO 2401 Human Anatomy and Physiology of Motion and Innervation (4)**

Pre-requisite(s): CHE 1300 or 1301; or consent of instructor

The organization and movement of the human body and mechanisms for maintaining homeostasis via innervation. Topics include the integumentary, skeletal, muscular, and nervous systems. Emphasis is placed on the integration of systems as they relate to normal health. Designed for students who will pursue a career in nursing, nutrition science, and other health fields. Will not apply toward requirements for a major in biology.

**BIO 2402 Human Anatomy and Physiology of Metabolism and Processing (4)**

Pre-requisite(s): CHE 1300 or 1301 and credit for college-level BIO course (includes AP and/or IB credit)

The organization of the human body as related to metabolic processes and reproduction. Topics include the endocrine, cardiovascular, lymphatic, immune, respiratory, digestive, urinary, and reproductive systems. Aspects of development and inheritance are also covered. Will not apply toward requirements for a major in biology.

**BIO 2V9R Research (3)**

Pre-requisite(s): Consent of instructor

Undergraduate research undertaken under the supervision of a faculty member. May be taken for a maximum of 6 hours.

**BIO 3100 Seminar in Biology (1)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better; and junior or senior level standing or consent of instructor  
Contemporary topics in biological sciences. Requirements may include directed readings and discussions of advanced topics in biology, attendance at public seminars, presentations, and preparation of a research paper.

**BIO 3103 Ecology Laboratory (1)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; and BIO 3303 or concurrent enrollment in BIO 3303

Field and laboratory experiences in ecological investigations.

**BIO 3110 Biology Education Theory (1)**

Co-requisite(s): BIO 3111

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of B or better  
Instructor approval required. Must also enroll in BIO 3111. Pedagogy course that integrates current learning theory and evidence-based teaching for the Learning Assistant Program.

**BIO 3111 Learning Assistant Planning and Practice (1)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of B or better  
Credit or concurrent enrollment in BIO 3110. Instructor approval required. Application of pedagogical techniques developed in BIO 3110 through the design of active learning content and the practice of student engagement in a classroom setting. May be repeated once for credit.

**BIO 3122 Human Physiology Lab (1)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better; and credit or concurrent enrollment in BIO 3322

Laboratory applies conceptual ideas through the collection and analysis of real time human data, including reaction times, electrocardiograms, electromyograms, spirometry and urinalysis.

**BIO 3124 Laboratory for Entomology (1)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better; and credit or concurrent enrollment in BIO 3324; upper-level standing, and consent of instructor

Collection, preservation, identification of insects. Collection required.

**BIO 3300 Advanced Topics in Biology (3)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better  
Advanced topics in biology not covered in other biology courses. Can be repeated once for credit if topic is different.

**BIO 3303 Ecology (3)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better  
Lectures and discussions that illustrate the basic concepts in evolutionary, behavioral population, community, ecosystem, and conservation ecology.

**BIO 3315 Introduction to Environmental Health (3)**

Cross-listed as ENV 3314

See ENV 3314 for course information.

**BIO 3320 Climate Change Biology (3)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better  
Biological and conservation responses to human-induced climate change, emphasizing the climate system, past climate influences, range shifts, phenological changes, extinction, predictive modeling, connectivity and landscape management, reduction of greenhouse gas emissions, and extinction risk from climate change solutions.

**BIO 3322 Human Physiology (3)**

Pre-requisite(s): Overall GPA of 3.0 or better

Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better. Basic physiologic principles and concepts associated with the normal function of human cells, tissues, organs, and organ systems. This course is intended for the pre-profession student who requires a complex survey of human physiology.

**BIO 3324 Entomology (3)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better; and upper-level standing or consent of instructor  
Taxonomy, morphology, physiology, and behavior of insects.

**BIO 3330 Medical Genetics (3)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; and BIO 2106 and 2306; all with grades of C or better  
Study of Mendelian principles applied to humans, genetic defects, chromosomal aberrations, biochemical disorders, pedigrees, and probability. Genetic diagnostic techniques, gene therapy, genetic engineering, genetic counseling and the social, ethical, and legal problems associated with recent advances in genetics will be addressed.

**BIO 3341 Marine Field Studies (3)**

Cross-listed as GEO 3341  
See GEO 3341 for course information.

**BIO 3342 Molecular Cell Biology (3)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; and BIO 2306 all with grades of C or better  
Students who already have credit for BIO 4307, BIO 4308, or CHE 4341 are not eligible to enroll in BIO 3342. Cell structure and function at the cellular and molecular levels. Topics include molecular components of cell membranes, membrane-bound organelles, cytoskeleton, cell division, gene regulation, and principles of bioenergetics.

**BIO 3350 Genomics and Bioinformatics (3)**

Cross-listed as BINF 3350  
See BINF 3350 for course information.

**BIO 3366 Foundations of Evolutionary Biology (3)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better; and BIO 2306 or consent of instructor  
Comprehensive survey of evolutionary biology, including a fundamental framework to address causative issues in the biological sciences, and an understanding of the basic processes contributing to biological diversification.

**BIO 3429 Comparative Chordate Anatomy (4)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better  
Structural, functional, and evolutionary relationships of the chordates, particularly vertebrates.

**BIO 3435 Invertebrate Paleontology (4)**

Cross-listed as GEO 3435  
See GEO 3435 for course information.

**BIO 3V90 Individual Topics (1-6)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better; and consent of instructor and department chair  
Individual topics not available in formal courses of the department. May include independent study or research, directed reading, supervised library, laboratory, or fieldwork, or presentation of material. Open to all undergraduates. Prior to registration the student will choose a project that must be approved by the director. May be repeated when different topics are studied. A maximum of 3 semester hours of Individual Topics may apply toward a major in biology.

**BIO 3V9R Research (3)**

Pre-requisite(s): Consent of instructor  
Undergraduate research undertaken under the supervision of a faculty member. May be taken for a maximum of 6 hours.

**BIO 4001 Achievement Test (0)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; and senior standing or consent of instructor  
Biology achievement test for seniors given during fall and spring semesters. A minimum score is required to receive credit.

**BIO 4102 General Microbiology Lab (1)**

Co-requisite(s): BIO 4302  
Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better  
Laboratory experiments and techniques to culture microorganisms. Analyses of biochemical tests, quantitative and qualitative procedures, and identification of unknown organisms.

**BIO 4104 Medical Entomology Laboratory (1)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better; upper-level standing and credit or concurrent enrollment in BIO 4304, or consent of instructor  
Collection, preservation, identification, taxonomy and biology of medically important arthropods, especially insects. Survey collection required for graduate credit.

**BIO 4105 Aquatic Ecosystems Laboratory (1)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; and BIO 3303; all with grades of C or better; and credit or concurrent enrollment in BIO 4305  
Laboratory experience in basic field and laboratory methodologies for the study of aquatic ecosystems. Overview of collection, analysis and interpretation of physical, chemical and biological variables commonly used in the field.

**BIO 4106 Molecular Genetics and Genomics Laboratory (1)**

Co-requisite(s): BIO 4306  
Pre-requisite(s): Either BIO 2306 or CHE 4341; each with a grade of C or better  
Individual and group projects in computational genomic and genetic analysis using supplied datasets

**BIO 4108 Genes and Development Laboratory (1)**

Co-requisite(s): BIO 4308  
Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better; and BIO 2306  
Modern experimental techniques of developmental biology.

**BIO 4109 Advanced Study of Genes and Development (1)**

Pre-requisite(s): BIO 4108; consent of instructor required  
Experimental techniques of genetics and developmental biology such as genome editing and genotyping taught through laboratory exercises. Includes an independent research project resulting in a publishable manuscript.

**BIO 4117 Plant Physiology Lab (1)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and BIO 1306, or BIO 1406; all with grades of C or better; and credit or concurrent enrollment in BIO 4317  
Laboratory experiments illustrating modern concepts in plant physiological research, with emphases on form, function relationships, technological innovations, and organismal adaptation.

**BIO 4123 Laboratory for Parasitology (1)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better; credit or concurrent enrollment in BIO 4323 and consent of instructor; and upper-level or graduate standing

Detection and identification of human parasite diagnostic forms. Power Point presentation required for graduate credit.

**BIO 4199 Scientific Communication (1)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better

Examination of various methods of scientific communication with critical analysis and evaluation of scientific presentations and the current scientific literature.

**BIO 4301 Immunology (3)**

Pre-requisite(s): BIO 2306 and one of the following: BIO 3342, 4306, 4308, or CHE 4341; all with grades of C or better

Basic principles of resistance to disease, host-antigen interactions, immunologic response mechanisms, immunologic techniques, and correlations of disease and the immune response.

**BIO 4302 General Microbiology (3)**

Co-requisite(s): BIO 4102

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better

An introduction to the major areas of microbiology, including microbial morphology, metabolism, genetics, evolution, taxonomy, ecology, and disease.

**BIO 4304 Medical Entomology (3)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better; upper-level standing or consent of instructor

Identification, biology, and management of arthropod pests, especially insects, transmitting diseases affecting man, livestock and wildlife.

**BIO 4305 Aquatic Ecosystems (3)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; and BIO 3303; all with grades of C or better

Major aquatic ecosystems including oceans, estuaries, rivers, streams, lakes, reservoirs, ponds and wetlands. Addresses the fundamental physical, chemical and ecological factors that govern the structure and function of each ecosystem.

**BIO 4306 Molecular Genetics and Genomics (3)**

Co-requisite(s): BIO 4106

Pre-requisite(s): Either BIO 2306 or CHE 4341, each with a grade of C or better

Techniques and strategies central to the analysis of genomic and genetic experimental data with emphasis on experimental design. Training in computational methods such as R and Unix; no previous computing experience is required.

**BIO 4307 Biochemistry and Physiology of the Cell (3)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better; and CHE 3331 or consent of instructor; and credit or concurrent enrollment in BIO 2306

The roles of biologically important molecules in cellular structure and function, emphasizing an integrated understanding of the characteristic of the four major classes of biological molecules and the chemical interactions that support living systems. May not receive credit for both BIO 4307 and CHE 4341.

**BIO 4308 Genes and Development (3)**

Co-requisite(s): BIO 4108

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; and BIO 2306; all with grades of C or better

Examination of mechanisms that regulate the development of multicellular organisms using biochemical genetic and cell biological approaches. Investigates the role that gene regulation, cell-cell communication, cell adhesion, cell motility, signal transduction, and intracellular trafficking play in the commitment, differentiation and assembly of stem cells into specialized cell types and organs.

**BIO 4310 Biogeography (3)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better

Patterns of geographic distributions of animals and plants, and the physical and biological factors, and processes affecting geographic distributions.

**BIO 4312 Viruses and Global Health (3)**

Pre-requisite(s): Either BIO 1105 and 1305 or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; and BIO 2306; all with grades of C or better

Examines virus classification, host cell infection and defenses, and how viruses cause disease in humans and animals. Emphasis placed on how viral epidemics influences history and religion, viral emergence and re-emergence in new locations, zoonotic viruses, the development of antivirals and vaccines, as well as the impact on public health and agriculture.

**BIO 4317 Plant Physiology (3)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better

Experimental studies of important physical and chemical processes related to plant function.

**BIO 4320 Pathophysiology (3)**

Pre-requisite(s): BIO 3322 with a grade of B or better

Pathophysiology of disease with emphasis on immunology, communicable disease, neoplasia, heredity, congenital problems, and degeneration as expressed in each organ system.

**BIO 4323 Parasitology (3)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better; upper-level or graduate standing or consent of instructor

Introduction to study of parasites and vectors, emphasizing life cycles and control of those affecting humans. Research paper required for graduate credit.

**BIO 4331 Science Leadership: Community-Based Research (3)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better; and upper-level standing and consent of instructor

Development of science leadership skills through community-based research problems.

**BIO 4333 Science Leadership: Improvement of Science Education (3)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better; and upper-level standing and consent of instructor

Development of science leadership skills through community-based research on improvement of science education.

**BIO 4339 Advanced Marine Field Studies (3)**

Cross-listed as GEO 4339

See GEO 4339 for course information.

**BIO 4344 Fundamentals of Toxicology (3)**

Cross-listed as ENV 4344

See ENV 4344 for course information.

**BIO 4350 Pathogenic Microbiology (3)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and BIO 1106 and 1306, or BIO 1406; all with grades of C or better; and BIO 4401

Introduction to medically relevant pathogens with an emphasis on bacterial pathogenesis.

**BIO 4354 Neglected Tropical Diseases (3)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better

Core principles in genetics and cellular and molecular biology to understand the causation, pathogenesis, and control of the major neglected tropical diseases, defined as a group of poverty-promoting chronic infectious diseases.

**BIO 4365 Topics in Evolution (3)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better; and BIO 2306 or consent of instructor

Processes which establish or eliminate variation in populations and how these mechanisms affect biological diversity.

**BIO 4381 Restoration Ecology (3)**

Cross-listed as ENV 4380

See ENV 4380 for course information.

**BIO 4386 Remote Sensing (3)**

Cross-listed as AVS 4386, ENV 4386, GEO 4386

See GEO 4386 for course information.

**BIO 4405 Limnology (4)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better

Lecture, laboratory, and field studies of lakes and streams. Emphasis on analysis and interpretation of physical, chemical, and biological factors relating to metabolism and production of aquatic communities. Overnight trips may be required.

**BIO 4406 Aquatic Biology (4)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better

Laboratory and field studies of lakes, streams, and estuaries. Primarily for advanced students of zoology and botany who are interested in aquatic organisms and their ecology. Emphasis is on collection, preservation, and identification of all aquatic biota except fishes. Overnight trips may be required.

**BIO 4415 Human Evolutionary Anatomy (4)**

Cross-listed as ANT 4416

See ANT 4416 for course description.

**BIO 4416 Plant Anatomy (4)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better

Anatomy of seed plants, with emphasis on structure-function relationships that occur during growth and development.

**BIO 4418 Biology of Wetland and Aquatic Vascular Plants (4)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better; and any taxonomic course

Taxonomy, ecology, structure, distribution, and economic significance of aquatic vascular plants.

**BIO 4420 Biology of the Vertebrates (4)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better

An introduction to the biology of the vertebrates, emphasizing recognition and classification of modern taxa, adaptations to diverse lifestyles, and importance to humans in context of diseases, domestication and conservation.

**BIO 4422 Ichthyology (4)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better

Fish fauna of the area with emphasis on morphology, ecology, economics, and systematics. Overnight trips may be required.

**BIO 4426 Vertebrate Histology (4)**

Pre-requisite(s): BIO 3322 with a grade of C or better

Microscopic structure of vertebrate tissues and organs.

**BIO 4427 Biology of Mammals (4)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better

An introduction to the biology of mammals, emphasizing recognition and classification of modern taxa, adaptations to diverse lifestyles, and importance to humans in context of diseases, domestication and conservation.

**BIO 4428 Ornithology (4)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better

Evolution, morphology, physiology, behavior, reproduction, ecology, geography, and migration of birds of the world. Includes field identification of Central Texas species.

**BIO 4430 Vertebrate Paleontology (4)**

Cross-listed as GEO 4430

Pre-requisite(s): Consent of instructor

Evolutionary history and biogeography of vertebrate animals, based primarily on fossil evidence. Laboratory activities include study of fossil material, field excavations, and visits to museums.

**BIO 4431 Comparative Vertebrate Physiology (4)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better; and upper-

level standing; or consent of instructor

Vertebrate physiology in a comparative evolutionary context. Emphasis on general principles, with unique examples supplied from all major vertebrate taxa.

**BIO 4432 General Human Anatomy (4)**

Pre-requisite(s): Overall GPA of 3.0 or better

Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better. The organs and systems of the human body emphasizing relationships between structure, function, development and microscopic anatomy.

**BIO 4V04 Biology Field Studies (1-9)**

Pre-requisite(s): Either BIO 1105 and 1305, or BIO 1405; and either BIO 1106 and 1306, or BIO 1406; all with grades of C or better; and consent of instructor

Organisms, environments, and methods of field study. Available for one to four hours of credit, with each hour of credit corresponding to one week of study in field. Four hours required to satisfy field course requirement.

**BIO 4V75 Clinical Laboratory Science Internship (6-12)**

Pre-requisite(s): Consent of instructor; for Clinical Laboratory Science majors only

Highly intensive clinical training at an affiliated institution in preparation for national certification as a clinical laboratory scientist. A grade of "C-" or better is required for course credit. Can be taken for 6 to 12 hours per semester for a maximum of 4 times with a total of no more than 42 hours.

**BIO 4V90 Advanced Research Project (1-3)**

Pre-requisite(s): 3 hours of BIO 3V90, upper-level standing, consent of instructor and department chair

Independent research project conducted under the supervision of a faculty member. May be repeated for a total of 3 hours. Presentation of the project required at the end of each semester. Presentation and defense of thesis required for third semester hour.

**BIO 4V9R Research (3)**

Pre-requisite(s): Consent of instructor

Undergraduate research undertaken under the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Biomedical Engineering (BME)

**BME 4353 Image Formation and Processing (3)**

Cross-listed as ELC 4353

See ELC 4353 for course information.

**BME 4357 Cardiovascular Engineering and Instrumentation (3)**

Cross-listed as EGR 4357, ELC 4357, ME 4357

Pre-requisite(s): A grade of C or better in EGR 3380 or consent of instructor

A quantitative approach to the function and performance of cardiovascular elements, including ECG signal generation, blood flow rheology, and ventricular/vessel wall mechanics. Principles of measurement instrumentation including Fick dilution, ultrasound, and magnetic resonance imaging are explored. Major implant types are examined as well as FDA submission pathways.

**BME 4370 Biomaterials: Form and Function (3)**

Pre-requisite(s): A grade of C or better in ME 3320 and 3322

A traditional mechanical/materials engineering approach will be used to explore the structure and function relationship of naturally occurring biological materials. Emphasis is on mechanical design and function with some discussion of physical properties. Materials used in medical devices will be compared and contrasted with naturally occurring biomaterials.

**BME 4372 Bioinstrumentation (3)**

Cross-listed as ELC 4372

See ELC 4372 for course information.

**BME 4374 Biomechanics (3)**

Pre-requisite(s): A grade of C or better in ME 3320

Introduction to biomechanics. Topics covered include: review of fundamental principles of mechanics, human musculoskeletal physiology and anatomy, properties of biological materials, methods and practice of measuring biological signals, biomechanical modeling and simulation, and applications of biomechanical study.

**BME 4376 Introduction to the Design and Evaluation of Medical Devices (3)**

Pre-requisite(s): A grade of C or better in EGR 3380 Project-based introduction to medical device design and evaluation

Topics to be covered include: clinical needs finding, design criteria generation, basic anatomy, design evaluation, prototyping, regulatory process, intellectual property, and validation process. Students will work in teams to address a real medical problem.

**BME 4378 Introduction to Biosensors (3)**

Cross-listed as ELC 4378

See ELC 4378 for course information.

**BME 4396 Special Topics in Biomedical Engineering (3)**

Pre-requisite(s): Consent of department chair

Study of advanced topics in biomedical engineering. This course may be repeated once under a different topic.

**BME 4452 Biomedical Digital Signal Processing (4)**

Pre-requisite(s): A grade of C or better in ELC 3335 and STA 3381

Discrete-time signals and systems, sampling theory, z-transforms, spectral analysis, filter design, applications, analysis, and design of digital signal processing systems. Laboratory emphasis on biomedical applications of digital signal processing. Credit cannot be earned for ME 4452 if credit is earned for ELC 4451.

**BME 4V97 Special Projects in Biomedical Engineering (1-6)**

Pre-requisite(s): Consent of department chair

Advanced topics and/or special project activities in biomedical engineering.

## Business (BUS)

**BUS 1101 Connect to Hankamer School Bus (1)**

Pre-requisite(s): Only open to pre-business majors

An introductory course designed to facilitate the transition of first-year business students to the Hankamer School of Business (HSB). The course will include expert panels, guest speakers, alumni, faculty, and student guests, and provide exposure to HSB programming, build relationships within HSB, enhance the opportunity for academic success, and connect students with HSB. Selected topics include: role of the HSB curriculum, success in the Business School, HSB programming, business majors, building a professional portfolio, introduction to career services, and the importance of networking.

**BUS 1201 Introduction to Business (2)**

Pre-requisite(s): Open only to students with 89 hours or less

An introductory course designed to increase the business and financial literacy of pre-business majors and lay a strong foundation for business ethics. Interactive, hands-on simulations and daily readings increase business and financial literacy. Working with the Baylor University Honor Code and various corporate codes of ethics improve both personal and professional ethics. Regular visits from Baylor alumni are a key component of the course.

**BUS 1305 Software Applications for Personal Productivity (3)**

Pre-requisite(s): Not open to BBA students

This course cannot count toward the BBA degree. Introduces and develops foundational skills in applying business productivity tools to everyday tasks. Focus is on business productivity software applications, including word processing, spreadsheets, databases, and presentation graphics. Includes modules on hardware, software, cybersecurity, and networks/Internet..

**BUS 1350 Software Applications for Business Productivity and Decision-Making (3)**

Pre-requisite(s): Only open to BBA students

A hands-on course designed to familiarize students with current software application tools used by business professionals – such as spreadsheets and databases – that are essential to helping managers organize, store, analyze, share, and present data to help promote effective business decision-making.

**BUS 2101 Career Management (Assessment & Discovery) for Undergraduate Students (1)**

Pre-requisite(s): Cumulative GPA of 3.0 or higher; a minimum grade of C in BUS 1101; only open to BBA students

This course consists of a variety of career exploration and development experiences designed to help students identify their passion; prioritize and focus their job search efforts; and develop their leadership, communication, and personal marketability. Topics include self-assessment; career passion discovery; career exploration and development exercises; and interview training to assist in finding rewarding internships and full-time jobs.

**BUS 2222 Introduction to Energy Commerce (2)**

Pre-requisite(s): BUS 1201 or ECO 1380 with a grade of "B" or better  
The energy industry in the United States and the world. Fossil fuels (oil, natural gas, and coal), renewables (solar, wind, biomass, hydropower), current events, and environmental/regulatory issues. Analysis of major companies, sources of information, and career opportunities.

**BUS 3101 Career Management (Strategy & Success) for Undergraduate Students (1)**

Pre-requisite(s): A minimum grade of C in BUS 2101

Only open to BBA students, excluding Pre-business majors. This course consists of a variety of career exploration and development experiences designed to prioritize and focus the students' job search needs; and develop the students' leadership, communication, and personal marketability. It will introduce networking skills, company (prospective employer) analysis, internship/job analysis and search strategy, interviewing skills, and negotiation techniques to maximize the students' new-hire potential. Credit may not be received after receiving credit in ACC 3101.

**BUS 3302 Personal Financial Decisions (3)**

Pre-requisite(s): Upper-level standing; a minimum GPA of 2.75; not open to BBA students

Basic personal financial management. Principal topics include personal financial statements (balance sheet and income statement); budgeting and cash management; responsible use of consumer credit; personal income taxes; types of personal insurance; investment alternatives; buying and financing major assets (home, automobile, appliances); and estate planning.

**BUS 3303 Managerial Communications (3)**

This course focuses on communication situations found in business and the work world. It is designed to help students become more successful in their professional lives. It incorporates the wide range of oral communication needed in our ever-growing diverse business and professional cultures. Topics of study and practice include improving presentation skills, overcoming communication apprehension, understanding the challenges of diverse cultures in the workforce, appreciating genderlect, using successful interpersonal skills, working in teams, developing leadership, preparing for ethical challenges, and participating in business dinner etiquette.

**BUS 3310 Multinational Business (3)**

An interdisciplinary introduction to the unique problems and opportunities that face firms engaged in international business, from the point of view of the multinational firm doing business abroad. Special attention is given to the international environment. The course is taught only outside the United States.

**BUS 3315 Business Communications (3)**

Pre-requisite(s): Prerequisite(s): ENG 1304 or ENG 1310 or BIC 1323; Only open to BBA students

This course prepares students for the communication challenges of the twenty-first century workplace. Essential elements of the writing process are covered. Students complete the standard brief transactional messages; follow a structured research process and produce an executive report; and make a professional oral presentation. Job search communication is included with an emphasis on strategic best practices.

**BUS 3330 Cross-Cultural Communications (3)**

Overview of communication differences between cultures and how to successfully adapt global business practices across different cultures. Taught in a global setting it will utilize both organizational and cultural experiences to enhance written and verbal communication skills.

**BUS 3337 The Business Of Professional Sports (3)****BUS 3345 Training and Development in Business and Industry (3)**

Pre-requisite(s): Upper-level standing; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

This course focuses on corporate training and its application to professional and staff development within business and industry. Course content includes learning styles, theories, and processes with an emphasis on the practical application to corporate training needs. In small groups, students will assess a training need, design/develop a training activity, and then conduct an actual training session.

**BUS 3350 Christian Ethics Applied to Business (3)**

Pre-requisite(s): Junior standing; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

A study of how business decisions and actions incorporate ethical issues. Individuals, organizations, economic/political systems and societies are influenced in significant ways by the ethical principles they use when shaping decisions about how to conduct business. The course examines, from a Christian perspective, the ethical foundations, responsibilities, and consequences of business practices in our society. Study includes the use of case studies illustrating the application of ethical theory in situations that students will likely encounter in their careers.

**BUS 4370 Biblical Research Applied to Business (3)**

Pre-requisite(s): Approval of instructor; not open to pre-business students

A search of the scriptures for presuppositions, principles, and propositional statements that have modern business applications. It is independent research with the exchange of Biblical discoveries and discerned applications to ethical and social problems faced in the business world.

**BUS 4380 Business Excellence and Scholarship Team (BEST) (3)**

Pre-requisite(s): Consent of the BEST faculty executive board; not open to pre-business students

BEST is a two-semester program designed to provide an innovative educational experience for selected students in the business school. During the fall semester, students enrolled in BUS 4380 will engage in various activities in close association with numerous Hankamer Business School faculty and community leaders. Proposed activities include an international trip, plant tours, self-assessments, career development exercises, and a weekend survival course. The second component of BEST involves enrollment in a special section of the business policy course (BUS 4385) during the spring.

**BUS 4385 Strategic Management (3)**

Pre-requisite(s): A grade of "C" or better must be earned in FIN 3309 or FIN 3310, BUS 3101 or ACC 3101, MKT 3305, MGT 3305 (or AS 3301 or MILS 3301), and MGT 3325 prior to enrolling in BUS 4385

May not be taken for graduate credit. Only open to BBA students. Not open to Pre-business majors. An integrative capstone course in which materials and techniques are drawn from many disciplines. Areas examined in the course include strategy formulation, implementation, and control from the perspective of the manager. Specific themes throughout the course include interpretation of mission, goals and objectives; competitive analysis, matching the strategic direction of the firm to the organization structure; and the interface between strategy and employees. All topics are explored from both domestic and international firm perspectives.

**BUS 4V95 Energy Commerce Internship (1-6)**

Pre-requisite(s): BUS 2222, Upper-level standing, and consent of instructor

Supervised work within the energy industry corresponding with the student's major and career goals.

**BUS 4V98 Special Studies in Business (1-3)**

Pre-requisite(s): Consent of instructor and associate dean; not open to pre-business students

May be taken for one to three hours credit.

## Business Law (BL)

**BL 3305 Legal Environment of Business (3)**

Pre-requisite(s): Junior Standing

Only open to BBA students. A study of the legal environment including the nature and sources of law, court systems, litigation, and alternative dispute resolution; constitutional and administrative law, tort law and product liability, contract law, agency law; business organizations; business ethics and social responsibility; international law; and selected topics of government regulation of business including antitrust law, employment law, environment law, and securities regulation.

**BL 4303 Employment Law (3)**

Pre-requisite(s): Junior standing or consent of instructor; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

A study of the legal and regulatory framework governing the employment relationship, with particular emphasis on employee selection, discrimination, privacy rights, and termination. Students will examine the increasingly complex body of laws that challenge employers as they strive to maintain a productive and reliable workforce. The course will include topics such as employment contracts, equal opportunity law (discrimination, sexual harassment, affirmative action), wrongful discharge, employee privacy, etc.

**BL 4310 Cyberlaw (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

A study of current legal issues affecting businesses that operate online and through cyberspace, with particular emphasis on how these legal issues impact critical business decisions. Students will examine current cyberlaw topics such as e-commerce law, ownership and protection of intellectual property, privacy, data security, cyber-contracts, international cyberlaw and related ethical issues. The course is designed to provide an active learning environment for business students to prepare them to effectively manage and lead organizations affected by rapidly-evolving technology and innovation. Students will examine current questions such as how is the law responding to the digital age? How are legal risks increasing in significance for business decision-makers given rapid changes in technology? How does the law balance critical and often competing issues such as security and privacy? What ethical issues are raised in the digital marketplace?

**BL 4320 International Business Law (3)**

Cross-listed as INB 4320

Pre-requisite(s): BL 3305 or consent of instructor; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

Legal issues relating to international business transactions. Topics include major organizations and conventions/treaties related to international business, differences between U.S. and foreign contract and employment laws, methods of entry into foreign markets such as direct foreign investment or franchising, techniques to minimize risk in international transactions, the need for cultural awareness as it affects business transactions, trade regulations including import and export requirements and tariffs, and how to resolve disputes effectively.

**BL 4325 Legal Aspects of Financial and Commercial Transactions (3)**

Pre-requisite(s): BL 3305 or consent of instructor

Legal issues encountered in conducting financial and commercial business transactions in business. Students will gain knowledge to prepare them to participate in these transactions, particularly with regard to financial and accounting aspects of the transactions. The course will include a study of laws relating to business organizations, sales, commercial paper, secured transactions, documents of title, bankruptcy, securities regulations, and accountants' legal liability.

**BL 4345 Global Trade Compliance (3)**

Cross-listed as INB 4345

A practical introduction to the regulatory requirements that firms must fulfill to participate in international trade. The course will survey the role of trade compliance in the operations of international firms, an overview of U.S. export and import regulatory regimes and agencies, discussion of selected case studies, and information on the additional requirements for a career in global trade compliance.

**BL 4V98 Special Studies in Business Law (1-3)**

Pre-requisite(s): BL 3305 and consent of instructor

May be taken for 3 hours credit, and may be repeated under different topic.

## Chapel (CHA)

**CHA 1086 Chapel Forum (0)**

Designed to inspire students through lectures, presentations, and dialogues, which explore the intersections of Christian faith and life. Features guest scholars, theologians, and artists and may include student/ guest(s) dialogue. Focused on sharing Christian perspectives and teaching, rather than worshipping together.

**CHA 1087 Chapel with Traditional Worship (0)**

Designed to inspire students through meaningful worship including music inspired by the traditions of the Church through the ages. Features guest scholars, theologians, and artists as components of the liturgy which will typically include music accompanied by piano, organ, or strings. Course may be repeated a maximum of 8 times.

**CHA 1088 Chapel with Contemporary Worship (0)**

An asynchronous chapel experience that takes students week by week through the narrative of the Christian Scriptures by using films that engage students in Christian faith and practice.

**CHA 1089 Chapel (0)**

CHA 1089 Chapel Worship A service shaped by the historic understanding of Christian worship, using music from various denominations. Students will have opportunities to lead worship and hear sermons from local ministers.

**CHA 1090 Chapel Studies (0)**

Chapel experiences are available to students with certain interests and passions, particular academic majors, or who have unique circumstances. These chapels are centered in the teaching of Christian perspectives and practices.

**CHA 1091 Chapel Prayers (0)**

Chapel alternative services in our various chapels across campus. These quiet services are designed to help students have an experience of daily prayer in community. Led by Baylor Chaplains and other designated staff, each service will make use of various forms of prayer that will typically include singing, meditation, silence, unison/responsive readings, and scripture.

## Chemistry (CHE)

**CHE 1100 Introductory Chemistry Laboratory (1)**

Pre-requisite(s): Credit or concurrent registration in CHE 1300  
Laboratory investigations of chemical reactions and properties of common, everyday materials.

**CHE 1101 General Chemistry Laboratory I (1)**

Pre-requisite(s): Credit or concurrent registration in CHE 1301  
An introductory laboratory course that illustrates topics covered in CHE 1301, including chemical reactions, the mole concept, properties of gases and solutions, thermochemistry, and molecular bonding.

**CHE 1102 General Chemistry Laboratory II (1)**

Pre-requisite(s): CHE 1101 and credit or concurrent registration in CHE 1302  
An introductory laboratory course that illustrates topics covered in CHE 1302, including properties of solutions, kinetics, equilibrium, thermodynamics, electrochemistry, and chemical analysis.

**CHE 1146 Introductory Organic Biochemistry Laboratory (1)**

Pre-requisite(s): Credit or concurrent registration in CHE 1341  
Laboratory experiments illustrating principles of organic chemistry and biochemistry.

**CHE 1300 Introductory Chemistry (3)**

No previous knowledge of chemistry required. A one-semester course in general inorganic chemistry, covering atomic structure, bonding, nomenclature, chemical equations, and a problem-solving approach to stoichiometry, gases, solutions, acids and bases, chemical equilibrium and oxidation-reduction. Note: Students may apply either CHE 1300-1100, 1405, 1341-1146, or 1301 and 1100 in fulfillment of a science requirement for a (non-chemistry) B.A. degree. However, CHE 1405 is strongly advised for the meeting of this requirement.

**CHE 1301 Basic Principles of Modern Chemistry I (3)**

Pre-requisite(s): A satisfactory score on the SAT math, ACT math, or participation in an online learning module and earning a minimum score at the conclusion of the module  
Completion of high school chemistry highly recommended. An introduction to chemical reactions; the mole concept; properties of gases, solids, liquids, and solutions; atomic structure; periodic properties; chemical bonding, and molecular structure.

**CHE 1302 Basic Principles of Modern Chemistry II (3)**

Pre-requisite(s): CHE 1301 with a C or better  
A continuation of CHE 1301 with emphasis on chemical equilibrium, thermodynamics, electrochemistry, kinetics, and radiochemistry.

**CHE 1341 Introductory Organic Biochemistry (3)**

Pre-requisite(s): CHE 1300 or 1301  
A one-semester introduction to organic chemistry and biochemistry. The structure and properties of different classes of organic compounds, enzymes, bioenergetics, intermediary metabolism, body fluids, and nutrition will be covered.

**CHE 1405 Chemistry and Society (4)**

The influence of chemistry on everyday life, including energy sources, agricultural chemicals, food and food additives, medicines, drugs, water, air, and pollution. Laboratory exercises involve the chemistry and physical properties of common materials.

**CHE 1V98 Special Research Problems (3)**

Pre-requisite(s): CHE 1302 and 2416; or permission of instructor  
A research project conducted under the supervision of a Baylor Chemistry/Biochemistry Department faculty member. A minimum of three clock hours of work per week in the laboratory will be required for each semester hour of credit. This course may be repeated once if research continues. Departmental clearance is required before a grade can be assigned.

**CHE 1V9R Research (3)**

Pre-requisite(s): Consent of instructor  
Undergraduate research undertaken under the supervision of a faculty member. May be taken for a maximum of 6 hours.

**CHE 2416 Laboratory Measurements and Techniques (4)**

Pre-requisite(s): CHE 1102 and 1302  
An introductory laboratory course in quantitative analysis, including volumetric and gravimetric procedures with emphasis on developing the requisite laboratory technique for making high-quality analytical determinations.

**CHE 2V98 Extended Research Problems (3)**

Pre-requisite(s): Two semesters of CHE 1V98  
A research project conducted under the supervision of a Baylor Chemistry/Biochemistry Department faculty member. A minimum of three clock hours of work per week in the laboratory will be required for each semester hour of credit. This course may be repeated once if research continues. Departmental clearance is required before a grade can be assigned.

**CHE 2V9R Research (3)**

Pre-requisite(s): Consent of instructor  
Undergraduate research undertaken under the supervision of a faculty member. May be taken for a maximum of 6 hours.

**CHE 3238 Organic Chemistry Laboratory (2)**

Pre-requisite(s): CHE 1102, 3331, and credit or concurrent registration in CHE 3332  
A laboratory course in organic chemistry including synthesis, purification, and analysis of organic compounds using a variety of techniques.

**CHE 3331 Organic Chemistry I (3)**

Pre-requisite(s): CHE 1302 with a grade of C or better

Chemistry of organic compounds which primarily contain the less polar functional groups. Topics include reaction mechanisms, stereochemistry and organic spectroscopy.

**CHE 3332 Organic Chemistry II (3)**

Pre-requisite(s): CHE 3331 with grade of C or better or consent of instructor

A continuation of CHE 3331 involving the chemistry of the more polar functional groups, including carbohydrates and amino acids. A nationally standardized comprehensive final examination covering both CHE 3331 and 3332 will be given.

**CHE 3341 Biochemistry of Nutrition (3)**

Pre-requisite(s): CHE 1302, CHE 1341, and BIO 1305, all with grades of C or better

The chemistry of dietary components, digestion, and biosynthesis, with emphasis on molecular structures, chemical properties, and metabolic relationships relevant to health. (This course does not count as an advanced course for chemistry majors.)

**CHE 3361 Forensic Analytical Chemistry (3)**

Pre-requisite(s): CHE 3332 and credit or concurrent enrollment in CHE 3238

Introduction to the theory and techniques of analytical chemistry as applied to forensic science.

**CHE 3V9R Research (3)**

Pre-requisite(s): Consent of instructor

Undergraduate research undertaken under the supervision of a faculty member. May be taken for a maximum of 6 hours.

**CHE 4001 Exit Examination (0)**

Pre-requisite(s): Senior standing

The only requirement for this course is completion of a comprehensive chemistry exit examination designated by the department. This examination may be written by the department's faculty or may be chosen from the GRE, ETS, or another similar examination.

**CHE 4141 Modern Biochemistry Laboratory (1)**

Pre-requisite(s): CHE 2416, 3238 and credit or concurrent enrollment in CHE 4341

Experiments illustrating isolation and identification of biomolecules with emphasis on chromatographic separations, centrifugation, electrophoresis, spectroscopic methods, kinetics, and analysis of experimental data.

**CHE 4142 Advanced Biochemistry Laboratory (1)**

Pre-requisite(s): CHE 4141 and credit or concurrent enrollment in CHE 4342

Experiments illustrating characterization of biomolecules with emphasis on advanced techniques in liquid chromatography, electrophoretic methods, ultracentrifugation, spectroscopic analysis, and molecular graphics and modeling.

**CHE 4151 Undergraduate Seminar I (1)**

Pre-requisite(s): CHE 3332 and senior standing

Presentation of a seminar derived from the recent literature in an area of chemistry designated by the instructor.

**CHE 4199 Senior Thesis (1)**

Pre-requisite(s): CHE 4V98 and consent of instructor

A final report in the form of a B.S. thesis and a public presentation on a research project conducted under the supervision of a Baylor Chemistry/Biochemistry Department faculty member. A copy of the thesis must be submitted to the advisor for B.S. chemistry majors before a grade can be assigned.

**CHE 4207 Preparative Inorganic Chemistry (2)**

Pre-requisite(s): CHE 3238 and 4302

A wide range of experimental techniques currently used in preparative inorganic chemistry research. Such techniques include dry bag, inert atmosphere, ion-exchange, and vacuum line manipulations; electrolytic, non-aqueous solvent, and tube furnace preparations. Emphasis will be given to both the preparation and characterization of compounds prepared in the laboratory.

**CHE 4217 Instrumental Analysis Laboratory (2)**

Pre-requisite(s): CHE 4225 or 4227, and either credit or concurrent registration in CHE 4316

Laboratory work in instrumental analysis with an emphasis on spectroscopy, separations, and electrochemical methods.

**CHE 4225 Biophysical Chemistry Laboratory (2)**

Pre-requisite(s): CHE 2416 and credit or concurrent enrollment in CHE 4327

Introduction to basic biophysical laboratory techniques. Emphasis is placed on the spectroscopy and calorimetry of macromolecules/ligand interactions. Instruction in effective report writing.

**CHE 4227 Physical Chemistry Laboratory I (2)**

Pre-requisite(s): CHE 2416 and credit or concurrent enrollment in CHE 4321

Techniques of physical property measurement, data analysis, and interpretation, with emphasis on thermodynamics, electrochemistry, surface chemistry, solutions, and kinetics. Instruction in effective report writing.

**CHE 4228 Physical Chemistry Laboratory II (2)**

Pre-requisite(s): CHE 4225 or 4227, and credit or concurrent enrollment in CHE 4322

Advanced work in measurement and data analysis techniques, with emphasis on lasers, molecular spectroscopy, and photochemistry. Instruction in effective report writing.

**CHE 4237 Advanced Organic Laboratory (2)**

Pre-requisite(s): CHE 3238 and 3332

Advanced organic synthesis, purification and analysis techniques, including the use of instrumental methods, such as inert atmosphere techniques and modern analytical and preparative chromatography.

**CHE 4302 Modern Inorganic Chemistry I (3)**

Pre-requisite(s): CHE 1301 and CHE 1302

Modern inorganic chemistry, including principles of structure, bonding, and chemical reactivity with application to compounds of the main group and transition elements, with organometallic chemistry.

**CHE 4307 Modern Inorganic Chemistry II (3)**

Pre-requisite(s): CHE 4302

Advanced topics in inorganic chemistry; molecular symmetry with applications to electronic structure and spectroscopy; reaction kinetics and mechanisms; inorganic synthesis and catalysis; bioinorganic chemistry.

**CHE 4316 Instrumental Analysis (3)**

Pre-requisite(s): CHE 4321 or 4327

Introduction to instrumental methods of analysis including spectroscopy, separations, and electrochemical methods.

**CHE 4321 Physical Chemistry I (3)**

Pre-requisite(s): CHE 2416, MTH 2321, and PHY 1430; and CHE 3332 or consent of instructor

Gases, liquids and solids, phase changes, electrochemistry, and the principles of kinetics and thermodynamics. (Not applicable to a major in biochemistry.)

**CHE 4322 Physical Chemistry II (3)**

Pre-requisite(s): CHE 2416, MTH 2321, and PHY 1430; and CHE 3332 or consent of instructor

Postulates of quantum mechanics. Application of quantum theory to simple models: particle in a box, rigid rotor, and harmonic oscillator. Electronic, rotational, and vibrational motion in molecules. Molecular energy levels and spectra. Electronic structure of atoms and molecules. Basic concepts of statistical thermodynamics.

**CHE 4327 Physical Chemistry for the Life Sciences (3)**

Pre-requisite(s): CHE 2416, MTH 1322, PHY 1409 or 1430; and credit or concurrent enrollment in CHE 4341

Chemical thermodynamics, kinetics, and the basic principles of spectroscopy with applications to systems of biochemical interest. (Not applicable to a major in chemistry.)

**CHE 4332 Organic Chemistry III (3)**

Pre-requisite(s): CHE 3238 and 3332 with grades of B or above; or consent of instructor

Advanced aspects of organic chemistry, including synthetic strategies and techniques, reaction mechanisms, and an introduction to bio-organic chemistry.

**CHE 4334 Organic Spectroscopy (3)**

Pre-requisite(s): Either CHE 3238 and 3332 with grades of B or above; or CHE 3332 with a grade of B or above and credit or concurrent enrollment in CHE 4237

The most common spectroscopic methods including infrared, ultraviolet-visible, nuclear magnetic resonance and mass spectroscopies, with emphasis on the practical use of NMR and MS in structure determination problems.

**CHE 4341 General Biochemistry (3)**

Pre-requisite(s): CHE 3332 with a grade of C or better

Structure and dynamics of compounds of biological interest. (Students may not receive credit for both BIO 4307 and CHE 4341.)

**CHE 4342 Topics in Human Biochemistry (3)**

Pre-requisite(s): A grade of C or better in CHE 3332; and either a grade of C or better in CHE 4341 or a grade of B or better in BIO 4307 Topics in selected areas of human biochemistry such as hormone action, neurotransmission, vision, digestion, transport

**CHE 4V60 Special Topics in Chemistry (1-4)**

Pre-requisite(s): CHE 3332 and consent of instructor

Topics in chemistry not covered in other chemistry courses. May be repeated once for credit if topic is different.

**CHE 4V98 Senior Research Problems (3)**

Pre-requisite(s): CHE 2V98, 3238, and 3332 and consent of instructor

A research project conducted under the supervision of a Baylor Chemistry/Biochemistry Department faculty member. A minimum of three clock hours of work per week in the laboratory will be required for each semester hour of credit. A written progress report will be submitted to the instructor at the end of each semester. This course may be repeated for a maximum of 6 total hours if research continues. Departmental clearance is required before a grade can be assigned.

**CHE 4V9R Research (3)**

Pre-requisite(s): Consent of instructor

Undergraduate research undertaken under the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Child and Family Studies (CFS)

**CFS 1315 Development of Individual and Family Relationships (3)**

An introductory study of individual development integrating interpersonal and intrafamily relationships across the family life course.

**CFS 2355 Child Development (3)**

Physical, intellectual, emotional, and social development from birth to middle childhood. One hour each week working with children in a community setting is required.

**CFS 2357 Adult Development (3)**

Physical, intellectual, spiritual, social and emotional development in adulthood, emphasizing developmental tasks in adulthood.

**CFS 3304 Introduction to Research (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
Research methods, experimental procedures, writing, reporting data, and evaluating current research within various areas of human sciences. The format of the course includes a combination of lecture and discussion, writing assignments, literature review, and/or oral presentations.

**CFS 3324 Children and Families with Special Needs (3)**

Social, educational, and vocational challenges faced by families with children with special needs.

**CFS 3325 Child Health Programs (3)**

Pre-requisite(s): Junior standing or consent of instructor  
Theory and community practice of current and proposed public health programs benefiting children. Course targets future child life specialists, dietitians, nurses, educators, social workers, and public health administrators.

**CFS 3350 Individual and Family Financial Management (3)**

Study of individual and family financial decisions, planning and management.

**CFS 3354 Family Life Education and Ethics (3)**

Pre-requisite(s): CFS 1315 and 2355

Historical, philosophical and theoretical foundations of Family Life Education (FLE); role of a FL educator, frameworks of FLE design, delivery and ethical guidelines.

**CFS 3356 Theories of Family Development (3)**

Pre-requisite(s): Upper-level standing

A theoretical study of societal changes affecting families over the life course. Using a systems paradigm, emphasis is placed on effective communication and knowledgeable choices regarding marriage, parenting, divorce, family crises, and aging.

**CFS 3357 The Preschool Child (3)**

Pre-requisite(s): A minimum grade of C in CFS 2355 or consent of instructor

A study of the social relationships and adjustments of the young child in group situations, including supervised participation and the planning and implementation of curriculum.

**CFS 3358 Infant and Toddler Development (3)**

Pre-requisite(s): CFS 2355

The developmental sequence from prenatal to three years, emphasizing the relationship and interactive process between infants, toddlers, and their primary caregivers in family and group situations. Two hours each week working with infants/toddlers in community center required (2-2).

**CFS 3362 Child Life Theory and Practice (3)**

Pre-requisite(s): A minimum grade of C in CFS 2355 and upper-level standing or consent of instructor

Historical and theoretical perspective on development of child life field and information on fundamental skills required to help children and families cope with the stress of a health care experience.

**CFS 3368 Theory and Principles of Play (3)**

Pre-requisite(s): A minimum grade of C in CFS 2355 or consent of instructor

The study of play theory, creativity, guidance, and implementation of developmentally-appropriate practice in diverse settings for children in early childhood. Requires completion of 20 lab hours at the Piper Center.

**CFS 4191 Professional Practices in Child and Family Studies (1)**

Pre-requisite(s): Upper-level standing and a minimum of 12 credit hours of CFS courses completed with a C or better

The study and preparation for the Child and Family Studies practicum experience. Application of professional skills related to various forms of written and verbal communication, interview techniques, and ethics.

**CFS 4340 Resource Management (3)**

Pre-requisite(s): Upper-level standing

Emphasis on a systems approach to time, energy, and resource management. Strategies for maximizing management influences on individual and family welfare. Designed to include occupational competencies and analyze career and job opportunities.

**CFS 4356 The Family: A Global Perspective (3)**

Families around the world: functions, roles, responsibilities, environmental influences, and interactions with other societal institutions.

**CFS 4357 Child and Family Policy and Advocacy (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
Exploration of the reciprocal influences between children and families and all branches of government, including public/private sectors at local, state, and federal levels. Emphasis placed on models, skills, and approaches necessary to advocate for and influence policy.

**CFS 4358 Planning and Administration of Child and Family Programs (3)**

Pre-requisite(s): FCS 3304; and upper-level standing or consent of instructor

Administration and planning of programs serving children and families. Emphasis is placed on program planning, evaluation, ethics, and professionalism as they apply to child and family programs.

**CFS 4359 Parenting Theory and Approaches (3)**

Pre-requisite(s): CFS 1315 and CFS 2355, or consent of instructor  
Theory-based study of parenting approaches, issues, and outcomes for applied practice with diverse families across the lifespan, including the creation, implementation, and identification of parent education resources to support individual and family well-being.

**CFS 4363 Adolescent Development (3)**

Pre-requisite(s): CFS 2355 and Upper-level standing  
The psychosocial, social-emotional, and cognitive language development of adolescents.

**CFS 4364 Child and Family Ministry (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
Biblical framework, contemporary issues, models, skills, and approaches of child and family ministry, covering faith-based settings.

**CFS 4367 Family Transitions, Stress, and Resilience (3)**

Pre-requisite(s): Upper-level standing or consent of the instructor  
Current theory and models seeking to understand family transitions, stress, coping, adaptation, and resilience.

**CFS 4368 Family Perspectives on Aging (3)**

Pre-requisite(s): Upper-level standing  
A study of normative aging processes within the family context.

**CFS 4390 Child and Family Studies Practicum (3)**

Pre-requisite(s): A minimum grade of C in CFS 2355, 3356, 4359, and 4191; and consent of instructor

Requires a minimum of one hundred and fifty clock hours of directed experiences in a program-related professional setting, plus weekly online class activities and discussions. May be repeated in a different setting for a maximum of 6 credits.

**CFS 4695 Internship in Child Life (6)**

Pre-requisite(s): A minimum grade of C in CFS 3357, 4359, 4362; senior standing; and consent of instructor  
Supervised child life internship in an approved hospital for four hundred or more hours. Written reports and research required.

## Chinese (CHI)

**CHI 1101 Chinese Language Workshop (1)**

For music students, supplemental language training to accompany regular 1301 language sections.

**CHI 1102 Chinese Language Workshop (1)**

For music students, supplemental language training to accompany regular 1302 language sections.

**CHI 1301 Elementary Chinese (3)**

Introduction to the Chinese language and culture; practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading). Designed to help students progress through novice proficiency levels

**CHI 1302 Elementary Chinese (3)**

Pre-requisite(s): CHI 1301 or 2 units of high school Chinese  
Introduction to the Chinese language and culture; practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading). Designed to help students progress from novice toward intermediate-level proficiency

**CHI 2310 Intermediate Chinese (3)**

Pre-requisite(s): CHI 1302 or three units of high school Chinese  
Practice in three communicative modes at intermediate-level proficiency: interpersonal, presentational (speaking, writing), and interpretive (listening, reading). Designed to help students attain intermediate-level proficiency in Chinese.

**CHI 2320 Intermediate Chinese for Communication (3)**

Prerequisite(s) CHI 2310 or four units of high school Chinese. This course intends to develop spoken and communicative skills in Chinese at the Intermediate Level. Practice in three communicative modes at intermediate-level proficiency: interpersonal, presentational (speaking, writing), and interpretive (listening, reading).

**CHI 3301 Chinese Conversation, Composition, and Readings I (3)**

Pre-requisite(s): Fourteen semester hours of Chinese or consent of division director  
Development of communication and reading skills.

**CHI 3302 Chinese Conversation, Composition, and Readings II (3)**

Pre-requisite(s): Fourteen semester hours of Chinese or consent of division director  
Continuation of CHI 3301.

**CHI 3305 Chinese for Business I (3)**

Pre-requisite(s): CHI 3301 or consent of instructor  
Designed to help students develop competency in using Chinese in business contexts; practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading). Classes conducted in Chinese.

**CHI 3306 Chinese for Business II (3)**

Pre-requisite(s): CHI 3305  
Development of advanced communicative skills in Chinese, through a focus on China's fast-changing economy and business. Uses business case studies to foment understanding of Chinese business culture and practices.

**CHI 3310 Chinese Language and Culture through Films (3)**

Pre-requisite(s): CHI 3302 or consent of instructor  
Use of Chinese films to help students improve language proficiency to the advanced level; practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading).

**CHI 3V70 Special Problems (1-3)**

Pre-requisite(s): Consent of division director  
With content changed, this course may be repeated once for credit.

**CHI 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**CHI 4301 Chinese Literature and Culture I (3)**

Pre-requisite(s): CHI 3302 or consent of instructor  
An analytical study of the representative works of literature, history, and philosophy from the early Zhou through the Han dynasties.

**CHI 4302 Chinese Literature and Culture II (3)**

Pre-requisite(s): CHI 3302 or consent of instructor  
An analytical study of the representative works of literature, history, and philosophy since the Wei dynasty.

**CHI 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Classics (CLA)

**CLA 1300 Special Topics in Classics (3)**

Introductory topics in Classical literature and culture not covered by regular course offerings. May be repeated once with a change in content or topic.

**CLA 1301 Word Power (3)**

Designed to help students develop their English vocabulary by examining the Latin and Greek vocabulary bases, prefixes and suffixes from which English evolved as well as commonly used Greek and Latin words and phrases.

**CLA 1304 From Ancient Rhetoric to Modern Research Writing (3)**

Instruction in research methods and the techniques of critical and persuasive writing, drawing from the rich tradition of ancient Greek and Roman rhetoric and literature.

**CLA 1305 Heroes and Heroines of the Ancient World (3)**

Heroes and heroines of ancient world through readings in translation, including Adam and Eve, Jesus and Mary, Rama and Sita, Heracles and Deineira, Odysseus and Penelope, King Arthur and Guinevere, and others. Students will also be introduced to the theories of Lord Raglan, Joseph Campbell, Vladimir Propp, and Claude Levi-Strauss.

**CLA 1V9R Research (3)**

Pre-requisite(s): Consent of instructor  
Undergraduate research undertaken under the supervision of a faculty member. May be taken for a maximum of 6 hours.

**CLA 2300 Special Topics in Classics (3)**

Introductory topics in Classical literature and culture not covered by regular course offerings. This course may be repeated once with a change in content or topic.

**CLA 2301 Literature of Ancient Greece (3)**

Ancient Greek literature, emphasizing the works of major writers such as Homer, Herodotus, Thucydides, Plato, Aristotle, the orators, and comic and tragic poets. All readings are in English translation.

**CLA 2302 Literature of Ancient Rome (3)**

Literature of the Roman republic and empire, covering authors and texts over a range of around 600 years, from Plautus (ca. 200 BC) to Augustine (ca. 400 AD). Focus is on the major literary figures from this period, their works, and their social and historical contexts. All readings are in English translation.

**CLA 2306 Greek and Roman Mythology (3)**

Myths of ancient Greece and Rome in their historical and cultural context with attention to the ways in which these myths have been interpreted and used. A student with credit in CLA 3380 may not earn credit for CLA 2306.

**CLA 2310 Greek and Roman Religion (3)**

Examines the varieties of religious experience in the ancient Greco-Roman world. Sources include literary texts as well as material culture, and the approach is interdisciplinary.

**CLA 2V9R Research (3)**

Pre-requisite(s): Consent of instructor  
Undergraduate research undertaken under the supervision of a faculty member. May be taken for a maximum of 6 hours.

**CLA 3300 Special Topics in Classics (3)**

Intermediate topics in Classical literature and culture not covered by regular course offerings. This course may be repeated once with a change in content or topic.

**CLA 3301 Roman History and Civilization (3)**

Cross-listed as HIS 3324

History and culture of the ancient Romans from the founding of the city through the reign of Constantine ending in A.D. 337 with attention to literature, religion, political institutions, social issues, philosophy, and art.

**CLA 3302 Greek History and Civilization (3)**

Cross-listed as HIS 3322

History and culture of the ancient Greeks from the Bronze Age through the Classical period ending in 323 B.C. with attention to literature, religion, political institutions, social issues, philosophy, and art.

**CLA 3303 Hellenistic History and Civilization (3)**

Cross-listed as HIS 3323

History and culture of the Greeks and Macedonians from the reign of Alexander the Great (336-323 BC) through the death of Cleopatra (30 BC) with attention to developments in literature, religion, philosophy, art, political institutions, and social issues; interactions between Greeks and peoples of Asia and Egypt; the Greek experience of Roman imperialism.

**CLA 3304 Byzantine History and Civilization (3)**

Cross-listed as HIS 3339

The history and culture of the Byzantines (Eastern Romans) from their roots in the third-century crisis of the Roman Empire through the fall of Constantinople in AD 1453.

**CLA 3310 Ancient Epic (3)**

An intensive study of ancient epic with the goal of understanding the structure, nature, and social functions of the genre. The selection of readings, in English translation, may range from Gilgamesh through the Roman poet Statius.

**CLA 3311 Greek Tragedy (3)**

An intensive study of Greek tragedy with the goal of understanding the structure, nature, and social functions of the genre with an emphasis on 5th and 4th century Athens. Readings consist primarily of plays by Aeschylus, Sophocles, and Euripides in English translation.

**CLA 3315 Ancient Drama in Performance (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
Ancient Greek and Roman plays as performative works. Includes recreating and staging performances of scenes from ancient Greek and Roman plays, informed by ancient performance practice.

**CLA 3321 Topography of Rome and Pompeii (3)**

Detailed study of the buildings and monuments of Ancient Rome and Pompeii. Readings include primary sources and analyses of excavated material.

**CLA 3330 Women and Gender in Antiquity (3)**

Explores the lives of women in ancient Greece and Rome and their representation in art and literature. Also includes modern theories and definitions of gender.

**CLA 3340 Race and Ethnicity in Classical Antiquity (3)**

Explores how the ancient Greeks and Romans conceptualized race and ethnicity and how they dealt with racial and ethnic differences in their encounters with other peoples. Includes modern debates about race, ethnicity, and identity.

**CLA 3350 Ancient Warfare (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

The military cultural experience of ancient Greece and Rome, drawing upon ancient literary, artistic, and documentary sources.

**CLA 3352 Greek Art and Archaeology (3)**

Cross-listed as ARTH 3352

See ARTH 3352 for course description.

**CLA 3353 Roman Art and Archaeology (3)**

Cross-listed as ARTH 3353

See ARTH 3353 for course information.

**CLA 3380 Classical Mythology (3)**

Detailed study of the myths of the Greeks and Romans; Greek and Roman personal religion and folklore. (No credit toward the foreign language requirement.) A student with credit in CLA 2306 may not earn credit in CLA 3380.

**CLA 3381 Medical Terminology (3)**

Study of the medical vocabulary of English, based upon Greek and Latin prefixes, stems, and suffixes.

**CLA 3V9R Research (3)**

Pre-requisite(s): Consent of instructor

Undergraduate research undertaken under the supervision of a faculty member. May be taken for a maximum of 6 hours.

**CLA 4300 Medicine and Healing in the Ancient World (3)**

Survey of the theory, practice, and literature of western scientific medicine from Hippocrates and the Greeks through the Roman period.

**CLA 4301 Principles of Classical Studies (3)**

Pre-requisite(s): Upper-level standing

Examination of the major historical figures and intellectual trends of the classical world and examination of the professional life and work of classicists.

**CLA 4311 Archaeology of Greece (3)**

Pre-requisite(s): Consent of instructor

Study of the monuments, art, and topographical archaeology of Greece from the Bronze Age through Late Antiquity.

**CLA 4315 Ancient Greek Religion (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Study of Ancient Greek religion through the literary, artistic, and archaeological sources.

**CLA 4331 The Archaeology of Sicily and Southern Italy (3)**

Study of monuments and topographical archaeology of southern Italy and Sicily. Readings include primary sources and analyses of excavated material.

**CLA 4340 Special Topics in Classics (3)**

Advanced topics in Classical literature and culture not covered by regular course offerings. This course may be repeated once with a change in content or topic.

**CLA 4350 Augustine's Theological Development (3)**

Cross-listed as REL 4350

See REL 4350 for course information.

**CLA 4356 Christian Persecution and Martyrdom in the Roman World (3)**

Cross-listed as REL 4356

Pre-requisite(s): Upper-level standing or consent of instructor

Ancient sources in translation on martyrdom in the Roman world. Topics might include the evolving understanding of martyrdom, the development of Christian doctrine on martyrdom, Roman motives for persecuting Christians, and the status of those who fled persecution or surrendered themselves to it.

**CLA 4357 Pagans and Christians in the Later Roman World (3)**

Cross-listed as REL 4357

Pre-requisite(s): Upper-level standing or consent of instructor

Developments in Greco-Roman pagan religion and Christianity in the fourth century. Topics might include commonalities and differences between paganism and Christianity, competition for believers, rivalries between thinkers, the development of Christian identity in a pagan world, the role of Roman imperial authority in arbitrating between these traditions.

**CLA 4360 Indo-European Language and Culture (3)**

Pre-requisite(s): LAT 2310 or GKC 2310; consent of instructor

The linguistic similarities of the Indo-European language, such as Greek, Latin, and Sanskrit, and their cultural manifestations.

**CLA 4361 Greek Painted Pottery (3)**

Cross-listed as ARTH 4361

See ARTH 4361 for course description.

**CLA 4364 Roman Sculpture (3)**

Cross-listed as ARTH 4364

See ARTH 4364 for course information.

**CLA 4368 Special Topics in Greek and Roman Art and Archaeology (3)**

Cross-listed as ARTH 4368

See ARTH 4368 for course information.

**CLA 4369 Greek and Roman Sport and Spectacle (3)**

Cross-listed as ARTH 4369

See ARTH 4369 for course information.

**CLA 4V01 Topics in Classical Literature (1-3)**

Pre-requisite(s): Consent of instructor

Various texts to be read (in translation) are selected to meet the needs of the student. With content changed, this course may be repeated up to a total of six semester hours.

**CLA 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Comm. Sciences and Disorders (CSD)

**CSD 1308 Survey of Speech Pathology and Audiology (3)**

An introduction to the nature and causes of speech, language, and hearing disorders and speech-language pathology as an educational and clinical field.

**CSD 1360 Introduction to Deaf Education (3)**

Practical and legal aspects of Deaf Education, focusing on history of Deaf Education, the role of language and communication, and an overview of deaf programs in diverse settings.

**CSD 1405 American Sign Language I (4)**

Introduction to American Sign Language and Deaf culture: grammar, lexicalized signs, numbers and basic conversational language.

**CSD 1406 American Sign Language II (4)**

Pre-requisite(s): CSD 1405

Continuation of CSD 1405.

**CSD 2101 Professional Career Development (1)**

Resume and cover letter writing, interviewing, networking, and presenting professional self. Exploration of career options, including assessments, internships, job search process, and graduate school admission specific to Communication Sciences and Disorders.

**CSD 2301 American Sign Language III (3)**

Pre-requisite(s): Minimum grade of C- in CSD 1406

Development of intermediate skills with a focus on expressive language: grammar, non-manual markers, classifiers, lexicalized signs, and storytelling.

**CSD 2302 American Sign Language IV (3)**

Pre-requisite(s): Minimum grade of C- in CSD 2301

Continuation of CSD 2301: conversation, composition, grammar review, cultural readings, and ASL literature.

**CSD 2318 Language Development (3)**

Linguistic theory and language development in normal children.

**CSD 2351 Introduction to Phonological Science (3)**

Introduction to the phonological rules and processes of American English and an examination of descriptive, physiological, and acoustic phonetics.

**CSD 2357 Adult Development (3)**

Physical, intellectual, spiritual, social and emotional development in adulthood, emphasizing developmental tasks in adulthood.

**CSD 2360 Oral Deaf Education Principles and Practices (3)**

Techniques for developing spoken language in children with hearing loss using therapy, linguistic knowledge, technology and practice.

**CSD 3308 Introduction to Speech Sound Disorders (3)**

Pre-requisite(s): Must have completed and earned a "B" or better in each of the following courses: CSD 1308, 2318, 2351, and 3357

Disorders of articulation and phonologic processes, including etiology, methods of assessment, and techniques for remediation.

**CSD 3310 Principles of Interpreting (3)**

The profession of interpreting, including Code of Ethics, certification criteria, roles and responsibilities of an interpreter, and compensation.

**CSD 3311 American Sign Language V (3)**

Pre-requisite(s): CSD 1405, 1406, 2301, and 2302

This course builds on students' receptive and expressive skills in American Sign Language, challenging them to engage with more complex constructs within the realms of general discourse, performance narrative, and academic discussion.

**CSD 3312 Deaf Culture (3)**

A study of Deaf Culture, with special attention to historical and contemporary perspectives of the Deaf community: history, values, identity and enculturation, family, community, religion, language, arts, and education.

**CSD 3313 Linguistics of American Sign Language (3)**

This course will focus on specific aspects of linguistics and cognition that occur in a visual language as compared/contrasted to/with a spoken language.

**CSD 3314 ASL Literature and Visual Arts (3)**

Pre-requisite(s): CSD 3311

This course provides an overview of different genres of American Sign Language literature and art. Drama, fiction, folklore, humor, painting, short stories, and other forms of literature and arts relative to the Deaf community will be explored.

**CSD 3357 Anatomy and Physiology (3)**

A study of the anatomy and physiology of speech.

**CSD 3359 Neuroscience in Communication Sciences and Disorders (3)**

Pre-requisite(s): Grade of B or better in CSD 1308, 2318, 2351, and 3357  
 This course is designed to provide a comprehensive introduction to the neuroscience of speech, language, and swallowing and hearing. The student will learn about the relationship of neurological structures and functions and how this knowledge applies to the assessment and intervention of communication and swallowing disorders.

**CSD 4249 Clinical Application of Speech-Language Pathology (2)**

Pre-requisite(s): CSD 4477 or concurrent enrollment  
 Clinical application of approaches for identifying, assessing, and treatment of individuals with communication disorders.

**CSD 4301 Introduction to Clinical Audiology (3)**

Pre-requisite(s): Must have completed and earned a "B" or better in each of the following courses: CSD 1308, 2318, 2351, and 3357  
 Hearing sciences and approaches for evaluating hearing: anatomy and physiology of the ear, the decibel, ear pathology, pure-tone audiometry, speech audiometry, and acoustic-immittance audiometry.

**CSD 4302 Language Disorders in Children (3)**

Pre-requisite(s): Must have completed and earned a "B" or better in each of the following courses: CSD 1308, 2318, 2351, and 3357  
 Basic principles of intervention and assessment for children with language impairments.

**CSD 4305 Technology and Science in Communication Sciences and Disorders (3)**

This course is designated to provide a comprehensive introduction to the technology used in the science of studying speech, language, hearing, and swallowing. Current technology used during research and clinical practice in the field of communication sciences and disorders will be presented.

**CSD 4308 Disorders of Speech and Swallowing (3)**

Pre-requisite(s): Must have completed and earned a "B" or better in each of the following courses: CSD 1308, 2318, 2351, and 3357  
 Etiologies, characteristics, diagnosis, and treatment of disorders of speech and swallowing.

**CSD 4309 Medical Speech Pathology (3)**

Pre-requisite(s): Must have completed and earned a "B" or better in each of the following courses: CSD 1308, 2318, 2351, and 3357  
 Etiologies, characteristics, diagnosis, and treatment of disorders associated with medical speech pathology.

**CSD 4312 Advanced Clinical Audiology (3)**

Pre-requisite(s): CSD 4301 and must have completed and earned a "B" or better in CSD 1308, 2318, 2351, and 3357  
 Routine and advanced audiologic measures, including masking and evoked-potential tests. Practical clinical experiences.

**CSD 4322 ASL/English Interpreting I (3)**

Pre-requisite(s): CSD 2302  
 An introduction to the process of interpreting and development of required skills: communication theory, non-verbal communication, intralingual skills, translation to and from written English texts, and consecutive interpreting.

**CSD 4323 ASL/English Interpreting II (3)**

Pre-requisite(s): CSD 2302 and 4322  
 A continuation of ASL/English Interpreting I. Continued development of necessary interpreting skills, with an emphasis on simultaneous interpreting.

**CSD 4352 Diagnostic Methods (3)**

Pre-requisite(s): Must have completed and earned a "B" or better in each of the following courses: CSD 1308, 2318, 2351, and 3357 or Graduate Online CSD student  
 A study of diagnostic methods used in speech and language pathology, including interviewing, taking case histories, testing, and counseling. Evaluation of the standardization, reliability, and validity of existing tests. Practical application is required.

**CSD 4358 Speech Science (3)**

Pre-requisite(s): Must have completed and earned a 'B' or better in each of the following courses: CSD 1308, 2318, 2351, and 3357 or Graduate Online CSD student  
 Basic sciences underlying speech and hearing: physics of sound, the decibel, instrumentation, speech production, speech perception, and audition.

**CSD 4360 Language and Literacy Instruction for the Deaf I (3)**

Co-requisite(s):  
 Pre-requisite(s): CSD 1360  
 Contemporary practices in teaching literacy for Deaf/Hard of Hearing students, including bilingual assessment and intervention. Requires practicum hours.

**CSD 4361 Language and Literacy Instruction for the Deaf II (3)**

Co-requisite(s):  
 Pre-requisite(s): CSD 4360  
 A continuation of CSD 4360. Requires practicum hours.

**CSD 4368 Introduction to Aural Rehabilitation (3)**

Pre-requisite(s): CSD 4301 or consent of instructor; and must have completed and earned a "B" or better in each of the following courses: CSD 1308, 2318, 2351, and 3357 or CSD Online student  
 Methods for rehabilitating persons with hearing impairment: evaluating communicative needs, amplification devices, auditory-visual training, and modes of communication for the deaf and hearing impaired.

**CSD 4477 Clinical Methods (4)**

Pre-requisite(s): CSD 3308; and must have completed and earned a "B" or better in each of the following courses: CSD 1308, 2318, 2351, and 3357 or Graduate Online CSD student  
 Methods for treating individuals who have communication disorders. Observation of therapy conducted in the Baylor Speech, Hearing, and Language Clinic is required.

**CSD 4660 Internship I Deaf and Hard of Hearing EC-12 Part 1 (6)**

Co-requisite(s): CSD 4661  
 Pre-requisite(s): Minimum grade of B in both CSD 4360 and 4361, and satisfactory performance on the CSD departmental ASL proficiency exam  
 Full-time teaching experience in a Deaf/Hard of Hearing program. A mentor teacher and Baylor faculty will support teacher candidates as they gradually assume complete responsibilities for teaching. Course includes fifty-minute seminars to be attended each week.

**CSD 4661 Internship I Deaf and Hard of Hearing EC-12 Part 2 (6)**

Co-requisite(s): CSD 4660  
 Pre-requisite(s): Minimum grade of B in both CSD 4360 and 4361 and satisfactory performance on the CSD departmental ASL proficiency exam  
 Planning and preparing lessons and materials for full-time teaching. Includes completion of content modules, conferencing with mentor teacher and university supervisor, written lesson reflections, and observation of lessons taught by mentor teachers.

**CSD 4662 Internship II Deaf and Hard of Hearing EC-12 Part 1 (6)**

Co-requisite(s): CSD 4663

Pre-requisite(s): Minimum grade of B in both CSD 4660 and 4661

Continuation of CSD 4660.

**CSD 4663 Internship II Deaf and Hard of Hearing EC-12 Part 2 (6)**

Co-requisite(s): CSD 4662

Pre-requisite(s): Minimum grade of B in both CSD 4660 and 4661

Continuation of CSD 4661.

**CSD 4V85 Special Problems in Communication Sciences and Disorders (1-6)**

Pre-requisite(s): Fifteen semester hours in Communication Sciences and Disorders or Graduate Online CSD student

A conference course providing additional study in communication sciences and disorders. May be repeated once for credit.

**CSD 4V86 Health Science Leadership: Community Engagement and Service-Learning (1-3)**

Intensive integration of academic study and service-learning experiences with the community. Approval to take this course must be obtained from the faculty member and the CSD Chair. This course may be repeated once with faculty approval.

**CSD 4V87 Health Science Leadership: Applied Research (1-3)**

Intensive integration of academic study with an active research project under the supervision of a Communication Sciences &amp; Disorders faculty member. Approval to take this course must be obtained from the faculty member and CSD Chair. This course may be repeated once if research continues.

**CSD 4V98 Health Science Leadership: Community Engagement and Service-Learning (1-3)**

Intensive integration of academic study and service-learning experiences with the community. Approval to take this course must be obtained from the faculty member and the CSD Chair. This course may be repeated once with faculty approval.

## Communication (CSS)

**CSS 1301 Fundamentals of Public Communication (3)**

The preparation of public speeches, focusing on adapting messages to audiences. Credit may not be earned for this course if credit is earned in CSS 1302.

**CSS 1302 Speech for Business and Professional Students (3)**

Preparation and delivery of the types of presentations employed in organizational and corporate settings. Credit may not be earned for this course if credit is earned in CSS 1301.

**CSS 1304 Argumentation, Discussion, and Debate (3)**

A study of reflective thinking and intentional reasoning as applied to college discussion and debate. Application made to current topics.

**CSS 1305 Introduction to Communication (3)**

Foundational areas and research methods for the study of communication, including rhetoric and organizational, interpersonal, and nonverbal communication.

**CSS 2264 Contest Speaking (2)**

Interest in University forensic activities. Practice in forensic contests pointing toward the University program. Course extends throughout the year, meeting on Tuesday evenings each week.

**CSS 2265 Contest Speaking (2)**

Continuation of CSS 2264.

**CSS 3247 Advanced Debate (2)**

Pre-requisite(s): Advanced member of University forensic program

Must be qualified to assist inexperienced students in their preparation.

Course extends throughout the school year, meeting on Tuesday evenings each week.

**CSS 3248 Advanced Debate (2)**

Continuation of CSS 3247.

**CSS 3302 Introduction to Rhetorical Theory and Criticism (3)**

Pre-requisite(s): CSS 1301, 1302, or 1304

Rhetorical theory and criticism, including the history of the field of rhetoric, the theories that guide rhetorical inquiry, and how to compose a rhetorical analysis.

**CSS 3304 Small-Group Communication (3)**

Pre-requisite(s): CSS 1301, 1302, or 1304

Group interaction in decision-making and problem-solving situations associated with leadership, role development, and conflict management.

**CSS 3305 Advanced Public Speaking (3)**

Pre-requisite(s): CSS 1301, 1302, or 1304

Preparation and presentation of extemporaneous and written public speeches.

**CSS 3306 Interviewing (3)**

Pre-requisite(s): CSS 1301, 1302, or 1304

Application of communication theory to interview situations with emphasis on developing and using effective strategies.

**CSS 3307 Legal Communication (3)**

Pre-requisite(s): CSS 1301, 1302, or 1304

An introduction to the special communication needs and skills of lawyers, clients, and judicial personnel. Students will improve their ability to apply communication principles to professional settings.

**CSS 3310 Communication Theory (3)**

Pre-requisite(s): CSS 1301, 1302, or 1304

Survey of the theories of human communication.

**CSS 3311 Interpersonal Communication (3)**

Pre-requisite(s): CSS 1301, 1302, or 1304

Overview of the communication process with emphasis on the theory and practice of communication in dyadic relationships. The course is designed to allow students to: (1) increase their understanding of the process of interpersonal communication, (2) increase their knowledge of the factors involved with interpersonal communication, and (3) to increase their skills and strategies for managing problems of interpersonal communication.

**CSS 3312 Nonverbal Communication (3)**

Pre-requisite(s): CSS 1301, 1302, or 1304

Nonverbal codes in human interaction in various communication situations.

**CSS 3314 Cross-Cultural Communication (3)**

Pre-requisite(s): CSS 1301, 1302, or 1304

The theory and research of cross-cultural communication, exploring similarities and differences in communication across cultures.

**CSS 3316 Persuasion and Communication (3)**

Pre-requisite(s): CSS 1301, 1302, or 1304

A consideration of theoretical and practical aspects of persuasive communication, centering on a discussion of various findings by experimental researchers about the nature of the audiences and messages involved in the persuasive process.

**CSS 3393 Rhetoric and Contemporary Culture (3)**

Pre-requisite(s): CSS 1301, 1302, or 1304

An introduction to the principles of rhetorical criticism, with emphasis on evaluation of contemporary speeches, films, music, television, and the Internet.

**CSS 3395 Theories and Methods of Visual Communication (3)**

Pre-requisite(s): CSS 1301, 1302, or 1304

General theories and methods used to analyze visual communication. Considers several divergent schools of thought on the study of visual communication, including aesthetics, representation, semiotics, psychoanalysis, narrative, cultural studies, media studies, and rhetorical studies.

**CSS 4301 Organizational Communication (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
Communication within the organization and its relationship to organizational structure, roles, leadership, and management orientations.

**CSS 4302 Communication Training and Development (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
Theory and practice of performing and supervising training activities in an organizational setting. Emphasis on the design, execution, and evaluation of communication training and development programs and strategies.

**CSS 4303 Leadership and Communication (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
The intersection between leadership and communication, emphasizing the theory, research, and practice of leadership communication.

**CSS 4304 Advanced Small Group Theory and Practice (3)**

Pre-requisite(s): CSS 1301 or 1302 and CSS 3304; and upper-level standing or consent of instructor  
Examines advanced and complex types of small-group interaction, leadership, and collaboration. Taught in London.

**CSS 4305 Nonprofit Organizational Communication (3)**

Pre-requisite(s): CSS 4301  
Survey of communication dynamics and issues in nonprofit organizations. Emphasis on assessing and developing best practices in external and internal communication. Course topics include: stakeholder messaging, interorganizational collaboration, member relationships, and role development.

**CSS 4306 Advanced Interviewing (3)**

Pre-requisite(s): CSS 3306 or consent of instructor  
Application of survey and probing interview techniques with emphasis on career development.

**CSS 4310 Politics and Communication (3)**

Cross-listed as PSC 4310  
See PSC 4310 for course information.

**CSS 4311 Conflict and Communication (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
The role of communication in managing conflict in interpersonal, group, organization, and community contexts.

**CSS 4312 Systemic Inquiry (3)**

Pre-requisite(s): Upper-level standing  
Examines advanced and complex types of communication contexts involving relational and group facilitation strategies, systemic interviewing practices, and the development of a basic understanding of systemic inquiry as a communication management strategy. Taught in London.

**CSS 4313 Communication and the Family (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
Survey of communication issues related to theory and research regarding relationships within the modern family system.

**CSS 4314 Communication Assessment in Organizational Settings (3)**

Pre-requisite(s): CSS 4301 or consent of instructor  
Design and implement a communication assessment of for-profit or non-profit organizations.

**CSS 4315 Health Communication (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
Health communication theory and practice, including patient-provider communication, healthcare organizational communication, and health information technology.

**CSS 4316 Advanced Interpersonal Communication (3)**

Pre-requisite(s): CSS 3311 and upper level standing or consent of instructor  
Advanced survey of theory and research regarding communication and personal relationships.

**CSS 4317 Narrating Health Across Culture (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
Examines pervasive health narratives, including best practices for the communication surrounding illness both from those living with the illness and those in support roles.

**CSS 4318 Communication and New Technology (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
The ways in which communication is facilitated by new technologies with an emphasis on various theories related to computer-mediated communication and new communication technology.

**CSS 4319 Cultural Approaches to Health Communication (3)**

Pre-requisite(s): Upper level standing or consent of instructor  
Examination of the influence of culture on communicative aspects of individuals' health.

**CSS 4336 Seminar in Contemporary Communication Issues (3)**

Pre-requisite(s): Consent of instructor  
Seminar topics vary each semester. May be repeated once with change in topic.

**CSS 4350 Rhetoric of Women and Gender (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
Analyzes the historical fight for women's rights and contemporary arguments about gender-based rights through the tools of rhetorical criticism.

**CSS 4351 Criticism of Contemporary Public Address (3)**

Cross-listed as PSC 4351  
Pre-requisite(s): Upper-level standing or consent of instructor  
Significant public speeches in contemporary society, with emphasis on applying principles and methods of rhetorical criticism.

**CSS 4352 Corporate Advocacy and Public Policy (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
Influence of contemporary organizations on public attitudes and public policy through analysis of communication campaigns during both favorable and unfavorable conditions.

**CSS 4353 Public Discourse and Foreign Policy (3)**

Cross-listed as PSC 4335

Pre-requisite(s): Upper-level standing

An analytical approach to the discourse generated by United States foreign policy in the post-World War II era. Topics covered include the nature of public opinion and foreign policy, rhetorical and political constraints on foreign policy discourse, and in-depth analysis of the arguments for and against the conflict in Vietnam.

**CSS 4354 African American Communication (3)**

Cross-listed as PSC 4340

Pre-requisite(s): Upper-level standing

Rhetorical strategies of African Americans, focusing on the historically important documents of oratory, argumentation, homiletic, and narrative.

**CSS 4380 Internship in Communication (3)**

Pre-requisite(s): Fifteen hours in major and consent of instructor  
Work at appropriate employment site for academic credit to accommodate career needs of communication students. Internships must be approved by the department director of internships. May be repeated for a total of six hours.

**CSS 4392 Rhetorics of Race (3)**

Exploration of ideas about communication, rhetoric, and race. Emphasis on rhetorical criticism as a methodological approach to public discourse and analysis of race as understood in contemporary American culture.

**CSS 4394 Rhetorical Theory (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
Selected theories of persuasion in Western culture from the Greco-Roman period to the present. Topics covered include the relationship of rhetoric and poetic, arguments for a behavioristic approach to rhetoric, and contemporary claims concerning rhetoric as a way of knowing.

**CSS 4395 Visual Rhetoric (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
Theories and methodologies pertaining to visual rhetoric.

**CSS 4396 American Rhetoric (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
Origin and development of rhetoric in American social movements, with emphasis on the characteristics of various types of communication situations and the discovery, analysis, and evaluation of common persuasive strategies.

**CSS 4397 Public Discourse and the Classic Liberal Tradition (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
Analysis of major speeches, pamphlets, and essays in England and America on politics and political change from the early seventeenth century through the American Revolution. Topics addressed include the birth of the public sphere, church and state relations, and natural rights.

**CSS 4399 Workshop in Directing the Speech Program (3)**

Pre-requisite(s): Consent of instructor  
Intended primarily for directors of speech activities in high schools and colleges. May be repeated once for credit.

**CSS 4V85 Special Problems in Communication (1-6)**

Pre-requisite(s): Fifteen semester hours in communication and consent of instructor

A conference course designed to give individual students opportunities for additional work in their area of concentration in the Department of Communication. One to three hours may be earned in a semester. May be repeated once with change in content for a total of 6 hours.

## Computer Science (CSI)

**CSI 1095 Computer Science First-year Seminar (0)**

Pre-requisite(s): Restricted to Computer Science majors  
The CS First-Year Seminar is designed to assist new students in making a successful transition from learning in high school (or from another college) to learning at Baylor

Students are guided to accept responsibility for their learning and to understand practices and values that will impact their undergraduate experience; to further instill practicing values that will lead to academic success; and to connect with other new students and faculty members in the department and across campus for the main purpose of helping them be successful in the department of Computer Science, Baylor, and beyond.

**CSI 1130 Introduction to Python for non-majors (1)**

Introduction to programming using the python language. Topics covered include basic data types, writing programs using sequence, branch and loop and using functions from advanced libraries. This course assumes no prior programming experience and does not count towards the computer science degree.

**CSI 1337 Introduction to Video Game Design (3)**

This course will introduce students to the theory and application of video game design. Students will work in teams to create video games in a game development engine. The students will also learn theory behind good game design, including the use of game rules to enhance gameplay, the creation of virtual worlds, and the use of games as a social experience. No prior programming experience is required.

**CSI 1401 Introduction to Programming I (4)**

An introduction to computer science for non-majors, emphasizing computational thinking, problem-solving, small-scale programming, and applications. This includes basic programming constructs such as data, variables, functions, conditionals, loops, lists, files, sets, dictionaries, object-oriented programming, and problem solving. Applications will include image processing, numerical computing, and graphics.

**CSI 1402 Introduction to Programming II (4)**

Pre-requisite(s): C or better in CSI 1401 or CSI 1430  
An advanced introduction to computer science for non-majors emphasizing problem-solving, computational thinking, small-scale programming and applications

This includes more advanced programming concepts such as data structures, class objects, object oriented programming and algorithm analysis.

**CSI 1430 Introduction to Computer Science I with Laboratory (4)**

Introduction to computers, problem solving and algorithm development. Design, code, debug and document programs using techniques of good programming style and C++ programming language. Laboratory experiments and examples will be used to illustrate and reinforce concepts taught in the lectures.

**CSI 1440 Introduction to Computer Science II with Laboratory (4)**

Pre-requisite(s): CSI 1430 with a grade of C or better  
Continuation of CSI 1430. Introduction to basic aspects of arrays, pointers, classes, inheritance, polymorphism, virtual functions, linked lists, stacks, queues, and binary trees.

**CSI 1V90 Special Topics in Freshman Computer Science (1-4)**

For undergraduates who wish to study introductory topics not available in formal courses within the major. Course may be repeated with a change in content or topic.

**CSI 2300 Introduction to Data Science (3)**

Cross-listed as STA 2300

Principles of data science, including problem workflow, variable types, visualization, modeling, programming, data management and cleaning, reproducibility, and big data.

**CSI 2334 Introduction to Computer Systems (3)**

Pre-requisite(s): Minimum grade of B in CSI 1440; Minimum grade of C in CSI 2350 or concurrent enrollment

An introduction to the structure of computer systems and the relationship between software and hardware. Topics include computer organization and representation of information in a computer. An assembly language will be used for programming assignments to illustrate the relationship between high-level languages and machine operations and interpretation of software.

**CSI 2350 Discrete Structures (3)**

Pre-requisite(s): Minimum grade of B in CSI 1440 or concurrent enrollment OR minimum grade of C in CSI 1402 or concurrent enrollment; MTH 1321 or concurrent enrollment

An introduction to the foundations of discrete structures as they apply to computer science, focusing on providing a solid theoretical foundation for further work. Topics include sets, ordered structures, graph and trees, functions, proof techniques, number systems, logic, Boolean algebra, etc.

**CSI 3101 Computers in Society (1)**

Pre-requisite(s): A CSI or BINF major with at least junior-level standing; or consent of instructor

Study of computer ethics, risks, privacy, ownership of software, responsibility and liability, computer crime, and professional codes of conduct as they relate to society.

**CSI 3303 Information Technology (3)**

Topics covered will include hardware and software systems, social and ethical issues, information search strategies for research, and personal and organizational security issues (not applicable to a major in computer science).

**CSI 3324 Numerical Methods (3)**

Cross-listed as MTH 3324

Pre-requisite(s): Minimum grade of C in both CSI 1430 and MTH 1321  
Numerical differentiation and integration, linear systems of equations, numerical solutions of ordinary differential equations, curve fitting, and computational techniques.

**CSI 3334 Data Structures (3)**

Pre-requisite(s): CSI 1440 with a grade of B or better; and CSI 2350 with a grade of C or better

Software design and construction with abstract data types. Description, performance and use of commonly-used algorithms and data structures including lists, trees, and graphs.

**CSI 3335 Database Design and Applications (3)**

Cross-listed as DSC 3335

Pre-requisite(s): CSI 3344 with a grade of C or better or CSI 1402 with a grade of C or better

Current relational database design concepts including ER diagrams and normalization. Database access techniques such as SQL and JDBC. Database issues including performance and security. Web-database applications.

**CSI 3336 Systems Programming (3)**

Pre-requisite(s): CSI 2334 and 3344 with a grade of C or better

The organization and structure of computer systems, basic concepts of an operating system, command line interpreter, script programming, and system calls. Programming projects in Unix and C programming language.

**CSI 3338 Computer Organization (3)**

Cross-listed as ELC 3338

See ELC 3338 for course information.

**CSI 3342 Principles of Software Design (3)**

Pre-requisite(s): CSI 3335

An introduction to object-oriented analysis and design. Iterative development; identification of requirements; software development process; UML notation, models and methods; and introduction to design patterns. Software project using an object-oriented language.

**CSI 3344 Introduction to Algorithms (3)**

Pre-requisite(s): Minimum grade of C in CSI 3334

This course will provide a comprehensive introduction to computer algorithms taken from diverse areas of application. This course will concentrate on algorithms of fundamental importance and on analyzing the efficiency of these algorithms.

**CSI 3371 Software Engineering I (3)**

Co-requisite(s): CSI 3130

Pre-requisite(s): CSI 3334

Fundamentals of Software Engineering; software development processes, requirements analysis, modular design and implementation of software systems, software testing and evolution. A small project to illustrate and extend concepts from lectures.

**CSI 3372 Software Engineering II (3)**

Pre-requisite(s): CSI 3344 and CSI 3471 with a grade of C or better

An engineering approach to software development emphasizing design patterns and techniques for enterprise application development. Completing software project applying development process.

**CSI 3373 Software Quality Assurance and Testing (3)**

Pre-requisite(s): Minimum grade of C in CSI 3471

Quality, how to assure it and how to verify that it exists; the need for a culture of quality; how to avoid errors; inspections and reviews; verification versus validation; testing, verification, and validation techniques; process assurance and product assurance; quality process standards; faults; problem analysis and reporting; and statistical approaches to quality control.

**CSI 3374 Software Project Management (3)**

Pre-requisite(s): Minimum grade of C in CSI 3471 or minimum grade of C in DSC 4310

Project planning, cost estimation, and scheduling; project management tools; factors influencing productivity and success; productivity metrics; analysis of options and risks; planning for change; management of expectations; release and configuration management; software process standards and process implementation; and software contracts and intellectual property.

**CSI 3439 Computer Architecture (4)**

Pre-requisite(s): CSI 2334 with a grade of C or better

Continued study of computer organization, focusing on hardware structure and implementation. Topics include digital logic CPU organization and microprogramming, memory organization, and input/output structures.

**CSI 3471 Software Engineering I (4)**

Pre-requisite(s): A minimum grade of C in CSI 3344 or concurrent enrollment; and a minimum grade of C in CSI 3334

Introduction to UML notation; constructing and interpreting use cases; interpreting UML models; introduction to design patterns; introduction to testing; introduction to configuration management; Java as a second language; and implementing a graphical user interface. Laboratory assignments and a small project illustrate and extend concepts from lectures.

**CSI 3V90 Special Topics in Intermediate Computer Science (1-4)**

Pre-requisite(s): Instructor approval required

For undergraduates who wish to study intermediate topics not available in formal courses within the major. Course may be repeated with a change in content or topic.

**CSI 3V95 Internship Experience (1-3)**

Pre-requisite(s): Computer Science major; consent of instructor  
Department arranged/approved summer intern work experience in computer science-related position. Includes a minimum of eight weeks of employment.

**CSI 4010 Undergraduate Research Seminar (0)**

Pre-requisite(s): Consent of instructor

Introduction of computer science research opportunities to interested computer science undergraduates.

**CSI 4111 Cybersecurity Laboratory (1)**

Pre-requisite(s): Minimum grade of C in CSI 3334 or concurrent enrollment

This is a laboratory course that will emphasize both offensive and defensive security techniques in an applied laboratory environment. The course may be taken 3 times to earn an upper division elective.

**CSI 4144 Competitive Learning (1)**

Pre-requisite(s): CSI 3334 and consent of instructor

Students in the course will learn and implement algorithms to solve programming challenges. Topics include graph algorithms, backtracking search, simulation, geometry, combinatorics, number theory, sorting, searching, parsing, and output formatting. The course may be taken up to 3 times for credit.

**CSI 4301 Cultural Impact of the Computer (3)**

Pre-requisite(s): Upper-level standing

Issues related to the creation and use of computer technology, considered within the broader context of technology and culture. Includes all topics from CSI 3101 as a subset.

**CSI 4321 Data Communications (3)**

Pre-requisite(s): Minimum grade of C in CSI 3336

Fundamentals of computer networking including data transmission, communication software, protocols, simple networks and internetworking.

**CSI 4322 Numerical Analysis (3)**

Cross-listed as MTH 4322

See MTH 4322 for course information.

**CSI 4323 Introduction to Cybersecurity (3)**

Pre-requisite(s): Minimum grade of C in CSI 3471

Minimum grade of C in CSI 3335 and CSI 4321 or concurrent enrollment. This course provides an overview of cybersecurity threats, vulnerabilities, and defensive mitigations. The course will emphasize both theoretical concepts and practical application with critical thinking. Example topics include: authentication, access control, malware, intrusion, firewalls, encryption, software security, auditing/monitoring, and risk management.

**CSI 4325 Advanced Cybersecurity (3)**

Pre-requisite(s): Minimum grade of C in CSI 4321 and CSI 4323

This course provides additional depth and application of the cybersecurity concepts introduced in CSI 4323 (Introduction to Cybersecurity). Example topics include: penetration testing, cyber resilience, trusted computing, reverse engineering, network situational awareness, security architecture, incident handling, threat intelligence, and forensics.

**CSI 4328 Numerical Linear Algebra (3)**

Cross-listed as MTH 4328

See MTH 4328 for course information.

**CSI 4330 Foundations of Computing (3)**

Pre-requisite(s): CSI 3344 with a grade of C or better

Theoretical concepts that form the basis of computer science, including regular languages, context-free languages, Turing-decidable languages, nondeterminism, parsing, NP\_Completeness, and undecidability.

**CSI 4335 Database Design I (3)**

Pre-requisite(s): CSI 3342

Concepts for current relational database design and implementation, including SQL, ER diagrams, normalization, JDBC, XML and DBMS components. Semester project designing a relational database.

**CSI 4336 Introduction to Computation Theory (3)**

Pre-requisite(s): CSI 3344 with a grade of C or better

Several models of computation and their related languages. Topics will include finite automata and regular languages, push-down automata and context-free languages, linear-bounded automata and context-sensitive languages. Turing machines and phrase structure languages, closure properties, decidability results, non-determinism.

**CSI 4337 Introduction to Operating Systems (3)**

Pre-requisite(s): C or better in CSI 3336

Operating system design and implementation. Topics include process control and synchronization, memory management, processor scheduling, file systems, and security. Course projects implement parts of an operating system.

**CSI 4341 Computer Graphics (3)**

Pre-requisite(s): C or better in CSI 3334 and MTH 2311 or 2321

Introduction to graphic representation and display of information and objects by computer. Topics include hardware display technology and algorithms for two-dimensional and three-dimensional graphics. A current graphic system model will be used for programming assignments.

**CSI 4342 Gaming Platform Frameworks (3)**

Pre-requisite(s): CSI 4341 with a grade of C or better

Game Framework Design and Development. An introduction to game development platforms. Topics include: Game design principles, project management, game-related algorithms/mathematics, game physics, game audio/video, AI, development tools, and real-time systems.

**CSI 4344 Object-Oriented Development (3)**

Pre-requisite(s): CSI 3342

Object-oriented analysis and design methods. Group software projects.

**CSI 4352 Introduction to Data Mining (3)**

Pre-requisite(s): Minimum grade of C in CSI 3335, Minimum grade of C in CSI 3344

Introduction to the concepts, techniques, and applications of data warehousing and data mining. Topics include design and implementation of data warehouse and OLAP operations; data mining concepts and methods such as association rule mining, pattern mining, classification, and clustering; applications of data mining techniques to complex types of data in various fields.

**CSI 43C8 Gaming Capstone Design Project (3)**

Pre-requisite(s): Minimum grade of C in CSI 3372, Minimum grade of C in CSI 4321, Minimum grade of C in CSI 4337, Minimum grade of C in CSI 4342, and senior standing

A semester long project course in which students will create a gaming system. The project requires applying information technology according to established design management practices, including technical presentations (oral and written) by all students.

**CSI 43C9 Capstone Design Project (3)**

Pre-requisite(s): Senior standing and Minimum grade of C in CSI 3335, Minimum grade of C in CSI 3372, Minimum grade of C in CSI 4321, and Minimum grade of C in CSI 4337

A semester-long project course in which students will create a computing system. The project requires applying information technology according to established design management practices, including technical presentations (oral and written) by all students.

**CSI 4V96 Special Topics in Computer Science (1-9)**

Pre-requisite(s): Consent of instructor is required

## Computer Science Fellows (CSF)

**CSF 3001 Independent Reading Survey (0)**

Co-requisite(s): CSF 3102

Exit survey taken at the end of two semesters of junior readings and research to summarize a student's independent readings and research, and to ascertain readiness for the senior thesis.

**CSF 3101 Advanced Readings and Research I (1)**

A one-credit-hour course that is designed to facilitate the beginning phase of the CS Fellows thesis project. The course is conducted under the direction of the director of the CS Fellows program and a faculty research advisor from the student's department, concentration area, or area of research.

**CSF 3102 Advanced Readings and Research II (1)**

Pre-requisite(s): CSF 3101 or concurrent enrollment

Continuation of CSF 3101. Continued exploration in the Fellow's research field through advanced readings and/or laboratory or field-work procedures, research, writing, and conversations with professors. Includes submission of a formal thesis proposal.

**CSF 4001 Senior Exit Survey (0)**

Co-requisite(s): CSF 4302

Pre-requisite(s): Completion of CSF 3102 and CSF 3001, and approval of the CS Fellows Director

Required during the final undergraduate semester for all Computer Science Fellows. Ensures that all CS Fellows requirements have been satisfied.

**CSF 4302 Fellows Thesis (3)**

Co-requisite(s): CSF 4001

Pre-requisite(s): CSF 4V01 and approval of the CS Fellows Director  
Thesis with final deliverables that include a complete research paper, any client-specific documentation, and a functional prototype.

**CSF 4V01 Research/Fellows Thesis I (1-3)**

Pre-requisite(s): Completion of CSF 3102 and CSF 3001, and approval of CS Fellows Director

Fellows will work with their Research Advisor to determine the scope of work required for their research/thesis. Culmination of this course is the submission of the outline, first chapter, and bibliography to the Research Advisor and CS Fellows Director.

## Curriculum & Instruction (EDC)

**EDC 3309 Curriculum and Instruction for All-Level Certification (3)**

All-Level Curriculum and Instruction gives the students information and experiences in the decision-making process of creating an effective learning environment for both elementary and secondary students. The course is designed to provide the student with the expertise to discharge the multiple responsibilities associated with teaching in a professional manner.

**EDC 3319 Christian Education for Family Life Ministries (3)**

This course will develop creative and specialized ministries that meet the needs of persons in ministry. It will help ministers to guide and counsel persons throughout the human growth developmental process. It will help persons in ministry develop, evaluate, and administer curriculum plans. Also, it will enable church members to perform functions of church education.

**EDC 3336 Adult Literacy Instruction (3)**

A study of adult literacy instructional techniques and materials. A practicum is included.

## Data Science (DSC)

**DSC 2334 Computing and Computer Fundamentals (3)**

Pre-requisite(s): C or better in CSI 1402 or CSI 1440; C or better in DSC 2350 or CSI 2350 or concurrent enrollment

An introduction to the structure of computer systems and the relationship between software and hardware. Topics include computer organization and representation of information in a computer. Programming assignments will be used to illustrate the digital representation of data, the fundamental tasks associated with an operating system, network communications, etc.

**DSC 2350 Discrete Structures for Data Science (3)**

Pre-requisite(s): C or better in CSI 1402 or concurrent enrollment; MTH 1321 or concurrent enrollment

An introduction to the foundations of discrete structures as they apply to data science, focusing on providing a solid theoretical foundation for further work. Topics include sets, ordered structures, graph and trees, functions, proof techniques, number systems, logic, Boolean algebra, etc.

**DSC 3310 Cloud Computing (3)**

Pre-requisite(s): C or better in DSC 3335

This cloud computing course focuses on practical hands-on experience with modern cloud computing ecosystems. It features content based on active engagement with public cloud services and real-world experiences. Students will be introduced to contemporary coding paradigms designed for horizontally scalable computing environments.

**DSC 3334 Algorithms and Data Structures (3)**

Pre-requisite(s): C or better in CSI 1402

Analysis of the use of appropriate data structures to hold and process large amounts of data. Application of the data structures using data science and machine learning algorithms and discussion of the algorithms' runtimes.

**DSC 3335 Database Design & Application (3)**

Cross-listed as CSI 3335

See CSI 3335 for course information.

**DSC 3344 Analytics for Machine Learning (3)**

Pre-requisite(s): C or better in DSC 3334

An introduction to the data analytics used in machine learning, including descriptive statistics, probability and counting theory, samples and probability distributions, inferential statistics, linear regression, principal component analysis, and non-parametric analysis. Ethics in data analytics are also discussed.

**DSC 4310 Machine Learning (3)**

Pre-requisite(s): C or better in DSC 3335 and 3344

This course provides an introduction to the fundamental methods and theory of modern machine learning. Machine learning algorithms covered include: shallow, mid-level, and deep learning models and their applications as well as unsupervised learning and reinforce learning techniques.

**DSC 4320 Data Visualization (3)**

Pre-requisite(s): CSI 2300

Investigation of the various techniques for creating effective visualizations, incorporating principles of graphic design, cognitive and perceptual psychology, data analysis, and human factors evaluations. Using the growing toolbox for visual description and presentation, students apply visualization techniques and build novel visualization tools for solving complex problems.

**DSC 4354 Cybersecurity for Data Science (3)**

Pre-requisite(s): C or better in DSC 3310 or concurrent enrollment; C or better in DSC 3344 or concurrent enrollment

Provides an overview of cybersecurity threats, vulnerabilities, and defensive mitigations. The course emphasizes both theoretical concepts and practical application with critical thinking. Example topics include: authentication, access control, malware, intrusion, firewalls, database and cloud security, auditing/monitoring, and risk management.

**DSC 43C8 Big Data (3)**

Pre-requisite(s): C or better in DSC 3310; C or better in DSC 4310; C or better in DSC 4320

This course investigates how the data parallel paradigm can be extended to the distributed case, using modern big data tools. Parallel programming models will be investigated in detail. Key issues related to distribution, like latency and network communication will be considered and how they can be addressed effectively for improved performance.

**DSC 43C9 Data Science Capstone (3)**

Pre-requisite(s): C or better in DSC 43C8

A semester-long project course in which students will create a computing system. The project requires applying information technology according to established design management practices, including technical presentations (oral and written) by all students.

**DSC 4V96 Special Topics in Data Science (1-3)**

Pre-requisite(s): Consent of department chair  
Study of advanced topics in data science.

## Economics (ECO)

**ECO 1305 Issues in Economics for Non-Business Majors (3)**

Note: ECO 1305 does not count towards either an economics major or a business degree. This course provides an introduction to basic economic concepts, models, and tools used in economic analysis. In order to develop an appreciation for the value of economic analysis, applications are emphasized throughout the course. Students have the opportunity to apply the tools of economic analysis to a variety of issues including price controls, taxes, poverty, pollution, discrimination, competitive and monopolistic markets, economic growth, inflation and unemployment.

**ECO 1380 Introduction to Economic Analysis and Policy (3)**

Pre-requisite(s): Admission in the University Scholars Program, Baylor Business Fellows Program, Hankamer Scholars, or Honors Program; or consent of department

The nature and outcomes of economic decision-making at the individual, market, and aggregate levels. Rooted in traditional neoclassical economics and augmented with insights from the literature on transactions costs and institutions. Special attention is paid to questions of morality underlying economic decision-making.

**ECO 2306 Principles of Microeconomics (3)**

Pre-requisite(s): Cumulative GPA of 3.0 or higher

Microeconomic analysis including the theories and applications of demand, production, industrial organization, international trade, and Christian ethics in economic decisions.

**ECO 2307 Principles of Macroeconomics (3)**

Pre-requisite(s): Cumulative GPA of 3.0 or higher

A minimum grade of C in ECO 2306. A study of basic economic concepts, business organization, economic role of government, national income analysis, national income theory, money and banking, and the business cycle.

**ECO 3305 Money and Banking (3)**

Pre-requisite(s): A minimum grade of C in ECO 1380 or a minimum grade of C in ECO 2306 and 2307; and a minimum grade of C in MTH 1309 or MTH 1321

A study of the structure and functioning of American financial institutions; the functioning of financial markets and the nature of security prices and interest rates; the basic concepts of bank management; the nature of money and the role of the central bank in its creation; the basic structure of the economy and the impact of monetary actions on this structure; and the basic tenets of Monetarism and modern Keynesian monetary theory.

**ECO 3306 Intermediate Microeconomic Analysis (3)**

Pre-requisite(s): A minimum grade of C in ECO 1380 or a minimum grade of C in ECO 2306 and 2307; and a minimum grade of C in MTH 1309 or MTH 1321

Designed to provide an intensive study of contemporary microeconomic theory. Topics include consumer demand; market structure; production theory; the nature and behavior of costs; the pricing and allocation of productive resources; and the distribution of income. Emphasis is given to the use of these tools in business decision making.

**ECO 3307 Intermediate Macroeconomic Analysis (3)**

Pre-requisite(s): A minimum grade of C in ECO 1380 or a minimum grade of C in ECO 2306 and 2307; and a minimum grade of C in MTH 1309 or MTH 1321

Theories of long-term growth and short-term fluctuations in national economies, with emphasis on the macroeconomic implications of government policy. Topics include the national income accounting, long-run economic growth, unemployment, inflation, interest rates, exchange rates, international trade and investment, alternative theories of the business cycle, monetary policy, and fiscal policy.

**ECO 3308 Engineering Economic Analysis (3)**

Designed to provide an economic foundation for engineering decisions.

The course stresses methods for making optimum choices among engineering alternatives. Topics include cash flow and present value analysis; break-even analysis; the impact of taxes and inflation on investment decisions; methods for assigning costs; the treatment of risk in decision making; and capital budgeting. (Will not count toward a major in economics.)

**ECO 3331 International Economics (3)**

Pre-requisite(s): A minimum grade of C in ECO 1380, or a minimum grade of C in ECO 2306 and ECO 2307; and junior standing

International trade theories, trade policies and their effects, regional economic integration, international economic organizations, trade problems of less developed countries, determination of exchange rates, and functioning of the international monetary system. A student may not earn credit in both ECO 3331 and INB 3332.

**ECO 3355 Introduction to the Economics of Poverty and Discrimination (3)**

Cross-listed as SOC 3355

Pre-requisite(s): Upper-level standing; not open to pre-business or business students

This course develops and applies basic economic concepts to questions of poverty, inequality, and discrimination in the United States, and to global poverty issues. Special attention will be paid to the contribution economic principles can make to understanding family structure, participation in the labor force, and gender and racial discrimination. Attention will also be paid to evaluating public policies designed to ameliorate poverty and discrimination, including social insurance, welfare programs, minimum and living wage laws, and equal opportunity policies. No previous knowledge of economics is necessary; all necessary economic principles will be developed in this class. (Will not count toward a major in economics.)

**ECO 3390 Topics in Economics (3)**

Pre-requisite(s): A minimum grade of C in ECO 1380 or a minimum grade of C in ECO 2306 and 2307; and a minimum grade of C in MTH 1309 or MTH 1321

Topics in the study of economics not covered by regular course offerings. Course may be repeated once for credit when topics vary.

**ECO 4306 Welfare Economics (3)**

Pre-requisite(s): A minimum grade of C in ECO 3306

Economic efficiency and its implications for social organization, human flourishing, and policy. Defining, measuring, and finding the means of achieving optimal human wellbeing. Pareto efficiency and the conditions necessary for it based on the Fundamental Theorems of welfare economics, and its application to markets, private organizations, government, and policy choices.

**ECO 4312 Business Cycles and Forecasting (3)**

Pre-requisite(s): A minimum grade of C in ECO 1380 or a minimum grade of C in ECO 2306 and 2307; BBA students must be admitted to the Business School in order to take this course

Examines basic causes of fluctuation in business activity. Topics include an examination of exogenous and endogenous influences on Gross National Product and other measures of economic activity, and the relationship between cycles in Gross National Product and cycles in particular industries and companies. The course emphasizes methods and techniques currently in use by business forecasters.

**ECO 4314 Behavioral and Experimental Economics (3)**

Pre-requisite(s): A minimum grade of C in ECO 1380, or a minimum grade of C in ECO 2306; BBA students must be admitted to the Business School in order to take this course

Application of the scientific method to economics using laboratory experimentation to test economic theories about individual and group behavior. Introduction of insights to economic modeling from psychology and other social sciences. Emphasis on the frontiers of research through study of journal articles.

**ECO 4316 Economics of Firms, Industries, and Markets (3)**

Pre-requisite(s): ECO 3306; BBA students must be admitted to the Business School in order to take this course

Examines the economic organization of industry; a survey of major theoretical and applied issues in the field of industrial organization. Topics include theory of the firm, the welfare consequences of competition and market power, goals of the firm and market effects, collusion, mergers, price discrimination, product differentiation, predation, and public policy.

**ECO 4317 The Economics of Regulation (3)**

Pre-requisite(s): A minimum grade of C in ECO 3306

The impact of government on market outcomes and business decision-making. Topics covered include the historical development of business and public policy, the current state of antitrust enforcement; issues involving multinational corporations; the basis for regulated markets and forces favoring deregulation; the impact of consumer protection laws, environmental protection policies, occupational and safety enforcement; and affirmative action policies on business; and the outlook for government and business relations in the future.

**ECO 4318 Law and Economics (3)**

Pre-requisite(s): A minimum grade of C in ECO 3306

Interrelationship of microeconomic theory and the law. The course looks at both the effects of law on economic activity and the effects of economic forces on the development of the law. Particular areas of law that will be discussed include property, contracts, torts, and procedure.

**ECO 4319 Game Theory (3)**

Pre-requisite(s): A minimum grade of C in ECO 1380, or a minimum grade of C in ECO 2306; BBA students must be admitted to the Business School in order to take this course

An elementary examination of the theory of games and strategic behavior with an emphasis on applications. Topics discussed include strategic form games, extensive form games, and games of asymmetric and incomplete information. Various equilibrium concepts will be discussed. Applies game theoretic concepts to strategic behavior in the social sciences, particularly economics and political science, with applications ranging from cartel behavior to international diplomacy.

**ECO 4320 The Economics of Government (3)**

Pre-requisite(s): A minimum grade of C in ECO 3306 Sources of public revenues, problems of the revenue system, public expenditures and budgeting, and public borrowing

**ECO 4321 Energy Economics (3)**

Cross-listed as AVS 4321

Analysis of energy markets, with a focus on static and dynamic efficiency. Oil, natural gas, coal, nuclear, and renewables (including wind, solar, hydro, geothermal, and biofuels). Regulation and deregulation in electricity and natural gas markets. Energy derivatives. Policy issues related to market externalities, including pollution and climate change.

**ECO 4323 The Environment and Economic Analysis (3)**

Cross-listed as AVS 4323, ENV 4323

See ENV 4323 for course information.

**ECO 4325 Urban and Regional Economic Analysis (3)**

Pre-requisite(s): A minimum grade of C in ECO 1380 or a minimum grade of C in ECO 2306 and ECO 2307; junior standing; BBA students must be admitted to the Business School in order to take this course

Focuses on the use of economic tools to analyze the key intraregional markets-land and housing, transportation, labor and public services and examines their public policy implications. Also examines interregional relationships, the growth and decline of cities, and the economics of urbanization.

**ECO 4333 Foreign Exchange Markets (3)**

Cross-listed as INB 4333

Pre-requisite(s): A minimum grade of C in ECO 1380, or a minimum grade of C in ECO 2306 and 2307; junior standing; BBA students must be admitted to the Business School in order to take this course

Description and analysis of currency markets, emphasizing their roles in the business environment. Topics include spot forward, futures, and options markets, currency, and interest rate swaps, models of exchange rate determination, the operation and relative merits of fixed and flexible exchange rate systems, and the management of exchange rate risk by business.

**ECO 4334 Economic Development (3)**

Cross-listed as INB 4334

Pre-requisite(s): A minimum grade of C in ECO 1380, or a minimum grade of C in ECO 2306 and 2307; junior standing; BBA students must be admitted to the Business School in order to take this course

Critical analysis of current explanations of economic growth and development, involving historical aspects, policies for achieving development in emerging countries, and conditions necessary for continued growth in advanced countries.

**ECO 4335 Asian Economic Development (3)**

Cross-listed as AST 4335, INB 4335

Pre-requisite(s): ECO 1305 or a minimum grade of C in ECO 2306 and 2307; junior standing; BBA students must be admitted to the Business School in order to take this course

A survey of the evolution of selected economies of Asia, with the aim of identifying in each case those conditions and policies which have aided or hindered economic progress.

**ECO 4336 Economics of Labor (3)**

Pre-requisite(s): ECO 3306; BBA students must be admitted to the Business School in order to take this course

Neoclassical approach to labor market analysis. Special attention is paid to the study of labor market phenomena from a microeconomic perspective, including the theory of wage rate determination, the concept of investment in human capital, the problems of race and sex discrimination, unemployment, and the impact of unionization on the structure of wages. Upon completion of this course a student will have a general working knowledge of the state of the art in labor market analysis and research.

**ECO 4338 Economic Systems of the World (3)**

Cross-listed as AST 4338, INB 4338

Pre-requisite(s): Junior standing; BBA students must be admitted to the Business School in order to take this course

An examination of the institutional structures and relative performance of representative capitalist and socialist economies of the world. Countries surveyed include the United States, Britain, France, Germany, Japan, the former Soviet Union, Hungary, China and Yugoslavia.

**ECO 4343 History of Economic Thought (3)**

Pre-requisite(s): A minimum grade of C in ECO 1380, or a minimum grade of C in ECO 2306 and 2307; junior standing; BBA students must be admitted to the Business School in order to take this course

Development of economic thought in relation to its economic and institutional background from the ancient philosophers to Alfred Marshall and neoclassical economists. Emphasis is placed on the contributions to economic thought of the founders.

**ECO 4345 Mathematical Analysis in Economics (3)**

Pre-requisite(s): A minimum grade of C in ECO 3306

Designed to acquaint the student with rudimentary mathematical techniques and their application to economic analysis.

**ECO 4347 Econometrics (3)**

Pre-requisite(s): A minimum grade of C in ECO 1380, or a minimum grade of C in ECO 2306 and 2307; a minimum grade of C in QBA 3305, STA 2381, or STA 3381; BBA students must be admitted to the Business School in order to take this course

Elementary and advanced topics in the application of statistical methods to economic inquiry. Multiple regression, forecasting, advanced estimation processes and simultaneous equation techniques are emphasized. The detection and treatment of problem areas are also examined.

**ECO 4349 Causal Inference and Research Design (3)**

Pre-requisite(s): A minimum grade of C or better in ECO 4347

Introduction to modern tools for determining the existence of causal relationships among variables. Emphasizes both the design of the research process and the use of advanced econometric techniques.

**ECO 4350 Economics of Health and Medical Care (3)**

Pre-requisite(s): A minimum grade of C in ECO 1380, or a minimum grade of C in ECO 2306; BBA students must be admitted to the Business School in order to take this course

Economic aspects of health and medical care: theory, empirical evidence, history, institutions, and public policy.

**ECO 4351 Data Science I (3)**

Pre-requisite(s): A minimum grade of B in ECO 4347

Best practices in data collection, cleaning, manipulation, and data and code management. Methods and principles of data exploration and visualization. Unsupervised statistical learning techniques, supervised statistical learning techniques, and false discovery principles.

**ECO 4352 Data Science II (3)**

Pre-requisite(s): A minimum grade of B in ECO 4347 and 4351

Assessing model accuracy, resampling methods, model selection, regularization, and dimension reduction. Machine learning techniques and their applications in economic research.

**ECO 4355 Economic Poverty and Discrimination (3)**

Cross-listed as SOC 4355

Pre-requisite(s): Minimum grade of C in ECO 2306; BBA students must be admitted to the Business School in order to take this course  
Market and non-market issues in income determination. Emphasis on the supply and demand model and its application to the analysis of poverty and the poverty population. The effects of labor incomes and demographic and institutional factors of living standards, achievements, and shortcoming of income maintenance (welfare), equal opportunity and employment programs will be analyzed.

**ECO 4380 Economic Reasoning and Policy Analysis (3)**

Pre-requisite(s): ECO 3306, 3307, and 4347 recommended; BBA students must be admitted to the Business School in order to take this course

An integrative capstone course for economics majors in which the technique of economic analysis are applied to a wide range of issues. Emphasis on the application of basic and advanced economic theoretical and empirical techniques to the analysis of issues relevant to the student's undergraduate degree program and career goals. Basic concepts emphasized throughout the course includes the effect of incentives on behavior, the role of markets as resource allocation mechanisms, and the use of optimization analysis as a standard for comparing outcomes.

**ECO 4390 Advanced Topics in Economics (3)**

Pre-requisite(s): Minimum grade of C in ECO 3306

Advanced topics in the study of economics not covered by regular course offerings. Course may be repeated once for credit when topics vary.

**ECO 4V98 Special Studies in Economics (1-6)**

Pre-requisite(s): Not open to pre-business students

With the consent of the chair of the Department of Economics, this course may be taken for one to six semester hours of credit.

## Education (EDU)

**EDU 2305 Technology-based Communication Tools - A (3)**

Basic keyboarding skills. EDU 2305 may be taken without taking 2306. Personal communication through the use of technology. Students will use application software and the computer to facilitate learning and to meet course criteria. Lab experiences required.

**EDU 2306 Technology-based Communication Tools - B (3)**

Pre-requisite(s): EDU 2305

Continuation of EDU 2305.

**EDU 2V99 Foreign Study/Teacher Education (1-15)**

hrs.

## Educational Leadership (EDL)

**EDL 4363 Philosophy, Principles, and Administration of Human Performance (3)**

Cross-listed as HP 4363

See HP 4363 for course information.

## Educational Psychology (EDP)

**EDP 2336 The Developing Child (3)**

A study of the physical, cognitive and affective development of a child from prenatal to eighteen years of age. Emphasis is placed on current literature, research findings and developmental theories.

**EDP 2350 Teaching Gifted and Talented (3)**

Pre-requisite(s): Completion of TED 1312 or concurrent enrollment

This course provides information about characteristics of gifted and talented learners and their needs. Students will learn the role of a teacher and instructional strategies related to guided research that are then applied in one-to-one teaching experiences.

**EDP 2360 Teaching Special Education (3)**

This course provides initial preparation in the role of a special education teacher. Students will learn teaching techniques and strategies for students with mild disabilities that are then applied in a one-to-one or one-to-two teaching experience.

**EDP 3324 Learning and Development (3)**

A study of the relationship between development and learning. Physical, cognitive, personal, social, moral, and language development as well as selected theories of learning and motivation are considered. (Credit may not be earned for this course if credit is earned in EDP 3325.)

**EDP 3325 Introduction to Educational Psychology (3)**

The principles of educational psychology as applied to teaching. Content of the course includes the principles of human growth and development, learning, motivation, and measurement as they relate to the role of the teacher. Special problems related to the effect of cultural and economic factors will also be included. (Credit may not be earned for this course if credit is earned in EDP 3324.)

**EDP 3327 Assessment Theory and Exceptionality (3)**

A study of the process of collecting data for the purpose of assessing individual differences and making decisions about the education of exceptional students.

**EDP 3330 Early Childhood Intervention (ECI): An Interdisciplinary Approach (3)**

An introductory course in child development is recommended as a prerequisite. Family-centered, interdisciplinary services for young children at-risk for developmental disabilities. Students will study the history, rationale, controversies, and current best practices within the field of early intervention.

**EDP 3334 Collaborative Consultation in Special Education (3)**

Pre-requisite(s): EDP 2360; EDP 3470; EDP 3368; EDP 3660 and EDP 4352

A course emphasizing collaborative consultation processes with parents, teachers, support personnel, school administrators and students. Includes twenty hours of field experiences.

**EDP 3361 Developmental Disabilities (3)**

In this course a review of normal human development provides the basis for an in-depth study of the etiology, characteristics, treatment, and prevention of developmental disabilities including autism, cerebral palsy, learning disabilities, intellectual disabilities, and seizure disorders.

**EDP 3362 Teaching Associate Special Education Part II (3)**

Co-requisite(s): EDP 3379

Pre-requisite(s): EDP 3660 This practicum provides a field experience in the assessment, education, and management of students with moderate, severe, and profound disabilities

**EDP 3368 Assessment of Students with Mild Disabilities (3)**

Co-requisite(s): EDP 3470

Pre-requisite(s): EDP 2360

A course focusing on formal and informal assessment currently used in special education for students with mild disabilities. The completion of a case study requiring the administration, scoring, and interpretation of individual assessments is included.

**EDP 3376 Applied Behavior Analysis (3)**

Analysis and management of problem behaviors. Emphasized topics include behavior measurement techniques, functional assessment procedures, and behavior intervention methods.

**EDP 3379 Education of Students with Moderate-Severe Disabilities (3)**

Co-requisite(s): EDP 3362

Emphasis is on specially designed instruction and assessment of individuals with moderate to severe disabilities from infancy to adulthood including teaching techniques, assistive technology, and transition.

**EDP 3470 Literacy for Students with Special Needs (4)**

Co-requisite(s): EDP 3368

Pre-requisite(s): EDP 2360

A lab-based course involving application of methods for teaching oral/written language and reading to students with special needs. Includes sixty hours of field experience.

**EDP 3650 Teaching Associate Gifted Education Part I (6)**

Pre-requisite(s): Credit or concurrent enrollment in EDP 2350; and EDP 3324, and EDP 3326

In this course, teacher candidates teach small groups of gifted and talented and general education students within a specific disciplinary area that matches their certificate areas. The practicum consists of 97.5 hours in a professional development or partner school (7.5 hours per week). Teacher candidates will work with small and large groups of students. Course includes a weekly seminar.

**EDP 3660 Teaching Associate Special Education Part I (6)**

Pre-requisite(s): EDP 2360, EDP 3470, EDP 3368, and EDP 4352

A practicum of one hundred hours providing experience in adapting instruction for learners with special needs within the general education classroom. Students learn how to manage behavior, adapt lessons, individualize instruction, and correlate multi-level materials in a field-based setting. Course includes a weekly seminar.

**EDP 4341 The Adult Learner (3)**

Characteristics of the young and mature adult learners with an emphasis on intellectual and social development. An analysis of theories of adult learning is included.

**EDP 4350 Introduction to Gifted Education (3)**

Introduces students to policies, theories, and models of gifted education including talent development and advanced academic programs from elementary school through high school. Students learn specialized approaches to teaching consistent with the goals of gifted education, honors programs, and advanced academics.

**EDP 4351 Differentiated Instruction (3)**

Pre-requisite(s): EDP 2350 or EDP 2360

Historical, philosophical, and theoretical background of curriculum differentiation and specific strategies to adapt instruction for individual student differences related to rate, content, and preferences. Emphasis on best practices in differentiated instruction as demonstrated by empirical research.

**EDP 4352 Exceptionalities (3)**

Pre-requisite(s): EDP 2350 or EDP 2360 or consent of instructor

Historical foundations, laws, policies, and issues regarding definitions and the identification of individuals with exceptional learning needs, including those from culturally and linguistically diverse backgrounds.

**EDP 4379 Education of Students with Moderate-Severe Disabilities (3)**

Co-requisite(s): EDP 4377

Pre-requisite(s): EDP 3376 and admission to teacher education

Types, characteristics, etiologies, education and treatment of individuals with moderate to severe disabilities from infancy to adulthood.

**EDP 4383 Adapting Instruction for Special Needs Learners (3)**

Co-requisite(s): EDP 4378

Pre-requisite(s): EDP 3376 and admission to teacher education; EDP 4378

Students acquire various methods for adapting for learner differences within the general education classroom including redesigning direct teaching lessons, developing assessment tasks, correlating multi-level activities, individualizing, and mastery learning. Emphasis will be placed on strategies for classroom organization and management such as grouping, scheduling, room arrangement, and record keeping.

**EDP 4468 Math for Learners with Special Needs (4)**

Pre-requisite(s): EDP 2445 and admission to teacher education

A field-based course involving application of direct instruction methods in mathematics to students with a variety of learning needs. Emphasis is placed on analyzing and sequencing the essential elements of mathematics to facilitate mastery. Includes sixty hours of field experience in a multicultural setting.

**EDP 4650 Internship Gifted and Talented Part I (6)**

Co-requisite(s): EDP 4651

Pre-requisite(s): Grade of B or better in EDP 3650 and EDP 2350

Full-time teaching experience in a classroom with specific emphasis on gifted and talented students. A mentor teacher and resident faculty will support teacher candidates as they gradually assume complete responsibilities for teaching. Course includes two eighty-minute seminars per week.

**EDP 4651 Internship for Gifted and Talented Part II (6)**

Co-requisite(s): EDP 4650

Pre-requisite(s): Grade of B or better in EDP 3650 and TED 3651

Planning and preparing lessons and materials for full-time teaching with specific emphasis on gifted and talented students. Include completion of content modules, conferencing with mentor teacher and university instructor, written lesson reflections, observation of lessons taught by master teachers, and preparation of web-based portfolio.

**EDP 4660 Internship Special Education Part I (6)**

Co-requisite(s): EDP 4661

Pre-requisite(s): Grade of B or better in EDP 3660

Full-time teaching experience in a professional development school with students who have special learning needs. A special education mentor teacher and resident faculty will support teacher candidates as they gradually assume complete responsibilities for teaching. Course includes two eighty-minute seminars per week.

**EDP 4661 Internship Special Education Part II (6)**

Co-requisite(s): EDP 4660

Pre-requisite(s): Grade of B or better in EDP 3660

Planning and preparing lessons and materials for full-time teaching of students with special needs. Includes completion of content modules, conferencing with mentor teacher and university instructor, written lesson reflections observation of lessons taught by master teachers, and preparation of web-based portfolio.

**EDP 4662 Internship Special Education Part III (6)**

Co-requisite(s): EDP 4663

Pre-requisite(s): Grade of B or better in EDP 3660 and EDP 3661

Continuation of EDP 4660 and EDP 4661.

**EDP 4663 Internship Special Education Part IV (6)**

Co-requisite(s): EDP 4662

Pre-requisite(s): Grade of B or better in EDP 3660 and EDP 3661

Continuation of EDP 4660 and 4661.

**EDP 4V75 Practicum: Teaching in Today's Schools (1-6)**

Pre-requisite(s): Consent of instructor

A practicum for students in the two-semester professional development school cohort. The course provides supervised practice in all student teacher proficiencies. This experience includes practice in: classroom organization and management, assessment, planning/delivery of instruction, adapting instruction for individual needs, collaboration technology and professionalism. A minimum of 40 hours of experience is required for each hour of credit.

## Electrical & Comp Engineering (ELC)

**ELC 2130 Electrical Circuit Laboratory (1)**

Co-requisite(s): ELC 2330

Laboratory experience in electrical circuit design using discrete components, standard bench equipment, and simulation in modern CAD software.

**ELC 2137 Digital Logic Design Laboratory (1)**

Co-requisite(s): ELC 2337

Pre-requisite(s): B or better in EGR 1302

Laboratory experience in digital circuit design using modern CAD tools and programmable logic devices.

**ELC 2320 Electric Circuit Theory for non-ECE majors (3)**

Pre-requisite(s): B or better in EGR 1302; C or better in MTH 1322; C or better in PHY 1430 or concurrent enrollment

Linear circuit elements, sources, Kirchhoff's laws, mesh and node equations, Thevenin and Norton equivalent circuits, resistive network analysis, sinusoidal steady-state analysis, power, transient analysis of simple circuits. Does not apply toward the degree requirements of Electrical and Computer Engineering majors.

**ELC 2330 Electrical Circuit Theory (3)**

Co-requisite(s): ELC 2130

Pre-requisite(s): B or better in EGR 1302; C or better in MTH 1322; C or better in PHY 1430 or concurrent enrollment

Linear circuit elements, sources, Kirchhoff's laws, mesh and nodal analysis, Thevenin and Norton equivalent circuits, resistive network analysis, sinusoidal steady-state analysis, AC and DC power, transient analysis of RL, RC, and RLC circuits.

**ELC 2337 Digital Logic Design (3)**

Co-requisite(s): ELC 2137

Pre-requisite(s): B or better in EGR 1302

Boolean algebra, number systems and representations, analysis and design of combinational and sequential logic circuits, minimization, small- and medium-scale integrated devices, programmable logic, and simulation of digital circuits. (3-0).

**ELC 2V97 Special Topics or Project (1-3)**

Cross-listed as EGR 2V97

Pre-requisite(s): Consent of department chair

This course provides the opportunity for recognition of supervised, non-research, academic experiences that are in addition to degree requirements. Registration requires approval by the department chair and sponsoring faculty member. The determination of degree credits is at the time of registration. One to three hours.

**ELC 3114 Electronic Design Laboratory (1)**

Pre-requisite(s): C or better in ELC 2130; C or better in ELC 3314 or concurrent enrollment

Laboratory experience in electronic design.

**ELC 3314 Electronic Design (3)**

Pre-requisite(s): C or better in CHE 1301; C or better in ELC 2330; C or better in ELC 3335 or concurrent enrollment; C or better in ELC 3114 or concurrent enrollment

Analysis and design of analog and digital electronic circuits using diodes, bipolar transistors, and field effect transistors. Design and application of digital and analog circuits.

**ELC 3331 Electrical Networks and Systems (3)**

Pre-requisite(s): C or better in ELC 2330

AC circuits and power, magnetically coupled circuits, analysis of networks and systems by Laplace and Fourier transform and state-variable methods, two-port networks, frequency response and network functions, transmission lines, and 3-phase ac power.

**ELC 3335 Signals and Systems (3)**

Pre-requisite(s): C or better in ELC 2330; C or better in MTH 2311; C or better in MTH 3325

Analysis of signals and systems in the time domain using differential equations and convolution with the impulse response, and in the frequency domain using Fourier series, Fourier transforms and Laplace transforms with transfer functions.

**ELC 3336 Microprocessor Systems (3)**

Pre-requisite(s): C or better in ELC 2337; C or better in CSI 1430

Program development of microprocessor systems using assembly and C/C++ programming languages. Topics include processor architecture, data representation, exceptions, I/O devices, memory management, and real-time operating system principles.

**ELC 3337 Applied Electromagnetic Fields (3)**

Pre-requisite(s): C or better in ELC 2330

Vector description of the electric and magnetic properties of free space (using the laws of Coulomb, Ampere, and Faraday). Maxwell's electromagnetic field equations. Wave propagation in unbounded regions, reflection and refraction of waves, waveguides, and transmission lines.

**ELC 3338 Computer Organization (3)**

Cross-listed as CSI 3338

Pre-requisite(s): C or better in ELC 3336 or C or better in CSI 3439

Introduction to the organization and design of general purpose digital computers. Topics include instruction sets, CPU structures, hardwired and microprogrammed controllers, memory, I/O systems, hardware description languages and simulations.

**ELC 4311 Advanced Logic Design (3)**

Pre-requisite(s): C or better in ELC 3338 or concurrent enrollment

Computer-automated design of digital circuits. Functional specification; structural and behavioral modeling using hardware description languages; simulation for design verification and timing analysis; circuit synthesis for FPGA implementation; testing and fault diagnosis.

**ELC 4318 Avionics System Design (3)**

Cross-listed as AVS 4318

Design of avionics systems for civil and military aircraft. Topics include avionics system technology and architectures; system engineering principles; radar, electro-optical, and radio frequency sensors; displays; and communication and navigation systems.

**ELC 4320 Introduction to Optics (3)**

Pre-requisite(s): C or better in ELC 3335

Geometrical optics, electromagnetic waves, diffraction, interference, polarization, Fourier optics, laser fundamentals, and optical communication basics. Laboratory sessions include semiconductor laser measurement, fiber optic coupling, and Michelson interferometer setup.

**ELC 4321 Computational Photonics (3)**

Pre-requisite(s): C or better in ELC 3337

This course provides an introduction to the computational methods for optics and photonics. Topics include applied numerical methods, electromagnetism, optical waveguides, and the finite-difference time-domain method. Matlab program and commercial software will be used to model different photonic devices.

**ELC 4322 Integrated Photonics (3)**

Pre-requisite(s): C or better in ELC 3337

This course provides an introduction to wave propagation, optical waveguide theory, and integrated photonic devices. Topics include dispersion, nonlinearity, dielectric slab waveguides, fiber optics, nanophotonic devices, and nanofabrication techniques. Students will learn fundamentals of scanning electron microscopy, atomic force microscopy, and focused ion beam technologies. It includes a hands-on simulation component using photonic design software.

**ELC 4323 Solid-State Materials (3)**

Pre-requisite(s): C or better in ELC 3337

Investigation of the materials used in electrical and optical devices, including metals, insulators, and semiconductors. Topics include crystal structure, quantum theory, band structure, thermal, electrical, and optical properties, and dielectric, magnetic, and superconducting properties of solids.

**ELC 4324 Semiconductor Devices (3)**

Pre-requisite(s): C or better in ELC 3337 and Senior Standing

Topics will include an introduction to semiconductor materials (optical and electronic properties), p-n junctions, transistors, bipolar junction transistors, field effect transistors, light-emitting diodes, lasers, and photodetectors.

**ELC 4325 Fundamentals of Lasers (3)**

Pre-requisite(s): C or better in ELC 3337 and Senior Standing

Introduction to the principles of operation of lasers, including interaction of light and matter, spontaneous and stimulated emission, optical gain and absorption, population inversion, optical resonators, laser rate equations, waveguides, Gaussian beams and wave propagation, and characteristics and applications of specific lasers, including gas lasers and semiconductor lasers.

**ELC 4329 Introduction to Microfabrication (3)**

Pre-requisite(s): C or better in EGR 3380

Introductory course on microfabrication processes with emphasis on hands-on training in the cleanroom at the BRIC. Students will learn key microfabrication processes and get trained on cleanroom equipment used to fabricate semiconductor devices, photonic devices, microfluidic devices, and microelectromechanical systems (MEMS).

**ELC 4330 Introduction to Robotics (3)**

Cross-listed as ME 4330

Pre-requisite(s): C or better in MTH 2321; C or better in MTH 3325

Analysis of robot manipulators, including forward and inverse kinematics, rigid-body rotation parameterizations, velocity kinematics, path planning, nonlinear dynamics, single and multi-variable control.

**ELC 4331 Electric Machines and Drives (3)**

Pre-requisite(s): C or better in ELC 3314; C or better in ELC 3337

Introduction to electric motors and drives systems. Topics covered include dc machines, ac machines, permanent magnet machines and emerging machines topologies and their associated power electronic motor drives. Course will also cover the transformer as a static electric machine as well as linear electric machine configurations. Application specific requirements and design considerations will be covered.

**ELC 4332 Automatic Control Systems (3)**

Pre-requisite(s): C or better in ELC 3335

Analysis and design of linear feedback control systems. Laplace transforms, transfer functions, signal-flow graphs, electrical and mechanical system modeling, state variables, system stability, time-domain response, root-locus method, Nyquist criterion, and compensator design. Laboratory exercises to illustrate course concepts.

**ELC 4335 Systems Modeling and Control (3)**

Pre-requisite(s): C or better in ELC 2320 or C or better in ELC 2330; C or better in ME 4325

Modeling, analysis, design, and control of dynamic systems involving mechanical, electrical, thermal, and fluid components. System behavior in time and frequency domains, state-space formulation, feedback control.

**ELC 4340 Power Systems (3)**

Pre-requisite(s): C or better in ELC 3335

Analysis of power systems, including energy sources, transmission lines, power flow, transformers, transmission and distribution systems, synchronous generators, stability, power system controls, short-circuit faults, and system protection.

**ELC 4345 Power Electronics (3)**

Pre-requisite(s): C or better in ELC 3314; C or better in 3114

Introduction to power electronic systems with emphasis on power control and switching circuits for AC/DC, DC/DC, and DC/AC converters. Associated laboratory component.

**ELC 4350 Principles of Communication (3)**

Pre-requisite(s): C or better in ELC 3335; C or better in STA 3381

Signal analysis, modulation techniques, random signals and noise, digital transmission, information theory, coding.

**ELC 4351 Digital Signal Processing (3)**

Pre-requisite(s): C or better in ELC 3335; C or better in STA 3381

Discrete-time signals and systems, sampling theory, z-transforms, spectral analysis, filter design, applications, and analysis and design of discrete signal processing systems. Credit cannot be earned for ELC 4351 if credit is earned for BME 4452.

**ELC 4353 Image Formation and Processing (3)**

Cross-listed as BME 4353

Pre-requisite(s): C or better in ELC 3335 or concurrent enrollment; C or better in STA 3381

Introduction to image formation systems that provide images for medical diagnostics, remote sensing, industrial inspection, nondestructive materials evaluation and optical copying. Image processing, including image enhancement, analysis, and compression. Student specialization through assignments and project.

**ELC 4357 Cardiovascular Engineering and Instrumentation (3)**

Cross-listed as BME 4357, EGR 4357, ME 4357

See BME 4357 for course information.

**ELC 4360 Software Systems (3)**

Pre-requisite(s): C or better in ELC 3336

Software engineering methods and tools. Topics include the development lifecycle, requirements, specifications, design, implementation, verification, validation, and maintenance, project management and professional ethics.

**ELC 4362 Wireless Sensor Networks (3)**

Pre-requisite(s): C or better in ELC 3338; C or better in ELC 3314; or consent of instructor

Characterization and design of large-scale wireless sensor networks. Topics include wireless channel utilization, media access protocols, routing, energy management, synchronization, localization, data aggregation, and security. Laboratory exercises using wireless sensor devices, cross-development, and real-time operating systems.

**ELC 4366 Quantum Mechanics for Engineers (3)**

Pre-requisite(s): C or better in MTH 2311; C or better in MTH 3325; C or better in STA 3381

We will explore the surprising behaviors found in the quantum world, basic principles of wave functions, and the application of quantum mechanics in systems such as quantum harmonic oscillators, semiconductors, quantum-dot cellular automata, quantum computing, and quantum communication. We also learn to use linear algebra as a description for quantum systems, since this is important in the realms of quantum computing and molecular computing.

**ELC 4367 Introduction to Quantum Computing (3)**

Pre-requisite(s): C or better in MTH 2311; C or better in STA 3381

This course introduces the student to quantum information processing. First, linear algebra is established as the mathematical language for describing quantum computing. Then, several quantum information algorithms are demonstrated, building up to Shor's famous algorithm for defeating a widely-used classical encryption scheme. Alternate models of quantum computing, classical computing, and quantum communication also are discussed.

**ELC 4372 Bioinstrumentation (3)**

Cross-listed as BME 4372

Pre-requisite(s): C or better in ELC 2330

Principles of biomedical instrumentation and their real-world applications. Emphasis on understanding the basic design principles and technologies used in bioelectrical, biomechanical, and clinical instrumentation.

**ELC 4377 Solar Energy (3)**

Cross-listed as ME 4377

Pre-requisite(s): C or better in ELC 2330; C or better in ME 2345

A first course in the principles of solar energy collection, conversion and storage. Topics include solar photovoltaic and thermal collectors, sun-earth geometry, ground and sky radiation models, and balance-of-system components including stratified tanks, pumps, and power inverters. Students will learn industry-standard TRNSYS energy modeling software.

**ELC 4378 Introduction to Biosensors (3)**

Cross-listed as BME 4378

Pre-requisite(s): C or better in EGR 3380

Introductory course on Biosensors. Topics to be covered in this course are electrochemical sensors, immunosensors, Lab-on-a-chip biosensors, and photonic biosensors for the detection of biomolecules for the medical diagnosis.

**ELC 4381 Antennas and Wireless Propagation I (3)**

Pre-requisite(s): C or better in ELC 3337

Fundamentals of radiation and propagation, antenna parameters, linear antennas, linear and planar phased arrays, and microstrip antennas. Analysis and design principles, simulation and measurement.

**ELC 4383 RF/Microwave Circuits I (3)**

Pre-requisite(s): C or better in ELC 3337

Introduction to passive RF, microwave, and wireless circuit design. Topics include transmission line theory; network analysis; impedance matching techniques; design of resonators, couplers, and filters; diodes; mixers; and principles and techniques of microwave measurements.

**ELC 4384 RF/Microwave Circuits II (3)**

Pre-requisite(s): C or better in ELC 4383

This is a second course in radio-frequency and microwave circuits covering microwave amplifier and oscillator design. Topics include the ZY Smith chart, matching network design, gain calculations, design for amplifier stability, noise figure and low-noise amplifier design, gain matching, and negative resistance oscillator design. A final project will require the design, simulation, construction, and testing of an amplifier using microwave CAD tools and hands-on measurements.

**ELC 4396 Special Topics in Electrical or Computer Engineering (3)**

Pre-requisite(s): Consent of department chair

Study of advanced topics in electrical or computer engineering. This course may be repeated once under a different topic.

**ELC 4438 Embedded Systems Design (4)**

Pre-requisite(s): C or better in ELC 3336

Design and implementation of embedded computer systems using microcontrollers, sensors and data conversion devices, actuators, visual display devices, timers, and applications specific circuits. Software design using microprocessor cross-development systems and real-time operating system principles.

**ELC 4V97 Special Projects in Electrical or Computer Engineering (1-6)**

Pre-requisite(s): Consent of department chair

Advanced topics and/or special project activities in electrical or computer engineering.

## Engineering & Computer Science (ECS)

**ECS 1101 ECS Leadership Development Seminar (1)**

Pre-requisite(s): For engineering and computer science students only

Provides insights into a student's present leadership strength and development needs. Prepares students for leadership positions, focusing on topics such as a philosophy of leadership, the role of power and authority in leadership, ethics, and goal setting for leadership development.

**ECS 1V10 Renaissance Scholar: Technology and the Arts (1-3)**

Pre-requisite(s): Consent of instructor

A Renaissance Scholar is someone who is conversant across the entire range of human knowledge, from science to philosophy and technology to literature. Through the ages, people have strived to find meaning in their lives, to understand the world around them, and to use their creativity and ingenuity to improve both. Baylor's summer Renaissance Scholar program starts students on the path toward joining the ranks of the great scholars of the past. Issues of both historical and contemporary interest are considered from the perspectives of science, technology, literature, philosophy, theology, and even contemporary film. Students complement readings in the great texts of the world with the design, development, and implementation of two ancient engineering projects. Emphasis is placed on the theory and practical application of scientific and engineering concepts such as the harnessing of energy and the mythical stories that have inspired such activity, the desire for exploration, and the quest for knowledge ranging from ancient tales of self-discovery to the modern exploration of the cosmos.

**ECS 1V90 Special Topics in Freshman Engineering and Computer Science (1-4)**

Introductory topics in engineering or computer science. The course may be repeated when topics vary.

**ECS 2101 ECS Professional Development (1)**

Pre-requisite(s): Only open to majors in the School of Engineering and Computer Science

Personal development and branding, professional etiquette, resume production, career research, and interviewing skills. Exploration of career options, including assessments, internships, job search process, and graduate school admission. Topics will be customized for students pursuing majors in the School of Engineering and Computer Science.

**ECS 3301 Peer Leadership (3)**

The class equips students to serve as peer leaders to new students in their first semester at Baylor.

## Engineering (EGR)

**EGR 1101 Engineering New Student Experience (1)**

Pre-requisite(s): Only open to Pre-Engineering majors

New Student Experience course designed to help students transition to the Baylor Engineering community by focusing on success resources/strategies, involvement opportunities, and professional/social development.

**EGR 1301 Introduction to Engineering (3)**

Pre-requisite(s): Pre-engineering major

A grade of C or better in MTH 1321 or concurrent enrollment in MTH 1321. Introduction to the engineering profession. Topics include engineering disciplines, ethics, the impact of technology on the world, analysis and design using a team design project, and computer-aided design and problem solving.

**EGR 1302 Introduction to Engineering Analysis (3)**

Pre-requisite(s): Pre-engineering major

A grade of B or better in EGR 1301 and a grade of C or better in MTH 1321 or concurrent enrollment in MTH 1321. Introduction to fundamental techniques used in engineering analysis.

**EGR 2108 Engineering Economics (1)**

Pre-requisite(s): B or better in EGR 1302

Designed to provide an economic foundation for engineering decisions. The course stresses basics, including the application of common discrete compounding formulas, complex problems, cost analysis and estimating, uncertainty, and lease/buy/make decisions.

**EGR 2170 Introduction to Computer Aided Design (1)**

Pre-requisite(s): B or better in EGR 1302

Introduction to the use of modern computational tools used for solid modeling. Software used is representative of that found in industry.

**EGR 2V97 Special Topics or Project (1-3)**

Cross-listed as ELC 2V97

See ELC 2V97 for course information.

**EGR 2V99 Engineering Research Activities (1-3)**

Pre-requisite(s): Consent of department chair

Special topics or projects in engineering research activities. This course provides the opportunity for recognition of supervised academic experiences that are in addition to degree requirements. Registration requires approval by the department chair and sponsoring faculty member. Cannot be used as an engineering elective to satisfy degree requirements.

**EGR 3115 International Project Experience (1)**

Pre-requisite(s): A grade of C or better in EGR 3315

Experience working with an international business and/or organization in a context outside of the United States. Students will work a minimum of 80 hours on project(s) with the goal of gaining experience working in another culture and/or language, and experiencing how the difference in available resources affects the engineering design process.

**EGR 3302 Technologies for Developing Countries (3)**

Pre-requisite(s): Consent of instructor

Survey of the technologies that impact the socio-economic group known as the bottom of the pyramid. The course will focus on two broad classes of technologies, water and energy, including the application of renewable energy sources such as solar, wind, and hydro power in the developing world. Water well drilling, water pumping and filtration, and other topics regarding water access will be covered. Economic decision-making techniques based on present worth, will be explored.

**EGR 3305 Social and Ethical Issues in Engineering (3)**

Pre-requisite(s): A grade of B or better in EGR 1302 and ECE, EGR, or ME major

Study of the relationship between engineering, technology, and society. Topics include philosophical perspectives on engineering and technology, technological values, impact of technological change, social and ethical responsibilities of engineers, and public technology policy. Christian responses to these issues will be explored.

**EGR 3315 Ethics of International Service (3)**

Pre-requisite(s): A grade of B or better in EGR 1302

Study of ethical considerations for professionals working in developing countries, especially those associated with the implementation of technology-oriented or enterprise-oriented development interventions. Topics include the nature and causes of poverty, international development, issues of justice, the influence of culture, the importance of community, humanitarian engineering, microfinance and entrepreneurial solutions to poverty, and preparing for a career in international service. Current theories of development from secular and Christian viewpoints will be explored.

**EGR 3380 Engineering Design I (3)**

Pre-requisite(s): A grade of C or better in the following: ELC 2320 or ELC 2330, and either ELC 2337 or ME 2321

Introduction to the engineering design process via team-based projects encompassing the design, construction and testing of an engineering device or system. Projects will emphasize oral, written, and graphical engineering communication skills and topics related to engineering professionalism.

**EGR 3V95 Internship Experience (1-3)**

Pre-requisite(s): Instructor approval required

Summer or semester-long full-time employment in an internship or co-op experience in a departmentally arranged and/or approved engineering-related position, with a report presentation after the employment period.

**EGR 4301 Global Business: Economics and Communication (3)**

Pre-requisite(s): Junior standing in the School of Engineering and Computer Science

This is the first course in a two-course sequence that will prepare engineering students to work effectively at the interface between business and engineering in a global economy. This course will focus on engineering economics, written communication, and oral communication for engineers and computer scientists, addressing communication to both technical and non-technical audiences.

**EGR 4357 Cardiovascular Engineering and Instrumentation (3)**

Cross-listed as BME 4357, ELC 4357, ME 4357

See BME 4357 for course information.

**EGR 4361 Conventional & Alternative Energy Systems (3)**

Pre-requisite(s): A grade of C or better in the following: CHE 1301 and PHY 1420, and ME 2345 or CHE 4325 or CHE 4327

This course will provide a broad overview of the issues surrounding the energy systems we presently use or may use at a larger scale in the future to power our current industrial civilization.

**EGR 4375 Elements of Nuclear Engineering (3)**

Pre-requisite(s): A grade of C or better in PHY 1420 and MTH 1322

Survey of nuclear engineering concepts and applications. Nuclear reactions; radioactivity; radiation interaction with matter; reactor physics; risk and dose assessment; applications in medicine, industry, agriculture, and research.

**EGR 4376 Radiation Dosimetry in Nuclear Health Physics (3)**

Pre-requisite(s): A grade of C or better in the following: PHY 1408 and 1409 or PHY 1420 and 1430

An introduction to types of radiation relevant to nuclear, medical, scientific, and engineering applications; interaction of radiation with materials; radiation detection mechanisms and detectors; radiation dosimetry; biological effects of ionizing radiation, and medical uses of radiation.

**EGR 4390 Engineering Design II (3)**

Pre-requisite(s): A grade of C or better in EGR 3380, final Fall or Spring semester before graduation

A capstone design course for emphasizing the decision-making process that must be used by a practicing engineer to apply the basic sciences in order to convert resources optimally to meet stated objectives. Oral and written reports are required.

**EGR 4396 Special Topics in Engineering (3)**

Pre-requisite(s): Consent of department chair

Study of advanced topics in engineering. This course may be repeated once under a different topic.

**EGR 4V97 Special Projects in Engineering (1-6)**

Pre-requisite(s): Consent of department chair

Advanced topics and/or special project activities in engineering.

## Engineering (ESC)

## English (ENG)

**ENG 0300 Developmental English (3)**

Intensive instruction in English writing skills, grammar, usage, and reading comprehension, with individualized attention to problem areas. This course is a prerequisite for ENG 1302 for all students whose diagnostic test indicates the inability to do satisfactory work in ENG 1302. Credit for this course does not apply toward any degree program.

**ENG 1300 English as a Second Language: Comprehension (3)**

Practice in listening and comprehension, pronunciation, and conversation skills for both academic and social competency. Required attendance in language laboratory. This course does not satisfy the English requirements for any degree program.

**ENG 1301 English as a Second Language: Composition Skills (3)**

Review and instruction in English grammar, usage, and vocabulary development, with attention to composition and reading skills, for non-native speakers of English. This course does not satisfy the English requirements for any degree program. Placement in this course is determined by language and writing tests given when the student enrolls in the University.

**ENG 1302 Thinking and Writing (3)**

A course designed to help students better understand English grammar, rhetoric, and usage for correct and effective writing. The course focuses on the several steps in organizing and writing the expository essay for a variety of purposes. Essay assignments develop students' capacity for logical thought and expression.

**ENG 1304 Thinking, Writing, and Research (3)**

Pre-requisite(s): ENG 1302 or FAS 1302 or advanced placement

A student with credit in ENG 1304 may not earn credit for ENG 1310. A course designed to teach students to gather and evaluate information from a variety of sources and to incorporate ideas from these sources into the writing of a research paper. In addition, the course explores the techniques of persuasive and critical writing.

**ENG 1310 Writing and Academic Inquiry Seminars (3)**

Provides forum to discuss, analyze, and create nonfiction texts to develop the writing abilities, research skills, and rhetorical knowledge for academic, personal, professional, and civic pursuits. May include themes such as faith, pop culture, social media, sports, social justice, and communities.

**ENG 2301 British Literature (3)**

The great works of British literature, from the earliest English poetry to the twenty-first century. Includes works by both women and men, from the different regions of the British Isles, and works representative of Britain as a multicultural society.

**ENG 2306 World Literature (3)**

The great works of literature from around the globe, studied in English translation. Includes authors, both women and men, from a variety of different countries and cultures, – African, Latin American, Asian, and European – and from different historical periods.

**ENG 2310 American Literary Cultures (3)**

Literature of the United States, from the colonial encounter to the 21st century, emphasizing major works of American literature, by men and women from different regions of the United States, and from many cultural backgrounds. A student with credit in ENG 2304 may not earn credit for ENG 2310.

**ENG 3301 English Words (3)**

Cross-listed as LING 3311

Pre-requisite(s): Upper-level standing or consent of instructor

History and structure of the English lexicon, including the semantics, word-formation processes, and pronunciation of both native English and borrowed words.

**ENG 3302 Modern English Grammar (3)**

Cross-listed as LING 3312

Pre-requisite(s): Upper-level standing

Study of college-level grammar, with emphasis on syntax, morphology, and usage.

**ENG 3304 Creative Writing: Poetry (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Workshop course with emphasis on imaginative writing of poetry. May be repeated once with a different topic of study.

**ENG 3305 Sociolinguistics (3)**

Cross-listed as LING 3315

See LING 3315 for course information.

**ENG 3306 Creative Writing: Prose (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Workshop course in the techniques of imaginative writing of prose. May be repeated once with a different topic of study.

**ENG 3307 Screenplay and Scriptwriting (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Screenwriting and scriptwriting is designed for the novice writer with an interest in cinema or theater. The class will include discussions of treatment, pitch, agents, and feature the writing of an actual screenplay.

**ENG 3310 Introduction to Linguistics (3)**

Cross-listed as ANT 3310, ANT 4300, ENG 4300, LING 3310

Pre-requisite(s): Upper-level standing or consent of instructor

Matter and methods of modern linguistics, including the nature of language and linguistics, phonology, morphology and grammar, and historical/comparative linguistics.

**ENG 3311 English Literature through the Sixteenth Century (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

Old English (Anglo-Saxon), Middle English, and English poetry, prose, and drama to 1600, studied in relation to the cultural and social character of the period.

**ENG 3319 Language and Culture (3)**

See LING 3319 for course description.

**ENG 3331 English Literature of the Seventeenth and Eighteenth Centuries (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

English poetry, prose, and drama from 1600 to 1800, studied in relation to the cultural and social character of the period.

**ENG 3351 British Literature from the Nineteenth Century to the Present (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

British poetry, prose, and drama from 1800 to the present, studied in relation to the cultural and social character of the period.

**ENG 3360 Literature and the Environment (3)**

Pre-requisite(s): 3 hours of ENG credit, 3 hours from the Literature in Context DL, and upper-level standing

This course critically examines how literature represents connections among humans, nonhumans, and environments.

**ENG 3370 Religion and Literature (3)**

Cross-listed as REL 3370

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

Topics exploring the relationship between religion and literature, and between religious ideas and the literary expression of those ideas.

**ENG 3371 History of Critical Theory (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

Critical writing about literature from Aristotle through the New Criticism.

**ENG 3372 The Oxford Christians (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

Works of C.S. Lewis, J.R.R. Tolkien, and other members of the group of writers called the Oxford Christians.

**ENG 3374 Short Fiction: A Reading Course (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

Development and forms of the short story.

**ENG 3375 Post-Colonial Literature (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

Twentieth-century literature from India, Africa, the Caribbean, and other emerging post-colonial traditions.

**ENG 3376 African American Literature (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

A study of works of African American writers. Selections may include slave narratives, poetry, plays, short stories, and novels from the colonial period to the present.

**ENG 3377 The Art of Film (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

A study of film, with an emphasis on film's literary qualities and on various forms of cinematic theory and criticism.

**ENG 3378 Topics in Literature (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

Topics not included in ENG 4374 seminars, especially topics such as detective fiction and science fiction. Topic announced for each semester or session. May be repeated once for a total of six credit hours with content change.

**ENG 3380 American Literature through Whitman (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

American poetry and prose to 1870, studied in relation to the cultural and social character of the period.

**ENG 3390 American Literature from Whitman (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

American poetry, prose, and drama from 1870 to the present, studied in relation to the cultural and social character of the period.

**ENG 3393 Literature of the American West and Southwest (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

The works of writers of the American West and Southwest.

**ENG 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**ENG 4301 Advanced Creative Writing: Prose (3)**

Pre-requisite(s): ENG 3306 or consent of instructor

Workshop course for advanced writers of creative prose emphasizing discussion of student work. Course may be repeated once with a different topic.

**ENG 4302 Old English Language (3)**

Cross-listed as LING 4312

Pre-requisite(s): ENG 2301 and upper-level standing

Old English language and an introduction to Anglo-Saxon history and culture. Selections from Old English poetry and prose (Biblical translations, Anglo-Saxon Chronicle, Alfredian translations, homilies) will be read in the original.

**ENG 4304 History of the English Language (3)**

Cross-listed as LING 4314

Pre-requisite(s): ENG 2301 and upper-level standing

Origin, growth, and structure of the English language.

**ENG 4305 Advanced Creative Writing: Poetry (3)**

Pre-requisite(s): ENG 3304 or consent of instructor

Workshop in the writing of poetry at an advanced level. May be repeated once with a different topic of study.

**ENG 4310 Old and Early Middle English Literature (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

Old English and Early Middle English poetry and prose in translation from the seventh through the thirteenth century read in the context of the historical, social, religious, political, art historical, and philosophical trends of the periods.

**ENG 4313 Later Middle English Literature Excluding Chaucer (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

Middle English poetry, prose, and drama primarily in the original text from the fourteenth and fifteenth centuries read in the context of the historical, social, religious, political, art historical, and philosophical trends of the periods.

**ENG 4314 Chaucer (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

Chaucer's major and minor works and their cultural milieu; read in Middle English and in translation. One of his continental sources will also be read.

**ENG 4316 Special Topics in Medieval Literature (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

Specialized topics in medieval studies, such as paleography, the medieval mystics, and Chaucer and the Italian tradition. Topic announced for each semester or session.

**ENG 4318 Writing for the Workplace (3)**

Pre-requisite(s): ENG 3300 or BUS 3315 or consent of instructor

Advanced study of workplace skills, including editing, desktop publishing, document design and testing, and project management. Designed for students who will work in writing-intensive professions.

**ENG 4319 American English Dialects (3)**

Cross-listed as LING 4319

See LING 4319 for course information.

**ENG 4320 English Drama to 1642 (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

Development of English drama from its medieval origins to the closing of the theaters in 1642, excluding Shakespeare.

**ENG 4322 Sixteenth-Century Poetry and Prose (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

English poetry and prose of the Tudor and Elizabethan periods, with emphasis on the development of the sonnet and Petrarchan conventions.

**ENG 4324 Shakespeare: Selected Plays (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

Representative comedies, histories, tragedies, and problem plays.

**ENG 4330 Early Seventeenth-Century Poetry and Prose (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

English poetry and prose of the early Stuart period, the Interregnum, and the early Restoration, with emphasis on the metaphysical and cavalier poets.

**ENG 4332 Milton (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

Milton's poetry with emphasis on *Paradise Lost*; examination of selected prose; consideration of biographical and historical materials related to the poetry.

**ENG 4340 English Poetry and Prose from 1660 to 1745 (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

Development of poetry and prose during the Augustan Age, with emphasis on the satire of Dryden, Swift, Gay, Pope, and Fielding.

**ENG 4342 English Poetry and Prose from 1745 to 1798 (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

The development of poetry and prose in the later eighteenth century, with emphasis on sensibility in the works of Gray, Johnson, Boswell, and Sterne.

**ENG 4344 English Drama from 1660 to 1800 (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

Development of English drama from the reopening of the theaters after the Interregnum through the eighteenth century.

**ENG 4347 Eighteenth-Century British Novel (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

Development of fictional narrative form in eighteenth-century Britain, with emphasis on Defoe, Richardson, Fielding, Smollett, Sterne, and Burney.

**ENG 4354 Romantic Poetry (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

British poets of the early nineteenth century, with emphasis on Blake, Wordsworth, Coleridge, Byron, Shelley, and Keats.

**ENG 4355 Romantic Prose (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

British and European novelists, story writers, and prose writers of the late 18th and early 19th centuries, with emphasis on Jane Austen, Ann Radcliffe, Maria Edgeworth, Sir Walter Scott, and Johann von Goethe.

**ENG 4360 Victorian Prose (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

Development of English prose in the nineteenth century, with emphasis on Macaulay, Carlyle, Newman, Ruskin, Arnold, Eliot, Pater, and Wilde.

**ENG 4362 Victorian Poetry (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing  
British poets of the later nineteenth century, with emphasis on Browning, Tennyson, Arnold, and Hopkins.

**ENG 4364 The Brownings (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing  
The Brownings' major poems, with emphasis on Men and Women, The Ring and the Book, Aurora Leigh, and Sonnets from the Portuguese; introduction to the Armstrong Browning Library collection.

**ENG 4368 Nineteenth-Century British Novel (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing  
Development of fictional narrative form in nineteenth-century Britain, with emphasis on Austen, Scott, the Brontës, Thackeray, Dickens, Eliot, and Hardy.

**ENG 4369 Modern British Novel (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing  
British novelists from 1900 to 1945, with emphasis on Woolf, Joyce, and Lawrence.

**ENG 4370 Women Writers (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing  
Major women writers and their representative works. Readings may emphasize British, American, or international writers, a genre, or a theme. Course may be repeated once for credit with a different theme.

**ENG 4371 Modern British Poetry (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing  
British poets from 1900 to 1945, with emphasis upon Eliot, Yeats, Lawrence, Thomas, and Auden.

**ENG 4372 Modern British and Continental Drama (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing  
Development of modern European Drama and Theater from 1880 to the present.

**ENG 4374 Special Topics in Literature (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing  
Topics not ordinarily included in period, genre, or author courses. Topic announced for each semester or session. May be repeated once for a total of six credit hours with content change.

**ENG 4378 Contemporary Novel (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing  
Novelists from the twenty-first century either writing in English or studied in translation.

**ENG 4379 Great Books of the Western World (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing  
Various topics and texts of the Western World. Periods, themes, genres, or problems may be the organizing element, e.g., Greek Tragedy, Roman Elegy, the Medieval Mind, the Enlightenment, French Post-war Intellectual Thought.

**ENG 4380 American Renaissance (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing  
Works of American writers of New England in the mid-nineteenth century.

**ENG 4381 Early American Literature (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing  
Prose and poetry of American writers from 1620 to 1820.

**ENG 4382 Major Authors (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing  
A study of the works of a particular writer. Topics announced for each semester or session. May be repeated once under different topic.

**ENG 4383 American Realism and Naturalism (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing  
American writers from 1860 to 1900.

**ENG 4384 Contemporary Critical Theory (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing  
Contemporary approaches to the critical interpretation of literature, emphasizing primary texts, e.g., psychoanalytic, feminist, structuralist, deconstructive, new historical, reader-response, formalist, semiotic, neo-Aristotelian.

**ENG 4385 Contemporary Poetry (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing  
British and American poets of the twenty-first century with special emphasis on recent developments in poetic form and method.

**ENG 4386 Postmodern American Novel (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing  
American novelists from 1945 to 2000.

**ENG 4387 Modern American Novel (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing  
American novelists from 1900 to 1945, with emphasis on Wharton, James, Cather, Hemingway, Faulkner, Fitzgerald, and Hurston.

**ENG 4388 Christian Literary Classics (3)**

Cross-listed as REL 4388  
See REL 4388 for course information.

**ENG 4389 Postmodern American Poetry (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing  
American poets from 1945 to 2000.

**ENG 4390 Literature of the South (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing  
Works of writers of the American South, with emphasis on Poe, Faulkner, O'Connor, and Welty.

**ENG 4391 Modern American Poetry (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing  
American poets from 1900 to 1945, with special emphasis upon Frost, Pound, Cummings, Stevens, Williams, and Bishop.

**ENG 4394 American Drama (3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing

Development of American drama, with emphasis on O'Neill, Williams, Miller, Albee, and Hellman.

**ENG 4395 Special Topics in Creative Writing (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Topics in creative writing not covered in Creative Writing courses. Topic announced for each semester or session. Repeatable for a maximum of 6 credits.

**ENG 4397 Internship for Literature Majors (3)**

Pre-requisite(s): ENG 3300 or 3303 or 4309

An internship to provide literature majors supervised experience in a business or professional setting. Elective credit only. Student may register for course in last semester of senior year only.

**ENG 43C1 Aesthetic Perception and Experience (3)**

Cross-listed as ARTH 43C1, MUS 43C1

Pre-requisite(s): Senior standing; major in English, Art or Music; or consent of instructor

Aesthetic Perception and Experience (ARTH/ENG/MUS 43C1) presents specific analytical approaches to visual art, literature, and music, leading students to learn analytical skills in those three areas. The professors then lead students to arrive at, then apply, general principles for aesthetic experience for all artistic fields.

**ENG 4V18 Independent Study in Literature (1-3)**

Pre-requisite(s): 3 hours of ENG credit and 3 hours from the Literature in Context DL, and upper-level standing and consent of the instructor  
Supervised individual reading and research. Repeat once with change of topic for maximum of six hours.

**ENG 4V19 Independent Study in Writing (1-3)**

Pre-requisite(s): Upper-level standing and consent of instructor  
Supervised individual writing. Repeat once with change of topic for maximum of six hours.

**ENG 4V98 Maastricht Topics (1-4)**

Pre-requisite(s): ENG 2310 Special topics in literature developed in conjunction with Baylor-in-Maastricht program

**ENG 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## English as Second Language (ESL)

ESL 0V01 English as a Second Language (1-15)

## Entrepreneurship (ENT)

**ENT 3301 Entrepreneurship: Living and Learning (3)**

Pre-requisite(s): Open to residents of the Entrepreneurship Living Learning Center or consent of department

Exploration of entrepreneurship as a career and the journey to become an entrepreneur. Topics include fundamentals of entrepreneurship and developing an entrepreneurial mindset. Experiential learning with creativity and imagination in solving entrepreneurial problems. Counts as Fine Arts credit for BBA students.

**ENT 3315 Starting and Managing a Business (3)**

Pre-requisite(s): Prerequisite(s): Upper-level standing; a minimum GPA of 2.75; not open to BBA students

An introductory course for students other than entrepreneurship majors. The course, which is designed around the business plan, examines how to formulate business ideas, select a location, select a legal form of organization, locate financing sources, assess the market, develop a human resource management system, and establish budgets for control.

**ENT 3320 Entrepreneurial Process (3)**

Pre-requisite(s): Only open to BBA students with upper-level standing; BBA students must be admitted to the Business School in order to take this course

An introductory course in entrepreneurship designed to explore the development of innovative thinking and venture exploration which would ultimately lead to a new venture. Topics covered include: Developing an innovative perspective as well as identifying and testing venture concepts. Topics are introduced through the use of creative exercises, team projects, concept identification journals, discussion of entrepreneurship cases, and a business venture startup game.

**ENT 3325 Skills and Behavior of the Entrepreneur (3)**

Pre-requisite(s): ENT 3320 or ENT 3315

Focuses on the individual and the skills and behaviors necessary to be a successful entrepreneur. Students will develop creative thinking skills that will enable them to recognize business opportunities. Other skills include team building, goal setting, leadership, and negotiation. Significant portions of the course are conducted through experiential exercises and simulations.

**ENT 3350 International Entrepreneurship (3)**

Cross-listed as ENT 4350, INB 3350

Pre-requisite(s): Sophomore standing and consent of instructor  
Examines entrepreneurship in other countries by focusing on the unique opportunities and problems associated with the particular country being studied. Comparisons are made between the host country and the United States. General issues related to doing business across national boundaries are included. This course is taught only outside the United States.

**ENT 3380 Global Perspectives on New Ventures (3)**

Pre-requisite(s): Either ENT 3315 or 3320

Entrepreneurship is increasingly global in nature, continuously creating new opportunities and competitors. Global Perspectives on New Ventures provides a deep understanding of these dynamics and helps students develop startup concepts that are more likely to succeed in the country-business context in which they may one day launch new international ventures.

**ENT 4310 New Venture Finance: The Entrepreneur's Perspective (3)**

Pre-requisite(s): ENT 3320 or consent of instructor; only open to BBA students

Successful entrepreneurs must effectively manage scarce resources in an increasingly complex and global world. This course is designed to provide students with a wide range of financial skills to more effectively manage their resources. Specific issues critical to emerging businesses such as financial forecasting, effective financial management, sources of financing, bootstrapping, and exit planning will be examined.

**ENT 4320 Managing the Family Business (3)**

Pre-requisite(s): Only open to BBA students; BBA students must be admitted to the Business School in order to take this course  
 Explores the unique personal and interpersonal issues, as well as the business issues, associated with the family-owned and managed firm. Topics evaluated in the course include the competitive strengths and weaknesses of a family firm; the dynamics of family interactions and the family business culture; conflict resolutions; estate planning; and planning for succession.

**ENT 4321 Accelerated Ventures: Launch (3)**

Pre-requisite(s): Upper-level standing; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

Accelerated Ventures (AV) is a two-semester program designed to provide an innovative educational experience for students. During the first semester, students enrolled in ENT 4321 create real companies, raise funds, launch products and services, and generate sales. The second component of AV (ENT 4322) teaches students how to grow and sustain that company.

**ENT 4322 Accelerated Ventures Capstone (3)**

Pre-requisite(s): ENT 4310; only open to Entrepreneurship majors  
 Accelerated Ventures Capstone (AVC) provides an integrative and innovative educational experience with emphasis on experiential learning. Focus is on start-up and new venture growth activities. Teaches students to use all functional areas of business to optimize options to expand firm revenue, finance firm growth and insure long-term sustainable value creation.

**ENT 4325 Entrepreneurial Leadership (3)**

Pre-requisite(s): ENT 3315; Upper-level standing; a minimum GPA of 2.75; not open to BBA students

This class is a practicum in which the student will prepare a written business plan for an actual venture, business or nonprofit, which he/she plans to implement in the future. It will be very helpful if the student enters the course with the idea for this venture. Typed drafts of the plan and oral presentations of various sections will be submitted and presented during the course. Individuals from the business and/or nonprofit sectors will be involved in providing constructive criticism throughout the process.

**ENT 4330 Corporate Entrepreneurship: Initiating and Sustaining Innovation (3)**

Pre-requisite(s): Upper-level standing; BBA students must be admitted to the Business School in order to take this course

The initial modules of the course explore the nature of innovation—its drivers, patterns and impacts on society and organizations of all sizes and missions. A core aim is delivering tools for recognizing breakthrough-level innovation opportunities and then practicing their use by inventing needed solutions. Subsequent modules focus on the use of these tools and processes in a larger organizational context where selecting the best innovation target is critical, and where stagnation and inertia tend to pull the firm away from the leading edge over time. The goals of the course include demonstrated skills needed for creating and implementing sustained, innovation-driven growth in corporate settings.

**ENT 4340 Technology Entrepreneurship (3)**

Cross-listed as MGT 4340

Pre-requisite(s): Upper-level standing; BBA students must be admitted to the Business School in order to take this course

Business based on patentable technologies display different business models and characteristics from those of non-technical, mainstream businesses. Understanding these distinctions is critical to technology commercialization. Technology Entrepreneurship examines the entire technology commercialization process, from concept to market. It is intended to provide students in business, engineering, and the sciences with the knowledge needed to participate effectively in the processes required for the successful introduction of new technology products in the marketplace.

**ENT 4351 Entrepreneurship in the European Union (3)**

Pre-requisite(s): Consent of instructor

A summer study abroad program that covers a broad range of topics that critically affect startup concerns of businesses in the European Union. Primary emphasis is placed on marketing concerns, economic analysis, and business plan preparation for business. Other issues to be investigated include identifying venture opportunities, concept development, market analysis, pricing, budgeting, legal forms of organization, management of the team, and business valuation and dilution. The students will apply this knowledge by preparing a business plan for a business venture – based on a well-defined concept of the product or service that could develop within their discipline – and by presenting their final plans to a panel of private equity holders, venture capitalist, bankers, and other entrepreneurship experts. The course is only offered as part of a Baylor study abroad program.

**ENT 4352 Technology Entrepreneurship in Asia (3)**

Pre-requisite(s): Consent of instructor

The Shanghai Summer Program includes this version of Technology Entrepreneurship wherein the hands-on projects undertaken for companies are within Chinese entities, and the cross-functional teams are also cross-cultural (American and Chinese). The course is structured around the key elements of commercializing technology as in ENT 4340, the technology entrepreneurship class offered on the Baylor campus. After learning the core elements, students explore the differences of how they are applied to the Asian (especially Chinese) context, and the in-class learning is coupled with the opportunity to visit companies in China that are practicing these same elements. This course is designed to prepare the student for technology-based innovation in the global context.

**ENT 4353 Social Entrepreneurship and Economic Development (3)**

Pre-requisite(s): ENT 3315 or 3320

Is capitalism good for the poor? This course examines the morality of capitalism, the role of institutions in perpetuating or eliminating absolute poverty, and the contextual challenges of entrepreneurship. Recognizing the socio-cultural, political, economic, and technological challenges of doing business in the third world, we use organizational theory to design for-profit ventures that use appropriate technologies to create sustainable solutions to social problems. Course projects are intended to produce organizations that will be partially owned and operated by the members of the communities that benefit from their goods and services.

**ENT 4354 Entrepreneurship in Latin America (3)**

Pre-requisite(s): Consent of the instructor

A study abroad course that helps students understand business in Latin America through first-hand experience. Students will study the social, cultural, historical, economic, and political issues that impact entrepreneurship and small businesses in the Latin American country visited and gain insights into the general environment in which they operate. They will learn from visits to a variety of business enterprises, cultural sites, and educational institutions, in addition to exploring geographic places of interest. Insights gained will allow enrolled students to grasp the dynamics of participation in the local economy and society of the specific country visited.

**ENT 4360 Franchising: Franchisee and Franchisor Perspectives (3)**

Pre-requisite(s): Upper-level standing; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

This course is designed to introduce the student to the business concept of franchising from the perspectives of both the franchisee and the franchisor. The student will learn to evaluate a franchising opportunity from the point of view of the franchisee by completing a feasibility study of a currently available franchise and the potential for franchising a business idea by completing a business plan. Managing the franchise will be covered as well.

**ENT 4370 Baylor Angel Network Practicum II (3)**

Pre-requisite(s): Instructor approval required

An advanced course designed to develop, integrate and immediately apply through experiential learning the processes of evaluating angel-stage opportunities. The heart of the course is focused on experiential learning activities provided in connection with real-world companies seeking capital from the Baylor Angel Network. Students evaluate firms while working in close collaboration with practicing angel investors.

**ENT 4380 Social Entrepreneurship: Microfinance and Economic Development in Africa (3)**

Pre-requisite(s): Consent of instructor

This course is a summer study abroad program. Students enrolled in the class will visit one of the following three African countries: Kenya, Rwanda, and Ghana. The content of the course examines the use of entrepreneurial skills to craft innovative responses to social problems in Africa. In particular, the ability of microlending practices to stimulate economic activity and alleviate poverty will be studied.

**ENT 4395 Entrepreneurship Internship (3)**

Pre-requisite(s): Consent of instructor; not open to pre-business students

Supervised work by a manager in a firm involved in entrepreneurship. Application and requirements for the entrepreneurship internship are available from the chair of the management and entrepreneurship department.

**ENT 4398 Special Studies in Entrepreneurship (3)**

Consent of instructor; not open to pre-business students.

**ENT 4V50 International Technology Entrepreneurship Summer Study Abroad (1-6)**

Pre-requisite(s): Consent of instructor

A study abroad course with emphasis on topics that affect technology-based companies and startup businesses. Concepts covered are identifying venture opportunities, concept development, market analysis, pricing, budgeting, prototype development, and business plan preparation for technology-based businesses. Also included are a formal presentation to a group of European venture capitalists and lectures by European business leaders. This is a cooperative program between the School of Engineering and Computer Science and the Hankamer School of Business.

**ENT 4V98 Special Studies In Ent (1-6)**

## Environmental Science (ENV)

**ENV 1101 An Introduction to Environmental Analysis (Lab) (1)**

Pre-requisite(s): Credit or concurrent enrollment in ENV 1301

Methods of collection, analysis, and interpretation of environmental data as used in the social, behavioral, physical and biological disciplines.

**ENV 1103 Wildlife Ecology Laboratory Exercises (1)**

Pre-requisite(s): ENV 1303; or concurrent enrollment in ENV 1303

Laboratory experience in basic ecological methodologies, including interpreting elementary graphic and statistical information, gathering population and habitat data, and understanding how science might be used to solve practical environmental problems.

**ENV 1301 Exploring Environmental Issues (3)**

A survey of the fundamental physical, biological, and social forces affecting the solution of environmental problems. Principles of environmental history, political science, economics, biology, geology, physics, anthropology, and related disciplines.

**ENV 1303 Wildlife Ecology (3)**

Introduction to wildlife identification, populations, life histories, behavior and habitats and the role of wildlife in ecological communities and ecosystems.

**ENV 1305 Freshman Environmental Seminar (3)**

Pre-requisite(s): Freshman or sophomore standing

Introduces first-year students to significant topics in environmental studies. Emphasizes critical inquiry and thinking, research, scholarly communication, and problem-solving. Does not apply on the laboratory science requirement.

**ENV 1309 Introduction to Environmental Sustainability (3)**

This course will introduce students to the major tenets of sustainability and will explore the real world application of sustainable practices on a local, national, and global scale. Topics will demonstrate interrelationships of various tools and approaches for sustainable development. Mastery of the materials from this course will prepare students to make positive changes on campus and beyond.

**ENV 1V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**ENV 2307 Ecology for a Changing World (3)**

Pre-requisite(s): BIO 1405, 1305 or 1401; and credit or concurrent enrollment in ENV 1301 or 1303

The principles of ecology, emphasizing the effects of human activities on individuals, populations, communities and large-scale ecological systems.

**ENV 2376 Environment and Society (3)**

Introduction to ethical, historical, and social science analysis of environmental issues, such as climate change, loss of biodiversity, water pollution, and urbanization. Emphasis on case histories and human dimensions of environmental problem solving.

**ENV 2V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**ENV 3100 Environmental Health Seminar (1)**

Pre-requisite(s): ENV 3314; or consent of instructor

Seminars by faculty and visiting speakers on topics in environmental health science. May be repeated once, with different content. Major paper required.

**ENV 3103 Seminar on Environmental Topics (1)**

Seminars by faculty and visiting speakers on various topics in environmental studies. May be repeated once, with different content.

**ENV 3106 Conserving Biodiversity (Lab) (1)**

Pre-requisite(s): ENV 3306 or concurrent enrollment in ENV 3306

Laboratory and field sampling methods for determining species diversity, minimum viable population size, and impacts of human disturbance on species survival.

**ENV 3108 Marine Environments Laboratory (1)**

Pre-requisite(s): Credit or concurrent enrollment in ENV 3308

Study of specimens and field surveys of major taxa of marine organisms; visits to typical marine and estuarine habitats. Overnight field trips required.

**ENV 3133 Analytical Analysis of Water Quality (1)**

Pre-requisite(s): Upper-level standing

This course provides instruction relating to the delineation of watersheds by the use of topographical maps and aerial photographs, and the use of scientific methodology to estimate quantitative values for contaminant levels.

**ENV 3137 Wildlife Management Methods (1)**

Pre-requisite(s): ENV 3337 or concurrent enrollment

Laboratory techniques used in wildlife management, abundance estimates, management of habitats, and resolving current issues in wildlife management. Studies of game, non-game, endangered, and exotic species.

**ENV 3187 Environmental Chemistry Laboratory (1)**

Pre-requisite(s): Credit or concurrent enrollment in ENV 3387; or consent of instructor

Introduction to experimental, field sampling, and analytical methods in environmental chemistry. Emphasis on field detection of both organic and inorganic compounds in soil, water, and air via spectrometric, chromatographic, and fluorometric instrumentation.

**ENV 3188 Laboratory Methods in Environmental Assessment and Monitoring (1)**

Co-requisite(s): ENV 3187

Pre-requisite(s): ENV 1301, 1101, and 2307

Lab expands upon concepts learned in ENV 3210 by providing techniques that determine biological responses to stressors.

**ENV 3216 Air Quality and Monitoring Laboratory (2)**

Pre-requisite(s): CHE 1300, 1301 or 1405; and credit or concurrent enrollment in ENV 3316

An introduction to laboratory, field sampling, and data analysis techniques used in air quality monitoring. Topics will include measurement and analysis of pollutants such as ozone, particulate matter, and sulfur dioxide, and basic modeling.

**ENV 3300 The Environment and Political Processes (3)**

Cross-listed as PSC 3300

See PSC 3300 for course information.

**ENV 3301 Team Research in Environmental Studies (3)**

Pre-requisite(s): Sophomore or junior standing; or consent of the instructor

Students will participate in a team research project under the supervision of a Baylor faculty member. Students will be expected to attend one hour of lecture and to complete a minimum of six hours of field or laboratory work a week. May be repeated once under different topic.

**ENV 3303 Directed Reading in Environmental Studies (3)**

Pre-requisite(s): ENV 1301 or consent of instructor

Critical reading in environmental studies. Student-led discussion and evaluation. May be repeated with a change of topic for a maximum total credit of six semester hours.

**ENV 3306 Conserving Biodiversity (3)**

Pre-requisite(s): ENV 1301 or BIO 1306 or consent of instructor

Introduction to causes of species and habitat loss. Application of ecological and genetic concepts to conservation and restoration of animal and plant species.

**ENV 3308 Marine Environments and Biodiversity (3)**

Pre-requisite(s): Six hours of environmental studies or biology courses, or consent of instructor

Introduction to marine life forms, ecological adaptations, habitats, and critical issues in conserving marine biodiversity.

**ENV 3310 Field Techniques for Environmental Science (3)**

Pre-requisite(s): ENV 1301 and ENV 1101

Environmental sampling methods and sample processing; data collection and analysis, and biological indexing. Course provides hands-on experience in performing Texas Commission for Environmental Quality sampling techniques for air, water, sediments, and biota, with emphasis on aquatic systems.

Fee: \$200

**ENV 3314 Introduction to Environmental Health (3)**

Cross-listed as BIO 3315

Pre-requisite(s): Sophomore standing or above

Study of environmental hazards to the health of humans and other vertebrates, including pollution, radiation, wastes, urbanization, and climate change. Topics include epidemiology, risk assessment, infectious diseases, emerging contaminants, and regulation.

**ENV 3316 Introduction to Air Quality (3)**

Pre-requisite(s): CHE 1300, 1301 or 1405

Introduction to atmospheric chemistry, and transport and deposition of air pollutants. Topics include major sources of pollution, climate change, atmospheric regulation, and impacts on human health.

**ENV 3320 Environment and Human Behavior (3)**

Cross-listed as ANT 3320

See ANT 3320 for course information.

**ENV 3333 Watershed Assessment (3)**

Pre-requisite(s): ENV 1301 or consent of instructor

An introduction to the scientific tools and methodology by which watersheds may be delineated and assessed with respect to point and non-point pollution. This course will deal primarily with surface waters.

**ENV 3337 Principles of Wildlife Management (3)**

Pre-requisite(s): ENV 1303 or 2307 or consent of instructor

Introduction to techniques used in wildlife management including population estimation, forage evaluation, and habitat mapping. Investigation of the natural history and management strategies for a variety of game, non-game, endangered, and exotic species.

**ENV 3370 Managing Environmental Health and Safety (3)**

Pre-requisite(s): CHE 1405, 1300 or 1301; and ENV 3314 or consent of instructor

Anticipation, recognition, evaluation, and control of chemical, radiological, biological, and physical hazards in the workplace and in environmental contexts.

**ENV 3387 Environmental Chemistry (3)**

Pre-requisite(s): ENV 1101, 1301, and CHE 3331

An introduction to the chemistry of soil, water, and air, and the sources, fate, and transport of environmental pollutants. Topics include applications of chemistry to remediation and waste minimization. Open to students with diverse backgrounds. Credit or concurrent enrollment in ENV 3387 is required to enroll in ENV 3187 Environmental Chemistry Laboratory.

**ENV 3V90 Individual Research Problems (1-3)**

Pre-requisite(s): Completion of a departmental application providing a description of the project and consent of instructor

A research project conducted under the supervision of a Baylor faculty member in Environmental Science, a supporting department, or a pre-approved off-campus laboratory or field station. Three hours of laboratory or field work per week will be required during fall or spring semester, or fifty hours total during the summer, for each semester hour of credit. This course may be repeated for up to six semester hours of credit.

**ENV 3V93 Environmental Sustainability Internship (1-3)**

Pre-requisite(s): Consent of a Baylor faculty sponsor; and completion of a departmental application

Campus or community internship to develop leadership in environmental sustainability. Open to non-majors. The course may be repeated for up to three semester hours of credit.

**ENV 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**ENV 4102 Seminar on Environmental Topics (1)**

Seminars by faculty, students and visiting speakers. Each student will prepare and present one thirty to forty-five minute seminar. May be repeated once, with different content.

**ENV 4170 Fundamentals of Ecotoxicology Laboratory (1)**

Co-requisite(s): ENV 4370

Pre-requisite(s): ENV 1301, 2307, 3210, 3187, and 3188

Field and laboratory techniques critical to gathering information on environmental stressors and responses of organisms to them.

**ENV 4199 Senior Thesis I (1)**

Pre-requisite(s): Senior standing in environmental studies major  
Student selects an environmental problem for independent research project. After approval by thesis adviser, literature search is conducted and bibliography for the thesis is completed.

**ENV 4287 Field and Laboratory Tests (2)**

Pre-requisite(s): CHE 1316, 3331, 3332; and/or concurrent enrollment in ENV 4387

Field and bench tests of chemically contaminated water and soil, using portable test kits, with simple bench tests of selected remediation methods such as ion-exchange, precipitation, and membrane separations.

**ENV 4299 Senior Thesis II (2)**

Pre-requisite(s): Credit or concurrent enrollment in ENV 4199

Preparation of information and data analysis in appropriate thesis form.

**ENV 4302 Team Problem Solving in Environmental Studies (3)**

Students will contribute the skills of their specializations to analyze and to suggest a solution to a current environmental problem. May be repeated once with a change of content.

**ENV 4304 Aquatic Chemistry (3)**

Pre-requisite(s): ENV 3387 or consent of instructor

Concepts and issues in aquatic chemistry, including chemical equilibria of natural waters and anthropogenic impacts. Required field trips.

**ENV 4306 Economic Anthropology (3)**

Cross-listed as ANT 4306

See ANT 4306 for course information.

**ENV 4307 Environmental Law (3)**

Cross-listed as PSC 4307

Pre-requisite(s): Upper-level standing or consent of instructor  
Fundamentals of environmental protection laws in the United States, including the evolution of environmental law in the areas of case law, common law, and administrative law. Topics include air and water quality, toxic and hazardous substances, endangered species, and wetlands and coastal management issues.

**ENV 4308 Air Quality Regulation (3)**

Reviews history and policy of United States, transboundary, and global air pollution and resulting environmental regulations.

**ENV 4310 World Food Problems (3)**

Cross-listed as ANT 4311

Pre-requisite(s): Upper-level standing

A seminar approach with emphasis on the various causes of malnutrition including the ecological basis for food production, the impact of economics and politics on food production and distribution, and the consequences of malnutrition.

**ENV 4313 Agricultural Ecology (3)**

Pre-requisite(s): ENV 1301, or BIO 1306, or 1401

Application of ecological principles to sustainable agricultural management. Emphasis on Texas and the tropics. Required weekend field trips.

**ENV 4315 Research Methods (3)**

Pre-requisite(s): ENV 1301 and 2376

Research design and methods. Students produce a comprehensive research proposal in their major field(s) of study.

**ENV 4318 Heavy Metals & Global Public Health (3)**

Pre-requisite(s): BIO 1305 or BIO 1405, BIO 1306 or BIO 1406, CHE 1301, and CHE 1302, and upper level standing

Examines the impacts of natural and anthropogenic sources of metals on human health and the relationship between natural geological factors and health in humans and animals in the context of geographic significance and public health responses.

**ENV 4322 Climate Anthropology (3)**

Cross-listed as ANT 4321

See ANT 4321 for course information.

**ENV 4323 The Environment and Economic Analysis (3)**

Cross-listed as AVS 4323, ECO 4323

Pre-requisite(s): ECO 1305 or 2306; and upper-level standing

Economic analysis in description, analysis, and policy formulation of environmental problems such as natural resource development, ecology, energy needs, noise, water, and air pollution. Economic tools used will include social welfare analysis, externalities, and benefit cost analysis.

**ENV 4325 Human Health Risk Assessment (3)**

Pre-requisite(s): ENV 3314 or concurrent enrollment in ENV 3314; or consent of instructor

Concepts, data sources, and methodologies used in the field of human risk assessment, including environmental hazard identification, dose-response assessment, exposure assessment, risk characterization, and risk communication. Required project utilizing professional risk assessment software.

**ENV 4327 Human Catastrophe and Cultural Response (3)**

Cross-listed as ANT 4327

See ANT 4327 for course information.

**ENV 4330 Urban Political Processes (3)**

Cross-listed as PSC 4330

See PSC 4330 for course information.

**ENV 4331 Social Demography (3)**

Cross-listed as SOC 4331

See SOC 4331 for course information.

**ENV 4332 Science Leadership: Community Environmental Research (3)**

Cross-listed as GEO 4332

Pre-requisite(s): Upper-level standing; and consent of instructor

Development of science leadership skills through community-based research on environmental problems.

**ENV 4333 Coastal Zone Management (3)**

Pre-requisite(s): Upper-level standing

Strategies for managing beaches, deltas, barrier islands and coastal seas, including issues in flood and storm risk, pollution mitigation, recreational development and fisheries exploitation.

**ENV 4335 Applied Environmental Impact Analysis (3)**

Government regulations and increased citizen awareness relationship to the impact of plans and projects on the environment. The course includes an examination of major environmental legislation and its impact on decision making in the public sector. Legislative Acts pertinent to the development of Environmental Impact Analysis are studied.

**ENV 4337 Environmental Sustainability and Religion (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Cases studies in interactions between world and indigenous religions and environmental science, management, and planning. Topics include religious engagement with agriculture, extractive industries, watershed management, biodiversity conservation, pollution regulation, climate policy, and environmental NGOs.

**ENV 4340 Environmental Archaeology (3)**

Cross-listed as ANT 4340, ARC 4340

See ANT 4340 for course information.

**ENV 4344 Fundamentals of Toxicology (3)**

Cross-listed as BIO 4344

Pre-requisite(s): CHE 1301, 1302, 3331, BIO 1305, 1306, 3322, and 3122; or consent of instructor

Basic concepts of toxicology, including historical perspectives, the disposition and metabolism of toxic substances, pharmacokinetics, target organ toxicity, non-organ directed toxicity, toxic agents, industrial toxicology, forensic toxicology, environmental toxicology, toxicity testing techniques, and risk assessment.

**ENV 4345 Water Management (3)**

Cross-listed as GEO 4345

Interdisciplinary field of water management. Scientific, technical, institutional, economic, legal, and political aspects of water management.

**ENV 4349 Pollution Abatement and Prevention Systems (3)**

Pre-requisite(s): ENV 3333, 3387, CHE 1302, or EGR 1301; or consent of instructor

Analysis, design, and performance of pollution treatment and remediation methods. Emphasis on the practices of pollution prevention, green chemistry, and industrial ecology as more sustainable pollution reduction strategies.

**ENV 4350 Development and Indigenous Peoples (3)**

Cross-listed as ANT 4350

Pre-requisite(s): ANT 1305, SOC 1305 or consent of instructor

With particular reference to indigenous peoples, this course examines the ethnographic context of Third World development and evaluates key issues that influence the development process.

**ENV 4351 Futuristics (3)**

Cross-listed as ANT 4351

See ANT 4351 for course information.

**ENV 4354 Water Treatment (3)**

Pre-requisite(s): ENV 1101 and 1301 or consent of instructor

Water use, treatment and disposal. Topics to be examined include the history of human use, resource access, water and wastewater treatment, disposal and re-use, anthropogenic impacts, regulations, current practices and theory in application of municipal, commercial and domestic treatment strategies. Activities include lecture, discussion, field trips, and student participation in the department's On-Site Wastewater Testing Program.

**ENV 4355 Principles of Renewable Resource Management (3)**

Theory, principles, and management of renewable resources to meet human needs. Field trips to management activities will be included.

**ENV 4362 Applied Anthropology (3)**

Cross-listed as ANT 4362

See ANT 4362 for course information.

**ENV 4365 The Environment and Energy (3)**

Pre-requisite(s): ENV 1301 and upper-level standing

Fundamental concepts of energy: the nature of energy flows and storage, potential and kinetic energy, energy loss and reversible and irreversible processes. Renewable and non-renewable energy sources and the impact of energy consumption on problems of societal sustainability.

**ENV 4369 Seminar in Anthropology (3)**

Cross-listed as ANT 4369

See ANT 4369 for course information.

**ENV 4370 Fundamentals of Ecotoxicology (3)**

Co-requisite(s): ENV 4170

Pre-requisite(s): ENV 1301, ENV 2307, ENV 3210, BIO 1305, BIO 1306, and CHE 1302; or consent of instructor

A survey of subjects critical to the study of contaminant impacts on the environment: principles of toxicology; use of toxicological information sources and data bases; ecological stressors and responses to better understand ecological risks.

**ENV 4371 Wetlands (3)**

Cross-listed as GEO 4371

See GEO 4371 for course information.

**ENV 4373 Global Soil Systems (3)**

Pre-requisite(s): BIO 1402 or 4401, CHE 3332, ENV 2375, or consent of instructor

Principles of the biodegradation and possible bioremediation of organic chemicals in the soil environment.

**ENV 4374 Global Soil Systems (3)**

Cross-listed as GEO 4373

See GEO 4373 for course information.

**ENV 4375 Natural Landscape Evaluation and Planning (3)**

Cross-listed as GEO 4375

See GEO 4375 for course information.

**ENV 4377 Advanced Studies in Wilderness, Parks, and Nature Reserves (3)**

Pre-requisite(s): ENV 3306 or consent of instructor

Topics in the management of national or state parks, nature reserves or wilderness areas, such as recreational impacts, disturbance ecology, or environmental interpretation. May be conducted as an off-campus field seminar.

**ENV 4379 Ecosystem Planning and Management (3)**

Course utilizes ecosystem-based concepts and data to develop environmental management plans which also consider social variables, such as regulations, economic development, and community welfare.

Students draft and present plans based on regional ecosystems.

**ENV 4380 Restoration Ecology (3)**

Cross-listed as BIO 4381

Pre-requisite(s): ENV 2307 and 3306, or BIO 3303 or consent of instructor

Principles and practices for restoring natural systems that have been degraded or destroyed. Emphasis on re-establishment of soils, plants, and animals in terrestrial and aquatic environments. Legislative, political, industrial, and regulatory perspectives considered.

**ENV 4386 Remote Sensing (3)**

Cross-listed as AVS 4386, BIO 4386, GEO 4386, GEOG 4386

See GEO 4386 for course information.

**ENV 4389 American Environmental History (3)**

Cross-listed as HIS 4388

See HIS 4388 for course information.

**ENV 4390 Chemical Investigation and Remediation (3)**

Pre-requisite(s): ENV 4387, CHE 1316, and 3332

Methods of site analysis, toxicology of chemical contamination, use of "chemical fingerprinting," determination of exposure methods and exposure routes, analysis of epidemiological data, general methods for remediation of toxic and hazardous wastes, and use of both technical and moral considerations in decision making.

**ENV 4393 Environmental Ethics (3)**

See REL 4393 for course information.

**ENV 4394 Internship in Environmental Education (3)**

Pre-requisite(s): Consent of the Econnections coordinator

Participation as a teaching intern in the Baylor Econnections program for Waco schools or in an approved off-campus program. Students must engage in preparation and teaching a minimum of six hours a week.

**ENV 4397 Tropical Environments: Ecology and Sustainable Management (3)**

Pre-requisite(s): Consent of instructor and upper-level standing

Off-campus field course exploring tropical ecosystems, such as rainforests and coral reefs. Investigation of past impacts of human cultures, and of sustainable practices for future environmental management. Topics may include agriculture, forestry, aquatic resources, energy production, and ecotourism.

**ENV 43C2 Environmental Capstone (3)**

Pre-requisite(s): Twenty hours of environmental science courses and upper-level standing

Advanced seminar integrating principles of environmental science, social science, and policy to solve environmental problems. Assignments and subject matter may differ depending on the topic being evaluated and the instructor of record.

**ENV 4410 Humans and Environmental Change (4)**

Pre-requisite(s): Upper-level standing

Effect of human activity on landscape evolution through time, including impacts of agriculture, forest clearing, mining, soil erosion, invasive species, pollution, and transportation infrastructure. Assessment and documentation of environmental change. Required laboratory section and weekend field trips.

**ENV 4450 Applied Forest Ecology (4)**

Pre-requisite(s): ENV 1301 or BIO 1306

Ecological analysis of forest and woodland structure, energy and nutrient cycling, population dynamics and response to disturbance. Application of concepts to sustainable forest management.

**ENV 4485 Introduction to Geographic Information Systems (4)**

Cross-listed as AVS 4485, GEO 4485

See GEO 4485 for course information.

**ENV 4487 Advanced GIS Analysis (4)**

Cross-listed as AVS 4487, ENV 4388, GEO 4487

Principles and techniques for geospatial data collection, manipulation, modeling, visualization, and analysis. Emphasis is placed on current raster modeling techniques, spatial statistical analysis methods, and using GIS as a predictive tool for environmental research.

**ENV 4613 Field School in Environmental Studies (6)**

Pre-requisite(s): Consent of instructor

Application of the scientific method to the investigation and resolution of an environmental issue.

**ENV 4680 Field School in Cultural Anthropology (6)**

Cross-listed as ANT 4680

See ANT 4680 for course information.

**ENV 4V13 Special Topics in Field and Laboratory Methodologies (1-3)**

Pre-requisite(s): Upper-level standing or consent of instructor

A field experience centered on a region, ecosystem type, or environmental issue. Incorporates system-specific sampling methodologies. Requires off-campus field trips. May be repeated up to a total of three credit hours when content differs.

**ENV 4V50 Problems (1-3)**

Advanced interdisciplinary study of the environment. Subject and hours credit mutually agreed upon by student and directing professor(s) prior to registration. May be repeated for a maximum total credit of three semester hours.

**ENV 4V90 Advanced Individual Research Problems (1-3)**

Pre-requisite(s): Consent of the instructor; and ENV 3V90 or completion of a departmental application providing a description of the project. A research project conducted under the supervision of a Baylor faculty member in Environmental Science, a supporting department, or a pre-approved off-campus laboratory or field station. Students must participate in project design, data analysis, or reporting. Three hours of laboratory or field work per week will be required during fall or spring semester, or fifty hours total during the summer, for each semester hour of credit. This course may be repeated for up to six semester hours of credit.

**ENV 4V93 Internship in Environmental Planning or Management (1-3)**

Pre-requisite(s): Consent of a Baylor faculty sponsor; and completion of a departmental application.

An internship with the City of Waco, a federal or state agency, Christian or non-profit organization or with industry to acquire practical experience in environmental planning or management. The course may be repeated for up to three semester hours of credit.

**ENV 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor.

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Family and Consumer Sciences (FCS)

**FCS 4367 Family Transitions, Stress, and Resilience (3)**

Pre-requisite(s): Upper level standing or consent of the instructor. Current theory and models seeking to understand family transitions, stress, coping, adaptation, and resilience.

## Film Digital Media (FDM)

**FDM 1101 New Student Seminar in Film & Digital Media (1)**

A New Student Experience course for first-year and transfer students entering as Pre-Film & Digital Media majors. Designed to help students acclimate to college life with a specific focus on the Film & Digital Media major, opportunities for FDM majors, and future career options.

**FDM 1197 Practicum in Production (1)**

Supervised practical experience in video and/or audio production. May be repeated for three credit hours.

**FDM 1198 Practicum in Grip and Lighting Equipment (1)**

Co-requisite(s): FDM 1199

Pre-requisite(s): Consent of instructor

Supervised practical experience and development of proficiency with common grip and lighting equipment and practices.

**FDM 1199 Practicum in Video and Audio Equipment (1)**

Co-requisite(s): FDM 1198

Pre-requisite(s): Consent of instructor

Supervised practical experience and development of proficiency with common video and audio acquisition equipment and practices. Cannot be repeated for credit.

**FDM 1303 Introduction to Mass Communication (3)**

Cross-listed as JOU 1303

The mass media, how they operate, and how they affect society.

**FDM 1304 Visual Literacy: Sight, Sound, Motion (3)**

Examines how pictures, sounds, and motions communicate sense and meaning in contemporary media. Considers the major aesthetic image elements – light, color, space, time, motion, and sound – and how they are used in film, video, and computer media.

**FDM 1309 Introduction to Film (3)**

Examines and explores representative masterpieces of cinema. Seeks to enhance understanding of the cinematic experience through non-technical discussions and analyses of films. Also considers the times and lives of the filmmakers.

**FDM 1V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**FDM 2351 History of Motion Pictures (3)**

Pre-requisite(s): Not open to Pre-Film and Digital Media students. International and domestic cinema since 1880, focusing on film as an art form and changes due to social, political, economic, ideological, and cultural influences.

**FDM 2352 History of Radio and Television (3)**

Pre-requisite(s): Not open to Pre-Film and Digital Media students. Radio and television since 1890, focusing on developments in technology, economics, management, programming, audiences, regulation, and the roles of radio and television in society.

**FDM 2360 Production Methods (3)**

An introduction to single-camera, multiple-camera, and audio production using basic video and audio equipment.

**FDM 2V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**FDM 3315 Broadcast Writing (3)**

Cross-listed as JOU 3315

See JOU 3315 for course information.

**FDM 3320 Business of Media (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Not open to Pre-Film and Digital Media students. Principles of business theory and practice associated with the production, promotion, and distribution of media, including the broadcasting, cable, recording, satellite, Internet, video game, and cinema industries.

**FDM 3321 Media Programming (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Not open to Pre-Film and Digital Media students. Process of media programming, including economic, legal, and audience factors. Analysis of programming practices from organizational and political viewpoints. Class programming project.

**FDM 3345 Introduction to Russian Film: Culture and Identity (3)**

Cross-listed as RUS 3345

See RUS 3345 for course information.

**FDM 3361 Production Methods II (3)**

Pre-requisite(s): FDM 1198, FDM 1199, and FDM 2360 or consent of instructor

Not open to Pre-Film and Digital Media students. Further development of the technical abilities and conceptual approaches to single-camera and multiple-camera digital media production introduced in FDM 2360, Production Methods.

**FDM 3372 Writing for Media Markets (3)**

Cross-listed as JOU 3372

See JOU 3372 for course information.

**FDM 3373 Screenwriting (3)**

Pre-requisite(s): Upper-level standing

Not open to Pre-Film and Digital Media students. Development of skills in writing a feature film screenplay. Topics include theme, plot, characterization, dialogue, story structure, filmic time, filmic space, filmic motion, script format, and script revision. Students will generate their own feature film idea and complete a first draft screenplay.

**FDM 3374 Television Writing (3)**

Pre-requisite(s): Upper-level standing

Not open to Pre-Film and Digital Media students. Analysis of various television production formats such as half-hour sitcoms, one-hour dramas, and two-hour movies-of-the-week. Students will generate an original script idea for an existing television program and complete a first draft teleplay.

**FDM 3380 Sound Design (3)**

Cross-listed as THEA 3380

See THEA 3380 for course information.

**FDM 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**FDM 4313 Diffusion of Innovations (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Not open to Pre-Film and Digital Media students. An introduction to old and emerging theories which explain the spread of innovative ideas and technologies among members of a society, emphasizing the role of communication processes and the special problems for diffusion in communication technology.

**FDM 4314 Digital Media Technologies (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Not open to Pre-Film and Digital Media students. Analysis of the technical foundations of communication media, the interrelationships among the various media technologies, and the impact of these technologies on media management, content, distribution, and consumption.

**FDM 4330 Survey of French Cinema (3)**

Cross-listed as FRE 4330

See FRE 4330 for course information.

**FDM 4340 Media and Society (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Not open to Pre-Film and Digital Media students. Roles of the media in society and their relationship with other societal institutions. Impacts of the media upon society, responsibilities of the media, and restraints imposed upon them.

**FDM 4341 Electronic Culture (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Not open to Pre-Film and Digital Media students. An examination of the issues at the intersection of modern media technology, philosophy, and contemporary culture.

**FDM 4342 Art and the Moving Image (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Not open to Pre-Film and Digital Media students. An examination of the cinema as an art form in the context of other artistic media (such as painting, music, etc.).

**FDM 4343 Film and Media Theory (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Not open to Pre-Film and Digital Media students. The artistic potential of motion picture and television production, including major film theories and visual aesthetics. Dramatic narrative (fiction), documentary (non-fiction), and non-narrative subjects will be analyzed.

**FDM 4344 Film Criticism (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

A survey of the history of film criticism and different approaches to the analysis and critical evaluation of film. The works of major critics are analyzed and their approaches use to write film criticism.

**FDM 4347 Communication and Culture (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Not open to Pre-Film and Digital Media students. An examination of the reciprocal functions of communication and urban culture as they continue to shape and define each other. Specific areas of inquiry vary each semester. May be repeated once with a different topic (maximum six semester hours).

**FDM 4361 Audio Production (3)**

Pre-requisite(s): FDM 3361 or consent of instructor

Not open to pre-Film and Digital Media students. Advanced audio techniques for media productions, technical and conceptual aspects of sound design. Emphasis on sound/image relationships in film and video, and the interface between traditional analog and digital audio technologies. Includes recording, editing, and mixing of audio sources in the creation of original sound tracks.

**FDM 4362 Short Film Production (3)**

Pre-requisite(s): FDM 3361

Not open to pre-Film and Digital Media majors. Advanced short narrative digital cinema production with emphasis on storytelling, theme, and mise-en-scene.

**FDM 4363 Advanced Digital Production (3)**

Pre-requisite(s): FDM 3361, FDM 4365, and consent of instructor

Not open to pre-Film and Digital Media majors. Develops proficiency in producing, directing, and editing of advanced digital content using single camera and multi-camera studio techniques. Covers pre-visualization, visual effects compositing, digital audio, and postproduction. Emphasis on bringing ideas from conception to realization in a professional setting.

**FDM 4364 Interactive Media (3)**

Pre-requisite(s): FDM 3361 or consent of instructor

Not open to Pre-Film and Digital Media students. Interactive media elements and authoring systems, emphasizing the integration of computer technology in the development of interactive media messages.

**FDM 4365 Lighting and Cinematography (3)**

Pre-requisite(s): FDM 3361 or consent of instructor

Not open to Pre-Film and Digital Media students. Advanced film and video production with emphasis on the techniques, equipment, and theories involved in lighting and cinematography. Emphasis on the role of the cinematographer or director of photography.

**FDM 4366 Post Production (3)**

Pre-requisite(s): FDM 3361 or consent of instructor

Not open to Pre-Film and Digital Media students. Advanced film and video production with emphasis on the techniques, equipment, and theories involved in editing film and video. Emphasis on the use of computer-based non-linear editing systems.

**FDM 4367 Film and Video Direction (3)**

Pre-requisite(s): FDM 3361 or consent of instructor

Not open to Pre-Film and Digital Media students. In-depth investigation into the history, theory, and basic concepts of film and video direction; script preparation; story-boarding; blocking actors and staging the camera; sound; and editing. Projects include directing and shooting short videos.

**FDM 4369 Producing (3)**

Pre-requisite(s): Upper level standing or permission of instructor

Not open to Pre-Film and Digital Media students. Current film and television industry practices, including analysis of literary material, industry structure and economics, pitching, deal-making, and distribution.

**FDM 4371 Advanced Sound Design (3)**

Cross-listed as THEA 4384

See THEA 4384 for course information.

**FDM 4373 Advanced Screenwriting (3)**

Pre-requisite(s): FDM 3373 or FDM 3374 or consent of instructor

Not open to Pre-Film and Digital Media students. Workshop course for advanced writers of narrative fiction screenplays emphasizing discussion of student work.

**FDM 4380 Topics in Media History (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Not open to Pre-Film and Digital Media students. In-depth investigation of important historical eras in the development of various media, for example, cinema, television, radio, and gaming. May be repeated twice under different topic not to exceed nine credit hours.

**FDM 4381 Topics in Media Management and Technology (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Not open to Pre-Film and Digital Media students. Examines media management issues and the impact of technological innovations on a wide range of media industries including broadcasting, Internet, telecommunication, cable, satellite, video game, and digital cinema. May be repeated twice under different topics, not to exceed nine credit hours.

**FDM 4382 Topics in Media Storytelling (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Not open to Pre-Film and Digital Media students. Examines a selected topic in film, television, radio/audio, games, or other form of digital media storytelling. May be repeated twice under different topics, not to exceed nine credit hours.

**FDM 4384 Topics in National Media (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Not open to Pre-Film and Digital Media students. An aesthetic, cultural, and/or historical examination of a selected national mass medium, for example, Japanese Cinema, British Television, or French New Wave Cinema. Focuses on directors, films/programs, movements, and cultural contests of national media. May be repeated twice under different topics not to exceed nine credit hours.

**FDM 4388 Topics in Media Production (3)**

Pre-requisite(s): FDM 3361 or consent of instructor

Not open to Pre-Film and Digital Media students. Advanced media production with emphasis on one particular aspect of production. Topics covered may include cinematography, experimental film or video collaborative projects, documentary, studio drama, narrative, and other topics. May be repeated twice under different topics not to exceed nine credit hours.

**FDM 4396 Topics in Media Genres (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Not open to Pre-Film and Digital Media students. An analysis of major media genres (in film, television, gaming, and other media). Methodological issues in genre criticism will also be addressed. May be repeated twice under different topics not to exceed nine credit hours.

**FDM 4397 Topics in Contemporary Cinema (3)**

Pre-requisite(s): Upper-level standing

Not open to Pre-Film and Digital Media students. An academic examination of current cinema. Topics covered may include contemporary world cinema, contemporary American cinema, artists/directors, philosophy, history and other topics. May be repeated once with a different topic.

**FDM 4V03 Internship in Electronic and Film Media (1-6)**

Pre-requisite(s): Undergraduate: fifteen hours in major; graduate: consent of graduate director

Not open to Pre-Film and Digital Media students. Designed to fit the needs and interests of the individual student. Interns may select activities in a broadcast station or network, wire service, film production hours, corporate communications department, advertising agency, or in other appropriate organizations. Internships must be approved by the division director (undergraduate) or graduate director (graduate) and are carried out under the supervision of the division director. May be repeated for a total of six semester hours provided the professional setting is different. Graduate students will be limited to three hours credit.

**FDM 4V30 Seminar in Electronic and Film Media (1-3)**

Pre-requisite(s): Not open to Pre-Film and Digital Media students

Study of a current topic in electronic media and/or film, including directed research and reading. May be repeated once with different topic.

**FDM 4V85 Special Problems in Telecommunication (1-3)**

Pre-requisite(s): Fifteen semester hours in Communication Studies (CSS or FDM), and consent of instructor

Not open to Pre-Film and Digital Media students. A conference course designed to give individual students opportunities for additional work in their area of concentration in the film and digital media division of the department. One to three hours may be earned a semester. May be repeated once with change in content.

**FDM 4V98 Electronic and Film Media Workshop (3-6)**

Pre-requisite(s): Consent of instructor

Not open to Pre-Film and Digital Media students. A directed project to a detailed individual or group radio, television, or film production including preproduction, research and concept development, production, post production, and planning for distribution. May be repeated once in a different semester for a total of six semester hours.

**FDM 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Finance (FIN)

### **FIN 3305 Principles of Risk Management and Insurance (3)**

Pre-requisite(s): A minimum grade of C in FIN 3309 or 3310 or concurrent enrollment; or consent of instructor

Only open to BBA students; BBA student must be admitted to the Business School in order to take this course. Techniques for managing pure risks in order to maximize the value of a firm. The course contrasts the risk preferences of corporations with that of individuals and explores the implications of differing preferences on insurance purchase decisions. The characteristics of as a tool in the process of managing both corporate and personal risk exposures are emphasized.

### **FIN 3306 Principles of Real Estate (3)**

Pre-requisite(s): A minimum grade of C in FIN 3310 or concurrent enrollment; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

An introduction to real estate principles and practices, including ethics, titles to and conveyance of real estate, legal descriptions and deeds, encumbrances, closing procedures, land economics, real estate finance, brokerage, marketing, appraising, real estate investment, and taxation.

### **FIN 3309 Introduction to Finance (3)**

Pre-requisite(s): A minimum grade of C in ACC 2303, ACC 2304, ECO 2306 and ECO 2307; completion of MTH 1309 or 1321

Only open to BBA students. A study of the way money is managed by individuals and businesses. The course explores how financial markets operate, how individuals and corporate managers analyze investment opportunities and how they raise money to fund those investments. This course is designed as a survey of the application of financial analysis to a broad set of problems and is appropriate for undergraduate students from any major who meet the course prerequisites.

### **FIN 3310 Introduction to Corporate Finance (3)**

Pre-requisite(s): A minimum grade of C in ACC 2303 and ECO 2306 or 1380; completion of MTH 1309 or 1321

Only open to BBA students. A study of long-term financial decision making by corporations with a focus on how firms raise cash, invest cash, and distribute cash back to investors. Specific topics include how cash flow, time, risk, information, market imperfections and potential conflicts of interest affect financial decisions. Excel modeling of financial decisions is integrated throughout the course.

### **FIN 4186 Practicum in Small-Cap Investing II (1)**

Pre-requisite(s): A minimum grade of C in FIN 4285; only open to BBA students

This course gives students valuable hands-on experience researching, analyzing, and managing a portfolio of small-cap stocks. The level of security research and valuation analysis will mirror that experienced working in industry. Each student will be required to produce a stock research report and present their recommendations to the other analysts managing the investment fund.

### **FIN 4285 Practicum in Small-Cap Investing I (2)**

Pre-requisite(s): Only open to BBA students; BBA students must be admitted to the Business School in order to take this course

This course gives students valuable hands-on experience researching, analyzing, and managing a portfolio of small capitalization (small-cap) stocks by managing the Hodges Fund. The level of security research and valuation analysis will mirror the experience working in the industry.

### **FIN 4310 Entrepreneurial Finance (3)**

Pre-requisite(s): A minimum grade of B- in FIN 3310; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

Examines the intriguing process of financing the pursuit of opportunity and growth without regard to assets controlled currently. The major focus is on start-up or acquisition and the initial stages of growth. There is an emphasis on high growth firms, and the central objective is to gain an understanding of how entrepreneurs obtain and use financial resources. The course also examines how value is created.

### **FIN 4311 Fundamentals of Life and Health Insurance (3)**

Pre-requisite(s): A minimum grade of C in either FIN 3309 or 3310, or consent of the instructor; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

A study of the financial implications of death, disability and retirement, as well as the corresponding forms of individual life insurance, health insurance and annuities. Elementary life and health insurance programming, taxation, legal aspects, business uses of individual life and health insurance, regulation, and insurer operations and functions are covered.

### **FIN 4315 Baylor Angel Network Practicum (3)**

Pre-requisite(s): Instructor approval; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

The Baylor Angel Network Practicum is to provide a unique learning opportunity for exceptional undergraduates, allowing the students to receive hands-on experience by working closely with private-equity investors and entrepreneurs seeking funding for seed or early-stage companies.

### **FIN 4320 Fundamentals of Property and Liability Insurance (3)**

Pre-requisite(s): A minimum grade of C in either FIN 3309 or 3310, or consent of the instructor; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

A study of the property-liability insurance industry, including the economic and financial issues inherent in property-liability insurance contracting. Topics may include commercial insurance contracts, automobile insurance costs and prices, tort reform effects on insurance markets, economics of distribution systems, corporate governance and organizational form, pricing models, solvency measurement, solvency regulation and market discipline, reinsurance and catastrophic risk, underwriting and risk selection, rate-making techniques, and underwriting cycles.

### **FIN 4329 Real Estate Appraisal (3)**

Pre-requisite(s): FIN 3405 and a minimum grade of C in FIN 3310; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

The valuation of real estate including the functions, purposes and techniques of appraising land and improvements. Additionally, an extensive review of the concepts of ownership interests, zoning, land use regulation and related topics that affect the value of real estate is included. Students will be instructed in the use of the three fundamental approaches to valuation: the sales comparison approach, the cost-less depreciation approach, and the income capitalization approach as well as capitalization techniques used in the profession. This course also examines the rule of market analysis in the valuation process.

**FIN 4331 International Business Finance (3)**

Cross-listed as INB 4331

Pre-requisite(s): A minimum grade of B- in FIN 3310; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

A study of international financial management, including multinational corporations (MNCs), international financial markets, international trade, foreign exchange rate, currency futures, forwards, options and swaps, currency exposures, and short- and long-term financing decisions of MNCs. With a focus on the enhancement of analytical skills based on the tools and theory of international finance, this course will promote critical thinking skills of the student.

**FIN 4332 Employee Benefit Planning (3)**

Pre-requisite(s): A minimum grade of C in either FIN 3309 or 3310, or consent of the instructor; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

An examination of the rationale for, and basic details of, (1) employer provided group-life and group-health benefits, (2) private pension plans, and (3) government requirement required benefits, including social security, Medicare and Medicaid, disability income, and unemployment benefits. The approach focuses on the economic theory and historical developments of each of these areas.

**FIN 4335 Business Risk Management (3)**

Pre-requisite(s): A minimum grade of C in FIN 3310; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

This course covers the new and emerging field of integrated, or enterprise risk management. Specifically, it examines the use of insurance as well as various financial instruments to control the costs of corporate risk. Emphasis is placed on the identification, evaluation, and management of corporate risks. Besides examining traditional hedging strategies, the course also considers techniques such as leveraging, post-loss financing, contingent financing, and diversification.

**FIN 4339 Real Estate Investments (3)**

Pre-requisite(s): A minimum grade of B- in FIN 3310; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

An analysis of real estate investments using ARGUS Financial Analysis, the real estate industry's leading computer software specifically designed for the analysis of income-producing properties. Additionally, an extensive review of legal issues related to ownership interests, mortgages, fair housing, and ADA requirements is included. Current issues as well as analytical methods are presented in a case study approach. Creative financing and income tax considerations are also included.

**FIN 4340 Real Estate Finance (3)**

Pre-requisite(s): A minimum grade of B- in FIN 3310; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

The flow of real estate funds, including the origination process, the secondary market, and the securitization of mortgage pools. Excel software is used to analyze the cash flow and amortization characteristics of fixed-rate, variable-rate, and graduated-payment mortgages. Issues pertaining to tenure choice, expected mortgage life, and refinancing are also investigated.

**FIN 4350 Financial Modeling (3)**

Pre-requisite(s): A minimum grade of B- in FIN 3310; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

This course is designed to provide proficiency in various analytical tools used by financial managers and analysts. Students will learn how to link financial theory to data to ultimately frame and answer questions, solve problems, and make informed financial decisions. This course bridges abstract ideas related to corporate strategy to concrete practices like firm valuation by learning to use relevant analytical tools.

**FIN 4360 Advanced Corporate Finance (3)**

Pre-requisite(s): A minimum grade of B- in FIN 3310; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

The class applies the tools of financial analysis and financial theory to explore capital allocation and capital acquisition decisions of corporations. Students review and develop an understanding of the seminal theories that underpin the study and practice of finance.

**FIN 4361 Short-Term Financial Management (3)**

Pre-requisite(s): A minimum grade of B- in FIN 3310 or a minimum grade of B in FIN 3309 and registered for FIN 3310; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

An advanced study of short-term financial management and financial statement analysis. Topics include cash management, credit and collections, payables management, bank relations, short-term investing and borrowing, and management of interest rate and foreign exchange risks. The class will provide partial preparation for students wishing to take the Certified Treasury Professional (CTP) exam.

**FIN 4363 Mergers and Acquisitions (3)**

Pre-requisite(s): A minimum grade of B- in FIN 3310; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

The objective of this course is to examine mergers and acquisitions (M&A) through the lens of financial economics. Though there are a significant number of other disciplines involved in M&A (i.e., Accounting, Law, Economics, Management, etc.), we will focus primarily on the financial aspects of these transactions.

**FIN 4365 Investment Analysis (3)**

Pre-requisite(s): A minimum grade of B- in FIN 3310; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

Investment decision making with emphasis on stocks, bonds, and portfolio management. Major topics include portfolio theory and the measurement of risk, performance evaluation, the efficient markets hypothesis, valuation of securities, and portfolio composition in relation to investor objectives. Other topics may include the functioning of the securities markets, securities law and regulations, and an introduction to derivative securities.

**FIN 4366 Options, Futures, and Other Derivatives (3)**

Pre-requisite(s): A minimum grade of B- in FIN 3310; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

This course covers derivative securities such as futures, forwards, swaps and options. Such securities are referred to as "derivatives" because their values depend upon the values of other assets. This course presents a conceptual framework for understanding how to price derivatives and design risk management strategies.

**FIN 4370 Financial Analysis and Banking (3)**

Pre-requisite(s): A minimum grade of B- in FIN 3310; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

An advanced study of financial statement analysis that includes the UCA Cash Flow Statement, fraud, window dressing and warning signs. Other topics include credit policy and loan characteristics; loan underwriting techniques that mitigate credit risk; evaluating commercial loan requests; pricing fixed-income securities; and managing interest rate risk as it relates to earnings sensitivity and economic value of equity.

**FIN 4381 Practicum in Portfolio Management (3)**

Pre-requisite(s): FIN 4365 or equivalent and consent of instructor; only open to BBA students

This practicum gives students valuable hands-on experience in securities research, valuation of risky assets, and asset allocation by managing the Philip M. Dorr and Alumni Endowed Investment Fund. Through readings and student-prepared research reports students develop skills in evaluating economic, industry, and firm data; integrating such data into securities analysis; and communicating their research results to others.

**FIN 4387 Seminar in Contemporary Financial Economics (3)**

Pre-requisite(s): A minimum grade of B- in FIN 3310; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

This course provides students with the opportunity to explore current research topics in finance. Students attend the department's research seminars and discuss papers presented by external speakers. The course is primarily intended for students considering the pursuit of a doctoral degree in finance.

**FIN 4V97 Special Studies in Real Estate (1-6)**

Pre-requisite(s): FIN 3405 and consent of department chairperson; not open to pre-business students

With the consent of the chair of the Department of Finance, Insurance, and Real Estate, this course may be taken for one to six semester hours of credit with change of topic.

**FIN 4V98 Special Studies in Finance (1-6)**

Pre-requisite(s): A minimum grade of B- in FIN 3310; not open to pre-business students

With the consent of the chair of the Department of Finance, Insurance, and Real Estate, this course may be taken for one to six semester hours of credit.

**FIN 4V99 Special Studies in Risk Management and Insurance (1-6)**

Pre-requisite(s): FIN 3305; not open to pre-business students

With the permission of the chair of the Department of Finance, Insurance, and Real Estate, this course may be taken for one to six semester hours of credit.

## First Year Seminar (FYS)

**FYS 1399 First Year Seminars (3)**

Introduces first year students to the world of academics and the scholarly community through exploration of a topic of significant cultural/social importance with a distinguished faculty member. Includes emphasis on critical inquiry and thinking, research, writing, and problem solving. First Year Seminars are offered in history, biology, English, political science, economics, psychology, neuroscience, social work, classics, and other departments. The course may be repeated once under a different department and topic.

## Forensic Science (FORS)

**FORS 1390 Survey of Forensic Science (3)**

Pre-requisite(s): CHE 1101/1301; or consent of instructor

An introduction to forensic science with a focus on the history and current state of disciplines including crime and death scene investigation, chain of custody procedures, the forensic laboratory and its components and expert testimony. Field trips, guest speakers and hands-on activities.

**FORS 2391 Topics in Forensic Science Methods I (3)**

Pre-requisite(s): Consent of instructor

Lecture and field experience in the methods and techniques of forensic science. Topics will vary. May be repeated once under a different topic.

**FORS 3310 Bloodstain Pattern Analysis (3)**

Pre-requisite(s): FORS 1390

Recognition of bloodstain pattern evidence, flight characteristics, motion, and force. Includes hands-on activities.

**FORS 3320 Trace Evidence (3)**

Pre-requisite(s): FORS 1390

Trace evidence at crime scenes; includes hair, fibers, soils, paint, bloodstains, fluids, and other substances.

**FORS 3330 Impression Evidence (3)**

Pre-requisite(s): FORS 1390

Impression evidence at crime scenes; includes fingerprints, footwear, tires, firearms, tool marks, and bite marks.

**FORS 3331 Human Osteology (3)**

Cross-listed as ANT 3331

See ANT 3331 for course information.

**FORS 3340 Expert Witness Testimony (3)**

Pre-requisite(s): FORS 1390

The forensic expert witness in the courtroom. Class taught in conjunction with practice court presentations at the Baylor Law School.

**FORS 3350 Forensic Application of White-Collar Crime (3)**

Pre-requisite(s): FORS 1390

Investigations of white-collar crimes and their place in forensic science.

**FORS 3357 Crime Scene Investigation (3)**

Pre-requisite(s): FORS 1390

Examining and processing the crime scene for physical evidence such as fingerprints, footwear impressions, trace evidence, occult blood, and DNA. Photography, search strategies, collection methods, and legal considerations will be reviewed. (Students may not receive credit for both FORS 2357 and FORS 3357).

**FORS 3360 Forensic Firearms Evidence (3)**

Pre-requisite(s): FORS 1390

Firearm evidence; includes nomenclature, analytical methods, gunshot residues, ballistics, and shooting incident reconstruction.

**FORS 3370 Medicolegal Death Investigation (3)**

Pre-requisite(s): FORS 1390

An in-depth study into the practices and principles of death investigation and autopsy protocols from medical, scientific, and legal perspectives, including the investigation of natural and unnatural causes of death, such as asphyxia, toxicity, blunt force trauma, sharp force trauma, and natural disease processes.

**FORS 3380 Advanced Forensic Investigations (3)**

Pre-requisite(s): FORS 1390

This course provides training in crime scene investigative specialties in conjunction with forensic science techniques, including simulated crime scenes beginning with the initial report of the offense and continue through courtroom procedures and the legal process.

**FORS 3392 Topics in Forensic Science Methods II (3)**

Pre-requisite(s): Consent of instructor

Lecture and field experience in the methods and techniques of forensic science. Topics will vary. May be repeated once under a different topic.

**FORS 3393 Forensic Analysis of Biological Evidence (3)**

Pre-requisite(s): FORS 1390

A specialized course on biological materials relevant to a legal setting. Topics include microorganisms and bioterrorism, invertebrates, pathology, hair, and human biological materials.

**FORS 3394 Forensic DNA Analysis (3)**

Cross-listed as ANT 3394

Pre-requisite(s): ANT 1404 or BIO 1305 or BIO 1306 or consent of instructor

A specialized course on the use of DNA evidence in legal situations. Topics include basic DNA techniques, forensic DNA profiling, DNA databases, and DNA statistics in a lecture and applied format.

**FORS 4355 Forensic Anthropology (3)**

Cross-listed as ANT 4355

See ANT 4355 for course information.

**FORS 4359 Death, Injury, and Physical Remains (3)**

Cross-listed as ANT 4358, ANT 4359

Pre-requisite(s): FORS 3331 or ANT 3331 and FORS 4355 or ANT 4355

An in-depth study looking at the information the forensic anthropologist provides the medical examiner or coroner in determining the manner of death in a forensic context.

**FORS 4V50 Independent Topics in Forensic Science (1-3)**

Pre-requisite(s): Consent of instructor

Individual topics not available in formal courses of the department. May include independent study or research; directed reading; supervised work in the library, laboratory, or field; or presentation of material.

## French (FRE)

**FRE 1101 French Language Workshop (1)**

For music students, supplemental language training to accompany regular 1301 language sections.

**FRE 1102 French Language Workshop (1)**

For music students, supplemental language training to accompany regular 1302 language sections.

**FRE 1301 Elementary French (3)**

Introduction to French language and cultures; practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading). Progress from novice toward intermediate-level proficiency

**FRE 1302 Elementary French (3)**

Pre-requisite(s): FRE 1301

Introduction to French language and cultures; practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading). Progress from novice toward intermediate-level proficiency.

**FRE 1412 Accelerated Elementary French (4)**

Pre-requisite(s): Appropriate score on departmental placement exam; or departmental approval

An intensive course in first-year college French especially for students with two-three years of high school French. Covers the content of FRE 1301 and 1302 in only one semester. As grammar is reviewed, emphasis is placed on the major skill areas (ACTFL Guidelines): reading, writing, listening, speaking, and cultural awareness.

**FRE 2310 Intermediate French (3)**

Pre-requisite(s): FRE 1302 or 1412 or appropriate score on departmental placement exam; or departmental consent

Introduction to French language and cultures; practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading). Progress from novice toward intermediate-level proficiency

**FRE 2312 Intermediate French for Business (3)**

Pre-requisite(s): FRE 1402 or FRE 1412 or appropriate score on departmental placement exam

Introduction to French business publications and development of communication skills within a business context. This course is designed primarily for students seeking a B.B.A. degree, but may be substituted for FRE 2310 and used in fulfillment of the foreign language requirement in the College of Arts and Sciences.

**FRE 2320 Passport to the French-Speaking World (3)**

Pre-requisite(s): FRE 2310 or 2312 or appropriate score on departmental placement exam; or departmental approval

An exploration of the numerous facets of French and Francophone culture including art, music, cinema, literature, history, geography, cuisine, media, and pop culture while expanding upon the language skills developed in the preceding three semesters.

**FRE 2321 French for Health Professions (3)**

Pre-requisite(s): FRE 2310 or 2312 or appropriate score on departmental placement exam; or departmental approval

Intermediate French course designed to meet the needs and interests of prospective medical and health-care professionals.

**FRE 3301 Advanced French Grammar (3)**

Pre-requisite(s): FRE 2320 or appropriate score on departmental placement exam; or departmental approval

A review of familiar French grammar and an exploration of complex grammatical structures in a communicative context.

**FRE 3302 Conversational French (3)**

Pre-requisite(s): FRE 2320 or appropriate score on departmental placement exam; or departmental approval

Conversation, original composition.

**FRE 3305 Introduction to Commercial French (3)**

Pre-requisite(s): One 3000 level French course or consent of division director

Study of the essential vocabulary and style specific to French business, the basic workings of the French economy, the services which support the system. Discussions and oral reports in French, translations, writing business correspondence.

**FRE 3306 French Phonetics (3)**

Pre-requisite(s): FRE 2320

A review of the French sound system through practice in pronunciation.

**FRE 3307 Bon appetit!: Cuisine and Culture in the French-Speaking World (3)**

Pre-requisite(s): FRE 2320 or consent of Division Director

The cuisine and culture of France and the Francophone world.

**FRE 3308 French and Francophone Pop Culture (3)**

Pre-requisite(s): FRE 2320

Popular culture in France and the Francophone world as represented in film, music, popular literature, mass media, gastronomy, and fashion.

**FRE 3309 French Art in Conversation (3)**

Pre-requisite(s): FRE 2320 or consent of Division Director

Conversation course focusing on French and Francophone art.

**FRE 3310 Introduction to French Literature (3)**

Pre-requisite(s): FRE 2320

Introduction to French literature through the study of selected major works.

**FRE 3312 Children's Literature in French (3)**

Pre-requisite(s): FRE 2320

Children's literary genres including the classic novel, the short story, picture books, folk and fairy tales, as well as African contes.

**FRE 3315 Panorama of French Theatre (3)**

Pre-requisite(s): FRE 2320

A study of French theater involving the reading, discussion, viewing, and performance of representative plays from the middle ages to the twentieth century.

**FRE 3320 Conversation and Composition in Paris (3)**

Pre-requisite(s): FRE 2320 or consent of division director

Further development of communication skills through discussions, projects, and original composition. Geared to the intensive environment of the Baylor-in-Paris program.

**FRE 3325 Advanced Conversation and Composition (3)**

Pre-requisite(s): FRE 2320

Advanced oral and written communication.

**FRE 3328 Around the Francophone World in 45 Days (3)**

Pre-requisite(s): FRE 2320

Introduction to Francophone cultures around the world, including arts, films and literatures.

**FRE 3330 Introduction to French Cinema (3)**

Pre-requisite(s): FRE 2320

Study of French film for insights into French culture as well as for the enhancement of language skills.

**FRE 3337 French Civilization (3)**

Pre-requisite(s): One 3000 level French course or consent of division director

The social, cultural, historical, and intellectual aspects of French civilization from its origins to the twentieth century.

**FRE 3338 Contemporary France (3)**

Pre-requisite(s): One 3000 level French course; or consent of division director

Contemporary French culture from the beginning of the Fifth Republic in 1958 to the present.

**FRE 3340 Paris: A Cultural Overview (3)**

Pre-requisite(s): FRE 2320

The culture, history and urban make-up of Paris as well as its place in French literature, cinema and the "chanson." Use of texts, music, film and the Internet.

**FRE 3341 Tour de France: Regions and Provinces (3)**

Pre-requisite(s): FRE 2320

The cultural, economic, geographical and historical aspects of France's regions and former provinces.

**FRE 3348 A Moveable Feast: An Exploration of Paris and Its Culture (3)**

Pre-requisite(s): FRE 2320

Chronological study of Paris through literary texts, theatrical presentations, and excursions to cultural and historic sites in and around the city

**FRE 3351 Introduction to French Linguistics (3)**

Pre-requisite(s): FRE 2320 or division approval

The systematic study of the sounds, structures, and meanings of the French language and its dialects.

**FRE 3V70 Special Problems (1-3)**

Pre-requisite(s): Consent of division director

With content changed, this course may be repeated once for credit.

**FRE 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**FRE 4301 Topics in French Grammar (3)**

Pre-requisite(s): FRE 3301 or consent of instructor

Continued study of French grammar focusing on problematic structures.

**FRE 4315 Methods of Foreign Language Teaching (3)**

Cross-listed as GER 4315, SPA 4315

See SPA 4315 for course information.

**FRE 4328 Francophone Culture and Literature (3)**

Pre-requisite(s): One 3000 level French course or consent of division director

Selected readings, films, and music from Francophone Africa, Caribbean, America, and Asia.

**FRE 4330 Survey of French Cinema (3)**

Cross-listed as FDM 4330

Pre-requisite(s): Upper-level standing or consent of the instructor

New course description: The history of French cinema from the Lumiere brothers in the 1890s to contemporary French film. Taught in English and does not count towards the language requirement.

**FRE 4331 French Writers and Ideas I: From Roland to Revolution (3)**

Pre-requisite(s): One 3000 level French course or consent of division director

French literature from its origin through the eighteenth century.

**FRE 4332 French Writers and Ideas II: From Romanticism to Post-Modernism (3)**

Pre-requisite(s): One 3000 level French course or consent of the instructor

French literature of the nineteenth and twentieth centuries.

**FRE 4341 French Media (3)**

Pre-requisite(s): One 3000 level French course or consent of division director

Current newspaper and magazine articles, recordings of radio broadcasts, and video cassettes are used to increase language skills and understanding of contemporary French culture.

**FRE 43C0 French Senior Capstone (3)**

Pre-requisite(s): Three French courses at the 3000/4000 level and upper-level standing

The study of a general theme from both a literary and a cultural perspective. Topic varies from year to year.

**FRE 4V90 Independent Study (1-3)**

Pre-requisite(s): Consent of division director

Independent study in French language or literature in consultation with a professor. Examination and term paper. With content changed, this course may be repeated once for credit.

**FRE 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Freshman Academic Seminar (FAS)

**FAS 1302 Freshman Academic Seminar: English (3)**

Pre-requisite(s): First-semester freshman standing

Introduces first year students to the world of academics and the scholarly community through exploration of a topic of significant cultural/social importance in the area of English. Emphasizes critical inquiry and thinking, research, writing, and problem solving.

**FAS 1304 Freshman Academic Seminar: History (3)**

Pre-requisite(s): First-semester freshman standing

Introduces first-year students to the world of academics and the scholarly community through exploration of topics of significant cultural/social importance in the area of history. Emphasizes critical inquiry and thinking, research, writing, and problem solving.

**FAS 1306 Freshman Academic Seminar: Fine Arts (3)**

Pre-requisite(s): First semester freshman standing

Introduces first-year students to the world of academics and the scholarly community through exploration of topics of significant cultural/social importance in the area of fine arts. Emphasizes critical inquiry and thinking, research, writing, and problem solving.

**FAS 1309 Freshman Academic Seminar: Mathematics (3)**

Pre-requisite(s): First semester freshman standing

Introduces first-year students to the world of academics and the scholarly community through exploration of topics of significant cultural/social importance in the area of mathematics. Emphasizes critical inquiry and thinking, research, writing, and problem solving.

**FAS 1311 Freshman Academic Seminar: Modern Languages, Cultures, and Global Communities (3)**

Introduces first-year students to think about his/her role as a contributing global citizen in the Baylor & Beyond LLC, at Baylor, in the Waco community, and in the world. Emphasizes techniques of good writing, analytical reading and thinking, academic research, respectful discourse, and problem solving. Counts in the Foreign Languages and Cultures distribution list if the student has reached the 2310 level in any language.

**FAS 1407 Freshman Academic Seminar: Science (4)**

Pre-requisite(s): First semester freshman standing

Introduces first-year students to the world of academics and the scholarly community through exploration of topics of significant cultural/social importance in the area of science. Emphasizes critical inquiry and thinking, research, writing, and problem solving.

## Geography (GEOG)

**GEOG 1300 World Geography (3)**

A description survey of the world's major geographic provinces emphasizing the influence of environment and natural resources on human activity.

**GEOG 1310 Cultural Geography (3)**

Cross-listed as ANT 1310

See ANT 1310 for course information.

**GEOG 1404 Physical Geography (4)**

Geographic and functional relationships within the physical environment: Earth-Sun relationships, weather, climate, soils, vegetation, and landforms. Weekly laboratory included.

**GEOG 4316 Geography for Educators (3)**

Pre-requisite(s): Upper-level standing and for School of Education majors only

Orientation to geography as a scholarly discipline, with emphasis on the National Geography Standards, and the five themes of geography. Course explores instructional methods and materials for teaching geography.

## Geology (GEO)

**GEO 1106 The Earth Through Time, Laboratory (1)**

Pre-requisite(s): GEO 1306 or GEO 1307 or concurrent enrollment  
Counterpart lab to either GEO 1306 or GEO 1307.

**GEO 1109 Origins of Habitable Worlds, Laboratory (3)**

Pre-requisite(s): Credit or concurrent enrollment in GEO 1309  
Counterpart laboratory for GEO 1309.

**GEO 1306 The Earth Through Time (3)**

In this course, students will gain an understanding of the relationship between the Earth's history and what that history suggests about both Earth's future and the present distribution of natural resources that support civilization.

**GEO 1307 Evolution and Extinction (3)**

An examination of the fossil and geologic evidence of the history of life on Earth to help address that fundamental question. This course will emphasize what the fossil records tells us about evolutionary processes, major extinction events in Earth history, the relationship between the Earth's changing climates and environments and evolution, and the implications of future climate change for life on Earth.

**GEO 1309 Origins of Habitable Worlds (3)**

This course asks "What makes a planet habitable?" by exploring the origins and inner workings of rocky planets and moons. This course will focus on the geologic processes that are endemic to Earth-like planets and will explore the ways in which NASA spacecraft missions illuminate these processes.

**GEO 1401 Earthquakes and Other Natural Disasters (4)**

Survey of the natural disasters afflicting mankind. The course examines the causes and impact upon society of earthquakes, volcanoes, landslides, subsidence, and floods. Weekly laboratory. Students taking GEO 1401 cannot receive credit for GEO 1403 or GEO 1405.

**GEO 1402 World Oceans (4)**

Introduction to oceanography emphasizing human interaction with the oceans: ocean resources, global environmental ethics, and conflicts resulting from ocean exploitation. One Saturday field trip required.

**GEO 1403 Environmental Geology (4)**

A study of the interaction between people and the geologic environment. Emphasis will be placed on catastrophic geologic processes, earth resources, pollution, and regional planning. Students taking GEO 1403 cannot receive credit for GEO 1401 or GEO 1405.

**GEO 1405 The Dynamic Earth (4)**

Survey of processes that have shaped the earth, including mountain building, volcanism, deposition of sediments, and landscape development. Plate tectonics integrates all the above into a dynamic theory of the deformation of the earth. Weekly laboratory. Students taking GEO 1405 cannot receive credit for Geo. 1401 or Geo. 1403.

**GEO 1408 Earth Science (4)**

A descriptive survey of the earth sciences including astronomy, geology, meteorology, and oceanography. One Saturday field trip required.

**GEO 1410 Gems and Minerals (4)**

Theory and application of gemology. Topics include crystallography, mineral optics, crystallization conditions, identification, and preparation of gemstones.

**GEO 1V90 Special Problems (1-3)**

Pre-requisite(s): Consent of department chair

The current understanding of the earth as studied in a lab setting through group experimentation and projects. May be repeated with a change in content or topic.

**GEO 3312 Geography of North America (3)**

Regional analysis of physical economic, and cultural phenomena in the United States and Canada with emphasis on Texas.

**GEO 3313 Regional Geology (3)**

Pre-requisite(s): GEO 1401, 1402, 1403, 1405 or 1408; and 1406 or (1106 and 1306) or (1106 and 1307)

A survey of regional stratigraphic, structural, physiographic, petrographic, and mineralogic provinces of the United States. Extensive library research is required.

**GEO 3319 Geophysics (3)**

Pre-requisite(s): GEO 1401, 1402, 1403, 1405, 1408 or 1109 and 1309  
Introduction to the study of the earth by quantitative physical methods, especially by seismic reflection and refraction, gravity, magnetic, electrical, and radiation methods.

**GEO 3325 Earth Materials (3)**

A study of mineral and rock groups, their composition, properties, occurrence, and identification. Field trips and laboratory exercises included. Rock, mineral, and fossil collections are required.

**GEO 3329 Aqueous Geochemistry (3)**

Pre-requisite(s): GEO 1401, 1402, 1403, 1405 or 1408; or consent of instructor

An introduction to the processes that control the chemical composition of surface and groundwater. Emphasis on the differentiation between natural geochemical processes and human perturbations of the environment.

**GEO 3341 Marine Field Studies (3)**

Cross-listed as BIO 3341

Pre-requisite(s): Four semester hours of geology or biology, and consent of instructor

Field examination of modern marine environments, including coral reefs, lagoons, deltas, and beaches. Individual research projects emphasize geology or biology of coral reefs. Offered during summer session.

**GEO 3344 Sedimentary Field Studies (3)**

Pre-requisite(s): GEO 1401, 1402, 1403, 1405, or 1408; and GEO 1106 with either 1306 or 1307

Field study of modern sediments and ancient sedimentary rocks. Physical and biological features of modern sedimentary environments are examined to provide the basis for interpreting ancient environments in the rock record. Offered during summer session.

**GEO 3349 Hydrologic Processes (3)**

Pre-requisite(s): Upper-level standing

Theory and principles of hydrology and hydrogeology focusing on the physical processes: the hydrologic cycle, definitions, equations, streams, flooding, erosion, sedimentation and transport, aquifers, groundwater flow and well hydraulics. One or more local field trips required.

**GEO 3365 Applied Petroleum Geoscience (3)**

Pre-requisite(s): Geo

1405 and 1406 or (1106 and 1306) or (1106 and 1307). Basic and intermediate concepts related to hydrocarbon origin, migration and accumulation. Review of the design and application of standard analytical techniques and technologies used in hydrocarbon exploration and production.

**GEO 3427 Mineralogy (4)**

Pre-requisite(s): GEO 1405 (or equivalent) and credit or concurrent enrollment in either CHE 1300 or CHE 1301

Igneous, Sedimentary, and Metamorphic rocks in hand specimen; crystallography and systematic mineralogy. Occasional field trips.

**GEO 3430 Petrology (4)**

Pre-requisite(s): GEO 3427 and CHE 1302; or consent of instructor  
Origin and evolution of Igneous, Sedimentary, and Metamorphic rocks. Includes optical mineralogy of principal rock-forming minerals and thin section study of rocks. Required field trip.

**GEO 3435 Invertebrate Paleontology (4)**

Cross-listed as BIO 3435

Prerequisite (s): Prerequisite (s): GEO 1406 or (1106 and 1306) or (1106 and 1307) or consent of instructor. Introduction to taxonomy, morphology, evolution, paleoecology and stratigraphic aspects of invertebrate fossils. Emphasis on biostratigraphic and time-stratigraphic concepts, evolutionary trends, speciation, biometrics, facies, faunas, zonation, and correlation. Independent field and lab problems.

**GEO 3442 Field Stratigraphy-Sedimentology (4)**

Prerequisite (s): GEO 3427 and 3435 or consent of instructor. Study of sediments and sedimentary rocks in the field. The interpretation of geologic history, based on outcrop investigation. Includes numerous written and oral reports, weekly field trips, and occasional weekend field trips. Recommended for junior year.

**GEO 3445 Structural Geology (4)**

Prerequisite (s): GEO 1406 or (1106 and 1306) or (1106 and 1307) and GEO 3430 or consent of instructor. The structures of the earth's crust; their classification, origin, and economic aspects; methods of discovery of structures; solution of structural problems; elementary field methods. Two field trips are required.

**GEO 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**GEO 4300 Senior Thesis (3)**

Pre-requisite(s): Requires a GPA of 3.25 overall or 3.5 in Geology and consent of the instructor

Independent research problem. Result will be submitted in proper thesis format with an oral defense.

**GEO 4301 Senior Colloquium (3)**

Pre-requisite(s): Senior level standing Readings and presentations that emphasize integration of major core courses in the major

**GEO 4302 Mentored Research Experience (3)**

Pre-requisite(s): Prerequisite (s): Consent of instructor and Senior level standing

Research in laboratory or field with faculty or graduate student under direction of faculty. Requires a written report to faculty mentor.

**GEO 4303 Internship (3)**

Pre-requisite(s): Prerequisite(s): Consent of instructor and Senior level standing

Supervised work experience in a geology-related position with an outside agency or company. This course will allow undergraduates the chance to experience work in an area of their career interest.

**GEO 4312 Oceanography (3)**

Physical, chemical, biological, and geological aspects of the oceans with special emphasis on the direct and indirect relationships of humans to the oceans. Such topics as mining the sea and its floor, farming the seas, and influence of the oceans on weather are included. Field trips and laboratory exercises. May not be taken for credit if GEO 1402 has been taken.

**GEO 4313 Astronomy (3)**

A brief history of astronomy developments followed by a survey of the dimensions, motions, and interrelationships of bodies in our solar system. Additional emphasis is given to galaxies, stellar evolution, and cosmology.

**GEO 4314 Meteorology (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Composition of the atmosphere, atmospheric processes, weather disturbances, and climate elements and controls. Emphasis is placed on climate classification and measurements of human inputs into the atmosphere.

**GEO 4317 Sedimentary Geochemistry (3)**

Pre-requisite(s): Consent of instructor

A chemical investigation of geological processes and materials in low temperature and pressure environments including important chemical reactions occurring at various stages of the surface cycle.

**GEO 4321 Isotope Geochemistry (3)**

Pre-requisite(s): Consent of instructor

Theory and application of stable and radioactive isotopes in geology with particular emphasis on the use of stable isotopes in solving environmental, paleoclimate, and hydrogeologic problems.

**GEO 4322 Global Biogeochemical Cycles (3)**

Pre-requisite(s): CHE 1301, 1302, 1101, 1102; and BIO 1403; and GEO 1405 and 3427

The chemistry of the earth's surface. Emphasis on the dynamic chemical and biological reactions on land, in the oceans, and in the atmosphere and their influence upon the global budgets and cycling of carbon, nitrogen, oxygen, and sulfur. Includes field trips.

**GEO 4323 Geodynamics (3)**

Pre-requisite(s): Consent of instructor

Study of dynamic processes in solid planetary bodies using mathematical reasoning or MATLAB scripts.

**GEO 4324 Geomicrobiology (3)**

Pre-requisite(s): Consent of instructor

Microbial metabolic processes that have coevolved with the Earth's surface environment including the changing composition of the upper lithosphere, hydrosphere, and atmosphere.

**GEO 4325 Economic Mineral Deposits (3)**

Pre-requisite(s): GEO 3427 and 3445

Non-hydrocarbon economic mineral deposits. Origin and migration of ore-bearing fluids; mineralogy and geometry of ore bodies; relations of ore deposits to magnetism and tectonics. Field trip to Central Texas mining district.

**GEO 4328 Sedimentary Petrology (3)**

Pre-requisite(s): GEO 3427 and 3435 or consent of instructor

Microscopic and field characteristics of sedimentary rocks. Emphasis on interpretation of depositional and diagenetic environments and relationships between geometry of rock bodies and sedimentary processes.

**GEO 4332 Science Leadership: Community Environmental Research (3)**

Cross-listed as ENV 4332

See ENV 4332 for course information.

**GEO 4335 Volcanology (3)**

Pre-requisite(s): Consent of instructor

Analysis of volcanic ejecta. Mechanisms of lava and pyroclastic eruptions. Geomorphological analysis of volcanic landforms. History of geological studies and case studies of well-known volcanoes. Field trips.

**GEO 4336 Analytical Techniques in Geochemistry (3)**

Pre-requisite(s): GEO 3427

Principles and practice of X-ray fluorescence and electron probe analysis of geologic materials. Includes extensive laboratory work.

**GEO 4337 Paleoecology (3)**

Pre-requisite(s): GEO 3435 or consent of instructor

Relationship of fossil plants and animals to their physical and biological environment. Examination of principles of paleosynecology and paleoautecology; data gathering, analysis, and techniques of interpretation.

**GEO 4339 Advanced Marine Field Studies (3)**

Cross-listed as BIO 4339

Pre-requisite(s): GEO 3341 or 5333 or BIO 3341

Continuation of GEO 3341/5333. Field examination of marine environments. Individual research projects emphasize biology and geology of carbonate depositional regimes.

**GEO 4340 Geomorphology (3)**

Pre-requisite(s): Upper-level standing

Development and modification of land-surface forms by atmospheric, fluvial, glacial, mass-wasting, volcanic, and tectonic agents. Emphasis is placed on the spatial aspects of landscape evolution.

**GEO 4341 Introduction to Hydrology (3)**

Pre-requisite(s): Consent of instructor

Basic applied techniques in surface and ground water hydrology. Surface water hydrology will incorporate analysis of precipitation records, runoff processes, and calculation of flood hazard. Ground water hydrology will emphasize hydrogeology techniques, including simple models of ground water movement.

**GEO 4345 Water Management (3)**

Cross-listed as ENV 4345

See ENV 4345 for course information.

**GEO 4346 Hydrogeology (3)**

Pre-requisite(s): GEO 3342 and 3445

Hydrogeology (ground water hydrology) for geologists and engineers.

Topics to be covered include evaporation and precipitation, soil moisture, principles of ground water flow, regional ground water flow, geology of ground water occurrence, flow to wells, ground water chemistry, and ground water development and management.

**GEO 4348 Geoarchaeology (3)**

Cross-listed as ANT 4348

Pre-requisite(s): Upper-level standing or consent of instructor

Concepts and methods of the geosciences applied to solving archaeological problems. Emphasis on stratigraphy, soils, climate, dating techniques, site formation, and site preservation related to both New World and Old World archaeology.

**GEO 4361 Petroleum Geoscience Concepts (3)**

Pre-requisite(s): Consent of instructor

Geologic controls on the formation and accumulation of oil and gas, including concepts, equipment, data types and analytical procedures used in exploration and production.

**GEO 4371 Wetlands (3)**

Cross-listed as ENV 4371

Pre-requisite(s): Upper-level standing or consent of instructor

Theory and application of the wetland concepts: classification, hydrology, biochemistry, soils, vegetation, construction, regulation, and delineation. Field lab.

**GEO 4373 Global Soil Systems (3)**

Cross-listed as ENV 4374

Fundamentals of soil genesis, classification, geomorphology, ecosystems, and environmental interpretation. Includes the role of soil biogeochemical cycles in past, current, and future global change issues. Field lab.

**GEO 4375 Natural Landscape Evaluation and Planning (3)**

Cross-listed as ENV 4375

Recognition of natural features that affect human uses. Evaluation of natural landscapes on a scale from complete preservation to full development. Experience in urban landscapes. Includes one or more Saturday field trips.

**GEO 4381 Paleoclimatology (3)**

Pre-requisite(s): Consent of instructor

A survey of important changes in the Earth's climate using primary literature and the proxies and models used to determine and interpret the causes and effects of these changes.

**GEO 4383 Climate Change and Society I (3)**

Pre-requisite(s): GEO 1401, 1402, or 1405

Details how humans have changed Earth's atmosphere, climate and environments which has challenged the sustainability of the planet. Earth systems models will be examined to highlight past and future climate changes.

**GEO 4384 Monsoon Climatology and Paleoclimatology (3)**

Pre-requisite(s): Senior level standing and GEO 4340

A global view on monsoon climate dynamics and variability in the 21st century, the past 20,000 years and into the future.

**GEO 4386 Remote Sensing (3)**

Cross-listed as AVS 4386, BIO 4386, ENV 4386

Pre-requisite(s): Consent of instructor

Physical mechanisms of surface and atmospheric materials absorption, transmittance, reflection, and emittance of light measured by various remote sensing platforms. Survey various applications related to earth science, ecology, meteorology, and environmental science.

**GEO 4388 Earth System Science (3)**

Pre-requisite(s): Consent of instructor

The internal and external forcing factors that influence the Earth's four systems (atmosphere, hydrosphere, biosphere, and solid Earth), and how they affect the Earth's climate.

**GEO 4389 Quaternary Geology (3)**

Pre-requisite(s): GEOG 1404, GEO 1405, 1406 or (1106 and 1306) or (1106 and 1307), or 1408; or consent of instructor; and upper-level standing  
An examination through morphologic, stratigraphic, and biogeochemical proxy data of the nature of earth environments, focusing on the three most important components: Quaternary stratigraphies, Quaternary chronologies, and Quaternary environmental proxies and their interpretation.

**GEO 4430 Vertebrate Paleontology (4)**

Cross-listed as BIO 4430

See BIO 4430 for course information.

**GEO 4431 Evolutionary History of Plants (4)**

Pre-requisite(s): GEO 1406 or (1106 and 1306) or (1106 and 1307)

The evolutionary history of plants as studied through the fossil record, including preservation, plant morphology and anatomy, and techniques used to reconstruct paleoenvironment and paleoecology. Weekly labs, with one weekend field trip.

**GEO 4453 Advanced Three-Dimensional Seismic Interpretation (4)**

Pre-requisite(s): GEO 4458 or consent of instructor

Techniques used to extract geological information from three-dimensional seismic reflection data. Laboratory emphasizing interpretation of real data sets, integration of other geologic and geophysical data, and construction of subsurface maps and sections.

**GEO 4455 Introduction to Seismology (4)**

Pre-requisite(s): PHY 1420, MTH 2321, and upper-level standing or consent of instructor

Theory of wave propagation in the Earth, earthquake mechanics, Earth structure, interpretation of seismograms, faults, seismotectonics, earthquake locations, magnitudes, and focal mechanisms.

**GEO 4457 Geophysical Exploration I (4)**

Pre-requisite(s): GEO 3342 and 3445 and consent of instructor

Exploration geophysics, using gravity, magnetics, heat flow, telluric currents, resistivity, and other methods of remote sensing of hidden geological phenomena exclusive of seismic exploration. Laboratory work will emphasize geological interpretation of geophysical data.

**GEO 4458 Geophysical Exploration II (4)**

Pre-requisite(s): GEO 3342 and 3445; and consent of instructor

Exploration geophysics, using latest seismic techniques and well-log analyses, with emphasis on petroleum exploration.

**GEO 4459 Engineering Geology (4)**

Pre-requisite(s): Consent of instructor

Soil and rock mechanics. Analysis of geotechnical problems in the field and lab, report preparation, and computer evaluation of geotechnical problems.

**GEO 4485 Introduction to Geographic Information Systems (4)**

Cross-listed as AVS 4485, ENV 4485, GEO 4385

The course covers the use of GIS to acquire primary geographic data, solve geographic problems, automate geographic analysis, and render explanations for geographic patterns and trends. Students will use the latest GIS software and data layers in a lab section.

**GEO 4487 Advanced GIS Analysis (4)**

Cross-listed as AVS 4487, ENV 4487, GEO 4387

See ENV 4487 for course information.

**GEO 4656 Geophysical Field Training (6)**

Pre-requisite(s): GEO 4457 or 4458 or consent of instructor

Practice in the efficient, accurate, and cost effective acquisition of geophysical data in the field. The course will involve field practice with gravimeters, magnetometers, borehole drilling and logging devices, exploration seismic gear, surface electrical prospecting equipment, physical laboratory models, and digital data processing equipment as specific equipment is available from summer to summer. Field work will be conducted on a weekly schedule of at least five half days, with data reduction taking up the remaining time.

**GEO 46C3 Capstone Field Experience (6)**

Pre-requisite(s): Consent of instructor

Includes extended field trip, oral and written reports, sample identification, and design of field problems. Synthesis of undergraduate curriculum through geological mapping and interpretation of field processes.

**GEO 4V90 Special Problems (1-5)**

Pre-requisite(s): Consent of department chair

Course may be repeated with a change in content or topic.

**GEO 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## German (GER)

**GER 1301 Elementary German (3)**

Introduction to German language and cultures; practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading). Progress from novice toward intermediate-level proficiency.

**GER 1302 Elementary German (3)**

Pre-requisite(s): GER 1301 or equivalent

Continuation of GER 1301. Introduction to German language and cultures; practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading). Further progress from novice toward intermediate-level proficiency

**GER 1412 Accelerated Elementary German (4)**

Completes content of GER 1301 and GER 1302 in one semester.

Motivated students or those seeking a review of previous German study should make rapid progress in this course

**GER 2310 Intermediate German (3)**

Pre-requisite(s): GER 1302 or 1412, or appropriate score on departmental placement exam, or departmental approval

Intermediate German language and cultures; practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading); continuing progress toward intermediate-level proficiency.

**GER 2312 Intermediate German for Business (3)**

Pre-requisite(s): GER 1302 or GER 1412 or equivalent; or departmental approval

Introduction to German business publications and development of communication skills within a business context. This course is designed primarily for students seeking a B.B.A. degree, but may be substituted for GER 2310 and used in fulfillment of the foreign language requirement in the College of Arts and Sciences.

**GER 2320 German for Modern Life (3)**

Pre-requisite(s): GER 2310 or equivalent

An exploration of topics that affect life and society for today's German-speaking populations. Continued practice in listening, speaking, reading, and writing German at the intermediate level. Class conducted in German, with emphasis on developing conversational skills and cultural competency.

**GER 2412 Accelerated Intermediate German (4)**

Pre-requisite(s): Prerequisite(s): GER 1302 or GER 1412 or equivalent; or departmental approval

Completes content of GER 2310 and GER 2320 in one semester.

Motivated students or those seeking a review of previous German study should make rapid progress in this course.

**GER 3301 German Conversation and Composition (3)**

Pre-requisite(s): GER 2320 or GER 2412 or appropriate score on departmental placement exam; or departmental approval

Further development of communication skills. Required of all German majors.

**GER 3302 German Reading Development (3)**

Pre-requisite(s): GER 2320 or GER 2412 or equivalent; or departmental approval

Development of German reading skills through grammar review and reading of selections from various areas of the arts and sciences.

**GER 3311 German Proficiency (3)**

Pre-requisite(s): GER 3301 or GER 3302 or equivalent; or departmental approval

Systematic review of high-frequency grammar structures, acquisition of new structures, and application of stylistics in a workshop format.

**GER 3341 Introduction to German Culture: Germany in the Making (3)**

The history and culture of the German-speaking area, from the Romans to the present day, concentrating on what will become the nation of Germany. Taught in English.

**GER 3343 Baylor in Germany: The Dresden Experience (3)**

Pre-requisite(s): GER 1302 or GER 1412, or departmental approval

Culturally-based course in the Baylor in Germany (Dresden) summer program. Emphasizes issues of German and American identities. May not be offered every summer.

**GER 3345 Introduction to German Film: German Culture from Berlin to Hollywood (3)**

German culture through German film including cinematic traditions of the Weimar Republic and prominent German directors who emigrated to the United States, Nazi film, post-war cinema in East and West Germany, and the international media context since German unification. Conducted in English.

**GER 3352 Modern German Short Prose (3)**

Pre-requisite(s): GER 3301 or GER 3302 or equivalent; or departmental approval

Emphasis on German short prose fiction of the twentieth century.

**GER 3353 German Drama (3)**

Pre-requisite(s): GER 3301 or GER 3302 or equivalent; or departmental approval

Emphasis on the drama of the nineteenth and twentieth centuries.

**GER 3354 German Poetry (3)**

Pre-requisite(s): GER 3301 or GER 3302 or equivalent; or departmental approval

Survey of the German lyric.

**GER 3355 Exploring the German Literary Tradition (3)**

Pre-requisite(s): GER 2320 or 2412 or departmental approval

The literary tradition of the German-speaking world from 1750 to the 20th century. May be organized around topics chosen by instructor.

**GER 3356 Kontext Deutschland (3)**

Pre-requisite(s): GER 2320 or GER 2412 or equivalent, or departmental approval

Social and political events and movements viewed through literature, creating a framework for understanding contemporary Germany and the Germans. Taught in German.

**GER 3361 Study Abroad: Advanced Language (3)**

Pre-requisite(s): GER 2320 or 2412 or permission from Division Director  
For students taking advanced German language during a summer or semester study abroad program. May be repeated once for credit with different emphases.

**GER 3363 Study Abroad: Special Topics in Literature (3)**

Pre-requisite(s): GER 2320 or 2412 or permission of Division Director  
For students studying topics in the literature of the German-speaking world during a summer or semester study abroad program. May be repeated once for credit with different emphases.

**GER 3365 Study Abroad: Special Topics in Culture Studies (3)**

Pre-requisite(s): GER 2320 or 2412 or permission of Division Director  
For students studying topics dealing with the cultural history of or modern life in the German-speaking world during a summer or semester study abroad program. May be repeated once for credit with different emphases.

**GER 3367 Study Abroad: Special Topics in Linguistics (3)**

Pre-requisite(s): GER 2320 or GER 2412 or permission of Division Director

For students studying topics in Linguistics pertaining to the German-speaking world, during a summer or semester study abroad program. May be repeated once for credit with different emphases.

**GER 3V70 Special Problems (1-3)**

Pre-requisite(s): Consent of division director

With content changed, this course may be repeated once for credit.

**GER 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**GER 4301 Survey of German Literature (3)**

Pre-requisite(s): GER 3302, or departmental approval

German literature from Old High German to Enlightenment.

**GER 4302 Survey of German Literature, continued (3)**

Pre-requisite(s): GER 3302, or departmental approval

German literature from Enlightenment to Poetic Realism.

**GER 4303 Survey of German Literature, continued (3)**

Pre-requisite(s): GER 3302, or departmental approval

Survey of German literature from Naturalism to the present.

**GER 4305 German Literature of the Classical Period (3)**

Pre-requisite(s): GER 3302, or departmental approval

Masterpieces of the late eighteenth and early nineteenth centuries with emphasis on Lessing, Schiller, and Goethe.

**GER 4306 Goethe's Faust (3)**

Pre-requisite(s): GER 3302, or departmental approval

Faust I and selected readings from Faust II.

**GER 4307 German Literature of the Nineteenth Century (3)**

Pre-requisite(s): GER 3302, or departmental approval

Emphasis on Romanticism.

**GER 4308 German Literature of the Nineteenth Century, continued (3)**

Pre-requisite(s): GER 3302, or departmental approval

Emphasis on Junges Deutschland and Realism.

**GER 4309 German Literature of the Twentieth Century (3)**

Pre-requisite(s): GER 3302, or departmental approval

Varied readings from modern German literature.

**GER 4315 Methods of Foreign Language Teaching (3)**

Cross-listed as FRE 4315, SPA 4315

See SPA 4315 for course information.

**GER 4320 Special Topics in German (3)**

Pre-requisite(s): GER 3301 and 3302; or consent of instructor

Special topics of study in the disciplines of German literature, German culture, and/or German linguistics not covered by regular course offerings. The course may be repeated four times when content differs.

**GER 4361 Study Abroad: Seminar in Language (3)**

Pre-requisite(s): One GER class at the 3000 level or permission of Division Director

For students taking a more advanced German language class during a summer or semester study abroad program. May be repeated once for credit with different emphases.

**GER 4363 Study Abroad: Seminar in Literature (3)**

Pre-requisite(s): One GER class at the 3000 level or permission of Division Director

For students taking a more advanced seminar in the literature of the German-speaking world during a summer or semester study abroad program. May be repeated once for credit with different emphases.

**GER 4365 Study Abroad: Seminar in Culture Studies (3)**

Pre-requisite(s): One GER class at the 3000 level or permission of Division Director

For students taking a more advanced seminar dealing with the cultural history of or modern life in the German-speaking world during a summer or semester study abroad program. May be repeated once for credit with different emphases.

**GER 4367 Study Abroad: Seminar in Linguistics (3)**

Pre-requisite(s): One GER class at the 3000 level or permission of Division Director

For students taking a more advanced seminar in Linguistics pertaining to the German-speaking world. May be repeated once for credit with different emphases.

**GER 4V90 Independent Study (1-3)**

Pre-requisite(s): Consent of division director

Independent study in German language and literature in consultation with a professor. Examination and term paper. With content changed, this course may be repeated once for credit.

**GER 4V9R Research (3)**

## Gerontology (GRT)

### **GRT 3305 Introduction to Gerontology (3)**

Cross-listed as SOC 3305, SWO 3305

See SOC 3305 for course information.

### **GRT 4393 Sociology of Aging (3)**

Cross-listed as SOC 4393, SWO 4393

See SWO 4393 for course information.

### **GRT 4395 Aging and Mental Health (3)**

Cross-listed as SOC 4395, SWO 4395

See SWO 4395 for course information.

## Global Engagement (GBL)

### **GBL 0301 Recitation (3)**

The recitation course is structured as language and study skill support for academic courses in which the students are enrolled. This course is a structured, scheduled academic environment providing the opportunity for students to complete assignments and work closely with their language instructor.

### **GBL 0310 Language in Context (3)**

Language in Context is an integrated-skills class that uses materials from literature, the internet, and articles on current issues for student reading, writing, presentation, vocabulary building, and discussion. Students will work with a variety of text types and activities that are similar to those used in university courses. In particular, students will be introduced to concepts in humanities and social sciences that may be new to them.

### **GBL 0315 Research Skills (3)**

Research Skills is an advanced-level course to guide students in the process of conducting undergraduate research at an American university. Students will learn and practice a variety of research and research-writing skills, including citation, documentation, quoting, and paraphrasing, and summarization. Students will also learn why research is needed, the different types of research they might conduct, and why documentation is so vital.

### **GBL 0329 U.S. Culture (3)**

US Culture offers students a means for analyzing and evaluating the complex social and moral issues that are specific to the landscape of the United States. As students examine their own cultures and compare them with others, culture shock and cultural conflict may be lessened and appreciation for cultural differences may be strengthened. Students will engage in interactive tasks, including researching and case analysis.

### **GBL 0337 Critical Thinking (3)**

The purpose of this course is to develop the critical thinking skills needed to interpret and assess arguments and information. This course will highlight the language skills essential for critically analyzing and discussing the quality of the information and opinions presented in authentic texts and listening selections. The course will concentrate on detecting errors of reasoning in short and long passages, and evaluating evidence.

### **GBL 0411 Reading I (4)**

The purpose of Reading I is to prepare students for the reading tasks they will face when taking academic classes. In this course students will learn and practice the skills necessary for comprehending academic texts. Readings of different types that cover different topics will be used to develop students' reading comprehension, speed, and vocabulary, as well as writing, listening, and speaking skills.

### **GBL 0412 Writing I (4)**

In this course students will learn and apply the writing skills essential for academic success including sentence, paragraph, and basic essay writing. This course is aimed at students planning to study, or are already studying, at university level in English. Course work will focus on planning and writing clear paragraphs and essays, as well as on improving sentence structure, vocabulary, and grammar in written work.

### **GBL 0413 Listening and Speaking I (4)**

This course provides short and focused activities to help students improve their English listening and speaking skills. It includes practice in understanding main ideas and key words, phrases and specific sounds to assist students in developing better speaking and comprehension skills. Students will learn and use new vocabulary, pronunciation, and conversation skills while giving academic presentations as well as speaking in small groups.

### **GBL 0414 Grammar I (4)**

Grammar I will focus on grammatical structures that enable students to better understand and use academic English. Students will learn and apply grammatical knowledge to express themselves confidently and appropriately in different academic situations, as well as social situations that they might experience while studying in the U.S. Students will learn and practice parts of speech, word forms, clauses, and sentence construction.

### **GBL 0421 Reading and Writing II (4)**

In this course, students develop and apply the reading skills essential for academic learning and inquiry, in the context of authentic academic reading tasks. Students will work to build fluency, comprehension, and vocabulary skills through extensive and intensive reading tasks of increasing complexity. This course will serve as preparation for college composition course and any writing intensive courses.

### **GBL 0423 Listening and Speaking II (4)**

In this course students will learn and apply the listening, note-taking, and presentation skills essential for academic learning, inquiry, and communication in the context of authentic academic listening and speaking tasks. Students will work to build fluency, comprehension, and vocabulary skills through extensive and intensive listening tasks of increasing complexity.

### **GBL 0424 Grammar II (4)**

This course will focus on high-intermediate grammatical structures that enable students to better comprehend and use academic English. Students will learn to appreciate the relevance of acquiring and applying grammatical knowledge to express themselves confidently and appropriately in different academic situations, as well as social situations relevant to the American college context.

### **GBL 0431 Reading and Writing III (4)**

Reading and Writing III is designed to help students read and write academic English and to facilitate development in these skills for success in future university studies. Students will be provided opportunities to analyze and express ideas in academic writings while reading and critiquing the work of others. Students will write essays to become familiar with aspects of conducting research and following APA and/or MLA guidelines.

### **GBL 0433 Listening and Speaking III (4)**

In this course students will learn and apply listening, note-taking, and presentation skills essential for academic learning, inquiry, and discourse in the context of authentic academic listening and speaking tasks. Students will work to build fluency, comprehension, and vocabulary skills through extensive and intensive listening tasks of increasing complexity. Students will listen to academic lectures, presentations, and discussions.

**GBL 1101 Developing Intercultural Competence (1)**

This course is designed to help prepare students for study abroad or international Missions trips by developing knowledge of the destination to be visited along with cultural skills, attitudes and behaviors that will allow for more meaningful engagement while abroad.

**GBL 1102 Intercultural Competence Abroad (1)**

This course is designed to help you engage with your host culture while abroad, and at the same time learn more about yourself and your own cultural values.

**GBL 1103 Reentry From Study Abroad (1)**

This course is designed to help students with reentry into American culture and Baylor University specifically following study abroad or international mission experience. Students will identify and deepen cross-cultural learning gained through study abroad or missions, and apply that knowledge going forward.

**GBL 1105 Developing Strategic Skills for Global Gateway Students (1)**

Developing Strategic Skills for Global Gateway Students introduces new students in the Global Gateway Program to Baylor University, U.S. Higher Education, and study skills that will lead to academic and personal success.

**GBL 1205 Transition to the U.S. University II (2)**

Transition to the U.S. University System II focuses on the study and life skills necessary to be successful in an American university setting. This 2 credit course introduces IY2 GGP students to Baylor campus resources and norms.

**GBL 1305 Transition to the U.S. University System for Global Gateway Students (3)**

This course focuses on the study and life skills necessary for success in the American university setting, while also developing academic English language skills.

**GBL 1311 Perspectives on Global Culture (3)**

This class is about understanding the power of culture and its impact on communicating with others. This is an important part of being an effective professional in the modern world, and is also part of being a better human being. To hone one's cultural communication skills one must understand his or her own cultural worldview. For this reason, the class includes an ample amount of self-reflection, and requires learners to be open to understanding both themselves, as well as others, in new ways. This has the potential to be an enlightening experience – especially as students interact with, and learn from, students from other cultures.

**GBL 3331 Introduction to Applied Data Analytics (3)**

Teaches applied job skills in close connection to the concepts and theories that drive software development. Students will work on real-world cases featuring international organizations, then will learn to solve the problems from a technical approach. Topics include, applications of statistics, data visualization tools in Excel, linear regression, time-series, classification algorithms, and bias in data.

**GBL 3332 Data Visualization with Tableau (3)**

Pre-requisite(s): GBL 3331

This course, which is Part 2 of the Global Data Bootcamp, is designed to teach the skills, concepts, and theories relevant to data visualization and its applications. Students learn theoretical fundamentals and design principles of data-based visualizations, how to spot misleading and untruthful visualizations, and how to use Tableau, a leading data visualization software.

**GBL 3335 Introduction to Responsive Web Design with HTML, CSS, and Bootstrap (3)**

This course is designed to teach students first how to holistically understand the user experience in order to inform responsive web design. Then, students will learn HTML, CSS and application of frameworks to build both beautiful and effective websites.

**GBL 3336 Web Development with JavaScript and APIs (3)**

Pre-requisite(s): GBL 3335

This course is designed to teach students how to holistically understand the user experience in order to inform responsive web design. Students will learn HTML, CSS and application of frameworks to build both beautiful and effective websites. The course teaches students applied job skills in close connection to the concepts and theories that drive software development. Each module will focus on a primary theme.

## Great Texts (GTX)

**GTX 1301 Introduction to Great Texts (3)**

This interdisciplinary seminar introduces first-year students to the study of Great Texts, focused on a topic of the instructor's choosing. Studies center on texts from multiple genres, ranging from ancient to modern times, and may include texts from the fine arts or performing arts when appropriate. Possible topics could include, for example, narrating happiness, the quests of heroes and martyrs, modes of love and suffering, images of death and dying, stories of gods and God.

**GTX 2301 Intellectual Traditions of the Ancient World : Literature and Thought (3)**

Interdisciplinary close reading and discussion of ancient literary texts that establish historic contexts for deliberation regarding society, ethics, knowledge, and imaginative enjoyment.

**GTX 2302 Medieval Intellectual Traditions: Literature and Thought in Context (3)**

Interdisciplinary close reading and discussion of major literary texts in relation to social, philosophical, and theological contexts of historic development in Western cultures from the medieval to the early modern period.

**GTX 3320 Middle Ages (3)**

Pre-requisite(s): Upper-level standing

An undergraduate seminar in the Great Texts of the Middle Ages. Students will read selections from Anselm, Bonaventure, Roger Bacon, Thomas Aquinas, Dante, Moses Maimonides, Julian of Norwich, Chaucer, and others.

**GTX 3321 Early Modern Age (3)**

Pre-requisite(s): Upper-level standing

An undergraduate seminar in the Great Texts of the Renaissance, the Reformation, and the early modern age. Students will read selections from Machiavelli, Erasmus, the Protestant reformers and Catholic counter reformation, Montaigne, Cervantes, Shakespeare, Bacon, Donne, Milton, Hobbes, Locke, Vico, and others.

**GTX 3330 Great Texts by Women (3)**

An undergraduate course in seminal texts written or narrated by women of various epochs. Readings may include Sappho, Ban Zhao, Scheherezade, Christine de Pizan, Julian of Norwich, Margery Kempe, Mary Wollstonecraft, Mary Shelley, Jane Austen, Elizabeth Barrett Browning, George Eliot, Kate Chopin, Virginia Woolf, Gertrude Stein, Simone de Beauvoir, Simone Weil, Iris Murdoch, Toni Morrison, and others.

**GTX 3331 Great Texts in Christian Spirituality (3)**

An undergraduate seminar in the great texts of Christian spirituality and devotional literature. Readings may include texts by Origen, Augustine, Athanasius, Maximus Confessor, Richard of St. Victor, Catherine of Siena, Julian of Norwich, Thomas à Kempis, Luther, Traherne, Law, Bunyan, John and Charles Wesley, Kierkegaard, Sayers, Day, Lewis, Chesterton, and others.

**GTX 3332 Black Intellectual Traditions (3)**

Pre-requisite(s): Upper-level standing

Seminar featuring Americans such as Sojourner Truth, DuBois, Ellison, Hansberry, Baldwin and Morrison, plus non-Americans such as Walcott and Mandela. Discussion of how these authors address questions about basic human goods, frequently under conditions of enslavement, oppression, poverty and the abuse of authority. Reflection on new forms of artistic beauty and literary excellence emerging from these conditions.

**GTX 3340 Master Works in Art (3)**

Pre-requisite(s): Upper-level standing

Survey and analysis of master works of art, including painting, sculpture, architecture, and photography, in their relationship to the six eras of the Great Texts Seminar Sequence.

**GTX 3341 Master Works in Drama (3)**

Cross-listed as THEA 3341

Pre-requisite(s): Upper-level standing

Survey and analysis of a selection of the most important dramatic works of the Western intellectual tradition.

**GTX 3343 Great Texts in the Origins of Science (3)**

Pre-requisite(s): Upper-level standing

An historical overview of the significant developments in the science of the ancient and medieval periods. Students will read selections from Euclid, Archimedes, Pythagorus, Copernicus, Galileo, and others.

**GTX 3350 Great Texts in Leadership (3)**

An undergraduate seminar devoted to an examination of leaders and the virtues of leadership as found in the Great Texts. Students will read selections from the Bible, Aristotle, Cicero, Plutarch, St. Thomas Aquinas, Pascal, Machiavelli, Dickens, Hardy, Bernanos, Conrad, O'Connor, and others.

**GTX 3351 Great Texts in Business (3)**

An undergraduate seminar devoted to an examination of business, management, and entrepreneurship as presented through some of the great texts of the Western and Eastern traditions.

**GTX 3360 Great Texts in the Principles of the Liberal Arts (3)**

Pre-requisite(s): GTX 2301 or 2302 Interdisciplinary study of major works on the conceptual relationships among the traditional arts of grammar, dialectic, and/or rhetoric

Readings may extend from antiquity to the present, tracing connections among these disciplines in ways that are not usually contained within the customary modern treatment of a single liberal art.

**GTX 3361 Great Texts in the Practice of the Liberal Arts (3)**

Pre-requisite(s): GTX 2301 or 2302 Detailed study of specific liberal arts within particular traditions of practice (involving some combination of grammar, dialectic, and/or rhetoric)

Readings focus on a selection of major texts or direct instruction in a liberal arts tradition that may range from antiquity to the present, considering how these works address perennial questions of human formation that are debated among Great Texts.

**GTX 4320 Eighteenth and Nineteenth Centuries (3)**

Pre-requisite(s): Upper-level standing

An undergraduate seminar in the Great Texts of the eighteenth and nineteenth centuries. Students will read selections from Wollstonecraft, Rousseau, Declaration of Independence, The Constitution, de Tocqueville, Goethe, Austen, Wordsworth, Coleridge, Kierkegaard, Melville, Whitman, Darwin, Stowe, Newman, Mary Shelley, Frederick Douglass, Twain, Nietzsche, and others.

**GTX 4321 Twentieth Century (3)**

Pre-requisite(s): Upper-level standing

An undergraduate seminar in the Great Texts of the twentieth century. Students will read selections from Yeats, William James, Weber, Freud, Barth, Woolf, Beckett, Faulkner, O'Connor, Lewis, Eliot, Wiesel, Frost, Camus, Solzhenitsyn, Hemingway, Arendt, King, and others.

**GTX 4330 Dante and the Italian Renaissance (3)**

Pre-requisite(s): Upper-level standing

An undergraduate seminar focusing on the work of Dante Alighieri, especially The Divine Comedy. Other writers and artists such as Petrarch, Boccaccio, Catherine of Siena, Brunetti, Ariosto, and Machiavelli may be read. Students will read texts in translation but with frequent reference to the Italian.

**GTX 4331 Augustine and Aquinas (3)**

Pre-requisite(s): Upper-level standing

An undergraduate seminar in the central texts of two of the chief authors of the Western Christian tradition, Augustine and Aquinas. Attention may be paid to predecessors such as Plato, Aristotle, Virgil, or Cicero, as well as to the influence of Augustine and Aquinas upon other thinkers such as Dante, Petrarch, Machiavelli, Descartes, Nietzsche, Joyce, Eliot, and O'Connor. Attention may also be paid to the influence of Augustine upon Aquinas.

**GTX 4332 Master Works in Theology (3)**

Pre-requisite(s): Upper-level standing

An undergraduate seminar devoted to the study of seminal works in theology, in connection with one or more historical periods, ranging from antiquity to the present. Emphasis will be placed on theological interactions with the literature, philosophy, social science, and/or artistic expression in these eras.

**GTX 4340 Master Works in Music (3)**

Pre-requisite(s): Upper-level standing

Survey and analysis of seminal landmarks of music in their relationship to the six eras of the Great Texts Seminar Sequence.

**GTX 4341 Great Texts in Modern Science (3)**

Pre-requisite(s): Upper-level standing

An historical overview of the history and development of the natural and social sciences from the Enlightenment to the present. Students will concentrate on the Great Texts of science from Bacon, Vico, Newton, Lavoisier, Darwin, Einstein, Heisenberg, Kuhn, and others.

**GTX 4343 Great Texts Capstone Course (3)**

Pre-requisite(s): Senior standing and Great Text major

An undergraduate senior seminar culminating in a research project which draws upon the works and texts of the Great Texts curriculum. Students will present and defend their senior projects before student colleagues and a faculty panel.

**GTX 4351 Confession and Autobiography (3)**

Pre-requisite(s): Upper-level standing

An undergraduate seminar devoted to the genre of confession and autobiography, with a focus on texts that address questions about the kinds of communities, activities and virtues that cultivate true human flourishing. Students will read selections from Augustine, Teresa of Avila, Rousseau, Tolstoy, Henry Adams, John Henry Newman, Dorothy Day, Malcolm X, Will Campbell, Nelson Mandela, Wendell Berry and others.

**GTX 4360 Internship in the Liberal Arts (3)**

Pre-requisite(s): GTX 3360 or 3361 Draw from the liberal arts tradition to practice the skills required to introduce others to the interdisciplinary study of Great Texts

Combines readings with observation and practical experience to improve instruction through apprenticeship.

**GTX 4371 Epic and Romance in the High Middle Ages (3)**

Pre-requisite(s): Consent of instructor

Explores epic and romance texts from France and England in their native vernaculars. Reading competence in Latin (classical or medieval), French (old or modern), or Middle English required.

**GTX 4V99 Special Topics in Great Texts (1-3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Research projects to be undertaken by students or by classes under the direct supervision of the professor. Course may be repeated twice with a different topic of study.

## Greek (GRK)

**GRK 1301 Elementary Greek I (3)**

The basic elements of Classical and Koine Greek and culture, emphasizing both Classical and New Testament authors.

**GRK 1302 Elementary Greek II (3)**

Pre-requisite(s): GRK 1301 or departmental placement  
Continuation of GRK 1301.

**GRK 1V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**GRK 2310 Intermediate Greek Prose (3)**

Pre-requisite(s): GRK 1302 or departmental placement  
Attic prose readings and selections from the New Testament, with review of inflection and syntax and discussion of the relationship between Classical and Christian texts.

**GRK 2320 Intermediate Greek Poetry (3)**

Pre-requisite(s): GRK 1302 or departmental placement  
Readings in Homer's *Odyssey* with continued emphasis on Greek inflection and syntax and on the interpretive relationship between Classical and Christian texts.

**GRK 2V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**GRK 3302 Greek Historians (3)**

Pre-requisite(s): GRK 2310 and 2320 or consent of instructor  
The principles of Greek historiography emphasizing Herodotus, Thucydides, and other Greek historians.

**GRK 3303 Greek Tragedy (3)**

Pre-requisite(s): GRK 2310 and 2320 or consent of instructor  
Greek drama, emphasizing Aeschylus, Sophocles, and Euripides.

**GRK 3305 Classical Rhetoric and the Christian Tradition (3)**

Pre-requisite(s): GRK 2310 and 2320 or consent of instructor  
Selections from Plato, Aristotle, Lysias, Demosthenes, and the Church Fathers which reflect the principles of classical rhetoric and its importance to the theology and preaching of the early church. Attention will also be given to modern homiletics.

**GRK 3306 Alexander the Great (3)**

Pre-requisite(s): GRK 2310 and 2320 or consent of instructor  
Readings on the life and times of Alexander the Great.

**GRK 3307 Sicilian Narratives (3)**

Pre-requisite(s): GRK 2310 and 2320 or consent of instructor  
Readings in ancient Greek associated with the island of Sicily. Readings will come from authors such as Homer, Euripides, or Thucydides.

**GRK 3311 Greek Epigraphy (3)**

Pre-requisite(s): GRK 2310 and 2320 or consent of instructor  
Epigraphical documents generally comprise those texts incised in durable material—stone, bronze, lead, et cetera. This seminar examines both the contents of those epigraphical documents that survive from Antiquity and the contexts within which they were created. As such, it serves as a general introduction to epigraphical sources and methods, as well as to the ways in which epigraphical information can be used to study ancient society. By offering for study diverse epigraphical examples from various periods of Antiquity, the course will introduce basic bibliography, major collections of documents, research and field methodology (including the study of inscriptions in museums and archaeological sites in mainland Italy and Sicily), and the use of electronic resources available for epigraphical studies.

**GRK 3351 The Epistles (3)**

Pre-requisite(s): GRK 2310 and 2320 or consent of instructor  
The letter-form, a genre common in Greek and Roman literature and the dominant structural form of the New Testament, as exemplified in the Pauline and General Epistles.

**GRK 3352 Hellenistic Greek (3)**

Pre-requisite(s): GRK 2310 and 2320 or consent of instructor  
Literature of the Hellenistic period (323 - 31 BC) with additional attention on New Testament backgrounds, in particular Philo and Josephus.

**GRK 3354 Apocalyptic Literature (3)**

Pre-requisite(s): GRK 2310 and 2320 or consent of instructor  
Apocalyptic literature of the New Testament, including selections from the Gospels, Jude, the Epistles of Peter, the Shepherd of Hermas and the Revelation of John.

**GRK 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**GRK 4301 Readings from Greek Literature (3)**

Pre-requisite(s): GRK 2310 and 2320 or consent of instructor  
Readings from Greek authors including either Classical authors or portions of the New Testament, and related background texts. With content changed, this course may be repeated up to a total of nine semester hours.

**GRK 4302 Greek Lyric Poetry (3)**

Pre-requisite(s): GRK 2310 and 2320 or consent of instructor  
Readings may include selections from Archilochus, Sappho, Alcaeus, Stesichorus, Anacreon, Simonides, and others.

**GRK 4303 Homer's Iliad (3)**

Pre-requisite(s): GRK 2310 and 2320 or consent of instructor  
Readings from the Iliad with emphasis on the characteristics of the archaic oral tradition, as the foundation of Greek literature.

**GRK 4304 Greek Comedy (3)**

Pre-requisite(s): GRK 2310 and 2320 or consent of instructor  
Selected plays of Aristophanes and Menander, emphasizing the style and structure of Greek comedy, and its importance in Greek society for understanding of the comic tradition.

**GRK 4305 Plato: Selected Writings (3)**

Pre-requisite(s): GRK 2310 and 2320 or consent of instructor  
Selected readings in Greek from the writings of Plato. With content changed, this course may be repeated up to a total of six semester hours.

**GRK 4306 Aristotle: Selected Writings (3)**

Pre-requisite(s): GRK 2310 and 2320 or consent of instructor  
Selected readings in Greek from the writings of Aristotle. With content changed, this course may be repeated up to a total of six semester hours.

**GRK 4307 Readings in Attic Oratory (3)**

Pre-requisite(s): GRK 2310 and 2320 or consent of instructor  
Selections from representative Greek orators, such as Antiphon, Andocides, Lysias, Isocrates and Isaeus.

**GRK 4308 Greek Prose Composition (3)**

Pre-requisite(s): GRK 2310 and 2320 or consent of instructor  
Translation of English text into classical Greek.

**GRK 4309 The Gods of the Greeks (3)**

Pre-requisite(s): GRK 2310 and 2320 or consent of instructor; and upper-level standing  
Selected readings in Greek from writings (e.g., Hesiod's Theogony and the Homeric Hymns) dealing with the gods of the Greeks.

**GRK 4310 Stoics/Epicureans Reading the Ancient Sources (3)**

Pre-requisite(s): GRK 2310 and 2320 or consent of instructor  
Selected readings in Greek dealing with the Stoic and Epicurean philosophers and their respective philosophical systems.

**GRK 4351 The Gospels and New Testament Criticism (3)**

Pre-requisite(s): GRK 2310 and 2320 or consent of instructor  
Readings in the Gospels emphasizing the history of New Testament criticism and interpretation. Attention will also be given to the writings of the Church Fathers, as well as to recent methodologies.

**GRK 4352 The Septuagint (3)**

Pre-requisite(s): GRK 2310 and 2320 or consent of instructor  
The Septuagint as an example of the interaction between the Hebrew, Greek, and Roman worlds.

**GRK 4353 Lives of the Early Christian Saints (3)**

Pre-requisite(s): GRK 2310 and 2320 or consent of instructor  
Selected readings in Greek about the lives of the saints of the early church.

**GRK 4V01 Readings from Greek Literature (1-3)**

Pre-requisite(s): GRK 2310 2320 and consent of the instructor  
Greek authors selected to meet the needs of the student. With content changed, this course may be repeated up to a total of nine semester hours.

**GRK 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Health Education (HED)

**HED 1350 Dimensions of Health Science Studies (3)**

Pre-requisite(s): Health Sciences Studies major only  
This course, mandatory for all Health Science Studies majors, presents essential introductory information to prepare the student for success in determining a field of study and pursuing a healthcare career including knowledge of the healthcare environment, qualifications for pursuing specific fields, professionalism expectations, the importance of communications, cultural competence in healthcare, the use of professional literature, and the basics of healthcare ethics.

**HED 3300 Clinical Skills Training and Assessment (3)**

Pre-requisite(s): Students must have upper-level standing and be a Health Science Studies major  
Students from other majors will require consent of the instructor. Introduces the concepts and techniques of performing a multi-system physical assessment, collecting a patient history, and documenting subjective history and objective findings.

**HED 3311 Essentials of Ethics in Healthcare (3)**

Cross-listed as HP 3311  
See HP 3311 for course information.

**HED 3V50 Clinical Research Collaboration (1-3)**

Pre-requisite(s): Instructor approval  
The purpose of this course is to allow undergraduate Health Science Studies students the opportunity to work with a clinical research professional and participate in the clinical research process.

**HED 4305 A Biblical Theology of Suffering for Health Care Providers (3)**

Pre-requisite(s): Upper level standing; REL 1310 and REL 1350  
A study of the biblical meanings and purposes of suffering with theological reflections and application to those served by health care professionals with consideration to disability-related ministries.

**HED 4V80 Professional Internship in Health (1-6)**

Pre-requisite(s): Junior standing, must be approved by the Health Science Studies Program Director, HHPR Internship Director and Center for Global Engagement  
Designed to provide students with planned experiences with professionals in various health, allied health and/or community health settings including public, private, and health agencies.

## Hebrew (HEB)

**HEB 1301 Introductory Hebrew I (3)**

An introduction to the orthography, morphology, and syntax of Biblical Hebrew.

**HEB 1302 Introductory Hebrew II (3)**

Pre-requisite(s): HEB 1301  
Continuation of HEB 1301.

**HEB 2310 Intermediate Hebrew I (3)**

Pre-requisite(s): HEB 1302 or its equivalent  
Selected readings in the historic prose of the Old Testament with Hebrew composition.

**HEB 2320 Intermediate Hebrew II (3)**

Pre-requisite(s): HEB 2310 or its equivalent  
Selected readings in the Prophets, Psalter, and Wisdom literature of the Old Testament.

# History (HIS)

## **HIS 1300 The United States in Global Perspective (3)**

Introduction to history, historical thinking and the history of the United States within a global context, examining the ways a distinct American society developed within larger patterns of world history. Themes will vary by instructor but may include democracy, freedom and equality; global conflict; imperialism; industrialization and economic systems; migration and immigration; nationalism; and revolution.

## **HIS 1305 World History to 1500 (3)**

Principal civilizations of Asia, Africa, Europe, and the Americas from prehistory to about 1500 A.D., focusing on religious ideas, patterns of economic and cultural development, and artistic and literary achievements of these civilizations, as well as their influences on one another.

## **HIS 1307 World History since 1500 (3)**

History of major world civilizations and the growth of the modern global community as well as the spread of ideologies and cultures.

## **HIS 1365 United States History to 1877 (3)**

A chronological, thematic, and analytical study of the political, economic, social, cultural, and diplomatic history of the United States from colonial origins and early nationhood through the era of Reconstruction.

## **HIS 1366 United States History since 1877 (3)**

A chronological, thematic, and analytical study of the political, economic, social, cultural, and diplomatic history of the United States from the end of Reconstruction to the present.

## **HIS 1V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## **HIS 2370 History of Warfare (3)**

Military conflicts and practices throughout history and around the world with emphasis on broad strategy and tactics.

## **HIS 2380 Introduction to Slavic and East European Studies I (3)**

Cross-listed as SEES 2380

See SEES 2380 for course information.

## **HIS 2381 Introduction to Slavic and East European Studies (3)**

Cross-listed as SEES 2381

See SEES 2381 for course information.

## **HIS 2385 Introduction to East Asia (3)**

Introduction to the history of East Asia from ancient times through today. Examines the interrelated histories of Korea, Japan, and China and their relationships with the wider world, including trade and cultural exchanges, reform and revolution, war, colonialism, Cold War geopolitics, and globalization.

## **HIS 2390 Introduction to Women's and Gender History (3)**

Central debates in Women's and Gender History from European, American, and global perspectives. Provides theoretical background and analytical skills for advanced coursework.

## **HIS 2395 History Workshop (3)**

Pre-requisite(s): Six semester hours of history or consent of instructor  
Historical thought and historiographical practice in the West from their emergence in the classical world to the present.

## **HIS 2V89 Introduction to Model Organization of American States (1-3)**

Course prepares students for first-time participation in a Model Organization of American States simulation. Stresses historical and contemporary hemispheric issues. May be repeated for a total of six credit hours under different topics.

## **HIS 2V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## **HIS 3300 Methods of Oral and Public History (3)**

Pre-requisite(s): Six semester hours of history or consent of instructor

Introduction to the diverse settings in which historians work, including historic preservation, heritage tourism, community history, documentary work, museums, historical societies, historical editing, government, and business, and the various approaches they utilize. Also familiarizes students with oral history theory and practice.

## **HIS 3301 Internship in History (3)**

Pre-requisite(s): HIS 3300

Internship at an institution or program engaged in public history. Applies themes, ideas, and issues covered in HIS 3300.

## **HIS 3305 Traditional China (3)**

Cross-listed as AST 3305

Pre-requisite(s): Six semester hours of history or consent of instructor

A survey of Chinese history from its origins to 1700. Treatment of artistic, cultural, economic, literary, political, social and religious developments in China that have shaped East Asian civilizations.

## **HIS 3306 Women and Gender in Chinese History (3)**

Pre-requisite(s): Six semester hours of history or consent of instructor

Explores the history of women and gender in Modern China and the impact on that experience by factors such as class, ethnicity, and geography.

## **HIS 3307 Japan (3)**

Cross-listed as AST 3307

Pre-requisite(s): Six semester hours of history or consent of instructor

A survey of the internal and external forces which have affected the development of Japanese civilization from ancient times to the twentieth century. Emphasis upon political, economic, and cultural developments which have shaped modern Japan.

## **HIS 3308 Hitler and the Holocaust (3)**

Cross-listed as REL 3348

Pre-requisite(s): Six semester hours of history or consent of the instructor

The rise of Adolf Hitler and the policies of war and extermination he pursued before and during World War II, as well as the suffering, complicity and responses of Jews and Christians within and after the Holocaust

## **HIS 3310 The Middle East (3)**

Pre-requisite(s): Six semester hours of history or consent of instructor

A survey of Islamic civilization, especially under the Umayyad, Abbasid, and Ottoman empires; analysis of contemporary national, regional, and international problems with attention to the historical-geographical and political-geographical elements.

## **HIS 3311 Middle East History 600 - 1798 (3)**

Pre-requisite(s): Six semester hours of history or consent of instructor

Survey of Middle East history from the rise of Islam to Napoleon's invasion of Egypt in 1798.

**HIS 3314 Global Maritime History (3)**

Pre-requisite(s): Six semester hours of history or consent of instructor  
Exploration of maritime history from a global perspective, including interactions of economics, societies, militaries, transport, and technology with the maritime environment.

**HIS 3315 History of West Africa (3)**

Pre-requisite(s): Six semester hours of history or consent of instructor  
Introduction to West African history, culture, customs, and societies from the earliest times to 1975.

**HIS 3318 History of Modern Africa (3)**

Pre-requisite(s): Six semester hours of history or consent of instructor  
History of Africa since the early nineteenth century and analysis of contemporary African issues in a wider historical context.

**HIS 3319 Women and Gender in Modern Africa (3)**

Pre-requisite(s): Six semester hours of history or consent of instructor  
The social, political, economic, religious, and cultural experiences of women living in Africa from the pre-colonial era to today.

**HIS 3320 History of Childhood (3)**

Pre-requisite(s): Six semester hours of history or consent of instructor  
Global history of childhood from prehistory to the present, with an emphasis on the emergence of the modern concept of childhood.

**HIS 3322 Greek History and Civilization (3)**

Cross-listed as CLA 3302

See CLA 3302 for course information.

**HIS 3323 Hellenistic History and Civilization (3)**

Cross-listed as CLA 3303

See CLA 3303 for course information.

**HIS 3324 Roman History and Civilization (3)**

Cross-listed as CLA 3301

History and culture of the ancient Romans from the founding of the city through the reign of Constantine ending in A.D. 337 with attention to literature, religion, political institutions, social issues, philosophy, and art.

**HIS 3325 The British Empire (3)**

Pre-requisite(s): Six semester hours of history or consent of instructor  
The British Empire from its rise to decolonization.

**HIS 3332 Modern India (3)**

Pre-requisite(s): Six semester hours of history or consent of instructor  
A survey of the philosophic, literary, religious, social, economic, and political history of India from the 18th century until today. Covers constituent elements that serve as the foundation for not only India, but for modern South Asia. Establishes a framework of critical analysis for issues of both historical and contemporary importance such as national identity, economic development, gender issues, and environmental sustainability.

**HIS 3333 Festivals of Renaissance Europe (3)**

Pre-requisite(s): Six semester hours of history or consent of instructor  
Examines festivals, spectacles, celebrations, rituals, and ceremonies of Renaissance Europe, revealing their roles in forging social identities, demonstrating power, and expressing emotion.

**HIS 3339 Byzantine History and Civilization (3)**

Cross-listed as CLA 3304

See CLA 3304 for course information.

**HIS 3340 Russia to 1861 (3)**

Pre-requisite(s): Six semester hours of history or consent of instructor  
A study of the historical, social, cultural, and intellectual currents of Russia.

**HIS 3342 Russia since 1861 (3)**

Pre-requisite(s): Six semester hours of history or consent of instructor  
A study of society, literature, history, and politics of the Russian Empire, the Soviet Union, and present post-communist Russia.

**HIS 3344 History of Modern Germany (3)**

Pre-requisite(s): Six semester hours of history or consent of instructor  
A survey of the political, cultural, and economic development of German-speaking Central Europe since the eighteenth century.

**HIS 3353 Pre-Columbian and Colonial Latin America (3)**

Pre-requisite(s): Six semester hours of history or consent of instructor  
A survey of pre-Columbian civilizations in the Americas and an examination of Spanish and Portuguese colonies. Emphasis will be given to Meso-American and Andean civilizations, the creation of colonial society, and the forces leading to the end of political colonialism in Latin America.

**HIS 3355 Modern Latin America (3)**

Pre-requisite(s): Six semester hours of history or consent of instructor  
A survey of the evolution of Latin American countries since Independence. Emphasis will be placed on economic and social factors influencing national development and contemporary issues such as narcoterrorism, the debt crisis, liberation theology, the rights of indigenous peoples, the ecology, and hyper-urbanization.

**HIS 3360 History of the American Presidency (3)**

Pre-requisite(s): Six semester hours of history or consent of instructor  
A survey of the presidency and the presidents. Subjects include backgrounds, parties and elections, ratings of presidents, selected case studies, and the vice presidency.

**HIS 3362 History of Religion in America (3)**

Pre-requisite(s): Six semester hours of history or consent of instructor  
A survey of religion from the period of discovery to the present with emphasis on the diversity of American religion, the origin and development of major denominations, and the interaction of religion and society.

**HIS 3370 Slavery in Film (3)**

Examines the history of slavery in the United States and how that history has been portrayed in feature films, television series, and documentaries in the twentieth and twenty-first centuries.

**HIS 3371 History of Black Americans (3)**

Pre-requisite(s): Six semester hours of history or consent of instructor  
A survey of the history of black Americans from their African origins to the present. Emphasis will be given to the economic, social, and political impact of the presence of black people in the American colonies and the United States; attention will be given to the institution of slavery, the emancipation movement, the rise of segregation, black nationalism, and the ideologies and personalities of the civil rights movement.

**HIS 3380 History of Texas (3)**

Pre-requisite(s): Six semester hours of history or consent of instructor  
The political, economic, and social history of Texas in its regional setting in the American Southwest from the period of colonization to the present.

**HIS 3384 History of Indigenous Peoples of America (3)**

A history of indigenous peoples in the Americas, focusing on the area known now as the continental United States.

**HIS 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**HIS 4300 History of Medicine (3)**

Cross-listed as MH 4300, PHI 4300  
See MH 4300 for course information.

**HIS 4305 Modern China (3)**

Cross-listed as AST 4305

Pre-requisite(s): Nine semester hours of history or consent of instructor  
A history of China from 1700 to the present that considers cultural, economic, literary, political, social, and religious developments. Emphasis will be given to the late imperial state, the Chinese heritage, decline, conflict with the West, revolution, and modernization.

**HIS 4312 Modern Middle East History (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
Political, religious, intellectual and social transformations in the Middle East during the nineteenth and twentieth centuries.

**HIS 4313 War and Peace in the Middle East (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
The interaction of policy, military force, and society in the waging of war and the quest for peace and security in the Middle East.

**HIS 4316 The African Diaspora (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
The history of peoples of African descent in the Diaspora worldwide.

**HIS 4325 The Vikings (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
Focuses on Viking life, culture, trade, and migrations from AD 790 to 1100. Includes methods and applications of interdisciplinary research, particularly emphasizing the potential of archaeology to make contributions to historical studies.

**HIS 4326 Early Medieval Europe, c. 300-1000 (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor; and upper-level standing  
Emergence of medieval civilization through the blending of Roman, Christian, and Germanic institutions, customs, and beliefs.

**HIS 4327 High Middle Ages, c. 1000-1450 (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
A study of the flowering of medieval civilization, with emphasis on the medieval church and the origins of the modern state.

**HIS 4328 Medieval Britain (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor; and upper-level standing  
Medieval British history, emphasizing the development of parliament and the common law; the medieval church in the British Isles; the social impact of warfare; the demographic impact of famine and plague in England and Britain.

**HIS 4329 The Renaissance and Reformation (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
The political, economic, intellectual, artistic, and religious upheavals in Europe from the thirteenth through the sixteenth centuries and the resulting social, political, religious, and cultural changes.

**HIS 4330 Medieval Mediterranean World (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor; and upper-level standing  
The Medieval Mediterranean as a global region, highlighting the various connections and cultural hybridities that linked peoples of Europe, Africa, and "Asia" (now called the Middle East).

**HIS 4331 European Expansion, 1400-1800 (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
The development and maintenance of permanent contacts by Europeans with other peoples and cultures around the world between the late Middle Ages and the turn of the 19th century.

**HIS 4332 Early Modern Europe (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
A history of Europe from the age of absolutism to the enlightenment. Emphasis will be upon the major political, economic, social, cultural, scientific, and intellectual developments of the seventeenth and eighteenth centuries.

**HIS 4333 French Revolution and Napoleon (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
Background and history of the French Revolution; relatively brief consideration of the effects of the Revolution and Napoleon upon Europe.

**HIS 4334 A History of Women in Europe to 1200 (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
From ancient Greece to the early medieval world, this course examines the status and roles of women in European society—the ideas, customs, and laws that affected the lives of women as well as the roles that women performed. We also explore how women both contributed to European culture and society and were prevented from realizing their full potential.

**HIS 4335 A History of Women in Europe since 1200 (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
A study of the status and roles of women in European society from the Crusades through World War I.

**HIS 4336 Europe since World War I (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
Problems of peace making and international organization; rise of Fascism and Communism; background and history of World War II.

**HIS 4337 Europe from 1815 to 1914 (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
Political, social, and economic development of the European nations from the Congress of Vienna to the outbreak of the First World War; the rise of liberalism and growth of nationalism; imperialism and the development of international rivalry.

**HIS 4338 Cultural and Intellectual History of Europe through the Seventeenth Century (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
History of ideas and their social and economic background from Classical Greece through the Baroque period. Course includes Greek and Roman philosophy, Early Christianity and Scholasticism, the Renaissance, the Reformation, the Scientific Revolution, and the idea of a mechanistic universe. Considerable emphasis on literature; some attention to art and music.

**HIS 4339 Cultural and Intellectual History of Modern Europe (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
History of ideas and their social and economic background from the Enlightenment to the present. Course includes study of Enlightenment philosophy (Reason, Nature, God, and Man), Romanticism, Democratic theory and Marxism, Idealism, Darwinism, Fascism, and Existentialism. Considerable emphasis on literature; some attention to art and music.

**HIS 4340 Special Topics in History (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
Study in a specialized area of history not covered by regular course offerings. May be repeated once for credit provided topic is different.

**HIS 4341 Tudor-Stuart Britain (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor; and upper-level standing

The history of Britain under the Tudor and Stuart dynasties.

**HIS 4343 France since 1815 (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
Major topics in French history from Waterloo to the present day, including the Bourbon Restoration, the revolutions of 1830 and 1848, the Second Empire, republicanism, colonialism, the world wars, and Gaullism.

**HIS 4345 Britain in the Nineteenth Century (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor; and upper-level standing

The political, social, and economic history of Britain from the end of the Napoleonic War to the beginning of the First World War.

**HIS 4346 Britain in the Twentieth Century (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor; and upper-level standing

The political, social, and economic history of Britain from the beginning of the First World War to the end of the first Blair government.

**HIS 4348 Reading Course in European History (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
A tutorial course for undergraduates with intensive study of a given period or topic in European history. The nature and precise limits of the study will be established after consultation between professor and student. No student may take more than one history reading course in a given semester. A maximum of six semester hours of reading courses may apply toward a history major.

**HIS 4350 The History of Gender in Latin America (3)**

Cross-listed as LAS 4351

Pre-requisite(s): Prerequisite(s): Nine semester hours of history or consent of instructor; and upper-level standing

The history of the construction of gender and gender relations from pre-Columbian societies to contemporary Latin America. Special emphasis will be given to the creation of archetypes and the contrast between legal codes and realities across time, race, class and regional divides.

**HIS 4354 Religion and War in U.S. History (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
The dynamic relationship between religion and war throughout American history. Coverage stresses, but extends beyond, the Christian faith and traditions.

**HIS 4357 Inter-American Relations (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
A history of the evolution of Inter-American relations from colonization to the contemporary development of regional economic blocs. Topics will include relations among the American colonies, efforts at unification after independence, the expanding role of the United States in hemispheric relations and the Latin-American reaction, and the evolution of regionalism in the hemisphere.

**HIS 4358 Reading Course in Global History (3)**

Pre-requisite(s): Nine semester hours of history or the consent of instructor

A tutorial course for undergraduates with intensive study of a given period or topic in Global history. The nature and precise limits of the study will be established after consultation between professor and student. May be repeated once with a change of contents for a total of six credit hours.

**HIS 4362 American Colonial History (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
The settlement, growth, and development of Anglo-American colonies in North America.

**HIS 4363 American Revolution and Constitution (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
The creation of an American nation out of thirteen colonies. Topics include the social, economic, political, and ideological roots of the colonists' resistance to imperial power, the decisions for revolution and independence, the fighting of the Revolutionary War, the rise and fall of the Confederation, and the drafting and ratification of the Constitution.

**HIS 4365 The Early Republic, 1789-1860 (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
An overview of the challenges related to creating the new nation of the United States including political, diplomatic, social, economic, and cultural issues and controversies.

**HIS 4366 American Legal History to 1877 (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
A survey of legal and constitutional documents, ideas, cases, and debates, in American history from the colonial era to 1877.

**HIS 4368 Civil War and Reconstruction (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
Causes, military operations, and aftermath of the American Civil War.

**HIS 4369 Religion in America, 1877-Present (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
Religion in America from the end of Reconstruction to the present. Special attention devoted to religion's intersection with culture and politics and to the growth of religious pluralism in America.

**HIS 4371 United States, 1877-1920 (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
Major economic, social, and political developments in the United States within the prescribed chronological limits, with secondary emphasis on the rise of the United States as a world power and its involvement in World War I. Primary emphasis given to industrialization, the farmer revolt, the Progressive Movement, and the ramifications of these events in politics and society.

**HIS 4374 United States since 1920 (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
Continuation of HIS 4371 with emphasis on the post-Progressive decade, the Great Depression, the New Deal, and domestic developments since the New Deal. Of secondary emphasis is the coming of World War II and the consequent rise and development of the Cold War.

**HIS 4375 The American Civil Rights Movement (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
The origins, major events, and legacy of the struggle to gain full equality for African Americans in the century following the American Civil War. Emphasis on the philosophies and strategies employed to realize full citizenship rights for blacks, individual and institutional leadership, the participation of women, the role of religion, and the impact of this social justice movement on the South, the United States, and the world. (Graduate students may not receive credit for both HIS 4375 and HIS 5375.)

**HIS 4377 History of the American Woman, 1600-1865 (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
Women's history in America from the colonial period to the end of the Civil War, emphasizing the changing roles of women and their contribution to and participation in American society.

**HIS 4378 History of the American Woman Since 1865 (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
A social, political, and economic survey of women in the United States from the end of the Civil War to the present, emphasizing the women's movement and its influence on American society.

**HIS 4379 The Cold War (3)**

Cross-listed as SEES 4379

Pre-requisite(s): Nine semester hours of history or consent of instructor  
History of global conflict between the United States and the Soviet Union from 1941 to 1991 including cultural, social, economic, political, and religious aspects.

**HIS 4380 The American West (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
The frontier in American history from early colonial times to the end of the nineteenth century, with emphasis on the significance of the frontier in American history and historiography.

**HIS 4383 History of the South (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
Southern culture with three topics in the ante-bellum period and three topics in the post-bellum period.

**HIS 4385 The United States in the 1960s (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
The political, economic, social, cultural, and diplomatic development of the United States in the 1960s.

**HIS 4386 The City in American History (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
Emergence, expansion, and impact of urban growth in America from colonial times to the present. Emphasis given to the mechanics of city building, the social, economic, political, and cultural dimensions of urban development and the changing image of the city in the minds of the American people.

**HIS 4388 American Environmental History (3)**

Cross-listed as ENV 4389

Pre-requisite(s): Nine semester hours of history or consent of instructor  
Investigation of the physical, social, cultural, and economic relationships between humans and their environment in America from pre-contact to the present.

**HIS 4390 U.S. Foreign Relations to 1919 (3)**

Pre-requisite(s): Nine semester hours or consent of instructor  
The foundations of U.S. diplomacy with particular emphasis on transnational influences, e.g. democracy, gender, trade, slavery, race, and imperialism.

**HIS 4391 The Vietnam War (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
Overview of the origins, course, and legacy of the US experience in the Vietnam War.

**HIS 4392 U.S. Foreign Relations since 1919 (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
The emergence of the United States as a global power, with emphasis on ideology, economics, race, religion, and militarism.

**HIS 4393 American Military History to 1890 (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
Major military conflicts in North America from European colonization to the close of the Plains Indians Wars.

**HIS 4394 American Military History since 1890 (3)**

Pre-requisite(s): 9 semester hours of history or consent of instructor  
Major military conflicts in United States history from the Spanish-American War to the present day.

**HIS 4395 History of American Thought, 1630-1859 (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
Enduring beliefs about and attitudes toward the world and themselves held by Americans. Emphasis on patterns of beliefs as bases for assurance and commitment. From Puritans through transcendentalists.

**HIS 4396 History of American Thought, 1859 to Present (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
Beliefs Americans have relied on to define and comprehend the world and themselves. Emphasis on what Americans needed and were able to believe in their search for assurance from the naturalism of the Gilded Age to the personal experiential quest of the present.

**HIS 4398 Reading Course in American History (3)**

Pre-requisite(s): Nine semester hours of history or consent of instructor  
A tutorial course for undergraduates with intensive study of a given period or topic in American history. The nature and precise limits of the study will be established after consultation between professor and student. No student may take more than one history reading course in a given semester. A maximum of six semester hours of reading courses may apply toward a history major.

**HIS 4V89 Advanced Model Organization of American States (1-3)**

Cross-listed as PSC 4V89

Pre-requisite(s): HIS 2V89

Course prepares advanced students for leadership roles in a Model Organization of American States simulation. May be repeated for a total of six credit hours under different topics.

**HIS 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Honors (HON)

**HON 2370 Special Topics in the Honors Program (3)**

This course provides students the opportunity to pursue various lines of study as part of their Honors curriculum. Topics of the course are determined by the instructor in coordination with the Honors Program Director. With content changed, this course may be repeated for credit for a maximum of six hours.

**HON 3100 Advanced Readings & Research (1)**

Advanced readings and research toward an Honors thesis. The course is conducted under the direction of a faculty mentor from the student's major department, concentration, or area of research.

**HON 3101 Advanced Readings & Research (1)**

Pre-requisite(s): HON 3100 or concurrent enrollment  
Continuation of HON 3100, as well as participation in proseminars on thesis research and writing. Includes submission of a formal thesis proposal.

**HON 3200 Colloquium (2)**

Informal group discussion of important books and issues in various branches of knowledge under the direction of faculty members or others who are specialists in the area of discussion.

**HON 3201 Colloquium (2)**

Pre-requisite(s): HON 3200  
Continuation of HON 3200.

**HON 3455 Research Design (4)**

Pre-requisite(s): Upper-level standing

Within the context of providing Honors students the architecture of laboratory, clinical, and social science research, this course has the goals of: introducing an epistemological and methodological strategy for students to conduct scientific research; enabling them to conceptualize and plan their Honors Thesis; facilitating the student's beginning work with their faculty mentor; and requiring the participants to write the initial draft of their first four chapters of their Honors Thesis - Introduction, Review of Literature, Methodology, and Hypotheses.

**HON 3V70 Readings in the Honors Program (1-4)**

Pre-requisite(s): Upper-level standing

Material selected will serve needs of students within the Honors Program. With content changed, this course may be repeated once for credit.

**HON 4088 Honors Exit Review (0)**

Pre-requisite(s): Credit or concurrent enrollment in HON 4V87

Students complete the Honors Exit Review course during their final semester. They will receive a grade of Credit once they have submitted all necessary paperwork and completed all other steps necessary to graduate from the Honors Program.

**HON 4V87 Honors Thesis (1-4)**

Pre-requisite(s): Credit or concurrent enrollment in HON 3101

Students complete Honors Thesis while conducting research and writing their thesis. The course is supervised by a faculty member in the student's major department or concentration. As a variable hour course, HON 4V87 may be completed for 1-4 hours of credit during a given semester depending upon the consent of the instructor and approval from the Honors Program. Typically, students will register for two hours of Honors Thesis during their penultimate semester and two final hours during their last semester.

## Human Performance (HP)

**HP 1101 Theory and Practice in Gymnastics (1)**

Pre-requisite(s): Departmental consent required

An introductory skill course beginning with educational gymnastics and progressing to Olympic gymnastics.

**HP 1102 Theory and Practice in Track and Field (1)**

Pre-requisite(s): Department consent required

An introductory skill course in track and field meeting during the spring semester of the freshman year.

**HP 1103 Theory and Practice in Dance (1)**

Pre-requisite(s): Departmental consent required

A comprehensive skills course in the fundamentals of dance. Included are folk, aerobic, and modern dance skills.

**HP 1108 Elementary School Physical Activities (1)**

This is an activity course for students interested in working with elementary age students. It is designed to introduce Baylor students to developmentally appropriate activities for elementary age children in the areas of fundamental skills, perceptual motor skills, games and sports skills, rhythmic activities and gymnastic skills. Through the context of movement, students will be exposed to the techniques, behaviors and approaches used by effective elementary physical education teachers.

**HP 1144 Theory and Practice in Tumbling and Dance (1)**

Pre-requisite(s): Departmental consent required

A course designed to develop fundamental skills in tumbling and dance (folk, modern and aerobic) and to introduce students to the responsibilities of a cheerleader and/or drill team sponsor.

**HP 1201 Driver Education and Training (2)**

A comprehensive driver education course covering all aspects of driving-learning to drive, traffic laws, mechanics of driving, the automobile, proper driving attitudes, and defensive driving. Upon successful completion of course requirements, students receive a Driver Training Certificate for insurance purposes.

**HP 1202 First Aid (2)**

Cross-listed as RLS 1202

Pre-requisite(s): For RLS 1202: RLS majors only; for HP 1202: no prerequisite required

A course designed to teach the knowledge and techniques of first aid and emergency procedures. A Red Cross Standard First Aid Certificate is granted on completion.

**HP 1233 Red Cross Water Safety (2)**

Pre-requisite(s): Departmental approval required

The most advanced aquatic course offered for certification by the American Red Cross. Prerequisites include prior certification in CPR and either Emergency Water Safety or Life Guarding. This course includes a review of swimming and lifesaving skills, analysis and remediation of stroke mechanics, lesson planning, classroom management, and teaching technique for the aquatic environment.

**HP 1236 Dance Choreography (2)**

Pre-requisite(s): A minimum grade of C in HP 1103 or LF 1106 or consent of instructor

See required courses for the major.

**HP 1420 Human Anatomy (4)**

Pre-requisite(s): HHPR (EP, HSS, PHSS, HKLS, PED, REC) and Public Health (PH) majors only

An introductory course designed to teach the basic life systems in the human body. Detailed examination of the circulatory, muscular, skeletal, respiratory, and endocrine systems will be emphasized.

**HP 1421 Introduction to Human Physiology (4)**

Pre-requisite(s): HHPR (EP, HSS, PHSS, HKLS, PED, REC) and Public Health (PH) majors only

Provides the scientific foundation for the field of medicine, exercise physiology and all professions related to human health. Basic chemical and biological concepts will provide students the framework to comprehend physiological principles.

**HP 2102 Fitness Concepts and Testing Procedures (1)**

The acquisition of essential skills and knowledge in fitness education that lead to excellent physical conditioning and the ability to administer a variety of fitness tests. Students must demonstrate specified levels of physical fitness to complete the course.

**HP 2304 Advanced First Aid (3)**

Acquisition of skills and knowledge to qualify for Advanced First Aid certification through the American Red Cross or equivalent agency. Additional material in emergency care from a supplementary text is included. Practical application skills are performed.

**HP 2306 Anatomical Kinesiology (3)**

Pre-requisite(s): A minimum grade of C in HP 1420; HHPR (EP, HSS, PHSS, HKLS, PED, REC) and Public Health (PH) majors only

A course designed to develop an understanding of human movement through the study of neuromuscular control, anatomical structures, and mechanical principles.

**HP 2307 Biomechanics (3)**

Pre-requisite(s): HHPR (EP, HSS, PHSS, HKLS, PED, REC) and Public Health (PH) majors only

An overview of the principles and methods of analyzing human movement from a mechanical and quantitative perspective.

**HP 2309 Medical Conditions and Pharmacology (3)**

Pre-requisite(s): HP 2340 and HP 2342

Athletic Training Majors Only. This course covers the evaluation and prevention of the most common medical conditions. It also covers medications commonly encountered in the practice of physical medicine. It will include categories of drugs; generic and trade names of common drugs; the use, effects and precautions of common drugs; and drug-drug interactions and pharmacokinetic principles.

**HP 2341 Prevention and Care of Athletic Injuries (3)**

Pre-requisite(s): A minimum grade of C in HP 1420

The course is designed to teach the basic athletic training needs, to teach fundamental skills and methods in athletic training, and to train an individual to take care of both injured and uninjured athletes.

**HP 2409 Emergency Medical Technician - Basic (4)**

Pre-requisite(s): Departmental consent required

This is a Texas Department of Health approved course leading to state certification as an Emergency Medical technician. The class requires classroom and field studies in applicable skills and environment. National Registry Exam available on completion.

**HP 2420 Exercise Physiology (4)**

Pre-requisite(s): A minimum grade of C in HP 1420; HHPR (EP, HSS, PHSS, HKLS, PED, REC) and Public Health (PH) majors only

This course provides lecture and lab experience in that aspect of sports medicine which involves the study of the body's response, adjustments, and adaptations to exercise.

**HP 3136 Innovative Games and Adventure Activities (1)**

Designed to assist the student in studies of the mechanics and techniques of each activity. Includes the skills, rules, principles and purposes of each activity. First semester sophomores and above are eligible to enroll in this course.

**HP 3300 Pedagogy of Team Sports (3)**

This course is designed to provide practice in teaching skills, to increase knowledge of games and difference sports rules, and to develop an appreciation for the basic skills in a variety of team sports. First semester sophomores and above are eligible to enroll in this course.

**HP 3301 Pedagogy of Individual Sports (3)**

This course is designed to provide practice in teaching skills, to increase knowledge of the games and different sports rules, and to develop an appreciation for the basic skills in a variety of individual sports. First semester sophomores and above are eligible to enroll in this course.

**HP 3302 Pedagogy of Dance (3)**

Pre-requisite(s): LF 1118 and 1148; or LF 1119

Course includes history, pedagogy, curriculum design, music selection, costuming, creative activities, and dance resources. Field experience includes observation, journal entries, and assisting in a dance environment.

**HP 3311 Essentials of Ethics in Healthcare (3)**

Cross-listed as HED 3311

Pre-requisite(s): REL 1310 and REL 1350

This course presents students with the opportunity to explore current healthcare ethical dilemmas, consider bias, and participate in the formulation of Christian responses in difficult healthcare situations. REL 1310 The Christian Scriptures and REL 1350 The Christian Heritage are prerequisites.

**HP 3312 Introduction to Standardized Patient Methodology (3)**

Cross-listed as THEA 3310

Pre-requisite(s): HHPR THEA majors only

Prior to enrollment students must audition and be selected. In this course students will be provided an introduction to the methodology of standardized patient encounters. Students will learn to be Simulation Performers (e.g., patients, family members) to provide standardized, real-life healthcare scenarios in the training of healthcare providers to improve medical and communication skills.

**HP 3320 Fundamentals of Exercise Biochemistry (3)**

Pre-requisite(s): Upper-level standing

Credit or concurrent enrollment in HP 2420. HHPR (EP, HSS, PHSS, HKLS, PED, REC) and Public Health (PH) majors only. An overview of biochemistry and metabolism related to exercise, training adaptations, and nutrition.

**HP 3330 Research Methods and Design in Exercise Science (3)**

Pre-requisite(s): HHPR (EP, HSS, PHSS, HKLS, PED, REC) and Public Health (PH) majors only

Introduction to research methods in exercise science including research designs, collection of data with appropriate statistical techniques, as well as the critique of peer reviewed research.

**HP 3346 Elementary School Physical Education (3)**

Pre-requisite(s): Elementary education majors and sophomore standing or above, HHPR majors, or permission from HP program director

This course is designed for elementary education majors (EC-6 Generalist) and for those interested in working with young children. Students are introduced to the techniques and approaches used by effective physical education teachers as they design and implement elementary physical education programs. Class time is spent in the classroom, the gym, and in local schools exploring how children learn motor skills and adopt physically active lifestyles.

**HP 3368 Adapted Human Performance (3)**

Pre-requisite(s): Upper level standing

A study of the theory of corrective human performance with special emphasis on the analysis of movement and postural deviations and the choice of and application of exercises and activities for their correction.

**HP 3369 Perceptual Motor Skills Development (3)**

Pre-requisite(s): A minimum grade of C in HP 3346; and upper level standing

This course will identify normal developmental sequences and performance patterns of primary and intermediate age children. The emphasis will be the correlation of this information with skills.

**HP 3381 Fundamentals of Human Performance (3)**

Pre-requisite(s): Upper-level standing

This course examines the goals, objectives, and evaluation of exemplary programs.

**HP 3382 Risk Management in HHPR (3)**

Cross-listed as RLS 3382

Pre-requisite(s): Junior level standing; RLS 3382 for RLS majors only; HHPR (EP, HSS, PHSS, HKLS, PED, REC) and Public Health (PH) majors only

Course explores the legal principles and rules of laws affecting administration and operation of health, physical education, recreation, sports programs, resources, areas, and facilities. Risk management and legal concepts are applied to contracts, human rights, property, products liabilities, negligence, and torts.

**HP 3V50 Clinical Research Collaboration (1-3)**

See HED 3V50 for course description.

**HP 3V79 Seminar in HHPR (1-6)**

hrs.

**HP 4301 Choreography and Production (3)**

Pre-requisite(s): LF 1118 and 1148; or LF 1119

This course is designed to enhance a student's performance skills in modern, ballet, and jazz dance. "Choreography" will include original routines using music selection, development of choreography, costuming, lighting, peer teaching, and written step instructions. "Production" will include performance in class as well as experience in production of a show at the end of the semester.

**HP 4352 Exercise and Sport Nutrition (3)**

Pre-requisite(s): HP 2420 and upper-level standing or consent of instructor

An overview of the role of nutrition as a means to enhance health and performance in exercise and sport. Topics to be covered include principles of healthful nutrition, energy metabolism, and nutrients, regulation of metabolism by vitamins and minerals, weight control, and analysis of the validity of proposed nutritional ergogenic aids.

**HP 4354 Techniques of Strength Training and Conditioning (3)**

Pre-requisite(s): HP 2306 and 2420

This course is to study current principles and procedures essential to strength training and conditioning practices. Emphasis is placed on the development and practical applications of aerobic conditioning, joint flexibility, muscular strength, power, and endurance programs.

**HP 4363 Philosophy, Principles, and Administration of Human Performance (3)**

Cross-listed as EDL 4363

Pre-requisite(s): Upper-level standing

Understanding of the fundamental principles and philosophy of human performance as they relate to program development, methodology, organization, and administration. Historical concepts, objectives, and purposes of human performance are also emphasized.

**HP 4368 Motor Learning and Development (3)**

Pre-requisite(s): Upper level standing

HHPR (EP, HSS, PHSS, HKLS, PED, REC) and Public Health (PH) majors only. Skill learning and skill performance, covering the gradual development of human physical abilities over the centuries. The states of an individual's development from childhood to maturity will be studied. Included are factors affecting physical development, the nature of the learning process, and the methods suitable for both the early stages of skill learning and the advanced skill levels.

**HP 4369 Sports Psychology (3)**

Pre-requisite(s): Upper-level standing; HHPR (EP, HSS, PHSS, HKLS, PED, REC) and Public Health (PH) majors only

Examines psychological theories and techniques applied to sport to enhance the performance and personal growth of athletes and coaches. Lecture with an emphasis on discussion. The course is designed to help both present and future coaches to use sound psychological principles to be more effective. Emphasis is given to understanding personality, motivation, confidence, discipline, imagery use, psyching techniques, relaxation training, anxiety and choking, attention and concentration, the psychology of injury and rehabilitation, and clinical issues common in athletics.

**HP 4370 Successful Coaching (3)**

Pre-requisite(s): Upper-level standing

The course is designed to provide a foundation in the practical application of sport science and management. Specifically, the class will address the sport psychology, sport pedagogy, sport physiology and sport management aspects of successful coaching. A 20-hour field-based experience with a middle or high school sports team is required.

**HP 4372 Sociology of Sport (3)**

Cross-listed as SOC 4311

Pre-requisite(s): Upper-level standing

A course that studies the interaction of various social influences such as the mass media, economics, race, gender, religion, group behavior, politics, and education on sport.

**HP 4375 Exercise Prescription in Health and Disease (3)**

Pre-requisite(s): HP 4450 This course will enable the student to apply the skills learned to writing exercise prescriptions for healthy and diseased populations

Emphasis will be given to developing exercise programs for individuals with chronic diseases and disabilities.

**HP 4384 Qualitative Analysis of Human Movement (3)**

Pre-requisite(s): A minimum grade of C in HP 2306 and upper level standing

Advanced instruction in qualitative analysis of human movement, with training in methods of perceiving and measuring errors of movement in a variety of environments (teaching, coaching, and clinical evaluation).

**HP 4393 Facilities and Equipment in HHPR (3)**

Cross-listed as RLS 4393

Pre-requisite(s): Upper level standing; HHPR (EP, HSS, PHSS, HKLS, PED, REC) and Public Health (PH) majors only

Structural standards, operation, maintenance, function, design, and planning of human performance and recreation resources, areas, and facilities; and the selection, purchasing, and care of equipment appropriate to these programs and services.

**HP 4396 Religion and Sport (3)**

Cross-listed as REL 4396

See REL 4396 for course information.

**HP 4398 Sports-Related Ethics (3)**

Cross-listed as REL 4398

Perspective of the Judeo-Christian tradition of the moral concerns related to sports in American society. Various dimensions of the organized sports phenomenon, including those at the youth, secondary school, intercollegiate, and professional level. This course will not be accepted for credit toward a major or minor in religion or toward the six hour religion requirement by the University.

**HP 4450 Exercise Testing and Interpretation I (4)**

Pre-requisite(s): Prerequisite(s): HP 1421, Credit or concurrent registration in HP 2420; Current First Aid and CPR Certification  
Lectures will address the principles of common physical assessments used in clinical and fitness settings, the selection of appropriate assessments, results interpretation and the application of assessment results for exercise prescription and chronic disease risk reduction. Laboratory experiences are designed to develop competencies in physical assessment and results interpretation.

**HP 4471 Exercise Testing and Interpretation II (4)**

Pre-requisite(s): Prerequisite(s): HP 4450, Current First Aid and CPR Certification

Lectures and laboratory experiences build on information covered in HP 4450. This course is designed to develop and refine core competencies in conducting common physical assessments and interpreting results for exercise prescription and chronic disease risk reduction. Laboratory experiences include student engagement in comprehensive health and fitness profiles.

**HP 4V79 Internship in Human Performance (3-6)**

Pre-requisite(s): Departmental consent required

The internship provides hands-on experience for the human performance major in the area of his or her concentration. The experience includes a special project determined jointly by the student and the agency intern supervisor.

## Human Sciences & Design (HSD)

**HSD 1104 New Student Seminar in Human Sciences and Design (1)**

History, interdependence and integrative nature of HSD program areas and their role in the study of health and human sciences. A New Student Experience (NSE) course examining techniques for academic success, finding purpose and connection with Baylor, and professional and career options.

**HSD 1231 Design and Creative Technologies (2)**

The study of art and design principles through the use of creative technologies including image creation and editing software, digital sketching and illustration, and project management systems, to develop communication and marketing materials.

**HSD 2100 Directed Study in Human Sciences and Design (1)**

Pre-requisite(s): Consent of instructor  
Individual study of selected areas of interest in human sciences and design.

**HSD 2200 Directed Study in Human Sciences and Design (2)**

Pre-requisite(s): Consent of instructor  
Individual study of selected areas of interest in human sciences and design.

**HSD 3100 Applied Undergraduate Research in Human Sciences and Design (1)**

Pre-requisite(s): Junior level standing  
In-depth undergraduate research. This class is intended for application-oriented, individualized professor-supervised undergraduate research applications.

**HSD 3320 Methods of Teaching Human Sciences and Design (3)**

Pre-requisite(s): Fifteen hours of human sciences and design, junior standing, and admission to the School of Education  
Teaching materials and methods, media, and the philosophy of vocational education.

**HSD 3321 Curriculum and Evaluation in Human Sciences and Design (3)**

Pre-requisite(s): Junior standing, eighteen hours of human sciences and design and admission to the School of Education  
Curriculum planning, teaching strategies, evaluation, and classroom management. Each student will spend two hours each week in an approved field experience.

**HSD 3375 Global Perspectives in Housing (3)**

Pre-requisite(s): Upper-level standing  
Research and exploration in housing differences around the world as a factor of cultural, political, environmental, economical and social influences.

**HSD 4322 Student Teaching in Human Sciences and Design (3)**

Pre-requisite(s): A minimum grade of C in HSD 3321; and senior standing; and completion of all human sciences and design and education courses  
Supervised observation of and participation in various phases of a high school vocational home economics program for a full school day for a half semester. Required for vocational home economics teaching certificate.

**HSD 4332 Occupational Human Sciences and Design (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
Study of the occupational human sciences and design programs in Texas. Each student will spend two hours each week in an approved field experience.

**HSD 4623 Student Teaching in Human Sciences and Design (6)**

Pre-requisite(s): A minimum grade of C in HSD 3321, senior standing; completion of all human sciences and design and education courses  
Continuation of HSD 4322. Required for vocational family and consumer sciences teaching certificate.

**HSD 4V93 Special Studies in Human Sciences and Design (1-3)**

Pre-requisite(s): Senior standing; or consent of instructor  
Current issues in human sciences and design will be examined through seminars, special topics, practicums and individual research experiences. May be repeated with different content for a maximum of six semester hours.

## Integrated Science (ISCI)

**ISCI 2410 Integrated Science: Physics, Earth & Space Science (4)**

Pre-requisite(s): Elementary Education Major or consent of instructor  
Prepares students to convey concepts in physics, earth, and space science. Contains integrated lab component.

**ISCI 2420 Integrated Science: Chemistry & Life Science (4)**

Pre-requisite(s): Elementary Education Major or consent of instructor  
Prepares students to convey concepts in chemistry and life science. Contains integrated lab component.

## Interior Design (ID)

**ID 1313 Interior Design Graphics I (3)**

Pre-requisite(s): Interior Design majors or consent of instructor  
Introduction to basic techniques of architectural drafting with an emphasis on industry standards, architectural symbols, lettering, and line weights. Graphics will focus on interior floor plans, elevations, sections, details, and axonometric drawings.

**ID 1332 Introduction to Interior Design (3)**

The elements and principles of design; their theories and applications related to the built environment, including programming, spatial relationships, materials and components, design styles, sustainability, and universal design; and an overview of the profession.

**ID 2090 Sophomore Portfolio (0)**

Pre-requisite(s): Sophomore standing in the program, ID 2315 2322  
Students in this course will successfully complete the Sophomore Portfolio Review which includes the following: Conceptual Problem - Creative Thinking and Writing, Conceptual Problem - Application/Elements/Principles and Presentation to External Reviewers. Students will not be allowed to register for upper-level studios unless they have completed this requirement.

**ID 2314 Interior Design Graphics II (3)**

Pre-requisite(s): A minimum grade of C in ID 1313  
Perspective drawing as it relates to interior design with an emphasis on one and two-point perspective techniques (both technical and free-hand). Advanced section and axonometric drawings.

**ID 2317 Space Planning (3)**

Pre-requisite(s): ID 1313  
Introduction to Interior Design space planning techniques, based on the principles and elements of design. The course will use modeling (both digital and physical) to increase the understanding of spatial relationships with an emphasis on ergonomics, anthropometrics and proxemics.

**ID 2318 ID Digital Presentation (3)**

Pre-requisite(s): ID 2314  
Introduction to digital presentation techniques and graphic software programs that aid with the development of digital presentation boards. Composition, color and print quality will be emphasized.

**ID 2320 Building Materials and Finishes for Interiors (3)**

Pre-requisite(s): A minimum grade of C in ID 2314, 2315 and credit with a minimum grade of C or concurrent enrollment in ADM 2310  
General analysis, selection, estimation, and application of materials and finishes in the design of components of the built environment including testing standards, specifications, color theory, textile applications, and cultural and global influences.

**ID 2322 Computer-Aided Drafting and Design I (3)**

Pre-requisite(s): A minimum grade of C in ID 1313  
Emphasis on a broad range of two-dimensional computer-aided drafting and design techniques for interiors as specified by industry standards, including computer graphics and various aspects of project management.

**ID 2325 Building Systems for Interiors (3)**

Pre-requisite(s): A minimum grade of C in ID 1313 and 1332; or consent of instructor  
Study of structures, building materials, construction techniques, mechanical and electrical systems, and their impact on the design of the built environment.

**ID 2350 Building Codes for Interiors (3)**

Pre-requisite(s): A minimum grade of C in ID 1313 and 1332; or consent of instructor  
Study of building and interior codes used in the design of the built environment, which includes model codes, standards, regulations, Life Safety, ADA, sustainability, electrical, and plumbing.

**ID 2375 History of Interiors 1 (3)**

Survey of influential architectural movements, interiors, furnishings, and the decorative arts related to major cultures from Antiquity through the early 19th century, with special emphasis on periods of design influenced by Classicism.

**ID 2395 History of Interiors II (3)**

Survey of architectural styles, movements, influences, interiors, furnishings, and the decorative arts from the mid-19th century to the present in Europe and America. Strong emphasis on 20th-century masters.

**ID 3198 Internship Seminar (1)**

Pre-requisite(s): A minimum grade of C in ID 3418 or concurrent enrollment  
Study and preparation for the internship experience. Application of professional skills related to various forms of written communication, interview techniques, and ethics. Portfolio design and development.

**ID 3317 Lighting for Interiors (3)**

Pre-requisite(s): A minimum grade of C in ID 2314  
Technical and psychological aspects of the illumination of interior environments that support human performance, environmental issues, aesthetic appeal, and the health, safety, and welfare of the user.

**ID 3322 Computer-Aided Drafting and Design II (3)**

Pre-requisite(s): A minimum grade of C in ID 2322  
Emphasis on three-dimensional computer-aided drawing techniques for interior design and presentation, using BIM (Building Information Modeling) software.

**ID 3418 Interior Design Studio I (4)**

Pre-requisite(s): A minimum grade of C in ADM 2310, ID 2320, 2322, and minimum grade of C or concurrent enrollment in ID 3317  
Successful completion of ID 2090. ID 2375 and 2395 recommended.  
Application of design components for residential environments. Development of the design process with emphasis on research and programming, human behavior, lifestyle concerns, environmental issues, special needs populations; and consideration of cultural, regional, and geographic influences. Includes material/finish specifications, budget application and team-based design solutions.

**ID 3426 Interior Design Studio II (4)**

Pre-requisite(s): A minimum grade of C in ID 3317, 3318 and credit with a minimum grade of C or concurrent enrollment in ID 3322  
Application of design components for small-scale commercial projects, with emphasis on research, programming, conceptual development, creative problem solving, building codes, life safety, environmental issues, and universal design. Includes estimation, specification, and applications of materials/finishes, lighting applications, and team-based design solutions.

**ID 4123 Interior Design Capstone Research (1)**

Pre-requisite(s): A minimum grade of "C" in ID 3426  
Introduction to methods and techniques of interior design research. Students develop a research framework which they will apply to the design of their capstone project the following semester. Various types of qualitative, quantitative, and historical methods of design research will be discussed.

**ID 4320 Business Practices and Procedures for Interior Design (3)**

Pre-requisite(s): A minimum grade of C in ID 4418 or concurrent enrollment  
Business practices and procedures, ethics, project coordination, licensure, and legal aspects related to the interior design profession.

**ID 4326 Sustainable Design (3)**

Pre-requisite(s): Junior or senior standing or consent of instructor  
Sustainable Design course provides an overview of sustainable practice, accreditation and certification standards, and other relevant programs like The Well Building Standard and GreenGuard. This course will prepare the student to take the USGBC Green Associate exam prior the end of the semester.

**ID 4398 Interior Design Internship (3)**

Pre-requisite(s): A minimum grade of C in ID 3198 and 3426  
ID 3322 recommended. Supervised internship in an approved design-related work environment. Minimum of 240 hours.

**ID 4418 Interior Design Studio III (4)**

Pre-requisite(s): A minimum grade of C in ID 3426 and credit with a minimum grade of C or concurrent enrollment in ID 3322  
Application of design components for large-scale commercial projects including open office systems, with increased emphasis on thorough research and programming, conceptual development, creative problem-solving, application of building codes, environmental issues, and universal design. Includes estimation, specification, and application of material/finishes, lighting applications, and team-based design solutions.

**ID 4433 Interior Design Studio IV (Capstone) (4)**

Pre-requisite(s): A minimum grade of C in ID 4418 and 4320  
A comprehensive capstone studio that will provide an advanced integrative application of the design process resulting in complex design solutions and complete project documentation. Final portfolio presentation required.

## International Business (INB)

**INB 3305 Global Business (3)**

Pre-requisite(s): Junior standing  
An introductory survey for all majors, exploring how companies and nations operate in the global economy. Topics include the cultural, legal, financial, logistical, and ethical challenges that companies encounter in the global market and the strategies designed to address those challenges. Current global developments and company practices are emphasized.

**INB 3332 Business in the Global Economy (3)**

Pre-requisite(s): A minimum grade of C in ECO 1380 or a minimum grade of C in ECO 2306 and ECO 2307; junior standing; only open to BBA students; BBA students must be admitted to the Business School in order to take this course  
An overview of the global economy, with an emphasis on how current developments affect international business. A brief history of foreign trade, basic international trade theory, instruments of trade policy and their economic effects, trade policies for developing nations, regional economic integration arrangements, balance of payments, and foreign exchange markets. A student may not earn credit in both ECO 3331 and INB 3332.

**INB 3333 Doing Business Across Cultures (3)**

Pre-requisite(s): Junior standing; only open to BBA students; BBA students must be admitted to the Business School in order to take this course  
A practical survey for all majors of how business practices vary across different cultures. Ways of doing business are compared and contrasted on a regional basis, including cultures in Europe, Asia, the Middle East, and Latin America. Case discussion is emphasized.

**INB 3350 International Entrepreneurship (3)**

Cross-listed as ENT 3350  
See ENT 3350 for course information.

**INB 4320 International Business Law (3)**

Cross-listed as BL 4320  
See BL 4320 for course information.

**INB 4325 International Marketing (3)**

Cross-listed as MKT 4325  
See MKT 4325 for course information.

**INB 4331 International Business Finance (3)**

Cross-listed as FIN 4331  
See FIN 4331 for course information.

**INB 4333 Foreign Exchange Markets (3)**

Cross-listed as ECO 4333  
See ECO 4333 for course information.

**INB 4334 Economic Development (3)**

Cross-listed as ECO 4334  
See ECO 4334 for course information.

**INB 4335 Asian Economic Development (3)**

Cross-listed as AST 4335, ECO 4335  
See ECO 4335 for course information.

**INB 4338 Economic Systems of the World (3)**

Cross-listed as AST 4338, ECO 4338  
See ECO 4338 for course information.

**INB 4340 Studies in the Caribbean Region (3)**

Pre-requisite(s): Sophomore standing or above; BBA students must be admitted to the Business School in order to take this course  
This course is conducted in the Dominican Republic as part of the Baylor in the Dominican Republic program, which allows undergraduate students to experience life in the Caribbean region first-hand. Students will study the social, cultural, historical, economic, and political issues that impact businesses in the Dominican Republic and the general environment in which they operate. Students will visit a variety of enterprises and consider the dynamics of participation in the economy and society of a Caribbean nation.

**INB 4345 Global Trade Compliance (3)**

Cross-listed as BL 4345  
See BL 4345 for course information.

**INB 4378 International Accounting (3)**

Cross-listed as ACC 4378  
See ACC 4378 for course information.

**INB 4398 Special Studies in International Business (3)**

Pre-requisite(s): Consent of instructor; not open to pre-business students  
Independent study under the direct supervision of an international business faculty member.

**INB 4V98 Special Studies in International Business (1-6)**

Pre-requisite(s): Consent of instructor and Chair of International Business; not open to pre-business students  
With the permission of the chair of International Business, this course may be taken for one to six hours of credit.

## Italian (ITA)

**ITA 1101 Italian Language Workshop (1)**

For music students, supplemental language training to accompany regular 1301 language sections.

**ITA 1102 Italian Language Workshop (1)**

For music students, supplemental language training to accompany regular 1302 language sections.

**ITA 1301 Elementary Italian (3)**

Introduction to Italian language and cultures; practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading). Progress from novice toward intermediate-level proficiency

**ITA 1302 Elementary Italian (3)**

Pre-requisite(s): ITA 1301 or two units of high school Italian  
Introduction to Italian language and cultures; practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading). Progress from novice toward intermediate-level proficiency

**ITA 2310 Intermediate Italian (3)**

Pre-requisite(s): ITA 1302 or three units of high school Italian  
Introduction to Italian language and cultures; practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading). Progress from novice toward intermediate-level proficiency.

**ITA 2320 Pathways in Italian Culture (3)**

Pre-requisite(s): ITA 2310 or four units of high school Italian  
An exploration of the numerous facets of Italian culture including art, history, geography, and influence while expanding upon the language skills developed in the preceding three semesters.

**ITA 3301 Advanced Italian Grammar (3)**

Pre-requisite(s): ITA 2320 or consent of instructor  
Review of problematic grammar and the study of advanced structures in complex communication.

**ITA 3302 Italian Conversation, Reading, and Composition (3)**

Pre-requisite(s): ITA 2320 or consent of instructor  
Development of communication skills through the study of Italian civilization, culture, and selected works of literature.

**ITA 3307 Italian Food Culture (3)**

Pre-requisite(s): ITA 2320 or consent of instructor  
Survey of the rich landscape of Italian gastronomy from the Roman Empire to present times.

**ITA 3308 Italian Pop Culture (3)**

Pre-requisite(s): ITA 2320  
Popular culture in Italy as represented in film, music, popular literature, and mass media.

**ITA 3310 Introduction to Italian Literature (3)**

Pre-requisite(s): ITA 2320 (or equivalent) or consent of instructor  
Introduction to Italian literature through the study of selected works.

**ITA 3320 Conversation and Composition in Tuscany (3)**

Pre-requisite(s): ITA 2320 or consent of Baylor in Tuscany director  
Further development of oral and written skills within the context of the Baylor in Tuscany program.

**ITA 3330 Italian Through Film (3)**

Pre-requisite(s): ITA 2320 (or equivalent) or consent of instructor  
Development of communication skills through viewing and discussing Italian movies.

**ITA 3337 Italian Civilization (3)**

Pre-requisite(s): ITA 2320 or consent of the instructor  
The social, cultural, historical, and intellectual aspects of Italian civilization from its origin to the present.

**ITA 3342 Giro d'Italia: Regions of Italy (3)**

Pre-requisite(s): ITA 2320 or consent of instructor  
The geographic, historical, cultural, and economic aspects of Italy's regions.

**ITA 3348 Florence and Its Cultural Treasures (3)**

Pre-requisite(s): ITA 2320 or consent of Baylor in Tuscany director  
The history and cultural heritage of Florence, from antiquity to the present, within the context of the Baylor in Tuscany program.

**ITA 3V70 Special Problems (1-3)**

Pre-requisite(s): ITA 2320 or consent of instructor  
Independent study in Italian language or literature. With content changed, this course may be repeated once for credit.

**ITA 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**ITA 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Japanese (JPN)

**JPN 1101 Japanese Language Workshop (1)**

For music students, supplemental language training to accompany regular 1301 language sections.

**JPN 1102 Japanese Language Workshop (1)**

For music students, supplemental language training to accompany regular 1302 language sections.

**JPN 1301 Introductory Japanese (3)**

Introduction to the Japanese language and culture; practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading). Designed to help students progress through novice proficiency levels

**JPN 1302 Elementary Japanese (3)**

Pre-requisite(s): JPN 1301 or two units of high school Japanese  
Introduction to the Japanese language and culture; practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading). Designed to help students progress from novice toward intermediate-level proficiency

**JPN 2310 Intermediate Japanese (3)**

Pre-requisite(s): JPN 1302 or three units of high school Japanese  
Practice in three communicative modes at intermediate-level proficiency: interpersonal, presentational (speaking, writing), and interpretive (listening, reading) to help students attain intermediate-level proficiency in Japanese.

**JPN 2320 Exploring Japan (3)**

Pre-requisite(s): JPN 2310 or four units of high school Japanese  
Practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading) to help students develop language skills in Japanese at the Intermediate Level. Explores aspects of Japanese culture and society.

**JPN 3301 Advanced Japanese I (3)**

Pre-requisite(s): JPN 2320 or consent of instructor  
Integration of intermediate-level Japanese reading, writing, listening, and speaking skills with content knowledge to prepare students for advanced-level Japanese courses

**JPN 3302 Japanese Culture through Reading (3)**

Pre-requisite(s): JPN 3301 or consent of instructor  
 Development of reading skills in Japanese through selected texts that focus on some aspect of Japanese culture, including food, literature, cultural identity, current events, and film and criticism. May be repeated once for a maximum of 6 hours credit when topic varies.

**JPN 3303 Japanese Conversation and Composition (3)**

Pre-requisite(s): JPN 2320  
 Further development of communication skills through conversation and composition.

**JPN 3304 Japanese Civilization (3)**

Pre-requisite(s): JPN 3301, 3302, or 3303  
 Japanese history and culture in the target language.

**JPN 3305 Japanese for the Professions (3)**

Pre-requisite(s): JPN 3301  
 Development of cultural competence and Japanese language proficiency in business and other professional workplace situations. Includes authentic and current materials to develop understanding of the business practices, corporations and various industries in Japan.

**JPN 3306 Japanese Cinema (3)**

Pre-requisite(s): JPN 3301  
 Critical analysis of Japanese films from 1950s to present. Designed to develop cultural competence and Japanese proficiency through discussions and presentations.

**JPN 3352 Japanese Theatre and Culture Japanese Theatre and Culture (3)**

Cross-listed as THEA 3352  
 See THEA 3352 for course information.

**JPN 3V70 Special Topics in Japanese (1-3)**

Pre-requisite(s): Consent of instructor  
 Special topics in Japanese language, literature, and culture. With content changed, may be repeated for a total of 6 hours.

**JPN 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
 Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**JPN 4V90 Special Topics in Japanese (1-3)**

Pre-requisite(s): JPN 3301, JPN 3302, JPN 3303, and JPN 3304; or consent of instructor  
 An independent study course in Japanese language and culture or literature on a topic selected by the student in consultation with the instructor. With content changed, this course may be repeated once for up to six semester hours of credit.

**JPN 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
 Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Journalism (JOU)

**JOU 1303 Introduction to Mass Communication (3)**

Cross-listed as FDM 1303  
 See FDM 1303 for course information.

**JOU 1V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
 Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**JOU 2301 Media Literacy in a Democratic Society (3)**

Designed to increase media knowledge and function and improve ability to discern reliability of sources.

**JOU 2303 Reporting and Writing for Media (3)**

Pre-requisite(s): Only open to JOU majors and minors  
 Professional writing skills used for a variety of media. Research and interviewing techniques for storytelling for multiple mediums. Evaluation of different media for content, bias, ethics, news values, diversity and objectivity.

**JOU 2V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
 Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**JOU 3310 Sportswriting (3)**

Pre-requisite(s): JOU 2303 or JOU 3372 and JOU 3325  
 Historical and multi-media perspective on sports reporting through lectures and reporting assignments covering intercollegiate athletic competition.

**JOU 3315 Broadcast Writing and Reporting (3)**

Cross-listed as CST 3315, FDM 3315  
 Pre-requisite(s): For Journalism majors, JOU 2303 and JOU 3325; for Film and Digital Media or Communication Specialist majors: FDM 3372  
 Not open to Pre-Film and Digital Media students. The theory and practice of broadcast news reporting including gathering, critically processing, and enterprising unique stories with compelling video and storytelling. Fee: \$60

**JOU 3320 Advertising Procedures (3)**

Cross-listed as MKT 3320  
 See MKT 3320 for course information.

**JOU 3321 Advertising Copywriting (3)**

Pre-requisite(s): JOU 3325 and upper-level standing  
 The process of developing effective advertising copy for the mass media, including concept generation, research, copy testing, advertising execution, media placement and assessment.

**JOU 3325 Editing (3)**

Pre-requisite(s): JOU 2303 or JOU 3372  
 Development of skills and resources used by editors in preparing content for publication in the print or digital world. Emphasis on editing and design using relevant programs. Also covers legal and ethical issues as well as diversity in the newsroom.

**JOU 3355 Media Photography I: Introduction (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
 Basic theory of visual communication. Instruction in basic camera and lighting skills and laboratory practice. Completion of photographic assignments for a range of media. Laboratory required.

**JOU 3356 Media Photography II: Photojournalism (3)**

Pre-requisite(s): JOU 3355 Continued development of photographic skills through individual photojournalism projects  
 Emphasis on the completion of location assignment work and documentary projects for publication. Laboratory required.

**JOU 3357 Advanced Photography (3)**

Pre-requisite(s): JOU 3355 and 3356  
 Further enhancement of technical skill and creative vision in media photography. Emphasis on professional practice including self-promotion and the completion of a portfolio.

**JOU 3358 Videography for Broadcast Journalism (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
Introduction to video journalism with emphasis on pre-production, camera handling, editing and videography for storytelling in broadcast journalism. Fee \$100

**JOU 3366 Public Relations for Non-Profit Organizations (3)**

Pre-requisite(s): JOU 3367 or consent of instructor  
Communication techniques, public relations, news writing and advertising procedures applied to needs of non-profit organizations or local churches. Includes laboratory work, research, and individual and team projects in social service or church public relations.

**JOU 3367 Principles of Advertising and Public Relations (3)**

Pre-requisite(s): JOU 2303 or JOU 3372 or consent of instructor  
Professional communication principles applied in contemporary public relations and advertising concepts. Theory, history, and practice of public relations and advertising, including evaluation of public opinion, and the planning, implementing, and evaluating of public relations and advertising programs. Designed for students with journalism background.

**JOU 3369 Media Design (3)**

Pre-requisite(s): JOU 3325 and sophomore standing  
Introduction to graphic design in a media setting. Students work with Adobe InDesign, Photoshop and Illustrator software.

**JOU 3370 Public Relations Agency (3)**

Pre-requisite(s): JOU 3367 and JOU 3369  
Application of public relations principles in an agency setting.

**JOU 3372 Writing for Media Markets (3)**

Cross-listed as FDM 3372  
Pre-requisite(s): Sophomore level standing or above  
Not open to Pre-Film and Digital Media majors. Specialized writing for media markets, including public relations releases, brochures, news reports, and speeches.

**JOU 3374 Public Relations Writing (3)**

Pre-requisite(s): JOU 2303 and 3325  
Use of audience and media analysis with the logic and language skills needed to construct messages in the public relations profession.

**JOU 3375 Advanced Reporting and Writing (3)**

Pre-requisite(s): JOU 2303  
Experience in news gathering and writing with emphasis on relationships with professional news sources. Lariat laboratory included.

**JOU 3376 History of American Journalism (3)**

Pre-requisite(s): Open to juniors and seniors throughout the university  
Development, impact, and importance of communication groups and of individual journalists and media in the United States.

**JOU 3385 Advanced Broadcast Reporting & Producing (3)**

Pre-requisite(s): JOU/FDM 3315  
Focuses on advanced skills for compelling broadcast stories with strong characters and storytelling skills. Uses news values to build newscast segments, link stories and supporting content, including graphics, data lists and maps.

**JOU 3386 Editorial and Column Writing (3)**

Pre-requisite(s): JOU 2303 and 3325  
Fundamentals of writing informative and persuasive editorials and in writing appealing newspaper columns.

**JOU 3387 International Communication (3)**

Pre-requisite(s): Open to juniors and seniors throughout the university  
International communication: its history, the flow of news and information, its role in international relations, a comparison of press systems, the role of new World Information Order, and communication in developed and developing nations.

**JOU 3389 Magazine and Feature Writing (3)**

Pre-requisite(s): JOU 2303 and 3325  
The nature and functions of magazine and feature article writing and editing, with emphasis on identifying article ideas and taking projects through the writing, editing and placement process.

**JOU 3391 News Internship (3)**

Pre-requisite(s): JOU 3375 and consent of instructor  
Open to journalism majors on approved internships with various media under faculty supervision. Record of work done and report of media supervisors required.

**JOU 3392 Photo Internship (3)**

Pre-requisite(s): JOU 3356 and consent of instructor  
Open to journalism majors on approved internships with various media under faculty supervision. Record of work done and report of media supervisors required.

**JOU 3393 Religious Communication Internship (3)**

Pre-requisite(s): JOU 3375 or 4368 and consent of instructor  
Open to journalism majors on approved internships with various media under faculty supervision. Record of work done and report of media supervisors required.

**JOU 3394 Advertising Internship (3)**

Pre-requisite(s): JOU 3321 and consent of instructor  
Open to journalism majors on approved internships in advertising.

**JOU 3395 Public Relations Internship (3)**

Pre-requisite(s): JOU 4368 and consent of instructor  
Open to journalism majors on approved internships in public relations.

**JOU 3397 Magazine Publishing (3)**

Pre-requisite(s): JOU 3325  
In-depth examination of magazine function, research, copy editing and layout, with practice in each. Strong emphasis on editorial decision-making and formulation of magazine editorial policy. Consumer, special interest, professional, trade, and company-sponsored magazines are studied.

**JOU 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**JOU 4305 Gender, Race & Media (3)**

Pre-requisite(s): Upper-level standing or consent of the instructor  
Theory, critical analysis techniques and personal experiences with race, gender and class. Examination of the link between media representations, institutional practices and how closely these images reflect more objective measures of reality.

**JOU 4310 Media Management (3)**

Pre-requisite(s): JOU 3375 or 4368, or consent of instructor  
The theory and methods of modern media management, including advertising sales and production, news-editorial organization and operations, and business and distribution functions.

**JOU 4315 Strategic Communications Research (3)**

Pre-requisite(s): JOU 3367 or 3320

Continued research and development of advertising materials, including strategic planning, budgeting and media allocation, testing and evaluation.

**JOU 4320 Advertising Management (3)**

Pre-requisite(s): JOU 4315

Structures and procedures for effectively managing advertising production and functions within media and agency environments.

**JOU 4325 Advanced Editing (3)**

Pre-requisite(s): JOU 3325 for journalism undergraduates

Continued development of editing skills through exploration of advanced techniques in newspaper layout and design. Individual project required. Use of Macintosh computer to design information graphics and news pages.

**JOU 4330 News Media and American Society (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Philosophical examination and evaluation of the interaction between society and news media in the United States.

**JOU 4340 Writing and Editing for On-Line Media (3)**

Pre-requisite(s): JOU 2303 and 3325

Technical skills, writing and editing for web-based mass communication. Students will learn the coding language, some image manipulation and writing hypertext information for web-based mass media and public relations and apply this learning in a project.

**JOU 4350 Mass Media and Popular Culture (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Examination and evaluation of the roles of the mass media in promoting popular culture, including how media practitioners are portrayed.

**JOU 4359 History of Photography (3)**

Pre-requisite(s): Upper-level standing

Photography since its appearance in 1839: people, ideas, and technologies that shaped the history of photography; the cultural and artistic environments in which photographs have been taken; and the major genres of photography, including portraiture, documentary, art-photography and photojournalism.

**JOU 4360 Documentary Explorations (3)**

Pre-requisite(s): Upper-level standing

The theory and, selectively, the practice of written, photographed and filmed documentary, oral history, and participant-observer anthropology. Students will undertake projects involving fieldwork.

**JOU 4365 Social Media for Strategic Communication and Journalism (3)**

Pre-requisite(s): Upper-level standing or consent of the instructor

Examination of social media in public relations, advertising, journalism, organizations, and personal branding. Development of social media plans for products, services, or organizations.

**JOU 4368 Advanced Public Relations (3)**

Pre-requisite(s): JOU 2303, 3325, and 3367; and upper-level standing

Researching, planning, implementation and evaluation of public relations campaigns and programs. Includes a public relations internship.

**JOU 4371 Public Relations Media Programming (3)**

Pre-requisite(s): JOU 3367 and 4368

Planning and production of programming for public relations events, meetings and campaigns. Students compose presentations that mix media to achieve stated public relations objectives.

**JOU 4380 Law and Ethics of Journalism (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Rights and privileges of the news media and their social and legal responsibilities under the principles of common law and the constitution. Includes an overview of the American judicial system and the role of the journalist in reporting civil and criminal matters.

**JOU 4385 Data Analytics & Visualization (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Common tools used for data analysis and visualization, best practices in data visualization design, social media data mining, and social media network analysis, applied to public relations and advertising.

**JOU 4390 Advertising and Public Relations Leadership (3)**

Pre-requisite(s): JOU 4371 or JOU 4315

Develop leadership capabilities in self-awareness, group dynamics, interpersonal relations, organizational dynamics, strategic decision-making and the foundations of leadership.

**JOU 4398 Public Affairs Reporting (3)**

Pre-requisite(s): JOU 2303

Problems in reporting local, state, and national governmental affairs, including obligations and responsibilities of the reporter and of the media. Actual practice under field conditions.

**JOU 4669 Documentary Summer Field School (6)**

Pre-requisite(s): Upper-level standing

Course centers on documentary fieldwork during a residency of up to three weeks. Methodologies may include oral history, participant observation, documentary photography and documentary radio.

**JOU 4V80 Radford Seminar (1-6)**

Pre-requisite(s): Upper-level standing

Advanced writing specialization in specific journalistic disciplines. May be repeated up to a total of six semester hours provided topic is different.

**JOU 4V95 Special Studies (1-3)**

Pre-requisite(s): JOU 2303 and upper-level standing

Individual study with faculty guidance of some vital area in the field of communication. May be repeated once with change in content.

**JOU 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Korean (KOR)

**KOR 1101 Korean Language Workshop (1)**

For music students, supplemental language training to accompany regular 1301 language sections.

**KOR 1102 Korean Language Workshop (1)**

For music students, supplemental language training to accompany regular 1302 language sections.

**KOR 1301 Elementary Korean (3)**

Introduction to the Korean language and culture; practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading). Designed to help students progress through novice proficiency levels

**KOR 1302 Elementary Korean (3)**

Pre-requisite(s): KOR 1301 or two units of high school Korean

Introduction to the Korean language and culture; practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading). Designed to help students progress from novice toward intermediate-level proficiency

**KOR 2310 Intermediate Korean (3)**

Pre-requisite(s): KOR 1302 or three years of high school Korean  
Designed to help students attain intermediate-level proficiency in Korean. Practice in three communicative modes at intermediate-level proficiency: interpersonal, presentational (speaking, writing), and interpretive (listening, reading).

**KOR 2320 Intermediate Korean II (3)**

Pre-requisite(s): KOR 2310 or four years of high school Korean  
This course will continue to help students develop spoken and communicative skills in Korean at the Intermediate Level. Practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading).

## Latin (LAT)

**LAT 1301 Elementary Latin I (3)**

The basic elements of classical Latin grammar and Roman culture, with readings emphasizing ethics, history, morality, philosophy, and mythology.

**LAT 1302 Elementary Latin II (3)**

Pre-requisite(s): LAT 1301 or departmental placement  
Continuation of LAT 1301.

**LAT 1401 Beginning Latin (4)**

Pre-requisite(s): Consent of the department  
Introduction to the Latin language including the same inflection, syntax and easy reading as LAT 1301. Teaching strategies differ from those of the traditional Latin class, including more contact hours and a variety of teaching techniques with emphasis on repetition of particular structures.

**LAT 1402 Beginning Latin (4)**

Pre-requisite(s): Consent of the department  
Introduction to the Latin language including the same inflection, syntax and easy reading as LAT 1302. Teaching strategies differ from those of the traditional Latin class, including more contact hours and a variety of teaching techniques with emphasis on repetition of particular structures.

**LAT 1V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**LAT 2105 Conversational Latin (1)**

Pre-requisite(s): LAT 1302 or equivalent  
Build fluency and understanding in Latin by learning to use Latin actively, in speech and in writing, enabling students to read and understand written Latin texts more quickly and easily.

**LAT 2310 Intermediate Latin Prose (3)**

Pre-requisite(s): LAT 1302 or departmental placement  
Selections from Latin prose authors, such as Cicero; review of inflection and syntax.

**LAT 2315 Intermediate Latin (3)**

Pre-requisite(s): LAT 1302 or three units of high school Latin  
Selections from Julius Caesar; review of inflection and syntax.

**LAT 2320 Intermediate Latin Poetry (3)**

Pre-requisite(s): LAT 1302 or departmental placement  
Selections from Latin poets, such as Virgil and Catullus; review of inflection and syntax.

**LAT 2401 Intermediate Latin (Prose) (4)**

Pre-requisite(s): LAT 1402 and consent of instructor  
Selections from representative Latin authors, including Caesar, Cicero, and Apuleius; review of inflection and syntax.

**LAT 2402 Intermediate Latin (Poetry) (4)**

Pre-requisite(s): LAT 1402 or 2401, and consent of instructor  
Selections from representative Latin authors including Vergil, Ovid, Catullus, Propertius, and Tibullus; review of inflection and syntax.

**LAT 2V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**LAT 3301 Lucretius (3)**

Pre-requisite(s): LAT 2310 and 2320 or consent of instructor  
Selections from the *De Rerum Natura*.

**LAT 3302 Livy (3)**

Pre-requisite(s): LAT 2310 and 2320 or equivalent  
Selections from the Roman historian Livy.

**LAT 3303 Tacitus (3)**

Pre-requisite(s): Two 3000 level courses in Latin or consent of instructor  
Selections from the Roman historian Tacitus.

**LAT 3304 Pliny and Martial (3)**

Pre-requisite(s): Two 3000 level courses in Latin or consent of instructor  
Selections from the Letters and the Epigrams.

**LAT 3305 Cicero, Philosophical Writings (3)**

Pre-requisite(s): LAT 2310 and 2320  
Selections from the philosophical writings of Cicero.

**LAT 3306 Sallust (3)**

Pre-requisite(s): LAT 2310 and 2320 or consent of instructor  
Detailed study of selections from the works of Sallust.

**LAT 3307 Julius Caesar: Reading the Ancient Sources (3)**

Pre-requisite(s): LAT 2310 and 2320 or consent of instructor  
Readings on the life and times of Gaius Julius Caesar.

**LAT 3308 Readings in Imperial Epic (3)**

Pre-requisite(s): LAT 2320 or consent of instructor  
Study of imperial epic poetry (selections from Lucan, Statius, Silius, Valerius Flaccus) and its significance for the development of Roman imperial ideology.

**LAT 3309 Ovid's Metamorphoses (3)**

Pre-requisite(s): LAT 2320 or consent of instructor  
Study of Ovid's epic poem, *Metamorphoses*.

**LAT 3311 Epistles and Epigraphy of Rome (3)**

Pre-requisite(s): LAT 2310 and 2320 or consent of instructor  
Latin inscriptions and selected letters of Cicero, Seneca, and Pliny.

**LAT 3312 Augustine (3)**

Pre-requisite(s): LAT 2310, 2320 or 2401  
Selected readings of St. Augustine.

**LAT 3350 Roman Drama: Senecan Tragedies (3)**

Pre-requisite(s): LAT 2320 or consent of instructor  
Study of Seneca's tragedies, the Euripidean influence, and their impact on world theatre.

**LAT 3351 Roman Comedy (3)**

Pre-requisite(s): LAT 2310 and 2320 or equivalent  
Selected plays of Plautus and Terence.

**LAT 3352 Roman Lyric and Elegy (3)**

Pre-requisite(s): LAT 2310 and 2320 or equivalent  
Selections from the poetry of Catullus, Propertius, Tibullus, and Ovid.

**LAT 3353 Roman Satire (3)**

Pre-requisite(s): LAT 2310 and 2320 or equivalent  
Selected satires of Horace and Juvenal.

**LAT 3354 Horace (3)**

Pre-requisite(s): LAT 2320 or consent of instructor  
 Selections from the poetry of Horace.

**LAT 3390 Medieval Latin Prose (3)**

Pre-requisite(s): LAT 1302 or three units of high school Latin or consent of instructor

Selections from representative prose authors, including Peter Abelard, Bede, Ekkehard of Aura, Petrarch, Erasmus, Thomas More; review of inflection and syntax.

**LAT 3395 Medieval Latin Poetry (3)**

Pre-requisite(s): LAT 2310 and 2320

Selections from representative poetic styles and poets; authors may include St. Columba, Fortunatus, Paulus Diaconus, Reinardus Vulpes, Walter Map, Hrotsvitha of Gandersheim, and Gulielmus Gnapheus; review of inflection and syntax.

**LAT 3396 Classical and Medieval Drama: Terence and Hrotsvitha of Gandersheim (3)**

Pre-requisite(s): LAT 2310 or higher

A Comparative Reading in Latin of selections of Terence's six comedies and Hrotsvitha's six medieval plays on Christian themes, inspired by Terence and transformed into a Christian context.

**LAT 3397 Medieval Latin Religious Drama (3)**

Pre-requisite(s): LAT 2310 or higher

A Reading in Latin of selections of mystery, morality, and miracle plays from the 10th to the 14th century on Old and New Testament topics.

**LAT 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**LAT 4308 Latin Language Seminar (3)**

Pre-requisite(s): LAT 2320 or consent of instructor

Latin grammar, morphology, syntax, and phonology, prose composition, and reading of theoretical texts and analysis of Latin words in passages from ancient authors.

**LAT 4309 Virgil (3)**

Pre-requisite(s): LAT 2310 and 2320

Translation from Latin into English of selections from the works of Virgil, especially the Eclogues, Georgics, and/or Aeneid.

**LAT 4310 Augustus: Reading the Ancient Sources (3)**

Pre-requisite(s): LAT 2310 and 2320; or consent of instructor

Readings in Latin on the life and times of the Roman emperor Augustus.

**LAT 4311 Latin Prose Composition (3)**

Pre-requisite(s): LAT 2320

Practice in analysis and composition of Latin prose to improve grammar and syntax and promote knowledge and appreciation of Latin prose style.

**LAT 4312 Statius in Medieval and Renaissance Latin Epic (3)**

Pre-requisite(s): LAT 2310; consent of instructor

The influence of Statius and his masterpiece, the Thebaid on Medieval Latin and vernacular epics.

**LAT 4V01 Readings from Latin Literature (1-3)**

Pre-requisite(s): Consent of instructor

Latin authors to be read are selected to meet the needs of the student. With content changed, this course may be repeated up to a total of nine semester hours.

**LAT 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Latin American Studies (LAS)

**LAS 1301 Latin American Nations and People (3)**

This course provides an interdisciplinary introduction to the cultural traditions and institutions of the Western Hemisphere, including Mexico, Central America, South America, and the Caribbean.

**LAS 2301 An Introduction to Latin American Studies (3)**

An interdisciplinary introduction to Latin American Studies.

**LAS 3390 Special Studies in Latin American Studies (3)****LAS 4350 Latin American Studies Seminar (3)**

An interdisciplinary seminar to focus on topics related to Mexico, Argentina, Brazil, Central America, and developing Latin American nations. This course can be taken more than once since its content is different every year.

**LAS 4351 The History of Gender in Latin America (3)**

Cross-listed as HIS 4350

See HIS 4350 for course information.

**LAS 4364 Traditional Music and Culture in Latin America (3)**

Cross-listed as MUS 4364

See MUS 4364 for course information.

**LAS 4390 Advanced Reading and Research in Latin American Studies (3)**

Advanced reading and research in Latin American studies. The content and methodology of this course should be approved by the Latin American Studies Committee.

## Leadership Development (LDS)

**LDS 1301 Introduction to Leadership (3)**

Provides insights into a student's present leadership strengths and developmental needs. Prepares students for leadership positions, focusing on topics such as a philosophy of leadership, the role of power and authority in leadership, and goal setting for leadership development.

**LDS 2301 Leadership and Vocation (3)**

Pre-requisite(s): LDS 1301

This course explores personal strengths, values and aspirations for influencing the world through a unique vocation or calling. Through this experience, students will become committed to their own personal growth as a human being, as well as to the personal growth of others in the class. In addition, applications of a variety of historical and contemporary perspectives on vocation and calling will be emphasized.

**LDS 3301 Organizational Leadership (3)**

This course is designed for student leaders with a desire to explore organizational theory and systems. The course will further develop a student's understanding of how these systems and theories influence culture, behaviors, and organizational effectiveness. Students will examine their own leadership styles and how that approach fits into the organization, its members, and mission.

**LDS 3302 Christian Leadership in Residential Communities (3)**

The purpose of this class is to explore how Christian Leadership can be used to develop residential communities. Specifically, we will explore how authentic Christian community is formed by leaders who employ techniques related to spiritual wellness, God-given strengths, relational approaches, inclusivity, and other aspects of community development. Using the Community Leader position at Baylor University as an experiential framework, this class will provide both philosophical and application opportunities to hone a student's ability to be a Christian leader of communities.

**LDS 3304 Peer Leadership for Health and Wellness (3)**

This course uses an experiential pedagogy to broaden students' development as leaders. Experiential learning provides a comprehensive approach to learning that integrates theory, practice, implementation, and reflection. Through your experience as peer leaders you will be challenged to examine your understanding of leadership, as well as reflect on your own leadership and that of others. In the Health and Wellness Leadership course specifically, students will gain a broad understanding of current health topics of college students and ways to properly address and respond to these topics in both a presentation and mentoring setting.

**LDS 3305 Peer Leadership for Community Engagement and Service (3)**

This course uses an experiential pedagogy to broaden students' development as leaders; a comprehensive approach to learning that integrates theory, practice, implementation and reflection. Through experience as a peer leader, students will examine their understandings of leadership, and reflect on their own and other's leadership development.

**LDS 3306 Peer Leadership for Student Experience (3)**

This course uses an experiential pedagogy to broaden students' development as leaders; a comprehensive approach to learning that integrates theory, practice, implementation and reflection. Through experience as a peer leader, students will examine their understandings of leadership, and reflect on their own and other's leadership development.

**LDS 3307 Leadership and Student Thriving (3)**

This course explores the topic of leadership by examining ideas about people at their best. Foundational to the course are principles from Positive Psychology about well-being, optimal functioning and thriving during the college years, as well as approaches to leadership that leverage individual strengths and passions. The class will focus on six themes: thriving in college and beyond, understanding yourself, leading yourself, understanding others, engaging in community, and living out leadership and calling.

**LDS 3308 Interfaith Leadership (3)**

This course will explore theoretical and practical issues related to leadership across and inclusive of different faiths. We will discuss various civic and spiritual practices related to leadership and religious identity. Students will consider their own sense of formation and worldview through reading, writing, class discussion, and co-curricular experiences in order to cultivate spiritual growth, civic capacity, and intercultural skills.

**LDS 3309 Mental Health Peer Leadership (3)**

This course uses experiential learning to educate Mental Health Peer Leaders on the pertinent topics of mental health and illness and to equip them to break down mental health stigma and empower their peers to also challenge negative beliefs or attitudes.

**LDS 3310 Talent and Development (3)**

Pre-requisite(s): LDS 2301 or CCS 2301

Talent, development, and success are fascinating topics, but few understand the theory and research behind what leads to excellence in any field. This course examines the science, theory, and research behind talent, development, success, critical thinking, and expertise. Students will learn what is known and unknown by scholars about these phenomena, as well as pathways for developing talent in themselves and others.

**LDS 3311 Leadership Through Informed Engagement (3)**

Pre-requisite(s): LDS 2301 or CCS 2301

This interdisciplinary course is designed to engage students in a critical conversation about leadership and community engagement. It challenges students to reflect on their understanding of leadership, community engagement, and the intersection of the two. Students will engage in this discussion drawing specifically on their experiences as a Baylor student. They will participate in critical discussions about what it means to participate in informed engagement.

**LDS 3312 Leadership for 21st Century America (3)**

Pre-requisite(s): LDS 2301 or CCS 2301

This course will address the changing demographics of our global community of the 21st century. The future of leadership will be complex in terms of practices that are impacted by a changing diversity of "world citizens" and it will demand an understanding of geographic, economic, cultural, political, religious, and linguistic mediums. This course will address these skills and areas of knowledge.

**LDS 3370 Aviation Leadership (3)**

See AVS 3370 for course information.

**LDS 3V01 Special Topics in Leadership (1-6)**

Pre-requisite(s): LDS 1301

Each Special Topics in Leadership course will focus on a specific area of leadership (e.g. Women in Leadership or Leadership in a Multicultural Society). May be repeated under different topic for a total of 9 credit hours.

**LDS 4398 Advanced Leadership (3)**

Pre-requisite(s): LDS 1301 or LDS 2301 or LDS 3V01

Leadership course focusing on advanced leadership theories and applying those theories in leadership practice.

## Library Science (LS)

**LS 3305 Children's Literature (3)**

An exploration of the development of a distinct literature for children. An analysis of books and illustrations for preschool through the elementary level. Reading, evaluation, and application of the various media for children.

**LS 4306 Curriculum Applications in Children's Literature (3)**

Research in the field of children's literature and its application to the elementary classroom, emphasizing activity approaches and curriculum planning.

**LS 4307 Multicultural Literature (3)**

Students will explore a framework for examining the impact and influence of cultural, linguistic, and ethnic diversity in literature. Instructional lessons and activities are developed with the goal of enhancing students' critical lens for increasing culturally relevant and affirming practices that are authentic, intentional, and engaging for learners.

**LS 4320 Young People's Literature (3)**

Reading and reacting to print and non-print media relevant to interests and problems of adolescents. Attention to interest and maturity levels, developmental values, curriculum uses, discrimination of literary tastes, and the dynamic significance of literature for young people.

## Lifetime Fitness (LF)

**LF 1104 Adaptive Lifetime Fitness (1)**

Pre-requisite(s): Departmental consent required

Lifetime fitness activity class for students needing accommodation due to injury or disability. Prior to registration, students must present a medical statement from their physician outlining both the nature of the disability and recommendations for a variety of exercises to be done in class. The individualized exercise program is a total-body program with appropriate accommodations. A physical therapy exercise protocol that does not require an attending physical therapist may be utilized in class sessions. Participation in physical therapy sessions in a clinical setting will not substitute for an activity class. There is no waiver of the LF requirement. Course may be repeated for credit if necessary due to ongoing medical condition. Course is graded pass-fail.

**LF 1106 Beginning Aerobics (1)**

Concepts of physical fitness and the development of movement routines are fundamental to this course. Material covered includes a basic understanding of fitness with various assignments relating to that knowledge. Purchase of a lab manual is required.

**LF 1107 Intermediate Aerobics (1)**

This course incorporates all of the aspects of the beginner course. In addition, it teaches complex dance/exercise routines to music and provides a vigorous and complete workout for the more advanced student. Purchase of a lab manual is required.

**LF 1109 Swimmercize Aerobics (1)**

This course provides an enjoyable alternative to exercising on land. A water exercise class is an extremely efficient means of achieving fitness (particularly muscle tone) while using the natural resistance of water to exercise your body to the music.

**LF 1110 Aerobic Walking (1)**

This course is designed to provide students with a fitness foundation through the means of walking. Students will be given a fitness assessment profile, develop an exercise program, and participate in a series of small group and individual walks of varying lengths conducted over various terrains. Walking techniques and fitness strategies will be stressed. Conditioning emphasis will be placed on stamina, strength, flexibility, body composition, and muscle endurance. Student's progress of fitness and walking skills will be monitored and assessed regularly to assure completion of their goals and objectives.

**LF 1111 Aerobic Running (1)**

Students must be capable of running a mile without stopping at the beginning of the course. This class provides runners the opportunity to train and increase aerobic running capacity. Workouts are designed to meet individual fitness levels and goals. Health-related fitness components, safety, injury prevention, and training programs will be taught. Students develop an ability to maintain a high degree of aerobic fitness through long-distance running.

**LF 1112 Backpacking and Camping (1)**

A course designed to teach the values of wilderness experiences and the knowledge and skill necessary for enjoyable and safe basic wilderness living. Topics receiving emphasis include: safety, fitness, ecology, clothing, equipment, food preparation, emergency care, navigation and survival.

**LF 1113 Advanced Wilderness Pursuits (1)**

Application of baseline knowledge of land based activities to more specialized/advanced pursuits like thru-hiking, winter and/or glacier travel, canyoneering, or long expedition-style backpacking experiences. Development of physical fitness and specialized skills, techniques, concepts, and terminology requisite in adventure pursuits. A multi-day wilderness experience is required.

**LF 1114 Beginning Badminton (1)**

A course designed to teach the fundamental skills in badminton including appropriate stroke mechanics, serving, strategy, game variations, equipment selection, and rules and regulations.

**LF 1115 Intermediate Badminton (1)**

This course allows students to refine the skills previously developed, to participate at a higher level of competition, including refereed games, to increase their knowledge of court strategy, and to improve physical conditioning through increased performance.

**LF 1117 Beginning Ballet (1)**

This is an introductory course to ballet. The course provides training in technique, body placement, movement theory and terminology. Progressive classical ballet barre center work and floor combinations enable students to train their bodies in the proper classical technique of basic ballet.

**LF 1118 Intermediate Ballet (1)**

This course reviews the material present in basic ballet. More advanced ballet moves are used in an effort to progress to more difficult ballet routines.

**LF 1119 Advanced Ballet (1)**

Pre-requisite(s): Departmental consent required

This course is designed for the student who has had advanced level experiences in school or private ballet academy or has successfully completed the intermediate ballet class. Skills include refining basic moves and extensive work on dance routines.

**LF 1121 Beginning Bicycling (1)**

An introductory course covering bicycling knowledge, skills, and safety. Class rides will be from eight to ten miles. Required equipment: bicycle (safe, dependable, functioning, ten or more speeds), approved helmet, and means of repairing flat tire (frame pump, tire tools, patch kit, and wrench to get hub nut off, if needed).

**LF 1122 Intermediate Bicycling (1)**

An advanced-level course covering bicycling knowledge, skills, and safety. Class rides will be ten to fourteen miles. Although LF 1121, Beginning Bicycling, is not a prerequisite, students are expected to have mastered basic bicycling skills before enrolling in this course. Required equipment: safe, dependable, efficient bicycle with ten or more speeds; approved helmet; tire pump (frame type); and basic tool kit.

**LF 1123 Beginning Mountain Biking (1)**

This course is designed to prepare students with the basic skills needed for a lifetime of enjoyable mountain bike riding. Students are provided with an overall view of mountain biking, rules of the trail and road, safety, riding technique, clothing, equipment, and basic bike maintenance. Emphasis will be placed on the development of skills necessary to safely climb, descend, and maneuver a mountain bike through technical areas on various terrains.

**LF 1124 Beginning Bowling (1)**

The instructional format for this course includes skill development in grip, stance, approach, and ball delivery. Ball selection, scoring, rules and regulations, and practice will also be important ingredients of this class.

**LF 1125 Intermediate Bowling (1)**

This course incorporates the concepts learned in the beginner class with increased analysis and corrective feedback of present bowling techniques. Additional performance time allows students to enhance their skills.

**LF 1128 Varsity Sports Conditioning I (1)**

Pre-requisite(s): Departmental consent required

This course is designated as an entry level course for varsity athletes participating in intercollegiate sports.

**LF 1129 Varsity Sports Conditioning II (1)**

Pre-requisite(s): Departmental approval required

This course is a continuation of Varsity Conditioning I and allows athletes the opportunity to demonstrate the skills and knowledge acquired in Varsity Conditioning I.

**LF 1130 Social Dance (1)**

Introduction to social dance for the purpose of developing a lifetime recreational activity, often linked to social and professional situations. Various styles of social dance, such as fox trot, waltz, swing, rock and roll, country western, cha-cha, and tango, will be covered.

**LF 1134 Fitness Theory and Practice (1)**

A comprehensive course designed for the student desiring an in-depth understanding of the concepts of physical fitness including strength development, muscular endurance, cardiovascular endurance, body composition, stress, mood modifiers, and nutrition. A variety of energetic, practical experiences are incorporated to enhance the lectures.

**LF 1138 Beginning Golf (1)**

This course offers the students the opportunity to develop skills appropriate to the enjoyment of this healthy, lifetime sport. Students learn the proper stance, grip, and swing techniques for all clubs, as well as rules, terminology, and equipment selection.

**LF 1139 Intermediate Golf (1)**

Pre-requisite(s): LF 1138 or departmental consent required

A course designed for students who already possess the basic skills and knowledge necessary to play golf. Topics at the intermediate level include rules, productive practice, mental aspects, course management, ball flight laws, and continued in-depth look at the short game and full swing. Video analysis is utilized to enhance student learning.

**LF 1140 Advanced Golf (1)**

Pre-requisite(s): Departmental consent required

This course is for those students who own a set of clubs and have a handicap of less than twenty.

**LF 1147 Beginning Jazz Dance (1)**

A dramatic, disciplined, and versatile style of theatrical dance. Students will gain a broader base for creative development, expression, and movement than ballet. The major concepts of jazz dance include principles of proper body alignment, strength, and flexibility development, and knowledge of movement theory.

**LF 1148 Intermediate Jazz Dance (1)**

The intermediate-level jazz class greatly strengthens and builds upon a student's dance technique, increases knowledge and application of body alignment, flexibility and muscle control. Intermediate level includes more complex progressions, dance combinations, choreography, dance routines, and teaching skills.

**LF 1151 Beginning Martial Arts (1)**

This is a course designed to improve beginning self-defense techniques. Skills include kicking, punching, blocking, and offensive and defensive maneuvers. Martial Arts improve strength flexibility, body control, and self-confidence.

**LF 1152 Intermediate Martial Arts (1)**

Pre-requisite(s): LF 1151 or departmental consent required

This course reviews material covered at the beginning level of Martial Arts. The practice of fluid movements, sweeps, throws, falling and rolling, joint-locks and beginning self-defense maneuvers are introduced. This course also develops kata applications and introduces free sparring.

**LF 1153 Advanced Martial Arts (4)**

Pre-requisite(s): LF 1152 or departmental consent required

Students must have successfully completed Intermediate Martial Arts or have special permission of the instructor to enter advanced class. The advanced class will focus on applying the techniques of self-defense, as well as introducing the strategy and tactics used in free sparring. New martial arts techniques appropriate for each skill level will also be taught.

**LF 1156 Beginning Racquetball (1)**

Equipment selection, safety procedures, serves, strokes, volley, court strategy, rules, and actual play are combined to give the basics needed for enjoyable and knowledgeable participation.

**LF 1157 Intermediate Racquetball (1)**

This course refines the basics and offers the more advanced student the opportunity for increased participation and analysis and corrective feedback. Advanced shots such as overhead, backwall, Z, and drills strategy.

**LF 1158 Paddle Sports (1)**

This course is designed to provide the student with the knowledge and skills needed to participate in and enjoy kayaking, canoeing and stand up paddle boarding (SUP) as lifetime fitness and recreational activities. Special emphasis will be given to the development of sound fundamental knowledge and skills such as paddling and steering techniques; rolling; fitting, care and use of equipment; personal safety and fitness skills; and reading moving water.

**LF 1159 Sailing and Canoeing (1)**

A highly enjoyable recreational activity that provides the basic skills of seamanship necessary to canoe or sail safely and efficiently. The course content includes nautical terminology, types of sailing vessels, proper sailing mechanics, weather conditions, and emergency first aid care. American Red Cross certification is available upon completion of the course.

**LF 1160 Beginning Rock Climbing (1)**

This course is intended to provide students with the fundamentals of rock climbing for lifelong leisure involvement. Course content will address personal fitness, knowledge of sport, equipment, climbing safety, and technique. The majority of this course will take place within the indoor rock wall environment but skills taught will be transferable to a top rope, outdoor environment.

**LF 1161 Intermediate Rock Climbing (1)**

Pre-requisite(s): LF 1160 or departmental consent required

This course is intended to provide students with intermediate rock climbing skills and practices including multi-pitch belaying and rappelling, anchor systems, partner and self-rescue, route finding, minimal impact climbing, climbing hazards, and safety, as well as an introduction to sport lead climbing (indoor lead climbing). The majority of this course will take place within the indoor rock wall environment. A class weekend field trip is required.

**LF 1162 Outdoor Adventure Sports (1)**

Introduction to a variety of outdoor adventure sports, e.g., mountain biking, cycling, canoeing, kayaking, caving, rock climbing, bouldering, hiking, ice climbing, snow-shoeing, and geocaching. Focus will be on two to four activities to develop the entry level skills and fundamental techniques necessary for lifelong engagement in those pursuits. The course may include an overnight culminating experience.

**LF 1163 Beginning Self Defense (1)**

Practical self-defense for people with no previous training in martial arts. The course will emphasize risk avoidance, risk recognition, and escape. The tactics and strategy of physical confrontation will be introduced - falling, throws, punching, blocking, and kicking.

**LF 1168 Soccer (1)**

A comprehensive course in the fundamentals of soccer including dribbling, passing, kicking, and tackling skills, offensive and defensive strategies, rules and regulations, and conditioning.

**LF 1169 Intermediate Self Defense (1)**

Pre-requisite(s): A minimum grade of C in LF 1151 or 1163

Intermediate self-defense strategy and tactics for students who have already been introduced to the basic techniques of karate and/or self-defense training.

**LF 1170 Advanced Self Defense (1)**

Pre-requisite(s): A minimum grade of C in LF 1152 or 1169

Advanced self-defense strategy and tactics for students who already have an intermediate level of skill in karate and/or self-defense training with an emphasis on self-defense in a professional setting (teacher, therapist, counselor, etc.).

**LF 1171 Softball (1)**

This course stresses the fundamentals of throwing, catching, fielding, batting, rules and regulations, equipment selection, drills, and actual play.

**LF 1175 Beginning Swimming (1)**

This course in basic water safety is designed to make adults reasonably safe while in or near the water. Topics include: physical and mental adjustment to water, breathing and breath holding, kick on front and back, buoyancy and body positioning, propulsion and coordinated stroking, entries to water, and personal safety.

**LF 1176 Intermediate Swimming (1)**

A course that develops correct stroke technique, introduction to breast stroke, side stroke, butterfly, turns, diving, basic and emergency water safety, and daily conditioning through lap swimming.

**LF 1177 Advanced Swimming (1)**

This course is designed for the swimmer possessing sufficient skills in aquatics to allow for an understanding of the hydrodynamic principles associated with six strokes. This course will enable the individual to increase physical conditioning by designing individualized programs incorporating distance and interval training techniques into daily swim routines. Emergency water safety is stressed.

**LF 1178 Lifeguard Training (1)**

Pre-requisite(s): Departmental consent required

An advanced aquatic course that prepares the individual to deal with life-threatening situations in various aquatic environments. Advanced swimming skills are required. Skill areas include assists, carries, defenses, releases, equipment rescues, facility safety, and many others. National Red Cross Lifeguarding certification is offered upon successful completion.

**LF 1179 Beginning Tai Chi (1)**

Beginning Tai Chi focuses on slow body movements used to improve balance, coordination, concentration, awareness and timing. Instruction follows a practical scientific approach yielding illustrations of applications for each of the movements in daily life. The classical Tai Chi form will be used as a model to facilitate the known benefits of exercise and stress reduction. Cardiovascular training, strength and flexibility training, balance and coordination are interval parts of Tai Chi training, as well as the meditative/stress management techniques that are a part of the form.

**LF 1181 Beginning Tennis (1)**

This course teaches the basics for tennis. Included are tennis terminology, rules and regulations, etiquette, equipment selection, serve, volley, ball control, forehand and backhand strokes. In-class practice of drills and individual play is provided.

**LF 1182 Intermediate Tennis (1)**

This class refines previously learned skills of ball control, serve, forehand and backhand strokes. Included in intermediate tennis is doubles play and class games and tournaments.

**LF 1183 Advanced Tennis (1)**

The advanced tennis player must possess a detailed knowledge and understanding of stroke mechanics and corrective drills, rules, equipment, and terminology. The advanced tennis class provides an opportunity for play with others of the same proficiency in the game. Refining strokes and physical conditioning are stressed.

**LF 1189 Volleyball (1)**

This exciting team sport incorporates knowledge of the rules and court strategy with skills such as setting, bumping, serving, and conditioning to make a well-rounded player.

**LF 1190 Multi-terrain Volleyball (1)**

Pre-requisite(s): LF 1189 or formal competitive play

For the student who has experience in volleyball through competitive play, Multi-terrain Volleyball offers analysis and development of techniques and game strategy for Wallyball, played in racquetball courts; Outdoor Volleyball, played on sand courts; and Indoor Volleyball. Emphasis is on refinement of skills of the game, conditioning, safety, court strategy, rules, and actual play for enjoyable and knowledgeable lifelong participation.

**LF 1192 Weight Control (1)**

A course designed to teach weight control through a combination of proper diet, nutritional advice, and exercise. Toning and conditioning your body is accomplished through weight training, circuit training and exercise routines performed to music.

**LF 1194 Beginning Weight Training (1)**

This course incorporates basic anatomic and physiological principles to specific lifts, exercises, muscles, and training techniques pertinent to the development of an individualized weight training program.

**LF 1195 Intermediate Weight Training (1)**

This course is designed for the advanced students and will review basic concepts covered in the beginning course. In addition, more advanced techniques and training principles will be incorporated into each student's individual exercise routine.

**LF 1197 Beginning Relaxation/Fitness (1)**

The beginning level provides a basic set of exercises which form the foundation of a regular daily routine. Relaxation techniques provide an effective approach to stress reduction. Emphasis is on improving postural alignment increasing strength, flexibility, endurance, improving concentration, and reducing stress.

**LF 1198 Intermediate Relaxation/Fitness (1)**

Pre-requisite(s): LF 1197 or departmental consent required

The intermediate level provides a comprehensive series of exercises designed to maintain the proper curvature of the spine, and to keep all systems of the body healthy. A wide range of intermediate exercises are presented for students to incorporate into their basic exercise routine. Therapeutic exercises are introduced for specific disabilities.

**LF 1199 Advanced Relaxation/Fitness (1)**

Pre-requisite(s): LF 1198 or departmental consent required

The advanced level is structured for the student who has developed strength, stamina and flexibility. Advanced exercises are introduced to maximize the potential for good health and vitality. Students learn to adapt the exercises to suit the various life cycles. Concentration on postural refinement is emphasized.

## Linguistics (LING)

**LING 1305 Language in Society (3)**

Core principles of language as a social act and its employment in the construction of social identity. Examines linguistic variation in relation to multilingualism and notions of gender, power, ethnicity, race, and social class.

**LING 1V99 Elementary Special Studies in Less-Commonly Studied Languages (2-4)**

Pre-requisite(s): For majors only

Consent of instructor. Study of a less-commonly studied language at the elementary level. May be repeated for a maximum total of sixteen hours with different content.

**LING 2V99 Intermediate Special Studies in Less-Commonly Studied Languages (2-4)**

Pre-requisite(s): For majors only

Consent of instructor. Study of a less-commonly studied language at the intermediate level. May be repeated for a maximum total of twelve hours with different content.

**LING 3310 Introduction to Linguistics (3)**

Cross-listed as ANT 3310, ENG 3310

See ENG 3310 for course information.

**LING 3311 English Words (3)**

Cross-listed as ENG 3301

See ENG 3301 for course information.

**LING 3312 Modern English Grammar (3)**

Cross-listed as ENG 3302

See ENG 3302 for course information.

**LING 3315 Sociolinguistics (3)**

Cross-listed as ENG 3305

Pre-requisite(s): Upper-level standing or consent of instructor

The study of language as it is used in its social context for marking an individual's group (e.g., race, gender, age, class, profession) membership.

**LING 3319 Language and Culture (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

The rich interaction between our language and cultural values in defining who we are and how we relate to one another. Understanding this complex interaction is seen as the key to effective cross-cultural communication.

**LING 3V99 Special Studies in Less-Commonly Studied Languages (2-3)**

Pre-requisite(s): For majors only

Consent of instructor. Study of a less-commonly studied language at the advanced level. May be repeated for a maximum total of six hours with different content.

**LING 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**LING 4302 Semantics and Pragmatics (3)**

Pre-requisite(s): LING 3310, ENG 3310, ANT 3310 or SPA 3309

Basic concepts, methods, and controversies in the study of word meanings, sentences, and discourse, including the interaction of language and context.

**LING 4303 Contemporary Syntax (3)**

Pre-requisite(s): ENG 3302 or LING 3312 or ENG/LING/ANT 3310 or SPA 3309

Principles of contemporary structural linguistics; concepts and operations of transformational syntax and case grammar as they are used to analyze the structure of language systems.

**LING 4305 Phonetics and Phonology (3)**

Pre-requisite(s): LING/ENG/ANT 3310 or SPA 3309

Principles and methods for studying sound systems of languages.

**LING 4311 Special Topics in Linguistics (3)**

Pre-requisite(s): Upper-level standing and consent of instructor

Topics in Linguistics not covered in the Language and Linguistics courses. Topic announced for each semester or session. Course can be repeated once with a change of topic and consent of the instructor.

**LING 4312 Old English Language (3)**

Cross-listed as ENG 4302

See ENG 4302 for course information.

**LING 4313 First Language Acquisition (3)**

Pre-requisite(s): LING 3310 or consent of instructor

Children's acquisition of sounds, lexicon, sentence structure, and contextual usage of their first language.

**LING 4314 History of the English Language (3)**

Cross-listed as ENG 4304

See ENG 4304 for course information.

**LING 4315 Psycholinguistics (3)**

Pre-requisite(s): LING/ENG/ANT 3310 or SPA 3309

Psychological processes involved in understanding, producing, and learning language; topics include speech perception, mental representations of language, the influence of language on thought, bilingualism, aphasia, and dyslexia.

**LING 4318 Second Language Acquisition (3)**

Pre-requisite(s): ENG 3302 or LING 3312 or LING 3310, ENG 3310, ANT 3310 or SPA 3309 or consent of instructor

Theories of language acquisition, taking into account such fields as linguistics, neuropsychology, psychology, sociology, and anthropology, as those disciplines illuminate the process of acquiring language. The course will also familiarize the student with problems and issues in the teaching of second languages.

**LING 4319 American English Dialects (3)**

Cross-listed as ENG 4319

Pre-requisite(s): LING 3310, ENG 3310, ANT 3310 or SPA 3309 or consent of instructor

Introduction to dialectology, focusing on the origins of American English dialects and their development through the spread of linguistic variation.

**LING 4V20 Independent Study in Linguistics (1-3)**

Pre-requisite(s): LING 3310, ENG 3310 or SPA 3309 and consent of instructor

Supervised individual research and study of a linguistic subfield or linguistics problem. Repeat once with change of topic for maximum of six hours.

**LING 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Management (MGT)

**MGT 3301 Managing People in Organizations (3)**

Pre-requisite(s): Junior standing

Cumulative GPA of 2.75 or higher. Not open to BBA students. This course is a cross-section of topics related to interacting with and managing people at work. It is designed to introduce non-business students to a survey of concepts related to people in the workplace. This course highlights fundamental concepts related to individual behavior, groups, and organizational processes.

**MGT 3305 Leadership & Organizational Behavior (3)**

Pre-requisite(s): Junior standing; Only open to BBA students

This course provides an introduction to the managerial and leadership processes through a study of the organization as a social system. Emphasis is placed on presenting practical skills that will facilitate the student's transition to the workplace. Topics examined include management and leadership philosophy, ethical decision making, employee motivation, work attitudes, teamwork and group dynamics, managerial communication, and organizational culture and change.

**MGT 3320 Distribution Management (3)**

Pre-requisite(s): MGT 3325 or concurrent enrollment; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

This course focuses on the distribution process from point of manufacturer to the point of use. Major topics include: evolution and trends in distribution, structure of durable and non-durable goods industries, types of distribution intermediaries, customers and market segmentation, function performed by distributors and their strategic allies, common financial terminology used in distribution, fundamental elements of distributor finance, alternative performance measures, application of technology to the distribution process, and the like.

**MGT 3325 Operations Management (3)**

Pre-requisite(s): A minimum grade of C in QBA 2302

Open only to BBA students. A survey of the most critical aspects of managing the operation of a business in order to efficiently produce and deliver goods and services to the customer. Topics include decision making, productivity management, inventory analysis, quality assurance, project management, supply chain management, enterprise resource planning, scheduling, and constraint management. This course emphasizes the latest management practices and utilizes computer simulations and other experiential exercises as learning tools. Students also participate in a hands-on project that requires them to apply the concepts learned in class to a real-world organization.

**MGT 3333 Procurement and Materials Management (3)**

Pre-requisite(s): MGT 3325 or concurrent enrollment; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

This course provides the student with the opportunity to analyze problems and issues encountered by managers as they consolidate buying power across the entire firm by aligning purchasing governance with corporate strategy, developing and communicating purchasing policies, streamlining tactical purchasing functions, and expanding the strategic responsibilities of purchasing. Mastery of the material presented in this course will enable the student to assist his or her firm in building, achieving, and sustaining purchasing organization.

**MGT 3335 Doing Business Across Cultures (3)**

Cross-listed as INB 3333

See INB 3333 for course information.

**MGT 3345 Introduction to Enterprise Systems Using SAP (3)**

Cross-listed as MIS 3345

Pre-requisite(s): A minimum grade of C in MGT 3325; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

This course utilizes SAP software to expose students to basic enterprise resource planning (ERP) concepts. Through this hands-on course, students will gain familiarity with the SAP interface and develop a better understanding of how ERP software integrates organizational data and key business processes to enhance organizational efficiency and decision-making, improve business intelligence, and enable cross-organizational linkages.

**MGT 4305 Principled Leadership (3)**

Pre-requisite(s): Junior standing; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

This class is designed to challenge students to consider the principles they use or will use to lead others and contribute to positive change. Participants will discuss principles and examine role models that live out virtues that serve as the basis for servant leadership and ethical behavior.

**MGT 4320 Negotiating and Conflict Resolution (3)**

Pre-requisite(s): Only open to BBA students

Enhances individual effectiveness in the workplace through the provision of an advanced understanding of negotiating through the development of specific negotiating skills. Discussions and skill-building exercises in the class are focused broadly and include informal and formal negotiations between multiple departments, and so on. Because effective negotiating is fundamental to an individual's survival and prosperity within an organization, knowledge of negotiating concepts and development of negotiation skills are critical.

**MGT 4321 Campus Leadership Practicum (3)**

Pre-requisite(s): MGT 3302 or 3305

This course uses a transformational learning process to prepare current campus leaders for worldwide leadership and service. Course participants will increase self-awareness, enhance practical leadership skills, apply leadership practices to their campus organization, reflect on results, and receive professional leadership coaching. By the end of the course, participants will have evidence of change, improved leadership results, increased confidence to lead, and a stronger leadership network.

**MGT 4330 Project Management (3)**

Cross-listed as MIS 4330

Pre-requisite(s): MGT 3325; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

This course covers concepts and issues important in effective project management including project planning, budgeting, scheduling, auditing, project termination, and the role of the project manager. Methodologies for monitoring and controlling projects, risk analysis, and resource allocation are also presented. The student will learn how to apply Microsoft Project software to real life projects and learn how to manage projects effectively in both single and multi-project environments. This course is also designed to help the student prepare for certification as a Project Management Professional (PMP).

**MGT 4336 Human Resource Management (3)**

Pre-requisite(s): MGT 3305; only open to BBA students; BBA students must be admitted to the Business School in order to take this course  
A study of the human resource management profession. Specific functions to be studied include recruitment, selection, training and development, compensation, discipline, and equal opportunity laws and cases. Emphasis throughout is on the human resource manager's role in organizational effectiveness.

**MGT 4337 Human Resource Staffing and Employee Relations (3)**

Pre-requisite(s): MGT 3305; only open to BBA students; BBA students must be admitted to the Business School in order to take this course  
This course provides an overview of HR staffing systems from the acquisition of human resources through managing employee relations, with the aim of improving organizational effectiveness. Through hands-on activities and classroom discussions, students learn how to obtain and retain the right people in business. Topics such as labor market trends, job analysis, recruitment, interviewing, psychological testing, HR selection decision making, retention management, and labor relations are discussed. Major labor relations laws, grievance procedures, and labor-management cooperation are also covered.

**MGT 4338 Compensation Management (3)**

Pre-requisite(s): MGT 3305; only open to BBA students; BBA students must be admitted to the Business School in order to take this course  
A study of the total reward system. Topics examined include job content and context factors, job evaluation, wage surveys, wage and salary administration, incentives and non-cash benefits, and performance appraisals. Emphasis is on developing and maintaining an adequate and equitable compensation system for all employees.

**MGT 4340 Technology Entrepreneurship (3)**

Cross-listed as ENT 4340

See ENT 4340 for course information.

**MGT 4345 Global Supply Chain Management (3)**

Pre-requisite(s): MGT 3320, 3325, and 3333; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

Focuses on the principles and techniques used by managers to plan, schedule, control and evaluate the supply chain management strategies of world-class organizations. Good supply chain management practices will lead to a competitive advantage, while poor practices will hurt firm performance. Methodologies for supply chain analysis are developed and applied to topics such as designing the supply chain network, planning demand and supply, planning and managing inventories, and coordination and technology in the supply chains. Special attention is given to understanding facilities, inventory, transportation, and information as key drivers of supply chain performance.

**MGT 4353 Social Entrepreneurship and Economic Development (3)**

Pre-requisite(s): Junior standing; not open to pre-business students  
Is capitalism good for the poor? This course examines the morality of capitalism, the role of institutions in perpetuating or eliminating absolute poverty, and the contextual challenges of entrepreneurship. Recognizing the socio-cultural, political, economic, and technological challenges of doing business in the third world, we use organizational theory to design for-profit ventures that use appropriate technologies to create sustainable solutions to social problems. Course projects are intended to produce organizations that will be partially owned and operated by the members of the communities that benefit from their goods and services.

**MGT 4355 Management Consulting (3)**

Pre-requisite(s): MGT 3325; only open to BBA students; BBA students must be admitted to the Business School in order to take this course  
This course is designed for individuals who are interested in business and management consulting. The course emphasizes the development of critical analysis skills that are useful in analyzing organizations and systems as well as resolving more personal problems and conflicts. Specific topics include cause/effect analysis, identifying root causes of problems, resolving critical conflicts, developing creative breakthrough solutions, and identifying and overcoming obstacles that prevent the implementation of solutions. Students apply the concepts learned in class to analyze actual organizations. Practicing management consultants are invited as guest speakers.

**MGT 4360 Managerial Field Experience (3)**

Pre-requisite(s): MGT 4336 and 4350; not open to pre-business students  
A practicum course that provides students with opportunities to apply concepts from previous management courses. Student teams work with managers to assist in routine management of a unit and/or to assist in solving specific managerial problems. Problems may be related to employee motivation, interdepartmental coordination, resistance to change, and so on.

**MGT 4395 Internship in Management (3)**

Pre-requisite(s): MGT 3305

The internship provides a framework for Management or Human Resource Management students to assess personal growth objectives, learn strengths and weaknesses in an organizational context, develop professional maturity, enhance their value proposition to employers, and evaluate and clarify career choices and directions. An application is required, and approved internships tend to be paid relevant to the student's MGT or HRM major.

**MGT 4396 Supply Chain Management Internship (3)**

Pre-requisite(s): MGT 3325

Supply Chain Management majors only. Not open to pre-business students. Internship in supply chain management; fulfilled in cooperation with a firm that provides the student opportunities to participate directly in activities such as distribution, purchasing and materials management, and supply chain management. An application is required, and approved internships tend to be paid and relevant to the student's SCM major.

**MGT 4398 Special Studies in Management (3)**

Pre-requisite(s): Consent of instructor and chair; not open to pre-business students

Independent study under the direct supervision of a management department faculty member.

## Management Info Systems (MIS)

**MIS 3150 Topics in Information Systems (1)**

Pre-requisite(s): A minimum grade of C in BUS 1305; or consent of instructor

A study of selected areas of information systems, including operating systems, personal and business application software, considerations in hardware and software, acquisition connectivity, multimedia, and other current issues. This course may be taken for a maximum of six semester hours if topic is different (or if each topic is different).

**MIS 3301 Introduction to Business Programming Logic (3)**

Pre-requisite(s): Credit or concurrent enrollment in MIS 3305, and a minimum grade of C in QBA 2302; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

Study of object-oriented programming that focuses on developing business applications using a programming language like Visual Basic.Net. Topics include programming basics, typical programming structures, data structures, and error analysis.

**MIS 3305 Management Information Systems (3)**

Pre-requisite(s): A minimum grade of C in QBA 2302

Open only to BBA students. Examines the use of information and communication technologies (ICT) in organizational settings and gives a balanced perspective of MIS from the standpoint of the non-technical manager. Topics include acquisition, management, use and control of information systems and their impact on individuals, organizations and society. Emphasis is on the business manager's role in developing and managing information systems and the uses of ICT to create competitive advantage.

**MIS 3320 Systems Analysis and Design (3)**

Pre-requisite(s): Credit or concurrent enrollment in MIS 3301 and 3305; a minimum grade of C in QBA 2302; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

A study of the Systems Development Life Cycle with focus on the planning, analysis, and design phases. Explores the various tools and techniques used by systems analysts for process and data modeling as well as user interface design.

**MIS 3332 Control and Audit of Information Systems (3)**

Cross-listed as ACC 3331

Pre-requisite(s): A minimum grade of C in ACC 2304

Emphasizes the control and audit of information systems. Topics include accounting systems, controls and transaction processing, and IT auditing. The course should help students develop an appreciation of and motivation for proper information processing practices and controls.

**MIS 3341 Developing Client Server Applications (3)**

Pre-requisite(s): Minimum grade of C or better in both MIS 3301 and 3320

The course utilizes high-level object-oriented development tools such as Visual Studio.NET to teach application development techniques for local client-server and web-based environments. Topics such as server-side scripting, web design, web page security, and database access will be undertaken to enable students to build robust business software applications.

**MIS 3345 Introduction to Enterprise Systems Using SAP (3)**

Cross-listed as MGT 3345

See MGT 3345 for course information.

**MIS 3350 Introduction to Data Management and CRM (3)**

Pre-requisite(s): Students should have taken BUS 1305 or have general proficiency in MS Office tools

Open to all business majors, this course is designed to provide students with hands-on data management skills that will facilitate the effective use of Customer Relationship Management (CRM) technology.

Key components of this course include information modeling and database creation, querying and analyzing organizational data, and the management and analysis of customer information using CRM technology.

**MIS 4319 Mobile Application Development (3)**

Pre-requisite(s): Upper-level standing; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

Study of applications development in a cross-platform mobile computing environment

**MIS 4320 Java Development (3)**

Pre-requisite(s): Grades of C or better in MIS 3301 and 3320; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

Introduction to client-side application development using the Java programming language. Topics include object-oriented design, essential language syntax, and developing user, file, and Internet interfaces for business systems to support e-commerce initiatives.

**MIS 4321 Business Systems Development (3)**

Pre-requisite(s): Grades of C or better in both MIS 3301 and 3320; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

Concentrates on business application development using traditional object-oriented development tools. Topics include essential language syntax, class modeling, and developing user, file, and database interfaces for business systems.

**MIS 4322 Advanced Python (3)**

Pre-requisite(s): MIS 3301; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

Study of advanced topics in the Python programming language. Focus is on data analytics and data science using large data sets in an advanced IDE environment. Code source control taught using Git and Github.

**MIS 4330 Project Management (3)**

Cross-listed as MGT 4330

See MGT 4330 for course information.

**MIS 4340 Foundations of Database System Development (3)**

Pre-requisite(s): Not open to pre-business students  
BBA students must be admitted to the Business School in order to take this course. Concentrates on implementing systems and databases including physical database systems, data access, and database applications. Topics include: design issues; SQL; database administration; database integrity; security; selection; and implementation.

**MIS 4342 Fundamentals of Information Security (3)**

Pre-requisite(s): Grades of C or better in both MIS 3301 and 3320; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

This course provides students with a common body of knowledge in key information security knowledge domains. Topics include access controls; networks and telecommunications basics; cryptography; malicious attacks, threats, and vulnerabilities; monitoring and analysis; risk, response, and recovery; and security operations and administration. The course prepares entry-level professionals in both technical and non-technical disciplines with the key skills and concepts needed to contribute to the information security posture of their organization.

**MIS 4343 Advanced Database Management (3)**

Pre-requisite(s): MIS 4340; not open to pre-business students  
This course covers advanced topics in database design and implementation, including the storage, access, and management of business information to facilitate decision-making. Topics may include application data access using PL/SQL, advanced topics in database systems such as XML and data warehouses, and database administration topics.

**MIS 4344 Business Intelligence (3)**

Pre-requisite(s): A minimum grade of C in QBA 3305; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

Business Intelligence (BI) is the discovery of patterns and relationships hidden in large volumes of data. This hands-on course is designed to provide practical analytic skills that may be applied in almost any workplace. The course explores the analytical techniques for making intelligent business decisions in data-rich organizations. A key component of the course is the use of BI software tools with techniques such as correlation analysis, data visualization, linear regression, classification, and clustering to address common problems in marketing, customer relationship management, risk management, finance, and operations.

**MIS 4346 Foundations of Data Warehousing (3)**

Pre-requisite(s): MIS 4340 or consent of instructor; only open to BBA students  
This course covers techniques used to implement data structures that are optimized for organizational decision-making. A hands-on approach is used to cover the following data warehousing (DW) topics: basic concepts and architectures, DW modeling and physical design, ETL processes, and real-world DW uses such as OLAP queries and reporting tools and ad-hoc analysis of OLAP data.

**MIS 4350 Cyber Security Technology Factors (3)**

Pre-requisite(s): MIS 4342 or its equivalent; only open to BBA students  
This course provides a roadmap of the paths available to organizations for deploying various security devices and tools. The course goes beyond the narrow technical view and offers a full context for the deployment of security technologies. Six key areas of network security will be covered, with each section covering a tool that will play a part in a company's overall information assurance program.

**MIS 4355 Decision Making Using Excel (3)**

Pre-requisite(s): MIS 3305 or consent of instructor  
A computer applications course providing the tools necessary for manipulating, sharing, and presenting data to support business decision making. Topical coverage includes data analysis, multiple applications linking, simulation modeling, and decision making under uncertainty.

**MIS 4360 Fund of Data Visualization (3)**

Pre-requisite(s): QBA 3305; only open to BBA students; BBA students must be admitted to the Business School in order to take this course  
Covers basic theories of cognition and data visualization, including understanding how data types influence the decision to use a particular representation, when to use various chart types, how to structure data visualizations, and visualization evaluation. Emphasis on ethical use of visualizations.

**MIS 4395 Internship in Information Systems (3)**

Systems

**MIS 4V98 Special Studies in Information Systems (1-6)**

Pre-requisite(s): Consent of instructor; not open to pre-business students

This course may be taken for one to six semester hours of credit.

## Marketing (MKT)

**MKT 3301 Marketing Concepts (3)**

Pre-requisite(s): Junior standing  
Cumulative GPA of 2.75 or higher. Not open to BBA students. This course is a foundational marketing course that features a decision-oriented overview of marketing in modern organizations. Students will be exposed to a broad introduction of marketing concepts, the role of marketing in society and in the firm, and the various factors that influence marketing decision making.

**MKT 3305 Principles of Marketing (3)**

Pre-requisite(s): Junior standing; Only open to BBA students  
Designed to present a picture of the development and present status of our marketing system, to analyze the marketing task, and to examine the major policies that underlie the various activities of marketing institutions.

**MKT 3310 Professional Selling and Communications (3)**

Pre-requisite(s): Only open to BBA students  
Not open to Pre-business majors. This course is organized around the ethical process of making informative and persuasive verbal presentations. Topics include presentation materials and formats, handling objections, reaching decisions, and servicing customers. The development of such skills is useful to any member of an organization who makes a presentation. Case study, videotaped role playing, professional speakers, and group interactions project the student into the real world of the business person and salesperson.

**MKT 3320 Advertising Procedures (3)**

Cross-listed as JOU 3320

Pre-requisite(s): MKT 3305

A survey of the entire field of advertising stressing knowledge of history, principles, objectives, and the psychological basis of advertising. Research techniques, media selection, campaigns, production methods, and space buying are treated in survey style.

**MKT 3325 Consumer Behavior (3)**

Co-requisite(s):

Pre-requisite(s): Only open to BBA students; BBA students must be admitted to the Business School in order to take this course

An interdisciplinary approach to the analysis and interpretation of consumer buying habits and motives and the resultant purchases of goods and services. The purchaser's psychological, economic, and sociocultural actions and reactions are stressed as they relate to a better understanding of consumption.

**MKT 3330 Marketing Research (3)**

Pre-requisite(s): MKT 3305 and a minimum grade of C in QBA 2302; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

Systematic gathering, recording, and analyzing of data about problems relating to the marketing of goods and services. Emphasis is placed on the process of conducting marketing research and the relevant issues at each stage in the process and the role that generated data plays in aiding management decision making. Designing research studies, constructing questionnaires, choosing samples, analyzing research results, preparing reports, and improving the student's overall problem solving skills are stressed.

**MKT 3340 Nonprofit Marketing (3)**

Pre-requisite(s): Only open to BBA students; BBA students must be admitted to the Business School in order to take this course

Applies marketing concepts to objectives of nonprofit organizations. Special attention is paid to fund raising, promotion, and strategic planning in the arts, education, and social issues.

**MKT 3341 Values Based Leadership in Sports (3)**

Pre-requisite(s): Minimum grade of C in MKT 3305; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

This course is designed to investigate the myriad of issues and ethical dilemmas facing the sports and fitness industry. Individuals will be challenged to examine personal values as they relate to sport and its application in our society.

**MKT 4199 Professional Selling Internship (1)**

Pre-requisite(s): MKT 3310 and consent of instructor; only open to BBA students

Internship in Professional Selling fulfilled in cooperation with a corporate partner in the area of sales; with the sponsoring company the student participates in formal sales training and education and directed activities in sales, promotion, and customer relationship management.

**MKT 4310 Sales Force Management/Leadership (3)**

Pre-requisite(s): MKT 3305 and MKT 3310; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

This course deals with an examination of the common problems confronting the sales manager. Topics include recruiting, selecting, motivating, leadership and supervision, performance evaluation and coaching. Emphasis is placed on the personal and ethical side of management throughout the course. Case study, videotaped role playing and professional speakers enhance the learning process.

**MKT 4311 Professional Selling and Communications II (3)**

Pre-requisite(s): MKT 3310; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

This class focuses on an in-depth study of advanced selling and sales management issues including developing and maintaining long-term customer relationships, alternative strategies, international sales strategies, national account management, supply chain management, financial analysis and sales force ethics. Case study, videotaped role playing and professional speakers are used throughout the course.

**MKT 4315 Retail Store Management (3)**

Pre-requisite(s): MKT 3305; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

Considers architecture of the store, layout, buying, pricing, display, sales promotion, stock control, and consumer services in general.

**MKT 4320 Marketing Channels (3)**

Pre-requisite(s): MKT 3305; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

This course focuses on the definitions, dimensions, and management of marketing channels representing the various companies involved in bringing products and services from their point of origin to consumption. Representing the company's routes to market, marketing channels are viewed as an interorganizational system involved in the task of making products and services available for consumption. The main emphasis of this course is on the initial design of such systems, and the on-going management of relationships between system participants. The course is organized around three key modules: understanding the nature of marketing channels, managing channel relationships, and examining major types of channel institutions.

**MKT 4321 Advertising Campaigns (3)**

Pre-requisite(s): MKT 3320; not open to pre-business students

A managerial approach to promotional campaign development with an emphasis on advertising strategy as a component of the total marketing mix. Students apply research techniques to target audience identification, media planning, and creative execution. A complete campaign will be designed for a specified client.

**MKT 4322 Multicultural Marketing in a Global World (3)**

Pre-requisite(s): MKT 3305; open only to BBA students; BBA students must be admitted to the Business School in order to take this course

This course will delve into today's marketing profession and its role in a global economy when it comes to reaching diverse consumer segments. Learning experience will combine business cases, theory, historical context, policy implications, and management issues centering on how businesses can effectively reach multicultural markets.

**MKT 4324 European Business Seminar (3)**

Pre-requisite(s): MKT 3305; BBA students must be admitted to the Business School in order to take this course

This seminar is conducted in Europe where students will participate in lecture/discussion sessions with executives of various multi-national and global corporations. Students will study the impact of the European Union and the European Common Currency (Euro) on world trade. Students will be exposed to marketing practices in several European countries and will gain insight into the cultural, social and political environments of each country visited.

**MKT 4325 International Marketing (3)**

Cross-listed as INB 4325

Pre-requisite(s): MKT 3305; only open to BBA students; BBA students must be admitted to the Business School in order to take this course  
A study of the international dimensions of American enterprise and the background of the international environment. Includes international trade concepts, cultural dynamics, business customs, multinational markets, development markets, and influence of political, legal, and geographic factors on international marketing.

**MKT 4330 Marketing Analysis and Decision Making (3)**

Pre-requisite(s): MKT 3305; either FIN 3309 or 3310; and nine hours of additional marketing courses; only open to BBA students  
Marketing Analysis is the capstone marketing course for marketing majors. The purpose of the course is to help the student develop his/her ability to use the knowledge and analytical skills gained in other marketing and business courses. Emphasis will be on analysis and decision making utilizing a variety of cases and business situations.

**MKT 4340 Strategic Brand Management (3)**

Pre-requisite(s): MKT 3325 and MKT 3330; only open to BBA students  
An advanced Marketing elective that addresses important branding decisions faced by an organization. The course provides the student with an increased understanding of the important issues in planning and evaluating branding strategies; the appropriate theories, models, and other tools to make better branding decisions; and a forum to apply these principles.

**MKT 4341 Professional Selling & Communications for Sports II (3)**

Pre-requisite(s): MKT 3310; only open to BBA students  
In-depth study of advanced selling and sales management issues pertaining to sports products and services. Includes developing/maintaining long-term customer relationships, account management, supply chain issues, financial analysis, and sales force ethics. Learning tools include case study, role playing, and interaction with executives in professional sports.

**MKT 4342 Sports Marketing Analytics (3)**

Pre-requisite(s): MKT 3325, MKT 3330 or consent of instructor of department chair  
Provides a framework for understanding and analyzing fan behavior to apply actionable customer insights to the marketing, promoting, and selling of sports tickets, partnerships, merchandise, and media. Students learn to use analytical tools to report, explain and predict fan behavior.

**MKT 4350 Digital Marketing (3)**

Pre-requisite(s): MKT 3330; only open to BBA students  
This course is designed to provide a well-rounded overview of digital marketing strategies. A major focus of the course will be in the practical application of tactics in support of basic business strategies as they apply to the online world of marketing, including search engine optimization, social media sites, content development, email and emerging technologies, among other digital based topics. Particular focus will be given to creation of content, management of campaigns, engagement with consumers, and measurements of success for digital marketers.

**MKT 4360 Customer Analytics (3)**

Pre-requisite(s): MKT 3330 or QBA 3305; only open to BBA students; BBA students must be admitted to the Business School in order to take this course

This course will enable students to: apply basic skills in data manipulation and visualization using various software packages, analyze customer data with the help of different statistical tools and techniques and use the findings from data analyses to make managerially relevant marketing decisions anchored in Customer Analytics.

**MKT 4395 Marketing Internship (3)**

Pre-requisite(s): Upper level standing; not open to pre-business students  
Marketing majors only. Internship in Marketing fulfilled in cooperation with an approved organization. With the sponsoring organization the student participates in formal training and education and directed activities in marketing, promotion, and customer relationship management.

**MKT 4396 Sports Marketing Internship I (3)**

Pre-requisite(s): Must be a major in Sports Sponsorship and Sales or consent of department chair  
Internship in sports marketing field; typically fulfilled in cooperation with the University's Athletic Department; student participates in directed activities pertinent to personal selling, promotion, direct response advertising, and customer relationship management.

**MKT 4397 Sports Marketing Internship II (3)**

Pre-requisite(s): Must be a major in sports sponsorship and sales or consent of department chair  
Internship in sports marketing field; fulfilled in cooperation with either a professional sports team or corporate sports sponsor; student participates in directed activities pertinent to personal selling, promotion, direct response advertising, and customer relationship management.

**MKT 4398 Directed Studies in Marketing (3)**

Pre-requisite(s): Consent of marketing adviser and department chair; marketing majors only; not open to pre-business students  
Independent study under the direct supervision of a marketing department faculty member. Applications must be submitted and approved prior to registration.

**MKT 4V98 Special Studies in Marketing (1-4)**

Pre-requisite(s): Consent of instructor; Only open to BBA students  
Independent study of Marketing to include conducting a literature review, focus groups, in-depth interviews, web-surveys, and developing a training program.

## Mathematics (MTH)

**MTH 1220 Algebra Review (2)**

Algebra review for students who need to take MTH 1320 (pre-calculus) but are not ready for MTH 1320. Topics include solving equations and inequalities, polynomials, rational functions, exponential functions, and logarithms. Begins 5 weeks into the semester. Does not apply on major. Does not satisfy the mathematics requirement for any degree.

**MTH 1301 Ideas in Mathematics (3)**

Significant ideas of mathematics. Topics will be chosen from: voting theory, apportionment, financial analysis, linear and exponential growth, statistics and opinion polls. Designed primarily for liberal arts students. Does not apply toward the major.

**MTH 1308 Precalculus for Business Students (3)**

A study of the types of function that arise in business calculus, including linear, quadratic, and other polynomial functions, rational functions, and exponential and logarithmic functions. Does not apply on the Arts and Sciences mathematics requirement nor on a mathematics major. Credit may not be received after receiving credit in MTH 1320.

**MTH 1309 Calculus for Business Students (3)**

Prerequisite(s): A grade of C or better in MTH 1320 or MTH 1308 or a satisfactory performance on the SAT or RSAT or the ACT or the ALEKS. Differentiation of rational, exponential, and logarithmic functions of one and several variables, integration of functions of one variable, and applications to business problems. Does not apply on the major. Credit may not be received after receiving credit in MTH 1321.

**MTH 1315 Patterns, Relationships, and Number Concepts (3)**

Pre-requisite(s): School of Education Curriculum and Instruction majors only

Advanced perspectives on topics taught in grades EC-8 including number concepts, patterns, and functions. Does not satisfy the liberal arts mathematics requirement and does not apply toward the mathematics major.

**MTH 1316 Geometry and Measurement (3)**

Pre-requisite(s): A grade of C or above in MTH 1315

A continuation of MTH 1315. Topics in MTH 1316 will be geometric figures, motions of geometry, and measurement. Does not apply toward the mathematics major.

**MTH 1320 Precalculus Mathematics (3)**

Pre-requisite(s): Either a score of 61 or better on the ALEKS; or a satisfactory score on either the RSAT Math, SAT Math, or ACT Math Basic concepts of college algebra, trigonometry, and elementary functions and an introduction to limits. Satisfactory performance on a department examination. Designed as preparation for MTH 1321; does not apply on the major.

**MTH 1321 Calculus I (3)**

Pre-requisite(s): Either MTH 1320 with a grade of B- or better; or a score of 80 or better on the ALEKS; or a satisfactory score on either the RSAT Math, SAT Math, or ACT Math  
Differential calculus of a single variable. Introduction to the definite integral and the Fundamental Theorem of Calculus.

**MTH 1322 Calculus II (3)**

Pre-requisite(s): A grade of C or above in MTH 1321  
Integral calculus of a single variable, differential equations, slope fields, and power series.

**MTH 2311 Linear Algebra (3)**

Pre-requisite(s): A grade of C or above in MTH 1322  
Vectors, matrix operations, linear transformations, fundamental properties of vector spaces, systems of linear equations, eigenvalues, and eigenvectors.

**MTH 2316 Algebra and Functions (3)**

Pre-requisite(s): A grade of C or above in MTH 1316 or concurrent enrollment  
Designed for the prospective teacher seeking mathematics certification for grades 4-8. A study of the algebraic and transcendental functions which play a primary role in calculus. An emphasis will be placed on mathematical models which arise from lab-based activities, on connections to areas within and outside of mathematics, and on developing the ability to communicate mathematical ideas to individuals at various levels. Does not apply toward the mathematics major.

**MTH 2317 Functions and the Mathematics of Change (3)**

Pre-requisite(s): A grade of C or above in MTH 2316  
Designed for the prospective teacher seeking mathematics certification for grades 4-8. A continuation of MTH 2316. An investigation of the derivative and integral from an algebraic, geometric, and numerical perspective. Credit may not be received after completion of MTH 1321. Does not apply toward the mathematics major.

**MTH 2321 Calculus III (3)**

Pre-requisite(s): A grade of C or above in MTH 1322  
Differential and integral calculus of several variables, Green's Theorem.

**MTH 2V90 Introduction to Research in Mathematics (1-3)**

Pre-requisite(s): Consent of Instructor  
Beginning independent study or research in topics not available in other courses. May be repeated for a maximum of 3 hours.

**MTH 3300 Foundations of Mathematics (3)**

Pre-requisite(s): A grade of C or above in MTH 1321  
Core concepts of advanced mathematics: proofs, induction, sets, functions, equivalence relations, divisibility, modular arithmetic, real numbers, sequences and limits.

**MTH 3312 Foundations of Combinatorics and Algebra (3)**

Pre-requisite(s): A grade of C or above in MTH 3300 or departmental consent required  
Elementary counting principles, fundamental properties of the integers, the ring of integers modulo  $n$ , rings of polynomials, and an introduction to groups, rings and fields.

**MTH 3318 Data and Chance (3)**

Pre-requisite(s): A grade of C or above in MTH 1316  
Designed for the prospective teacher seeking an EC-4 mathematics certification. Core ideas from probability and statistics, including collection of data, patterns in data, and inference from data, in an active lab-like environment. Credit may not be received after completion of MTH 2381 or MTH 3381. Does not apply toward the mathematics major.

**MTH 3323 Introduction to Analysis (3)**

Pre-requisite(s): A grade of C or above in MTH 2321 and MTH 3300  
A rigorous treatment of the real number system, sequences of real numbers, limits, continuous functions, and elements of differentiation and integration.

**MTH 3324 Numerical Methods (3)**

Cross-listed as CSI 3324  
See CSI 3324 for course information.

**MTH 3325 Ordinary Differential Equations (3)**

Pre-requisite(s): A grade of C or above in MTH 2321 or concurrent enrollment  
Differential equations of first order, linear equations of order two and higher, introduction to power series methods, elements of the Laplace Transform, some facts from linear algebra and systems of differential equations.

**MTH 3326 Partial Differential Equations (3)**

Pre-requisite(s): A grade of C or above in MTH 2321 and 3325  
Partial differential equations of physics, the method of separation of variables, orthogonal sets of functions, Fourier Series, boundary value problems, Fourier integrals and applications.

**MTH 3327 Partial Differential Equations for the Social Sciences (3)**

Pre-requisite(s): C or better in MTH 3325 and C or better in MTH 2321  
Introduction of partial differential equations that model social behavior, from crowd dynamics to optimal control  
Topics include linear and nonlinear transport equations, Hamilton-Jacobi equations, and diffusions, with some applications to game theory.

**MTH 3340 Mathematics through Technology (3)**

Pre-requisite(s): Credit for twelve hours of mathematics courses, at least three hours of which are at the 2000 level or above

(This prerequisite cannot be satisfied using any hours transferred in under the generic titles MTH 1000 or MTH 2000.) Designed for the prospective mathematics teacher seeking certification for grades 4-8 or 8-12. Use of technology to explore, communicate, and reinforce mathematical concepts and problem solving from several areas of mathematics. Attention given to graphing calculators, interactive geometry computer packages, computer-based algebra packages, and spreadsheets or statistical packages. Written and oral presentations. Does not apply toward the mathematics major.

**MTH 3345 Intermediate Logic (3)**

Cross-listed as PHI 4345

See PHI 4345 for course information.

**MTH 3350 Structure of Modern Geometry (3)**

Pre-requisite(s): A grade of C or above in MTH 2311 or 2317

A study of the foundations of Euclidean geometry by synthetic methods with a brief introduction to non-Euclidean geometry.

**MTH 3351 Proof and Reasoning in Mathematics for Middle School Math Teachers (3)**

Pre-requisite(s): A grade of C or better in both MTH 2317 and 3318, or concurrent enrollment

Concepts taken from probability and statistics, algebra and number concepts, and Euclidean and non-Euclidean geometry, with a focus on the role and history of proof and reasoning as the cornerstone in arriving at mathematical conclusions. Does not apply toward the mathematics major or as a secondary mathematics elective.

**MTH 3370 Mathematical Methods of Operations Research (3)**

Pre-requisite(s): A grade of C or above in MTH 2311

A survey of models and methods used in operations research. Topics include linear programming, dynamic programming, and game theory, with emphasis on the construction of mathematical models for problems arising in a variety of applied areas and an introduction to basic solution techniques.

**MTH 3374 Introduction to Mathematical Modeling (3)**

Pre-requisite(s): A grade of C or above in MTH 1322 or in both MTH 2317 and 3318

An introduction to the process of mathematical modeling, including problem identification, model construction, model selection, simulation, and model verification. Individual and team projects.

**MTH 3V90 Advanced Undergraduate Research in Mathematics (1-3)**

Pre-requisite(s): Consent of Instructor

Advanced independent study or research in topics not available in other courses. May be repeated for a maximum of 3 hours.

**MTH 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**MTH 4312 Cryptology (3)**

Pre-requisite(s): A grade of C or above MTH 3300 or CSI 2350; or consent of instructor

Introduction to cryptology, the study of select codes and ciphers. Included is a historical context, a survey of modern crypto systems, and an exposition of the role of mathematical topics such as number theory and elliptic curves in the subject. Mathematical software will be available.

**MTH 4313 Number Theory (3)**

Pre-requisite(s): A grade of C or above in MTH 3300 or consent of instructor

Algebraic number theory including linear Diophantine equations, distribution of primes, congruence, number theoretic functions, Euler's and Wilson's theorems, Pythagorean triples, Mersenne and Fermat primes, Fibonacci numbers, and sums of squares. Continued fractions, quadratic reciprocity, Mobius inversion, Bertrand's postulate, prime number theorem, and zeta function may also be included.

**MTH 4314 Abstract Algebra (3)**

Pre-requisite(s): A grade of C or above in MTH 2311 and MTH 3312; or consent of instructor

Fundamentals of group, ring, and field theory. Topics include permutation groups, group and ring homomorphisms, direct products of groups and rings, quotient objects, integral domains, field of quotients, polynomial rings, unique factorization domains, extension fields, and finite fields.

**MTH 4316 Linear Algebra and Matrix Theory (3)**

Pre-requisite(s): A grade of C or above in MTH 2311 and MTH 3300

Matrix calculus, eigenvalues and eigenvectors, canonical forms, orthogonal and unitary transformation, and quadratic forms. Applications of these concepts.

**MTH 4322 Numerical Analysis (3)**

Cross-listed as CSI 4322

Pre-requisite(s): A grade of C or above in MTH 2321

Numerical evaluation of derivatives and integrals, solution of algebraic and differential equations, and approximation theory.

**MTH 4324 Systems of Ordinary Differential Equations (3)**

Pre-requisite(s): MTH 3325 and MTH 2311

A continuation of MTH 3325 with emphasis on systems of ordinary differential equations. Topics include matrix and first order linear systems of differential equations, eigenvalues and eigenvectors, two-dimensional autonomous systems, critical point analysis, phase plane analysis, Liapunov, stability theory, limit cycles and Poincare-Bendixson theorem, periodic solutions, perturbation methods, and some fixed point theory.

**MTH 4326 Advanced Calculus I (3)**

Pre-requisite(s): A grade of C or above in MTH 2321 and MTH 3323 or consent of instructor

The real and complex number systems, basic topology, numerical sequences and series, continuity, differentiation, integration, sequences and series of functions.

**MTH 4327 Advanced Calculus II (3)**

Pre-requisite(s): A grade of C or above in MTH 4326

Line and surface integrals, Green, Gauss, Stokes theorems with applications, Fourier series and integrals, functions defined by integrals, introduction to complex functions.

**MTH 4328 Numerical Linear Algebra (3)**

Cross-listed as CSI 4328

Pre-requisite(s): A grade of C or above in MTH 2311

Numerical methods for solution of linear equations, eigenvalue problems, and least squares problems, including sparse matrix techniques with applications to partial equations.

**MTH 4329 Theory of Functions of a Complex Variable (3)**

Pre-requisite(s): A grade of C or above in MTH 2321

Number systems: the complex plane; fractions, powers, and roots; analytic functions; elementary functions; complex integration; power series; mapping by elementary functions; calculus of residues.

**MTH 4343 Topics in Mathematics for Prospective Teachers (3)**

Pre-requisite(s): A grade of C or above in MTH 3312, 3323, or 3350  
Prospective middle and secondary school mathematics teachers engage in an in-depth analysis of mathematical topics encountered in the middle and secondary curriculum. Does not apply toward the mathematics major.

**MTH 4375 Linear Programming (3)**

Pre-requisite(s): A grade of C or above in MTH 2311 and 3370  
An introduction to the theory and applications of linear programming, including the simplex algorithm, duality, sensitivity analysis, parametric linear programming, and integer programming, with applications to transportation, allocation problems, and game theory.

**MTH 4V90 Topics in Mathematics (1-3)**

Pre-requisite(s): Consent of instructor  
Topics in contemporary mathematics not covered in other courses. May be repeated once for credit if content is different.

**MTH 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Mechanical Engineering (ME)

**ME 2320 Statics (3)**

Pre-requisite(s): A grade of C or better in MTH 1321; a grade of B or better in EGR 1302; a grade of C or better or concurrent enrollment in PHY 1420  
Study of forces, moments, free-body diagrams, friction, equilibrium, first and second moments of lines, centers of pressure, mass and gravity, and moments of inertia.

**ME 2321 Dynamics (3)**

Pre-requisite(s): A grade of C or better in ME 2320, PHY 1420 and MTH 1322  
Kinematics and kinetics of particles and rigid bodies including Newton's Second Law, work-energy methods, impulse-momentum, and central and oblique impact.

**ME 2345 Thermodynamics (3)**

Pre-requisite(s): A grade of C or better in MTH 1322; a grade of B or better in EGR 1302  
Thermodynamic properties, heat and work, first and second laws, processes, ideal and non-ideal cycles.

**ME 3122 Materials and Manufacturing Processes Lab (1)**

Pre-requisite(s): A grade of C or better in both ME 3320 and ME 3420 and a grade of C or better or concurrent enrollment in ME 3322  
Laboratory experiments in strength of materials, property of materials, and manufacturing processes. Application of statistics and probability to material properties and manufacturing.

**ME 3145 Thermal/Fluids Laboratory (1)**

Pre-requisite(s): A grade of C or better in ME 3420 and a grade of C or better or concurrent enrollment in ME 3321  
Laboratory measurements of devices and systems in thermodynamics and fluid mechanics. Physics and operation of temperature, pressure, and flowrate measurement devices, and application of measurement concepts to analyzing the performance of pumps, pipe networks, airfoils, and thermodynamic cycles.

**ME 3320 Strength of Materials (3)**

Pre-requisite(s): A grade of C or better in ME 2320 and MTH 2321  
Introduction of stress and strain, stress transformations, analysis of stresses, strain, and deflections in axial members, beams, and torsional shafts. Analysis of pressure vessels.

**ME 3321 Fluid Mechanics (3)**

Pre-requisite(s): A grade of C or better in ME 2345 and MTH 3325  
Introductory concepts of fluid motions, fluid statics, control volume forms of basic principles, and applications basic principles of fluid mechanics to problems in viscous and compressible flow.

**ME 3322 Mechanical Engineering Materials and Manufacturing Processes (3)**

Pre-requisite(s): A grade of C or better in CHE 1301 and ME 3320  
Properties of the principal families of materials used in mechanical engineering design with an introduction to the manufacturing processes used to convert these materials into finished products.

**ME 3323 Machine Design (3)**

Pre-requisite(s): A grade of C or better or concurrent enrollment in ME 3322  
The fundamentals of machine elements in mechanical design. Includes the analysis of components under static and fatigue loadings, and the analysis, properties, and selection of machine elements such as shafts, gears, belts, chains, brakes, clutches, bearings, screw drives, and fasteners.

**ME 3345 Advanced Thermodynamics (3)**

Pre-requisite(s): A grade of C or better in ME 2345  
Second law analysis, gas power cycles, vapor power cycles, refrigeration cycles, property relations, gas mixtures, gas-vapor mixtures, combustion, design of cycles. (3-0 )

**ME 3420 Instrumentation and Measurements (4)**

Pre-requisite(s): A grade of C or better in ELC 2320 or ELC 2330 and a grade of C or better in ME 2345 and STA 3381  
Introductory mechanical engineering laboratory experience: measurement system concepts, statistical and uncertainty analyses, survey of measurement devices, experimental design and planning.

**ME 4305 Sustainable Engineering (3)**

Pre-requisite(s): A grade of C or better in EGR 3380  
This is an introduction to the context, concepts, and practice of sustainable engineering, and the importance of sustainable systems in the modern world. Topics will include an overview of resources and sustainability, technological systems, complexity, industrial ecology, green design principles, and life cycle assessment.

**ME 4320 Computer-Aided Structural Analysis (3)**

Pre-requisite(s): A grade of C or better in ME 3320  
Structural analysis using the matrix stiffness method with applications to 2-dimensional and 3-dimensional beams, trusses and plates.

**ME 4322 Computer-Aided Engineering and Design (3)**

Pre-requisite(s): A grade of C or better in EGR 3380  
Design and analysis of engineering components and systems using interactive computer programs with emphasis on computer simulation.

**ME 4323 Mechanical Vibrations (3)**

Pre-requisite(s): A grade of C or better in ME 2321, ME 3320 and MTH 3325  
The theory and analysis of vibrating systems including single and multi-degrees of freedom, free and forced, vibrations, with and without damping.

**ME 4324 Introduction to Finite Element Methods (3)**

Co-requisite(s):

Pre-requisite(s): A grade of C or better in MTH 3325

Introduction to the basic theory and techniques of finite element analysis beginning from energy concepts and the foundational constitutive equations. Engineering applications will focus on one- and two-dimensional formulations for classical beams, frames, trusses and electrical network applications. Introduction to typical workflow of finite element analysis using modern computer technologies.

**ME 4325 Dynamic Systems (3)**

Pre-requisite(s): A grade of C or better in ME 2321, MTH 2311, and MTH 3325 and a grade of C or better or concurrent enrollment in ME 4327

Theory, analysis and simulation of dynamic systems including application of Newton's Laws and conservation of energy to model single and multiple degree-of-freedom mechanical and other dynamic engineering systems. Solutions obtained using advanced engineering mathematics and computational software.

**ME 4327 Numerical Methods for Engineers (3)**

Pre-requisite(s): A grade of C or better in ME 2321, MTH 2311 and MTH 3325

Introduction to engineering computational methods for design, from theory to algorithm to implementation. The course will discuss the following numerical methods from the engineering design perspective: roots of equations, optimization, linear systems, integration and differentiation, curve-fitting, and systems of ordinary differential equations.

**ME 4330 Introduction to Robotics (3)**

Cross-listed as ELC 4330

See ELC 4330 for course information.

**ME 4335 Mechanical Engineering Laboratory (3)**

Pre-requisite(s): A grade of C or better in ME 3345, ME 4345, PWR 3300, and STA 3381

Measurement of fluid flow, heat transfer, power and other properties of mechanical equipment. Design of experiments, selection and use of data acquisition systems, data reporting and presentation.

**ME 4336 Energy Systems Design (3)**

Pre-requisite(s): A grade of C or better in or concurrent enrollment in ME 4345

Design and analysis of thermal energy systems such as pipe networks, HVAC systems, and steam power plants. Specification of energy system components such as pumps, pipes, control valves, and heat exchangers.

**ME 4337 Introduction to Computational Fluid Dynamics (3)**

Pre-requisite(s): A grade of C or better in ME 3321

Study of numerical methods tailored to solve thermo-fluids governing equations. Classification of partial differential equation (PDE). Finite difference method. Basic concepts of discretization, consistency, and stability. Applications of numerical methods to selected model PDE. Numerical methods for inviscid flow, boundary-layer flow, and the Navier-Stokes equations. supersonic compressible and subsonic incompressible flows.

**ME 4339 Tribology (3)**

Pre-requisite(s): A grade of C or better in ME 3321

Experimental, analytical, and computational analysis of tribology, which is the study of friction, lubrication, wear, and fatigue between contacting and sliding surfaces. Topics include the nature of rough surfaces, contact mechanics between nonconformal and nominally-flat surfaces, nature of friction, lubricants and lubrication theory, and surface damage and fatigue. Computational analyses of surfaces and lubricant flow will be performed using Python.

**ME 4344 Composite Materials (3)**

Pre-requisite(s): A grade of C or better in ME 3322

Introduction to advanced fiber-reinforced composite materials for engineering design. Topics include applications, material properties, stress analysis techniques, failure theories, and design methodologies.

**ME 4345 Heat Transfer (3)**

Pre-requisite(s): A grade of C or better in ME 3321

Steady and unsteady heat conduction including numerical solutions, thermal boundary layer concepts and applications to free and forced convection. Thermal radiation concepts. Heat exchanger design.

**ME 4346 Introduction to Aeronautics (3)**

Pre-requisite(s): A grade of C or better in ME 2321 and a grade of C or better or concurrent enrollment in ME 2345

Introduces the applied science of atmospheric flight. The course teaches about airplanes and how they fly from a design and application perspective. Included are topics in fluid dynamics, airfoil and wing theory, aircraft performance, stability, and aircraft design.

**ME 4347 Analysis and Design of Propulsion Systems (3)**

Pre-requisite(s): A grade of C or better in ME 3321 and ME 2345

Introduction to compressible flow, including flows with simple area change, heat addition, friction, and shock waves. Analysis, parametric design, and performance of ramjets, turbojets, turboprops, and turboprops. Introduction to the operating principles of major engine components. Introduction to rockets.

**ME 4349 Aircraft Structural Analysis (3)**

Pre-requisite(s): A grade of C or better in ME 3320 and ME 3322

Introduction to aircraft structures, including semi-monocoque and thin-walled structures, and the analysis techniques for these specialized structures. Understand the basis for airworthiness certification, aircraft loads, and design considerations in aerospace structures. Topics include elasticity, torsion, bending and shear stresses in thin walled structures; shear flow, and shear center.

**ME 4350 Aircraft Flight Dynamics and Control (3)**

Pre-requisite(s): C or better in ME 4346 and ME 4325

Development of aircraft equations of motion. Examination of aircraft dynamic modes based on both limited and full degree of freedom models utilizing analytical and numerical methods. Aircraft design considerations. Determination and evaluation of aircraft flying qualities. Application of control system theory to the design of aircraft stability augmentation systems and autopilots.

**ME 4356 Introduction to Space Flight (3)**

An interdisciplinary introduction to the basics, concepts, methods, and applications of space flight. Topics include fundamental principles, history, space environment, orbital mechanics, launch vehicles, propulsion systems, spacecraft (e.g., satellites, probes, space stations), applications (Earth observation, astronomy, interplanetary exploration, commercial utilization), international space efforts, regulations, and future activities.

**ME 4357 Cardiovascular Engineering and Instrumentation (3)**

Cross-listed as BME 4357, EGR 4357, ELC 4357

See BME 4357 for course information.

**ME 4360 Renewable Energy Devices (3)**

This course is designed for senior undergraduate students from engineering disciplines and is intended to educate students in the design and application of various renewable energy sources, materials, and devices. It will introduce the basic concepts, principles, potential, and limitations of several energy conversion and storage devices with a focus on solar cells, fuel cells, batteries, and supercapacitors, with real world examples.

**ME 4364 Introduction to Additive Manufacturing (3)**

Co-requisite(s): ME 3322

This course introduces various aspects of additive manufacturing, which has become prominent in industry over the past two decades. The aim of this course is to give the students a basic understanding of additive manufacturing and its use in design, both for rapid prototyping and for functional manufacturing. Specifically, this course will highlight the advances that additive manufacturing makes upon traditional manufacturing techniques.

**ME 4377 Solar Energy (3)**

Cross-listed as ELC 4377

See ELC 4377 for course information.

**ME 4382 Selection of Materials and Manufacturing Processes in Design (3)**

Pre-requisite(s): A grade of C or better in ME 3320, ME 3322, and ME 3323

Systematic approach for selection of materials and manufacturing process in design that balances performance requirements with cost of materials and manufacturing. Material properties, manufacturing processes and types of materials. Advanced computer software and case studies are used to illustrate application of principles.

**ME 4384 Engineering with Plastics (3)**

Pre-requisite(s): A grade of C or better in ME 3322

Introduction to engineering plastics, including manufacturing process and mechanical properties, elastic and viscoelastic behavior of polymers and polymeric composites, predicting long-term behavior from short-term tests using time-temperature-superposition, relating chemical structure to mechanical properties for thermosets and amorphous or semi-crystalline thermoplastics, environmental stress cracking in polymers, relating processing to mechanical properties, introduction to injection molding, extrusion, thermoforming, compression molding, and blow molding.

**ME 4385 Failure Analysis and Product Liability (3)**

Pre-requisite(s): A grade of C or better in ME 3322

How components and systems fail; how to determine the probable cause of specific failures; practical skills to do failure analyses; product liability as it applies to product failures and litigation. Class time and homework assignment will use principally a case studies approach.

**ME 4386 Properties and Processing of Electronic Materials (3)**

Pre-requisite(s): A grade of C or better in ME 3322

Modern microelectronic technologies utilize the electrical, magnetic and optical properties of materials to develop new devices for a wide variety of cutting edge applications. A strong foundation in materials physics and chemistry helps engineers/scientists to understand these properties. The course will highlight: 1) structure-property relationships and 2) materials used for various electronic and optoelectronic device applications.

**ME 4388 Corrosion and Sustainable Metallurgy (3)**

Pre-requisite(s): A grade of C or better in ME 3322

Introduction to the eight forms of corrosion. Sustainable engineering concepts, with an emphasis on metallic materials. Alternative metallic designs. Course will culminate in a sustainable materials design project.

**ME 4396 Special Topics in Mechanical Engineering (3)**

Pre-requisite(s): Consent of Department Chair

Study of advanced topics in mechanical engineering. This course may be repeated once under a different topic.

**ME 4V97 Special Projects in Mechanical Engineering (1-6)**

Pre-requisite(s): Consent of department chair

Advanced topics and/or special project activities in Mechanical Engineering.

## Medical Humanities (MH)

**MH 1303 Freshman Academic Seminar: Medicine, Meaning, and the Patient/Physician Relationship (3)**

Introduces first-year students to the world of academics and the scholarly community through exploration of the major themes intrinsic in the physician/patient relationship. Emphasizes critical inquiry and thinking, research, writing, and problem solving.

**MH 1331 Introduction to Medical Humanities (3)**

Introduction to the interdisciplinary and wide ranging field of medical humanities, its subjects and scope, and the way in which it can expand and enrich the experiences of patients and practitioners

**MH 1V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**MH 2301 Christian Spirituality and Health Care (3)**

An historical framework for Western spiritual traditions, especially the Christian tradition, stressing the relationship between Christian spirituality and healing. (For students interested in Medical Humanities.)

**MH 2V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**MH 3300 Visual Arts and Healing (3)**

Pre-requisite(s): For Medical Humanities major/minor students only  
Completion of MH 1331 with a B or better or consent of instructor. An overview of the connections between visual art, healing and health care, the role of imagination and creativity in medicine, including the critical viewing of art, class discussions, experiential learning, and a service-learning project.

**MH 3342 Medicine, Missions, and the Gospel (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

An overview of the biblical mandate to meet physical and spiritual needs in the context of Christian health care missions.

**MH 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**MH 4300 History of Medicine (3)**

Cross-listed as HIS 4300, PHI 4300

Pre-requisite(s): Upper-level standing or consent of instructor

A review of the origins and development of medicine and medical science from prehistoric times to the present. Consideration will be given to the impact of major diseases on civilization and the emergence of successful measures of control.

**MH 4351 Supervised Clinical Medicine (3)**

Pre-requisite(s): Departmental approval required

Supervised weekly clinical service through various medical fields complemented by weekly seminar sessions.

**MH 4361 Meaning, Money, and Medicine (3)**

Pre-requisite(s): MH 1331 MH 2301 or consent of instructor

How personal finance concepts relate to a career in health care against the backdrop of Christian spirituality and values. The course connects "vocational calling" to personal character and discusses spending, debt, giving, paying taxes, and investing.

**MH 4372 End-of-Life Care & Bereavement (3)**

This course critically analyzes how healthcare professionals are involved in the dying experience with patients, families, and communities.

Topics include causes of death, trauma, spirituality in grief, complicated bereavement, hospice and palliative care, physician-assisted dying, futile treatment at the end of life, and cross-cultural sensitivities.

**MH 4377 Supervised Hospice Care (3)**

Pre-requisite(s): MH 4372; or consent of instructor

Hands-on hospice experience including shadowing hospice professionals. Must meet hospice employment criteria.

**MH 4382 U.S. Health Care System (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Current state of health care in the United States including function, economic impacts, payment systems, ideas for reform, and issues related to patient safety and quality measures

**MH 4387 Bench to Bedside: Clinical Trials and Translational Science (3)**

Pre-requisite(s): Consent of instructor

An overview of how basic science is translated into novel therapies with an emphasis on "real world" clinical trials.

**MH 4396 Disability and Society (3)**

Critical reflections on questions of humanity, human well-being, understandings of disability, suffering, and care of those with disabilities, with emphasis on cultural, religious, medical and social perspectives.

**MH 4V98 Advanced Topics in Medical Humanities (1-3)**

Pre-requisite(s): Consent of the instructor and upper level standing

Study of advanced topics in Medical Humanities. This course may be repeated once with different topic for a total of 6 hours.

**MH 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Middle East Studies (MES)

**MES 2301 Introduction to the Middle East (3)**

A regional geographic introduction to the Middle East region. An overview of the physical, cultural, ethnographic, economic and geopolitical components of the region followed by a more in-depth description of selected political states.

**MES 3V00 Biblical Heritage and Contemporary Society in the Holy Land (1-3)**

Cross-listed as REL 3V00

See REL 3V00 for course information.

**MES 4378 Religion & Politics in the Middle East (3)**

Pre-requisite(s): Upper-level standing

An examination of the relationship between religion and politics in select countries of the Middle East.

**MES 4V01 Readings in Mid-East Studies (1-3)**

Pre-requisite(s): Senior standing and approval of Director of Middle East Studies

A tutorial course, individually designed to either allow in-depth study of special topic of student/faculty interest; or allow for a student to have individualized instruction in a broad area of Middle East studies. Details arranged. The course may be repeated once when content differs.

## Military Science (MILS)

**MILS 1101 Introduction to Leadership I (1)**

Co-requisite(s): MILS 1111

Overview of the U.S. Army, including its history, organization, customs and courtesies, strategic mission, dynamic structure, and methods of tactical deployment. Includes a field trip that exposes students to on- and off-duty Army life and gives them the opportunity to observe new combat arms lieutenants in action.

**MILS 1102 Introduction to Leadership II (1)**

Co-requisite(s): MILS 1112

Pre-requisite(s): MILS 1101 or consent of department chair

Fundamentals of basic tactics, including movement techniques, battle drill/assault techniques, squad tactical control measures, land navigation, and first-aid training. Designed to give the student an initial level of tactical proficiency and a degree of leadership training.

**MILS 1111 Leadership Lab I (1)**

Co-requisite(s): MILS 1101

Development of leadership skills with practical experience in military skills. Areas of emphasis include drill and ceremonies, squad level tactics, first aid, and land navigation. A weekend field training exercise and weekly physical fitness training are included in the course.

**MILS 1112 Leadership Lab II (1)**

Co-requisite(s): MILS 1102

Continues the development of leadership skills while giving practical experience in military skills obtained in Leadership Lab I. Areas of emphasis include drill and ceremonies, squad level tactics, first aid, and land navigation. A weekend field training exercise and weekly physical fitness training are included in the course.

**MILS 2111 Basic Leadership Lab I (1)**

Co-requisite(s): MILS 2201

Development of leadership skills while giving practical experience in military skills, including drill and ceremonies, squad level tactics, first aid, and land navigation. A weekend field training exercise and weekly physical fitness training are included in the course.

**MILS 2112 Basic Leadership Lab II (1)**

Co-requisite(s): MILS 2202

Development of leadership skills, including drill and ceremonies, squad level tactics, first aid, and land navigation. A weekend field training exercise and weekly physical fitness training are included in the course.

**MILS 2201 Basic Leadership I (2)**

Co-requisite(s): MILS 2111

Pre-requisite(s): MILS 1102 or consent of department chair

The military element of power, first aid, light infantry tactics, and map reading.

**MILS 2202 Basic Leadership II (2)**

Co-requisite(s): MILS 2112

Pre-requisite(s): MILS 2201 or consent of department chair

Principles of positive and assertive military leadership, addressed through leadership assessment training and student classroom presentations.

**MILS 3111 Intermediate Leadership Lab I (1)**

Co-requisite(s): MILS 3301

Development of leadership skills, including evaluating drill and ceremonies, squad level tactics, first aid, and land navigation. Advanced Course cadets should expect to conduct the training and lead the cadet battalion under cadre supervision. A weekend field training exercise and weekly physical fitness training are included in the course.

**MILS 3112 Intermediate Leadership Lab II (1)**

Co-requisite(s): MILS 3302

A continuation of MILS 3111. Leadership skills, including evaluating drill and ceremonies, squad level tactics, first aid, and land navigation. Advanced Course cadets should expect to conduct the training and lead the cadet battalion under cadre supervision. A weekend field training exercise and weekly physical fitness training are included in the course.

**MILS 3301 Intermediate Leadership I (3)**

Co-requisite(s): MILS 3111

Pre-requisite(s): MILS 2202 or consent of department chair

Effective counseling, writing, and human relation skills necessary to influence human behavior positively. Development of confidence and leadership experience in addition to land navigation skills and tactical proficiency. Group participation and exposure to leadership reaction situations.

**MILS 3302 Intermediate Leadership II (3)**

Co-requisite(s): MILS 3112

Pre-requisite(s): MILS 3301 or consent of department chair

Analysis of the leader's role in directing and coordinating the efforts of individuals and organizations, involving student role modeling and analysis of controversial leadership case situations. Students practice and learn the necessary skills to take charge when responsible, as well as to control and positively influence personnel under stressful situations. Additional professional skills are also taught.

**MILS 4111 Advanced Leadership Lab I (1)**

Co-requisite(s): MILS 4301

Development of leadership skills conducting the training and leading the cadet battalion under cadre supervision. A weekend field training exercise and weekly physical fitness training are included in the course.

**MILS 4112 Advanced Leadership Lab II (1)**

Co-requisite(s): MILS 4302

Continuation of MILS 4111. Development of leadership skills by conducting the training and leading the cadet battalion under cadre supervision. A weekend field training exercise and weekly physical fitness training are included in the course.

**MILS 4301 Advanced Leadership I (3)**

Co-requisite(s): MILS 4111

Pre-requisite(s): MILS 3302 or consent of department chair

The mission and structure of the Army and its professional and social aspects, focusing on oral and written communication skills, counseling techniques, evaluation, and reporting procedures, as well as introducing the combined arms concept.

**MILS 4302 Advanced Leadership II (3)**

Co-requisite(s): MILS 4112

Pre-requisite(s): MILS 4301 or consent of department chair

Examination of the dynamics of modern warfare from the perspective of the combat battalion task force. The integration of maneuver forces, air power, intelligence, logistics, and air mobility by a ground combat commander is studied in both practical exercise and case studies. A variety of other subjects relating to staff procedures and command and control are covered.

**MILS 4V03 Special Studies in Military Science (1-3)**

Pre-requisite(s): MILS 4302 and departmental approval required

Individualized research in Military Science. The research must use the US Army Battle Analysis Methodology. Student's proposals for special study project must be approved by the supervising faculty member. Offered on demand for one to three semester hours. May be repeated multiple times under different topics for a total of three semester hours.

**MILS 4V04 Company Grade Office Leadership Development (1-3)**

Pre-requisite(s): MILS 4302

Comprehensive studies for Military Science Cadets who have completed Advanced Leadership Studies. May be taken more than once for a maximum of three credit hours.

## Modern Languages and Cultures (MLC)

**MLC 1101 First-Year Global Community (1)**

Pre-requisite(s): For new freshmen only and acceptance into the Global Community Living Learning Center (GC-LLC)

A New Student Experience course for first-year students living in the Global Community Living Learning Center (GC-LLC). Focuses on global issues and regions as well as cross-cultural learning. This course may be repeated once for credit.

**MLC 1V99 Special Studies in a Foreign Language (1-4)**

Pre-requisite(s): Consent of department

Study of a foreign language at the elementary level. May be repeated for a maximum total of eight semester hours.

**MLC 2V99 Special Studies in a Foreign Language (1-3)**

Pre-requisite(s): Consent of department

Study of a foreign language at the intermediate level. May be repeated for a maximum total of six semester hours.

**MLC 3101 Global Community and Cross-Cultural Studies (1)**

Pre-requisite(s): Acceptance into the Global Community Living Learning Center (GC-LLC) and satisfactory completion of MLC 1101 or consent of the instructor

Cross-cultural learning about global issues and world affairs for students living in the Global Community Living Learning Center (GC-LLC). May be repeated up to six times for a total of 7 hours credit.

**MLC 3300 Perspectives of Literature in Translation (3)**

Team-taught by specialists in foreign languages and literatures, this course offers the English speaker unique insights into literature from perspectives within and across cultural boundaries. Thematic emphasis will vary. No credit toward foreign language requirement.

**MLC 3V99 Special Studies in a Foreign Language (1-3)**

Pre-requisite(s): Consent of department

Study of a foreign language at the advanced level. May be repeated for a maximum total of twelve semester hours.

**MLC 4376 Asian Literature in Translation (3)**

Cross-listed as AST 4376

See AST 4376 for course information.

## Museum Studies (MST)

**MST 1300 Introduction to Museums (3)**

Introduction to the historical development of museums, the museum profession, and the field of museum studies.

**MST 2303 Museum Educational Programming (3)**

The history and development of museum education including both directed/formal education and free-choice/informal learning.

**MST 3304 Introduction to Cultural Collections (3)**

Examines cultural collections in museums, libraries, and archives, including their historical development; their role in society; and their use in scholarship, education, and public programming.

**MST 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken under the supervision of a faculty member. May be taken for a maximum of 6 hours.

**MST 4301 Nonprofit Perspectives (3)**

Pre-requisite(s): Credit or concurrent enrollment in MST 1300

Overview of museum and non-profit administration, with emphasis on governance, oversight, budgetary planning, fundraising, public relations, and ethics.

**MST 4302 Introduction to Outreach and Community Relations for Museums (3)**

Pre-requisite(s): Credit or concurrent enrollment in MST 1300; Upper-level standing or consent of instructor

Development of outreach techniques in U.S. museums. Hands-on experience researching, creating, and executing strategies in advertising, public relations, marketing, and development/fundraising, including a marketing plan for a museum/archive/library partner institution.

**MST 4307 Historic Buildings and Sites (3)**

Pre-requisite(s): Upper-level standing

Varieties and techniques of historic preservation in America.

**MST 4308 Introduction to Material Culture (3)**

Pre-requisite(s): upper-level standing

The material evidence of American life, including everyday artifacts, and those reflecting social and political history.

**MST 4309 Introduction to American Decorative Arts (3)**

Pre-requisite(s): Upper-level standing

Guide to the origins, nature and display, as well as chronological and geographical classification of American decorative arts.

**MST 4313 Ethical Issues in Cultural Collections Management (3)**

Pre-requisite(s): Upper-level standing

Ethical issues in museums, libraries, and archives. Emphasis on collections management issues such as fakes and forgeries, accessioning and deaccessioning, cultural patrimony, interpretation and exhibition, and repatriation.

**MST 4324 Introduction to Archival Collections and Museums (3)**

Pre-requisite(s): MST 1300, Upper-level standing

The history of records and recordkeeping systems, the organizational structure of museums, and the respective roles of collectors and researchers in the archival environment.

**MST 4330 Amer. Monuments & Memorials (3)**

Pre-requisite(s): Upper-level standing

Advanced topics in Museum Studies not covered in other museum studies courses. May be repeated once under a different topic.

**MST 4331 Exhibit Design and Preparation (3)**

Pre-requisite(s): Upper-level standing

Exhibit design as a way to meet the needs, interests and learning styles of museum visitors.

**MST 4V60 Museum Internship (3-6)**

Pre-requisite(s): Consent of instructor

Internship in the daily operation of a museum or related organization and completion of a specialized project.

**MST 4V70 Independent Studies in Museums (3-6)**

Pre-requisite(s): Consent of the instructor

Directed studies of standards of museum professional practices.

**MST 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor Undergraduate research undertaken under the supervision of a faculty member

May be taken for a maximum of 6 hours.

## Music (MUS)

**MUS 1001 Recital Attendance (0)**

This course provides a means to record attendance requirement credit by semester.

**MUS 1002 Academic Division Colloquium (0)**

This course is oriented to the development and practical application of the student's critical thinking process through lectures and presentations related to the academic field in music. This course may be repeated as necessary.

**MUS 1007 Church Music Forum (0)**

A course that meets several times each semester to hear guest speakers on a variety of topics related to church music.

**MUS 1095 Freshman Music Seminar (0)**

This course prepares entering college freshmen admitted to the School of Music for success in pursuing a degree in music. Designed for first semester students, the course covers degree expectations, study skills, long term planning and vocational preparation, and begins content instruction in the discipline. This course is available to music majors only.

**MUS 1100 Introductory Musicianship (1)**

Pre-requisite(s): Concurrent enrollment in MUS 1200 or 1301, or a passing score on the Theory Placement Exam, or divisional consent

Designed as the aural skills complement to MUS 1200; emphasizes rudimentary skills in sight singing, rhythm reading, and ear training.

**MUS 1101 Musicianship I (1)**

Pre-requisite(s): MUS 1100 or a passing score on the aural portion of the Theory Placement Exam; and credit or concurrent enrollment in MUS 1301

The aural skills complement to MUS 1301, this course emphasizes solfege singing of major and minor melodies at sight, rhythm reading in both simple and compound meters, and melodic, rhythmic, and harmonic dictation.

**MUS 1102 Musicianship II (1)**

Pre-requisite(s): A minimum grade of C in MUS 1101, and either credit or concurrent enrollment in MUS 1302

A continuation of MUS 1101, designed as the aural skills complement to MUS 1302.

**MUS 1107 Beginning Composition I (1)**

A basic approach to twentieth-century composition through analysis and exercises in composition.

**MUS 1108 Beginning Composition II (1)**

Pre-requisite(s): MUS 1107 or consent of instructor

A basic approach to twentieth-century composition through analysis and exercises in composition.

**MUS 1111 Flute-Saxophone (1)**

Designed to provide a thorough understanding of the problems involved and the skills required for teaching each instrument.

**MUS 1112 Oboe-Bassoon (1)**

Designed to provide a thorough understanding of the problems involved and the skills required for teaching each instrument.

**MUS 1113 Clarinet (1)**

Designed to provide a thorough understanding of the problems involved and the skills required for teaching each instrument.

**MUS 1114 Trumpet-Horn (1)**

Designed to provide a thorough understanding of the problems involved and the skills required for teaching each instrument.

**MUS 1115 Trombone-Baritone-Tuba (1)**

Designed to provide a thorough understanding of the problems involved and the skills required for teaching each instrument.

**MUS 1116 Strings (for nonstring players) (1)**

Designed to provide a thorough understanding of the problems involved and the skills required for teaching each instrument.

**MUS 1117 Violin (for string majors) (1)**

Designed to provide a thorough understanding of the skills and materials necessary for teaching and playing the violin.

**MUS 1118 Viola (for string majors) (1)**

Designed to provide a thorough understanding of the skills and materials necessary for teaching and playing the viola.

**MUS 1119 Percussion (1)**

Designed to provide a thorough understanding of the problems involved and the skills required for teaching each instrument.

**MUS 1120 Cello (for string majors) (1)**

Designed to provide a thorough understanding of the skills and materials necessary for teaching and playing the cello.

**MUS 1121 Double-Bass (for string majors) (1)**

Designed to provide a thorough understanding of the skills and materials necessary for teaching and playing the double-bass.

**MUS 1124 Class Voice (1)**

Pre-requisite(s): Course requires ability to match pitch and accurately sing back simple melodies

Departmental consent required. Group instruction in voice.

**MUS 1125 Beginning Class Piano (1)**

Group instruction in piano for non-music majors with no previous training in piano.

**MUS 1131 Class Piano, Grade Level I (For Music Majors) (1)**

Group instruction for piano grade level I.

**MUS 1132 Class Piano, Grade Level II (For Music Majors) (1)**

Group instruction for piano grade level II.

**MUS 1133 Class Piano, Grade Level III (For Music Majors) (1)**

Group instruction for piano grade level III.

**MUS 1150 English and Italian Diction (1)**

Special laboratory course for voice students dealing with pronunciation and enunciation as applied to singing English and Italian.

**MUS 1151 German Diction (1)**

Pre-requisite(s): A grade of C or above in MUS 1150

Special laboratory course for voice students dealing with pronunciation and enunciation as applied to singing German.

**MUS 1152 French Diction (1)**

Pre-requisite(s): A grade of "C" or above in MUS 1150

Special laboratory course for voice students dealing with pronunciation and enunciation as applied to singing French.

**MUS 1161 Violin Orchestral Excerpts I (1)**

Pre-requisite(s): Consent of instructor

Focused preparation of group I of the standard orchestral audition excerpts. Special emphasis given to learning technical and pedagogical concepts as well as developing experience and skills to master the audition process. May be repeated once for credit.

**MUS 1162 Violin Orchestral Excerpts II (1)**

Pre-requisite(s): Consent of instructor

Focused preparation of group II of the standard orchestral audition excerpts. Special emphasis given to learning technical and pedagogical concepts as well as developing experiences and skills to master the audition process. May be repeated once for credit.

**MUS 1163 Violin Orchestral Excerpts III (1)**

Pre-requisite(s): Consent of instructor

Focused preparation of group III of the standard orchestral audition excerpts. Special emphasis given to learning technical and pedagogical concepts as well as developing experience and skills to master the audition process. May be repeated once for credit.

**MUS 1164 Violin Orchestral Excerpts IV (1)**

Pre-requisite(s): Consent of instructor

Focused preparation of group IV of the standard orchestral audition excerpts. Special emphasis given to learning technical and pedagogical concepts as well as developing experience and skills to master the audition process. May be repeated once for credit.

**MUS 1171 Viola Orchestral Excerpts I (1)**

Pre-requisite(s): Consent of instructor

Focused preparation of group I of the standard orchestral audition excerpts. Special emphasis given to learning technical and pedagogical concepts as well as developing experience and skills to master the audition process. May be repeated once for credit.

**MUS 1172 Viola Orchestral Excerpts II (1)**

Pre-requisite(s): Consent of instructor

Focused preparation of group II of the standard orchestral audition excerpts. Special emphasis given to learning technical and pedagogical concepts as well as developing experience and skills to master the audition process. May be repeated once for credit.

**MUS 1173 Viola Orchestral Excerpts III (1)**

Pre-requisite(s): Consent of instructor

Focused preparation of group III of the standard orchestral audition excerpts. Special emphasis given to learning technical and pedagogical concepts as well as developing experience and skills to master the audition process. May be repeated once for credit.

**MUS 1174 Viola Orchestral Excerpts IV (1)**

Pre-requisite(s): Consent of instructor

Focused preparation of group IV of the standard orchestral audition excerpts. Special emphasis given to learning technical and pedagogical concepts as well as developing experience and skills to master the audition process. May be repeated once for credit.

**MUS 1181 Cello Orchestral Excerpts I (1)**

Pre-requisite(s): Consent of instructor

Focused preparation of group I of the standard orchestral audition excerpts. Special emphasis given to learning technical and pedagogical concepts as well as developing experience and skills to master the audition process. May be repeated once for credit.

**MUS 1182 Cello Orchestral Excerpts II (1)**

Pre-requisite(s): Consent of instructor

Focused preparation of group II of the standard orchestral audition excerpts. Special emphasis given to learning technical and pedagogical concepts as well as developing experience and skills to master the audition process. May be repeated once for credit.

**MUS 1183 Cello Orchestral Excerpts III (1)**

Pre-requisite(s): Consent of instructor

Focused preparation of group III of the standard orchestral audition excerpts. Special emphasis given to learning technical and pedagogical concepts as well as developing experience and skills to master the audition process. May be repeated once for credit.

**MUS 1184 Cello Orchestral Excerpts IV (1)**

Pre-requisite(s): Consent of instructor

Focused preparation of group IV of the standard orchestral audition excerpts. Special emphasis given to learning technical and pedagogical concepts as well as developing experience and skills to master the audition process. May be repeated once for credit.

**MUS 1191 Double Bass Orchestral Excerpts I (1)**

Pre-requisite(s): Consent of instructor

Focused preparation of group I of the standard orchestral audition excerpts. Special emphasis given to learning technical and pedagogical concepts as well as developing experience and skills to master the audition process. May be repeated once for credit.

**MUS 1192 Double Bass Orchestral Excerpts II (1)**

Pre-requisite(s): Consent of instructor

Focused preparation of group II of the standard orchestral audition excerpts. Special emphasis given to learning technical and pedagogical concepts as well as developing experience and skills to master the audition process. May be repeated once for credit.

**MUS 1193 Double Bass Orchestral Excerpts III (1)**

Pre-requisite(s): Consent of instructor

Focused preparation of group III of the standard orchestral audition excerpts. Special emphasis given to learning technical and pedagogical concepts as well as developing experience and skills to master the audition process. May be repeated once for credit.

**MUS 1194 Double Bass Orchestral Excerpts IV (1)**

Pre-requisite(s): Consent of instructor

Focused preparation of group IV of the standard orchestral audition excerpts. Special emphasis given to learning technical and pedagogical concepts as well as developing experience and skills to master the audition process. May be repeated once for credit.

**MUS 1195 Harp Orchestral Excerpts I (1)**

Pre-requisite(s): Consent of the instructor

Focused preparation of group I of the standard orchestral audition excerpts. Special emphasis given to learning technical and pedagogical concepts as well as developing experience and skills to master the audition process. May be repeated once for credit.

**MUS 1196 Harp Orchestral Excerpts II (1)**

Pre-requisite(s): Consent of the instructor

Focused preparation of group II of the standard orchestral audition excerpts. Special emphasis given to learning technical and pedagogical concepts as well as developing experience and skills to master the audition process. May be repeated once for credit.

**MUS 1197 Harp Orchestral Excerpts III (1)**

Pre-requisite(s): Consent of the instructor

Focused preparation of group III of the standard orchestral audition excerpts. Special emphasis given to learning technical and pedagogical concepts as well as developing experience and skills to master the audition process. May be repeated once for credit.

**MUS 1198 Harp Orchestral Excerpts IV (1)**

Pre-requisite(s): Consent of the instructor

Focused preparation of group IV of the standard orchestral audition excerpts. Special emphasis given to learning technical and pedagogical concepts as well as developing experience and skills to master the audition process. May be repeated once for credit.

**MUS 11B1 Undergraduate Trumpet (1)****MUS 11B2 Undergraduate Horn (1)****MUS 11B3 Undergraduate Trombone (1)****MUS 11B4 Undergraduate Baritone (1)****MUS 11B5 Undergraduate Tuba (1)****MUS 11B6 Applied Lessons in Natural (Baroque) Trumpet (1)**

Pre-requisite(s): MUS 12B1

Introduces the student to the traditions, fundamental techniques and performance practices of the instrument. The opportunity to perform standard repertoire from Baroque literature, in solo and ensemble settings, will be provided.

**MUS 11H1 Undergraduate Harp (1)****MUS 11K1 Undergraduate Piano (1)****MUS 11K2 Undergraduate Organ (1)****MUS 11K3 Undergraduate Harpsichord (1)**

Pre-requisite(s): Music major or approval of instructor

**MUS 11K4 Undergraduate Carillon (1)**

**MUS 11K5 Undergraduate Piano for Non-Music Majors (1)**

Individual instruction in piano for non-music majors with some prior musical training.

**MUS 11P1 Undergraduate Percussion (1)****MUS 11P2 Timpani (1)****MUS 11S1 Undergraduate Violin (1)****MUS 11S2 Undergraduate Viola (1)****MUS 11S3 Undergraduate Cello (1)****MUS 11S4 Undergraduate Bass (1)****MUS 11V1 Undergraduate Voice (1)****MUS 11W1 Undergraduate Flute (1)****MUS 11W2 Undergraduate Oboe (1)****MUS 11W3 Undergraduate Clarinet (1)****MUS 11W4 Undergraduate Bassoon (1)****MUS 11W5 Undergraduate Saxophone (1)****MUS 1200 Introductory Music Theory (2)**

The study of rudiments of written theory, including notation, scales, key signatures, music terminology, intervals, rhythm and meter, chord construction, and music reading. Does not count as credit toward a degree with a major in music.

**MUS 1202 Basic Guitar (2)**

Group instruction in beginning guitar. A comprehensive approach which includes accompanying, solo playing, and ensembles, history of the guitar, and fundamentals of music. Open to non-music majors only.

**MUS 1216 Band Techniques for String Majors (2)**

This class is designed to provide string majors with knowledge, skills, and competencies in teaching wind/percussion instruments individually and in an ensemble setting.

**MUS 1220 Introduction to Music (2)**

A course for the non-music major in which representative masterpieces of music are explored. Non-technical discussions of the music, as well as the times and lives of the composers, are presented to enhance the enjoyment of the listening experience.

**MUS 12B1 Undergraduate Trumpet (2)****MUS 12B2 Undergraduate Horn (2)****MUS 12B3 Undergraduate Trombone (2)****MUS 12B4 Undergraduate Baritone (2)****MUS 12B5 Undergraduate Tuba (2)****MUS 12H1 Undergraduate Harp (2)****MUS 12K1 Undergraduate Piano (2)****MUS 12K2 Undergraduate Organ (2)**

Pre-requisite(s): By permission of instructor

**MUS 12K3 Undergraduate Harpsichord (2)****MUS 12P1 Undergraduate Percussion (2)****MUS 12P2 Timpani (2)****MUS 12S1 Undergraduate Violin (2)****MUS 12S2 Undergraduate Viola (2)****MUS 12S3 Undergraduate Cello (2)****MUS 12S4 Undergraduate Bass (2)****MUS 12V1 Undergraduate Voice (2)****MUS 12W1 Undergraduate Flute (2)****MUS 12W2 Undergraduate Oboe (2)****MUS 12W3 Undergraduate Clarinet (2)****MUS 12W4 Undergraduate Bassoon (2)****MUS 12W5 Undergraduate Saxophone (2)****MUS 1301 Theory I (3)**

Pre-requisite(s): MUS 1200, or a passing score on the Music Theory Placement Exam

The first course in a systematic study of the organization of music of the Common Practice Period. Students acquire a basic understanding of the structure of tonal music through analysis and written exercises in harmony and counterpoint.

**MUS 1302 Theory II (3)**

Pre-requisite(s): Minimum grade of C in MUS 1301

A continuation of MUS 1301, including non-chord tones, 2:1 counterpoint, seventh chords, and basic formal structure.

**MUS 1321 Engaging with Music (3)**

Development of skills and insights necessary to appreciate and understand music and the vital role that that music plays in a variety of historical and cultural contexts. Fosters creative approaches to active listening. No previous music experience required.

**MUS 1330 Introduction to Music Education (3)**

An introductory study of learning theory and human development, an overview of the total school music program, and a survey of the history and philosophy of American music education.

**MUS 1331 Introduction to Technology for Musicians (3)**

Pre-requisite(s): BME, BM-Composition majors, or departmental approval  
This course, designed specifically for musicians, balances quantitative technology knowledge with practical technology experience. Units in this course include fundamentals of: computer science, sound synthesis, notation software, sound reinforcement, digital audio recording/mixing/editing, copyright/licensing, graphic design, photography, and videography.

**MUS 13K1 Applied Piano (3)****MUS 14K2 Undergraduate Organ (4)****MUS 2101 Musicianship III (1)**

Pre-requisite(s): Minimum grade of C in MUS 1102; and credit or concurrent enrollment in MUS 2301

A continuation of MUS 1102, designed as the aural skills complement to MUS 2301.

**MUS 2102 Musicianship IV (1)**

Pre-requisite(s): Minimum grade of C in MUS 2101; and credit or concurrent enrollment in MUS 2302

A continuation of MUS 2101, designed as the aural skills complement to MUS 2302. Emphasizes singing and dictating melodies, rhythms, and chords commonly encountered in late nineteenth and twentieth-century music.

**MUS 2113 Introductory Service Playing (1)**

Pre-requisite(s): Organ majors (MUS APM Organ) or MUS 11K2 or MUS 51K2

A course designed to teach the role of music in the worship service and the fundamentals of church service playing on the organ, including creative hymn playing, congregational singing, and choral accompaniments.

**MUS 2202 Intermediate Guitar (2)**

Pre-requisite(s): MUS 1202

This course is designed for non-music majors who have successfully completed Basic Guitar 1202 and have a working knowledge of open position chords and scales, basic rhythm accompaniment and melody playing techniques, as well as reading skills up to and including eighth-note based rhythms in the first position. Emphasis is placed on expanding technical range and repertoire on the guitar through the understanding and assimilation of movable chord forms and scale fingerings.

**MUS 2207 Elementary Composition I (2)**

Pre-requisite(s): MUS 1102 or consent of instructor

A basic approach to twentieth-century composing through analysis and exercises in melody, harmony, counterpoint, etc. Composing in small forms.

**MUS 2208 Elementary Composition II (2)**

Pre-requisite(s): MUS 1102 and 1302; and consent of the professor  
Continuation of MUS 2207.

**MUS 2260 Elementary Conducting (Music Education Elementary) (2)**

Pre-requisite(s): MUS 1102 and 1302

Fundamentals of conducting techniques and related score study in rehearsal and performance.

**MUS 2301 Theory III (3)**

Pre-requisite(s): Minimum grade of C in MUS 1302

A continuation of MUS 1302, emphasizing chromaticism in tonal harmony and introducing standard musical forms.

**MUS 2302 Theory IV (3)**

Pre-requisite(s): Minimum grade of C in MUS 2301

A survey of late nineteenth and twentieth-century compositional techniques and methods of analysis, including scales, chords, rhythmic techniques, approaches to tonality, set theory, and serialism.

**MUS 2320 Music and Urban Society (3)**

A study of the past and present states of music in several urban centers. This is usually a study tour conducted abroad, including lectures, concerts, and first-hand encounters with the culture.

**MUS 2370 Formation for Christian Musicians (3)**

An introduction to selected aspects of Christian music ministry, including personal spiritual formation, the call to ministry, careers in Christian music, philosophy and history of church music, and practical skills for collegiate music ministry.

**MUS 3001 Music Education Evaluation (0)**

Pre-requisite(s): Credit for or concurrent enrollment with MUS 1330

This course is designed to evaluate readiness to matriculate into upper-level Music Education study and to determine admission into the Teacher Education Program at Baylor University. This course requires sophomore standing (or upon transfer enrollment).

**MUS 3132 Choral Methods I (1)**

Pre-requisite(s): MUS 3001 Instructional strategies for teaching foundational musical content to secondary-level singers in group settings

Emphasis will be placed on implementation of the teaching cycle, as it applies to pre-repertoire instruction in the choral classroom.

**MUS 3135 Special Learners in the Music Classroom (1)**

Instructional strategies for teaching students with special needs in the music classroom. Emphasis will be placed on engaging students in both traditional classroom environments and ensemble music settings.

**MUS 3136 Instrumental Methods I (1)**

Pre-requisite(s): MUS 3001 Instructional strategies for warm-up and literature selection as applied to secondary instrumental ensembles

**MUS 3138 Sight-Reading for Pianists (1)**

Pre-requisite(s): MUS 1137 or consent of instructor

This course focuses on the development of sight-reading skills for pianists. In-class activities and regular practice assignments will help the student identify and improve sight-reading weaknesses. Intended for piano majors and piano concentrations.

**MUS 3153 Russian Lyric Diction (1)**

Pre-requisite(s): A grade of C or above in MUS 1150, 1151, and 1152

Special laboratory course for voice students dealing with pronunciation and enunciation as applied to singing Russian.

**MUS 3170 Guitar for Music Ministry (1)**

Designed to give the church music student functional guitar skills.

This skill-based course will assure competency in playing chords for common guitar keys and basic strumming patterns. Students will also be exposed to other aspects of guitar playing such as tablature, chord charts, different types of guitars, and other relevant functions. Students who are experienced guitar players will move at their own pace.

**MUS 31B1 Advanced Undergraduate Trumpet (1)****MUS 31B2 Advanced Undergraduate Horn (1)****MUS 31B3 Advanced Undergraduate Trombone (1)****MUS 31B4 Advanced Undergraduate Baritone (1)****MUS 31B5 Advanced Undergraduate Tuba (1)****MUS 31H1 Advanced Undergraduate Harp (1)****MUS 31K1 Advanced Undergraduate Piano (1)****MUS 31K2 Advanced Undergraduate Organ (1)****MUS 31P1 Advanced Undergraduate Percussion (1)****MUS 31P2 Advanced Undergraduate Timpani (1)****MUS 31S1 Advanced Undergraduate Violin (1)****MUS 31S2 Advanced Undergraduate Viola (1)****MUS 31S3 Advanced Undergraduate Cello (1)****MUS 31S4 Advanced Undergraduate Bass (1)****MUS 31V1 Advanced Undergraduate Voice (1)****MUS 31W1 Advanced Undergraduate Flute (1)****MUS 31W2 Advanced Undergraduate Oboe (1)****MUS 31W3 Advanced Undergraduate Clarinet (1)****MUS 31W4 Advanced Undergraduate Bassoon (1)****MUS 31W5 Advanced Undergraduate Saxophone (1)****MUS 3202 Choral Arranging and Composition (2)**

Pre-requisite(s): MUS 2102 and 2302

Creative work in choral arranging and composition. Analysis of various styles of choral composition.

**MUS 3203 Arranging for Popular and Jazz Idioms (2)**

Pre-requisite(s): MUS 2102 and 2302 or consent of instructor

A study of standard practices of notation, scoring, and instrumentation with regard to jazz and popular music. Attention will be focused on writing for a rhythm section, scoring for woodwinds and brass, and on relating these to vocal idioms. A lab format will be used in which student will be performed.

**MUS 3207 Composition (2)**

Pre-requisite(s): MUS 2102 and 2302

A first course in composition for non-composition majors.

**MUS 3212 String Methods (For String Majors) (2)**

A survey of the most widely-used pedagogical methods for heterogeneous group string instruction. Emphasis will be placed on observation, practice teaching, and program building.

**MUS 3232 Choral Methods II (2)**

Pre-requisite(s): MUS 3001 and credit or concurrent enrollment in MUS 3132 Instructional strategies for facilitating choral rehearsals and performances for a variety of choral ensembles, focusing on the development of sight-reading skills and repertoire learning. Addresses a wide range of issues involved in administering a school choral music program.

**MUS 3236 Instrumental Methods II (2)**

Pre-requisite(s): MUS 3001 Instructional strategies for facilitating instrumental ensemble rehearsals and performances in a variety of settings. Addresses a wide range of issues in administering school instrumental music programs.

**MUS 3260 Instrumental Conducting (2)**

Pre-requisite(s): MUS 2260

Application of basic conducting skills to the direction of instrumental ensembles.

**MUS 3261 Choral Conducting (2)**

Pre-requisite(s): MUS 2260

Application of basic conducting skills to the direction of choral ensembles.

**MUS 32B1 Advanced Undergraduate Trumpet (2)****MUS 32B2 Advanced Undergraduate Horn (2)****MUS 32B3 Advanced Undergraduate Trombone (2)****MUS 32B4 Advanced Undergraduate Baritone (2)****MUS 32B5 Advanced Undergraduate Tuba (2)****MUS 32H1 Advanced Undergraduate Harp (2)****MUS 32K1 Advanced Undergraduate Piano (2)****MUS 32K2 Advanced Undergraduate Organ (2)****MUS 32P1 Advanced Undergraduate Percussion (2)****MUS 32P2 Advanced Undergraduate Timpani (2)****MUS 32S1 Advanced Undergraduate Violin (2)****MUS 32S2 Advanced Undergraduate Viola (2)****MUS 32S3 Advanced Undergraduate Cello (2)****MUS 32S4 Advanced Undergraduate Bass (2)****MUS 32V1 Advanced Undergraduate Voice (2)****MUS 32W1 Advanced Undergraduate Flute (2)****MUS 32W2 Advanced Undergraduate Oboe (2)****MUS 32W3 Advanced Undergraduate Clarinet (2)****MUS 32W4 Advanced Undergraduate Bassoon (2)****MUS 32W5 Advanced Undergraduate Saxophone (2)****MUS 3301 Theory V (3)**

Pre-requisite(s): MUS 2302 and credit or concurrent enrollment in 2102 Harmonic and structural analysis of larger forms, including variations, rondo, sonata, and contrapuntal forms.

**MUS 3306 Orchestration (3)**

Pre-requisite(s): MUS 2101 and 2301

Ranges, notation, and characteristics of orchestral instruments.

Exercises in orchestrating for combinations of string and wind instruments, including full orchestra. Styles of orchestration. Orchestral score reading.

**MUS 3307 Intermediate Composition (3)**

Pre-requisite(s): MUS 2208 or 3207 or consent of instructor

Writing in the larger forms for piano, voice, choir, and small instrumental combinations.

**MUS 3308 Intermediate Composition (3)**

Pre-requisite(s): MUS 2208 or 3207 or consent of instructor

Writing in the larger forms for piano, voice, choir, and small instrumental combinations.

**MUS 3310 Beginning Jazz Improvisation (3)**

An introduction to the techniques of jazz improvisation. Study of jazz theory and Afro-American artists and styles.

**MUS 3312 Piano Pedagogy I (3)**

Piano Level IV Fundamentals of piano teaching, and examination of the learning process and its application to the elementary student. Review of teaching materials and music technology for the elementary student. Observation and directed teaching in the Piano Laboratory Program, both individual and group lesson settings.

**MUS 3313 Piano Pedagogy II (3)**

Pre-requisite(s): MUS 3312

Examination and evaluation of beginning piano methods. Survey, analysis, and classification of pre-college teaching literature. Independent studio management and planning. Observation and directed teaching in the Piano Laboratory Program, both individual and group lesson settings.

**MUS 3314 Piano Pedagogy III (3)**

Pre-requisite(s): MUS 3312

Examination and evaluation of standard literature, technical approaches, and teaching materials for the late intermediate, early advanced, and beginning adult student. Additional topics include injury prevention and performance anxiety. Undergraduate students will teach a community student in the Piano Laboratory Program.

**MUS 3315 Survey of Music Literature (3)**

Pre-requisite(s): MUS 1101 and 1301; expectation that students know how to read music

This course surveys the general history of music. It requires students to be able to follow a musical score, and includes the completion of a research project during the course of the semester.

**MUS 3321 Music in World Cultures (3)**

Addresses music as a significant part of various world cultures through lectures, videos, class listening and discussion, and hands-on experience with various musical systems. Music will be studied in relation to religions, political systems, economics, languages and other arts. When possible, workshops with visiting non-Western ensembles will be arranged.

**MUS 3322 Popular Musics (3)**

Examination of the musical and cultural significance of popular musics, exploring how musical sound can be considered "text," and analyzing how and why popular music is created. No previous music experience required.

**MUS 3323 Jazz and its History (3)**

The study of jazz from its West African and American blues roots through ragtime, urban blues, big bands, bebop, cool, 1960s avant garde, and present developments.

**MUS 3324 The History of Music before 1600 (3)**

Pre-requisite(s): MUS 1102 and 1302

Survey of European music from Antiquity through the Renaissance, including some related materials from outside the Western tradition.

**MUS 3325 The History of Music from 1600 to 1800 (3)**

Pre-requisite(s): MUS 1102 and 1302

Survey of European and American music from the seventeenth and eighteenth centuries.

**MUS 3326 The History of Music from 1800 to World War I (3)**

Pre-requisite(s): MUS 1102 and 1302

Survey of European and American music from 1800 to World War I, including some related materials from outside the Western concert tradition.

**MUS 3327 The History of Music from World War I to the Present (3)**

Pre-requisite(s): MUS 1102 and 1302

Integrated survey of European and American art music since World War I, along with selected topics outside that tradition.

**MUS 3331 Music in the Elementary School (3)**

Pre-requisite(s): MUS 3001 Methods and materials for teaching music to children

For music education majors and elementary education majors with a teaching field in music.

**MUS 3334 Secondary Choral Music (3)**

Pre-requisite(s): MUS 3001 and 3232 This course provides advanced training in secondary choral music teaching practices and includes substantial field experience in secondary choral music programs

Topics of study include music reading strategies, rehearsal technique, curriculum design and administrative issues related specifically to choral music programs.

**MUS 3335 Instrumental Music in the Secondary School (3)**

Organization, administration, and promotion of band and orchestra programs. Care and selection of instruments, uniforms, music, and related materials. Units on testing and grading, rehearsal procedures, programming, and financing.

**MUS 3336 Music for Elementary Classroom Teachers (3)**

Required of all elementary education majors. A study of the musical experiences and activities through which children acquire basic musical concepts and skills.

**MUS 3337 Elementary Music Education (3)**

Pre-requisite(s): MUS 3001 and 3331 Extends the work of MUS 3331 to provide a detailed study of music instruction in the elementary school Includes observation and field teaching.

**MUS 3370 The Musician as Educator in the Church (3)**

A survey of music education in the church, with particular emphasis upon the planning, implementation and ministerial facets of teaching, as well as a look at the practical philosophical and psychological aspects within a church setting. (3 hours)

**MUS 3375 Leadership in Music Ministry (3)**

Survey of the principles involved in organizing and implementing a comprehensive music ministry, including budgeting, programming, and multiple staff relationships. An introduction to pastoral skills including visioning, hospital visitation, and conflict management. (3 hours)

**MUS 3377 Instrumental Music in the Church (3)**

A study of the use of instruments in the church, seeking to provide students with both knowledge and skill set in the field of instrumental music arrangement and performance practice specifically in the context of Christian worship.

**MUS 3378 Technology and Keyboards in the Church (3)**

A survey of the use of technology, keyboard instruments, and handbells in the church; including the purchase, maintenance, and use of the instruments/equipment.

**MUS 33K1 Advanced Undergraduate Piano (3)****MUS 34B1 Advanced Undergraduate Trumpet (4)****MUS 34B2 Advanced Undergraduate Horn (4)****MUS 34B3 Advanced Undergraduate Trombone (4)****MUS 34B4 Advanced Undergraduate Baritone (4)****MUS 34B5 Advanced Undergraduate Tuba (4)****MUS 34H1 Applied Harp (4)****MUS 34K1 Advanced Undergraduate Piano (4)****MUS 34K2 Advanced Undergraduate Organ (4)****MUS 34P1 Advanced Undergraduate Percussion (4)****MUS 34P2 Advanced Undergraduate Timpani (4)****MUS 34S1 Advanced Undergraduate Violin (4)****MUS 34S2 Advanced Undergraduate Viola (4)****MUS 34S3 Advanced Undergraduate Cello (4)****MUS 34S4 Advanced Undergraduate Bass (4)****MUS 34V1 Advanced Undergraduate Voice (4)****MUS 34W1 Advanced Undergraduate Flute (4)****MUS 34W2 Advanced Undergraduate Oboe (4)****MUS 34W3 Advanced Undergraduate Clarinet (4)****MUS 34W4 Advanced Undergraduate Bassoon (4)****MUS 34W5 Advanced Undergraduate Saxophone (4)****MUS 4001 Music Education Fieldwork (0)**

For completion of field experience and other requirements prior to student teaching.

**MUS 40B1 Degree Recital - Trumpet (0)**

Pre-requisite(s): Credit or concurrent enrollment in MUS 32B1 or 34B1  
Presentation of a recital in fulfillment of degree requirements.

**MUS 40B2 Degree Recital - Horn (0)**

Pre-requisite(s): Credit or concurrent enrollment in MUS 32B2 or 34B2  
Presentation of a recital in fulfillment of degree requirements.

**MUS 40B3 Degree Recital - Trombone (0)**

Pre-requisite(s): Credit or concurrent enrollment in MUS 32B3 or 34B3  
Presentation of a recital in fulfillment of degree requirements.

**MUS 40B4 Degree Recital - Baritone (0)**

Pre-requisite(s): Credit or concurrent enrollment in MUS 32B4 or 34B4  
Presentation of a recital in fulfillment of degree requirements.

**MUS 40B5 Degree Recital - Tuba (0)**

Pre-requisite(s): Credit or concurrent enrollment in MUS 32B5 or 34B5  
Presentation of a recital in fulfillment of degree requirements.

**MUS 40C1 Degree Recital - Composition (0)**

Co-requisite(s): MUS 4308

Presentation of a recital in fulfillment of degree requirements.

**MUS 40H1 Degree Recital - Harp (0)**

Pre-requisite(s): Credit or concurrent enrollment in MUS 32H1 or 34H1  
Presentation of a recital in fulfillment of degree requirements.

**MUS 40K1 Degree Recital - Piano (0)**

Pre-requisite(s): Credit or concurrent enrollment in MUS 31K1, 32K1, 33K1, or 34K1

Presentation of a recital in fulfillment of degree requirements.

**MUS 40K2 Degree Recital - Organ (0)**

Pre-requisite(s): Credit or concurrent enrollment in MUS 31K2, 32K2, 33K2, or 34K2

Presentation of a recital in fulfillment of degree requirements.

**MUS 40P1 Degree Recital - Percussion (0)**

Pre-requisite(s): Credit or concurrent enrollment in MUS 32P1 or 34P1

Presentation of a recital in fulfillment of degree requirements.

**MUS 40R1 Special Recital (0)**

Pre-requisite(s): Consent of instructor

Presentation of a recital over and above degree requirements.

**MUS 40S1 Degree Recital - Violin (0)**

Pre-requisite(s): Credit or concurrent enrollment in MUS 32S1 or 34S1

**MUS 40S2 Degree Recital - Viola (0)**

Pre-requisite(s): Credit or concurrent enrollment in MUS 32S2 or 34S2

Presentation of a recital in fulfillment of degree requirements.

**MUS 40S3 Degree Recital - Cello (0)**

Pre-requisite(s): Credit or concurrent enrollment in MUS 32S3 or 34S3

Presentation of a recital in fulfillment of degree requirements.

**MUS 40S4 Degree Recital - Bass (0)**

Pre-requisite(s): Credit or concurrent enrollment in MUS 32S4 or 34S4

Presentation of a recital in fulfillment of degree requirements.

**MUS 40V1 Degree Recital - Voice (0)**

Pre-requisite(s): Credit or concurrent enrollment in MUS 32V1 or 34V1

Presentation of a recital in fulfillment of degree requirements.

**MUS 40W1 Degree Recital - Flute (0)**

Pre-requisite(s): Credit or concurrent enrollment in MUS 32W1 or 34W1

Presentation of a recital in fulfillment of degree requirements.

**MUS 40W2 Degree Recital - Oboe (0)**

Pre-requisite(s): Credit or concurrent enrollment in MUS 32W2 or 34W2

Presentation of a recital in fulfillment of degree requirements.

**MUS 40W3 Degree Recital - Clarinet (0)**

Pre-requisite(s): Credit or concurrent enrollment in MUS 32W3 or 34W3

Presentation of a recital in fulfillment of degree requirements.

**MUS 40W4 Degree Recital - Bassoon (0)**

Pre-requisite(s): Credit or concurrent enrollment in MUS 32W4 or 34W4

Presentation of a recital in fulfillment of degree requirements.

**MUS 40W5 Degree Recital - Saxophone (0)**

Pre-requisite(s): Credit or concurrent enrollment in MUS 32W5 or 34W5

Presentation of a recital in fulfillment of degree requirements.

**MUS 4110 Advanced Jazz Improvisation (1)**

Pre-requisite(s): MUS 3310 or consent of instructor

This course is an in-depth study of modern jazz improvisational techniques. May be repeated for credit.

**MUS 4114 Internship in Piano Teaching I (1)**

Pre-requisite(s): Piano Level VIII

Special assignments in piano teaching; children's classes and lessons in the Preparatory Laboratory program; group and individual instruction of college students; adult leisure piano. Faculty direction and evaluation of teaching. May be repeated for credit.

**MUS 4115 Internship in Piano Teaching II (1)**

Pre-requisite(s): Piano Level VIII

Special assignments in piano teaching; children's classes and lessons in the Preparatory Laboratory program; group and individual instruction of college students; adult leisure piano. Faculty direction and evaluation of teaching. May be repeated for credit.

**MUS 4120 Advanced Opera Workshop (1)**

Pre-requisite(s): Consent of instructor

Advanced Opera Workshop is an intensive class for advanced singers who aspire to careers in Opera and/or Musical Theatre. In this class students receive intensive one-on-one instruction on their "audition aria package." An accompanist is assigned for the course and students coach each aria or piece of musical theatre to polish it for professional auditions. Students will also have the opportunity to obtain one-on-one help with their professional credentials, taxes as artists and other items as needed. Since one-on-one instruction is the key to the success of this class the number of students enrolled must be limited. Therefore, undergraduates who wish to take this class must receive a nomination from their Vocal Instructor prior to asking for permission from the instructor of the course. Repeatable for credit.

**MUS 4121 Performing Recitative (1)**

Development of process-based skill sets for learning to sing and perform recitative, primarily in operas by Handel, Mozart, and bel canto composers. Topics include comparing recitativo secco and recitativo accompagnato and the practical performance techniques involved, applying concepts of lyric diction to the learning process, and mastering finer points such as style, pacing, appoggiature, word play, optional rests, and character development.

**MUS 4135 Practicum in Instrumental Music Education (1)**

This is an experiential course aimed at providing upper level instrumental music education students with real world teaching opportunities in a monitored environment.

**MUS 4151 Vocal Coaching (1)**

Pre-requisite(s): Consent of instructor

Advanced individual study of solo vocal repertoire for upper-level students preparing recitals, competitions, auditions, etc. May be repeated for a maximum of six semester hours.

**MUS 4181 Special Topics (1)**

An in-depth study of a narrowly circumscribed topic, such as a composer or genre. This course provides the opportunity to utilize special skills and knowledge of outstanding resident or visiting faculty. May be repeated six times with different topics of study.

**MUS 4203 Electroacoustic Music Composition (2)**

Pre-requisite(s): MUS 1331 and consent of instructor

Literature study, composition, and performance of fixed and interactive electroacoustic music.

**MUS 4204 Advanced Orchestration (2)**

Pre-requisite(s): MUS 3306

Study of problems in orchestration beyond the general topics addressed in MUS 3306.

**MUS 4205 Theoretical Systems (2)**

Pre-requisite(s): MUS 3301

Systems currently employed in music-theoretic scholarship for analysis of various musical styles. Application and comparison of the systems.

**MUS 4208 Jazz Theory (2)**

Pre-requisite(s): MUS 1101 and 1301; and consent of instructor

This course is an in-depth study of the harmonic and melodic basis of jazz, including the use of modes and extensions in jazz improvisation and composition, and reharmonization and analysis of performers' improvised solos. Students will develop skills in ear training and practical jazz music.

**MUS 4210 Organ Methods (2)**

For prospective organ teachers: methods and materials; church and concert repertoire.

**MUS 4213 Service Playing (2)**

Pre-requisite(s): Organ major or consent of instructor

Study of techniques and resources for organ playing in the context of a worship service.

**MUS 4216 Opera Project I (2)**

Pre-requisite(s): Audition and/or consent of instructor

Training class for singers and choral conducting students in stage techniques.

**MUS 4218 Opera Project II (2)**

Pre-requisite(s): Audition and/or consent of instructor

Training class for singers and choral-conducting students in stage techniques.

**MUS 4219 Marching Band/Jazz Pedagogy (2)**

Pre-requisite(s): MUS 3001 Philosophy, materials, and techniques of high school marching bands and jazz ensembles

**MUS 4220 Acting for Singers I (2)**

Pre-requisite(s): Consent of instructor

Acting for Singers I is a beginning acting course for the stage specifically designed to provide appropriate training in acting for young singers who aspire to stage careers in Opera and/or Musical Theatre. The course includes instruction in basic stage deportment for recitals and auditions and is also appropriate for students who plan to teach young vocalists in the future, particularly those called upon to teach Opera Workshop or direct an Opera Scenes Program at the University level and/or direct a Musical Production at the high-school level.

**MUS 4221 Acting for Singers II (2)**

Pre-requisite(s): MUS 4220

Acting for Singers II is the second of two courses designed to provide appropriate training in acting for young singers who aspire to stage careers in Opera and/or Musical Theatre. This course will focus on the individual student rather than the larger group. Students will deal with problems specific to opera and musical theatre including acting within the time-frame of the composer, necessity of singing out to the audience at all times and connection with the conductor during performances. This course is appropriate for aspiring young artists as well as prospective teachers in the fields of vocal and choral music. Prior to taking this course a student should have taken Acting for Singers I or an equivalent.

**MUS 4230 Induction to Music Teaching (2)**

Co-requisite(s):

This course, designed to be taken concurrently with all-level student teaching in music, examines practical issues involved in successful music teaching, such as organization, administration, classroom management, and school governance. Additionally, current controversial issues in education are considered in the context of direct field experiences in music. Students must earn at least a grade of C in this course.

**MUS 4236 Performer Wellness (2)**

Pre-requisite(s): Upper-level standing

This course is designed to address music wellness issues and help musicians adopt a healthy approach to performance that will allow them to perform at their best. Regular performance practice will be integrated with relaxation techniques such as stretching, deep breathing, imagery, and progressive relaxation. Practice and memorization techniques to assist with performance preparation will also be covered.

**MUS 4237 Creative Entrepreneurship in Music (2)**

Pre-requisite(s): Music majors only

Development of fundamental skills music-based entrepreneurship, and creative thinking beyond the practice room as preparation for 21st-century careers in music.

**MUS 4259 Fundamentals of Conducting (2)**

Introduction to advanced conducting techniques. Focus will be on strengthening skills from undergraduate conducting courses and building strategies for score preparation, knowledge, and facility.

**MUS 4260 Orchestral Conducting (2)**

Pre-requisite(s): MUS 3260

Advanced study of instrumental conducting techniques and related preparation and score study, specifically applied to orchestral ensembles.

**MUS 4261 Advanced Choral Conducting (2)**

Pre-requisite(s): MUS 3261

Advanced study of choral conducting techniques and related preparation and score study, specifically applied to choral ensembles.

**MUS 4262 Band Conducting (2)**

Pre-requisite(s): MUS 3260

Advanced study of instrumental conducting techniques and related preparation and score study, specifically applied to bands and wind ensembles.

**MUS 4270 Music Ministry Internship (2)**

A four-week internship (one hundred sixty hours) in a church under the direct supervision of the minister of music. Periodic observations by the faculty.

**MUS 4274 Congregational Song (2)**

The study of congregational music used in corporate worship. The course includes the historical development of congregational song and the analysis of its literary, scriptural, musical, and theological content.

**MUS 4280 Senior Seminar and Paper (2)**

Pre-requisite(s): MUS 3301

Introduction to bibliography, research methods, and scholarly writing, providing the opportunity for specialized work in the student's major area in music history and literature or theory degrees.

**MUS 4299 Vocal Pedagogy (2)**

A study of the singing voice including anatomy and physiology of the larynx and the breathing mechanism, phonation, basic acoustics, vocal registers, vocal pathologies, and hygiene, among other related subjects.

**MUS 4301 Advanced Analysis (3)**

Pre-requisite(s): MUS 3301

Investigation of specialized topics in music analysis, with focus on a particular analytical approach or repertoire.

**MUS 4304 Counterpoint (3)**

Pre-requisite(s): MUS 2102 and 2302

Principles of modal and harmonic counterpoint.

**MUS 4305 Advanced Counterpoint (3)**

Pre-requisite(s): MUS 4304

A continuation of MUS 4304. Advanced work in specialized areas of counterpoint.

**MUS 4307 Advanced Composition I (3)**

Pre-requisite(s): MUS 3304

Continuation of MUS 3308.

**MUS 4308 Advanced Composition II (3)**

Continuation of MUS 4307. Includes a recital of original works.

**MUS 4315 Advanced Piano Pedagogy and Practicum I (3)**

Comprehensive study and practical experiences of the group teaching process at the collegiate level. Lesson planning, group dynamics, materials, the electronic laboratory, and the different types of instruction are included.

**MUS 4316 Advanced Piano Pedagogy and Practicum II (3)**

Pre-requisite(s): MUS 4315

Continuation of MUS 4315.

**MUS 4319 Operatic Role Preparation (3)**

Pre-requisite(s): MUEN 1104 or 5004; upper-level standing

Role Preparation will cover the research into the genesis of a specific opera as well as the music of a role from that opera. Students will have the opportunity to learn operatic roles that they, and their applied voice teacher, feel are appropriate for their voices and abilities. Students will then receive musical and dramatic coaching on their roles and will present semi-staged or concert versions of their roles at the end of the semester. May be repeated once for credit.

**MUS 4320 Seminar in American Music (3)**

This seminar focuses on interpreting and understanding primary sources, both written and musical (scores), related to the various styles and approaches to the creation of American music.

**MUS 4321 Symphonic Literature (3)**

A survey of orchestral literature.

**MUS 4322 Piano Literature I (3)**

Pre-requisite(s): For music majors only or consent of instructor

Literature of keyboard instruments from early sources to the early nineteenth century.

**MUS 4324 Piano Literature II (3)**

Pre-requisite(s): Enrollment limited to music majors or consent of instructor

Literature of keyboard instruments from the mid-nineteenth century to the present.

**MUS 4325 Opera Literature (3)**

This course examines opera from its origins in the late sixteenth century to the present. Students will learn about opera's musical and literary conventions, its development, and how operas reflect the musical and cultural values of their areas. The scores to be studied are coordinated with recorded and audio/visual examples, as well as with relevant readings from books and periodicals. Class discussion, presentations, essays, listening tests, and a final project are part of the course.

**MUS 4326 American Folk Music (3)**

Folk and tribal music in the United States. Specific topics include: music of native Americans, oral tradition music of European immigrants, oral tradition music created in America, African and African-American music, the Latin American musical influence, and ethnomusicology as a discipline of study. Current and historical topics will be included. Students will participate in field research projects.

**MUS 4327 Song Literature I (3)**

Music for solo voice from its beginnings to the present.

**MUS 4329 Song Literature II (3)**

Continuation of MUS 4327.

**MUS 4331 Band Literature (3)**

Literature for wind ensemble and band from early sources to the present.

**MUS 4333 Percussion Literature and Pedagogy (3)**

Solo and chamber music and pedagogy for percussion instruments.

**MUS 4334 String Chamber Literature (3)**

Chamber music for string instruments.

**MUS 4335 Woodwind Literature and Pedagogy (3)**

Solo and chamber music literature and pedagogy for woodwind instruments.

**MUS 4336 Brass Literature and Pedagogy (3)**

Solo and chamber music and pedagogy for brass instruments.

**MUS 4337 Choral Literature (3)**

Pre-requisite(s): MUS 3261

Secular and religious choral music representing style periods from the late Renaissance to the present.

**MUS 4342 American Musical Theater (3)**

Important historical, cultural, musical and production moments in the century-long narrative of the American musical theatre. Specific topics may vary from year to year. The course is designed for upper-level music majors; theatre majors and other students should consult with instructors before enrolling.

**MUS 4343 Organ Literature I (3)**

The organ and its literature from the earliest manuscripts and tablatures through 1750.

**MUS 4344 Organ Literature II (3)**

The organ and its literature from 1750 to the present.

**MUS 4345 History of Classical Music in the United States (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

This course introduces both music majors and non-music majors to the often overlooked contributions of creative Americans to the field of "classical" music from the beginning of the United States' existence to the present time.

**MUS 4350 International Music Education (3)**

An exploration of music education practices in international school settings, including curricular comparisons, student populations, and program configurations. Attention will be given to any specialized procedures required for those interested in teaching in international environments post-graduation. This course may be repeated once.

**MUS 4360 Ethnographic and Analytical Methods in Ethnomusicology (3)**

Cross-listed as ANT 4361

Pre-requisite(s): Junior standing or above

Introduction to analytical methods, ethnography, and fieldwork techniques in ethnomusicology in order to equip students with practical tools to conduct ethnographical research and fieldwork.

**MUS 4361 Traditional Music and Culture in Africa (3)**

Pre-requisite(s): Junior standing and above

Analysis of specific African musical traditions within their cultural, geographical, historical, and social contexts as points of departure for analyzing and understanding broader patterns and dynamics of human activity.

**MUS 4362 Traditional Music and Culture in Asia (3)**

Cross-listed as AST 4362

Pre-requisite(s): Junior standing and above

Analysis of specific Asian musical traditions within their cultural, geographical, historical, and social contexts as points of departure for analyzing and understanding broader patterns and dynamics of human activity.

**MUS 4363 Traditional Music and Culture in Europe (3)**

Cross-listed as SEES 4363

Pre-requisite(s): Junior standing and above

Analysis of specific European musical traditions within their cultural, geographical, historical, and social contexts as points of departure for analyzing and understanding broader patterns and dynamics of human activity.

**MUS 4364 Traditional Music and Culture in Latin America (3)**

Cross-listed as LAS 4364

Pre-requisite(s): Junior standing or above

Analysis of specific Latin American musical traditions within their cultural, geographical, historical, and social contexts as points of departure for analyzing and understanding broader patterns and dynamics of human activity.

**MUS 4365 Music and Identity in Texas Culture (3)**

Analysis of specific Texas musical traditions within their cultural, historical, and social contexts as points of departure for analyzing broader patterns and dynamics of human activity reinforcing identity.

**MUS 4366 Performance Practices in World Music (3)**

Pre-requisite(s): Junior level standing and consent of instructor

Academic approach to a variety of performance practice techniques used in traditional and urban musical genres around the world.

**MUS 4373 Worship in the Church (3)**

A study of the music in worship from biblical times to the present. Includes strengthening worship leadership and planning skills and thereby connecting the principles and practice of music making in worship to the broader life of the Church in a local context.

**MUS 4374 The Song of the Church (3)**

Cross-listed as THEO 7397

A survey of vocal music in the Christian church, with particular emphasis upon the literary, scriptural, theological, musical, historical, and performance background of congregational song, and an introduction to selected standard sacred choral literature.

**MUS 4375 Leadership in Music Ministry (3)**

Cross-listed as THEO 7393

A survey of the principles involved in organizing and implementing a comprehensive music ministry, including budgeting, programming, and multiple staff relationships. An introduction to pastoral skills including visioning, hospital visitation, and conflict management.

**MUS 4381 Special Topics (3)**

An in-depth study of a narrowly circumscribed topic, such as a composer or genre. This course provides the opportunity to utilize special skills and knowledge of outstanding resident or visiting faculty. May be repeated for credit.

**MUS 43C1 Aesthetic Perception (3)**

Cross-listed as ARTH 43C1, ENG 43C1

See ENG 43C1 for course information.

**MUS 4F30 All-Level Student Teaching in Music (10)**

Co-requisite(s): MUS 4230

Pre-requisite(s): 2.75 minimum GPA; MUS 4001; all degree requirements completed except for MUS 4230

Practice in all student teacher proficiencies at the elementary, middle school, and secondary levels, including classroom organization and management, assessment, planning/delivery of instruction, adapting instruction for individual needs, collaboration, technology, and professionalism. A one-semester practicum for music education students. The course provides fifteen weeks of full-day supervised practice in all student teacher proficiencies at the elementary, middle school, and secondary levels, including classroom organization and management, assessment, planning/delivery of instruction, adapting instruction for individual needs, collaboration, technology, and professionalism.

**MUS 4F31 All-Level Student Teaching in Music (out-of-town) (10)**

Co-requisite(s): MUS 4230

Pre-requisite(s): 2.75 minimum GPA; MUS 4001; all degree requirements completed except for MUS 4230

Practice in all student teacher proficiencies at the elementary, middle school, and secondary levels, including classroom organization and management, assessment, planning/delivery of instruction, adapting instruction for individual needs, collaboration, technology, and professionalism. A one-semester practicum for music education students. The course provides fifteen weeks of full-day supervised practice in all student

**MUS 4V09 Advanced Electroacoustic Music Composition (1-3)**

Pre-requisite(s): MUS 4203 and consent of instructor

A continuation of MUS 4203. At least one substantial creative project will be completed. Course may be repeated for credit.

**MUS 4V10 Workshop in Elementary School Music (1-3)**

Designed especially for music teachers and elementary classroom teachers, and open to music education majors.

**MUS 4V11 Workshop in Instrumental Music (1-2)**

Designed especially for music teachers and others who are involved in instrumental music direction or instruction, and open to music education majors.

**MUS 4V12 Workshop in Choral Music (1-2)**

Designed especially for music teachers and others who are involved in choral music direction or instruction, and open to music education majors.

**MUS 4V13 Workshop in Keyboard Music (1-9)**

An intensive workshop on keyboard methods and materials.

**MUS 4V80 Independent Studies (1-3)**

Pre-requisite(s): Consent of instructor

Independent research undertaken by the student under the supervision of one faculty member. This course is limited to superior students working in their major area. It cannot duplicate the content of another course or substitute for degree requirements.

## Music Ensemble (MUEN)

### **MUEN 1010 Spring Athletic Bands (0)**

Pre-requisite(s): Audition/Instructor approval

Students enrolled in Spring Athletic Bands will rehearse and perform in support of designated spring sports and activities. Membership is open to both music and non-music majors and is determined by audition/instructor approval. Students will be selected to perform at both "home" and "away" games and activities at the discretion of the instructor. Rehearsals will occur once weekly.

### **MUEN 1050 Ensemble (0)**

Participation in various ensembles of the School of Music. Instruction approval required.

### **MUEN 1100 A Cappella Choir (1)**

The Baylor University A Cappella Choir is Baylor's premier choral organization. The seventy-voice choir sings a wide range of musical styles.

### **MUEN 1101 Orchestra (1)**

The Baylor University Symphony Orchestra is dedicated to high-quality performance of the orchestra repertoire and to the professional and artistic growth of its members. The Baylor University Concert Orchestra is a string orchestra composed of undergraduate and graduate students from a variety of curricula from across the Baylor University campus.

### **MUEN 1102 Marching Band (1)**

The Baylor University Golden Wave Marching Band of approximately 260 students from twenty states performs a pregame and halftime show for each of Baylor's home football games. In addition, the band travels to several out-of-town games.

### **MUEN 1103 Symphonic Band (1)**

The Symphonic Band is a sixty-member ensemble that performs a wide variety of literature including chamber works, masterworks for band, and contemporary wind literature. The philosophy of the Symphonic Band is to encourage musical growth in all students through careful selection of appropriate repertoire. Membership in the Symphonic Band is open to both music and non-music majors through audition in both fall and spring semesters.

### **MUEN 1104 Opera (1)**

The Opera class is an ensemble that exists to provide Vocal Students at Baylor University with appropriate performance opportunities in opera and/or musical theatre. The Baylor Opera produces at least two productions per school year. The principal production or "Showcase Opera" is produced once each year and features the Baylor Symphony Orchestra and an Opera Chorus when literature calls for one. At least one additional production is also scheduled each year, along with a smaller production or program of opera scenes. This course is strictly an Ensemble. All class, rehearsal and coaching sessions are used to prepare works for performance. Roles in Baylor Opera's productions are cast by audition.

### **MUEN 1105 Chamber Singers (1)**

The sixteen-voice Chamber Singers specialize in the performance of music of the Renaissance and Contemporary Periods. The group serves as the primary performance group of Baylor's Armstrong-Browning Library.

### **MUEN 1106 Jazz Ensemble (1)**

The Baylor Jazz program is a program dedicated to the study and performance of the uniquely American art form of Jazz. The ensembles are made up of students from many different disciplines from around the campus.

### **MUEN 1107 Concert Choir (1)**

The ninety-voice Concert Choir performs music from all styles of choral repertoire with emphasis on accompanied works.

### **MUEN 1108 Wind Ensemble (1)**

The Baylor Wind Ensemble is comprised of the finest woodwind, brass, and percussion students in the Baylor University School of Music. Membership in the ensemble is open to student of all majors by audition. The Wind Ensemble seeks to expose its students and its audiences to the highest quality of music written for wind instruments from the Renaissance to the present. This repertoire, along with regular visits by leading composers, exposes students to a wide variety of compositional techniques, rehearsal processes and expressive possibilities.

### **MUEN 1109 Concert Band (1)**

The Concert Band consists of students who come from all facets of university life. Meeting twice a week, this group offers any student the opportunity to continue instrumental performance with a limited rehearsal schedule. No audition is required.

### **MUEN 1120 Early Music Ensemble (1)**

The Baylor Early Music Ensemble performs music from the Medieval, Renaissance, and Baroque eras. Cultural contexts and historical performance practices are explored in the rich musical repertoires of our past.

### **MUEN 1121 Baylor University Men's Choir (1)**

The Baylor University Men's Choir (formerly Men's Glee Club) is an auditioned group of male musicians. The group's annual season includes performances for Parent's Weekend, Fall and Spring Concerts, Tour Concerts, the Baylor University Christmas Concerts, and frequent appearances for university guests, alumni, and members of the wider community. Membership in the choir is open by audition to all male students on the Baylor campus and includes representatives from many departments and majors. Regular rehearsals consist of two eighty-minute sessions each week.

### **MUEN 1122 Small Vocal Ensemble (1)**

This ensemble will focus primarily on contemporary a cappella and vocal jazz. The group will work to perform on campus as well as in and around the Waco community.

### **MUEN 1124 Women's Choir (1)**

The Baylor University Women's Choir is an auditioned ensemble dedicated to the study and performance of music for the female voice. Annual performances include the Parent's Weekend concert, Fall and Spring concerts, Christmas at Baylor, and hosting the Baylor Women's Choir Festival – an event attended by over 250 high school women's choir singers each year. The choir also sings at a variety of events in the community and undertakes recording projects. Membership is open through audition to female students in any degree program at Baylor.

### **MUEN 1125 Baylor Bronze (1)**

The "Baylor Bronze" handbell ensemble rings five octaves of bells and five octaves of chimes.

### **MUEN 1126 Baylor Bells (1)**

Pre-requisite(s): Consent of instructor

This performance ensemble provides a foundation for handbell ringing at the beginning and intermediate levels.

**MUEN 1130 Chamber Music (Strings) (1)**

All instrumental students participate in faculty-coached, regularly-scheduled, un-conducted ensembles. Participation in these ensembles improves the student's musical perception, technical facility and expressive capabilities. In addition to broadening the students' knowledge of repertoire for small combinations of instruments, they learn how to work together with and without supervision.

**MUEN 1131 Chamber Music (Brass) (1)**

See MUEN 1130 for general description of chamber music classes.

**MUEN 1132 Chamber Music (Woodwind) (1)**

See MUEN 1130 for general description of chamber music classes.

**MUEN 1133 Chamber Music (Percussion) (1)**

See MUEN 1130 for general description of chamber music classes.

**MUEN 1134 Harp Ensemble (1)**

See MUEN 1130 for general description of chamber music classes.

**MUEN 1135 Piano Ensemble (1)**

Introduction to literature for piano duet and piano duo from a variety of style periods. The study of piano ensemble music will provide students with new ways of listening to and thinking about solo and ensemble music.

**MUEN 1136 Studio Accompanying (1)**

First semester: Introduction to collaborative repertoire and techniques. Emphasis is on efficient personal practice methods and ensemble rehearsal techniques in the first half of the semester; special attention is given to score study, sight-reading, and time management, as well as techniques for dealing with orchestral reductions. Collaborative skills of balance, ensemble, and shared musical leadership are addressed through master class and private coaching of repertoire prepared as part of required assignments in vocal and/or instrumental studios. Subsequent semesters: Repertoire prepared as part of assignments in instrumental and vocal studios is coached privately and in master class. Collaborative skills of balance, ensemble, and shared musical leadership are emphasized, along with rehearsal techniques and study methods specific to the preparation of vocal repertoire as distinct from instrumental repertoire. Assignments include applied lessons, rehearsals, and related public performances as appropriate.

**MUEN 1137 Keyboard Skills (1)**

Designed to develop basic keyboard proficiency in sight-reading, transposition, open score reading, improvisation, accompanying, and ensemble playing. The specific roles and skills required of the church pianist, the conductor-choral accompanist, and the commercial pianist (studio, musical theater) are covered. Basic introduction to digital keyboards. Fundamentals of conducting and choral rehearsal techniques from the piano.

**MUEN 1138 Jazz Combo (1)**

This course is designed to help students to develop rehearsal and performance techniques to perform effectively and successfully in a small jazz ensemble or combo.

**MUEN 1193 Baylor Bella Voce (1)**

Pre-requisite(s): Consent of instructor

Baylor Bella Voce is a highly select women's choral ensemble of forty-two singers. Entrance into this ensemble is by audition only. The course is open primarily to music majors (voice majors, choral music education majors, and church music majors) at the undergraduate level. Students from other disciplines may be allowed into the courses as determined by the conductor of the ensemble (instructor of the course). Baylor Bella Voce performs a wide and interesting variety of choral selections reflecting various style periods and genres from the vast repertoire of treble music currently available. The ensemble presents performances within the university community, the local community, the state, and the nation, and even internationally. Through the study and performance of some of the most challenging treble literature available, students have the opportunity to maximally develop musical, vocal, and ensemble skills.

## Neuroscience (NSC)

**NSC 1101 New Student Seminar in Psychology and Neuroscience (1)**

Cross-listed as PSY 1101

See PSY 1101 for course information.

**NSC 1106 Introduction to Neuroscience Laboratory (1)**

Pre-requisite(s): NSC 1306 or concurrent enrollment

Laboratory experiments illustrating procedures in neuroanatomy, behavioral neuroscience, animal learning and behavior, and human sensation and perception.

**NSC 1306 Introduction to Neuroscience (3)**

An introduction to the biological bases of human and animal behavior.

Emphasis is placed upon neuroanatomical, neurophysiological, and behavioral methodologies which contribute to an understanding of brain-behavior relationships.

**NSC 1V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**NSC 2306 Research Methods in Neuroscience (3)**

Pre-requisite(s): NSC 1306 with a grade of B or better

An introduction to fundamental principles, techniques, and procedures that underlie neuroscience research.

**NSC 2V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**NSC 3111 Laboratory in Cognition (1)**

Cross-listed as PSY 3111

Pre-requisite(s): NSC 3311 or concurrent enrollment

Laboratory experiments illustrating methods and procedures in cognitive psychology.

**NSC 3120 Laboratory in Learning and Behavior (1)**

Cross-listed as PSY 3120

Pre-requisite(s): NSC 3320 or PSY 3320 or concurrent enrollment

Laboratory experiments illustrating methods and procedures in learning and behavior.

**NSC 3123 Laboratory in Sensation and Perception (1)**

Cross-listed as PSY 3123

Pre-requisite(s): NSC 3323 or PSY 3323 or concurrent enrollment

Laboratory experiments illustrating methods and procedures in sensation and perception.

**NSC 3311 Cognition (3)**

Cross-listed as PSY 3311

Pre-requisite(s): NSC 1106-1306, and either PSY 2402 or MTH 1321; or consent of instructor

Introduction to the structures and processes involved in human cognition, including thinking, problem solving, language, attention, and memory.

**NSC 3320 Learning and Behavior (3)**

Cross-listed as PSY 3320

Pre-requisite(s): NSC 1106-1306, and either PSY 2402 or MTH 1321 or consent of instructor

An examination of human and animal learning and behavior within a nature-nurture framework.

**NSC 3323 Sensation and Perception (3)**

Cross-listed as PSY 3323

Pre-requisite(s): NSC 1106-1306, and either PSY 2402 or MTH 1321 or consent of instructor

An introduction to the anatomical, physiological, motivational, and cognitive factors which determine conscious sensory and perceptual experience.

**NSC 3370 Affective Neuroscience (3)**

Cross-listed as PSY 3370

Pre-requisite(s): NSC 1306 and 1106

Explores the underlying neural circuits important for normal and abnormal emotional behavior and experience. Focus on neuroimaging studies of human disorders for which there is a critical mass of data regarding the neural underpinnings of psychopathology.

**NSC 3375 Sleep (3)**

Cross-listed as PSY 3375

See PSY 3375 for course information.

**NSC 3381 Neuroscience and the Law (3)**

Pre-requisite(s): NSC 1306 and (PSY 2405 or NSC 2306)

Examines neuroscience methods and research related to criminal and civil law and society at large, providing a broad overview of the major topics in the area.

**NSC 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**NSC 4119 Laboratory in Clinical Neuroscience (1)**

Cross-listed as PSY 4119

Pre-requisite(s): Credit or concurrent enrollment in either NSC 4319 or PSY 4319

Laboratory experiments illustrating methods and procedures in clinical neuroscience.

**NSC 4130 Advanced Laboratory in Neural Science (1)**

Cross-listed as PSY 4130

Pre-requisite(s): NSC/PSY 4330 or concurrent enrollment

Laboratory experiments illustrating methods and procedures in Behavioral Neuroscience.

**NSC 4312 Behavioral Medicine (3)**

Cross-listed as PSY 4312

Pre-requisite(s): NSC 1106 and 1306 or consent of instructor

Topics include the role of mind, brain, and behavior in health, disease and wellness; the history, philosophy, and current status of health care systems; physiological and behavioral analyses of stress; psychoneuroimmunology; behavioral factors in cardiovascular disease, cancer, drug abuse, and weight management.

**NSC 4317 Literature of Behavioral Neuroscience (3)**

Cross-listed as PSY 4317

Pre-requisite(s): NSC 1106-1306 and PSY 2402 or consent of instructor

An intensive introduction to the scientific literature in behavioral neuroscience. Students will be exposed to the contemporary literature through an examination of fundamental contributions in several areas. Preparation of a serious paper in a specific area of current research interest is required.

**NSC 4319 Clinical Neuroscience (3)**

Cross-listed as PSY 4319

Pre-requisite(s): NSC 1106 and 1306, and either PSY 2405 or MTH 1321 or consent of instructor

A survey of current neuroscientific contributions to the understanding of the etiology of various mental disorders. The course covers basic principles of neural science followed by an examination of motivation and emotions within a neuroscience framework.

**NSC 4324 Research on the Senses and Perception (3)**

Cross-listed as PSY 4324

Pre-requisite(s): NSC 1106-1306 and PSY 2402 or consent of instructor

A study of individual problems in perception through directed reading, independent research, and/or laboratory work.

**NSC 4330 Advanced Principles of Neural Science (3)**

Cross-listed as PSY 4330

Pre-requisite(s): NSC 1106-1306 and PSY 1305, or consent of instructor

A study of the structure and function of the human nervous system as related to behavior.

**NSC 4356 Neuropharmacology (3)**

Pre-requisite(s): NSC 1306

The pharmacology of major drugs that work primarily on the nervous system, with an emphasis on pharmacodynamics (receptor subtypes, locations, and functions).

**NSC 4371 Advanced Research in Neuroscience (3)**

Pre-requisite(s): Consent of instructor

An in-depth laboratory research experience in neuroscience as supervised by a faculty mentor.

**NSC 4V96 Special Topics in Neuroscience (1-4)**

Pre-requisite(s): Consent of instructor

May be repeated once with change of topic.

**NSC 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Nursing (NUR)

**NUR 1101 Introduction to the Art and Science of Nursing (1)**

First-year student seminar that provides an overview of general student success strategies and an introduction to the mission of Baylor University and the Louise Herrington School of Nursing. A survey of the nursing profession, career opportunities, and a faith-based understanding of holistic care. Includes a field trip that introduces students to nursing faculty members and the clinical setting.

**NUR 2340 The Experience of Illness (3)**

This course examines the human experience of illness using the narratives of persons with a variety of health conditions, essays that reflect upon the meaning of illness, and nursing research. By understanding illness from the patient's point of view, students entering the health professions will be better able to plan and deliver appropriate care. The course emphasizes class discussion and is taught as a seminar.

**NUR 3100 Continuum of Clinical Reasoning (1)**

Pre-requisite(s): NUR 3310, 3314, 3316, 3414, and 3420

Test taking skills with a focus on critical thinking. Students will apply skills in a computerized testing setting. On line resources will be utilized.

**NUR 3200 Professional Nursing Practice: Introduction to Professional Nursing (2)**

Co-requisite(s): NUR 3316, NUR 3420

Pre-requisite(s): Admission into the School of Nursing

Professional nursing practice with individuals and families experiencing obvious and/or less complex unmet human needs from diverse populations. Practicum experiences will focus on medical-surgical nursing.

**NUR 3212 Professional Development: Foundations for Practice (2)**

Pre-requisite(s): Admission to nursing major

Introduces the role of the professional nurse as a member of the interprofessional health care team, through concepts such as the nursing process, standards of practice, and philosophy of nursing from a current and historical perspective. Critical thinking, therapeutic communication and caring are also introduced as tools to enhance the nurse-patient relationship.

**NUR 3222 Professional Development: Health Promotion and Patient Education (2)**

Pre-requisite(s): Admission to the nursing major

Concepts of health promotion and patient education emphasizing theories, practice and application.

**NUR 3224 The Maturing Family (2)**

Pre-requisite(s): NUR 3212 and 3314

Issues and theories of family and aging affecting human needs fulfillment as related to the maturing family and older adult.

**NUR 3225 Professional Nursing Practice: Care of the Patient with Medical Surgical Need (2)**

Pre-requisite(s): NUR 3212, 3314, 3316, 3330, 3200, and 3420

Professional nursing practice with individuals and families experiencing less obvious and/or more complex unmet human needs from diverse populations. Practicum experiences will focus on medical-surgical nursing.

**NUR 3226 Professional Nursing Practice: Care of the Patient with Mental Health Needs (2)**

Pre-requisite(s): NUR 3212, 3314, 3316, 3330, 3200, and 3420

Professional nursing practice with individuals and families experiencing less obvious and/or more complex unmet human needs from diverse populations. Practicum experiences will focus on mental health nursing.

**NUR 3314 Health Assessment (3)**

Pre-requisite(s): Admission to the nursing major

Technique for conducting a physical assessment, collecting a health history, and documenting findings.

**NUR 3315 Physical Assessment (3)**

Pre-requisite(s): Admission to the nursing major

An auto-tutorial course, for RN students only, which introduces the concepts and techniques of physical assessment across the lifespan. The student will perform physical assessments in the campus lab setting.

**NUR 3316 Human Needs I (3)**

Pre-requisite(s): Admission in nursing major

Course introduces the human needs framework. Students are introduced to the role of the nurse as a facilitator of the nursing process. Case studies provide opportunities for learners to explore relationships among human needs, identify nursing interventions including those related to pharmaceuticals and plan care for a variety of physiologic, psychosocial and spiritual client needs.

**NUR 3317 Human Needs II (3)**

Co-requisite(s):

Pre-requisite(s): NUR 3314, 3316, 3330, 3200, and 3420

This course continues the introduction to the role of the nurse as facilitator of the nursing process within the Human Needs Framework. Case studies provide opportunities for learners to actively explore relationships among human needs, identify nursing interventions including those related to ethics and pharmaceuticals, and plan care for a variety of physiologic, psychosocial, and spiritual needs within the contact of family.

**NUR 3324 The Maturing Family (3)**

Co-requisite(s):

Pre-requisite(s): NUR 3212, 3316, and 3420

A study of topics related to human needs fulfillment of older adults, their families, and significant others in their lives. An overview of theories of aging, and survey of social, legal, and political issues and trends in the United States will provide a foundation for the nursing assessment, planning, and delivery of nursing care for the older adult. Learners will also have the opportunities to explore the application of the human needs framework to the aging process.

**NUR 3328 Mental Health Nursing: Individuals, Groups, and Family (3)**

Pre-requisite(s): NUR 3316, NUR 3330, NUR 3420, NUR 3200, and NUR 3314

Continued study of human needs framework describing selected human needs categories, relationships among human needs, interruptions in human need fulfillment, and the basis for and techniques of nursing intervention across all levels of care.

**NUR 3330 Introduction to Professional Nursing Practice (3)**

Pre-requisite(s): Admission into the School of Nursing

An introduction to the concepts of professional nursing practice, emphasizing the establishment of the nurse-patient relationship, application of the nursing process, and development of psychomotor skills.

**NUR 3350 Integration to Professional Nursing (3)**

Pre-requisite(s): Admission to joint BSN-MSN track

A professional development course with emphasis upon issues and trends impacting professional nursing practice.

**NUR 3420 Pathophysiology and Pharmacology I (4)**

Pre-requisite(s): Admission in nursing major

Course introduces the pathophysiological basis of illness as a hindrance to human needs fulfillment. Epidemiological and genetic factors influential on pathophysiology and pharmacological therapy are addressed. Interferences with human physiologic functioning and adaptive processes are identified. Pharmacological principles are included as an essential element of nursing care.

**NUR 3421 Pathophysiology and Pharmacology II (4)**

Co-requisite(s):

Pre-requisite(s): NUR 3420

This course continues the introduction to the pathophysiological basis of illness as a hindrance to human needs fulfillment. Epidemiological and genetic factors influential on pathophysiology and pharmacological therapy are addressed. Interferences with human physiologic functioning and adaptive processes are identified. Pharmacological principles are included as an essential element of nursing care.

**NUR 3425 Professional Nursing Practice II (4)**

Pre-requisite(s): All Semester I courses

Professional nursing practice with individuals and families experiencing less obvious and/or more complex unmet human needs from diverse populations. Laboratory experiences include medical-surgical and mental health settings.

**NUR 3426 Professional Nursing Practice II Fast Bacc (4)**

Pre-requisite(s): All Semester I courses

Professional nursing practice with individuals and families experiencing less obvious and/or more complex unmet human needs from diverse populations. Laboratory experiences include medical-surgical and psychiatric settings.

**NUR 4010 Medication Administration (0)**

Pre-requisite(s): NUR 3414, 3425, 4335, 4345 or 4435

Self-paced no credit mastery course focused on essential mathematical concepts and related skills in computation of medication dosages. Special considerations of safe dosages in children and of continuous IV infusion of medications are included. An individualized plan is developed for the student following an assessment exam.

**NUR 4100 Preparation for Professional Licensure (1)**

Pre-requisite(s): All semester I, II and III courses

Can be taken concurrently with other Level IV courses. This course prepares the student for the process of professional licensure by examination. Students work with the course instructor on test taking strategies, studying techniques and planning for comprehensive exit examinations.

**NUR 4225 Professional Nursing Practice: Care of the Childbearing Family (2)**

Pre-requisite(s): NUR 3225, 3226, 3317, 3324, 3328, and 3421

Professional nursing practice with individuals and families experiencing less defined and/or more complex unmet human needs from diverse populations. Practicum experiences will focus on obstetric and newborn nursing.

**NUR 4226 Professional Nursing Practice: Care of the Childrearing Family (2)**

Pre-requisite(s): NUR 3225, 3226, 3317, 3324, 3328, and 3421

Professional nursing practice with individuals and families experiencing less defined and/or more complex unmet human needs from diverse populations. Practicum experiences will focus on pediatric nursing.

**NUR 4240 Professional Development: Transition to Practice (2)**

Pre-requisite(s): All nursing courses in Semesters I and II of the major  
Entry into practice and career development concerns, ethical theories, values clarification, and current practice issues affecting the role of the nurse as a professional.

**NUR 4309 Parish Nursing (3)**

Pre-requisite(s): Consent of the instructor

Basic preparation to function as a parish/congregation nurse in a faith-based health ministry. This course includes theory related to the theology of health, healing, and wholeness. Roles and functions of the parish nurse are discussed. Emphasis is placed on how to begin a parish nurse ministry including legal and ethical considerations.

**NUR 4316 Perioperative Nursing (3)**

Pre-requisite(s): All courses in Semesters I, II and III of the major or consent of instructor

Professional nursing practice roles and skills used to promote human needs fulfillment in the preoperative, intraoperative and postoperative phases of a client's surgical experience.

**NUR 4317 High Risk Perinatal Nursing (3)**

Pre-requisite(s): All courses in Semester I, II, and III of the major

This course focuses upon nursing care to promote human needs fulfillment for families experiencing prenatal, intrapartal, postpartal and/or neonatal complications.

**NUR 4320 Complementary Therapies and Traditional Chinese Medicine (3)**

Pre-requisite(s): Consent of course instructor

The purpose of this course is to provide an opportunity for health professions students to experience a study abroad program with a focus on complementary and alternative therapies. Students and faculty will explore health and Traditional Chinese Medicine (TCM) practices within the context of the Chinese culture and health care delivery settings. Students will also examine the Chinese system of health professions education and dialogue with students enrolled in selected programs in China.

**NUR 4329 Child Health Nursing in Great Britain (3)**

Pre-requisite(s): Completion of Level III or consent of instructor

This course will explore international similarities and differences within health care delivery systems in the area of child health nursing. Exploration of the international dimensions of the discipline of pediatric nursing will take place in Great Britain. Students will identify care practices that will enhance their own nursing practice.

**NUR 4330 Women's Health in Great Britain (3)**

Pre-requisite(s): Successful completion of Level II courses or consent of instructor

Exploration of international similarities and differences within health care delivery systems in the area of women's health nursing. Problems discussed will range from the issues surrounding reproduction to the changing roles of women in society. Exploration of the international dimensions of the discipline of women's health concerns will take place in Great Britain.

**NUR 4331 Health Care in Argentina (3)**

Pre-requisite(s): Completion of Level III courses or consent of instructor  
Students will compare and contrast health care delivery and nursing care in United States and Argentina. They will tour local hospitals and clinics, follow Argentinian nursing students in their community visits, and hear from local faculty about nursing care in Argentina.

**NUR 4334 The Childbearing Family (3)**

Pre-requisite(s): NUR 3317, 3324, 3328, 3421, 3225 and 3226

Study family process, childbearing and nursing care to promote human needs fulfillment of the developing family.

**NUR 4335 Professional Nursing Practice: Transition to Practice (3)**

Pre-requisite(s): All semester III courses and successful completion of semester IV math med exam

Integrates professional nursing practice while delivering care to diverse clients experiencing complex unmet needs. Clinical settings for this concentrated, 135 hour capstone will be determined following course guidelines with consideration given to student's preferences.

**NUR 4338 Analysis and Synthesis of Complex Human Needs (3)**

Pre-requisite(s): All Semester III courses

Analysis of individuals with multiple and/or complex disruptions of human needs and the effect on individuals, families, groups, and/or communities. A case-study/discussion format will be used to integrate physiological, psychosocial, and spiritual needs across the lifespan.

**NUR 4339 The Childrearing Family (3)**

Pre-requisite(s): NUR 3317, 3324, 3328, 3421, 3225 and 3226

Identify nursing care to promote fulfillment of human needs in the childrearing family. Specific health problems of the individual from infancy through adolescence which disrupt the integrity of the family are addressed.

**NUR 4340 Global Health (3)**

Pre-requisite(s): NUR 3200, 3212, 3314, 3316, 3330, 3420 Overviews global health issues and the role of health education and public health worldwide

**NUR 4341 Nursing Professional Development: Leadership and Management (3)**

Pre-requisite(s): Completion of NUR 3225, 3226, 3317, 3324, 3328 and 3421

Overview of leadership styles and management theories will assist students in identifying and applying management concepts to promote personal and professional growth, develop professional communication skills, manage conflict, implement change, make evidence-based decisions, promote safe and effective patient care, and create a healthy work environment.

**NUR 4345 Professional Nursing Practice: Population Health Nursing (3)**

Pre-requisite(s): All Semester III courses

Professional nursing practice emphasizing meeting the health needs of culturally diverse and vulnerable individuals, families, groups, and communities. Population health principles are examined and applied as students integrate the nursing process while providing culturally relevant care. Population focused nursing practice may include experiences in family, school, occupational, home health/hospice, faith community, and public health. Nursing.

**NUR 4347 Nursing Clients with Substance Abuse Problems (3)**

Pre-requisite(s): All courses in Semesters I, II, and III of the major or consent of instructor

A study of nursing care including health promotion, prevention and treatment of a variety of client populations experiencing alcohol and drug problems including race/ethnic minorities, the elderly, adolescents and women. Nursing research related to alcohol and drug problems and the role of the nurse in advanced practice in addictions nursing will be investigated.

**NUR 4351 Professional Development: A Consumer of Research (3)**

Pre-requisite(s): NUR 3317, 3324, 3328, 3421, 3225, 3226

Concepts and methods of research.

**NUR 4353 Community and Culture (3)**

Pre-requisite(s): NUR 4351, 4334, 4339, 4341, 4225 and 4226

The nurse's responsibility in the delivery of health care to communities. Emphasis is placed on identifying unmet human needs and designing and evaluating culturally appropriate nursing care.

**NUR 4356 Oncological Nursing (3)**

Pre-requisite(s): All courses in Semesters I, II, and III of the major or consent of the instructor

The application of the nursing process for clients experiencing unmet human needs related to cancer. Nursing care will encompass health promotion, maintenance, restoration, rehabilitation, and illness prevention. Laboratory experiences with oncology clients will be provided.

**NUR 4357 Women's Health Concerns (3)**

Pre-requisite(s): All courses in Semesters I, II, and III of the major or consent of the instructor

This course will serve as an overview of physical, social, behavioral and environmental health concerns and needs of women throughout their life-spans. The course is designed to expand prior knowledge as it relates specifically to women's health, including the latest developments in the prevention, diagnosis, and treatment of diseases, and the impact of social, policy, and environmental factors on women's health.

**NUR 4358 The Role of the Nurse as Lactation Educator and Consultant (3)**

Pre-requisite(s): Completion of all Level III courses or consent of instructor

Nursing care required to promote human needs fulfillment for families who have chosen breastfeeding as the method for providing nutrition for their newborn/infant/toddler.

**NUR 4359 Health Promotion (3)**

Pre-requisite(s): Level I II and commitment to pursue an activity to improve personal health

This course focuses on knowledge, skills, beliefs, and values from previous life experiences and nursing courses in order to develop a broader understanding of human needs through the study of health and health promotion. The course will provide an opportunity for the student to examine his/her own values and beliefs in order to meet human needs through an individualized program and personal health promotion.

**NUR 4360 Nursing and Health Care in Great Britain (3)**

Pre-requisite(s): NUR 3200, 3212, 3314, 3317, 3330, and 3420

Becoming more familiar with health care systems outside the United States equips nurses to expand their perspective and provide care that is competent, compassionate and current. This course will examine nursing within the British health care system, including nursing education, nursing roles within the health care system and health policy.

**NUR 4376 Nursing Care of the Family Experiencing Violence (3)**

Pre-requisite(s): All courses in Semesters I, II, and III of the major or consent of the instructor

A study of an interdisciplinary approach for the care of the family experiencing violence. Human needs are examined as they relate to dysfunctional interaction among family members. Assessment and plans for nursing interventions are made within the context of family, community, and society.

**NUR 4377 Transcultural Nursing: Integrating Care for Spiritual and Physical Needs (3)**

Pre-requisite(s): All courses in Semesters I and II of the major  
 Health care needs for clients from selected cultural groups having various religious and/or spiritual beliefs. Emphasis is placed on the impact of spiritual aspects that influence the client's seeking and accepting health care. Adaptation of nursing care including assessment, nursing interventions, and client teaching to clients of selected cultures will be explored. The role of the nurse in integrating care for both spiritual and physical needs of the client will be emphasized.

**NUR 4378 The Role of the Clinical Research Nurse (3)**

Co-requisite(s):  
 Course will serve as an introduction to the specialty practice of Clinical Research Nursing (CRN) and provide the foundation on concepts essential to the dimensions of CRN practice. Course will be hybrid; students to participate in prescheduled in-class seminars and online class assignments. Course also includes one-to-one mentorship with assigned CRN. Honors College students will develop thesis proposal in addition to course requirements.

**NUR 4387 Environmental Issues and Their Impact on Health and Human Needs (3)**

Pre-requisite(s): All courses in Semester I and II of the major or consent of the instructor

A study of environmental issues and examination of their effect on human needs fulfillment. A review of the United States' progress in improving the condition of its environment and the management of its natural resources is included.

**NUR 4388 Emergency Nursing (3)**

Pre-requisite(s): All courses in Semester I, II, and III of nursing major or consent of instructor

Nursing care that facilitates human need fulfillment for a diverse population of clients in an emergency setting. Students will be provided an opportunity to enhance previously learned nursing skills as they are applied to promote, maintain and restore an optimal level of health to individual clients and families.

**NUR 4389 Nursing and Spirituality (3)**

Pre-requisite(s): All courses in Level I and II or consent of instructor  
 Concepts of spirituality and the relationship to the development of the professional nurse. Emphasis placed on application of Christian values and standards to nursing practice.

**NUR 4390 Camp Nursing Elective (3)**

Pre-requisite(s): NUR 3100, 3310, 3314, 3316, 3317, 3324, 3414, 3420, 3421, 3425, and 4334

This course explores the aspects of nursing in a Christian camp setting. The focus of this course is on applying the nursing process to identify and fulfill the needs of the well child (school age through adolescents) and adult. This course consists primarily of direct provision of nursing interventions under supervision of an RN and/or physician.

**NUR 4391 Care of the Geriatric Client (3)**

Pre-requisite(s): Completion of Semester III level courses or consent of instructor

In-depth nursing knowledge, skill and understanding in dealing with chronic disease states of the geriatric population with exploration of interdisciplinary approaches and community resources. The role of the geriatric nurse will be emphasized. The Standards of Gerontological Nursing will be utilized as a guide for nursing care of the geriatric adult.

**NUR 4395 Introduction to Global Health (3)**

Cross-listed as PUBH 4340

Pre-requisite(s): NUR 3200, 3212, 3314, 3316, 3330, 3420 This study abroad course will increase understanding of complex global health topics and diverse population health care needs  
 Cultural, community, environmental, economic, political, and policy influences on global health will be explored. The course focuses on key global health concepts to enhance effectiveness in health care related policy and practice for interdisciplinary students interested in global health.

**NUR 4396 Independent Study (3)**

Pre-requisite(s): All courses in Semesters I and II of the major  
 Additional course prerequisites vary with topic selected. Subject to proposal approval. GPA 2.75. The opportunity for in-depth study in an area of nursing of his/her choice is provided. Following approval of course proposal, the student will, in collaboration with an assigned faculty member, implement and evaluate the learning experience.

**NUR 4397 End of Life Care (3)**

Pre-requisite(s): Completion of all Semester I II, and III courses or consent of the instructor

In-depth exploration of the alteration in human needs and the nursing care required by terminally ill clients and their families.

**NUR 4398 Introduction to Critical Care Nursing (3)**

Pre-requisite(s): All courses in semester I, II and III of major  
 Focus on nursing care and issues that are commonly associated with clients admitted to Critical Care Nursing Units. Clinical experiences will provide an opportunity to enhance previously learned nursing skills for application within the framework of nursing practice in the complex setting.

**NUR 4435 Professional Nursing Practice III (4)**

Pre-requisite(s): All Semester II courses

Professional nursing practice with individuals and families experiencing less defined and/or more complex unmet human needs from diverse populations. Laboratory experiences include acute care and outpatient pediatric and obstetric settings.

**NUR 4436 Professional Nursing Practice III Fast Bacc (4)**

Pre-requisite(s): All Semester II courses

Professional nursing practice with individuals and families experiencing less defined and/or more complex unmet human needs from diverse populations. Laboratory experiences include acute care and outpatient pediatric and obstetrical settings including neonatal settings, women's health clinics, and childbirth parenting classes.

**NUR 4V06 Life Span Development (1-4)**

This variable credit course provides the opportunity for students who have taken a human development course that did not cover the whole lifespan to meet the requirements by independent study.

**NUR 4V07 Special Studies in Nursing (1-4)**

This variable credit course provides the opportunity for students who have taken nursing courses at another university to meet our course objectives which were not covered by those courses.

**NUR 4V08 Special Topics in Nursing (1-3)**

The special topics, variable credit course provides opportunity for independent and individualized courses of study. This course does not satisfy the elective credit in the major.

**NUR 4V67 Nursing Care of the Transplant Client (3-4)**

Pre-requisite(s): All courses in Semesters I, II, and III of the major or consent of the instructor

The application of knowledge and skills from previous nursing courses to the care of individuals with a serious illness requiring an organ transplant and nursing care to facilitate human needs fulfillment. Laboratory experiences on the transplant units, in intensive care and the transplant clinic will provide opportunities for increasingly complex decision-making and psychomotor skills and application to all levels of care.

## Nutrition Sciences (NUTR)

**NUTR 1401 Introduction to Food Science (4)**

Comprehensive study and experimental laboratory investigation of food constituents with a focus on chemical and physiochemical properties and reactions, including sensory evaluation, microbial safety, and food preservation.

**NUTR 2101 Introduction to the Profession of Nutrition and Dietetics (1)**

History of the profession and the skills and functioning of nutrition and dietetics professionals. Prepares students for their undergraduate major and for entrance into the supervised practice.

**NUTR 2351 Nutrition (3)**

Pre-requisite(s): CHE 1300 or 1301 or 1405; or BIO 1305 or 1401 or 1405  
Scientific approach to the essential nutrients for human growth and development. Macronutrients, micronutrients, and human metabolism have details coverage; a computer diet analysis is conducted.

**NUTR 2380 Intro to Food Delivery Systems (3)**

Pre-requisite(s): A minimum grade of C in NUTR 1401 and NUTR 2351, or consent of the instructor

Introduction to meal service in the setting of the home, institutions, childcare, and restaurants. Management of meal planning, preparation, and service. Emphasis on equipment usage and maintenance and time, money, and nutrient management.

**NUTR 3188 Introduction to the Nutrition Care Process (1)**

Pre-requisite(s): Upper-level standing

Introduction to the Nutrition Care Process (NCP) with an emphasis on the Nutrition Assessment and Nutrition Diagnosis components of this standard protocol, including application of nutrition-focused physical assessment. Medical terminology pertinent to the NCP will also be discussed.

**NUTR 3314 Consumer Nutrition (3)**

Pre-requisite(s): Upper-level standing

Survey of basic nutrition and current issues focusing on personal nutrient needs. Not open to nutrition sciences majors, minors or other students who have taken NUTR 2351.

**NUTR 3351 Nutrition Counseling and Education (3)**

Pre-requisite(s): A minimum grade of C in NUTR 2351

Nutrition counseling and education strategies that can be used for dietary behavior change, emphasizing practical aspects of nutrition counseling.

**NUTR 3386 Experimental Foods (3)**

Pre-requisite(s): A minimum grade of C in NUTR 1401; and BIO 1305, CHE 1301 and 1341, STA 1380 or 2381

Investigation of the composition, functional properties, and reactions of food components. The study of chemical-physical changes which result from processing materials comprising foods. Study of experimental techniques for product development.

**NUTR 3388 Introduction to Medical Nutrition Therapy (3)**

Pre-requisite(s): BIO 1305, [2401 and 2402] or 3322; CHE 1301, 1341; NUTR 3188; and a minimum grade of C in NUTR 2351

In-depth study and proficiency testing of the nutrition care process, medical vocabulary, medical records, clinical math, diabetes, and cardiovascular disease.

**NUTR 3435 Food Service Production (4)**

Pre-requisite(s): A minimum grade of C in NUTR 1401, 2351, and 2380

Quality food production techniques, procedures, and management of meals serving fifty or more people. The function and methods of food management (for profit) will be emphasized in this course.

**NUTR 4151 Nutrition Practicum (1)**

Pre-requisite(s): Departmental approval required

Supervised field experiences in nutrition education and program delivery. A minimum of one hour each week is required in a seminar setting. May be repeated for a maximum of 4 credit hours.

**NUTR 4200 Seminar in Nutrition Sciences (2)**

Pre-requisite(s): Senior standing or consent of the instructor

Professional aspects of nutritional sciences with concentration on ethics, credentialing, communications, marketing, and public policy techniques.

**NUTR 4351 Life Cycle Nutrition (3)**

Pre-requisite(s): A minimum grade of C in NUTR 2351 or consent of instructor

Nutritional needs of individuals as they progress through the life cycle from birth through aging, with considerations of concomitant problems.

**NUTR 4352 World Nutrition (3)**

Pre-requisite(s): A minimum grade of C in NUTR 2351 or consent of the instructor

World hunger as a major international problem. The effects of malnutrition on growth, health, and economic output will be examined.

**NUTR 4386 Nutrition for Sport and Fitness (3)**

Pre-requisite(s): NUTR 2351, BIO [2401 and 2402] or 3322, and upper-level standing or consent of instructor

Nutritional concepts for individuals and team sport participants across the life cycle with a particular focus on selection of optimal dietary approaches as related to performance needs, maximizing performance, body comparison, energy balance, and unique nutrient needs for specific sport participants. Food and nutrition quackery in sports will also be addressed.

**NUTR 4387 Advanced Nutrition (3)**

Pre-requisite(s): Nutrition Sciences majors must have a grade of C or higher in NUTR 2351, BIO 1305, CHE 1301, 1341, and 3341

Nutrients and their roles in human health. Emphasis on trends in nutritional research.

**NUTR 4388 Medical Nutrition Therapy (3)**

Pre-requisite(s): A minimum grade of C in NUTR 3388

In-depth study of various disease states with a focus on pathophysiology and evidence-based medical nutrition therapy interventions. Field experience in clinical dietetics is required.

**NUTR 4395 Special Studies in Nutrition, Food science and food production (3)**

Current issues in nutrition, food science or food production can be explored through seminars, special topics, and practicums. May be repeated with different content for a maximum of 6 semester hours.

# Philanthropy & Public Service (PPS)

## PPS 1100 Introduction to Citizenship and Community Service (1)

Volunteerism and community service as related to poverty, literacy, local political participation, mentoring, peer education, community law enforcement, gender, and neighborhood development. In addition to one weekly classroom hour, a minimum of two hours per week of community service is required. May be repeated a maximum of four times with a different topic each time.

## PPS 1102 Community Law Enforcement (1)

Examination of the criminal justice system, law enforcement, police, courts, and the corrections system through service-learning, as well as classroom instruction.

## PPS 2301 Leadership and Social Change (3)

Theory and practice of leading groups toward positive social change, emphasizing issues such as poverty, public education, and systemic inequality. A minimum of sixty hours of public service outside of class required.

## PPS 3300 Citizenship, Community, and Service Learning (3)

Pre-requisite(s): Upper-level standing or consent of instructor  
Intensive integration of academic study with service learning opportunities in the community. Course emphasis will vary by semester. Seminar discussions, readings, and personal reflection will enrich the community volunteer experience. A minimum of three hours per week of community service is required.

## PPS 3301 Public Policy Innovation and the Common Good (3)

The role of public and private actors in the making and implementation of public policies directed to address complex problems. Special focus on the collaborative efforts of government and nonprofit entities as they seek solutions that contribute to the public good.

## PPS 3302 Criminal Justice and Community Law Enforcement (3)

Cross-listed as CCS 3302, PSC 3302

Examination of the criminal justice system, law enforcement, police, courts, and the corrections system from the perspective of law enforcement personnel, alleged offenders, and victims of crime.

## PPS 3372 Law, Justice and the Community (3)

Cross-listed as PSC 3372

Pre-requisite(s): Upper-level standing

Introduction to legal practice. Contains community service component and required internship in legal offices.

## PPS 4301 Social & Economic Innovation (3)

Pre-requisite(s): Upper-level standing or consent of instructor

Develop theoretical and historical frameworks to understand how social and economic innovation can be employed to promote human flourishing. Students participate outside class in social and economic innovation in the community through partner-led projects and interactions.

## PPS 4302 Civic & Community Innovation (3)

Pre-requisite(s): Upper-level standing or consent of instructor

Develop understanding of how institutions across the public, private, and social sectors can collaborate and innovate to promote human flourishing. Involves partnerships with the City of Waco in which students apply learning to promote community improvement initiatives.

## PPS 4303 Christian Social Innovation (3)

Pre-requisite(s): Upper-level standing or consent of instructor

Examines historical, theological, and theoretical frameworks, along with strategies that encourage Christians to build, renew, and transform institutions. Students spend time outside class working with institutions throughout the community to promote human flourishing.

## PPS 4304 Nonprofits, the Social Sector, & Philanthropic Innovation (3)

Pre-requisite(s): PPS 1100 or approval of instructor

Explores the role of nonprofit organizations and the social sector in a democratic society. Evaluates effective practices in consultation with nonprofit leaders and engages with nonprofit partners to explore new innovations for social impact.

## PPS 4310 Philanthropy, Civil Society, & the Public Good (3)

Pre-requisite(s): Upper-level standing

The role of philanthropy and civil society in public problem solving with an introduction to ethics and importance of financial giving and community investments. Students will spend significant time outside class working with foundations and nonprofits.

## PPS 4V98 Advanced Study in Philanthropy and Social Innovation (1-4)

Advanced study in philanthropy, the social sector, and social innovation, with emphasis on cross-sector collaboration and innovative approaches to pursuing the public good.

# Philosophy (PHI)

## PHI 1301 Introductory Topics in Philosophy (3)

A writing-intensive introduction the major philosophical topics, themes, and thinkers. Students develop the ability to read texts critically and to write well-researched argumentative essays about perennial philosophical questions.

## PHI 1302 Introduction to Philosophy (Non-writing Intensive) (3)

An introduction to the major philosophical topics, themes, and thinkers. Students develop the ability to read texts critically.

## PHI 1306 Logic (3)

A study of the basic principles and methods for distinguishing good and bad reasoning across a broad range of contexts, with an emphasis on deductive reasoning. Students develop formal tools to identify, reconstruct, and evaluate arguments, and to compose argumentative essays of their own.

## PHI 1307 Critical Thinking (3)

The development of critical, coherent, and creative thinking, including understanding, analyzing, and evaluating the claims of others, organizing ideas clearly, and constructing sound arguments. Development of sensitivity to argumentation technique and to the language in which arguments are expressed, with particular attention to the persuasive techniques of advertising and other controversial issues in the mass media.

## PHI 1308 Contemporary Moral Problems (3)

An introduction to philosophical issues and theories associated with the normative assessment of human behavior through engagement with one or more contemporary social issues such as poverty, war, immigration, affirmative action, drug legalization, abortion, sexuality, animal rights, and the environment.

## PHI 1309 Introduction to Medical Ethics (3)

Introduction to philosophical reasoning regarding medical ethics, including confidentiality, intervention in the beginning and ending of human life, and just distribution of medical resources.

## PHI 1310 Computer Ethics (3)

Analysis of ethical problems for information technologies. Topics include ethical implications of new possibilities in information technologies, privacy, ownership, professional codes of conduct as they relate to society, and role of information technologies in shaping morality of government, education, politics, business, and society.

**PHI 1V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**PHI 2301 Existentialism (3)**

An examination and evaluation of philosophical themes and methods in existentialist writings. Themes such as freedom, anxiety, despair, nothingness, alienation, death, God, the impotence of reason, the conflict between individuality and the dehumanizing tendencies of mass society, and the conflict between authentic self and inauthentic self are considered. Attention is focused upon the work of such thinkers as Kierkegaard, Nietzsche, Jaspers, Heidegger, Marcel, Sartre, and Camus.

**PHI 2303 Philosophy in Literature (3)**

A critical engagement of the philosophical ideas represented in selected literary texts, such as science fiction, dystopian fiction, the inklings, or existentialist literature, indicated by course subtitle. Examines a wide variety of philosophical topics with special attention to the role of imagination.

**PHI 2305 Philosophy and Religion (3)**

Pre-requisite(s): Students will be required to take the English Placement Exam (EPE) before registering for a course on the Research Writing Distribution List, unless they have achieved one of the following: A score of 20 or above on the English component of the ACT, or a score of 500 or above on the Critical Reading component of the old SAT or 28 or above on the Reading component of the new SAT  
A writing-intensive introduction to philosophical issues arising from religious belief and practice. Students develop the ability to read texts critically, and to write clear argumentative essays about such topics as faith and reason, the problem of evil, and the coherence of doctrines like atonement and incarnation.

**PHI 2308 Philosophical Texts (3)**

A study of central philosophical texts in their historical context and for their enduring philosophical contributions. Possible texts include Plato's Republic; Aristotle's Nicomachean Ethics, Augustine's Confessions, St. Thomas's Summa, Descartes' Meditations, Kierkegaard's Fear and Trembling, and Nietzsche's Thus Spoke Zarathustra. May be taken a maximum of two times if different topics, not to exceed six semester hours.

**PHI 2309 Philosophical Traditions (3)**

An introductory study of a central philosophical tradition in its historical context and for its enduring philosophical contribution. Possible traditions include existentialism, feminism, political liberalism, pragmatism, post-modernism, naturalism, positivism, and scholasticism. May be taken a maximum of two times if different topics, not to exceed six semester hours.

**PHI 2310 Law, Science and Society (3)**

A study of philosophical issues arising at the intersections of law, morality, science, and society. The course will consider such issues as the proper relation between morality and law, civil disobedience, racism, feminism, equal opportunity and justice, abortion, euthanasia, animal rights, punishment, pornography, creationism, and moral aspects of technological development.

**PHI 2370 Business Ethics (3)**

An analysis of moral issues that arise within the economic sphere of society and specifically within profit and nonprofit organizations. The nature and justification of moral decision making will be examined. Topics may include moral issues involving the relationships between business and other social organizations, ecology, the social responsibility of entrepreneurs, and personnel and policy decisions.

**PHI 2V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**PHI 3301 Moral Philosophy (3)**

A critical study of problems in moral judgment and evaluation, with analysis of presuppositions and justifications used in moral discourse. Problems such as freedom and determinism, relativism and absolutism, conflicts of duties and ends, grounds of moral obligation, and choices involving personal and social goals are also studied. This course will introduce students to a number of major primary sources in the history of moral philosophy.

**PHI 3305 British Philosophy and Culture (3)**

This course is designed for Baylor University's study-abroad program. (Note: see section in this catalog regarding foreign study.) While the specific course content will vary with the instructor, attention will be given to the way issues have been addressed by philosophers in the British Isles such as Thomas More, Francis Bacon, Hobbes, Locke, Hume, John Stuart Mill, Wittgenstein, Bertrand Russell, and Gilbert Ryle. The philosophical ideas of literary figures such as Jane Austen, Robert Browning, and William Wordsworth may also be considered. Discussions will be developed in the rich settings of cathedrals, theaters, universities, and museums.

**PHI 3310 History of Philosophy: Classical Philosophy (3)**

Historical context in which philosophy developed and how the original issues of philosophy continue to inform historical and contemporary philosophical debate. Emphasizes the reading of primary sources: Homer, Hesiod, the pre-Socratics, the Sophists, Plato, and Aristotle, and the study of Stoicism, Epicureanism, and Skepticism.

**PHI 3312 History of Philosophy: Modern European Philosophy (3)**

A study of the major developments in philosophy from the Renaissance through the first half of the nineteenth century. The demise of late Scholasticism, the rise of modern science, the philosophies of the Continental Rationalists and the British Empiricists, the critical philosophy of Kant, and German Idealism are considered. Philosophers studied include Descartes, Leibniz, Spinoza, Hobbes, Locke, Berkeley, Hume, Kant, Hegel, Marx, Schopenhauer, Kierkegaard, and Nietzsche.

**PHI 3318 Philosophy and Constitutional Issues (3)**

Pre-requisite(s): Upper-level standing  
The examination of certain philosophical issues that are raised by the U.S. Constitution, and especially by the Bill of Rights and the 14th Amendment.

**PHI 3320 Philosophical Issues in Feminism (3)**

A critical study of philosophical issues in feminism including moral issues of equal rights and justice, sex role stereotypes, equal opportunity and reverse discrimination, equality between the sexes, abortion, and philosophers' theories of feminism. Topics may vary from semester to semester.

**PHI 3322 Philosophy and the Arts (3)**

Cross-listed as ARTH 3390  
A survey of the major contemporary sources in aesthetics. Problems discussed are concerned with the aesthetic experience, the interpretation of art (including the definition of art, the nature of metaphor, the relation of art to knowledge, meaning in art), and criticism in literature and other art forms.

**PHI 3339 Law and Religion (3)**

Cross-listed as PSC 3339, REL 3339

Relationships between government and religion, especially, United States Supreme Court decisions dealing with prayer and Bible reading in public schools, government aid to church-related schools, and religious liberty rights of individuals and churches. Philosophical debates about the nature of religious free exercise and establishment, their justification, and their relationship to different political theories. Note for undergraduate religion majors: This course will be accepted as three elective hours on a religion major, but will not be accepted for credit on a minor in religion or toward the six hour religion requirement by the University.

**PHI 3395 Historiography and the Philosophy of History (3)**

Pre-requisite(s): Six semester hours of history or consent of instructor

An introduction to ancient, medieval, and modern historiography and the development of the philosophy of history. Critical consideration will be given to traditional thought about concepts fundamental to history, including the ideas of historical explanation, purpose, cause, and interpretation. Emphasis will be given to methods of historical research and writing.

**PHI 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**PHI 4300 History of Medicine (3)**

Cross-listed as HIS 4300, MH 4300

See MH 4300 for course information.

**PHI 4301 War and Morality (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

An analysis of the moral and philosophical issues arising from military operations around the world, whether formal or informal, historical and contemporary.

**PHI 4310 Philosophy of Science (3)**

An analysis of philosophical problems about science. Such central concepts as law, causation, induction, hypothesis, theory, verification, and models are studied. Presuppositions and methodologies of different sciences may be examined. The relation of scientific views to moral, social, and metaphysical problems is considered.

**PHI 4311 Epistemology (3)**

Pre-requisite(s): Two PHI courses or consent of instructor

A critical examination of classical and current problems in theories of knowledge. Attention is given to such problems as meaning, truth, the knowing situation, universals, knowledge of the external world and of other minds, and validation of knowledge claims. The contributions of recent movements such as logical empiricism, linguistic analysis, phenomenology may be studied.

**PHI 4314 History of Philosophy: Patristic and Medieval (3)**

The history and development of philosophy from 250 to 1400 A.D. Some of the major philosophers studied include Augustine, Boethius, John Scotus Erigena, Anselm, Abelard, Avicenna, Averroes, Maimonides, Bonaventure, Thomas Aquinas, John Duns Scotus, and William of Ockham. Special emphasis will be placed on the significance of pre-Enlightenment thinkers to the development of the Enlightenment and Modernity.

**PHI 4317 Philosophy of Mind (3)**

Pre-requisite(s): Two PHI courses or consent of instructor

Critical examination of current problems in philosophy of mind, focusing on the relationship between mind and physical world. Central issues include the nature of consciousness, and the nature of mental content; secondary topics may include, reductionism, functionalism, non-reductive materialism, epiphenomenalism, panpsychism, and dualisms of various forms.

**PHI 4318 Philosophy of Law (3)**

A critical study of historical and contemporary approaches to primary issues in jurisprudence and the philosophy of law, including tort law, criminal law, and Constitutional law.

**PHI 4319 Philosophical Writing, Research and Oral Presentation (3)**

Pre-requisite(s): Upper-level standing and consent of instructor

Enhancing philosophical writing skills, promoting proficiency with new computer research technologies, and refining oral communication skills.

**PHI 4320 The Philosophy of Religion (3)**

Pre-requisite(s): Two PHI courses or consent of instructor

A philosophical inquiry into such topics as the existence and nature of God, religious experience, immortality, the problem of evil, the relationship between reason and faith, the meaning of religious language and symbols, and the validity of religious knowledge claims. Methods of contemporary philosophical analysis are used in clarifying religious concepts.

**PHI 4321 Metaphysics (3)**

Pre-requisite(s): Two philosophy courses or consent of instructor

A critical analysis of classical and contemporary metaphysical systems and problems. These include the world views found in the philosophies of naturalism, idealism, personalism, positivism, pragmatism, organicism, and existentialism. Problem areas considered are mind-body relations, cosmology, ontology, philosophical anthropology, universals, determinism, and freedom. Basic categories such substance, cause, time, space, matter, and form are critically examined. Attention also is focused upon methods and criteria employed in metaphysical study.

**PHI 4324 Philosophy in Literature (3)**

A critical study of philosophical material in literature, that is, a study of the philosophy to be found in essays, novels, poems, and plays. Among the authors usually studied are Plato, Aristotle, Theophrastus, Lucretius, Voltaire, Goethe, Ibsen, Nietzsche, Kafka, Camus, Sartre, Malraux, Hesse and selected contemporary novelists.

**PHI 4325 Literary and Philosophical Perspectives on Medicine (3)**

Pre-requisite(s): Open to Philosophy and Medical Humanities majors and minors only; or consent of instructor

Examination of literature dealing with illness, disease, pain, and death in order to understand better how societal perceptions and values of the care-giver affect the patient.

**PHI 4331 Latin American Philosophy (3)**

Pre-requisite(s): Upper-level standing

Philosophical and intellectual movements in Latin America from the colonial times to the present. These movements include scholasticism, eclecticism, utilitarianism, romanticism, positivism, vitalism, phenomenology, and existentialism and philosophies of liberation. Works of major representatives of these movements (including such men as Bello, Mora, Sierra, Varona, Deustua, Caso, Korn, Vasconcelos, Farias Brito, Vaz Ferreira, and Romero) are studied.

**PHI 4340 East Asian Philosophy (3)**

Cross-listed as AST 4340

An historical and critical survey of the major movements in Chinese, Indian, or Japanese philosophy. Course may be repeated once with different area of concentration.

**PHI 4341 Contemporary Continental Philosophy (3)**

A critical study of philosophical movements in Europe during the past one hundred and fifty years. Some of the major philosophers studied include Nietzsche, Husserl, Adorno, Heidegger, Merleau-Ponty, Sartre, de Beauvoir, Wittgenstein, Russell, Carnap, Gadamer, Habermas, Lyotard, Foucault, and Derrida. Movements studied include phenomenology, positivism, naturalism, critical theory, existentialism, structuralism, deconstructionism, and post modernism. Course may be repeated once with a different area of concentration.

**PHI 4342 Contemporary American Philosophy (3)**

A critical study of philosophical movements in the United States during the past one hundred years. Some of the philosophers whose works are studied include Pierce, James, Royce, Dewey, Mead, Lewis, Santayana, Whitehead, and Quine. Recent movements such as critical realism, naturalism, humanism, personalism, logical positivism, and linguistic analysis are also studied.

**PHI 4345 Intermediate Logic (3)**

Cross-listed as MTH 3345, PHI 3345

Pre-requisite(s): Upper-level standing

The language of first-order logic as a formal deductive system.

**PHI 4353 Philosophy of Language (3)**

Pre-requisite(s): Prerequisite(s): Two PHI courses or consent of instructor

Critical examination of the basic problems in general semantics and philosophy of language, giving special attention to the major authors in these fields.

**PHI 4360 Contemporary Ethical Theory (3)**

Pre-requisite(s): Two philosophy courses or consent of instructor  
Major issues in contemporary ethical writings. Course may be repeated once for credit if topic varies.

**PHI 4361 Social Philosophy (3)**

Cross-listed as PSC 4353

A critical survey of the fundamental concepts and theories used in justifying social institutions. Problems such as authority, law, freedom, rights, equality, responsibility, power, justice, the state, and justification of open societies are considered.

**PHI 4363 Philosophy and Medicine (3)**

Philosophical approaches to clinical medicine and contemporary health care, focusing on experience as a basis for knowledge.

**PHI 4365 Jewish Philosophy (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Jewish philosophy in the twentieth century, with emphasis on the relation between mortality and morality, justice and totalitarianism, faith after the Holocaust, and individualism and revolution.

**PHI 4379 Islam and Democracy (3)**

Pre-requisite(s): Upper-level standing

Examines the evolution of political philosophy and institutions in Muslim culture.

**PHI 4385 Religious Ethics in a Liberal Democracy (3)**

Pre-requisite(s): Upper-level standing

Addresses both historical and contemporary arguments about the relationship between religious morality and liberal democracy. Pays particular attention to the debate about the role of religious forms of ethics/morality in public debate, public choices, and the decisions of political actors.

**PHI 4V99 Special Topics in Philosophy (1-3)**

Pre-requisite(s): Senior or graduate standing and consent of instructor  
Faculty-directed individual, group, or class research project. Course may be taken up to three times with a different topic for a maximum of 9 credit hours.

**PHI 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Physical Therapy (PT) Physics (PHY)

**PHY 1025 Finding Success in Physics (0)**

New Student Experience (NSE) course that introduces students in physics, astronomy or astrophysics to the benefits and challenges of studying these subjects. Includes an introduction to research areas and strategies for problem solving in physics.

**PHY 1404 Light, Vision and Optics (4)**

A conceptual course on the physics of light, optics, photography, vision, color, and other visual phenomena.

**PHY 1405 Everyday Physics (4)**

Concepts and historical development of physics; selected topics as they apply to physics encountered in everyday life. This course is not intended for students pursuing a science major. (Does not apply toward a major in physics.)

**PHY 1407 Sound and Acoustics (4)**

Physics of sound and sound production, including the nature of sources of sounds. Introduction to the primary instrumentation used in recording, reproduction, and analysis of the physical properties of sound, and a study of the principal physical properties of architectural acoustics.

**PHY 1408 General Physics for Natural and Behavioral Sciences I (4)**

Pre-requisite(s): MTH 1320, 1321 or 1322, or equivalent or concurrent enrollment in MTH 1321 or 1322

The fundamentals of mechanics, heat, and sound, with emphasis on physical concepts, problem solving, notation, and units. (PHY 1408 and 1409 or PHY 1420 and 1430 satisfy premedical, predental, and liberal arts requirements.)

**PHY 1409 General Physics for Natural and Behavioral Sciences II (4)**

Pre-requisite(s): PHY 1408 or 1420

The fundamentals of electricity, magnetism, light, and modern physics, with emphasis on physical concepts, problem solving, notation, and units. (PHY 1408 and 1409 or PHY 1420 and 1430 satisfy premedical, predental, and liberal arts requirements.)

**PHY 1420 General Physics I (4)**

Pre-requisite(s): MTH 1321 or concurrent enrollment

Principles and applications of mechanics, wave motion, sound, and heat with emphasis on fundamental concepts, problem solving, notation, and units.

**PHY 1430 General Physics II (4)**

Pre-requisite(s): PHY 1408 or 1420; and MTH 1322 or concurrent enrollment

Principles and applications of electricity, magnetism, light, and modern physics, with emphasis on fundamental concepts, problem solving, notation, and units.

**PHY 1455 Descriptive Astronomy (4)**

The fundamentals of astronomy and its relationship to human development. Emphasis on the solar system, planets, asteroids, meteoroids, and comets.

**PHY 1V95 Independent Study in Physics (1-3)**

Pre-requisite(s): Consent of instructor

Independent study under the supervision of a faculty member in the department. May be repeated once for credit up to a maximum of six semester hours.

**PHY 1V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**PHY 2135 Basic Electronics Laboratory (1)**

Pre-requisite(s): PHY 1430

Principles and applications of electrical circuits and electronics for physical science majors.

**PHY 2190 Introduction to Research in Physics (1)**

Pre-requisite(s): PHY 2350

Preparation for undergraduate research. Includes an introduction to research techniques, identification of a research supervisor, and completion of a research prospectus.

**PHY 2350 Modern Physics (3)**

Pre-requisite(s): PHY 1430 and MTH 1322

Special relativity, introduction to quantum mechanics, atomic and molecular structure, nuclear and particle physics.

**PHY 2360 Mathematical and Computational Physics (3)**

Co-requisite(s):

Pre-requisite(s): PHY 1430 and MTH 2321; and MTH 2311 or concurrent enrollment

Topics normally include matrices and vector calculus, coordinate transformations, numerical solutions using Matlab and Mathematica, chaos and fractals, special functions defined by solutions to differential equations.

**PHY 2455 Foundations of Astronomy (4)**

Pre-requisite(s): PHY 1420 and MTH 1321

Physical and mathematical foundations of modern astronomy emphasizing techniques, history, and development of our current picture of the universe including galaxies, stars, planet, planetoids, and comets.

**PHY 2V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**PHY 3175 Intermediate Physics Laboratory I (1)**

Pre-requisite(s): PHY 2350 and 2360

Study of experimental planning, data analysis, and elementary error analysis. Experiments include the Millikan oil-drop experiment, the determination of the Faraday constant, bubble chamber photographic measurements, the study of GM counters, and radioactive half-life determination.

**PHY 3176 Intermediate Physics Laboratory II (1)**

Pre-requisite(s): PHY 3175

Continuation of PHY 3175 with emphasis on nuclear counting and measurements.

**PHY 3305 History of Invention and Technology (3)**

History of invention and technology including biographical study of scientists. Does not apply toward a major or minor in physics, astronomy or astrophysics.

**PHY 3320 Intermediate Classical Mechanics (3)**

Pre-requisite(s): PHY 2360 and MTH 3325; or consent of instructor

Topics normally include vectors, linear transformations, Newtonian mechanics for a single particle, linear and nonlinear oscillations, Euler's equation, Lagrangian and Hamiltonian dynamics, central forces, and orbital motion.

**PHY 3330 Intermediate Electricity and Magnetism (3)**

Pre-requisite(s): PHY 2360; and MTH 3326 or concurrent enrollment; or consent of instructor

Topics normally include electrostatics, Laplace's equation, method of images, multipole expansion, magnetostatics, and Maxwell's electromagnetic field equations.

**PHY 3350 Topics in Astronomy (3)**

Pre-requisite(s): PHY 2455; and MTH 1322 or concurrent enrollment

Topics in contemporary research in astronomy and astrophysics.

**PHY 3372 Introductory Quantum Mechanics I (3)**

Pre-requisite(s): PHY 2350, 2360 and MTH 2311; and MTH 3326 or concurrent enrollment; or consent of instructor

Postulates of quantum mechanics, operators in Hilbert space, superposition principle and compatible observables, time development, conservation theorems, one-dimensional bound and unbound state problems, WKB approximation, and theory of conduction in solids.

**PHY 3373 Introductory Quantum Mechanics II (3)**

Pre-requisite(s): PHY 3372 and MTH 3326

Problems in three dimensions, perturbation theory, unitary transformations, quantum statistics, atomic spectroscopy, and introductory solid state, nuclear, and elementary particle physics.

**PHY 3455 Observational Astronomy (4)**

Pre-requisite(s): PHY 2455

Fundamentals of practical sky observing including visual, photographic, and photometric techniques using local telescopes and CCD cameras. Introduction to methods for finding and identifying celestial objects, making observations, and operating an observatory, telescopes, and related equipment.

**PHY 3V95 Undergraduate Research in Physics (1-3)**

Pre-requisite(s): Consent of instructor

Research conducted under the supervision of a faculty member in the department. May be repeated up to a maximum of six semester hours.

**PHY 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**PHY 4001 Exit Exam (0)**

Pre-requisite(s): Senior standing

An exit examination, designated by the department, is required of all physics majors. This examination will be chosen by the department from the GRE Subject Test or another similar examination.

**PHY 4150 Instructional Observing (1)**

Pre-requisite(s): PHY 3455

Teaching astronomy techniques and assisting on observing nights for the PHY 3455 class and campus outreach events.

**PHY 4190 Dissemination of Research Results in Physics (1)**

Pre-requisite(s): Departmental approval required

Culmination of an undergraduate research project including presentation of research results.

**PHY 4322 Advanced Topics in Classical Physics (3)**

Pre-requisite(s): PHY 3320, 3330, and MTH 3326

Continuation of PHY 3320 and 3330. Topics normally include: dynamics of systems of particles: rigid-body motion; coupled oscillations; the wave equation in one dimension; gauge transformations; electromagnetic waves in conductors and nonconductors; dispersion; multiple radiation; Lirard-Wiechert potentials; relativistic electrodynamics.

**PHY 4340 Statistical and Thermal Physics (3)**

Pre-requisite(s): PHY 3372 and MTH 3326

Topics normally include: basic probability concepts; macroscopic thermodynamics; statistical thermodynamics; kinetic theory; quantum statistics.

**PHY 4350 Introduction to Stellar Structure and Evolution (3)**

Pre-requisite(s): PHY 2455; and MTH 3326 or concurrent enrollment

A quantitative study of the physics of stars and stellar systems. Topics include observed properties of stars and the physics underlying those properties, radiation and stellar spectra, the interior structure of stars, the life cycles of stars, white dwarfs, neutron stars, and black holes.

**PHY 4351 Introduction to Modern Cosmology (3)**

Pre-requisite(s): PHY 4350 and MTH 3326

An introduction to modern cosmology, including observational cosmology, Newtonian gravity, relativistic cosmological models, thermal history of the universe, dark matter and dark energy, inflationary models, the origin of the light elements, structures in the universe, and the cosmic microwave background radiation. The principles of Einstein's general theory of relativity and observations in experiments will also be covered.

**PHY 4360 Computer Models in Physics (3)**

Pre-requisite(s): PHY 3320, 3372, and CSI 3324

Application of contemporary computer methods to the solution of physics and engineering problems. Theory and applications of finite difference equations. Deterministic, discrete, and continuous models. Computer graphics. Waves in classical and quantum physics. Monte Carlo calculations, electric circuits, partial differential equations in physics and engineering.

**PHY 4372 Introductory Solid State Physics (3)**

Pre-requisite(s): PHY 3373

Topics normally include: crystal structure; reciprocal space; elastic and thermal properties; electronic structure; the Fermi surface; elementary semiconductor physics; dielectric and magnetic properties of solids.

**PHY 4373 Introductory Nuclear and Particle Physics (3)**

Pre-requisite(s): PHY 3373

Topics normally include: nuclear structure and models; angular momentum and isospin; conservation laws and discrete symmetries; electromagnetic and weak interactions; quark model; nuclear and particle astrophysics.

**PHY 4374 Introduction to Relativistic Quantum Mechanics (3)**

Pre-requisite(s): PHY 3373

Dirac's equation, its covariance properties, its solutions; Foldy-Wouthuysen transformation and exact results; propagator theory; applications in various areas of physics.

**PHY 4V80 Special Topics in Physics (1-3)**

Pre-requisite(s): Upper-level standing and consent of instructor

Advanced topics in physics, astronomy, or astrophysics. May be repeated once for credit with a different topic up to a total of six semester hours.

**PHY 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Political Science (PSC)

**PSC 1305 American National Government (3)**

A course in American national government with emphasis on the historical background, structure, organization, and functioning of that government.

**PSC 1306 American State and Local Government (3)**

A course in American state government with emphasis on the Texas Constitution and government. (Either PSC 1305 or 1306 will count as one of the social science requirements for the B.A. degree.)

**PSC 1387 The U.S. Constitution, Its Interpretation, and the American Political Experience (3)**

A study of the philosophical and historical background, development, and content of the United States Constitution and its interpretation by the Supreme Court in a complex and ever-changing multi-ethnic, multi-racial, and multi-religious society.

**PSC 1V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**PSC 2343 Introduction to Western Political Philosophy (3)**

The Western tradition of political philosophy from Ancient Greece to the present day. This course will not substitute for PSC 1387.

**PSC 2V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**PSC 3300 The Environment and Political Processes (3)**

Cross-listed as ENV 3300

This course explores the causes, the magnitude, and the meaning of the Ecological Crisis and analyzes the way in which environmental problems translate into political issues. Attention is given to the political processes on varying public levels and to political actions that have or have not been taken, or might be taken, on matters relevant to social and physical environments. The purpose of the course is to develop a broad base for informed judgment and for constructive attitudes regarding the growing ecological dilemma confronting all societies.

**PSC 3301 Scope and Methods of Political Science (3)**

A course designed to equip beginning political scientists with the basic tools of political analysis used by professional political scientists. The scope of the discipline is explored through the use of primary writings, and the student is introduced to general concepts, theories, approaches, and models as well as basic methodologies and techniques of political research.

**PSC 3302 Criminal Justice and Community Law Enforcement (3)**

Cross-listed as CCS 3302, PPS 3302

See PPS 3302 for course information.

**PSC 3304 Comparative Politics (3)**

Comparative political analysis using current theories and cross-regional examples from both historical and contemporary eras. Special focus on institutions, regime change, and political culture, political violence, and political development.

**PSC 3310 Legislative Process and Behavior (3)**

An examination of state and national legislative institutions and processes. Areas covered include the nature of legislative responsibility, organizational structure, the role of parties and lobbying groups, legislative decision making, legislative relations with executive and judicial branches, policy output, and the theory and methods employed by scholars currently working in this field.

**PSC 3311 Moot Court (3)**

Pre-requisite(s): Consent of instructor

Preparation for Moot Court competitions, which simulate the experience of arguing a constitutional case before the Supreme Court. May be taken twice for a total of six semester hours of credit.

**PSC 3312 Principles of Public Administration (3)**

An introduction to the principles of organization, personnel relations, and popular control of public administration in the United States. Emphasis will be placed on the practices of the national administration; comparisons will be made with the practices of England, France, and the American states.

**PSC 3314 Politics and Problems of Developing Countries (3)**

Cross-listed as AST 3314

A survey of the political systems and problems of the developing states of Asia, Africa, and Latin America. Several components of political systems will be examined.

**PSC 3315 Fundamentals of International Politics (3)**

Theories of international politics will be examined and compared in the light of the evolution of the modern states system. Attention will be given to the factors and variables that affect the formulation and implementation of foreign policies.

**PSC 3320 Minority and Ethnic Group Politics (3)**

A study of the political experiences and public concerns of four major ethnic and minority groups: African-Americans, Mexican-Americans, Asian-Americans, and Native Americans. Topics include employment, immigration, education, police-community relations, political and economic inequality, political movements, leadership patterns, and ethnic conflicts.

**PSC 3321 Criminal Law (3)**

Examination of the sources, development, and application of criminal law in the United States and Texas.

**PSC 3322 American Public Policy (3)**

An introductory study of how the dynamics of governmental decision making influence the content of public policy; course focuses upon how legislators, interest groups, chief executives, and the bureaucracy function to define alternatives and to shape policy agenda and content.

**PSC 3324 World Political Systems (3)**

A comparative survey of the world's political systems with emphasis on political culture, institutions, processes, and policies. Systems to be covered include the democracies of Western Europe, North America and the Pacific, the Communist and former Communist states of Eastern Europe and Asia, and the politically developing states of Africa, Asia, and Latin America.

**PSC 3325 Ethnopolitical Conflicts (3)**

Survey of communal and ethnically based conflicts, using case studies to explore communal grievances vs. state interests. Examines various forms of political accommodations such as exit, autonomy, access, and control.

**PSC 3330 The American Presidency (3)**

The American presidency as a political institution and as one of the primary components of the United States governmental structure.

**PSC 3335 Contemporary American Foreign Policy: An Examination of Regions and Issues (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Assessing continuity and change in foreign policy, including internationalism, isolationism, power, principle, and pragmatism to understand post-World War II American foreign policy. Analysis of evolution, patterns, and trends of American foreign policy.

**PSC 3339 Law and Religion in the United States (3)**

Cross-listed as CHS 3339, PHI 3339, REL 3339

See PHI 3339 for course information.

**PSC 3340 Campaigns and Elections (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

The United States electoral process and structure primarily from an institutional perspective with emphasis on the role of political parties, interest groups, and citizens in political campaigns and elections.

**PSC 3345 Making American Foreign Policy (3)**

Pre-requisite(s): Upper-level standing

Values, objectives, processes, and means through which United States foreign policy objectives are formulated and sustained.

**PSC 3353 American Political Thought (3)**

An examination of American political and constitutional theory, from its philosophical genesis in the works of major early modern thinkers to the contributions of twentieth-century political and legal theorists. The original writings will be stressed.

**PSC 3355 The Causes of War (3)**

The causes of warfare, as viewed through the lenses of human evolution, psychological approaches, economic system, ideology, and the international system.

**PSC 3363 Western Political Thought: Classical and Medieval (3)**

The tradition of western political thought from its origins in Greek antiquity through the Christian middle ages, stressing the original writings of great political philosophers.

**PSC 3365 Politics, Games, and Strategy (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Rational choice, risk, and behavior as applied to politics and political science. Topics may include introductory game theory, international relations theory, and/or institutional rules.

**PSC 3372 Law, Justice and the Community (3)**

Cross-listed as CCS 3372, PPS 3372

See PPS 3372 for course information.

**PSC 3373 Western Political Thought: Modern (3)**

Modern political thought from the fifteenth through the nineteenth centuries, stressing the original writings of great political philosophers.

**PSC 3375 Model United Nations (3)**

Pre-requisite(s): Consent of instructor

An overview of the United Nations, including its origins, the six principal organs established by the UN charter, the UN's role in international relations, and the functions of the General Assembly and Security Council. Recommended for those interested in participating in Baylor's Model UN team. May be taken twice.

**PSC 3382 Public Service Internship (3)**

Pre-requisite(s): Consent of program director

Research and seminars supplemented by fieldwork in a regional federal agency, in a state or local governmental agency, or in a not-for-profit agency.

**PSC 3392 Washington Internship (3)**

Pre-requisite(s): Consent of program director

Research and seminars which will usually include attendance at a seminar held in Washington, DC. Also required is regularly scheduled fieldwork in a governmental or not-for-profit agency located in Washington.

**PSC 3692 Baylor in Washington Semester Internship (6)**

Pre-requisite(s): Consent of instructor

Research and seminars supplemented by regularly scheduled fieldwork in a political office located in Washington, DC.

**PSC 3698 Bob Bullock Internship (6)**

Selection as a Bullock Scholar and research in the Texas Legislature or Executive Branch as part of the Bob Bullock Scholars program.

**PSC 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**PSC 4300 Political Behavior (3)**

Psychological and social dimensions of political behavior including political images, culture and socialization, participation, leadership, elites, parties and interest groups, voting behavior, and decision making processes.

**PSC 4303 International Human Rights (3)**

Pre-requisite(s): Upper-level standing

The philosophy and implementation of human rights protection in the United States and abroad.

**PSC 4304 Governments and Politics of Latin America (3)**

Forms of organization, functions, and operations of governments in Latin America, with emphasis on contemporary conditions, trends, and distinctive types of Latin American institutions and policies.

**PSC 4305 International Law (3)**

Nature and origins of international law and the rights, duties, and responsibilities of the states under that law, as well as the problems which have arisen in its interpretation and enforcement.

**PSC 4307 Environmental Law (3)**

Cross-listed as ENV 4307

See ENV 4307 for course information.

**PSC 4310 Politics and Communication (3)**

Cross-listed as CSS 4310

The dynamic relationships between political and communication institutions; topics include political discourse, news and information, and portrayal of politics in popular entertainment.

**PSC 4313 Politics and Literature (3)**

Pre-requisite(s): Upper-level standing

Study of fundamental questions of political theory as treated in works of literature. Topics may include authority, law and discretion, the individual and the community, and the nature of freedom, especially as these issues emerge in different political orders. This course may be taken more than once, for a maximum of six credit hours, when content differs.

**PSC 4314 Government and Politics of Mexico (3)**

Constitutional development and political processes in the Mexican federal system. Emphasis will be placed on twentieth-century constitutional and political change, with special attention given to the current scene.

**PSC 4315 Political Geography (3)**

Concepts and principles of political geography. Analysis of dynamics of spatial relations and interactions of states. Comparison of main approaches, including geo-politics. Study of state elements, especially territorial integrity and frontiers. Survey and analysis of world political patterns.

**PSC 4316 Grand Strategy (3)**

Pre-requisite(s): Upper-level standing

The relationship between a great power's grand strategy and stability in international politics.

**PSC 4320 African American Politics (3)**

Pre-requisite(s): Upper-level standing

Contemporary African American politics, including leading theories and paradigms, important social and political movements, prominent leaders, party politics, and role of the "Black Church."

**PSC 4321 Administrative Law (3)**

Nature and the law of the administrative procedure, of separation and delegation of powers, and of the scope of judicial review and other remedies against administrative actions.

**PSC 4322 Seminar in Public Administration (3)**

Pre-requisite(s): Upper-level standing

A course for upper-level undergraduates and graduate students contemplating careers requiring administrative skills. Topics, which will be chosen to meet the special needs of students, include the study of public personnel techniques and methods, project design and analysis, and program budgeting.

**PSC 4324 British Government and Politics (3)**

Foundations, processes, and politics of British government. Emphasis will be given to political parties and interest groups, parliament, cabinet and administration, judiciary, and the prime minister. Analysis of current political issues and policies will be undertaken.

**PSC 4325 Asian International Relations (3)**

Cross-listed as AST 4325

Historical and cultural background and structure of the emerging international order in Asia, with particular attention to the role of Japan, Russia and the Soviet successor states, and the People's Republic of China.

**PSC 4330 Urban Political Processes (3)**

Cross-listed as ENV 4330

Political institutions and processes in metropolitan areas, including social, economic, and governmental problems resulting from increased urbanization.

**PSC 4334 Governments and Politics of the Middle East (3)**

Political structures and processes of the Middle East nations with an emphasis on elites, political parties, interest groups, and bureaucracies. Inter-regional relations, nationalism, the impact of religion and the Arab-Israeli conflict will be considered. Problems of nation-building, regional cooperation, as well as super- and great-power penetration, will also be explored.

**PSC 4335 Public Discourse and Foreign Policy (3)**

Cross-listed as CSS 4353

See CSS 4353 for course information.

**PSC 4340 African American Communication (3)**

Cross-listed as CSS 4354

See CSS 4354 for course information.

**PSC 4342 Public Policy and the Courts (3)**

Pre-requisite(s): PSC 1387 or consent of instructor

The Supreme Court's role in the making of public policy, including its history, its justification, and its limits. Emphasis on court cases and literature covering economic, social and civil rights issues.

**PSC 4344 Government and Politics of Russia (3)**

Historical and cultural background, the organization and functions of government, and the theory and practice of Russian politics. Emphasis is given to Russia's relationships with associated states.

**PSC 4346 Intelligence and Covert Action (3)**

Pre-requisite(s): Upper level standing

The impact of intelligence, counterespionage, and covert action policies on national security policy and international relations.

**PSC 4350 Political Parties (3)**

Pre-requisite(s): Upper-level standing

The diverse roles of political parties in representative democracies, with emphasis on the American experience.

**PSC 4351 Criticism of Contemporary Public Address (3)**

Cross-listed as CSS 4351

See CSS 4351 for course information.

**PSC 4352 The Politics of Poverty (3)**

Pre-requisite(s): Upper-level standing

An analysis of the causes of poverty amidst plenty and governmental efforts to address the problem.

**PSC 4353 Social Philosophy (3)**

Cross-listed as PHI 4361

See PHI 4361 for course information.

**PSC 4354 Governments and Politics of Western Europe (3)**

Pre-requisite(s): A minimum grade of C in PSC 3304; or consent of instructor

A comparative study of the forms of government organization, political processes, and major developments in Western Europe. Course emphasizes parliamentary forms of democracy.

**PSC 4355 Power, Morality, and International Relations (3)**

Pre-requisite(s): Upper-level standing

The influence of moral principles on international politics.

**PSC 4361 American Constitutional Law (3)**

Constitutional law of the United States with basic cases concerning such subjects as separation of powers, federalism, the taxing and spending powers, and interstate and foreign commerce.

**PSC 4364 The Governments and Politics of the Asia-Pacific Region (3)**

Cross-listed as AST 4364

Historical development of the Asia-Pacific region, with a focus on the contrasting roles played by China, Japan, and the United States. Discussion of alternative models of economic development and the impact of ASEAN and APEC on regionalism. Survey of the socio-political conditions in and among the region's states, with special attention devoted to Korean unification and cross-strait relations.

**PSC 4365 International Political Economics (3)**

Pre-requisite(s): Junior standing or above

The intersection of politics and economics at the domestic and international levels. Political outlooks considered include liberalism, Keynesianism, and Marxism.

**PSC 4370 Politics and Religion (3)**

Pre-requisite(s): Upper-level standing

The dynamic interaction between religion and politics in the United States and other countries, including the effect of political outcomes in the context of voting, legislative and executive policymaking, and the law.

**PSC 4373 Special Topics in Political Philosophy (3)**

Pre-requisite(s): At least one 3000-level course in political philosophy, or consent of instructor

An upper-level seminar on a philosopher, a tradition of thought, or a theoretical problem in political philosophy.

**PSC 4374 Governments and Politics of East Asia (3)**

Cross-listed as AST 4374

Government organization and functions, political processes, and major developments in the political systems of Japan, China, and Korea since World War II.

**PSC 4375 International Organization (3)**

Fundamentals of international politics and international law, advancing to an intensified study of past and, particularly, present international organizations, especially the United Nations.

**PSC 4379 Islam and Democracy (3)**

Pre-requisite(s): Upper-level standing

Examines the evolution of political philosophy and institutions in Muslim culture.

**PSC 4380 Government and Business (3)**

Government in relation to the economy. Public policy with respect to such vital areas as maintenance of competition, public utilities, transportation, labor, agriculture, protection of the investor, and foreign economic policy. (Not to be taken if ECO 4317 has already been taken for credit.)

**PSC 4381 American Constitutional Law (3)**

Continuation of PSC 4361 but may be taken independently of that offering. Deals with those cases relating particularly to personal liberty and civil rights.

**PSC 4383 Contemporary Political Thought (3)**

Twentieth-century political ideas, with emphasis on contemporary democratic political theory and the challenges posed for traditional democratic ideals by major movements in contemporary psychological, existentialist, ethnic, feminist, socialist, and nationalist thought, and by problems arising from technology, mass society, and the observations of empirical political science.

**PSC 4384 Principles of Political Development (3)**

The development of contemporary states and nations, emphasizing war, geographic location, natural resources, and cultural and religious norms as determinants of different experiences.

**PSC 4385 Diplomacy in Theory and Practice (3)**

Pre-requisite(s): Upper-level standing

How states and other international actors communicate and pursue their foreign policy objectives through the use of diplomatic agents and techniques.

**PSC 4386 Russia and the World (3)**

Pre-requisite(s): Upper-level standing or consent of the Instructor

Evolution of Russia's foreign policy objectives, its national security strategies and its relations with the U.S., Europe and post-Soviet states, including spheres of cooperation and rivalry between Russia and the West, regional conflicts, energy politics, non-proliferation and counterterrorism.

**PSC 4390 Reading Course in Political Science (3)**

Pre-requisite(s): Senior standing and consent of the chairperson of the department

A tutorial course designed for advanced study in political science. The nature, limits, and requirements will be established in each instance after consultation between professor and student. May also be taken by student in a particular field after consultation with appropriate professor. May be repeated under a different topic for a total of six hours credit.

**PSC 4395 Terrorism (3)**

Pre-requisite(s): Upper-level standing

The effectiveness of terrorism as a coercive strategy for states and non-state actors as well as the threat terrorism poses to the interests of the United States.

**PSC 4396 International Studies Senior Seminar (3)**

Pre-requisite(s): Consent of instructor

Senior seminar for international studies majors. Focus on career readiness, writing for a variety of audiences, and developing a final portfolio of analytical and communication skills.

**PSC 4397 Dictatorship, Democracy and Regime Change (3)**

This course looks at the origins, institutions and policies of democratic and authoritarian regimes. It explores the variation among autocracies and its effect on their stability and patterns of change, with a special focus on revolutions and negotiated transitions.

**PSC 4399 The Good Citizen in American Film & Pop Culture (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Normative questions of political life and experience (such as, the good citizen, the good soldier, heroism, and virtue) through the medium of film, both recent and past.

**PSC 4V89 Advanced Model Organization of American States (1-3)**

Cross-listed as HIS 4V89

See HIS 4V89 for course information.

**PSC 4V94 Special Topics in Political Science (1-6)**

Examination of special topics in government and politics. May be repeated once under different topic not to exceed six semester hours.

**PSC 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Portuguese (POR)

**POR 1101 Portuguese Language Workshop (1)**

For music students, supplemental language training to accompany regular 1301 language sections.

**POR 1102 Portuguese Language Workshop (1)**

For music students, supplemental language training to accompany regular 1302 language sections.

**POR 1301 Elementary Portuguese (3)**

Introduction to Portuguese language and cultures; practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading). Progress through novice proficiency levels

**POR 1302 Elementary Portuguese (3)**

Pre-requisite(s): POR 1301 or 1401, or two units of high school Portuguese

Introduction to Portuguese language and cultures; practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading). Progress from novice toward intermediate-level proficiency

**POR 2310 Intermediate Portuguese (3)**

Pre-requisite(s): POR 1302 or three units of high school Portuguese

Practice in three communicative modes at intermediate-level proficiency: interpersonal, presentational (speaking, writing), and interpretive (listening, reading).

**POR 2320 Exploring the Portuguese-Speaking World (3)**

Pre-requisite(s): POR 2310 or four units of high school Portuguese

An exploration of the cultures of the Portuguese-speaking world with continued practice listening, speaking, reading, and writing POR at the intermediate level. Class conducted in Portuguese, with emphasis on developing conversational skills. Topics vary by section but may include Pop Culture, Music, Film, Literature, Art, Social Media, Journalism of the Portuguese-speaking world.

**POR 3V90 Special Topics in Portuguese (1-3)**

Pre-requisite(s): POR 2320 or consent of the instructor

Independent study of Portuguese language and/or culture. With content changes, may be repeated for up to 6 credits.

## Pre-Health Professions (PHP)

**PHP 1103 Nature of Healthcare Relationships (1)**

Examines the nature of healthcare relationship from a number of perspectives, including both the patient and healthcare provider. Explores both professional and ethical issues and the means to cope with them.

**PHP 1105 Foundations of Medicine (1)**

A broad survey of the premedical studies, the preparation for medical school admission, and the medical profession.

**PHP 1106 Introduction to the Health Professions (1)**

A blended classroom format with lectures exploring various careers and graduate level study in health related professions and online content focusing on professionalism in healthcare, assessment of appropriate personal attributes, integrity, interpersonal communication, and career strategies.

**PHP 1206 Introduction to the Health Professions (2)**

A blended classroom format with lectures exploring various careers and graduate level study in health related professions and online content focusing on professionalism in healthcare, assessment of appropriate personal attributes, integrity, interpersonal communication, and career strategies.

**PHP 1V9R Research (3)**

Pre-requisite(s): Consent of instructor

Undergraduate research undertaken under the supervision of a faculty member. May be taken for a maximum of 6 hours.

**PHP 2101 Foundations of Medical Research (1)**

Introduction to clinical/medical research in an academic medical setting, including medical ethics, research modalities, and evaluation tools.

**PHP 2102 Special Topics in Pre-Health (1)**

Internship or research in a clinical setting focusing on formulating a research project, including developing the hypothesis, creating an IRB proposal, gathering and interpreting data, and publishing results.

**PHP 2V9R Research (3)**

Pre-requisite(s): Consent of instructor

Undergraduate research undertaken under the supervision of a faculty member. May be taken for a maximum of 6 hours.

**PHP 3V9R Research (3)**

Pre-requisite(s): Consent of instructor

Undergraduate research undertaken under the supervision of a faculty member. May be taken for a maximum of 6 hours.

**PHP 4V9R Research (3)**

Pre-requisite(s): Consent of instructor

Undergraduate research undertaken under the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Prof. Writing & Rhetoric (PWR)

**PWR 2314 Introduction to Professional Writing and Rhetoric (3)**

Surveys core theories of writing and rhetoric in a variety of professional genres and familiarizes students with the range of possible careers.

**PWR 3300 Technical Writing (3)**

Pre-requisite(s): ENG 1310; and either upper-level standing or consent of instructor

Emphasis on theories, principles, and practices of effective technical writing and writing in the sciences. Students will compose technical genres such as reports, proposals, memos, and documentation with an emphasis on usability, accessibility, data analysis, information design, ethics, writing style, and collaboration.

**PWR 3303 Persuasive and Argumentative Writing (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

An advanced writing workshop that focuses on the analysis and production of texts written for specific rhetorical situations and discourse communities. Emphasis on genre, persuasion, and rhetoric. Practice in various types of expository, narrative, persuasive, and academic writing.

**PWR 3309 Creative Nonfiction (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Focuses on popular nonfiction addressed to a wider audience. Students will practice creative nonfiction research methods and compose genres such as travel writing, memoir, autobiography, biography, profiles, and history.

**PWR 3313 Literacy Studies (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Examines histories, theories, and practices of literacy in relation to questions of ideology, education, schooling, identity, social class, technology, and/or composition.

**PWR 3316 Women's Writing and Rhetoric (3)**

Examines the ways women use language to persuade in both public and private spheres in both historical and contemporary periods, with special attention to both traditional rhetorical genres (speeches, letters, sermons, editorials) and nontraditional texts (quilts, recipe books, blogs).

**PWR 3317 Rhetoric of Race (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Exploration of rhetoric, writing, literacy, and culture in relation to race and other related issues, such as class, identity, gender, politics, and culture.

**PWR 3318 Professional & Workplace Writing (3)**

Study and practice of professional writing in workplace contexts, with attention to audience adaptation, project management, collaboration, work with clients, professionalization, and style. Students will compose a range of workplace writings (i.e., letters, proposals, reports, web documents, design documents) and create application materials for career positions or graduate study. Culminates in a digital portfolio. Required of all PWR majors.

**PWR 3321 Tutoring Writing (3)**

Pre-requisite(s): ENG 1310 or 1304, or other course from Research Writing DL and consent of instructor

Theoretical issues and pedagogical methods for tutoring writing one-on-one. Examines how people best learn to write, how to talk with writers about their writing, and how one-on-one tutoring facilitates learning to write, including writing process theory, tutoring methods, revision and editing strategies, transfer, genre and disciplinary conventions, and working with special client populations.

**PWR 3326 Studies in Public and Civic Writing (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Examines the role of writing and rhetoric in shaping, mobilizing, and changing the public's thinking on contemporary controversial issues. Focus on both historical and contemporary debates.

**PWR 3385 Special Topics in Writing Workshop (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Writing workshop centered on a particular topic. Student's practice writing genres that are related to the course theme. Topics may include food writing, travel writing, the teaching of writing, or other similar topics. Repeatable for a maximum of 6 credits with permission of department.

**PWR 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**PWR 4309 Undergraduate Research and Publication (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Students will learn and apply key concepts, theories, and methods used to produce scholarship in the field of rhetoric and writing. Students will complete a major research project using writing studies research methodologies, such as empirical, archival, case-study, ethnographic, digital, qualitative, quantitative, and text and discourse analysis.

**PWR 4311 Writing for Social Change (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

Emphasizes practical skills necessary for effective civic, public, or advocacy writing. Students use writing and related media to explore, analyze and advocate on issues of public concern with opportunities for students to create texts and campaigns.

**PWR 4321 New Media Writing and Rhetoric (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

A workshop course designed to develop skills in composing in multiple modes and media for different audiences, purposes, and situations. Students will analyze and compose a range of multimodal texts that integrate words, images, and sounds, such as digital stories, websites, video essays, audio compositions, scrapbooks, and posters.

**PWR 4323 Editing and Publishing (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
An exploration of the editing and publishing profession, including acquisitions and list building and development of a marketable publishing project. Addresses the history and philosophy of publishing, an editor's vocation, and current changes in the field.

**PWR 4348 Religious Rhetoric and Spiritual Writing (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
A writing workshop that provides experience writing from and critically analyzing spiritual perspectives. Students compose in a range of genres (creeds, spiritual autobiographies, and analyses of religious texts) in order to explore spiritual questions, religious experiences, and rhetorical concerns.

**PWR 4349 Advanced Creative Nonfiction (3)**

Pre-requisite(s): ENG 3309 or consent of instructor  
Advanced workshop in writing, researching, and publishing creative nonfiction in popular media outlets including magazines, newspapers, blogs, and nonfiction books.

**PWR 4375 Special Topics Lecture in Writing and Rhetoric (3)**

Pre-requisite(s): Upper-level standing or consent of instructor  
Close study of a topic in writing, rhetoric, literacy, or a related field. Topic announced each semester. Repeatable for a maximum of 6 credits with permission of department.

**PWR 4377 Writing Internship (3)**

Pre-requisite(s): ENG 3318 or concurrent enrollment, or consent of instructor  
An internship to provide students in the WR program supervised writing experience in a business or professional setting. Required of all WR majors.

**PWR 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Professional Development (PRD)

**PRD 2101 Professional Development (1)**

Resume and cover letter writing, interviewing, networking, and presenting professional self. Exploration of career options, including assessments, internships, job search process, and graduate school admission.

## Professional Field Experience (EDF)

### Psychology (PSY)

**PSY 1101 New Student Experience in Psychology and Neuroscience (1)**

Cross-listed as NSC 1101  
An introduction to the PSY and NSC majors including the faculty and degree requirements of their major, techniques for academic success, and professional and career options. Satisfies U1000 requirements, and is required of all first-year students with a declared major in Pre-PSY or Pre-NSC.

**PSY 1305 Psychological Science: Understanding Human Behavior (3)**

A survey course investigating the connections among mind, brain, and behavior.

**PSY 1V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**PSY 2402 Statistics (4)**

Pre-requisite(s): PSY 1305 and a C or better in either MTH 1320, MTH 1321, or STA 1380  
An introduction to descriptive and inferential statistics used in behavioral science research. Emphasis is placed on techniques of data analysis through the use of computers.

**PSY 2405 Research Methods in Psychology (4)**

Pre-requisite(s): PSY 1305 and 2402  
Research methods used in psychology, including various research designs, appropriate statistical analyses for the research designs, and writing reports using APA style.

**PSY 2V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**PSY 3111 Laboratory in Cognition (1)**

Cross-listed as NSC 3111  
See NSC 3111 for course information.

**PSY 3120 Laboratory in Learning and Behavior (1)**

Cross-listed as NSC 3120  
See NSC 3120 for course information.

**PSY 3123 Laboratory in Sensation and Perception (1)**

Cross-listed as NSC 3123  
See NSC 3123 for course information.

**PSY 3308 Theories of Psychotherapy and Counseling (3)**

Pre-requisite(s): PSY 1305 and 2402  
The major schools and current trends in psychotherapy. Discussion also includes issues involving ethical practices and empirical aspects of psychotherapy.

**PSY 3309 Introduction to Clinical Psychology (3)**

Pre-requisite(s): PSY 1305 and 2402  
Students will learn about models of training in clinical psychology and the basic tools used by clinical psychologists in research, assessment/diagnosis, and treatment.

**PSY 3310 Social Psychology (3)**

Pre-requisite(s): PSY 1305 and 2402 or consent of instructor  
A study of individual behavior as affected by cultural and social stimuli.

**PSY 3311 Cognition (3)**

Cross-listed as NSC 3311  
See NSC 3311 for course information.

**PSY 3314 Industrial/Organizational Psychology (3)**

Pre-requisite(s): PSY 1305 and 2402 or consent of instructor  
A survey of personnel and organizational psychology. Topics include job satisfaction, leadership, formal organizational structures and issues relevant to the human relations field.

**PSY 3318 Psychology of Memory (3)**

Pre-requisite(s): NSC 1106-1306, PSY 1305 and 2402 or consent of instructor  
An introduction to the study of human memory, including both laboratory studies and clinical data. This information will be related to major contemporary theories of memory, as well as to a range of phenomena including mnemonics, eyewitness testimony, retention of course content, and supranormal memory. Demonstrations and experiments will complement lecture material.

**PSY 3320 Learning and Behavior (3)**

Cross-listed as NSC 3320  
See NSC 3320 for course information.

**PSY 3321 Abnormal Psychology (3)**

An introduction to historical and modern views of abnormal behavior and a survey of the field of psychological disorders. For non-majors only.

**PSY 3323 Sensation and Perception (3)**

Cross-listed as NSC 3323

See NSC 3323 for course information.

**PSY 3330 Psychopathology (3)**

Pre-requisite(s): NSC 1106-1306 and PSY 1305

The paradigms and processes involved in understanding the etiology, course, treatment, and prevention of psychological disorders. For majors only.

**PSY 3333 Biopsychology of Health Disparities (3)**

Pre-requisite(s): PSY 1305

The study of the biopsychosocial factors leading to socioeconomic health disparities.

**PSY 3335 Child Psychopathology (3)**

Pre-requisite(s): PSY 1305

Introduction to the field of abnormal child and adolescent psychology, including the causes, maintenance, and treatment of children's behavioral, social-emotional, and cognitive disorders from a developmental perspective.

**PSY 3341 A Survey of Human Development (3)**

A survey of the field of developmental psychology. Consideration is given to the development of human behavior from conception to death. For nonmajors only.

**PSY 3350 Developmental Psychology (3)**

Pre-requisite(s): NSC 1106-1306 and PSY 1305

Social, emotional, cognitive, and psychological growth and development. For majors only.

**PSY 3355 Drugs and Behavior (3)**

Pre-requisite(s): NSC 1306 or consent of instructor

A study of the major drugs used to modify mood and behavior examination of tolerance, dependence, addiction, and treatment. Substances studied include alcohol, anti-psychotic medications, sedatives, stimulants, analgesics, hallucinogens, and other psychoactive substances.

**PSY 3360 Psychology of Gender (3)**

Pre-requisite(s): PSY 1305 and 2402 or consent of instructor

Introduction to the psychology of gender, with focus on interconnections of social and cultural processes with biological and psychological factors. Additional emphasis on psychological and sociological origins and implications of gender differences as well as similarities.

**PSY 3370 Affective Neuroscience (3)**

Cross-listed as NSC 3370

See NSC 3370 for course information.

**PSY 3375 Sleep (3)**

Cross-listed as NSC 3375

Pre-requisite(s): NSC 1306

The psychology and neuroscience underlying healthy sleep, the effects of sleep deprivation on medical outcomes, changes in sleep across the lifespan, sleep disorders, and solutions for improving sleep.

**PSY 3380 Forensic Psychology (3)**

Pre-requisite(s): PSY 1305 and 2402 or consent of instructor

Psychology as it relates to criminal and civil law.

**PSY 3399 Positive Psychology and Well-Being (3)**

Pre-requisite(s): PSY 1305 and 2402

Positive psychology theory, research, and interventions.

**PSY 3406 Comparative Psychology (4)**

Pre-requisite(s): NSC 1106-1306, PSY 1305 and 2402 or consent of instructor

A phylogenetic comparison of animal behavior. Class and field studies stress evolution and the function of behavior. The laboratory consists of four overnight or day field trips which emphasize studies of animal populations, their relationships to local environments, habitat analysis, and ecological research methods.

**PSY 3425 Group Processes (4)**

Pre-requisite(s): PSY 1305 and 2402, or consent of instructor

Group dynamics, leadership roles in problem solving, and analysis of interpersonal behavior.

**PSY 3V90 Community Internship in Psychology (1-3)**

Pre-requisite(s): PSY 3321 or 3330 or consent of instructor

A contracted number of forty, eighty, or one hundred-ten hours of volunteer work during the semester in a community agency dealing with behavioral problems for the one, two, or three semester hours credit respectively. The course may be repeated once. No change in number of credit hours permitted after contract is made.

**PSY 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**PSY 4119 Laboratory in Clinical Neuroscience (1)**

Cross-listed as NSC 4119

See NSC 4119 for course information.

**PSY 4130 Advanced Laboratory in Neural Science (1)**

Cross-listed as NSC 4130

See NSC 4130 for course information.

**PSY 4302 Human Development (3)**

Pre-requisite(s): PSY 1305 and 2402 or consent of instructor

Research related to human growth and development.

**PSY 4312 Behavioral Medicine (3)**

Cross-listed as MH 4312, NSC 4312

See NSC 4312 for course information.

**PSY 4315 Psychological Assessment and Psychometrics (3)**

Pre-requisite(s): PSY 2402

Commonly employed psychological tests and the statistical techniques used to develop and validate these tests.

**PSY 4317 Literature of Behavioral Neuroscience (3)**

Cross-listed as NSC 4317

See NSC 4317 for course information.

**PSY 4319 Clinical Neuroscience (3)**

Cross-listed as NSC 4319

See NSC 4319 for course information.

**PSY 4324 Research on the Senses and Perception (3)**

Cross-listed as NSC 4324

See NSC 4324 for course information.

**PSY 4325 Sports and Exercise Psychology (3)**

Pre-requisite(s): PSY 1305 or consent of instructor

Examines psychological theories and research related to sport and exercise behavior, providing a broad overview of the major topics in the area.

**PSY 4327 Theories of Personality (3)**

Pre-requisite(s): PSY 1305 and 2402 or consent of instructor

Major theories of personality.

**PSY 4329 Consciousness (3)**

Pre-requisite(s): NSC 1106-1306 and PSY 1305 or consent of instructor  
A study of various theoretical views of the mind and the impact of the cognitive movement in psychology; relevant experimental studies are examined.

**PSY 4330 Advanced Principles of Neural Science (3)**

Cross-listed as NSC 4330

See NSC 4330 for course information.

**PSY 4339 Psychology of Religion (3)**

Pre-requisite(s): PSY 1305 or consent of instructor

Psychological processes in religious experience and related phenomena with a focus on religious development through the life cycle and the major psychological interpretations.

**PSY 4355 Psychology and Aging (3)**

Pre-requisite(s): PSY 1305 or consent of instructor

Normal and abnormal changes in behavior that occur between early maturity and later maturity, with emphasis on changes in sensation and perception, intelligence, learning, and personality, as well as other areas of a more social psychological nature such as social roles and the impact of environmental change on older people.

**PSY 4371 Advanced Research in Psychology (3)**

Pre-requisite(s): Consent of instructor

An in-depth laboratory research experience in psychology as supervised by a faculty mentor.

**PSY 4380 Psychology of Personal Relationships (3)**

Pre-requisite(s): PSY 1305 and 2402; and upper-level standing

Classic and contemporary theories and research pertaining to personal and social relationships.

**PSY 4385 Psychology of Film (3)**

Pre-requisite(s): PSY 1305 and upper-level standing, or consent of instructor

The psychological aspects of film, as related to content, audience, and individual viewers. Also covers the portrayal of mental illness and mental health care professionals.

**PSY 4395 History of Psychology (3)**

Pre-requisite(s): PSY 1305 and 2402 or consent of instructor

A survey of the history of psychology stressing significant persons and theories with some emphasis on contemporary and emerging trends.

**PSY 4400 Advanced Statistics I (4)**

Pre-requisite(s): PSY 2402 or STA 2381 or equivalent; and upper-level standing

Logical nature of statistical reasoning. Sets, probability, density functions, random variables and their distributions, estimation and hypothesis testing.

**PSY 4V96 Special Topics in Psychology I (1-4)**

Pre-requisite(s): Consent of instructor

Course may be repeated once with change in content.

**PSY 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Public Health (PUBH)

**PUBH 1145 Health and Human Behavior (1)**

The intent of this class is to explore a variety of health issues pertinent to the following topics: stress, mental/emotional health, aging, death, human sexuality, chemical use, nutrition, exercise, chronic and degenerative diseases, and infectious diseases.

**PUBH 2313 Consumer Health (3)**

The basic principles involved in purchasing health goods and health services are presented. Topics include advertising, health insurance, selecting health professionals, and the use of health care agencies.

**PUBH 2330 Introduction to Public and Population Health (3)**

Pre-requisite(s): Public Health major, minor or consent of instructor

Introduces students to historical and theoretical foundations of community, public, and population health, social determinants of health and programs designed to address public health issues. The course is designed to cover the seven competency areas of an entry-level health education specialist and the foundational dimensions of public health. Professional preparation including career opportunities, mock interviews, and resume and cover letter writing are also included.

**PUBH 2331 Health Concepts and Competencies (3)**

Pre-requisite(s): Public Health major, minor or consent of instructor

PUBH 2330 or concurrent enrollment. History, philosophy, and ethics in the practice of health education. Development of skill in the seven areas of responsibility with emphasis on needs assessment, writing goals and objectives, and planning for effective health education programs in school and community settings.

**PUBH 2332 Survey of Public Health - for NON MAJORS (3)**

This is an introductory course to public health for non-Public Health majors. The course will introduce students to the goals, principles, core functions, and essential services of public health. Students will learn about the social determinants of health and how they impact behavior-related health issues. The course will provide a general overview of the different public health eras and initiatives, with a focus on the disciplinary nature of the

**PUBH 3313 Nutrition (3)**

Pre-requisite(s): Upper-level standing

A study of the fundamental, as well as relevant, current research and issues in nutrition in the United States and the world.

**PUBH 3314 Environmental Health (3)**

A course designed for the study of environmental health hazards such as air, water, solid wastes, noise pollution, radiation, pesticides, food additives, metallic menaces, substandard housing, urban environment, and population dynamics. The role of conservation and governmental agencies concerned with pollution control is included in the course.

**PUBH 3317 Mood-Modifying Substances (3)**

Analysis of major mood-modifying substances, including alcohol and tobacco, and also use and misuse of over-the-counter and prescription drugs. Many alternatives to chemical use and methods of effectively working with school-aged children will be addressed.

**PUBH 3320 Stress Management/Mental-Emotional Health (3)**

Pre-requisite(s): Upper-level standing

To introduce students to the topic of stress and its impact on their lives; further, to develop behavioral skills in which to deal healthfully with the impact of a technological society. The second half of the class will devote itself to topics and activities that relate to feelings of positive self-worth and psychosomatic wellness.

**PUBH 3325 Maternal and Infant Health (3)**

The purpose of this course is to provide students contextual insight into multilevel influences that shape current maternal and infant health outcomes. Students will improve their understanding of the historical basis for contemporary global and domestic approaches to prenatal care, childbirth, postpartum practices, as well as public policy.

**PUBH 3331 Planning in Public and Community Health (3)**

Pre-requisite(s): Public Health major, minor  
PUBH 2330 and 2331 Provides in-depth focus on program planning in health education that includes planning models and strategies. Experiential learning through a group writing project serves as the framework for each component of the program plan.

**PUBH 3350 Human Physiology for Allied Health Professionals (3)**

Pre-requisite(s): A minimum grade of C in HP 1420  
Survey of the function and interrelationship of body systems with emphasis on the homeostasis of these systems.

**PUBH 3351 Epidemiology/Vital Statistics (3)**

An introductory epidemiology course for students interested in public health. Topics will include historical foundations, study designs, and organizing and analyzing epidemiologic data.

**PUBH 4320 Men's Health and Wellness (3)**

Pre-requisite(s): Upper-level standing  
Focuses on issues specific to men's overall health and wellness, concepts of multiple masculinities, men's body image and the portrayal of men in media. This course is available to men and women.

**PUBH 4321 Human Sexuality (3)**

Pre-requisite(s): Upper-level standing  
A health education course in which basic concepts of human sexuality are analyzed and discussed. The course is designed to help students better understand the influences that affect the complex nature of human interaction and to provide accurate information needed to help develop responsible decision making skills.

**PUBH 4323 Professional Field Experiences in Health (3)**

Pre-requisite(s): Junior standing, twenty-one semester hours in health education courses and consent of the division director  
Planned experiences in various community agencies including both public and voluntary health organizations.

**PUBH 4327 Dying and Death Education (3)**

Pre-requisite(s): Upper-level standing  
A course of death education designed to help students develop constructive attitudes, values, and practices. This experience will nurture an appreciation of the connection between life and death.

**PUBH 4331 Intervention Design in Public and Community Health (3)**

Pre-requisite(s): Public Health major, minor or consent of instructor  
PUBH 2331 and 3331. Theories and methods used in designing culturally appropriate intervention in public and community health. A special emphasis is focused on social marketing techniques used to promote healthy behaviors and lifestyle changes.

**PUBH 4333 Evaluation in Public and Community Health (3)**

Pre-requisite(s): Public Health major, minor  
PUBH 2330, 3331 and 4331. Focuses on process, impact, and outcome evaluation of public and community health interventions. Other skills covered include research design, data collection tools, quantitative methods, qualitative methods, data analysis, and data interpretation and visualization.

**PUBH 4340 Global Health (3)**

Overviews global health issues and the role of health education and public health worldwide.

**PUBH 4341 Cross-Cultural Health Communication (3)**

Overviews cross-cultural communication concepts/strategies used in health education to assess health needs and communicate health information. Designed for field-based international or local culture-specific settings.

**PUBH 4355 Human Diseases (3)**

Pre-requisite(s): A minimum grade of C in PUBH 3350  
Basic principles of pathophysiology and mechanism of diseases affecting the human body, including basic principles of epidemiology with emphasis on the causation and effects of disease on human populations.

**PUBH 4V80 Professional Internship in Health (1-6)**

Pre-requisite(s): Senior standing, twenty-four semester hours in health education courses and consent of the division director  
Designed to provide students with planned experiences with professionals in various health, allied health and/or community health settings including public, private, and health agencies.

## Quantitative Business Analysis (QBA)

**QBA 2302 Business Data Analysis I (3)**

Pre-requisite(s): Cumulative GPA of 3.0 or higher  
A minimum grade of C in BUS 1305 or BUS 1350. Only open to BBA students. The application of statistical methods used in business decision-making. Topics include methods for accessing and describing data. An introduction to probability provides a framework for risk analysis. Inferential statistics is covered through confidence interval estimation, hypothesis testing, and correlation and linear regression analysis. Statistical software is presented for producing data summaries and statistical computations.

**QBA 3305 Introduction to Business Analytics (3)**

Pre-requisite(s): Minimum grade of C in QBA 2302  
Only open to BBA students. Designed to aid in understanding what has happened in the past in a firm (descriptive analytics), using past data to predict what is going to happen in the future (predictive analytics), and helping to determine the best course of action to take (prescriptive analytics). Explores how to combine statistical modeling and computer techniques to help make principled decisions in the context of business.

**QBA 3306 Statistical Models in Business (3)**

Pre-requisite(s): A minimum grade of C in QBA 3305  
Emphasizes building computer-based statistical models as aids in business problem solving. Case studies are analyzed using multiple regression, analysis of variance, time series forecasting methods, and survey sampling. Emphasis is placed on current computer-based statistical methods and business applications.

**QBA 4V98 Special Studies in Quantitative Business Analysis (1-6)**

Not open to pre-business students.

## Recreation & Leisure Services (RLS)

**RLS 1202 First Aid (2)**

Cross-listed as HP 1202, RED 1202  
See HP 1202 for course information.

**RLS 1234 Canoeing Instructor Certification (2)**

This course is designed to qualify a student as an American Red Cross Canoeing Instructor. Upon completion of the course the student will be able to organize, teach, and issue certification for Red Cross basic canoeing courses.

**RLS 1235 Sailing & Canoeing Instructor (2)**

Pre-requisite(s): LF 1159

Qualifies a student as an American Red Cross Instructor for sailing and canoeing. Upon completion of the course the student will be able to organize, teach, and issue certification for Red Cross basic sailing and canoeing courses.

**RLS 1396 Introduction to Leisure Services (3)**

Introduction to the concepts of leisure and recreation, the components of leisure service systems and the role of recreation in human experience and society. A survey of the historical development of recreation and leisure and its corresponding philosophical and theoretical thought.

**RLS 2201 Adventure Recreation Leadership and Challenge Course Facilitation (2)**

This course is designed to provide students with the knowledge, skills, and practical experience necessary to lead adventure recreation experiences: group initiatives, low challenge courses, and high challenge courses. The course will consist of classroom and laboratory experiences in the Rec Lab and at the Challenge Course at Eastland Lakes.

**RLS 2202 Climbing Wall Instructor Certification Course (2)**

Pre-requisite(s): Must have a Baylor University belay certification prior to the first day of class or have belaying experience

At least one year documented personal climbing experience (a minimum of occasions climbing indoors and/or outdoors.) Prior teaching experience or have observed at least two belay classes at the Baylor Rock Wall are highly recommended. Approval by course instructor required. Climbing ability for AMGA certification: 5.9 top rope and 5.8 for lead certification on artificial structures. This course is designed for climbers interested in becoming climbing wall instructors. This class will focus on how to teach climbing skills, develop lessons, manage risk, and perform rescues. The focus areas are specific to the AMGA Climbing Wall Instructor Course but are similar skill sets required for outdoor leaders in many settings. The course will emphasize educational theories, lesson plan development, and giving/receiving feedback.

**RLS 2301 Camp Counseling and Administration (3)**

This course will deal with the administration and organization of resident and day camps. It will also cover the responsibilities of the different camp leadership (counselor, nurse, cook, etc.).

**RLS 2388 Leisure and Lifestyle Well-Being (3)**

Develop the knowledge and skill to develop programs and services to educate the public for leisure and to improve student's personal health through lifestyle decision-making. To understand the role of leisure in the American lifestyle and to assist the American public to develop a more enjoyable life (experience quality of life) through leisure education, skills, leadership strategies and resources. Lab experience required.

**RLS 2389 Leadership and Facilitation in Leisure Services (3)**

Facilitate development of leisure lifestyle and use of leisure resources, and the ability to use leadership techniques to organize and conduct leisure programs and services. Acquire a knowledge of the role and content of leisure programs and services. This is accomplished through such as indoor/outdoor games, mixers, table games, skits/stunts, songs, stories, hobbies/crafts, and planning socials/picnics/retreats.

**RLS 2395 Foundations of Therapeutic Recreation (3)**

Psychological, sociological, physiological, historical significance of therapeutic recreation, philosophy, theories, practices of health and human service professionals, and functioning needs and implications of therapeutic recreation with persons with disabilities with experiential opportunity.

**RLS 3301 Theory & Practice of Outdoor Adventure Programs (3)**

Pre-requisite(s): RLS major or upper-level standing

Outdoor Adventure experiences are a desired programming element offered in comprehensive leisure service agencies and may also be the primary or sole focus of an agency. This course is designed to introduce students to the philosophical and theoretical foundations of outdoor adventure programming. The course will also explore the many core competency areas required of outdoor adventure administrators that occur in the field, managerial, educational and leadership realms. Through classroom and field experiences, students will be able to increase knowledge related to the career path for the professional, implications/benefits for the participant and programming considerations of outdoor adventure experiences. Weather and schedule permitting, the course will expose students to a variety of institutional, front country type outdoor adventure experiences including caving, biking, rock climbing, backpacking, camping and rappelling. All equipment furnished except bicycle. Two week-end trips, one Saturday, and three evenings required.

**RLS 3302 Program Planning in Leisure Services (3)**

Pre-requisite(s): RLS major or upper-level standing

Students will become aware of programming content and process including assessment, planning, implementation and evaluation of services. Students will develop an awareness of professional practices/principles, resources, promotion and marketing, and computer applications.

**RLS 3303 Outdoor Adventure Certifications (3)**

Designed to help students acquire foundational knowledge of outdoor leadership and receive certifications in three areas covering Wilderness Medicine, Leave No Trace: Outdoor Ethics, and Wilderness Education Associates: National Standard Protocol. All equipment furnished. One weekend trip required.

**RLS 3382 Risk Management in HHPR (3)**

Cross-listed as HP 3382, RED 3382

See HP 3382 for course information.

**RLS 3396 Field Laboratory in Leisure Services (3)**

Pre-requisite(s): A minimum grade of C in RLS 1396, 2388, 2389, and 3302

Field experience in selected leisure service delivery settings with supervision by qualified professional. Documentation of 200 clock hours during semester. (Graded)

**RLS 4301 Outdoor Education (3)**

Pre-requisite(s): RLS major or upper-level standing

This course will deal with ways to use the outdoors to facilitate and enrich learning related to the school curriculum. It will also deal with ways to enjoy and protect our natural environment. Some of the skills involved are the use of nature games, compass and map games, conservation projects, natural crafts, field investigations, trail building, and teaching various classroom subjects in an outdoor setting.

**RLS 4331 Meanings, Culture, and Philosophy of American Landscapes (3)**

A critical approach to understanding the meanings, culture, and philosophies Americans ascribe to natural landscapes. Traditional perspectives including colonial American, romantic, and science-based conservation are characterized, as well as revisionist themes aligned with gender, cultural pluralism, and societal meanings of natural resource based protected areas.

**RLS 4390 Independent Study in Recreation (3)**

Pre-requisite(s): For majors only

Additional in-depth study in a particular area under the supervision of a faculty member.

**RLS 4391 Leisure Service Management (3)**

Develop understanding of management as applied to leisure systems. Content includes organizational theories/behavior, personnel and fiscal management, legal and legislative concepts, and computer use in the management functions.

**RLS 4392 Professional Issues and Practices in Leisure Services (3)**

Pre-requisite(s): A minimum grade of C in RLS 1396, 2388, 2389, 3302, and 3396

Examination and application of research and evaluation models and methodologies to planning and delivering programs. Computer applications with statistical analysis of data to evaluate actual programs. Students study current professional issues, trends, organizations, and professionalism. Students prepare for internship, develop professional resources, and practice articulating professional philosophies.

**RLS 4393 Facilities and Equipment in HHPR (3)**

Cross-listed as HP 4393, RED 4393

See HP 4393 for course information.

**RLS 4395 Principles of Church Recreation (3)**

History, philosophy, objectives, and administration of recreation in the church and how it relates to the total ministry of the church. It will include an overview of various areas of church recreation and an investigation of leisure and its value in a church setting.

**RLS 4396 Considerations for Diverse Populations in Leisure Programming (3)**

Pre-requisite(s): RLS major or upper-level standing

In-depth investigation into the nature and implications of social class, ethnicity and race, gender, age, illness and disability upon individuals and their leisure/recreation patterns and leisure service delivery, with consideration of societal attitudes, role of leisure professionals, relevant legislation, programming opportunities, and resources for service delivery. Field experience required.

**RLS 4V13 Recreation & Leisure Services Field School (3-9)**

Short-term educational travel to a selected area(s) to observe and analyze social, economic, and environmental systems relative to natural resource management and outdoor recreation environments and to develop leadership and technical skills necessary to manage both environments and people associated with recreation programming. Methodologies may include ethnography, service and/or experiential learning, and application of the scientific method.

**RLS 4V94 Internship in Leisure Services (3-9)**

Pre-requisite(s): 2.25 overall GPA and 2.5 GPA in major and completed all major courses in RLS

Full-time work placement internship with a leisure service agency involving application of major courses in day-to-day operations and a project mutually agreed upon by the instructor and agency. (Graded)

## Religion (REL)

**REL 1310 The Christian Scriptures (3)**

An introduction to the Old and New Testaments (their contents, historical backgrounds, and major themes), and to appropriate strategies for interpretation of the Bible.

**REL 1350 The Christian Heritage (3)**

Pre-requisite(s): REL 1310

An introduction to Christian life and thought, from the early church to the present, through an examination of great texts with an emphasis on Christian doctrine, ethics, witness and institutions.

**REL 2480 Introduction to Ministry (4)**

Pre-requisite(s): REL 1310, 1350 and sophomore standing or above  
The church and its ministry, including leadership, and functions of ministry, with a special attention to the history, heritage, distinctive characteristics, and cooperative efforts of Baptists. Includes an internship under the supervision of an area minister.

**REL 3301 Psalms and Wisdom Literature (3)**

Pre-requisite(s): REL 1310 and 1350

A study of the worship and wisdom literature of the Old Testament: the books of Psalms, Proverbs, Job, and Ecclesiastes.

**REL 3303 Archaeology and the Bible (3)**

Cross-listed as ARC 3303

Pre-requisite(s): REL 1310 and 1350; and upper-level standing

An introduction to Biblical archaeology with emphasis on the archaeological discoveries which relate significantly to the understanding and interpretation of the Bible.

**REL 3304 Prophets (3)**

Pre-requisite(s): REL 1310 and 1350

A study of Old Testament prophecy emphasizing the prophetic books—their origins, times, and messages.

**REL 3305 Interpreting the Old Testament (3)**

Pre-requisite(s): REL 1310 and 1350

Analysis of the literature of the Old Testament, examining various methods used in Old Testament study. Attention will be given to relevant bibliography, leading scholars, and major issues in current Old Testament study.

**REL 3307 Former Prophets (3)**

Pre-requisite(s): REL 1310 and REL 1350

The Former Prophets (Joshua, Judges, 1 and 2 Samuel, and 1 and 2 Kings) as narrative, with attention to relevant historical, theological and literary issues.

**REL 3308 The Literature of the Pentateuch: Narrative, Poetry, Genealogy, and Law (3)**

Pre-requisite(s): REL 1310 and 1350

The first five books of the Old Testament with attention to the Pentateuch's distinct literary forms, their historical and cultural contexts, and the intersecting visions of reality these texts offer.

**REL 3309 Advanced Biblical Hebrew I (3)**

Pre-requisite(s): HEB 1302 or its equivalent

Selected readings in narrative prose of the Hebrew Bible with attention to advanced grammar and syntax.

**REL 3310 Advanced Biblical Hebrew II (3)**

Pre-requisite(s): HEB 2310 or REL 3309 or equivalent

Selected readings in poetic texts of the Hebrew Bible with attention to advanced grammar and syntax.

**REL 3311 Jesus and the Gospels (3)**

Pre-requisite(s): REL 1310 and 1350

A study of the portrayal of Jesus in the New Testament Gospels and an introduction to the question of "the historical Jesus."

**REL 3312 The Johannine Literature (3)**

Pre-requisite(s): REL 1310 and 1350

A study of the Johannine Literature with special attention to the historical setting, literary design, theological themes, and interpretations of the Gospel and Epistles of John.

**REL 3314 Paul and His Writings (3)**

Pre-requisite(s): REL 1310 and 1350

A study of the life and letters of the apostle Paul.

**REL 3315 The General Epistles (3)**

Pre-requisite(s): REL 1310 and 1350

A study of Hebrews, James, 1 and 2 Peter, Jude, and 1, 2, and 3 John.

**REL 3319 Interpreting the New Testament (3)**

Pre-requisite(s): REL 1310 and 1350

Analysis of literature of the New Testament, examining various methodologies, both historical and contemporary, in New Testament study. Attention will be given to relevant bibliography, leading scholars, and major issues in current New Testament study.

**REL 3320 Advanced Classical and Biblical Greek I (3)**

Pre-requisite(s): GKC 1302 or its equivalent

Selected readings from Plato and the Gospels with attention to advanced syntax and to the interpretive relationship between Classical and New Testament texts.

**REL 3321 Advanced Classical and Biblical Greek II (3)**

Pre-requisite(s): GKC 2320 or its equivalent

Readings in Homer's *Odyssey* with continued emphasis on Greek syntax and the interpretive relationship between Classical and New Testament texts.

**REL 3330 Introduction to Church History (3)**

Pre-requisite(s): REL 1310 and 1350

A survey of church history from New Testament times to the present.

**REL 3331 Topics in Historical Studies (3)**

Pre-requisite(s): REL 1310 and 1350

Major themes or movements in church history. The course may be repeated once with a different topic.

**REL 3333 History of Roman Catholicism (3)**

Pre-requisite(s): REL 1310 and 1350

Historical and theological developments of Roman Catholicism from the patristic period to the present. Special attention will be directed toward individuals, movements, and councils.

**REL 3338 Women in Christian History (3)**

Pre-requisite(s): REL 1310 and 1350

A survey of the role of women in Christian history from the early church to the present.

**REL 3339 Law and Religion in the United States (3)**

Cross-listed as CHS 3339, PHI 3339, PSC 3339

See PHI 3339 for course information.

**REL 3344 New Religious Movements in the United States (3)**

Pre-requisite(s): REL 1310 and 1350

The origin, development, and teachings of various New Religious Movements from a sociological, theological, phenomenological, and historical perspective.

**REL 3345 World Religions (3)**

Cross-listed as AST 3345

Pre-requisite(s): REL 1310 and 1350 or BIC 3358

Historical, aesthetic, philosophical, anthropological, sociological, and psychological approaches to the major faith traditions of our world.

**REL 3348 Hitler and the Holocaust (3)**

Cross-listed as HIS 3308

See HIS 3308 for course information.

**REL 3351 Introduction to Christian Theology (3)**

Pre-requisite(s): REL 1310 and 1350

Central doctrines of the Christian faith: revelation, the person and work of Jesus Christ, the Holy Spirit election, man, sin, Holy Scripture, and reconciliation. Classical and contemporary theological formulations will be used as illustrative material.

**REL 3352 Monks, Martyrs and Heretics in Early Christianity (3)**

Pre-requisite(s): REL 1310 and 1350

The emergence of doctrines and identity in earliest Christianity.

**REL 3353 Persecution and Martyrdom of Christians in Antiquity and Today (3)**

Pre-requisite(s): REL 1310 and REL 1350

Christian persecution and martyrdom with focus on earliest Christianity and the modern era.

**REL 3370 Religion and Literature (3)**

Cross-listed as ENG 3370

See ENG 3370 for course information.

**REL 3381 Communication in Ministry (3)**

Pre-requisite(s): REL 1310 and 1350

A study and practice of effective communication in ministry.

**REL 3382 Cross-Cultural Ministry (3)**

Pre-requisite(s): REL 1310 and REL 1350

Issues related to cross-cultural ministry and contemporary approaches for Christian missions.

**REL 3390 Christian Ethics (3)**

Pre-requisite(s): REL 1310 and 1350

Introduction to Christian Ethics through texts from Christian thinkers. By examining primary sources and varied approaches to Christian ethical reflection, students develop critical assessments of contemporary moral issues including family life, economic systems, and violence and war.

**REL 3391 Global Ethics (3)**

Pre-requisite(s): REL 1310, 1350

The major theoretical and applied debates in the field of global ethics (ethics in global context, approached using a variety of methodologies, including but not limited to traditional Christian ethical approaches).

**REL 3394 War and Peace in the Christian Tradition (3)**

Pre-requisite(s): REL 1310 and 1350

An examination of relevant Biblical materials and their interpretation and application throughout Christian history. An analysis of three major historical positions; pacifism, just war, and crusade, and an examination of contemporary expressions in scholarship, public policy, and popular thought.

**REL 3396 Christianity and Films (3)**

Pre-requisite(s): REL 1310 and 1350

Film viewing and critiquing of films from an ethical-theological perspective. This course will not be accepted for credit toward the six hour religion requirement by the university.

**REL 3397 Gender, Feminism and Theology (3)**

Pre-requisite(s): REL 1310 and 1350

Christian theology through the lenses of gender and feminism, including questions, critiques, and arguments of feminist theologians.

**REL 3V00 Biblical Heritage and Contemporary Society in the Holy Land (1-3)**

Cross-listed as MES 3V00

Pre-requisite(s): REL 1310 and 1350

A tour and intensive study of the Holy Land, focusing on geography, biblical heritage, and how that heritage influences contemporary Jewish/Palestinian issues. May not be repeated.

**REL 3V02 Undergraduate Research/Experiential Learning (1-3)**

Pre-requisite(s): REL 1310 and REL 1350

Supervised undergraduate research or experiential learning in the field of religion. The course may be repeated for up to three semester hours of credit.

**REL 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**REL 4300 Special Topics in Religion (3)**

Pre-requisite(s): REL 1310 and 1350; and upper-level standing  
Special topics of study in the discipline of religion, especially in areas not covered in the regular curriculum. The course may be repeated once when content differs.

**REL 4302 Archaeology and the Ancient Near East (3)**

Cross-listed as ARC 4302  
Pre-requisite(s): REL 1310 and 1350; and upper-level standing  
Ancient Near East, its history, culture, and religion as evidenced through archaeological excavation and the interpretation of archaeological data. The focus of the course will be upon the Biblical period.

**REL 4303 Aramaic (3)**

Cross-listed as ARA 4303  
See ARA 4303 for course information.

**REL 4304 Syriac (3)**

Cross-listed as SYR 4304  
Pre-requisite(s): REL 1310, 1350 and Upper-level standing  
Introduction to ancient Syriac with selected readings from Syriac manuscripts of biblical books as well as early Christian literature.

**REL 4305 Topics in Old Testament Studies (3)**

Pre-requisite(s): REL 1310 and 1350; and upper-level standing  
A designated book, group of books, or major theme from the Old Testament. The course may be taken up to three times when content differs.

**REL 4315 Topics in New Testament Studies (3)**

Pre-requisite(s): REL 1310 and 1350; and upper-level standing  
A designated book, group of books, or major theme from the New Testament. The course may be taken up to three times when content differs.

**REL 4316 Readings in the Greek New Testament and Early Christian Literature (3)**

Pre-requisite(s): GKC 2310 and 2320 or REL 3320 and 3321  
Language and literature of the New Testament and other early Christian writings including sample texts from a variety of early Christian genres (epistles, narratives, apocalyptic, etc.).

**REL 4317 Early Christianity and Identity in the Roman World (3)**

Pre-requisite(s): REL 1310, 1350; and upper-level standing  
The study of the rise of early Christianity and the complexity of Christian identity in the Roman world.

**REL 4333 History of Protestantism (3)**

Pre-requisite(s): REL 1310 and 1350; and upper-level standing  
History of Protestant Christianity from the precursors of Martin Luther to the present with emphasis upon the sixteenth-century Reformation, the various confessional traditions and major theological issues, the major developments affecting modern Protestantism, and the present state and future of Protestantism. The study will focus on Europe and North America.

**REL 4335 Baptist Life and Thought (3)**

Pre-requisite(s): REL 1310, 1350 and upper-level standing  
Baptist history and thought to the present, including the outreach of Baptist missions. The development of basic doctrine and polity within their historical settings, with special attention to biographies of important Baptist men and women.

**REL 4336 Introduction to Religion in America (3)**

Pre-requisite(s): REL 1310 and 1350; and upper-level standing  
American religious heritage with emphasis on its organization, expansion, thought, worship, and impact on American society.

**REL 4337 The European Reformation (3)**

Pre-requisite(s): REL 1310 and 1350  
The theology and historical context of the Magisterial, Radical, and Catholic sixteenth-century European Reformation.

**REL 4338 Women in Religion in America (3)**

Pre-requisite(s): REL 1310 and 1350; and upper-level standing  
The role of women in religion in America from colonial times to the present.

**REL 4340 Christian Missions (3)**

Pre-requisite(s): REL 1310 and 1350; and upper-level standing  
Biblical basis for missions, the expansion of Christianity, the encounter with non-Christian traditions, and contemporary rationales for Christian missions.

**REL 4341 World Christianity (3)**

Pre-requisite(s): REL 1310 and 1350  
Theologies and practices of Christian communities in Africa, Asia, Latin America and the Caribbean, and among immigrant Christian communities in the US and Europe, including cross-cultural encounters, inter-religious dialogue, global south Christian spirituality, and health and environmental issues.

**REL 4342 Christianity and the World Religions (3)**

Pre-requisite(s): REL 1310 and 1350  
The exchange and encounter between Christianity and the major world religions. Focus on religious worldviews, major events, religious and political trends, the history of missions, and a post-colonial critique of religious pluralism.

**REL 4343 Topics in Islam (3)**

Pre-requisite(s): REL 1310 and 1350; and upper-level standing  
The tenets, doctrines, and sects of Islam, including the religious underpinnings of Islamic society. Field trip required. The course may be repeated once with a different topic.

**REL 4346 Topics in Asian Religions (3)**

Cross-listed as AST 4346  
Pre-requisite(s): REL 1310 and 1350; and upper-level standing  
The basic history, beliefs and practices of religions in Asia. Course may highlight a specific religious tradition. The course may be repeated once with different topic.

**REL 4347 Topics in African Religions (3)**

Pre-requisite(s): REL 1310 and 1350  
History of religious expression in Africa plus contemporary changes as African religious traditions interact. With content changed, this course may be repeated once for a maximum of 6 semester hours.

**REL 4348 Modern Judaism (3)**

Pre-requisite(s): REL 1310, 1350 and upper-level standing  
Trends in 20th Century in Jewish thought, including Zionism, post-Holocaust thought, movements of Jewish renewal, and ecumenical relations.

**REL 4349 The World's Religions and Violence (3)**

Pre-requisite(s): REL 1310 and 1350  
Modern violence (particularly war, atrocity, and genocide) and how the religious traditions of Judaism, Christianity, Islam, Hinduism, Buddhism, Shinto, Sikhism, Jainism, and Zoroastrianism understand, challenge, and participate in it.

**REL 4350 Augustine's Theological Development (3)**

Cross-listed as CLA 4350

Pre-requisite(s): REL 1310 and 1350; and upper-level standing

Selected writings of Augustine that focus on such themes as the problem of evil, scriptural hermeneutics, his theological anthropology, and his Trinitarian theology.

**REL 4355 Salvation (3)**

Pre-requisite(s): REL 1310 and 1350

Development of the doctrine of Salvation through the centuries, including theories of atonement, models of salvation, and how they function in the contemporary church.

**REL 4356 Christian Persecution and Martyrdom in the Roman World (3)**

Cross-listed as CLA 4356

See CLA 4356 for course information.

**REL 4357 Pagans and Christians in the Later Roman World (3)**

Cross-listed as CLA 4357

See CLA 4357 for course information.

**REL 4374 Leadership in Ministry (3)**

Pre-requisite(s): REL 1310, 1350 and upper-level standing

The principles and models of effective leadership in ministry.

**REL 4388 Christian Literary Classics (3)**

Cross-listed as ENG 4388

Pre-requisite(s): REL 1310 and 1350; and upper level standing

A study of the various ways in which theological and imaginative excellence is displayed in such classic Christian authors as Augustine, Dante, Herbert, Bunyan, and Hopkins.

**REL 4389 Disability Ethics (3)**

Pre-requisite(s): REL 1310 and 1350

Disability ethics, a unique field within in Christian ethics/theology, focuses on helping students understand various aspects of disability, what it has to teach Christians about God and one another, and how to include people with disabilities in worshipping communities.

**REL 4390 Contemporary Christian Ethics Theory (3)**

Pre-requisite(s): REL 1310 and 1350; and upper-level standing

Designated theme, issue, or person in contemporary Christian ethical theory. The course may be taken up to three times when content differs.

**REL 4393 Environmental Ethics (3)**

Pre-requisite(s): REL 1310 and 1350; and upper-level standing

Moral perspectives which inform and support environmental activity in our society. The primary focus will be on the various interpretations of how humanity is properly related to its environment and the consequences of these interpretations for the environmental action of individuals and social institutions.

**REL 4395 Bioethics (3)**

Pre-requisite(s): REL 1310 and 1350 or BIC 3358; and upper level-standing

Ethical issues in the fields of health care and other life sciences. Some of the issues studied include behavior modification, abortion, euthanasia, health care delivery, human experimentation, and genetic modification. A major research project on a selected issue approved by the professor will be required of each student.

**REL 4396 Religion and Sport (3)**

Cross-listed as HP 4396

Pre-requisite(s): REL 1310 and 1350; and upper-level standing

This course explores the relationship between religion and sport, focusing on the issues of the sacred (persons, objects, time, space, communities), myth, theology, ritual, and experience. This course will not be accepted for credit toward a major or minor in religion or toward the six hour religion requirement by the University.

**REL 4397 Race, Racism, and Religion in America (3)**

Pre-requisite(s): REL 1310, REL 1350; and upper-level standing

Survey of dominant theological perspectives on race and histories of racism in American Christianity, as well as religious resources for racial reconciliation.

**REL 4398 Sports-Related Ethics (3)**

Cross-listed as HP 4398

See HP 4398 for course information.

**REL 4399 Senior Seminar (3)**

Pre-requisite(s): Senior standing

A senior level course required of all students majoring in religion. The seminar provides opportunity for reflection on the various disciplines and their interconnectedness in religious studies through assigned reading and directed research.

**REL 4V06 Palestinian Archaeology (1-6)**

Pre-requisite(s): REL 1310 and 1350; and upper-level standing

Archaeology of Palestine through readings, lectures, travel to excavated sites in Palestine, and participation in excavation at a selected site of major importance in Palestine. May be repeated once for credit.

**REL 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Russian (RUS)

**RUS 1101 Russian Language Workshop (1)**

For music students, supplemental language training to accompany regular 1301 language sections.

**RUS 1102 Russian Language Workshop (1)**

For music students, supplemental language training to accompany regular 1302 language sections.

**RUS 1301 Elementary Russian (3)**

Introduction to Russian language and culture: practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading). Progress through novice proficiency

**RUS 1302 Elementary Russian (3)**

Pre-requisite(s): RUS 1301 or two units of high school Russian

Introduction to Russian language and culture: practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading). Progress from novice toward intermediate proficiency level.

**RUS 2310 Intermediate Russian (3)**

Pre-requisite(s): RUS 1302 or three units of high school Russian

Practice in three communicative modes at intermediate-level proficiency: interpersonal, presentational (speaking, writing), and interpretive (listening, reading)

**RUS 2320 Russian Culture in Context (3)**

Pre-requisite(s): RUS 2310 or consent of the instructor

An exploration of Russian cultural achievements through the ages with continued practice in speaking, writing, reading, and listening Russian at the intermediate level. Class conducted in Russian with emphasis on developing conversational skills. Specific topics vary, but may include science, literature, the visual arts, music, film, and sports.

**RUS 3301 Russian Conversation and Composition (3)**

Pre-requisite(s): Fourteen semester hours of Russian or consent of instructor

Further development of communication skills. Required of all Russian majors.

**RUS 3302 Russian Reading Development (3)**

Pre-requisite(s): Fourteen semester hours of Russian or consent of instructor

Development of Russian reading skills through grammar review and reading of selections from various areas of the arts and sciences.

**RUS 3310 Russian phonetics and phonology (3)**

Pre-requisite(s): RUS 2320 or consent of instructor

Analysis of Russian phonology and spelling; practice in Russian pronunciation and intonation.

**RUS 3345 Introduction to Russian Film: Culture and Identity (3)**

Cross-listed as FDM 3345

Pre-requisite(s): Upper-level standing or consent of instructor

An introduction to Russian culture through Russian film including cinematic traditions of the Soviet Union and Russian Federation. The course will explore questions of identity—national, regional, and gender. Taught in English

**RUS 3352 Modern Russian Short Story (3)**

Pre-requisite(s): Fourteen semester hours of Russian

Emphasis on Russian short prose fiction of the twentieth century.

**RUS 3353 Russian Drama (3)**

Pre-requisite(s): Fourteen semester hours of Russian

Emphasis on the drama of the nineteenth and twentieth centuries.

**RUS 3380 Russian Literature in Translation I (3)**

Does not count toward foreign language requirement. Survey of Russian poetry and prose from its beginning to the Revolution with emphasis on Pushkin, Gogol, Dostoevsky, Tolstoy, and Chekhov.

**RUS 3381 Russian Literature in Translation II (3)**

Does not count toward foreign language requirement. Survey of Russian poetry and prose from the Revolution to The present with emphasis on Mayakowsky, Pasternak, Bulgakov, and Solzhenitsyn.

**RUS 3V70 Special Problems (1-3)**

Pre-requisite(s): Consent of division director

With content changed, this course may be repeated once for credit. 1-0

**RUS 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**RUS 4301 Survey of Russian Literature (3)**

Pre-requisite(s): Seventeen semester hours of Russian including RUS 3301 or consent of instructor

Russian literature from its beginnings to the Revolution.

**RUS 4302 Survey of Russian Literature, continued (3)**

Pre-requisite(s): Seventeen semester hours of Russian including RUS 3301 or consent of instructor

Survey of Russian literature from the Revolution to the present.

**RUS 4V90 Independent Study (1-3)**

Pre-requisite(s): Consent of division director

Independent study in Russian language and literature in consultation with a professor. Examination and term paper. With content changed, this course may be repeated once for credit.

**RUS 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Sanskrit (SAN)

**SAN 1301 Elementary Sanskrit (3)**

Introduction to the basic elements of Classical Sanskrit: the devanagari script, grammar, and syntax.

**SAN 1302 Elementary Sanskrit (3)**

Pre-requisite(s): SAN 1301

Continuation of SAN 1301; Continuation of Classical Sanskrit grammar and syntax; selected readings from the Bhagavad-Gita and the Ramayana.

## Science Research Fellows (SRF)

**SRF 1306 Research Techniques I (3)**

Pre-requisite(s): Science Research Fellows major

The scientific process and common techniques and instrumentation used in biology, neuroscience and psychology research labs, including scientific literacy, data analysis and interpretation, and the breadth of scientific exploration.

**SRF 1307 Research Techniques II (3)**

Pre-requisite(s): Science Research Fellows major

Techniques and instrumentation for chemistry and biochemistry research labs; toxicology as it applies to all science disciplines.

**SRF 3V90 Research Problems in Science (1-4)**

Pre-requisite(s): SRF 1307 and Science Research Fellows major

Research project conducted under the supervision of a science research faculty member. Techniques and overall goals of the research group, including the details of a particular research project. This course may be repeated for a maximum of 8 total hours if research continues.

**SRF 4101 Senior Research Seminar I (1)**

Pre-requisite(s): Upper-level standing and Science Research Fellows major

Lab work and data analysis in preparation for presentation and possible publication, supervised by a faculty member.

**SRF 4102 Senior Research Seminar II (1)**

Pre-requisite(s): Upper-level standing and Science Research Fellows major

Presentation of research in a formal oral presentation to faculty and SRF peers, supervised by a faculty member.

**SRF 4V90 Senior Research Problems in Science (1-4)**

Pre-requisite(s): SRF 3V90 and Science Research Fellows major

Independent research project as determined by the faculty research advisor. Students will collect enough scientific data for publication. This course may be repeated for a maximum of 12 total hours if research continues.

## Slavic & East European Studies (SEES)

### SEES 2380 Introduction to Slavic and East European Studies I (3)

Cross-listed as HIS 2380, SLS 2380

Basic introduction to the peoples, history, and cultures of the countries covered by Slavic and East European Studies, including the post-Communist states of Central and Eastern Europe, the former Soviet Republics, and the former Federated Yugoslavia up to the mid-1700's.

### SEES 2381 Introduction to Slavic and East European Studies (3)

Cross-listed as HIS 2381

Major events and factors – e.g., political, economic, and social – leading to upheaval and change in the area countries from the mid-1760's to the present, with attention to the Bolshevik Revolution in Russia, Stalinism, the creation of the Soviet Empire, the collapse of communism in Central and Eastern Europe, and the transition of post-communist states.

### SEES 2V70 Independent Study (1-3)

Pre-requisite(s): Consent of director

Supervised individual research in Slavic Studies consultation with a professor. Examination and term paper. With content changed, course may be repeated once for credit.

### SEES 3V70 Advanced Independent Study (1-3)

Pre-requisite(s): Consent of director

Independent research in Slavic Studies in consultation with a professor. Examination and term paper. With content changed, course may be repeated once for credit.

### SEES 4363 Traditional Music and Culture in Europe (3)

Cross-listed as MUS 4363

See MUS 4363 for course information.

### SEES 4379 The Cold War (3)

Cross-listed as HIS 4379

See HIS 4379 for course information.

### SEES 4V90 Independent Readings (1-3)

Pre-requisite(s): Consent of instructor and graduate director of student's home department; upper-level standing

This course is designed for advanced undergraduates and graduate students. Directed readings on a topic selected by the student in consultation with the graduate director of the student's home department and the director of SEES. Maximum of 6 credit hours.

## Social Innov. Collaborative (SIC)

### SIC 4V98 Special Topics in Social Innovation (1-4)

Study of advanced topics in social innovation, with attention to a particular "wicked" problem. This course may be repeated twice when topics differ, not to exceed nine semester hours.

## Social Work (SWO)

### SWO 1101 Social Justice and New Beginnings at Baylor (1)

New student experience course designed to help students acclimate to college life with a specific focus on vocational calling and social justice as defined within the social work profession.

### SWO 1300 Human Flourishing & Social Issues (3)

Through this course, students will consider barriers to human flourishing in contemporary society through experiential learning opportunities in both residential and community contexts. Students will draw on the connections between leadership, social change, and human flourishing; seeking to develop a deeper understanding of self and their vocation interests in a global context.

### SWO 2320 Human Diversity and Leadership (3)

This course creates opportunities to increase understanding of diversity and difference, power and privilege, and oppression—as well as an understanding of oneself. Students will look at diversities within religion, ability, age, sexual orientation in addition to race/ethnicity, class, gender. This is an essential foundation for culturally competent leadership in any professional or volunteer setting.

### SWO 2321 Introduction to Social Work (3)

An introduction to the profession of social work and the institution of social welfare. Emphasis is on common human needs and problems, and the development and functioning of social welfare as an institution of society. Course content includes history, knowledge base, values, and skills of professional social work as well as contexts for practice and career opportunities.

### SWO 2V80 Special Topics (1-3)

Provides instruction in areas of social work knowledge, values, and/or skills that are not available in the standard social work baccalaureate or graduate curricula. Course may be repeated up to six times with different topics of study, not to exceed a maximum of six semester hours.

### SWO 3305 Introduction to Gerontology (3)

Cross-listed as GRT 3305, SOC 3305

See SOC 3305 for course information.

### SWO 3351 Human Behavior and the Social Environment I (3)

Human development across the life course with emphasis on the effects of the social and physical environment on maturation. Special attention given to gender issues, experiences of racial and ethnic minorities, and other special populations.

### SWO 3352 Human Behavior and the Social Environment II (3)

Pre-requisite(s): SWO 2320

The environmental contexts for human behavior with a special emphasis on groups, organizations and communities. Issues of human diversity, social and economic justice, and environments of populations at risk are emphasized.

### SWO 3371 Social Work Practice I: Generalist Practice (3)

Pre-requisite(s): SWO 2321 and credit or concurrent enrollment in 3351, and admission to Social Work program

The Generalist Model of social work practice, including theoretical frameworks, problem-solving method, values and ethics, and practice with special populations. Thirty hours of service learning work required.

### SWO 4301 Social Work Research (3)

Pre-requisite(s): SWO 4305 and credit or concurrent enrollment in SWO 4322 and 4492

The basic purpose, methods and techniques of social research, evaluation of professional social work practice, and social program evaluation.

### SWO 4305 Data Analysis for Social Work (3)

Pre-requisite(s): MTH 1301 or 1320 or 1321 or STA 1380

Apply basic statistical tools to describe, analyze, and evaluate research issues in professional social work practice.

**SWO 4315 Foundations for Social Justice (3)**

Examines theories and practices of social justice as related to oppressed groups in a multicultural society utilizing religious and nonreligious perspectives. Addresses issues of power, inequality, and privilege, and the diverse experiences of oppressed groups in framing strategies to promote social justice.

**SWO 4316 Trauma, Loss, and Mourning (3)**

Pre-requisite(s): Upper-level standing or graduate student  
Specialized knowledge and skills for loss and grief and therapeutic interventions for the bereaved, including bereaved children. Preparation for work with loss of relationship and health across the lifespan. Emphasis on religious faith and grief, and the response of faith communities and religiously affiliated providers to suicide, divorce, loss of parental rights, and other disenfranchised grief.

**SWO 4317 Human Trafficking (3)**

Pre-requisite(s): Upper-level standing or graduate student  
This course is designed to help students gain a better understanding of contemporary human trafficking and modern day slavery. The roles that entities such as government, the media, faith-based organizations, organized crime, and culture play in this complex human rights and social (in)justice issue will also be explored.

**SWO 4322 Social Policy for Social Work Practice (3)**

Pre-requisite(s): SWO 4373  
Credit or concurrent enrollment in SWO 4305 and 4491. Non-majors must have consent of instructor. Historical and current patterns of provision of social welfare services, the effect of social policy on people gaining optimal health and well-being, and the effect of social policy on social work practice.

**SWO 4372 Social Work Practice II: Generalist Practice with Groups (3)**

Pre-requisite(s): SWO 3351 and minimum grade of B in 3371, and credit or concurrent enrollment in SWO 3352 and 4373  
Knowledge and skills appropriate to social work intervention with small treatment and task groups representing different backgrounds, building on the skills learned in SWO 3371 with individuals and families.

**SWO 4373 Social Work Practice III: Generalist Practice with Organizations and Communities (3)**

Pre-requisite(s): SWO 3351 and minimum grade of B in 3371, and credit or concurrent enrollment in SWO 3352 and 4372  
Knowledge, skills and strategies appropriate to work with organizations, neighborhoods, and communities to foster social and economic justice.

**SWO 4393 Sociology of Aging (3)**

Cross-listed as GRT 4393, SOC 4393  
Pre-requisite(s): Upper-level standing  
Impact of aging upon individuals and society, as well as the reactions of individuals and society to aging. Social gerontology is the principal focus of attention of the course.

**SWO 4395 Aging and Mental Health (3)**

Cross-listed as GRT 4395, SOC 4395  
Pre-requisite(s): Upper-level standing  
Mental health needs and related problems of aging individuals with considerable discussion of approved mental health treatments for such persons.

**SWO 4401 Statistics for Social Workers (4)**

Pre-requisite(s): MTH 1301 or 1320 or 1321 or STA 1380  
Apply basic statistical tools to describe, analyze, and evaluate research issues in professional social work practice.

**SWO 4491 Social Work Internship I (4)**

Pre-requisite(s): A minimum grade of B in SWO 4372 and 4373 and admission to field program and consent of Director or Associate Director of Field Education - Generalist Practice  
First semester of Field internship requiring 240 hours of Social Work practice with supervision by a professional social worker within a local setting and a weekly integrative seminar. Requires integration of liberal arts background and social work knowledge, skills, values, and ethics within the structure of the agency, demonstrating beginning competence around each of the program's educational objectives and competencies.

**SWO 4492 Social Work Internship II (4)**

Pre-requisite(s): A minimum grade of B in SWO 4491 and credit or concurrent enrollment in SWO 4301 and SWO 4322  
Second semester of Field internship requiring integration of liberal arts background and Social Work knowledge, skills, values, and ethics through two hundred forty hours of supervised practice in a community agency and a weekly integrative seminar. Student must demonstrate competence around each of the program's educational objectives and competencies.

**SWO 4V70 Special Topics in Social Work (1-3)**

Pre-requisite(s): Consent of instructor  
Course for students who wish to study an area of social work not covered by a formal course. May be repeated for up to a total of six hours credit when the subject matter varies.

**SWO 4V80 Special Topics (1-3)**

Pre-requisite(s): Upper-level standing or graduate student  
Provides instruction in areas of social work knowledge, values, and/or skills that are not available in the standard social work baccalaureate or graduate curricula. Course may be repeated up to six times with different topic of study, not to exceed a maximum of six semester hours.

## Sociology (SOC)

**SOC 1305 Introduction to Sociology (3)**

An introductory survey course including basic concepts in the field of sociology, the relationship of the individual to culture, groups, and major social institutions. Particular attention is given to an examination of contemporary social issues through a sociological lens.

**SOC 1306 Social Problems (3)**

An analysis of current social problems with emphasis on sociological aspects of problems in education, family life, religion, and other social institutions.

**SOC 3305 Introduction to Gerontology (3)**

Cross-listed as GRT 3305, SWO 3305  
An examination of aging in relation to sociology, psychology, biology, law, political science, literature, religion, recreation, and health. Special emphasis is placed on seeking ways to improve the quality of life for persons over thirty-five.

**SOC 3309 Religion and Society (3)**

Historical and contemporary issues concerning the complex relationship of religion and society; and religion's propensity to alternately legitimate the status quo and promote social change.

**SOC 3311 The Sociology of Race and Ethnicity (3)**

Dynamics of race and ethnicity and their interrelationship in society.

**SOC 3318 Mexican-Americans in U.S. Society (3)**

Race relations theories are applied in the analysis of Mexican-American history, education, acculturation economics, identification, politics, and strategies for social change.

**SOC 3322 City and Community (3)**

Relationship of social structure, inequality, and social patterns to human settlement in urban and rural areas.

**SOC 3330 Women in American Society (3)**

Pre-requisite(s): SOC 1305 or 1306 or consent of instructor

An examination of the sociological meaning of women's roles in comparison with men's roles in our society, along with social forces that mold the lives of women. The women's movement and changes in the legal, economic, social, educational, and political arenas as they affect women are investigated. The status of women in the context of contemporary society is explored.

**SOC 3354 Marriage and the Family (3)**

Contemporary family lifestyles are presented from a sociopsychological viewpoint with stress on personal awareness, growth, and satisfaction in interpersonal relations. Topics include dating, mate selection, communication, sexual adjustment, parenting, cohesion and adaptability, and divorce.

**SOC 3355 Introduction to the Economics of Poverty and Discrimination (3)**

Cross-listed as ECO 3355

See ECO 3355 for course information.

**SOC 3360 Juvenile Delinquency (3)**

Pre-requisite(s): SOC 1305 A study of delinquency in a changing society, with emphasis on social causes and methods of control

**SOC 3365 Population Geography (3)**

Pre-requisite(s): Upper-level standing; or consent of instructor

Population patterns, emphasizing fertility, mortality, and migrations in various regions.

**SOC 3372 Population Health (3)**

Analysis and evaluation of socioeconomic status, gender, race, ethnicity, and age as major determinants of individual differences in health and well-being in the United States.

**SOC 3402 Social Statistics (4)**

Cross-listed as ANT 3402

Pre-requisite(s): One course in the formal reasoning distribution list (MTH 1301, MTH 1320, MTH 1321, PHI 1306, or STA 1380) and SOC 1305, ANT 1306, or ANT 1404

An introduction to descriptive and inferential statistics for social science majors. Development of skills in research data analysis.

**SOC 4303 Applied Sociology (3)**

Pre-requisite(s): SOC 1305, 3402 and consent of instructor

Field experience in applied social research: theory construction, population and sample identification, data collection, statistical analysis, and research report presentation.

**SOC 4309 Social Psychology (3)**

Causes and the effects of human interaction. The importance of others in determining one's perception, attitudes, motivation, pattern of communication, and behavior-such as altruism, affiliation, aggression, conformity, and achievement is examined.

**SOC 4310 Death and Dying (3)**

Significant issues in the rapidly growing field of death awareness. Specifically, the interactions between the dying individual, family, friends, and professionals are analyzed in terms of process. Major emphasis is placed on the social aspects of dying and the different settings in which deaths occur.

**SOC 4311 Sociology of Sport (3)**

Cross-listed as HP 4372

See HP 4372 for course information.

**SOC 4315 Sociology of Education (3)**

Structure and functioning of the social organization of the school in light of the goals to be achieved. The interrelationships of education with other institutions will be examined. Consideration will also be given to social psychological processes as they operate in the school setting.

**SOC 4320 Culture, Personality and Identity (3)**

Cross-listed as ANT 4320

See ANT 4320 for course information.

**SOC 4322 Stratification in Society (3)**

Various forms, effects, and origins, of systems of distribution of social resources. Focus on economics, power, status, and identity.

**SOC 4325 Sociology of Religion (3)**

Ways in which religion influences society, culture, and personality and, conversely, how the latter affect religion.

**SOC 4331 Social Demography (3)**

Cross-listed as ENV 4331

Statistical study of human populations, including human population, size, growth, density, and distribution.

**SOC 4335 Sociology of Law (3)**

Pre-requisite(s): Upper-level standing

A sociological examination of the role of law in society with an emphasis on the relationship between law and other social institutions and how our legal system attempts to solve particular social problems.

**SOC 4340 Ethnicity and Aging (3)**

Cross-listed as GRT 4340, SWO 4340

See SWO 4340 for course information.

**SOC 4352 Criminology (3)**

Pre-requisite(s): SOC 1305

Crime, criminals, and the correctional system in America. Emphasis is given to the effects of crime on the social order.

**SOC 4353 Sociology of Medicine (3)**

Pre-requisite(s): Upper-level standing; or consent of instructor

A sociological examination of health, illness, and the social organization of medical care in the United States. Consideration is given to race, class, gender, and age as factors influencing health, illness, and the delivery of medical care.

**SOC 4355 Economics of Poverty and Discrimination (3)**

Cross-listed as ECO 4355

See ECO 4355 for course information.

**SOC 4357 Health Inequalities in America (3)**

Pre-requisite(s): SOC 1305 and upper-level standing, or consent of instructor This course is designed to inform students about the ever-changing distribution of health across race/ethnicity, gender, age, region, and other demographic indicators

**SOC 4360 Social Problems in Modern Society (3)**

Pre-requisite(s): SOC 1305 and upper-level standing or consent of instructor

Sociological perspective on defining "social problems" for the United States, examining their causes and consequences, and possible solutions. Includes case studies of contemporary issues, such as income inequality, violence, health disparities, and climate change.

**SOC 4366 Social Movements (3)**

Contemporary social change as an outcome of the economic, political, and social processes involved in the development of post-industrial society.

**SOC 4381 Methods of Social Research (3)**

Pre-requisite(s): SOC 1305, 3402; and three semester hours of mathematics

Basic methods and techniques used in social research.

**SOC 4391 Social Theory (3)**

Pre-requisite(s): Senior status and SOC 1305, 3402, and 4381, or consent of instructor

Social theory from its origins in philosophy to current efforts at theory construction. Particular schools are critically evaluated, and recent convergences in social anthropology, sociology, and social psychology are noted.

**SOC 4393 Sociology of Aging (3)**

Cross-listed as GRT 4393, SWO 4393

See SWO 4393 for course information.

**SOC 4395 Aging and Mental Health (3)**

Cross-listed as GRT 4395, SWO 4395

See SWO 4395 for course information.

**SOC 43C9 Senior Colloquium (3)**

Pre-requisite(s): SOC 1305, 3402, 4381, 4391 and senior standing  
Culminating course integrating methods, theory, and topical knowledge of sociology. Special emphasis on the application of sociology into post-graduate life.

**SOC 4V70 Special Topics in Sociology (1-3)**

Pre-requisite(s): SOC 1305, upper-level standing, and consent of instructor; SOC majors only

Designed for students who wish to study with a professor in an area of sociology not covered by regular course offerings. Students will contract with professor regarding study and number of semester hours. May be repeated for credit up to a total of six semester hours, provided topic is different. For sociology majors with upper-level standing only.

**SOC 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Spanish (SPA)

**SPA 1101 Spanish Language Workshop (1)**

For music students, supplemental language training to accompany regular 1301 language sections.

**SPA 1102 Spanish Language Workshop (1)**

For music students, supplemental language training to accompany regular 1302 language sections.

**SPA 1301 Elementary Spanish (3)**

Pre-requisite(s): Appropriate score on departmental placement exam or departmental approval

Introduction to SPA language and cultures; practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading). Progress through novice proficiency levels

**SPA 1302 Elementary Spanish (3)**

Pre-requisite(s): SPA 1301, appropriate score on departmental placement exam, or departmental approval

Introduction to Spanish language and cultures; practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading). Progress from novice toward intermediate-level proficiency

**SPA 1304 Elementary Spanish for Heritage Speakers (3)**

Pre-requisite(s): Appropriate score on departmental placement exam or departmental approval

Intended for students who have prior exposure to Spanish but have not studied the language formally. Improvement of Spanish as used in the academic and professional world and development of historical consciousness about the Hispanic presence in the USA. Practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading). Progress through novice or novice mid-level proficiency levels.

**SPA 1412 Accelerated Elementary Spanish (4)**

Pre-requisite(s): Appropriate score on departmental placement exam or departmental approval

An intensive course in first-year college Spanish especially for students with two-three years of high school Spanish. Covers the content of SPA 1301 and 1302 in only one semester. As grammar is reviewed, emphasis is placed on the major skill areas (ACTFL Guidelines): reading, writing, listening, speaking, and cultural awareness.

**SPA 2304 Intermediate Spanish for Heritage Speakers (3)**

Pre-requisite(s): SPA 1304, appropriate score on departmental placement exam, or consent of instructor

Designed for students who have prior exposure to Spanish but may not have studied it formally. Review of grammar, exploration of SPA-speaking cultures, and practice at intermediate-level proficiency to develop speaking and writing skills for professional contexts. May be substituted for SPA 2310 and SPA 2320 and used in fulfillment of the FL req.

**SPA 2310 Intermediate Spanish (3)**

Pre-requisite(s): SPA 1302 or 1412 or appropriate score on departmental placement exam or departmental consent

Practice in three communicative modes at intermediate-level proficiency: interpersonal, presentational (speaking, writing), and interpretive (listening, reading).

**SPA 2311 Intermediate Spanish for Teachers (3)**

Pre-requisite(s): SPA 1402 or 1412 or appropriate score on departmental placement exam or departmental consent

Development of communication skills within a school (K-12) context with attention to vocabulary building, grammar review, conversation, composition, and cultural readings. Designed primarily for students in the School of Education, this course may be substituted for SPA 2310 to fulfill the foreign language requirement in Arts and Sciences.

**SPA 2320 Exploring the Spanish-Speaking World (3)**

Pre-requisite(s): SPA 2310, or 2311, or appropriate score on departmental placement exam or departmental consent

An exploration of the cultures of the Spanish-speaking world with continued practice in listening, speaking, reading, and writing Spanish at the intermediate level. Class conducted in Spanish, with emphasis on developing conversational skills. Topics vary by section but may include Pop Culture, Music, Film, Literature, Art, Social Media, Journalism of the Spanish-speaking world.

**SPA 2321 Intermediate Spanish for Health Professions (3)**

Pre-requisite(s): SPA 2310, 2311, or 2312 or appropriate score on departmental placement exam or departmental consent  
Development of intermediate level skills in comprehension, speaking, reading, writing, and cultural interpretation with an emphasis on medical and scientific issues for prospective medical and health-care professionals. May be substituted for SPA 2320. Must be taken in residence at Baylor in order to count toward the Certificate in Spanish for Health Professions.

**SPA 2322 Spanish for Christian Ministry (3)**

Pre-requisite(s): SPA 2310, 2311, or 2312 or appropriate score on departmental placement examination or departmental approval  
Development of vocabulary, grammar, composition, and conversation skills in Spanish for students interested in Christian ministry, using the Bible and related religious materials. May be substituted for SPA 2320.

**SPA 2324 Spanish for Business (3)**

Pre-requisite(s): SPA 2304 or 2310; or appropriate score on departmental placement exam; or departmental approval  
Development of communication skills at the intermediate and low-advanced proficiency levels for reading, writing, speaking and listening. Focus on using Spanish in Business contexts and examines the business cultures of the Spanish-speaking world.

**SPA 2412 Accelerated Intermediate Spanish (4)**

Pre-requisite(s): SPA 1412 or placement into SPA 2310 or 2320 and departmental approval  
Intensive intermediate Spanish course geared toward strong language learners. Content of Spanish 2310 and 2320 in one semester. Continued development of Spanish language skills, including listening, speaking, reading and writing. Emphasis on cultural and literary readings. May be substituted for SPA 2310 and SPA 2320 and used in fulfillment of the foreign language requirement.

**SPA 3001 Spanish for Health Professions Certificate Project (0)**

Pre-requisite(s): SPA 2321 and 3302  
An individually driven project to be carried out in tandem with a Spanish course at the 3000 or 4000 level. Subject matter must be health-related and the project must be completed in Spanish. Approval of the Director of the Certificate in Spanish for Health Professions required.

**SPA 3302 Conversation and Composition (3)**

Pre-requisite(s): SPA 2304, 2320, 2321, 2322, 2324 or 2412; or appropriate score on departmental placement exam; or consent of division director  
A bridge course between second-year SPA and more advanced courses in major/minor; development of oral and written proficiency in Spanish

**SPA 3304 Advanced Spanish for Heritage Speakers (3)**

Pre-requisite(s): SPA 2304, appropriate score on departmental placement exam, or consent of instructor  
Designed for students who have prior exposure to Spanish but may not have studied it formally. Readings and discussion about Spanish-speaking communities worldwide and practice at advanced-level proficiency to develop speaking and writing skills for professional contexts. May be substituted for SPA 3302.

**SPA 3305 Introduction to Hispanic Literature (3)**

Pre-requisite(s): SPA 2304, 2320, 2321, 2322, 2324, 2412, or 3302  
Readings of representative authors and genres (poetry, prose fiction, drama, and essay) from around the Spanish-speaking world. Includes an introduction to literary research in Spanish.

**SPA 3309 Introduction to Spanish Linguistics (3)**

Pre-requisite(s): SPA 2320, 2321, 2322, 2324, or 3302; or appropriate score on departmental placement exam; or departmental approval  
An introduction to the study of language and linguistics in general and of the sounds, structure, and meaning of Spanish in particular.

**SPA 3310 Spanish Civilization (3)**

Pre-requisite(s): SPA 2320, 2321, 2322, or 3302 or consent of division director  
Study of Spanish history and culture.

**SPA 3311 Spanish-American Civilization (3)**

Pre-requisite(s): SPA 2320, 2321, 2322, or 3302 or consent of division director  
Study of Spanish-American history and culture.

**SPA 3350 Survey of Spanish Literature through the Seventeenth Century (3)**

Pre-requisite(s): SPA 3305 or consent of division director  
Study of literary selections from the Middle Ages through the seventeenth century; readings, lectures, and reports.

**SPA 3352 Survey of Spanish Literature from the Eighteenth Century (3)**

Pre-requisite(s): SPA 3305 or consent of division director  
Study of literary selections from the eighteenth century to the present time; readings, lectures, and reports.

**SPA 3354 Survey of Latin American Literature to 1880 (3)**

Pre-requisite(s): SPA 3305 or consent of division director  
Study of literary selections from the Spanish conquest to 1880; readings, lectures, and reports.

**SPA 3356 Survey of Latin American Literature from 1880 to Present (3)**

Pre-requisite(s): SPA 3305 or consent of division director  
Study of literary selections from 1880 to the present; readings, lectures, and reports.

**SPA 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**SPA 4303 Spanish Phonology and Morphophonology (3)**

Pre-requisite(s): SPA 3309  
The sounds of Spanish and the formation of its words, and the relationship between these two, morphophonology. It includes pronunciation and transcription of Spanish.

**SPA 4304 Spanish Syntax (3)**

Pre-requisite(s): SPA 3309  
Spanish word order and sentence formation, phrasal structures and constructions that are different from English.

**SPA 4305 Spanish Semantics and Pragmatics (3)**

Pre-requisite(s): SPA 3309  
The study of the meaning of words, sentences, and discourse and elements of conversation including context, usage and appropriateness.

**SPA 4315 Methods of Foreign Language Teaching (3)**

Cross-listed as FRE 4315, GER 4315  
Theoretical and historical bases with practical applications in communication methodology. Introduction to professional activities and materials. Although this course cannot be counted toward the first or second teaching field, it will be counted toward a major in Spanish.

**SPA 4321 Advanced Spanish for Health Professions (3)**

Pre-requisite(s): SPA 2321, 3302 and consent of instructor  
 In-depth experience with Spanish in medical contexts, including a community service-learning component, with emphasis on oral and aural proficiency. Must be taken in residence at Baylor in order to count toward the Certificate in Spanish for Health Professions.

**SPA 4330 Advanced Grammar, Composition and Conversation (3)**

Pre-requisite(s): SPA 3302; and consent of instructor  
 A review of grammar applied to the writing of compositions and conversational practice. Emphasis on writing style, practical and cultural topics, dialogues, and interviews.

**SPA 4340 Professional and Literary Translation (3)**

Pre-requisite(s): SPA 4330 or equivalent or consent of instructor  
 The theory and practice of translation, including poetry, short stories, and technical documents.

**SPA 4362 Spanish Drama of the Golden Age (3)**

Pre-requisite(s): SPA 3305 or consent of division director  
 Representative playwrights of seventeenth-century Spain; extensive study of selected works. Lectures, reports, class discussion, and term papers.

**SPA 4363 Cervantes (3)**

Pre-requisite(s): SPA 3305 or consent of division director  
 Study of the major works of Cervantes with emphasis on Don Quixote, the cultural milieu of sixteenth and seventeenth century Spain, and the views of present-day literary critics. Lectures, class discussions, oral reports, and term papers.

**SPA 4364 Nineteenth Century Spanish Literature (3)**

Pre-requisite(s): SPA 3305 or consent of division director  
 Representative plays, poems, essays, and novels from nineteenth century Spanish literature, emphasizing in-depth analysis of texts.

**SPA 4366 Twentieth Century Spanish Literature (3)**

Pre-requisite(s): SPA 3305  
 Study of representative poets, playwrights, and novelists of this century. Lectures, student reports, class discussions, and term papers.

**SPA 4372 Latin American Short Story (3)**

Pre-requisite(s): SPA 3305  
 An in-depth study of outstanding eighteenth, nineteenth and twentieth century Latin American short stories in light of current practice and trends in literary analysis.

**SPA 4375 Contemporary Spanish American Theater (3)**

Pre-requisite(s): SPA 3305 or consent of division director  
 Major trends of Spanish American theater as reflected in the works of major contemporary playwrights. Readings, lectures, and reports.

**SPA 4376 The Spanish-American Novel (3)**

Pre-requisite(s): SPA 3305 or consent of division director  
 A study of the origins and development of the Spanish-American novel (from 1816 to 1915). A study of the main literary movements as reflected or found in the novel, in an approved paper or project.

**SPA 4378 Latin American Poetry (3)**

Pre-requisite(s): SPA 3305  
 An overview of poetic trends in Latin American literature from pre-Hispanic times to the twentieth century.

**SPA 4388 Topics in Hispanic Language and Literature (3)**

Pre-requisite(s): SPA 3305; or consent of division director  
 A study of an author, work, period, genre, or current Hispanic literature or of an aspect of the Spanish language. Topic changes from semester to semester. May be repeated for credit if topic is different.

**SPA 4V90 Special Problems (1-3)**

Pre-requisite(s): Consent of division director  
 Independent study in Spanish language and literature in consultation with a professor. Examination and term paper. With content changed, this course may be repeated once for credit.

**SPA 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
 Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Statistics (STA)

**STA 1301 Statistical Reasoning: A Guide to the Unknown (3)**

Pre-requisite(s): Freshman standing and consent of statistics undergraduate faculty advisor  
 Philosophical, ethical, and sociological issues related to statistical uncertainty and randomness.

**STA 1380 Elementary Statistics (3)**

Introduction to traditional statistical concepts including descriptive statistics, binomial and normal probability models, tests of hypotheses, linear correlation and regression, two-way contingency tables, and one-way analysis of variance. Credit may not be obtained after receiving credit in STA 2381 or 3381.

**STA 1V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
 Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**STA 2300 Introduction to Data Science (3)**

Cross-listed as CSI 2300  
 Principles of data science, including problem workflow, variable types, visualization, modeling, programming, data management and cleaning, reproducibility, and big data.

**STA 2381 Introductory Statistical Methods (3)**

Pre-requisite(s): A grade of C or above in MTH 1321  
 Parametric statistical methods. Topics range from descriptive statistics through regression and one-way analysis of variance. Applications are typically from biology and medicine. Computer data analysis is required.

**STA 2450 Introduction to Computing for the Mathematical and Statistical Sciences (4)**

Computer programming for mathematical scientists with emphasis on designing algorithms, problem solving, and coding practices. Topics include development of programs from specifications; appropriate use of data types; functions; modular program organization; documentation and style; and version control and collaborative programming.

**STA 2V9R Research (3)**

Pre-requisite(s): Consent of the instructor  
 Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**STA 3375 Technologies for Sports Analytics (3)**

Pre-requisite(s): STA 2300 and STA 2450  
 Concepts in big data analytics primarily applied to topics in sports focusing on graphical methods through dashboards and inferential methods.

**STA 3381 Probability and Statistics (3)**

Pre-requisite(s): A grade of C or above in MTH 1322

Introduction to the fundamentals of probability, random variables, discrete and continuous probability distributions, expectations, sampling distributions, topics of statistical inference such as confidence intervals, tests of hypotheses, and regression.

**STA 3386 Regression Analysis (3)**

Pre-requisite(s): MTH 2311, MTH 2321, and STA 3381 A development of regression techniques including simple linear regression, multiple regression, logistic regression and Poisson regression with emphasis on model assumptions, parameter estimation, variable selection and diagnostics

**STA 3V90 Undergraduate Research in Statistics (1-3)**

Pre-requisite(s): Consent of instructor

Independent study or research in topics not available in other courses. Maximum of four hours will count toward the degree.

**STA 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**STA 4330 SAS Programming for Statistical Science (3)**

Pre-requisite(s): STA 2381 or 3381

Concepts in SAS programming including methods to establish and transform SAS data sets, perform statistical analyses, and create general customized reports. Methods from both BASE SAS and SAS SQL will be considered.

**STA 4350 Statistical Machine Learning (3)**

Pre-requisite(s): STA 3386 Fundamental topics of machine learning including supervised/unsupervised learning, cost function optimization, feature selection and engineering, and bias/variance tradeoff Learning algorithms including classification methods, support vector machines, decision trees, neural networks, and deep learning are included.

**STA 4360 Bayesian Data Analysis (3)**

Pre-requisite(s): STA 4385 An introduction to Bayesian inference emphasizing prior and posterior distributions, estimation, prediction, hierarchical Bayesian analysis, and applications with computer implemented data analysis

**STA 4362 Applied Time Series Analysis (3)**

Pre-requisite(s): STA 3386

Statistical methods of analyzing time series. Model identification, estimation, forecasting, and spectral analysis will be discussed. Applications in a variety of areas including economics and environmental science will be considered.

**STA 4370 Sampling Techniques (3)**

Pre-requisite(s): Three hours of statistical methods

Planning, execution, and analysis of sampling from finite populations. Simple random, stratified random, ratio, systematic, cluster, sub sampling, regression estimates, and multi-frame techniques are covered.

**STA 4371 Data Management and Mining (3)**

Pre-requisite(s): STA 3381

Terminology, techniques, and management of Data Mining for biostatisticians.

**STA 4372 Introduction to Biostatistics (3)**

Pre-requisite(s): STA 2381 or STA 3381 or consent of the instructor

Data Analysis for biostatisticians in the biomedical and pharmaceutical fields.

**STA 4373 Computational Methods in Statistics (3)**

Pre-requisite(s): STA 2381 or STA 3381 or consent of the instructor Computational methods using statistical packages and programming.

**STA 4374 Statistical Process Control (3)**

Pre-requisite(s): STA 3381 or equivalent

Development of statistical concepts and theory underlying procedures used in statistical process control applications and reliability.

**STA 4382 Intermediate Statistical Methods (3)**

Pre-requisite(s): A minimum grade of C in either STA 2381 or STA 3381; or consent of instructor

Development and application of two-sample inferences, analysis of variance, multiple comparison procedures, and nonparametric methods.

**STA 4384 Applied Multivariate Methods (3)**

Pre-requisite(s): STA 3386

Numerical and graphical descriptive statistics for multivariate data, principal components and factor analysis, canonical correlation, discriminant analysis, multivariate analysis of variance, multidimensional contingency tables, and cluster analysis.

**STA 4385 Mathematical Statistics I (3)**

Pre-requisite(s): MTH 2321 with minimum grade of C

Introductions to the fundamentals of probability theory, random variables and their distributions, expectations, transformations of random variables, moment generating functions, special discrete and continuous distributions, multivariate distributions, order statistics, and sampling distributions.

**STA 4386 Mathematical Statistics II (3)**

Pre-requisite(s): STA 4385 with minimum grade of C

Theory of statistical estimation and hypothesis testing. Topics include point and interval estimation, properties of estimators, properties of test of hypotheses including most powerful and likelihood ratios tests, and decision theory including Bayes and minimax criteria.

**STA 4387 Introduction to Probability Models (3)**

Pre-requisite(s): STA 4385 with minimum grade of C

Applications of probability theory to the study of phenomena in such fields as engineering, management science, social and physical sciences, and operations research. Topics include Markov chains, branching processes, Poisson processes, exponential models, and continuous-time Markov chains with applications to queuing systems. Other topics introduced are renewal theory and estimation procedures.

**STA 43C8 Capstone in Sports Analytics (3)**

Pre-requisite(s): Senior standing and consent of the instructor

Applying statistics data science methodology to research problems in sports analytics.

**STA 43C9 Capstone Statistics Course (3)**

Pre-requisite(s): Approval of the statistics undergraduate faculty advisor Statistical concepts applied to written and oral reports for consulting. For students majoring in statistics.

**STA 4V90 Special Topics in Statistics (1-3)**

Pre-requisite(s): STA 2381 or STA 3381

Topics in probability and/or statistics not covered in other courses. May be repeated for a maximum of 6 hours if the content is different.

**STA 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

## Strategic Learning (STL)

### STL 1101 Academic and Personal Success (1)

This course guides students to develop tools for effective learning and productive self-management in the Baylor academic environment. Topics focus on strategies for note taking, test preparation, test taking, and on methods for dealing with procrastination, stress, and test anxiety as well as for grade improvement, establishing academic priorities, and identification of an academic major and potential career. Some sections of the course offer five-week workshops while other sections provide the opportunity for weekly mentoring by a trained graduate student or for an independent study on a relevant topic. Sections will have varying titles descriptive of content. This Pass/Fail course may be attempted two times.

### STL 1102 Academic and Personal Achievement (1)

A graded, one-hour course facilitating development of essential skills for learning and self-management in the college academic environment. Topics might include strategies for note taking, test preparation, grade improvement as well as tools for dealing with procrastination, stress, test anxiety, and goal-setting. The focus of a course section might be linked with a particular profession, discipline or student population.

### STL 1103 College Success: Freshmen (1)

Designed to enhance the transition of freshmen students to Baylor University. Provides direct exposure to specific campus support services, personal and professional development advice and practice, academic success strategies, and day-to-day tools to navigate the rigorous curricular and co-curricular environment at Baylor.

### STL 1104 Transferring Your Success (1)

Designed to enhance the transition of transfer students to Baylor and beyond. Provides direct exposure to specific campus support services, personal and professional development advice and practice, academic success strategies, and day-to-day tools to navigate the rigorous curricular and co-curricular environment at Baylor. Will be offered as a New Student Experience (NSE) course.

### STL 1105 Individual Academic and Personal Success for International Students (1)

Pre-requisite(s): Open only to international students who have been referred through ASP or by requirement of the student's academic dean. STL 1105 is a 1-credit-hour course that helps first-year international students develop tools for effective learning and productive self-management in the Baylor academic environment. Topics focus on strategies for notetaking, study skills, and test preparation, along with methods for dealing with time management, stress, test taking and anxiety. Students will meet with an instructor for individualized academic success planning and strategizing.

### STL 1200 Strategic Learning for College Academics (2)

Pre-requisite(s): Open only to students with 59 hours or less or by requirement of the student's academic dean (Course is intended for students with a term or cumulative GPA of 2.5 or less.) Prepare students to exercise responsibility for their own learning by developing strategies for reading, understanding, analyzing, organizing, and applying information presented through lecture, textbooks, and other materials in the college classroom. Skills for taking notes, completing assignments, preparing for tests, and taking tests as well as strategies for accessing resources, managing time, dealing with stress, and setting priorities will also be developed.

### STL 1201 Strategic Learning (2)

Prepare students to exercise responsibility for their own learning by developing strategies for reading, analyzing, organizing, and applying information presented through lecture, textbooks, and other materials in the college classroom. Skills for taking notes, completing assignments, preparing for and taking tests, as well as strategies for accessing resources, managing time, dealing with stress, and setting priorities will be developed.

### STL 1205 Academic Success Strategies for International Students (2)

Pre-requisite(s): Open only to international students who have been referred through ASP or by requirement of the student's academic dean. STL 1205 is a 2-credit-hour course that prepares continuing international students to take responsibility for their own learning by developing strategies for reading, understanding, analyzing, organizing, and applying information presented in the college classroom. Students will also develop skills for taking notes, completing assignments, and preparing for tests. In addition, they will learn strategies for using resources, managing time, dealing.

## Swahili (SWA)

### SWA 1101 Swahili Language Workshop (1)

For music students, supplemental language training to accompany regular 1301 language sections.

### SWA 1102 Swahili Language Workshop (1)

For music students, supplemental language training to accompany regular 1302 language sections.

### SWA 1301 Elementary Swahili (3)

Introduction to Swahili language and cultures of East/Central Africa; practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading). Progress through novice proficiency level.

### SWA 1302 Elementary Swahili (3)

Pre-requisite(s): SWA 1301. Introduction to Swahili language and cultures of East/Central Africa; practice in three communicative modes: interpersonal, presentational (speaking, writing), and interpretive (listening, reading). Progress from novice toward intermediate-level proficiency.

### SWA 2310 Intermediate Swahili I (3)

Pre-requisite(s): SWA 1302. Practice in three communicative modes at intermediate-level proficiency: interpersonal, presentational (speaking, writing), and interpretive (listening, reading).

### SWA 2320 Intermediate Swahili II (3)

Pre-requisite(s): SWA 2310. Continuation of SWA 2310.

## Syriac (SYR)

### SYR 4304 Syriac (3)

Cross-listed as REL 4304. See REL 4304 for course information.

## Teacher Education (TED)

### **TED 1112 Instructional Technology Lab (1)**

Co-requisite(s): TED 1312

The TED technology lab prepares teacher candidates for effective personal and classroom use of technology resources. Students will meet and exceed Texas State Board for Educator Certification (SBEC) requirements.

### **TED 1312 Introduction to Teaching I (3)**

Co-requisite(s):

This course provides preparation in the role of a teacher. Students will learn teaching strategies that are then applied in a tutoring experience.

### **TED 2112 Instructional Technology Lab II (1)**

Pre-requisite(s): TED 1112

The TED 2112 technology lab extends and builds on TED 1112 in preparing teacher candidates for effective personal and professional use of technology resources. At the conclusion of the Baylor teacher education program, candidates will meet and exceed Texas State Board for Educator Certification (SBEC) requirements as outlined in the Technology Applications Standards for All Beginning Teachers.

### **TED 2320 Teaching in the Elementary School (3)**

Co-requisite(s):

Pre-requisite(s): Completion of TED 1312 or concurrent enrollment

An introduction to the role of the teacher in the elementary school. A field experience is included.

### **TED 2330 Teaching in the Middle Grades (3)**

Co-requisite(s):

Pre-requisite(s): Completion of TED 1312 or concurrent enrollment

An introduction to the role of the teacher in the middle school. A field experience is included.

### **TED 2340 Teaching in Secondary Schools (3)**

Co-requisite(s):

Pre-requisite(s): Completion of TED 1312 or concurrent enrollment

An introduction to the role of the teacher in the secondary school. A field experience is included.

### **TED 2360 Teaching Special Education (3)**

Pre-requisite(s): TED 1312

This course provides initial preparation in the role of a special education teacher. Students will learn teaching strategies for students with disabilities that are then applied in a one-to-one teaching experience.

### **TED 2370 Teaching Physical Education (3)**

Co-requisite(s): TED 2112

Pre-requisite(s): Completion of TED 1312 or concurrent enrollment

This course provides teacher candidates with an introduction to the role of the all-level physical education instructor. Course includes a field experience in grades K - eight.

### **TED 2380 Introduction to Education (3)**

This course will provide an introduction to the field of education from an interdisciplinary perspective that addresses such topics as curriculum, educational theory/practice, and the role of the teaching profession in democratic life.

### **TED 2381 American Educational Thought (3)**

This course will address the history of American educational thought from the founding of the Republic to the present day. Individuals to be considered will include Thomas Jefferson, Horace Mann, William James, and John Dewey.

### **TED 3180 Social Issues in Education Lab (1)**

Co-requisite(s): TED 3380

Varied action-oriented field experiences that allow students to develop a depth of knowledge and experience in the topics explored in TED 3380. Through field based experiences in local organizations and schools, students will have the opportunity to examine how social issues play out in real-life settings.

### **TED 3301 Early Literacy Learning (3)**

Pre-requisite(s): TED 1312 Preparation of pre-service teachers to plan, organize, and implement an early literacy program that ensures that young children will be reading beginning materials independently by the end of the first grade

Course includes a field experience.

### **TED 3325 Literacy Instruction in the Elementary School (3)**

Co-requisite(s): TED 3620, TED 4308

Pre-requisite(s): TED 1312

An examination of methods of teaching reading in the elementary school. Includes atypical and typical language and literacy development in children in the elementary school.

### **TED 3335 Literacy Instruction in the Middle Grades (3)**

Co-requisite(s): TED 3370

Pre-requisite(s): TED 3380 and 3180 and EDP 3326

Introductions to typical and atypical literacy instruction in middle grades and an overview of cognitive, emotional, social, and physical development of adolescents. Includes reading, writing, oral language, and an introduction to literature for adolescents.

### **TED 3336 Middle Grades Science (3)**

Co-requisite(s): TED 3370

Pre-requisite(s): TED 3380 and 3180 and EDP 3326

This course will prepare candidates to plan and implement inquiry-based science instruction to meet the needs of diverse learners and increase their pedagogical repertoires.

### **TED 3340 Teaching Associate Secondary Part I (3)**

Pre-requisite(s): TED 2340 or concurrent enrollment

Practicum of one hundred hours in a local secondary classroom matching the selected content certification area. Course includes weekly seminars.

### **TED 3341 Teaching Associate Secondary Part II (3)**

Pre-requisite(s): TED 2340

Continuation of Teaching Associate Secondary Part I. Practicum of one hundred hours in a local secondary classroom matching the selected content certification area. Course includes weekly seminars.

### **TED 3342 School and Classroom Environment (3)**

Prepare the secondary education teacher candidate with research-based instructional and classroom management strategies. Provide opportunities for application of the strategies with students and opportunities for interaction with teachers at local secondary schools.

### **TED 3346 Foundations of Secondary Reading and Writing (3)**

A study of the typical and atypical developmental stages of reading and writing for secondary students. Focuses on instructional strategies in reading and writing to meet the needs of all students. Course includes a field experience.

**TED 3362 Middle Grades Social Studies (3)**

Co-requisite(s): TED 3370

Pre-requisite(s): TED 3380 and 3180 and EDP 3326

This course will expose middle school social studies candidates to the philosophies, methods and culturally relevant practices that nuance the field's expressed disciplinary aims. Candidates will be asked to rethink traditional social studies instruction and develop transformational postures that will increase and diversify their pedagogical repertoires. Concurrent enrollment in TED 3370 required.

**TED 3370 Data Analysis and Instruction (3)**

Co-requisite(s): TED 3180 and EDP 3326

An analysis of standardized assessments given at national, state, district, campus, and individual student levels. Planning and implementing instructional activities based on areas of need identified in the analysis. Field experiences are a critical element of the course.

**TED 3380 Social Issues in Education (3)**

Co-requisite(s): TED 3180

This course will explore cultural and social issues that influence education. Concurrent enrollment in one hour field-based lab required.

**TED 3383 Secondary Mathematics Practicum I (3)**

Co-requisite(s): TED 3342

This course prepares teacher candidates to adapt instruction in mathematics for meeting the needs of diverse students, strategy implementation for large and small groups, application of state and national standards, and development of instructional resources.

**TED 3384 Secondary Mathematics Practicum II (3)**

Co-requisite(s):

Pre-requisite(s): TED 2330 or TED 2340

Continuation of Secondary Mathematics Practicum I. Course combines a practicum in a local secondary mathematics classroom with lecture and discussion about adapting instruction to meet the needs of diverse students, strategies for large and small groups, NCTM Standards, and teaching resources.

**TED 3385 Secondary Social Studies Practicum I (3)**

Co-requisite(s): TED 3342

This course prepares teacher candidates to adapt instruction in social studies for meeting the needs of diverse students, strategy implementation for large and small groups, application of state and national standards, and development of instructional resources.

**TED 3386 Secondary Social Studies Practicum II (3)**

Co-requisite(s):

Continuation of Secondary Social Studies Practicum I. Course combines a practicum in a local school with in-depth discussion of instructional design, technology in the classroom, and assessment. The course also includes overview of content included in secondary history, geography, economics and civics education courses.

**TED 3387 Secondary Science Practicum I (3)**

Co-requisite(s): TED 3342

This course prepares teacher candidates to adapt instruction in science for meeting the needs of diverse students, strategy implementation for large and small groups, application of state and national standards, and development of instructional resources.

**TED 3388 Secondary Science Practicum II (3)**

Co-requisite(s): TED 3341

Pre-requisite(s): TED 3340 and 3387

Course combines a practicum in a local school with in-depth discussion of instructional design, technology in the classroom, and assessment. The course also includes an overview of content of secondary science courses.

**TED 3390 Secondary Foreign Language Practicum I (3)**

Co-requisite(s): TED 3342

This course prepares teacher candidates to adapt instruction in foreign language for meeting the needs of diverse students, strategy implementation for large and small groups, application of state and national standards, and development of instructional resources.

**TED 3391 Secondary Foreign Language Practicum II (3)**

Co-requisite(s): TED 3341

Course combines a practicum in a local school with lecture and in-depth discussion of instructional design, technology in the classroom, and assessment and action research in the classroom.

**TED 3394 Secondary Art Practicum I (3)**

Co-requisite(s): TED 3340

Course combines a practicum in a local school with lecture and in-depth discussion of instructional design, components of a secondary art program, technology in the art classroom, assessment and action research in the classroom.

**TED 3395 Secondary Art Practicum II (3)**

Co-requisite(s): TED 3341

Pre-requisite(s): TED 3340 and 3394

Continuation of Secondary Art Practicum I. Course combines a practicum in a local school with in-depth discussion of components of the art program, instructional design in art, technology in the classroom, and assessment in art classes.

**TED 3396 Secondary English Language Arts Practicum I (3)**

Co-requisite(s): TED 3342

This course prepares teacher candidates to adapt instruction in English/Language Arts for meeting the needs of diverse students, strategy implementation for large and small groups, application of state and national standards, and development of instructional resources.

**TED 3397 Secondary English Language Arts Practicum II (3)**

Co-requisite(s): TED 3341

Pre-requisite(s): TED 3340 and 3396

Continuation of Secondary English Language Arts Practicum I. Course combines practicum in a local secondary English classroom with lecture and discussion about adapting instruction in English to meet the needs of diverse students, strategies for building vocabulary, developing written and oral language, and an overview of the history of English.

**TED 3398 Secondary Business Practicum I (3)**

Co-requisite(s): TED 3342

This course prepares teacher candidates to adapt instruction in business courses for meeting the needs of diverse students, strategy implementation for large and small groups, application of state and national standards, and development of instructional resources.

**TED 3399 Secondary Business Practicum II (3)**

Co-requisite(s): TED 3341

Pre-requisite(s): TED 3340 and 3398

A continuation of TED 3398 Secondary Business Practicum I. Course combines a practicum in a local school with lecture and in-depth discussion of the economic system, components of a secondary business program, technology in the classroom, leadership and career development, assessment of student learning, and action research in the business classroom.

**TED 3620 Teaching Associate Elementary School Part I (6)**

Co-requisite(s): TED 3325, TED 4308

Pre-requisite(s): TED 1312

Practicum of one hundred hours in the elementary school in a local classroom. Teacher candidates will work with small and large groups in instruction in reading and social studies. Course includes daily seminars.

**TED 3621 Teaching Associate Elementary School Part II (6)**

Co-requisite(s): TED 4307, TED 4326

Pre-requisite(s): TED 1312

Practicum of one hundred hours in the elementary school in a local classroom. Teacher candidates will work with small and large groups in instruction in mathematics and science. Course includes daily seminars.

**TED 3630 Teaching Associate Middle Grades Part I (6)**

Co-requisite(s):

Pre-requisite(s): TED 3370

Practicum of one hundred hours in a local middle grade classroom matching the selected content certification area. Teacher candidates will work with small and large groups of students. Course includes a weekly seminar.

**TED 3631 Teaching Associate Middle Grades Part II (6)**

Pre-requisite(s): TED 2330 or 2340

Continuation of TED 3630. Practicum of one hundred hours in a local middle grade classroom matching the selected content certification areas. Teacher candidates will work with small and large groups of students. Course includes a weekly seminar.

**TED 3640 Tchng Assoc Secondary Part I (6)**

Pre-requisite(s): TED 2340

Practicum of one hundred hours in a local secondary classroom matching the selected content certification area. Course includes weekly seminars.

**TED 3641 Teaching Associate Secondary (6)**

Pre-requisite(s): TED 3380

Practicum of 100 hours in a local secondary classroom matching the selected content certification area. Course includes weekly seminars.

**TED 3651 Teaching Associate EC-6 with Special Education and Gifted Education (6)**

Pre-requisite(s): EDP 2350 and 3650; and EDP 3324 and 3326

In this course, teacher candidates teach small groups of early childhood through grade 6 general education with special education or gifted education students within the specific disciplinary areas that match their certificate areas. The practicum consists of 97.5 hours in a professional development or partner school (7.5 hours per week). Teacher candidates will work with small and large groups of students. Course includes seminars.

**TED 3670 Teaching Associate Physical Education Part I (6)**

Pre-requisite(s): TED 2370

Practicum of one hundred hours teaching physical education in a local school. Teacher candidates will work with small and large groups of students. Course includes a weekly seminar.

**TED 3671 Teaching Associate Physical Education Part II (6)**

Continuation of TED 3670. Practicum of one hundred hours teaching physical education in a local school. Teacher candidates will work with small and large groups of students. Course includes a weekly seminar.

**TED 4302 Elementary Reading - Integrated Language Arts (3)**

Pre-requisite(s): TED 1312 Language Arts is comprised of all communication skills-reading, writing, listening, speaking

Students will develop strategies for facilitating communication skills and integrating the language arts across the curriculum.

**TED 4303 Comprehension of Expository Texts (3)**

Co-requisite(s):

Pre-requisite(s): TED 1312 and TED 3301

Preservice teachers will develop understanding of pedagogies that help elementary students develop proficiency in comprehending expository texts.

**TED 4307 Science in the Elementary School (3)**

Co-requisite(s): TED 3621, TED 4326

Pre-requisite(s): TED 1312

A study of the content of elementary science. Design and presentation of laboratory activities appropriate to various grade levels.

**TED 4308 Social Studies in the Elementary School (3)**

Co-requisite(s): TED 3325, TED 3620

Pre-requisite(s): TED 1312

The types, classification, and organization of social studies content. Emphasis on the integration of the historical, geographical, and civic content of the social studies.

**TED 4312 Methods of Teaching English as a Second Language (3)**

Strategies for teaching English to non-English speaking students at the elementary and secondary levels. Emphasis will be placed upon developing specific instructional approaches appropriate for the individual's language background.

**TED 4322 English Curriculum (3)**

Pre-requisite(s): TED 3630 or 3641

Instructional methods and teaching aids and materials for the teaching of English in middle and secondary grades. Contemporary concerns relevant to the curriculum development of the English language arts in the components of language, composition, and literature will be stressed.

**TED 4325 Science Curriculum (3)**

Pre-requisite(s): TED 3630 or 3641

A survey of contemporary school science programs (all sciences) emphasizing their philosophies, designs, and unique methods and strategies for teaching in middle and secondary grades.

**TED 4326 Mathematics in the Elementary Grades (3)**

Co-requisite(s): TED 3621, TED 4307

Pre-requisite(s): TED 1312

Mathematics content, materials, and conceptual activities for the elementary school. The emphasis of the course is to prepare the elementary school teacher to implement a constructivist approach to the teaching of mathematics based on an understanding of the National Council of Teachers of Mathematics (NCTM) standards. Includes laboratory experiences in teaching mathematics in the elementary school.

**TED 4336 Mathematics in the Upper Elementary Grades (3)**

Co-requisite(s): TED 3370

Pre-requisite(s): TED 3380 and 3180 and EDP 3326 and Admission to the Teacher Education Program

The student will be exposed to a wide range of issues and theories in mathematics curriculum and encouraged to relate these to his or her own teaching practices. Opportunities for teaching and observation of teaching will be provided in order to analyze and reflect on teaching practices appropriate for upper elementary grade mathematics.

**TED 4337 Mathematics in the Middle School (3)**

Pre-requisite(s): TED 4336

Teaching strategies will be analyzed with developmental activities that can be used in middle grades mathematics. Candidates will reflect on what it means to teach mathematics for conceptual understanding and explore the factors that influence instruction. The NCTM Standards for grades 4-8 will be emphasized. Includes laboratory experiences in teaching mathematics in middle grades.

**TED 4341 Social Studies Curriculum (3)**

Pre-requisite(s): TED 3630 or 3640

Organization, content, research practices, and technology in the social studies curriculum in middle and secondary grades. Includes a discussion of current issues and standards in social studies teaching.

**TED 4348 Secondary Mathematics Curriculum (3)**

Methods and activities used to actively engage secondary school students in the construction of mathematical concepts. This course includes development of instructional methods, teaching aids, and materials for the teaching of mathematics in the secondary classroom. Contemporary concerns relevant to the development in mathematics curriculum is included.

**TED 4349 Critical Issues in Mathematics Education (3)**

Teacher candidates will investigate critical issues in the nature of knowledge and inquiry in middle grade and secondary school mathematics. Candidates will explore current issues related to teaching practices and experiences. The NCTM Standards along with relevant research will provide a foundation.

**TED 4355 Teaching Economic Geography in Social Studies (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

The focus of this course is to provide EC-4, 4-8, and 7-12 certificate level teacher education students an in-depth exploration of the curriculum and pedagogy of geography education in the social studies with special attention to the intersections of economics and geography. This emphasis guides the course themes which attend to critical geographic and economic approaches to understanding the world and taking informed action to change it.

**TED 4397 Student Teaching in Private Schools (3)**

Pre-requisite(s): Concurrent enrollment in TED 4620, TED 4630, TED 4640, EDP 4650, EDP 4660 or TED 4670

A course designed to extend student teaching to a private school. Students will be involved in full-time student teaching for a minimum of four weeks.

**TED 4399 International Internship Comparative Education (3)**

Pre-requisite(s): TED 3340, TED 3620, TED 3630, TED 3670, EDP 3650, or EDP 3660

This program is designed to extend the teaching experience. For teaching candidates in the School of Education at Baylor University. Teacher candidates will engage in cultural exchange, travel and education programs including three weeks of teaching and a comparative study of educational systems and instructional strategies.

**TED 4620 Internship Elementary Part I (6)**

Co-requisite(s): TED 4621

Pre-requisite(s): Grade of B or better in TED 3620 and 3621

Full-time teaching experience in a professional development school. A mentor teacher and resident faculty will support teacher candidates as they gradually assume complete responsibilities for teaching. Course includes two eighty-minute seminars per week.

**TED 4621 Internship Elementary Part II (6)**

Co-requisite(s): TED 4620

Pre-requisite(s): Grade of B or better in TED 3620 and 3621

Planning and preparing lessons and materials for full-time teaching. Includes completion of content modules, conferencing with mentor teacher and university instructor, written lesson reflections, observation of lessons taught by master teachers, and preparation of web-based portfolio.

**TED 4622 Internship Elementary Part III (6)**

Co-requisite(s): TED 4623

Pre-requisite(s): Grade of B or better in TED 3620 and 3621

Continuation of TED 4620 and TED 4621.

**TED 4623 Internship Elementary Part IV (6)**

Co-requisite(s): TED 4622

Pre-requisite(s): Grade of B or better in TED 3620 and 3621

Continuation of TED 4620 and TED 4621.

**TED 4630 Internship Middle Grades Part I (6)**

Co-requisite(s): TED 4631

Pre-requisite(s): Grade of B or better in TED 3630

Full-time teaching experience in a professional development or partner school. A mentor teacher and intern-supervisor will support teacher candidates as they gradually assume complete responsibilities for teaching. Course includes a 2-hour weekly seminar

**TED 4631 Internship Middle Grades Part II (6)**

Co-requisite(s): TED 4630

Pre-requisite(s): Grade of B or better in TED 3630

Planning and preparing lessons and materials for full-time teaching. Includes completion of content modules, conferencing with mentor teacher and intern-supervisor, written lesson reflections, observation of lessons taught, and experiences aligned with the teacher education standards.

**TED 4632 Internship Middle Grades Part III (6)**

Co-requisite(s): TED 4633

Pre-requisite(s): Grade of B or better in TED 4630 and 4631

Continuation of TED 4630 and TED 4631.

**TED 4633 Internship Middle Grades Part IV (6)**

Co-requisite(s): TED 4632

Pre-requisite(s): Grade of B or better in TED 4630 and 4631

Continuation of TED 4630 and TED 4631.

**TED 4640 Internship Secondary Part I (6)**

Co-requisite(s): TED 4641

Pre-requisite(s): Grade of B or better in TED 3342, 3641, and 33XX Secondary Content Practicum Course

Full-time teaching experience in a professional development school. A mentor teacher and resident faculty will support teacher candidates as they gradually assume complete responsibilities for teaching. Course includes one two hour seminar per week.

**TED 4641 Internship Secondary Part II (6)**

Co-requisite(s): TED 4640

Pre-requisite(s): Grade of B or better in TED 3342, 3641, and 33XX Secondary Content Practicum. Planning and preparing lessons and materials for full-time teaching. Includes completion of content modules, conferencing with mentor teacher and university instructor, written lesson reflections, observation of lessons taught by master teachers, and preparation of electronic portfolio.

**TED 4642 Internship Secondary Part III (6)**

Co-requisite(s): TED 4643

Pre-requisite(s): Grade of B or better in TED 3342, 3641, and 33XX Secondary Content Practicum  
Continuation of TED 4640 and TED 4641.

**TED 4643 Internship Secondary Part IV (6)**

Co-requisite(s): TED 4642

Pre-requisite(s): Grade of B or better in TED 3342, 3641, and 33XX Secondary Content Practicum

**TED 4652 Internship Gifted and Talented Part III (6)**

Co-requisite(s): TED 4653

Pre-requisite(s): Grade of B or better in EDP 3650 and TED 3651  
Continuation of EDP 4650 and EDP 4651.

**TED 4653 Internship Gifted and Talented Part IV (6)**

Co-requisite(s): TED 4652

Pre-requisite(s): Grade of B or better in EDP 3650 and TED 3651  
Continuation of EDP 4650 and EDP 4651.

**TED 4670 Internship Physical Education Part I (6)**

Co-requisite(s): TED 4671

Pre-requisite(s): Grade of B or better in TED 3670 and 3671  
Full-time experience in professional development. A mentor teacher and resident faculty will support teacher candidates as they gradually assume complete responsibilities for teaching. Course includes two eighty-minute seminars per week.

**TED 4671 Internship Physical Education Part II (6)**

Co-requisite(s): TED 4670

Pre-requisite(s): Grade of B or better in TED 3670 and 3671  
Planning and preparing lessons and materials for full-time teaching. Includes completion of content modules, conferencing with mentor teacher and university instructor, written lesson reflections, observation of lessons taught by master teachers, and preparation of web-based portfolio.

**TED 4672 Internship Physical Education Part III (6)**

Co-requisite(s): TED 4673

Pre-requisite(s): Grade of B or better in TED 3670 and 3671  
Continuation of TED 4670 and TED 4671.

**TED 4673 Internship Physical Education Part IV (6)**

Co-requisite(s): TED 4672

Pre-requisite(s): Grade of B or better in TED 3670 and 3671  
Continuation of TED 4670 and TED 4671.

**TED 4690 Secondary School Teaching (6)**

Pre-requisite(s): TED 3641

A full-time daily supervised teaching experience in a local public school. Students collaborate with classroom teacher to provide instruction under the direction of a university supervisor. Includes weekly seminar with supervisor.

**TED 4V98 Special Topics in Teacher Education (1-6)**

Pre-requisite(s): Upper-level standing or consent of instructor

Examination of special topics in teacher education focusing on pedagogy, curriculum, and PK-12 field experience professional development. May be repeated once under a different topic not to exceed six semester hours.

## Telecommunications (CST)

## Theater Arts (THEA)

**THEA 1101 Fundamentals of Voice and Movement I (1)**

Co-requisite(s): THEA 1301

An introduction to the fundamentals of voice and movement for the actor with emphasis on freeing the natural voice and developing awareness of the voice and body as creative, expressive instruments. This course supports the work done in acting core courses.

**THEA 1102 Fundamentals of Voice and Movement II (1)**

Co-requisite(s): THEA 1302

A continuation of THEA 1101 with emphasis on the fundamentals of voice and movement for the actor, freeing the natural voice, and developing awareness of the voice and body as creative and expressive instruments.

**THEA 1103 Freshman Voice for Traditional Musical Theatre (1)**

Pre-requisite(s): Consent of instructor

Acting technique and character development, in conjunction with vocal technique, as they relate to traditional musical theatre styles, in chorus roles with repertoire before 1965.

**THEA 1104 Freshman Voice for Contemporary Musical Theatre (1)**

Pre-requisite(s): Consent of instructor

Acting technique and character development, in conjunction with vocal technique, as they relate to contemporary musical theatre styles, in chorus roles with repertoire after 1965.

**THEA 1110 The Fine Arts: An Experiential Survey of Music, Art, Theatre, and Film (1)**

Pre-requisite(s): Acceptance into the Fine Arts Living Learning Center

An exploration of four Fine Arts disciplines (film, art, theatre, and music) from an interdisciplinary perspective, with emphasis on specific performances and exhibitions, and a small group focus on new student experiences.

**THEA 1301 Acting I: Realism (3)**

Co-requisite(s):

Introduction to the basics of acting, including theatrical terminology, improvisation, scene study, and character analysis. Emphasis will be placed on an acting method based on the works of Constantin Stanislavski.

**THEA 1302 Acting Realism: Scene Study (3)**

Co-requisite(s): THEA 1102

An introduction to basic acting technique. Students employ the character analysis, basic object exercises, and other acting tools toward producing a character study based on a modern American play.

**THEA 1306 Introduction to Theatre (3)**

Develops an engaged understanding of live theatre and performance in contemporary society through an overview of the various artists, skills, crafts, traditions, and conventions that inform the creation of a theatrical event. Students with credit in Thea 1306 may not earn credit for Thea 1206.

**THEA 1312 Scenic Elements (3)**

Basic course in stagecraft. Technical crew lab included.

**THEA 1316 Costume and Stage Makeup Elements (3)**

Study and application of the theories and techniques of theatrical costuming, construction of theatrical clothing, and theatrical makeup. Technical crew lab included.

**THEA 1324 Script Analysis (3)**

Pre-requisite(s): THEA 1380

Introduction to the process of script analysis, focusing on play structure, environmental research and character development, and culminating in a written play analysis.

**THEA 1380 Theatre Aesthetics: Visual Storytelling (3)**

An introduction to basic theatre aesthetics. Emphasis placed on elements and principles of design for visual storytelling.

**THEA 1383 Theatrical Drafting (3)**

Introduction to theatrical hand drafting techniques, tools and standards, including fundamentals of graphic problem solving by visualization of elements in three dimensional space.

**THEA 2101 Applied Voice and Movement I (1)**

Co-requisite(s): THEA 2301

Pre-requisite(s): THEA 1102

Continuation of the work begun in THEA 1101 and 1102 with emphasis on movement for the stage as it applies to realistic acting, as well as interpretive, post-modern theatre making.

**THEA 2102 Applied Voice and Movement II (1)**

Co-requisite(s):

Pre-requisite(s): THEA 2101

Continuation of the work begun in THEA 2101 with emphasis on movement for the stage as it applies to realistic acting, as well as interpretive, post-modern theatre making.

**THEA 2103 Sophomore Voice for Traditional Musical Theatre (1)**

Pre-requisite(s): Consent of instructor

Acting technique and character development, in conjunction with vocal technique, as they relate to traditional musical theatre styles, in small group/ensemble roles with repertoire before 1965.

**THEA 2104 Sophomore Voice for Contemporary Musical Theatre (1)**

Pre-requisite(s): Consent of instructor

Acting technique and character development, in conjunction with vocal technique, as they relate to contemporary musical theatre styles, in small group/ensemble roles with repertoire after 1965.

**THEA 2105 Singing for the Actor (1)**

Pre-requisite(s): Instructor permission required

Preparing the actor to participate in singing roles including ensemble work, straight plays with music, and Shakespeare sonnets. The course will also cover vocal technique, sight singing, and harmony/group singing. Course may be repeated for a maximum of 3 hours.

**THEA 2113 Workshop in Traditional Musical Theatre I (1)**

Pre-requisite(s): Consent of instructor

Application of techniques and skills learned in the voice class in a performance setting using materials from traditional musical theatre styles pre-1965.

**THEA 2114 Workshop in Contemporary Musical Theatre I (1)**

Pre-requisite(s): Consent of instructor

Application of techniques and skills learned in the voice class in a performance setting using materials from contemporary musical theatre styles from 1965 to the present.

**THEA 2298 Ballet I (2)**

Ballet with emphasis on technique and vocabulary. Theatre Arts majors may substitute this class for one semester of Human Performance.

**THEA 2299 Jazz I (2)**

Pre-requisite(s): THEA 2298

Jazz techniques, vocabulary, and styles relevant to character/theatre dance. Theatre Arts majors may substitute this class for one semester of Human Performance.

**THEA 2301 Acting: Physical Methods (3)**

Co-requisite(s):

Pre-requisite(s): THEA 1302

An Introduction to the physical methods of Acting, focusing on Viewpoints.

**THEA 2302 Acting: Shakespeare (3)**

Co-requisite(s):

Pre-requisite(s): THEA 1302

Exploration of the acting challenges of Shakespeare's plays, through studies of text sense and structure, and exercises for developing breath, relaxation, vocal energy, and creative acting choices.

**THEA 2316 Stage Makeup (3)**

Study and application of theories and techniques of theatrical makeup. Technical crew laboratory included.

**THEA 2370 Technology Fundamentals for Theatre (3)**

Introduction to essential software and technologies utilized in the creation of a live theatrical production.

**THEA 2371 Lighting and Sound Elements (3)**

General principles and practices of stage lighting and theatrical sound technology. Technical crew laboratory included.

**THEA 2374 Theater History I (3)**

Historical investigation of theatre practice, performance, and dramatic literature from ancient times through the Renaissance.

**THEA 2375 Theater History II (3)**

Pre-requisite(s): THEA 2374

Historical investigation of theatre practice, performance, and dramatic literature from the Renaissance through the nineteenth century. Emphasis on Europe and North America.

**THEA 2383 Theatrical Drawing and Rendering (3)**

Principles and practices of drawing, rendering, and modeling techniques used for the theater.

**THEA 2385 Technical Theatre for Non-Theatre Majors (3)**

Pre-requisite(s): Consent of the Instructor An introductory study of the tools, techniques, and concepts related to the technical aspects of theatre production

**THEA 2390 Stage Management (3)**

The art and craft of stage management, including the role and responsibilities of the stage manager.

**THEA 3001 Production Lab (0)**

Pre-requisite(s): Junior standing

Evaluation of acting and crew work for all major productions, thesis production, qualifying productions, and weekly workshops. May be taken a maximum of 3 times.

**THEA 3103 Junior Voice for Traditional Musical Theatre (1)**

Pre-requisite(s): Consent of instructor

Acting technique and character development, in conjunction with vocal technique, as they relate to traditional musical theatre styles, in solo limited supporting roles with repertoire before 1965.

**THEA 3104 Junior Voice for Contemporary Musical Theatre (1)**

Pre-requisite(s): Consent of instructor

Acting technique and character development, in conjunction with vocal technique, as they relate to contemporary musical theatre styles, in solo limited supporting roles with repertoire after 1965.

**THEA 3106 Production Lab II (1)**

Pre-requisite(s): Junior standing and THEA 3105

Continuation of THEA 3105.

**THEA 3113 Workshop in Traditional Musical Theatre II (1)**

Pre-requisite(s): THEA 2113 and consent of instructor

A continuation of THEA 2113.

**THEA 3114 Workshop in Contemporary Musical Theatre II (1)**

Pre-requisite(s): THEA 2114 and consent of instructor

A continuation of THEA 2114.

**THEA 3297 Tap I (2)**

Pre-requisite(s): THEA 2298

Tap with an emphasis on the basic steps, rhythms, and music theory related to the dance.

**THEA 3298 Ballet II (2)**

Pre-requisite(s): THEA 2298

A continuation of Ballet I, refining technique and developing broader ranges of movement.

**THEA 3301 Acting: Advanced Realism (3)**

Pre-requisite(s): THEA 2302 and upper-level standing

Correlating advanced acting techniques and the performance requirements of important realistic playwrights. Students will analyze, rehearse and perform scenes from playwrights of the early independent theater movement and from a range of contemporary playwrights.

**THEA 3302 Acting: Advanced Auditioning (3)**

Pre-requisite(s): Upper-level standing An exploration of auditioning techniques and professional auditioning practices in the Theatre

**THEA 3303 Theatre for Young Audiences (3)**

Pre-requisite(s): THEA 1302 and upper-level standing

An applied study of the dramatic literature and production techniques of theater intended for young audiences. Emphasis will be on techniques of acting and the creation of new material.

**THEA 3304 Acting: Playwright Study (3)**

Pre-requisite(s): Consent of instructor

The application of advanced acting techniques to the unique style and period conventions of an individual playwright. May be repeated once for credit with study of a different playwright(s).

**THEA 3310 Introduction to Standardized Patient Methodology (3)**

Cross-listed as HP 3312

See HP 3312 for course information.

**THEA 3316 Costume Draping and Patterning (3)**

Pre-requisite(s): THEA 1316

Technical skills with emphasis on interpreting two-dimensional drawings into three-dimensional costumes by manipulating fabric through draping, patterning, and construction.

**THEA 3323 Costume Crafts (3)**

Pre-requisite(s): THEA 1316 or consent of the instructor

Technical skills with an emphasis on 2D and 3D techniques in creating and modifying specialty costume pieces.

**THEA 3324 Directing I/Script Analysis (3)**

Pre-requisite(s): THEA 1380 and upper-level standing

A study of play analysis for beginning directors. Workshop laboratory required.

**THEA 3325 Directing II (3)**

Pre-requisite(s): THEA 3324

Continuation of THEA 3324. A study of techniques of play direction. Fundamental consideration of blocking and director-actor communication. Workshop laboratory required.

**THEA 3326 Costume Design (3)**

Pre-requisite(s): THEA 1316

Development and execution of costume designs for a variety of theatrical situations. Lectures, design projects, critiques, and discussions.

**THEA 3327 Advanced Makeup Techniques (3)**

Pre-requisite(s): THEA 1316

This course builds on introductory skills learned in THEA 1316 (Costume and Makeup Elements). Students will study advanced application skills and tools for character transformation with makeup, masks, and 3D elements.

**THEA 3333 Theatre in Cultural Context (3)**

Pre-requisite(s): For theatre majors only or consent of instructor

An exploration of theatre production and theatrical history particular to a specific region of the world, with references to regional historical, political, social, cultural, artistic, and architectural influences. Course may be repeated for a maximum of six semester hours if topic varies.

**THEA 3341 Master Works in Drama (3)**

Cross-listed as GTX 3341

See GTX 3341 for course information.

**THEA 3352 Japanese Theatre and Culture (3)**

Cross-listed as JPN 3352

History and practice of theatre in Japan from earliest recorded history to the present era.

**THEA 3363 Metal-Working for the Theatre (3)**

Pre-requisite(s): THEA 1312

Prepares students for various aspects of metal-working for the theatre, including safety, welding, cutting, and shaping.

**THEA 3370 Scene Design (3)**

Pre-requisite(s): THEA 1312 Survey of theatrical design and scene designers, and the realization of students' designs as floor plans, renderings, and models

**THEA 3371 Lighting Design (3)**

Pre-requisite(s): THEA 2371 Lighting design in theatrical production and as an artistic tool in manipulating three dimensional space

**THEA 3372 Scene Painting (3)**

Pre-requisite(s): THEA 1312; upper-level standing

Introduction to large scale painting. Students execute texture techniques.

**THEA 3373 Short-form Playwriting (3)**

Pre-requisite(s): THEA 1324

Development of techniques and skills of dramatic writing through practice in creating short-form original dramatic work.

**THEA 3380 Sound Design (3)**

Cross-listed as FDM 3380

Pre-requisite(s): THEA 2371 or FDM 2360

The creation and implementation of sound design for theatre; also applicable to film, music production, video games, and live events. Includes the artistic process of design and the development of technical abilities and conceptual approaches to sound manipulation.

**THEA 3383 Computer Aided Drafting and Modeling (3)**

Pre-requisite(s): THEA 1383

Computer aided drafting to incorporate many of the principals covered in THEA 1383 (hand-drafting for the theater). Utilize both the vector based Vector works software and the floating point algorithm based AutoCAD software.

**THEA 3390 Marketing for the Performing Arts (3)**

Audience development principles and marketing techniques for both commercial and non-profit arts organizations. Emphasis on live theatre. Technical crew lab included.

**THEA 3398 Theatrical Props: Construction and Management (3)**

Pre-requisite(s): THEA 1312 and consent of instructor

Practical study of the design, construction, organization, and implementation of theatrical properties in production.

**THEA 3V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**THEA 4102 Theatre in the Professional World (1)**

Pre-requisite(s): Senior standing and consent of instructor

Prepares majors for the transition from academia to the professional arena.

**THEA 4103 Senior Voice for Traditional Musical Theatre (1)**

Pre-requisite(s): Consent of instructor

Acting technique and character development, in conjunction with vocal technique, as they relate to traditional musical theatre styles, in solo leading roles with repertoire before 1965.

**THEA 4104 Senior Voice for Contemporary Musical Theatre (1)**

Pre-requisite(s): Consent of instructor

Acting technique and character development, in conjunction with vocal technique, as they relate to contemporary musical theatre styles, in solo leading roles with repertoire after 1965.

**THEA 4107 Production Lab III (1)**

Pre-requisite(s): Senior standing and THEA 3106

Evaluation of acting and crew work for all major productions, thesis production, qualifying productions, and weekly workshops.

**THEA 4108 Production Lab IV (1)**

Pre-requisite(s): Senior standing and THEA 3106

A continuation of production methods learned in THEA 3106.

**THEA 4113 Workshop in Traditional Musical Theatre III (1)**

Pre-requisite(s): THEA 3113 and consent of instructor

A continuation of THEA 3113.

**THEA 4114 Workshop in Contemporary Musical Theatre III (1)**

Pre-requisite(s): THEA 3114 and consent of instructor

A continuation of THEA 3114.

**THEA 4190 Portfolio Development (1)**

Pre-requisite(s): Consent of instructor

Development of design portfolios and presentation skills needed for professional employment in theatrical design.

**THEA 4215 Art as Civic Practice: Engagement, Collaboration, and Inclusivity (2)**

Pre-requisite(s): Upper-level standing

Engagement, collaboration, and inclusivity through the lens of arts-based practices as they are related to three key groups: ourselves, organizations, and communities, including community-based artistic programming across fine arts entities.

**THEA 4297 Jazz II (2)**

Pre-requisite(s): THEA 2298 and 2299

Continuation of Jazz I, refining technique and exploring different styles of jazz and character dance.

**THEA 4298 Tap II (2)**

Pre-requisite(s): THEA 3297

Continuation of Tap I, refining technique and exploring advanced rhythms and steps.

**THEA 4301 Acting for the Camera (3)**

Pre-requisite(s): THEA 2301 and 2302

Preparation for professional performance in television and film.

**THEA 4308 Advanced Theatre Theory (3)**

Pre-requisite(s): Senior level standing

Great texts of dramatic theory ranging from Aristotle and Zeami through to Emile Zola and Bertolt Brecht. Theoretical ideas on the aesthetics, efficacy and morality of theatre have interacted with plays at various time periods.

**THEA 4321 History of Costume (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

A study of dress from Egyptian times to the twentieth century.

**THEA 4322 History of Decor in the Western World (3)**

Pre-requisite(s): Upper-level standing

Major historical movements and periods in architecture and decorative arts in the West, with special attention to how these trends relate to theatrical design.

**THEA 4326 Advanced Costume Design (3)**

Pre-requisite(s): THEA 3326

Advanced principles and practices of costume design, with an emphasis on the design team/director collaboration.

**THEA 4335 Creative Dramatics (3)**

Pre-requisite(s): Consent of instructor

Education, theory, and philosophy that will cultivate the techniques of creative dramatics and develop the skills needed for human interaction in dramatic play. Lab required.

**THEA 4351 Automated Lighting (3)**

Pre-requisite(s): THEA 2371

Design techniques and the programming of automated lighting fixtures on various lighting consoles.

**THEA 4365 Advanced Directing I (3)**

Pre-requisite(s): THEA 3324

Directing techniques for departures from realism, with an emphasis on postmodern theatre, musical theatre, and verse drama. Workshop required.

**THEA 4366 Advanced Directing II (3)**

Pre-requisite(s): THEA 4365

Continuation of THEA 4365. Workshop required.

**THEA 4370 Advanced Scene Design (3)**

Pre-requisite(s): THEA 3370; and upper level standing

Development and execution of scenic designs for a variety of theatrical situations. Lectures, design projects, critiques and discussions.

**THEA 4371 Advanced Lighting Design (3)**

Pre-requisite(s): THEA 3371

Developing and executing lighting designs for a variety of situations.

Lectures, design projects, cue composition, and critique and discussion.

**THEA 4373 Playwriting (3)**

Pre-requisite(s): THEA 3373

A study of the art and craft of playwriting with an emphasis on play structure, development of the personal voice, use of dramatic irony, and character development.

**THEA 4376 Theater History III (3)**

Pre-requisite(s): THEA 2374 and 2375; and upper-level standing

Historical investigation of theatre practice, performance, and dramatic literature from the early twentieth century to the present.

**THEA 4377 The Theatre and Christianity (3)**

Pre-requisite(s): Upper-level standing or consent of instructor

An exploration of biblical perspectives concerning creativity and the arts with a special emphasis on theatre and the performing arts.

**THEA 4378 Dramaturgy: Theory and Practice (3)**

Pre-requisite(s): THEA 4376 and consent of instructor

Investigation of the functions and methods of the dramaturg such as choosing a season, audience enrichment, new play development, researching production history, and understanding dramatic structure and theory.

**THEA 4379 Advanced Studies in Contemporary Theatre and Drama (3)**

Pre-requisite(s): THEA 2374 and 2375

Topics related to leading contemporary playwrights, current issues of dramatic style, and emerging trends in theatrical practice. May be repeated once for credit with different content.

**THEA 4380 Performing Arts Management (3)**

Pre-requisite(s): Upper-level standing

Organizational structure, fundraising techniques, and board development for non-profit professional and commercial performing arts organizations. Includes contracting with professional unions, budgeting, and season planning. Technical crew lab included.

**THEA 4384 Advanced Sound Design (3)**

Cross-listed as FDM 4371

Pre-requisite(s): THEA 3380/FDM 3380

A continuation of THEA 3380/FDM 3380. This course builds upon the sound design skills gained previously and adds training in the advanced functions of industry standard software. Students will develop a personal design style, a discerning ear for quality audio, and in-depth knowledge of the production process. Intended for theatre designers, this course is also applicable to film, music production, video games, and live events.

**THEA 4390 Advanced Stage Management (3)**

Pre-requisite(s): THEA 2390

Role and responsibilities of the stage manager using the Regional Theatre or LORT Stage Manager model. Explores budgeting, seasonal planning and responsibilities in touring and non-theatrical situations.

**THEA 4395 Stage Combat (3)**

Pre-requisite(s): Upper-level standing and consent of instructor

Actor movement in stage combat (armed and unarmed) with emphasis on proper technique, safety, and theatricality. May be repeated once for credit with different contents.

**THEA 4398 Technical Direction for Theater (3)**

Pre-requisite(s): THEA 1312, 1316, 1383, and 2371

Four basic areas of technical direction: creating technical drawings, estimating a set, choosing materials used in the theater, and scheduling the building of sets for the theater. This course may be repeated once with a different topic.

**THEA 4V75 Music Directing for Musical Theatre (1-3)**

Pre-requisite(s): Instructor Approval

A practical approach to teaching music, conducting ensembles, collaborating with directors, evaluating voices, and improving vocal technique. This course is geared toward students interested in learning how to Music Direct Musicals and Theatre performances.

**THEA 4V98 Professional Internship (1-3)**

Pre-requisite(s): Upper-level standing

Internship in Theatre and/or the Entertainment industry fulfilled in cooperation with an approved organization. The student will participate in formal training and directed activities in Theatre, Television, Film, Music or other Industry related fields.

**THEA 4V99 Special Studies in Theater Arts for Majors (1-3)**

Pre-requisite(s): Senior standing and consent of instructor

Advanced studies in special theater topics. May be repeated for up to six hours credit.

**THEA 4V9R Research (3)**

Pre-requisite(s): Consent of the instructor

Undergraduate research undertaken with the supervision of a faculty member. May be taken for a maximum of 6 hours.

**THEA 4VC5 Production Capstone (1-3)**

Pre-requisite(s): Senior standing and consent of instructor

Advanced practicum in production performance design technical theater or management. May be repeated with different topic not to exceed six credit hours.

## University Scholars (UNSC)

**UNSC 3001 Exit Interview HNR (0)**

Pre-requisite(s): GTX 2301 and 2302, or consent of instructor

Discussion of independent reading list and proposed thesis topic with a selected faculty committee.

**UNSC 3301 University Scholars Capstone HNR (3)**

Pre-requisite(s): Upper-level standing in University Scholars Program

Special topics of study in modern and post-modern intellectual thought. Bridging genres and disciplines, the course encourages students to make connections with their previous study of Great Texts within the broad context of their University Scholars experience.

**UNSC 4101 Senior Thesis HNR (1)**

Pre-requisite(s): UNSC 3001 or consent of instructor

Submission of an introductory chapter and bibliography for thesis.

**UNSC 4302 Senior Thesis HNR (3)**

Pre-requisite(s): UNSC 4101 or consent of instructor

Completion of thesis and approval by assigned committee.

**UNSC 4V01 University Scholars Independent Study HNR (1-3)**

Pre-requisite(s): Permission of UNSC director and instructor

Flexible credit optional. University Scholars Program for in-depth study of interdisciplinary topic not regularly offered in other traditional departments. Topic of study must be approved by program director and instructor and may not relate to the University scholar's proposed thesis. May be repeated only with permission of director and instructor.

**UNSC 4V21 University Scholars Special Topics (1-4)**

This course designed to allow University Scholars to pursue lines of inquiry not otherwise available in the curriculum. Topics of the course determined by instructor in coordination with the University Scholars Director. Course may be repeated.

# University Studies (UST)

## UST 1V10 Beginning Science (1-3)

Beginning science for summer program students.

# Women's & Gender Studies (WGS)

## WGS 2300 Women's and Gender Studies: An Introduction (3)

An interdisciplinary exploration of critical questions about the meaning of gender in society. Includes contemporary debates about appropriate gender roles, body image, violence against women, access to education and occupations, and women's healthcare.

B.S., M.A., Ph.D.; Abilene Christian U.; *ibid.*; U. of Louisville.

Michael Alexander, D.M.A., Associate Dean for Academic Affairs and Professor of String Music Education (2006)  
B.M.E., M.M., D.M.A.; Southwestern U.; Sam Houston State U.; U. of Houston.

Sara E. Alexander, Ph.D., Professor of Anthropology (1991-1995†, 1995)  
B.A., M.A., Ph.D.; Baylor U.; U. of Kentucky; *ibid.*

Allison M. Alford, Ph.D., Clinical Assistant Professor in Business Communications (2017)  
B.A., M.A., Ph.D.; Texas A&M U; U. of Texas at Austin; *ibid.*

Nathan F. Alleman, Ph.D., Associate Professor of Educational Leadership (2010)  
B.A., M.A., Ph.D.; Messiah College; Geneva College; College of William and Mary.

Paul G. Allison, Ph.D., Professor of Mechanical Engineering (2022)  
B.S., Ph.D.; Mississippi State U.; *ibid.*

Dwight D. Allman, Ph.D., Associate Professor of Political Science (1995)  
B.A., M.A., Ph.D.; Brigham Young U.; U. of Chicago; *ibid.*

Guilherme Almeida, M.M., Senior Lecturer in Theatre Arts (2013)  
B.C.M., M.M.; North Brazil Baptist Theological Seminary, Baylor U.

Becky L. Althaus, Ph.D., Clinical Assistant Professor (2021)  
B.S.N., M.S., Ph.D.; Baylor U.; Texas Woman's U.; *ibid.*

Claudio Alvarez, Ph.D., Assistant Professor of Marketing (2015)  
B.A., M.B.A., M.S., Ph.D.; Pontifical Catholic U. of Rio de Janeiro, Brazil; Wharton School, U. of Pennsylvania; Coppead Graduate School of Business, Federal U. of Rio de Janeiro, Brazil; Boston U. School of Management.

Euridice Alvarez Izcoa, D.M.A., Assistant Professor of Oboe (2018)  
B.M., M.M., D.M.A.; U. Southern Mississippi; Baylor U.; Eastman School of Music

Erica P. Ancira, M.B.A., Clinical Associate Professor of Management Information Systems (2015)  
B.B.A, M.B.A.; Baylor U.; *ibid.*

Charity R. Anderson, Ph.D., Associate Professor of Philosophy (2014)

B.A., M.A., Ph.D.; Biola U.; *ibid.*; St. Louis U.

Paul Anderson, J.D., Clinical Assistant Professor of Insurance (2017)  
B.A., J.D.; Abilene Christian U.; U. of Texas at Austin.

Matthew Andersson, Ph.D., Assistant Professor Sociology (2016)  
B.S., M.A., Ph.D.; Knox College; U. of Iowa; *ibid.*

Alona D. Angosta, Ph.D., Associate Dean for Research and Scholarship  
and Professor (2021)  
B.S.N.; M.S.N.; Ph.D.; U. of Nevada, Las Vegas; *ibid.*; University of Hawaii  
at Manoa

Andrea Archer, D.N.P., Clinical Associate Professor (2019)  
B.S., M.S., D.N.P.; U. of St. Francis, Joliet; U. of Illinois, Chicago; U. of Iowa,  
Iowa City

Christen Argueta, M.S.W., Lecturer in Social Work and Online MSW  
Program Director (2015)  
B.S., M.S.W.; Baylor U.; *ibid.*

Amber Arnold, M.S., Clinical Assistant Professor of Nutrition Sciences  
(2020)  
B.S., M.S.; Stephen F. Austin U.; *ibid.*

Carrie D. Arroyo, M.S.W., Senior Lecturer in Social Work (2011)  
B.S.W., M.S.W.; U. of Texas at Austin; U. of Pennsylvania.

Andrew Arterbury, Ph.D., Professor of Christian Scriptures (2003)  
B.A., Th.M., M.Div., Ph.D.; Baylor U.; Princeton Theological Seminary; *ibid.*;  
Baylor U.

Kendall W. Artz, Ph.D., Professor and Director of the John F. Baugh  
Center for Entrepreneurship and Free Enterprise and holder of the Curtis  
Hankamer Chair in Entrepreneurship (1995)  
B.S., M.B.A., Ph.D.; Montana State U.; Arizona State U.; Purdue U.

Matthew Asare, Ph.D., Assistant Professor of Public Health (2018)  
B.A., M.I.A., M.B.A., Ph.D.; U. of Ghana; Ohio U.; U. of Rochester; U. of  
Cincinnati

Jessica Asbridge, J.D., Assistant Professor (2020)  
B.A., J.D.; U. of Kansas; Indiana U. Maurer School of Law, Bloomington

Sally L. Askins, M.F.A., Associate Professor of Theatre Arts (1993)  
B.F.A., M.A., M.F.A.; Stephen F. Austin State U.; *ibid.*; Trinity U.

Stacy C. Atchley, Ph.D., Professor of Geosciences (1995)  
B.S., M.S., Ph.D.; Baylor U.; *ibid.*; U. of Nebraska.

## B

Theresa Bachman, P.T., D.P.T., Clinical Associate Professor of Physical  
Therapy (2017)  
B.S., M.S., D.P.T.; Texas State U.; *ibid.*; U. of Montana

Janet H. Bagby, Ph.D., Senior Lecturer in Educational Psychology (1989)  
B.S., M.Ed., Ph.D.; U. of Alabama, Birmingham; *ibid.*; Baylor U.

Clark Baker, Ph.D., Associate Professor of Journalism, Public Relations  
and New Media (1993)  
B.S., M.A., Ph.D.; California Polytechnic State U.; U. of Texas; U. of  
Alabama.

Erich J. Baker, Ph.D., Professor and Chair of Computer Science (2002)  
B.A., M.S., Ph.D.; U. of Notre Dame; Barry U.; U. of Tennessee, Knoxville.

Lori E. Baker, Ph.D., Professor of Anthropology (2002)  
B.A., M.A., Ph.D.; Baylor U.; *ibid.*; U. of Tennessee.

Jane N. Baldwin, Ph.D., Professor of Accounting, holder of The Ernst and  
Young Teaching Fellowship (1981)  
B.S., M.B.A., Ph.D.; Arkansas Tech U.; Baylor U.; U. of Arkansas.

Robbie B. Barber, M.F.A., Professor of Art (2000)  
B.F.A., M.F.A.; East Carolina U.; U. of Arizona.

Daniel A. Barish, Ph.D., Assistant Professor of History (2017)  
B.A., M.A., Ph.D.; Emory U.; Columbia U.; Princeton U.; *ibid.*

Beth Allison Barr, Ph.D., Professor of History (2002)  
B.A., M.A., Ph.D.; Baylor U.; U. of North Carolina, Chapel Hill; *ibid.*

Rosalie Barrera, M.A., Senior Lecturer in Spanish (2002)  
B.A., M.A.; Williams College; Baylor U.

Ashley K. Barrett, Ph.D., Assistant Professor of Communication Studies  
(2013-2016†, 2016)  
B.A., M.A., Ph.D.; Baylor; *ibid.*; U. of Texas at Austin.

Joan P. Barrett, Ph.D., Senior Lecturer in Spanish (1999)  
B.A., M.A., Ph.D.; Baylor U.; *ibid.*; Texas A&M U.

Lauren A. Barron, M.D., Inaugural Michael E. DeBakey, M.D., Selma  
DeBakey, and Lois DeBakey Chair for Medical Humanities, Clinical  
Professor and Director of the Medical Humanities Program (2011)  
B.A., M.D.; Baylor U.; U. of Texas Health Science Center.

Katy Bartlett, M.S.N., Clinical Instructor of Nursing (2020)  
B.S.N., M.S.N.; Texas Tech U. Health Science Ctr.; U. of Texas at Arlington

Elizabeth M. Bates, Ph.D., Assistant Professor of Journalism, Public  
Relations and New Media (2010)  
B.A., M.A., Ph.D.; Sul Ross State; Texas Tech U., Texas Tech U.

Larry T. Bates, J.D., LL.M., Professor of Law (1996)  
B.A., J.D., LL.M.; U. of Minnesota; J.D., Marquette U. School of Law,  
Harvard Law School.

Charles P. Baylis, Ph.D., Professor of Electrical and Computer Engineering  
(2008)  
B.S., M.S., Ph.D. U. of South Florida; *ibid.*; *ibid.*

Daniel L. Beard, M.A., Lecturer in Film and Digital Media (2017)  
B.A., M.A., M.F.A.; Baylor U.; *ibid.*; U. of North Texas

Haylee A. Beard, M.Acc., Clinical Assistant Professor of Accounting  
(2019)  
B.B.A., M.Acc.; Baylor U.; *ibid.*

Michael D. Beaty, Ph.D., Professor of Philosophy (1987-1988, 1988)  
B.A., M.A., Ph.D.; Ouachita Baptist U.; Baylor U.; U. of Notre Dame.

A. Alexander Beaujean, Ph.D., Professor of Psychology and Neuroscience  
(2006)  
B.A., M.A., Ph.D.; Cedarville U.; U. of Missouri, Columbia; *ibid.*

Francis J. Beckwith, Ph.D., Professor of Philosophy (2003)  
B.A., M.A., Ph.D., M.J.S.; U. of Nevada; M.A., Simon Greenleaf U.; Fordham  
U.; *ibid.*; Washington U. School of Law, St. Louis.

Kenneth S. Befus, Ph.D., Associate Professor of Geosciences (2015)  
B.S., M.S., Ph.D.; Texas Christian U.; *ibid.*; U. of Texas at Austin.

Darrin J. Bellert, Ph.D., Associate Professor of Chemistry (2003)  
B.S., Ph.D.; Wright State U.; U. of Florida.

Kimlyn Bender, Ph.D., Professor (2012)  
B.A., M.Div., Ph.D.; Jamestown College; Fuller Theological Seminary;  
Princeton Theological Seminary

Sandy Bennett, Ph.D., Director of Online Teaching and Learning Services  
(2008)  
B.S.EE., M.A.Ed., Ph.D., U. of Arkansas; Chapman U.; U. of North Texas

James M. Bennighof, Ph.D., Professor of Music Theory and Vice Provost  
for Faculty Affairs (1984)  
B.M., M.A., Ph.D.; U. of Richmond; U. of Iowa; *ibid.*

Nicholas F. Benson, Ph.D., Associate Professor of Educational Psychology  
(2015)  
B.A., M.S., Ed.S., Ph.D.; Moorhead State U.; Illinois State U.; U. of Florida;  
*ibid.*

Mary Lauren Benton, Ph.D., Assistant Professor of Computer Science  
(2020)  
B.S., M.S., Ph.D.; Baylor U.; Vanderbilt U.; *ibid.*

Michael R. Berry, J.D., Legal Writing Lecturer (2011)  
B.S., J.D.; U. of Texas; *ibid.*

Bhagwan (Johnny) V. Bhojwani, M.S.I.S., Clinical Assistant Professor of  
Information Systems (2017)  
B.S., M.S.I.S.; Devry U.; Baylor U.

Saman Bina, Ph.D., Assistant Professor of Informaiton Systems (2019)  
B.Sc., M.Sc., Ph.D.; M.B.A., Amirkabir U. of Technology, Iran; *ibid.*; Asia  
Pacifi c International College, Australia; Texas Tech U.

Katie M. Binetti, Ph.D., Senior Lecturer in Anthropology (2008)  
B.A., M.Phil., Ph.D.; U. of California, Los Angeles; Yale U.; *ibid.*

Frieda H. Blackwell, Ph.D., Professor of Spanish (1989)  
B.A., M.A., Ph.D.; Mars Hill College; Vanderbilt U.; *ibid.*

Enrique "Erik" Blair, Ph.D., Associate Professor of Electrical and Computer  
Engineering (2015)  
B.S., M.S., Ph.D.; U. of Notre Dame; *ibid.*; Ph.D., *ibid.*

Tricia D. Blalock, D.P.T., Clinical Associate Professor of Health, Human  
Performance, and Recreation (2017)  
B.S., B.S.P.T., M.P.H., DPT; U. of N. Texas; U. of Texas SW Med Ctr.; Texas  
A&M U.; A.T. Still U.

Paul Blanchet, Ph.D., Associate Professor of Communication Sciences  
and Disorders (2012)  
B.A., M.S., Ph.D.; State U. of New York, Fredonia; Northeast Louisiana U.;  
Louisiana State U.

Brook E. Blevins, Ph.D., Assistant Professor of Curriculum and Instruction  
(2011)  
B.A., M.A., Ph.D.; Trinity U.; *ibid.*; U. of Texas.

Steve Block, Ph.D., Senior Lecturer in Political (2013)  
B.S., M.A., Ph.D.; North Carolina State U.; Baylor U.; *ibid.*

Maria L. Boccia, Ph.D., Professor in Child and Family Studies (2015)  
B.A., M.A., Ph.D.; State U. of New York, Geneseo; Denver Seminary; U. of  
Massachusetts, Amherst; *ibid.*

Stephanie C. Boddie, Ph.D., Assistant Professor of Curch and Community  
Ministries (2017)  
B.A., M.S.W., Ph.D.; Johns Hopkins U.; U. of Pennsylvania; *ibid.*

Anne Boddy, Clinical Associate Professor in Physical Therapy

Michael L. Boerm, Ph.D., Senior Lecturer in French (2009)  
B.A., M.A., Ph.D.; U. of Texas, San Antonio; U. of Texas, Austin; *ibid.*

Bradley C. Bolen, D.M.A., Senior Lecturer in Piano (2000)  
B.M., M.M., D.M.A.; U. of Texas, Arlington; U. of Texas; *ibid.*

William A. Booth, Ph.D., Senior Lecturer in Computer Science (1999)  
B.S., M.S., Ph.D.; Texas A&M U.; Baylor U.; *ibid.*

Kathy Boozer, D.N.P., Clinical Assistant Professor of Nursing (2018)  
B.S.N., M.S.N., D.N.P.; West Texas A&M U.; *ibid.*; Creighton U.

Jennnifer H. Borderud, M.S.I.S., Access and Outreach Librarian and  
Associate Director of Armstrong Browning Library  
B.A., M.A., M.S.I.S.; Baylor U.; *ibid.*, U. of Texas, Austin.

Josh Borderud, J.D., Director of Clinical Programs and Clinical Lecturer  
(2019)  
B.A., M.A., J.D.; Baylor U.; *ibid.*; *ibid.*

Philip Borter, D.M.A., Assistant Professor of Cello (2020)  
B.M., M.M., D.M.A.; Cleveland Institute of Music; Eastman School of  
Music; *ibid.*

Lotte D. Bostick, J.D., Clinical Assistant Professor of Business Law (2018)  
B.S., J.D., Virginia Polytech Institute; Baylor U.

Maria Elena Bottazzi, Ph.D., Distinguished Professor of Biology  
Licenciature, Ph.D.; U. Nacional Autonomo de Honduras; U. of Florida

Rodney G. Bowden, Ph.D., Brown Chair and Professor, College of Health  
and Human Sciences (2000)  
B.S., M.S., Ph.D.; Sam Houston State U.; Texas A&M U.; *ibid.*

C. Randall Bradley, D.M.A., The Ben H. Williams Professor of Music (2000)  
B.M.E., M.M., D.M.A.; Troy State U.; Southwestern Baptist Theological  
Seminary; *ibid.*

Dora Bradley, Ph.D., Clinical Associate Professor of Nursing  
B.S., Oklahoma Baptist U.; M.S., U of Oklahoma Health Science Center,  
Ph.D., U of South Carolina, Columbia; M.S.

Steven W. Bradley, Ph.D., Professor of Entrepreneurship (2007)  
B.S., M.E., Ph.D.; U. of Texas; Texas A&M. U.; Indiana U.

Matthew Brammer, M.A., Lecturer of Journalism, Public Relations and  
New Media (2020)  
B.B.A., M.A.; Baylor U.; U. of Southern California.

Courtney Brandt, M.S.N., Clinical Instructor of Nursing (2020)  
B.S.N., M.S.M.; Truman State U.; Texas Tech U. Health Science Ctr.

Susan P. Bratton, Ph.D., Professor of Environmental Science (2001)  
A.B., M.A., Ph.D., Ph.D.; Columbia U.; Fuller Seminary; Cornell U.; U. of  
Texas, Dallas.

M. Cristian Bratu, Ph.D., Associate Chair, Professor of French, and Division  
Director of French and Italian (2007)  
B.A., M.A., Ph.D.; Babes-Bolyai U.; D.E.A., U. Lumiere Lyon 2; New York U.

Brian C. Brewer, Ph.D., Professor of Christian Theology (2019)

B.A., M.Div., Th.M., M.Phil., Ph.D.; Baylor U.; George W. Truett Theological Seminary; Princeton Theological U.; Drew U.; *ibid.*

Mackenzie B. Brewer, Ph.D., Assistant Professor of Sociology (2018)  
B.A., M.A., Ph.D.; Baylor U.; Rice U.; *ibid.*

Dave Bridge, Ph.D., Associate Professor of Political Science (2010)  
B.A., M.A., Ph.D.; Baylor U.; U. of Southern California; *ibid.*

Andrew W. Brinkerhoff, Ph.D., Assistant Professor of Physics (2019)  
B.S., M.S., Ph.D.; Grove City College; U. of Notre Dame; *ibid.*

Bryan W. Brooks, Ph.D., Distinguished Professor of Environmental Science (2002)  
B.S., M.S., Ph.D.; U. of Mississippi; *ibid.*; U. of North Texas.

Brandy Lane Brown, D.N.P., Clinical Assistant Professor (2021)  
B.S.N., M.S.N., D.N.P.; U. of South Alabama, Mobile; Vanderbilt U.; Samford U.

J. Owen Brown, Ph.D., Associate Professor and holder of the KPMG Thomas L. Holton Endowed Chair in Accounting (2013)  
B.S.B.A., M.Ac., Ph.D.; Auburn U.; *ibid.*; Virginia Polytechnic Institute and State U.

Michelle R. Brown, M.A., Senior Lecturer of Interior Design (2002)  
B.A., M.A.; Tennessee Technological U.; U. of Kentucky.

Nicki Brown, Clinical Assistant Professor in Communicational Sciences and Disorders  
B.S., M.S.; U. of Texas Austin; Baylor U.

Blair W. Browning, Ph.D., Associate Professor of Communication (1999-2008†, 2008)  
B.A., M.A., Ph.D.; Baylor; *ibid.*; Texas A&M U.

Erica D. Bruce, Ph.D., Associate Professor of Environmental Science (2008)  
B.S., M.S., Ph.D.; Texas A&M U.; *ibid.*; *ibid.*

Rochelle R. Brunson, Ph.D., Clinical Associate Professor in Apparel Merchandising (2009)  
B.S., M.S., Ph.D.; U. of Louisiana, Monroe; Louisiana Tech. U.; Texas Woman's U.

Tommy J. Bryan, Ph.D., Senior Lecturer in Mathematics (1988-91, 1993)  
B.B.A., M.S., Ph.D.; Baylor U.; *ibid.*; U. of Texas.

Lt Col Paul Bryant, M.S., Detachment Commander and C-17 Pilot and Professor Aerospace Studies (2019)  
B.S., M.S., M.S.; Valdosta State U.; Liberty U.; Air U.

Fernanda V. Bueno, Ph.D., Senior Lecturer in Spanish and Portuguese (2010)  
B.A., M.A., Ph.D.; Universidade de São Paulo; Texas State U.; U. of Texas.

J. Todd Buras, Ph.D., Associate Professor (2003)  
B.A., M.A., M.A.R., Ph.D.; Ouachita Baptist U.; Baylor U.; Yale Divinity School; Yale U.

Cynthia A. Burgess, M.L.I.S., Librarian and Curator of Books and Printed Materials  
B.S., M.S.I.S.; U. of North Texas; U. of Texas, Austin.

Mack Burke, Ph.D., Professor in Educational Psychology (2020)

Blake W. Burleson, Ph.D., Senior Lecturer in Religion (1991)

B.A., B.S., Ph.D.; Baylor U.; *ibid.*; *ibid.*

Cassy Burleson, Ph.D., Senior Lecturer in Journalism, Public Relations and New Media (2003)  
B.S., M.A., M.A., Ph.D.; Sam Houston State U.; *ibid.*; Baylor U.; U. of Texas, Austin.

Debra D. Burleson, Ph.D., Clinical Associate Professor of Business Communication (2004)  
B.B.A., M.Ed., Ph.D.; Baylor U.; Texas Tech U.; *ibid.*

Joel S. Burnett, Ph.D., Professor of Religion (2001)  
B.A., M.Div., Ph.D.; Wofford College; Princeton Theological Seminary; The Johns Hopkins U.

Laurie L. Burney, Ph.D., Associate Professor and Holder of the J.E. Bush Professorship in Accounting (2010)  
B.B.A., M.B.A., Ph.D.; Austin Peay State U.; Middle Tennessee State U., U. of Kentucky.

Timothy W. Burns, Ph.D., Professor of Political Science (2013)  
B.A., M.A., Ph.D.; Boston College; U. of Toronto; *ibid.*

Simon Peter Burris, Ph.D., Senior Lecturer in Classics (2005)  
B.A., Ph.D.; U. Texas; Cornell U.

Clayton Butler, Ph.D., Senior Lecturer in Linguistics (2002)  
B.A., M.S., Ph.D.; Baylor U.; U. of Texas, Austin; *ibid.*

Soku Gu Byoun, Ph.D., Associate Professor of Finance, and holder of the Carr P. Collins Chair of Finance  
B.B.A., M.S., M.S., Ph.D.; U. of Suwon, Korea; Chicago State U.; U. of Illinois; U. of South Carolina.

B.S., M.P.A., Ph.D.; U. of California; U. of Southern California; U. of Pennsylvania; *ibid.*

Cheryl Carlson, Ph.D., Clinical Associate Professor of Nursing (2020)

B.S.N., M.S., Ph.D.; Thomas Jefferson U.; Boston College; Medical U. of S. Carolina

Dawn S. Carlson, Ph.D., Professor of Management, holder of the H.R. Gibson Chair in Management and Director of the McBride Center for International Business Entrepreneurship (1999)

B.B.A., M.B.A., Baylor U.; *ibid.*; Ph.D., Florida State U.

John R. Carlson, Ph.D., Associate Professor of Information Systems and Business Analytics (1999)

B.S., M.B.A., Ph.D.; U. of Oklahoma; *ibid.*; Florida State U.

Natalie Carnes, Ph.D., Associate Professor of Religion (2011)

A.B., M.A., Ph.D.; Harvard U.; U. of Chicago Divinity School; Duke U.

Bradley W. Carpenter, Ph.D., Associate Professor of Educational Leadership (2019)

Ph.D. The University of Texas at Arlington

Don P. Carpenter, M.S., Clinical Associate Professor of Accounting (2016)

B.B.A., M.S., College of William and Mary; U. of Houston.

Halli Carr, D.N.P., Clinical Assistant Professor Nursing (2020)

B.A., M.S.N., D.N.P.; Vanderbilt U.; *ibid.* D.N.P., *ibid.*

Kenneth L. Cariveau, Jr., M.S.L.S., Associate Librarian and Associate Director of Central Libraries (1997)

B.S., M.S.L.S.; U. of Notre Dame; U. of North Carolina.

Paul Carron, Ph.D., Associate Professor in Baylor Interdisciplinary Core in the Honors College (2011-2012†, 2013-2014†, 2014)

B.S., M.A., Ph.D.; Grand Canyon U.; Baylor U.; M.Div., Truett Theological Seminary; Baylor U.

Tamar E. Carter, Ph.D., Assistant Professor of Biology (2018)

B.S., U. of Florida; M.P.H., *ibid.*; Ph.D., *ibid.*

Jordan T. Cash, Ph.D., Lecturer in Political Science (2020)

B.A., M.A., Ph.D.; U. of Nebraska-Omaha; Baylor U.; *ibid.*

Barbara Cassidy, Ed.D., Clinical Assistant Professor of Curriculum and Instruction (2004)

B.S., M.Ed.; Ed.D.; Missouri Valley College; Baylor U.; *ibid.*

Barbara Castanheira Endl, Ph.D., Lecturer in Physics (2016)

B.S., M.S., Ph.D.; Universidade Federal Do Rio; *ibid.* *ibid.*

Steven D. Cates, Jr., M.S., Senior Lecturer in Mathematics (2001)

B.S., M.S.; West Texas A&M U.; *ibid.*

Tomas Cerny, Ph.D., Assistant Professor of Computer Science (2017)  
Engineering, M.S., Ph.D.; Czech Technical U., Prague; Baylor U.; Czech Technical U., Prague.

C. Kevin Chambliss, Ph.D., Vice Provost for Research and Professor of Chemistry (2001)

B.S., Ph.D.; Ouachita Baptist U.; Colorado State U.

Julia Chan, Ph.D., Professor of Chemistry (2022)

B.S., Ph.D.; Baylor U.; U. of California, Davis

Christina Chan-Park, M.P.A., Assistant Librarian and Science Librarian (2010)

A.B., M.S., Ph.D., M.P.A.; Princeton U.; Stanford U.; U. of British Columbia; U. of Houston

Kyle A. Chaput, M.F.A., Assistant Professor of Art (2018)

B.F.A., M.F.A.; Fort Hays University; Texas A&M U. – Corpus Christi.

Tiziano Cherubini, Ph.D., Lecturer in Italian (2018)

M.A., Ph.D.; U. Virginia; Rutgers U.

Gia M. Chevis, Ph.D., Clinical Professor of Accounting and holder of the Price Waterhouse Coopers Faculty Fellowship for Teaching Excellence in Accounting (2005)

B.B.A., Ph.D.; Texas A&M U.; *ibid.*

Yoo-Mi Chin, Ph.D., Associate Professor in Economics (2014)

B.A., M.A., Ph.D.; Seoul National U.; Brown U.; *ibid.*

Mona Choucrair, Ph.D., Senior Lecturer in English, Faculty-in-Residence at South Russell, and Director of Civic Learning and Engagement (2000)

B.A., M.A., Ph.D.; Baylor U.; U. of Dallas; Baylor U.

Aurea Chu, Ph.D., Lecturer in Chemistry and Biochemistry (2016)

B.S., M.S., Ph.D.; U. of the Philippines Los Banos; U. of the Philippines Diliman; U. California, Davis.

Gerald Cleaver, Ph.D., Professor in Physics and Graduate Program Director (2001)

B.S., Ph.D.; Valparaiso U.; California Institute of Technology.

Rafael Climent-Espino, Ph.D., Associate Professor of Spanish and Portuguese (2012)

B.A., B.A., M.A., M.A., Ph.D.; U. of Granada; B.A., *ibid.*; U. Antonio de Nebrija; U. of Granada; Purdue U.

Wm. David Clinton, III, Ph.D., Professor and Chair of Political Science (2005)

B.A., M.A., Ph.D.; Louisiana State U.; U. of Virginia; *ibid.*

George P. Cobb, Ph.D., Professor and Chair of Environmental Science (2011)

B.S., Ph.D.; College of Charleston; U. of South Florida.

Elesha J. Coffman, Ph.D., Associate Professor of History (2016)

B.A., Ph.D.; Wheaton College; M.A., Duke U.; *ibid.*

Joel L. Coker, Ph.D., Senior Lecturer in Religion and Family-in-Residence, North Russell (2008)

B.A., M.Div., Ph.D.; Carson-Newman College; Emory U.; Princeton Theological Seminary

Rosario Colchero-Dorado, Ph.D., Senior Lecturer in Spanish (2014)

Licenciatura (B.A.), M.A., Ph.D.; Universidad de Sevilla; U. of North Carolina, Chapel Hill; *ibid.*

B.A., M.A., Ph.D.; St. Edmund Hall, Oxford; *ibid.*, U. of St. Andrews.

Kristi Feutz, Ph.D., Clinical Associate Professor of Nursing and Associate Dean for Online Graduate Programs (2016)  
B.S.N., M.S.N., D.N.P.; U. of Washington; U. of California, San Francisco; Loyola U.

Jeffrey B. Fish, Ph.D., Associate Professor of Classics (1999)  
B.A., M.A., Ph.D.; Baylor U.; Brown U.; U. of Texas.

Kerri Fisher, M.S.S.W., Senior Lecturer in Social Work (2015)  
B.A., M.S.S.W.; Howard Payne U.; U. of Texas.

Patrick J. Flavin, Ph.D., Associate Professor of Political Science (2010)  
B.A., M.A., Ph.D.; U. of St. Thomas; U. of Notre Dame; *ibid.*

Rebecca McCumbers Flavin, Ph.D., Senior Lecturer in Political Science (2010)  
B.A., M.A., Ph.D.; Wheeling Jesuit U.; U. of Notre Dame; *ibid.*

Trevor J. Fleck, Ph.D., Assistant Professor in Mechanical Engineering (2020)  
B.S., M.S., Ph.D.; Purdue U.; *ibid.*; *ibid.*

Amy Fleming, Ph.D., Lecturer in Music Theory (2017)  
B.M., M.A., Ph.D.; Wheaton College; Pennsylvania State U.; U. of Rochester

Neil S. Fleming, Ph.D., Clinical Professor for Health Services Research  
B.S., M.A., Ph.D.; Bucknell U.; Vanderbilt U.; *ibid.*

Ernest S. Fletcher, M.B.A., Clinical Associate Professor in Finance (2002)  
B.B.A., M.B.A.; Baylor U.; *ibid.*

Mark V. Flinn, Ph.D., Professor of Anthropology (2018)  
B.S., A.M., Ph.D.; U. of Michigan; *ibid.*; Northwestern U.

Renee Flippo, D.P.N., Clinical Associate Professor in Nursing (2015)  
B.S., B.S., M.N., D.N.P.; Evangel U.; U. of Minnesota; Medical College of Georgia; Georgia Regents U.

Tiffany Flood, Clinical Instructor in Nursing

Elizabeth H. (Betsy) Flowers, Ph.D., Associate Professor of Religion and Director of the J. M.Dawson Institute of Church-State Studies (2019)  
B.A., M.A., M.Div., Ph.D.; Millsaps College; U. Texas at Austin; Princeton Theological Seminary; Duke U.

Michael P. Foley, Ph.D., Professor of Patristics in the Honors College (2004)  
B.S., B.A., Ph.D.; Santa Clara U.; Boston College.

Tara C. Foley, Ph.D., Lecturer in English (2015)  
B.A., M.A., M.A., Ph.D.; New York U.; City University of New York; *ibid.*; Fordham U.

Leah M. Force, M.F.A., Senior Lecturer in Art and Undergraduate Program director (2008)  
B.F.A., M.F.A.; East Carolina U.; *ibid.*

Carie O. Ford, Ph.D., Clinical Professor of Accounting and Undergraduate Accounting Advisor (2006)  
B.B.A., M.B.A., Ph.D.; Baylor U.; *ibid.*; Texas Tech U.

Jacob S. Ford, Ph.D., Lecturer in Communication (2019)  
B.A., M.A., Ph.D.; Baylor U.; *ibid.*; U. of Texas-Austin.

Jessica L. Ford, Ph.D., Assistant Professor of Communication (2018)  
B.A., M.A., Ph.D.; Pepperdine U.; *ibid.*; U. of Texas.

Sarah K. Ford, Ph.D., Professor of English and Coordinator of the Beall Poetry Festival (1998)  
B.A., M.A., Ph.D.; Baylor U.; *ibid.*; Tulane U.

Noel Forlini Burt, Ph.D., Lecturer in Religion (2016)  
B.A., M.Div., Ph.D.; Samford U.; Beeson Divinity School; Drew U.

Steven L. Forman, Ph.D., Professor of Geosciences (2014)  
B.S., Ph.D.; U. of Illinois, Urbana; U. of Colorado, Boulder.

Jeff Forsse, Ph.D., Clinical Assistant Professor in Health, Human Performance and Recreation and Director of Research Labs (2019)

B.S., M.S., Ph.D.; U of Louisiana Monroe; U of Louisiana Monroe; Baylor U.

Marquita Foster, Curriculum and Instruction

Benny Fountain, M.F.A., Assistant Professor of Art (2013)  
B.F.A., M.F.A., Pacific N.W. College of Art; Temple U.

Laura Llamas Fraga, M.A., Lecturer in Spanish (2018)  
B.A., M.A., M.A., M.A.; U. of Salamanca; Instituto Europeo de Bilbao;  
Complutense U. of Madrid; West Virginia U.

Elizabeth M. Fraley, J.D., Professor of Law (2015)  
B.A., J.D.; Tulane U.; Baylor U.

Paul Froese, Ph.D., Professor of Sociology and Director of Baylor Survey  
of Religion (2003)  
B.A., M.A., M.A., Ph.D.; Grinnell College; U. of Wisconsin; U. of Washington;  
ibid.

Cynthia C. Fry, M.S., Senior Lecturer in Computer Science (1997)  
B.S.I.E., M.S.E.; Texas A&M U.; U. of Alabama.

Deirdre N. Fulton, Ph.D., Associate Professor of Religion (2013)  
B.A., M.A., Ph.D.; Wheaton College; Miami U.; Pennsylvania State U.

James M. Fulton, Ph.D., Assistant Professor of Geosciences (2013)  
B.S., M.A., Ph.D.; Wheaton College; Ball State U.; Pennsylvania State U.

LesLee K. Funderburk, Ph.D., Assistant Professor of Nutrition Sciences  
(2016)  
B.S., M.S., Ph.D.; Eastern Washington U., Cheney; Central Michigan U.,  
Oahu; U. of Washington, Seattle.

Bridget M. Fuselier, J.D., Professor of Law (2006)  
B.A., J.D.; Lamar U.; Baylor U.

## G

M. Lynne Gackle, Ph.D., Professor of Ensembles, Director of Choral  
Activities and Ensembles Division (2009)  
B.M.E., M.M., Ph.D.; Louisiana State U.; U. of Miami; ibid.

Kendra Gagnon, P.T., Ph.D., Clinical Professor and Chair of Physical  
Therapy (2017)  
B.H.S., M.P.T., Ph.D.; U. of Missouri; ibid.; U. of Kansas Medical Center

Yoshiko M. Gaines, M.A., Senior Lecturer in Japanese (2011)  
B.A., M.A.; Dokkyo U.; Columbia U.

Christopher M. Galeczka, J.D., Reference Librarian (2013)  
B.A., M.A., J.D.; Michigan State U.; ibid.; ibid.

Elyssia S. Gallagher, Ph.D., Assistant Professor of Chemistry (2015)  
B.S., Ph.D.; U. of Arizona; ibid.

Michael Gallagher, Ph.D., Statistical Science (2021)  
B.S., M.S., Ph.D.; McMaster U.; ibid.; ibid.

Andrew Gallucci, Ph.D., Associate Professor and Director of Athletic  
Training Education (2011)  
B.S., M.S., Ph.D.; U. of Alabama; Oklahoma State U.; U. of Alabama.

Christy Gantt, D.P.T., Clinical Associate Professor in Physical Therapy  
(2017)  
B.S., M.S., M.P.T., D.P.T.; Texas A&M U.; ibid., Ft. Sam Houston; Baylor U.

David J. Garcia, M.F.A., Assistant Professor of Film and Digital Media  
(2017)

B.S., M.A., M.F.A.; U. Wisconsin-Parkside; Regent U.; ibid.

Robert Garcia, Ph.D., Associate Professor of Philosophy (2020)  
B.A., M.A., M.A., Ph.D.; Texas Lutheran U.; Biola U.; U. of Notre Dame; ibid.

Guillermo Garcia-Corales, Ph.D., Professor of Spanish (1992)  
B.A., M.A., Ph.D.; U. of Notre Dame; ibid.; U. of Colorado.

H. Stephen Gardner, Ph.D., Professor of Economics and holder of the  
Herman Brown Chair of Economics (1978)  
B.A., Ph.D.; U. of Texas; U. of California, Berkeley.

Kevin J. Gardner, Ph.D., Professor and Chair of English (1995)  
B.A., M.A., Ph.D.; University of St. Thomas, Houston; College of William  
and Mary; Tulane U.

LeAnn Gardner, M.S.W., Lecturer in Social Work and Associate Director of  
Field Education, Online Program (2019)  
B.A., M.S.W., M.Div.; Samford U.; Baylor U.; ibid.

Brian A. Garner, Ph.D., Associate Professor of Mechanical Engineering  
(2002)  
B.S., U. of Texas; M.S., ibid.; Ph.D., ibid.

Scott H. Garner, M.H.A., Senior Lecturer in Healthcare Administration and  
Administrative Director of the Robbins Institute for Health Policy and  
Leadership (2001)  
B.B.A., M.B.A., M.H.A.; Baylor U.; U. of West Florida; Baylor U.

Shelby Garner, Ph.D., Associate Professor of Nursing (2011-2013†, 2013)  
B.S.N., M.S.N., Ph.D.; Texas Christian U.; U. of Phoenix; Texas Woman's U.

Gregory T. Garrett, Ph.D., Professor of English (1989)  
B.A., M.A., Ph.D.; Central State U.; ibid.; Oklahoma State U.

J. David Garrett, Ph.D., Associate Professor of Communication Sciences  
and Disorders (1998)  
B.A., M.S., Ph.D.; Baylor U.; ibid.; U. of Iowa.

James R. Garven, Ph.D., Professor of Finance and Insurance and holder of  
the Frank S. Groner Memorial Chair in Finance (2000)  
B.S., M.B.A., Ph.D.; Illinois State U.; ibid.; U. of Illinois.

Baudelio Garza, Ph.D., Associate Professor of Spanish (1988)  
B.A., M.A., Ph.D.; Universidad Nacional Autónoma de Mexico; Universidad  
Autónoma de Nuevo León; U. of Texas.

T.J. Geiger, Ph.D., Assistant Professor of English (2016)  
B.A., B.A., M.A., Ph.D.; Lamar U.; ibid.; Texas Woman's U.; Syracuse U.

Morris George, Ph.D., Associate Professor of Marketing (2008)  
B.Tech., M.B.A., Ph.D.; Kerala Agricultural U.; Indian Institute of  
Management; U. of Connecticut.

Matthew G. Gerber, Ph.D., Associate Professor of Communication and The  
Glenn R. Capp Chair in Forensics (2003-2005†, 2005)  
B.A., M.A., Ph.D.; Southeastern Oklahoma State U.; Baylor U.; U. of  
Kansas.

Stephanie Gerow, Ph.D., Assistant Professor for Educational Psychology  
B.S., M.Ed., Ph.D.; Davidson College; Texas A&M U.; ibid

Fritz Gesztesy, Ph.D., The Ralph and Jean Storm Professor of  
Mathematics (2016)

Ph.D., University Graz, Australia.

Amy Giles, D.N.P., Clinical Assistant Professor in Nursing (2021)  
B.S.N., C.N.M., M.S.N., W.H.N.P., D.N.P.; Baylor U.; Parkland School of  
Nurse Midwifery/U. Texas Southwest Medical School, Texas Woman's U.;  
ibid.; Touro U., Nevada

Marian Gillard, Ph.D., Clinical Associate Professor and Chair of  
Occupational Therapy (2018)  
Ph.D.; Temple U.

John M. Gingles, M.F.A., Associate Professor of Art (2011)  
B.F.A., M.F.A.; Louisiana Tech U.; Louisiana State U.

Annie T. Ginty, Ph.D., Assistant Professor of Psychology and  
Neuroscience (2016)  
B.S., Ph.D.; Allegheny College; U. Birmingham.

Stephen L. Gipson, Ph.D., Professor of Chemistry and Biochemistry (1986)  
B.S., Ph.D.; Baylor U.; California Institute of Technology.

Perry Glanzer, Ph.D., Professor of Educational Leadership (2002)  
B.A., M.A., Ph.D.; Rice U.; Baylor U.; U. of Southern California.

Paige B. Gloeckner, M.A., Lecturer of Communication (2019)  
B.A., M.A.; Texas A&M U.; U. of Houston.

Sheila R. Gloer, Ed.D., Senior Lecturer in Curriculum and Instruction (2002)  
B.S., M.Ed., Ed.S., Ed.D.; Carlow College; U. of Missouri, Kansas City; ibid.;  
Baylor U.

Eka Gogichashvili, D.M.A., Associate Professor of Violin (2000)  
B.M., M.M.; Rowan U.; Louisiana State U. and Tbilisi State Conservatory.

Jennifer L. Good, Ph.D., Associate Professor of German, Division Director  
of German and Russian, and Director of the University Scholars Program  
in the Honors College (2003)  
B.A., M.A., Ph.D.; U. of Missouri, Columbia; U. of Iowa; U. of  
Massachusetts.

Amy M. Goodman, Ph.D., Senior Lecturer in Mathematics (1999)  
B.A., M.S., Ph.D.; Texas A&M U.; ibid., U. of North Texas

Paul M. Gordon, Ph.D., Professor of Exercise Physiology and  
Epidemiology (2013)  
B.S., M.S., M.P.H., Ph.D.; U. of Pittsburgh; ibid; ibid; ibid.

Angela W. Gorrell, Truett  
B.A., M.S.Ed., Ph.D.; Baylor U.; ibid.; ibid.

P. Jameson Graber, Ph.D., Assistant Professor of Mathematics (2016)  
B.S., Ph.D.; Washington Lee U.; U. Virginia.

William Mack Grady, Ph.D., Professor of Electrical and Computer  
Engineering (2012)  
B.S.E.E., M.S.E.E., Ph.D.; U. of Texas, Arlington; Purdue U., West Lafayette;  
ibid.

Vanessa Grandjean, SLP.D., Online Graduate Program Director and Clinical  
Assistant Professor in Communication Sciences and Disorders (2019)  
M.S., SLP.D.; Texas State U.; Nova Southeastern U.

Ian A. Gravagne, Ph.D., Associate Professor of Electrical and Computer  
Engineering and Graduate Program Director (2002)  
B.S., M.S., Ph.D.; Rice U.; Clemson U.; ibid.

Van D. Gray, Ph.D., Professor of Management and Director of Strategic  
Planning and Accreditation (1986)  
B.S., M.B.A., Ph.D.; Houston Baptist U.; U. of North Texas; ibid.

Leigh Greathouse, Ph.D., Associate Professor of Nutrition Sciences (2016)  
B.S., M.S., M.P.H.; Stephen F. Austin State U.; Texas Women's U.; Johns  
Hopkins U.

Gina C. Green, Ph.D., Associate Professor of Information Systems and  
Academic Director of Information Systems Graduate Programs (1998)  
B.S., M.S., Ph.D.; Southern U.; U. of Pennsylvania; U. of South Florida.

Steven L. Green, Ph.D., Professor of Economics and Statistics and  
Director of the Certificate Program in Energy Commerce (1986)  
B.A., A.M., Ph.D.; Baylor U.; Brown U.; ibid.

Virginia Green, M.F.A., Associate Professor of Art (2006)  
B.F.A., M.F.A.; U. of Texas at Arlington; U. of North Texas.

David Stanton Greer, M.S., Senior Lecturer in Mechanical Engineering  
(2014)  
B.S., M.S.; U. of Arkansas; Baylor U.

Sharon J. Gripp, M.A., Senior Lecturer in Journalism, Public Relations and  
New Media (2006)  
B.A., M.A.; Baylor U.; ibid.

Lee H. Grumbles, Ph.D., Clinical Assistant Professor of Entrepreneurship  
(2020)  
B.A., M.B.A., Ph.D.; Texas A&M U.; Sam Houston State U.; Oklahoma State  
U.

Kari Guffey, Clinical Assistant Professor in Nursing

David M. Guinn, L.L.M., Professor, The Louise L. Morrison Professor of  
Constitutional Law and Master Teacher (1966)  
B.A., J.D., L.L.M.; Baylor U.; ibid.; U. of Michigan.

Stephen Gusukuma, D.M.A., Senior Lecturer in Choral Music (2015)  
B.M.E., M.M., D.M.A.; Baylor U.; ibid; U. of Michigan

Kevin J. Gutzwiller, Ph.D., Professor of Biology (1986)  
B.S., M.S., Ph.D.; U. of Cincinnati; Pennsylvania State U.; U. of Wyoming.

Dana Gwynn, M.S., Lecturer in Mathematics (2019)  
B.A., M.S., Baylor U.; Texas Woman's U.

## H

Randy T. Hacker, Clinical Assistant Professor of Marketing and Director of  
the Keller Center (2017)  
B.A., M.B.A.; North Texas U.; Southern Methodist U.

Kaylee J. Hackney, Ph.D., Assistant Professor of Management (2017)  
B.A., M.B.A., Ph.D.; Eastern Illinois U.; ibid; Florida State U.

Kenneth C. Hafertepe, Ph.D., Professor and Chair of Museum Studies  
(2000)  
B.A., M.A., Ph.D.; Georgetown U.; U. of Texas; ibid.

Director (2016)  
B.A., M.S.W.; Baylor U.; *ibid.*

Heidi J. Hornik-Parsons, Ph.D., Chair and Professor of Art History (1990)  
B.A., M.A., Ph.D.; Cornell U.; Pennsylvania State U.; *ibid.*

Emily K. Hornock, Ph.D., Assistant Professor of Accounting (2019)  
B.S., M.Acc., Ph.D.; John Brown U.; U. of Arkansas; U. of Mississippi.

Dennis J. Horton, Ph.D., Associate Professor Religion, Director of Ministry  
Guidance and holder of the Raymond O. Hubler Chair in Ministry Guidance  
(2005)  
B.A., M.Div., Ph.D.; Baylor U.; Southern Baptist Theological Seminary;  
Baylor U.

Michal M. Horton, Ph.D., Clinical Assistant Professor of Business  
Communication (2020)  
B.A., M.A., Ph.D.; Harding U.; Arkansas State U.; Texas Christian U.

Kae Hosada Ayer, D.M.A., Associate Professor of Piano (2006)  
B.M., M.M., D.M.A.; Toho Gakuen School of Music, Tokyo; New England  
Conservatory of Music; Graduate Performances Diploma, *ibid.*; U. of  
Texas, Austin.

Peter Jay Hotez, Ph.D., University Professor of Biology (2015)  
B.A., Ph.D., M.D.; Yale U.; Rockefeller U.; Cornell U.

Ethany Howden, D.N.P., Clinical Assistant Professor in Nursing (2018)  
B.S.N., M.S.N., D.N.P.; Baylor U.; Duke U.; U. of Texas at Arlington

Leanne L. Howell, Ph.D., Clinical Assistant Professor of Curriculum and  
Instruction (2013)  
B.S., M.S., Ph.D.; Baylor U., *ibid.*; Texas A&M U.

William G. Hoy, D.Min., Clinical Professor and Associate Director of the  
Medical Humanities Program (2012)  
B.S., M.Div., D.Min., Louisiana State U.; Golden Gate Baptist Theological  
Seminary; Fuller Theological Seminary and Graduate School of  
Psychology.

Eva Hruska, M.A., Senior Lecturer in Russian (2011)  
B.A., M.A.; U. of Vermont; U. of Kansas.

Jonathan Hu, Ph.D., Associate Professor of Electrical and Computer  
Engineering (2011)  
B.S., M.S., Ph.D.; Zhejiang U.; U. of Tulsa; U. Maryland Baltimore Co.

Sophia Hu, Ph.D., Assistant Professor of Finance (2018)

BA., Ph.D.; Nanjing U.; Texas A&M U.

Heather Hudson, Ed.D., Clinical Associate Professor of Health, Human Performance and Recreation (2018)  
B.S., M.S., Ed.D.; Mars Hill; West Texas A&M; Gardner-Webb U.

Terry Lynn Hudson, D.M.A., Associate Professor of Piano (1995-1999†, 1999)  
B.M., James Madison U.; M.M., U. of Cincinnati; D.M.A., U. of Texas, Austin.

James R. Huggins, M.F.S., Senior Lecturer in Forensic Science (2011)  
B.S., M.F.S.; U. of Mary-Hardin Baylor; Oklahoma State U.

Beth Hultquist, Ph.D., Clinical Associate Professor of Nursing (2012-2015†, 2015)  
B.S.N., M.S.N., Ph.D.; U. of Nebraska, Lincoln; Nebraska Methodist College; Mercer U.

Kristi R. Humphreys, Ph.D., Lecturer in English (2017)  
B.A., M.A., Ph.D.; Baylor U.; U. of Texas, Dallas; *ibid.*

Jeffrey M. Hunt, Ph.D., Director of the University Scholars Program in the Honors College and Senior Lecturer in Classics (2008)  
B.A., Ph.D.; Baylor U.; Brown U.

Maurice A. Hunt, Ph.D., Research Professor of English (1981)  
B.A., M.A., Ph.D.; U. of Michigan; U. of California, Berkeley; *ibid.*

Emily M. Hunter, Ph.D., Professor and Chair of Management (2009)  
B.A., M.A., Ph.D.; Loyola U.; U. of Houston; *ibid.*

Reeve Hunter, Ph.D., Lecturer in Mathematics (2019)  
B.A., Ph.D.; Baylor U.; *ibid.*

Markus Hunziker, Ph.D., Associate Professor of Mathematics (2004)  
Diplom in Mathematik, Ph.D.; U. of Basel, Switzerland; U. of California, San Diego.

David N. Hurtt, Ph.D., Professor of Accounting (2005)  
B.A., B.S.B.A., M.S., Ph.D.; California State U., Long Beach; *ibid.*; Golden Gate U., Texas A&M U.

R. Kathleen Hurtt, Ph.D., Associate Professor of Accounting (2004)  
B.S., M.B.A., Ph.D.; Azusa Pacific U.; California State U., Stanislaus; U. of Utah.

Shaun T. Hutton, M.C.S., Clinical Associate Professor in Computer Science (2020)  
B.S.C.S., M.C.S., M.Div.; Baylor U.; U. of Virginia; Southern Baptist Theological Seminary.

Truell W. Hyde, II, Ph.D., Professor of Physics and Director of CASPER (1989)  
B.S., M.S., Ph.D.; Southern Nazarene U.; Baylor U.; *ibid.*

Christina L. Iluzada, Ph.D., Clinical Assistant Professor of Business Communications (2016)  
B.A., Ph.D.; Wofford U.; Baylor U.

Monique Ingalls, Ph.D., Associate Professor of Church Music (2014)  
B.A., Ph.D.; John Brown U.; U. of Pennsylvania

Lara Hwa Ingram, Ph.D., Assistant Professor of Psychology and Neuroscience (2020)

B.S., M.S., Ph.D.; Tufts U.; *ibid.*, *ibid.*

Allyson L. Irom, Ph.D., Senior Lecturer and Undergraduate Program director in Spanish (1999)  
B.A., M.A., Ph.D.; U. of Notre Dame; *ibid.*; U. of Texas.

Yoaav A. Isaacs, Ph.D., Assistant Professor Physics  
B.A., M.A., M.Phil., Ph.D.; Saint Johns College New Mexico; *ibid.*; The U. of Chicago; Oxford U.; Princeton U.

Kelly R. Iverson, Ph.D., Associate Professor of Religion (2012)  
B.S., Th.M., Ph.D.; Iowa State U.; Dallas Theological Seminary; The Catholic U. of America.

Stuart Ivey, D.A., Lecturer in Ensembles, Assistant Director of Bands (2021)  
B.M.E., M.M., D.A.; Auburn U.; U. of Missouri, Ball State U.

Julie K. Ivey-Hatz, Ph.D., Associate Professor of Educational Psychology (2005)  
B.A., M.S., Ph.D.; Southwest Texas State U.; Our Lady of the Lake U.; Oklahoma State U.

## J

David Jack, Ph.D., Professor of Mechanical Engineering (2009)  
B.S., M.S., Ph.D.; Colorado School of Mines; U. of Missouri; *ibid.*

Tezra Jackson, M.A., Lecturer in English for Academic Purposes in Global Gateway Program

Alan R. Jacobs, Ph.D., Distinguished Professor of Literature in the Honors Program (2013)  
B.A., Ph.D.; U. of Alabama; U. of Virginia.

Michael N. Jacobson, D.M.A., Professor of Saxophone and Associate Dean for Operations (1984)  
B.M., M.M., D.M.A.; Arizona State U.; Indiana U.; U. of Texas.

Chris Jaeger, J.D., Assistant Professor of Law (2021)  
B.A., J.D.; U. of Missouri; Vanderbilt U.

Lee Ann James, J.D., Legal Writing Lecturer (2019)  
B.B.A., J.D.; Baylor U.; *ibid.*

Peter B. James, Ph.D., Assistant Professor of Geosciences (2017)  
B.A., B.S., Ph.D.; Brown U.; *ibid.*; Massachusetts Institute of Technology.

Michelle Jamison, Ph.D., Clinical Assistant Professor in Nursing (2019)  
B.A., B.S.N., M.S.N., D.N.P.; U. of Texas at Austin; St. Louis U.; U. of Texas at El Paso; *ibid.*

Ruby Jamison, Clinical Assistant Professor in Nursing

Anne Jeffrey, Ph.D., Assistant Professor of Philosophy, Affiliated Faculty in the Medical Humanities Program (2019)  
B.A., Ph.D.; Baylor U.; Georgetown U.

Philip Jenkins, Ph.D., Distinguished Professor of History and Co-Director of the Program on Historical Studies of Religion (2009)  
B.A., M.A., Ph.D.; U. of Cambridge; *ibid.*; *ibid.*

Mary Ann Jennings, Ed.D., Senior Lecturer of Health, Human Performance and Recreation and Director of Lifetime Fitness (2011)  
B.S., M.S., Ed.D.; U. of West Florida; U. of West Florida; United States Sports Academy.

Lulin Jiang, Ph.D., Assistant Professor of Mechanical Engineering (2019)  
B.S., J.M., M.S., Ph.D.; North China Electric Power University; Huzhou  
University of Science and Technology; University of Alabama; *ibid.*

Ben Johansen, Ph.D., Lecturer in Composition and Computer Music  
(2017)  
B.M.E., M.M., Ph.D.; Baylor U.; *ibid.*; U. of North Texas

Susan K. Johnsen, Ph.D., Professor of Educational Psychology (1989)  
B.A., M.Ed., Ph.D.; Baylor U.; U. of Texas; *ibid.*

Byron Johnson, Ph.D., Director, Institute for Studies of Religion and  
Distinguished Professor of the Social Sciences (2004)  
B.A., M.A., Ph.D.; Minot State U.; Middle Tennessee State U.; U. of  
Tennessee; Florida State U.

Jodien Johnson, Ph.D., Lecturer in Sociology (2019)  
B.A., M.A., Ph.D.; Baylor U.; *ibid.*; *ibid.*

Melissa E. Johnson, M.A., Senior Lecturer in Theatre Arts (2003)  
B.F.A., M.A.; U. of Cincinnati, College of Conservatory of Music; Baylor U.

Ronald A. Johnson, Ph.D., Associate Professor and the Ralph L. and  
Bessie Mae Lynn Professor of History (2020)  
B.A., M.A., M.Div., Ph.D.; Texas State U.; John Hopkins U.; Boston U.;  
Purdue U.

Dennis A. Johnston, Ph.D., Professor of Statistical Science (2003)  
B.S., M.A., Ph.D.; Arlington State College; U. of Texas, Austin; Texas Tech  
U.

Hope W. Johnston, Ph.D., Associate Professor of English (2008)  
B.A., M.A., M.Phil., Ph.D.; College of William & Mary; U. of North Carolina,  
Chapel Hill; U. of Cambridge; *ibid.*

Kelly C. Johnston, Ph.D., Assistant Professor of Curriculum and  
Instruction (2018)  
B.S., Baylor U.; M.Ed, Texas State U.; Ed.D., Columbia U.

Jennifer J. Jones, M.S.N., Clinical Assistant Professor in Nursing (2017)  
B.S.N., M.S.N., D.N.P.; Arkansas State U.; U of Arkansas; *ibid.*

Kenneth R. Jones, Ph.D., Associate Professor of Classics and History and  
Chair of Classics (2007)  
B.A., M.A., Ph.D.; U. of California, Berkeley; *ibid.*; *ibid.*

Lisa Jones, D.N.P., Clinical Assistant Professor in Nursing (2020)  
B.S., M.P.H., M.S.N., D.N.P.; Benedictine U.; U. of Illinois, School of Public  
Health; Texas A&M U.; American Sentinel U.

Reneé Jones, D.N.P., Clinical Associate Professor in Nursing (2013-2015†,  
2015)  
B.S.N., M.S.N., D.P.N.; U. of Mississippi-Jackson; *ibid.*; U. of Missouri-  
Kansas City.

Tracey R. Jones, M.A., Lecturer in Spanish (2017)  
B.A., M.A., M.A.; U. of La Verne; *ibid.*; New Mexico State U.

Cindy Jones (Walter-Gensler), MLC

M. Devanand Jonklaas, Ph.D., Senior Lecturer in Chemistry and  
Biochemistry and Faculty-in-Residence at Earle Hall (2004)  
B.A., Ph.D.; Taylor U.; Baylor U.

J. Brian Jordan, Ph.D., Professor of Mechanical Engineering and the  
Kenneth and Celia Carlile Chair in Materials Science (2022)

B.S., M.S., Ph.D.; Mississippi State U.; *ibid.*; *ibid.*

Mary Ann Jordan, Ed.D., Clinical Faculty of Educational Leadership (2008)  
B.A., M.S., Ed.D.; Baylor U.; Texas A&M U., Kingsville; U. of North Texas.

Richard P. Jordan, Ph.D., Assistant Professor of Political Science (2016)  
B.A., M.A., Ph.D.; College of William and Mary; Princeton U.; *ibid.*

David L. Jortner, Ph.D., Associate Professor of Theatre Arts and Graduate  
Program Director (2008)  
B.S., M.A., Ph.D.; Skidmore College; Michigan State U., U. of Pittsburgh.

Maura L. Jortner, Ph.D., Senior Lecturer in English (2008)  
B.A., M.A., Ph.D.; Franciscan U., Xavier U.; U. of Pittsburgh.

Ryan Swift Joyner, M.F.A., Associate Professor of Theatre Arts (2014)  
B.F.A., M.F.A.; Baylor U.; California State U., Fullerton.

## K

David J. Kahle, Ph.D., Associate Professor of Statistical Science (2011)  
B.A., M.A., Ph.D.; U. of Richmond; Rice U.; *ibid.*

Ran Kampel, M.M., Assistant Professor of Clarinet (2020)  
B.M. & P.C. Eastman School of Music, M.M. University of Southern  
California

Carrolle H. Kamperman, M.A., Senior Lecturer and Associate Dean for  
Undergraduate Studies, Student Success Management (1991)  
B.A., M.A.; Baylor U.; *ibid.*

Robert R. Kane, Ph.D., Associate Professor of Chemistry, Director of  
Institute of Biomedical Studies and Faculty-in-Residence of University  
Parks (1996)  
B.S., Ph.D.; Texas Lutheran U.; Texas Tech U.

Corina Kaul, Curriculum and Instruction

Cheryl A. Kay, Ph.D., Senior Lecturer in Statistics and Quantitative  
Business Analysis and Manager for Assessment Data (2000)  
B.S., M.S., Ph.D.; U. of Texas, San Antonio; Baylor U.; U. of North Texas.

Timothy R. Kayworth, Ph.D., Professor of Information Systems (1996)  
B.A., M.B.A., Ph.D.; Columbia U.; Florida State U.; *ibid.*

Christopher M. Kearney, Ph.D., Associate Professor of Biology (1994)  
B.S., M.S., Ph.D.; U. of California, Irvine; California State Polytechnic U.,  
Pomona; Cornell U.

Bessie W. Kebaara, Ph.D., Associate Professor in Biology (2009)  
B.S., Ph.D.; Louisiana State U.; U. of Nebraska.

James Kee, Ph.D., Clinical Assistant Professor of Entrepreneurship (2020)  
B.A., M.A., Ph.D.; St. Edward's U.; St. Mary's U.; Auburn U.

N. Bradley Keele, Ph.D., Associate Professor of Psychology and  
Neuroscience and Biomedical Studies (1998)  
B.S., Ph.D.; Baylor U.; U. of Texas Medical Branch, Galveston.

Benjamin S. Kelley, Ph.D., Professor of Engineering (1999)  
B.S., M.S., Ph.D.; Auburn U.; U. of Kentucky; *ibid.*

Kimberly R. Kellison, Ph.D., Associate Professor History and Associate  
Dean for Humanities and Social Sciences (1998)  
B.A., M.A., Ph.D.; Erskine College; U. of South Carolina; *ibid.*

Mark C. Kelly, Ph.D., Assistant Professor of Economics (2015)

B.S., Ph.D.; Arizona State U.; U. of Georgia.

Diana Kendall, Ph.D., Professor of Sociology (1997)  
B.S., M.A., Ph.D.; Hardin-Simmons U.; Texas Tech U.; U. of Texas.

James M. Kendrick, Ph.D., Professor of Film and Digital Media and Undergraduate Program Director (2005)  
B.A., M.A., Ph.D.; Baylor U.; *ibid.*, Indiana U.

Nicole Kenley, Ph.D., Lecturer in English and Director of First Year Writing (2018)  
B.A., M.A., Ph.D.; U. of California, Berkeley; New York U.; U. of California, Davis.

Theresa V. Kennedy, Ph.D., Professor of French and Director of Women Gender Studies (2008)  
B.A., M.A., Ph.D.; State U. of New York, Buffalo; U. of Maryland, College Park; *ibid.*

B.S.N., M.S.N.; U. of Texas Arlington; *ibid.*

Todd Kettler, Ph.D., Associate Professor and Chair of Educational Psychology (2018)  
B.A., M.S.Ed., Ph.D.; Baylor U.; *ibid.*; *ibid.*

Joseph G. Kickasola, Ph.D., Professor of Film and Digital Media (1999)  
B.A., M.A., Ph.D.; Covenant College; Regent U.; *ibid.*

Thomas S. Kidd, Ph.D., Distinguished Professor of History, The James Vardaman Endowed Professor of History, and Associate Director, Institute for Studies of Religion (2002)  
B.A., M.A., Ph.D.; Clemson U.; *ibid.*; Notre Dame U.

Sarah Kienle, Ph.D., Assistant Professor of Biology (2021)  
B.S., M.S., Ph.D.; Trinity U.; San Diego State U.; U. of California Santa Cruz.

Erin Killingsworth, Ph.D., Clinical Associate Professor in Nursing (2015)  
B.S.N., M.S.N., Ph.D.; Auburn U.; Samford U.; Mercer U.

Forest S. Kim, Ph.D., Robbins MBA Healthcare Director and Clinical Associate Professor of Economics (2019)  
B.S., M.A., M.B.A., M.H.A., Ph.D.; U. California Los Angeles; Chapman U.; U. Texas San Antonio; Baylor U.; U. of Washington

Hwanki "Brian" Kim, Ph.D., Assistant Professor of Finance (2018)  
B.S., M.EN., Ph.D.; Seoul National U.; U. of Michigan Ann Arbor; M.S., *ibid.*; U. of Illinois Urbana.

Seunghyun Kim, Ph.D., Associate Professor in Electrical and Computer Engineering (2016)  
B.S., M.S., Ph.D.; U. of Suwonm South Korea; U. of Alabama, Huntsville; *ibid.*

Tae Hun Kim, Ph.D., Assistant Professor Business Analytics (2018)  
B.B.A., M.S., Ph.D.; Korea U.; *ibid.*; Michigan State U.

Rachel Kincaid, J.D., Assistant Professor of Law (2021)  
B.M., M.M., M.A., J.D.; Eastman School of Music; Royal Northern College of Music; Cardiff U.; U. of Virginia

Elise King, M.A., Associate Professor of Interior Design (2016)  
B.S., M.A.; Baylor U.; U. of Texas at Austin.

Joshua S. King, Ph.D., Associate Professor of English (2008)

B.A., Ph.D.; U. of Virginia; Harvard U.

Julie A. King, J.D., Senior Lecturer in Environmental Law and Undergraduate Program Director (2008)  
B.A., J.D.; Vanderbilt U.; U. Louisville School of Law.

Ryan S. King, Ph.D., Professor of Biology (2004)  
B.S., M.Env.Mgmt., Ph.D.; Harding U.; Duke U.; *ibid.*

Robert C. Kirby, Ph.D., Professor of Mathematics (2012)  
B.S., M.S., Ph.D.; Texas Tech U.; U. of Texas; *ibid.*

Kevin K. Klausmeyer, Ph.D., Associate Professor and Associate Chair of Chemistry (2000)  
B.S., Ph.D.; Wichita State U.; Texas A&M U.

Rizalia Klausmeyer, Ph.D., Senior Lecturer in Chemistry and Biochemistry and Director of Undergraduate Research (2000)  
B.S., Ph.D.; U. Puerto Rico-Rio Piedras; Texas A&M U.

Peter G. Klein, Ph.D., Professor and Chair of Entrepreneurship, Director of the Free Enterprise Program and holder of the W.W. Caruth Chair (2015)  
B.A., Ph.D.; U. of North Carolina, Chapel Hill; U. of California, Berkeley.

Benjamin A. Kleinerman, Ph.D., R.W. Morrison Professor in Political Science (2020)  
B.A., M.A., Ph.D.; Kenyan College; Michigan State; *ibid.*

Jill Klentzman, Ph.D., Senior Lecturer in Mechanical Engineering (2014)  
B.S., M.S., Ph.D.; U. of Mary-Hardin Baylor; Southern Methodist U.; *ibid.*

Hope A. Koch, Ph.D., Associate Professor of Information Systems and holder of the Godfrey R. Sullivan Jr. Professorship in Information Systems (1997-1999†, 2003)  
B.B.A., M.B.A., Ph.D.; U. of Mary Hardin-Baylor; Baylor U.; Texas A&M U.

Yunsuk Koh, Ph.D., Associate Professor of Health, Human Performance and Recreation and Director of Exercise Physiology (2013)  
B.S., M.S., M.S., Ph.D.; Kangwon National U.; Kangwon National U.; Mississippi State U.; Texas Woman's U.

Shane Koppenhaver, P.T., Ph.D., Clinical Professor in Physical Therapy (2017)  
M.P.T., Ph.D.; U.S. Army-Baylor; U. of Utah

Marion Kopulos, Ph.D., Clinical Assistant Professor in Nursing (2017)  
B.S.N., M.S.N., Ph.D.; U. of Texas at Arlington; Walden U.; *ibid.*

Michael F. Korpi, Ph.D., Professor of Film and Digital Media (1982)  
B.A., M.A., Ph.D.; Liberty Baptist College; U. of Iowa; *ibid.*

Panos Koutakis, Ph.D., Assistant Professor of Biology (2020)  
B.S., M.S., Ph.D.; Aristotle U.; U. of Omaha; U. of Nebraska Medical Center.

Scott Koziol, Ph.D., Associate Professor of Electrical and Computer Engineering and Assistant Chair (2013)  
B.S.E.E., M.S., M.S.M.E., Ph.D.; Cedarville U.; Iowa State U.; Georgia Institute of Technology; *ibid.*

Denny B. Kramer, Ph.D., Assistant Dean of Graduate Enrollment, Management and Academic Technology, Graduate School (2001)  
B.A., M.A., Ph.D.; Baylor U.; *ibid.*; Oklahoma State U.

Sergiy Kudelia, Ph.D., Associate Professor of Political Science (2012)  
B.A., M.A., Ph.D.; Ivan Franko Lviv National U.; Stanford U.; Johns Hopkins U.

Hajime Kumahata, M.M., Lecturer in Japanese and Director of Interactive Media and Language Center (2019)  
B.S., M.M., M.M.; Southwest Baptist U., Baylor U.; *ibid.*

Stephanie M. Kunst, Ph.D., Assistant Professor of Management (2018)  
B.A., Ph.D.; California State U. Fullerton; Michigan State U.

JaeHwan Kwon, Ph.D., Associate Professor of Marketing (2015)  
B.S., M.B.A., M.S., Ph.D.; Korea U.; Yonsei U.; New York U.; U. of Iowa.

Samuel H. Kye, Ph.D., Assistant Professor in Sociology (2021)  
B.A., M.A., Ph.D.; Wheaton College; Indiana Univ.; *ibid.*

## L

Mieke J. Lahousse, Ph.D., Lecturer in Chemistry and Biochemistry (2019)  
B.S., Ph.D.; Central U. Venezuela-Caracas; Baylor U.

Eric C. Lai, Ph.D., Professor of Music Theory (1994)  
Diploma, M.M., Ph.D.; Royal Scottish Academy of Music and Drama; Indiana U.; *ibid.*

Bradley E. Lail, Ph.D., Associate Professor and Chair of Accounting and Business Law (2011)  
B.B.A., M.B.A., Ph.D.; Baylor U.; *ibid.*; U. of Oklahoma.

Kayla Landeros, J.D., Legal Writing Lecturer (2019)  
B.A., J.D.; Texas A&M; Baylor U.

Maria G. Lang, Ph.D., Assistant Professor in Bilingual Education (2019)  
Lic., M.Ed., Ph.D.; Seguridad e Higiene Industrial; U. of Texas, Brownsville; U. of Illinois at Urbana-Champaign

Sebastian J. Langdell, Ph.D., Assistant Professor English (2018)  
B.A., M.St., M.A., Ph.D.; Vassar College; U. of Oxford, U. of Texas; U. of Oxford.

Beth A. Lanning, Ph.D., Associate Chair, Department of Public Health, MPH-Community Health Program Director, and Professor of Public Health (1999-2000†, 2000)  
B.S.Ed., M.S.Ed., Ph.D.; Baylor U.; *ibid.*; Texas A&M U.

Katherine M.J. Larson, Ph.D., Assistant Professor of Art History (2019)  
B.A., M.A., Ph.D.; U. of Michigan; John Hopkins U.; *ibid.*

Paul E. Larson, Ph.D., Professor of Spanish (1993)  
B.A., M.A., Ph.D.; Gustavus Adolphus College; Middlebury College; U. of Minnesota.

Amanda S. Lassetter, M.A., Lecturer in Theatre Arts (2015)  
B.F.A., M.A.; Baylor U.; *ibid.*

Shawn J. Latendresse, Ph.D., Associate Professor of Psychology and Neuroscience (2013)  
B.A., M.S., Ph.D.; Pacific Lutheran U.; Teachers College, Columbia U.; Columbia U.

Ramon Lavado, Ph.D., Assistant Professor of Environmental Science (2016)  
B.S., Ph.D.; U. of Barcelona; *ibid.*

Michelle L. Law, Ph.D., Assistant Professor of Nutrition Sciences (2020)  
B.A., M.S., Ph.D.; Concordia College Moorehead; Ohio State U. Columbus; *ibid.*

Wilson W. Law, Ph.D., Assistant Professor of Economics (2016)

B.S., M.S., Ph.D.; U. of Wisconsin, Madison; *ibid.*; *ibid.*

Tamara J. Lawrence, Ph.D., Senior Lecturer in Psychology and Neuroscience (1998)  
B.A. M.A., Ph.D.; Humboldt State U.; *ibid.*, U. of Louisville.

Jonathan N. Lawson, Ph.D., Lecturer in Biology (2019)  
B.S., Ph.D.; Baylor U.; U. of Texas Southwestern Medical School.

Karon N. LeCompte, Ph.D., Associate Professor of Curriculum and Instruction and Faculty-in-Residence of Allen and Dawson Halls (2010)  
B.S., M.A., Ph.D.; Sam Houston State U.; *ibid.*; U. of Texas.

Howard Lee, Associate Professor in Physics

Jeonghun John Lee, Ph.D., Assistant Professor of Mathematics (2018)  
B.S., M.S., Ph.D.; Seoul National U.; *ibid.*; U. of Minnesota.

Kwang Y. Lee, Ph.D., Professor and Chair of Electrical and Computer Engineering (2007)  
B.S., M.S., Ph.D.; Seoul National U.; North Dakota State U.; Michigan State U.

Min K. Lee, Ph.D., Assistant Professor of Management (2020)  
B.A., M.S., Ph.D.; Kangwon National U.; Clemson U.; *ibid.*

Myeongwoo Lee, Ph.D., Associate Professor of Biology (2002)  
B.S., M.S.; Ph.D.; Sung Kyun U.; Illinois State U.; *ibid.*

Dorothy E. Leidner, Ph.D., Professor of Information Systems and holder of the Randall W. and Sarah Ferguson Professorship, Director of the Center for Information Systems Research and Director of the Ph.D. Program in Information Systems (2002)  
B.A., M.B.A., Ph.D.; U. of Texas, Austin; *ibid.*; *ibid.*

Brianna P. Lemmons, Ph.D., Assistant Professor of Social Work (2018)  
B.A., M.S.W., Ph.D.; Spelman College; Howard Univ.; *ibid.*

Karen E. Leskoven, M.B.A., Senior Lecturer in Information Systems (2010)  
B.B.A., M.B.A.; Baylor U.; *ibid.*

Vincent W. Leung, Ph.D., Associate Professor of Electrical and Computer Engineering (2020)  
Eng. Hons., M. Eng. EE, Ph.D.; McGill U. (Montreal, Canada); *ibid.*; U. of California, San Diego.

Brian C. Leutholtz, Ph.D., FACSM, Professor of Health, Human Performance and Recreation (2002-2003†, 2003)  
B.S., M.A., Ph.D.; Michigan State U.; *ibid.*; *ibid.*

Marie N. Level, M.A., Senior Lecturer in French (1990)  
Diplome, M.A.; U. Jean Moulin-Lyon III; U. of Cincinnati.

Jeff Levin, Ph.D., University Professor of Epidemiology and Population Health, Professor of Medical Humanities, and Director, Program on Religion and Population Health (2009)  
A.B., M.Phil, Ph.D.; Duke U.; U. North Carolina Chapel Hill; U.T. Medical Branch.

Gregory G. Lewallen, M.A., Lecturer in Art (2015)  
B.F.A., M.A.; Baylor U.; Savannah College of Art and Design.

Joseph M. Li, M.M., Assistant Professor of Vocal Coaching (2016)  
B.M., M.M.; Manhattan School of Music; *ibid.*

Yang Li, Ph.D., Assistant Professor of Environmental Science (2021)

M.S., Ph.D.; Peking U.; U. of Michigan.

Yang Li, Ph.D., Associate Professor of Electrical and Computer Engineering (2011)  
B.S., M.S., Ph.D.; U. of Science and Technology of China; U. of Texas; U. of Texas.

Christine C. Limbers, Ph.D., Associate Professor of Psychology and Neuroscience and Graduate Program Director of Clinical Psychology (2010)  
B.A., Ph.D.; Santa Clara U., Texas A&M U.

Margo Moran Shanks, M.P.H., Lecturer in Public Health (2013)

B.S., M.P.H.; Baylor U.; *ibid.*

Neil Shanks, Ph.D., Clinical Assistant Professor of Middle and Secondary Education (2019)

B.S.Ed., M.S.Ed., Ph.D.; Baylor University; *ibid.*, University of Texas at Austin

Ryan M. Sharp, Ph.D., Assistant Professor of English (2019)

B.A., M.F.A., Ph.D.; Concordia U. (Portland); Pacific U.; U. of Texas

Lisa J. Shaver, Ph.D., Professor of English (2007)

B.A., M.A., Ph.D.; Hendrix College; Kennesaw State U.; Miami U.

Bryan F. Shaw, Ph.D., Professor of Chemistry (2010)

B.S., Ph.D.; Washington State U.; U. of California, Los Angeles.

Rebecca J. Sheesley, Ph.D., Associate Professor of Environmental Science (2010)

B.S., Ph.D.; Wheaton College; U. of Wisconsin-Madison.

H. Jennings Sheffield, M.F.A., Associate Professor of Art (2011-2012†, 2012)

B.F.A., M.F.A.; Atlanta College of Art; U. of Texas, San Antonio.

Zachary A. Sheldon, M.A., Lecturer in Film and Digital Media (2020)

B.A., M.A.; Geneva College; Baylor U.

Ryann N. Shelton, Ph.D., Lecturer in Curriculum and Instruction (2019)

B.A., M.Ed., Ph.D.; Texas A&M U.; *ibid.*; Baylor U.

Qin Sheng, Ph.D., Professor of Mathematics (2003, 2005)

B.S., M.S., Ph.D.; Nanyang; *ibid.*; U. of Cambridge.

Andrea Shepherd, D.N.P., Clinical Instructor in Nursing (2020)

B.S.N., D.N.P.; U. of Virginia, Charlottesville; U. of Maryland, Baltimore

Susan L. Sherman, M.S., Senior Lecturer and Graduate Program Director of Communication Sciences and Disorders (2005)  
B.S., M.S.; Hardin-Simmons U.; U. of Wyoming.

Holly G. Shi, M.A., Senior Lecturer in Chinese (2010)  
B.A., P.B., M.A.; Zhejiang Normal U., Tsinghua U.; U. of York.

Patricia Shih, B.M., Artist Diploma, Associate Professor of Violin (2019)  
B.M., A.D.; U. of Toronto; Indiana U.

Jaeho Shim, Ph.D., Associate Professor of Health, Human Performance and Recreation (1999)  
B.S., M.S., Ph.D.; Yonsei U.; U. of Illinois; *ibid.*

Deborah Shirey, D.N.P., Clinical Associate Professor in Nursing (2019)  
B.A., M.N.Sc., D.N.P.; Southern Arkansas U.; U. of Arkansas for Medical Sciences; Loyola U.

Ann Shoemaker, D.M.A., Assistant Professor of Bassoon and Coordinator of Woodwinds (2009)  
B.M., M.M., D.M.A.; Furman U.; Yale U.; U. of North Carolina at Greensboro.

Jacob P. Shores-Argüillo, Ph.D., Assistant Professor of English (2019)  
B.A., M.F.A., Ph.D.; U. of Central Oklahoma; U. of Arkansas; Texas Tech U.

Lauren J. Short, Ph.D., Lecturer in English and Associate Director of the University Writing Center (2020)  
B.A., M.A., Ph.D.; U. of Louisville; *ibid.*; U. of New Hampshire.

Kevin L. Shuford, Ph.D., Professor of Chemistry and Co-Graduate Program Director (2012)  
B.S., Ph.D.; U. of North Carolina, Wilmington; U. of Florida.

Amanda Sigler, Ph.D., Assistant Professor of English (2019)  
B.A., Ph.D.; U. of Tulsa; U. of Virginia

Stephen Silverstein, Ph.D., Associate Professor of Spanish and Graduate Director of Spanish (2012)  
B.A., B.S., M.A., Ph.D.; Rutgers U.; *ibid.*; U. of Virginia; *ibid.*

Cheolho Sim, Ph.D., Associate Professor of Biology (2010)  
B.S., M.S., Ph.D.; Korea U.; *ibid.*; U. of Notre Dame.

Brian L. Simanek, Ph.D., Associate Professor in Mathematics (2015)  
B.A., Ph.D.; Williams College; California Institute of Technology.

Dwayne D. Simmons, Ph.D., Professor and Chair of Biology and The Cornelia Marschall Smith Endowed Professor in Biology (2016)  
B.S., Ph.D.; Pepperdine U.; Harvard U.

Abhendra K. Singh, Ph.D., Assistant Professor of Mechanical Engineering (2019)  
B.Tech., M.S., Ph.D.; Indian Institute of Technology; Syracuse U.; *ibid.*

Jon E. Singletary, Ph.D., Dean and Professor in Social Work, and the Diana R. Garland Endowed Professor in Child and Family Studies (2003)  
B.A., M.Div., M.S.W., Ph.D.; Baylor U.; Baptist Theological Seminary at Richmond; Virginia Commonwealth U.; *ibid.*

Carolyn T. Skurla, Ph.D., Associate Professor of Mechanical Engineering (2002)  
B.S., Ph.D.; Texas A&M U.; Colorado State U.

Amy M. Sloan, Ed.D., Lecturer in Curriculum and Instruction (2021)

B.A., M.A., Ed.D.; Baylor U.; U. of Tennessee, Knoxville; Argosy U.

Stephen M. Sloan, Ph.D., Associate Professor of History and Director of the Institute for Oral History (2007)  
B.B.A., M.A., Ph.D.; Baylor U.; *ibid.*; Arizona State U., Tempe.

Cory M. Smith, Ph.D., Assistant Professor of Health, Human Performance and Recreation (2022)  
B.S., M.S., Ph.D.; Cal. State U.; U. of Nebraska; *ibid.*

David A. Smith, Ph.D., Senior Lecturer in History (2002)  
B.A., M.A., Ph.D.; Southwest Texas State U.; *ibid.*; U. of Missouri, Columbia.

Douglas E. Smith, Ph.D., Associate Professor of Mechanical Engineering (2013)  
B.S., B.S., M.S., Ph.D.; Illinois College; Washington U.; Binghamton U.; State University of New York; U. of Illinois

R. Alden Smith, Ph.D., Professor of Classics, Associate Dean of the Honors College, Master Teach, and The Cornelia Marschall Smith Distinguished Professor (1994)  
B.A., M.A., Ph.D.; Dickinson College; U. of Vermont; U. of Pennsylvania.

Touradj Solouki, Ph.D., Professor of Chemistry (2011)  
B.S., Ph.D.; U. of Texas, Tyler; Texas A&M U.

LTC Brandon R. Soltwisch, M.A., Chair of Military Science (2021)  
B.A., M.A.; Washington State; Teacher College, Columbia University

Meagan Soltwisch, D.N.P., Clinical Assistant Professor in Nursing (2021)  
B.S.N., M.S.N., D.N.P.; Washington State U.; Gonzaga U.; *ibid.*

Eunjee Song, Ph.D., Associate Professor of Computer Science (2006)  
B.E., M.S., Ph.D.; Seoul National U. Korea; Colorado State U.; *ibid.*

Joon Jin Song, Ph.D., Professor of Statistical Science (2013)  
B.S., M.S., Ph.D.; Yeungnam U.; Kyungpook National U.; Texas A&M U.

Kristle Soto, M.S., Clinical Assistant Professor in Communication Sciences and Disorders (2019)  
B.S., M.S.; Baylor U.; U. of Texas Dallas.

Lizbeth Souza-Fuertes, Ph.D., Associate Professor of Spanish and Portuguese and Director of Latin American Studies Program (1997)  
B.A., M.A., Ph.D.; Federal U. of Rio Grande do Sul; U. of Georgia; *ibid.*

Gregory D. Speegle, Ph.D., Professor of Computer Science (1990)  
B.S., Ph.D.; Baylor U.; U. of Texas.

Anne M. Spence, Ph.D., Clinical Associate Professor in Mechanical Engineering and Assistant Chair (2017)  
B.S., M.S., Ph.D.; U. of Missouri-Rolla; U. of Texas- Arlington; U. of Maryland - College Park.

Lori A. Spies, Ph.D., Associate Professor of Nursing (2004-2014†, 2014)  
B.S., M.S., Ph.D.; Texas Woman's U.; *ibid.*; U. of Texas, Arlington.

Scott F. Spinks, Ph.D., Senior Lecturer in Spanish (2010)  
B.A., M.S., Ph.D.; Hendrix College; Middlebury College; U. of Texas.

Rishi R. Sriram, Ph.D., Associate Professor of Educational Leadership (2010)  
B.A., M.S., Ph.D.; Baylor U.; *ibid.*, Azusa Pacific U.

John M. Ssozi, Ph.D., Clinical Associate Professor in Economics (2011)

B.S., M.S., Ph.D.; Uganda Martyrs U.; Marquette U.; U. of Wisconsin

Devan J. Stahl, Ph.D., Assistant Professor of Religion, Affiliated Faculty, Program in Medical Humanities (2019)  
B.A., M.Div., Ph.D.; U. of Virginia; Vanderbilt Divinity School; Saint Louis U.

James D. Stamey, Ph.D., Professor and Chair of Statistical Science (2005)  
B.S., M.B.A., Ph.D.; Northwestern State U.; Baylor U.; *ibid.*

Jaclyn Standing, D.N.P., Clinical Assistant Professor in Nursing (2019)  
B.S.N., M.S.N., D.N.P.; Madonna U.; *ibid.*; Vanderbilt U.

Charles W. Stanley, Ph.D., Associate Professor of Accounting (1983)  
B.A., M.B.A., M.P.A., Ph.D.; U. of Texas; U. of Montana; U. of Texas, Arlington; Oklahoma State U.

Rodney Stark, Ph.D., University Professor of Social Sciences and Co-Director of the Institute for Studies of Religion (2004)  
B.A., M.A., Ph.D.; U. of Denver; U. of California, Berkeley; *ibid.*

Jeffrey A. Steely, M.L.I.S., Associate Dean and Director of Central Libraries (1999)  
B.A., M.L.I.S.; Bethel College; U. of Texas, Austin.

Kathryn S. Steely, D.M., Associate Professor Viola (1994-1996†, 1996)  
B.A., M.M., D.M.; Bethel College; The Cleveland Institute of Music; Northwestern U.

Michael A. Stegemoller, Ph.D., Professor of Finance, Insurance, and Real Estate and holder of The Harriett L. and Walter G. Lacy, Jr. Chair of Banking (2010)  
B.A., M.B.A., Ph.D.; Abilene Christian U.; Baylor U.; U. of Georgia.

Jen Stephenson, Clinical Assistant Professor in Vocal Studies (2020)  
B.A., B.A., M.M., D.M.A.; U. of Massachusetts, Amherst; Westfield State U.; U. of South Florida; U. of Alabama

Brandon Sterrett, M.F.A., Lecturer in Theatre Arts (2020)  
B.F.A., M.F.A.; Southern Methodist U.; Commonwealth U.

Angela Stewart, D.N.P., Clinical Assistant Professor in Nursing (2021)  
A.D.N., B.S.N., M.S.N., M.S.N., D.N.P.; Northwest Arkansas Community College, U. of Arkansas for Medical Sciences; *ibid.*; U. of Arkansas, Fayetteville, *ibid.*

Janice A. Stewart, M.S., Senior Lecturer in Communication Sciences and Disorders (1993)  
B.A., M.S.; Baylor U.; *ibid.*

Michele Stover, Ph.D., Lecturer in Chemistry (2020)  
B.S., Ph.D.; William Carey U.; U. of Alabama

Joshua K. Strakos, Ph.D., Clinical Assistant Professor of Management (2016)  
B.S., M.B.A., Ph.D.; Wayland Baptist U.; U. of Kansas; U. of Houston.

Martin T. Stuebs, Jr., Ph.D., Associate Professor of Accounting and holder of the R.E. and Marilyn Reamer Professorship in Accounting (2005)  
B.B.A., M.A., Ph.D.; U. of Wisconsin, Whitewater; U. of Wisconsin, Madison; U. of Arkansas, Fayetteville.

April J. Stull, Ph.D., Associate Professor of Nutrition Sciences (2020)  
B.S., Ph.D.; Southern U. and A&M College; Purdue U.

Rodney X. Sturdivant, Ph.D., Associate Professor of Statistical Science and Director of Statistical Consulting Center (2020)

B.S., M.S., Ph.D.; West Point; Stanford; U. of Massachusetts.

Tracey N. Sulak, Ph.D., Clinical Assistant Professor of Educational Psychology (2013)  
B.A., M.Ed., Ph.D.; U. of Houston; U. of North Texas; Baylor U.

Michael J. Sullivan, M.F.A., Associate Professor of Theatre Arts (2012)  
B.F.A., M.F.A.; U. of Oklahoma; Southern Methodist U.

Yulia W. Sullivan, Ph.D., Assistant Professor of Information Systems (2018)  
B.E.C., M.B.A., Ph.D.; Bina Nusantara U.; Chosun U.; U. of North Texas.

Eleonora Boscolo Suteu, Ph.D., Lecturer in Italian (2022)  
Laurea, M.A., Ph.D.; Università CàFoscari; The Ohio State U.; U. of Connecticut

Erika Sutton, PT, DPT, FAAOMPT, Clinical Assistant Professor in Health, Human Performance and Recreation (2020)  
B.S., D.P.T.; Texas A&M; Texas Tech U.

Meredith Sutton, M.F.A., Senior Lecturer in Theatre Arts (2006)  
B.F.A., M.F.A.; West Texas A&M U.; Baylor U.

Eric L. Swan, D.B.A., Clinical Assistant Professor of Marketing (2019)  
B.S., M.B.A., D.B.A.; Winona State U.; Capella U.; U. of Wisconsin Whitewater.

Julie A. Sweet, Ph.D., Professor of History (2002)  
B.A., M.A., Ph.D.; U. of Notre Dame; U. of Richmond; U. of Kentucky.

## T

Sandra Talbert, Ed.D., Clinical Assistant Professor of Curriculum and Instruction (2017)  
B.A., M.Ed., Ed.D.; Stephen F. Austin State U.; Sam Houston State U.; Tarleton State U.

Tony L. Talbert, Ed.D., Professor of Curriculum and Instruction (2002)  
B.A., M.A., Ed.D.; Stephen F. Austin U.; Baylor U.; U. of Houston.

James Tandy, M.D., Clinical Professor of Biology (2005)  
B.S., M.D.; Baylor U.; U. of Texas Southwestern Medical School.

Kevin N. Tankersley, M.A., Senior Lecturer in Journalism, Public Relations and New Media (2006)  
B.B.A., M.A.; Baylor U.; U. of Arkansas, Little Rock.

Lynn Tatum, Ph.D., Senior Lecturer in Baylor Interdisciplinary Core and Religion in the Honors College (1986)  
B.A., Ph.D.; Baylor U.; Duke U.

Joseph H. Taube, Ph.D., Assistant Professor of Biology and Graduate Program Director (2015)  
B.S., Ph.D.; Baylor U.; UT Health Science Center-MD Anderson Cancer Center

Edward J.F. Taylor, Ph.D., Senior Lecturer in Music Theory (2006)  
B.M., M.A., Ph.D.; Rutgers U; *ibid.*; *ibid.*

Mark F. Taylor, Ph.D., Associate Professor of Biology (1985)  
B.S., M.S., Ph.D.; Stephen F. Austin State U.; *ibid.*; Texas A&M U.

Leah Teague, J.D., Professor of Law (1989)  
B.B.A., J.D.; Baylor U.; *ibid.*

Alec Tefertiller, Ph.D., Assistant Professor of Journalism, Public Relations and New Media (2020)

B.F.A., M.A., Ph.D.; Florida State U.; U. of Houston; U. of Oregon.

Elon J. Terrell, Ph.D., Senior Lecturer in Mechanical Engineering (2017)

B.S., M.S., Ph.D.; U. of Texas, Austin; *ibid*; Carnegie Mellon U.

Ann M. Theriot, M.A., Clinical Assistant Professor of Interior Design (2018)

B.S.F.C.S., M.A.; Baylor U.; U. of Buckingham.

Alexandre Thiltges, Ph.D., Senior Lecturer of French (2009)

B.A., M.A., Ph.D.; Nanterre U., France; Sorbonne U., France; *ibid*.

J. Brian Thomas, M.S.E.E., Senior Lecturer in Electrical and Computer Engineering and Faculty-In-Residence in Teal Residential College (2001)

B.S., M.S.E.E.; Stephen F. Austin State U.; U. of Houston.

Timothy S. Thomasson, M.Tax., Clinical Associate Professor of Accounting and Graduate Program Director (2008)

B.B.A., M.Tax.; Baylor U.; *ibid*.

Michael W. Thompson, Ph.D., Professor of Electrical and Computer Engineering and Associate Dean for Undergraduate Programs (1999)

B.S.E.E., M.S.E.E., Ph.D.; Texas A&M U.; *ibid*; *ibid*.

Margaret S. Thomson, M.Ed., Senior Lecturer in Curriculum and Instruction (2002)

B.A., M.Ed.; Baylor U.; U. of Houston.

Bradley J.B. Toben, J.D., LL.M., Dean and M.C. & Mattie Caston Chair of Law (1983)

B.A., J.D., LL.M.; U. of Missouri; Baylor U.; Harvard U.

Sarah Tomek, Ph.D., Associate Professor in the Quantitative Methods program in the Department of Educational Psychology (2019)

M.A., Ph.D.; U. of Illinois at Urbana-Champaign; *ibid*

DeAnna M. Toten Beard, Ph.D., Professor and Chair of Theatre Arts (2002)

B.A., M.F.A., Ph.D.; Mary Washington College; State U. of New York, Stony Brook; Indiana U., Bloomington.

Sha Towers, M.L.I.S., Associate Librarian, Director of Liaison Services (2003)

B.M., M.M., M.L.I.S.; Baylor U.; *ibid*, U. of Texas, Austin.

Michael A. Trakselis, Ph.D., Professor of Chemistry and Biochemistry and Co-Graduate Program Director (2014)

B.S., M.S., Ph.D.; U. of Illinois; *ibid*; Pennsylvania State U.

Jonathan Tran, Ph.D., Associate Professor of Religion, Holder of the George W. Baines Professorship in Religion (2006)

B.A., M.Div., Ph.D.; U. of California, Riverside; Duke Divinity School, Durham; Duke U., The Graduate School, Durham.

Mary Lynn Trawick, Ph.D., Associate Professor of Chemistry and Biochemistry (1983)

B.S., Ph.D.; U. of Michigan; Case Western Reserve U.

Jonathan K. Trower, Ph.D., Associate Professor and Chair of Information Systems (1986)

B.A., M.B.A., Ph.D.; Drury College; Baylor U.; U. of Minnesota.

Stephen J. Trumble, Ph.D., Associate Professor of Biology (2008)

B.S., M.S., Ph.D.; Texas State U.; California State U., Fresno; U. of Alaska, Fairbanks.

Jo-Ann Tsang, Ph.D., Associate Professor of Psychology and Neuroscience (2002)

B.A., M.A., Ph.D.; U. of California, Berkeley; U. of Kansas; *ibid*.

Lingjiang (Lora) Tu, Ph.D., Clinical Associate Professor of Marketing (2014)

B.A., M.A., Ph.D.; N. China U.; U. of Central Florida; U. of Texas at San Antonio.

Jack D. Tubbs, Ph.D., Professor Statistical Science (2003)

B.S., M.S., Ph.D.; Eastern New Mexico U.; Texas Tech U.; *ibid*.

Cheryl A. Tucker, D.N.P., Clinical Associate Professor of Nursing (2005)

B.S., M.S.N., D.N.P.; Baylor U.; Georgia College & State U.; U. of Nevada, Las Vegas

Carolyn Turner, M.B.A., Senior Lecturer in Information Systems and Quantitative Business Analysis (1983)

B.B.A., M.B.A.; Baylor U.; *ibid*.

Andrea L. Turpin, Ph.D., Associate Professor of History and Interim Graduate Program Director (2011)

A.B., Princeton U.; Gordon-Conwell Theological Seminary; Ph.D., U. of Notre Dame.

## U

David M. Uber, Ph.D., Professor of French (1976)

A.B., M.A., Ph.D.; Hamilton College; Rice U.; *ibid*.

Jeremy E. Uecker, Ph.D., Associate Professor Sociology (2012)

B.A., M.A., Ph.D.; Furman U.; U. of Texas; *ibid*.

M. Renee Umstattd-Meyer, Ph.D., Robbins College Associate Dean for Research and Professor in Public Health (2010)

B.S., M.S., Ph.D.; Baylor U.; U. of Mississippi; U. of South Carolina, Columbia.

James M. Underwood, J.D., Professor of Law (2006)

B.A., J.D.; Oklahoma Baptist U.; Ohio State U.

Shane E. Underwood, Ph.D., Associate Professor and Chair of Finance and holder of The Pat and Thomas R. Powers Chair of Investment in Management (2016)

B.S., M.A., Ph.D.; U. of Alabama; U. of Pennsylvania; *ibid*.

Casey Unverzagt, D.P.T., Clinical Associate Professor in Physical Therapy (2021)

B.S., D.P.T., D.Sc.; U. of Puget Sound, Tacoma; Slippery Rock U.; Andrews U.

Laura Upenieks, Ph.D., Assistant Professor of Sociology (2020)

HBSc., M.A., Ph.D.; Univ. of Toronto; *ibid*; *ibid*.

Angela Urick, Ed.D., Educational Leadership (2020)

B.A., M.S., Ed.D.; St. Mary's U.; Walden U.; The U. of Texas, San Antonio

Samuel S. Urlacher, Ph.D., Assistant Professor of Anthropology (2019)

A.B., A.M., Ph.D.; Brown U.; Harvard U.; *ibid*.

Sascha Usenko, Ph.D., Associate Professor of Environmental Science (2008)

B.S., Ph.D.; Oregon State U.; *ibid*.

## V

Jamie Van Eyck, D.M.A., Assistant Professor of Voice, Division Director of Vocal Studies and holder of the Charles W. Evans Chair in Voice (2013)  
B.M., M.M., D.M.A.; U. of Wisconsin-Madison; New England Conservatory of Music; U. of Wisconsin-Madison.

Christian van Gorder, Ph.D., Associate Professor of Religion (2004)  
B.A., M.A., Ph.D.; Oral Roberts U.; Asbury Theological Seminary; Queen's U. of Belfast, Ireland.

Kenneth W. Van Treuren, D.Phil., Professor of Mechanical Engineering and Associate Dean for Research and Faculty Development (1998)  
B.S., M.S.E., D.Phil.; USAF Academy; Princeton U.; U. of Oxford, UK.

David D. VanHoose, Ph.D., Professor of Economics and holder of The Herman W. Lay Chair of Private Enterprise (2001)  
B.A., Ph.D.; Indiana U.; U. of North Carolina, Chapel Hill.

Scott J. Varda, Ph.D., Associate Professor of Communication (2007)  
B.S., Ph.D.; Illinois State U.; The U. of Iowa.

John A. Vasut, Ph.D., Senior Lecturer in Physics (2002)  
B.S., Ph.D.; Baylor U.; *ibid.*

Benna Vaughan, M.A., Assistant Librarian and Special Collections and Manuscripts (2012)  
B.A., M.A.; U. of Texas, Arlington; U. of Texas, Arlington.

Tanya R. Vernon, M.A., Lecturer, English for Academic Purposes in Global Gateway Program (2019)  
B.A., M.A.; Mississippi College; U. of Texas, Arlington.

Elisabeth G. Vichaya, Ph.D., Assistant Professor of Psychology and Neuroscience (2019)  
B.S., M.S., Ph.D.; Wayland Baptist U.; Texas A&M U.; *ibid.*

Katy Vogelaar, DNP-FNP, Clinical Instructor in Nursing (2021)  
B.S.N., D.N.P.-F.N.P.; Baylor U.; *ibid.*

Annette von Jouanne, Ph.D., Professor of Electrical and Computer Engineering (2017)  
B.S., M.S., Ph.D.; Southern Illinois U.-Carbondale; *ibid.*; Texas A&M U.

## W

Sharon Wagner, D.N.P., Clinical Instructor in Nursing (2021)  
B.S.N., M.S.N., D.N.P.; Florida State U.; Tallahassee; U. of Alabama, Birmingham; *ibid.*

Debra M. Wainscott, M.S., Lecturer, English for Academic Purposes in Global Gateway Program (2020)  
B.S., M.A.; East Texas Baptist U.; U. of Texas, Arlington.

Kirk L. Wakefield, Ph.D., Professor of Marketing and holder of The Edwin W. Streetman Professorship in Retail Marketing (2002)  
B.A., M.B.A., Ph.D.; Southwest Baptist U.; Baylor U.; Saint Louis U.

Lane T. Wakefield, Ph.D., Clinical Assistant Professor of Marketing and Sports, Strategy and Sales Director (2020)  
B.B.A., M.S., Ph.D.; Howard Payne U.; Baylor U.; Texas A&M U.

Robin L. Wakefield, Ph.D., Professor of Information Systems (2002)  
B.S., M.Tax., Ph.D.; Southwest Baptist U.; U. of Mississippi; *ibid.*

Daniel Walden, Ph.D., Associate Professor of English (2010)

B.A., M.A., Ph.D.; U. of North Carolina, Chapel Hill; U. of North Carolina, Wilmington; U. of Mississippi.

Sarah Walden, Ph.D., Associate Professor in the Baylor Interdisciplinary Core and Assistant Director of the University Scholars Program in the Honors College (2013)  
B.A., M.A., Ph.D.; Baylor U.; U. of Mississippi; *ibid.*

Robin Wallace, Ph.D., Professor of Musicology (2003)  
B.A., M.Phil., Ph.D.; Oberlin College; Yale; *ibid.*

Randall L. Waller, Ph.D., Clinical Associate Professor of Business Communication (1989)  
B.A., M.A., M.A., Ph.D.; Texas Tech U.; *ibid.*; West Texas State U.; Texas A&M U.

Christina C. Walter-Gensler, Ph.D., Lecturer in German (2016)  
B.A., B.A., M.A., Ph.D.; Fachhochschule; Pädagogische Hochschule; U. of Florida; U. of Texas.

Anzhong Wang, Ph.D., Professor of Physics (2003)  
B.S., M.S., Ph.D.; Shandoug Normal U.; Northwest Normal U.; U. of Ioannina.

Liang Wang, MD, DrPH, MPH, Associate Professor and Director of Epidemiology (2020)  
M.D., M.P.H., Dr.PH.; Wuhan University of Science and Technology; Epidemiology, East Tennessee State University; Epidemiology East Tennessee State University.

Xin Wang, Ed.D., Associate Professor of Chinese and Interim Division Director of Asian and African Languages (2002-2003†, 2003)  
B.A., M.S.Ed., Ed.D.; Shaanxi Business and Economics Institute; Baylor U.; *ibid.*

Xunyi Wang, Ph.D., Assistant Professor of Information Systems (2020)  
B.S., M.S., Ph.D.; Central South U.; Changsha, China; SUNY-Buffalo; *ibid.*

Ann M.F. Ward, Ph.D., Professor of Political Science (2017)  
B.A., M.A., Ph.D.; U. Toronto; Brock U.; Fordham U.

Bennie F.L. Ward, Ph.D., Distinguished Professor of Physics (2003)  
B.S., Massachusetts Institute of Technology; M.A., Princeton U.; Ph.D., *ibid.*

Lee A. Ward, Ph.D., Professor of Political Science (2017)  
B.A., U. Toronto; M.A., Brock U.; Ph.D., Fordham U.

Thomas M. Ward, Ph.D., Associate Professor in Philosophy and Undergraduate Program Director (2017)  
B.A., M.Phil., Ph.D.; Biola U.; U. Oxford; U. California Los Angeles

Zachary A. Ward, Ph.D., Assistant Professor of Economics (2018)  
B.A., Ph.D.; Wheaton College; U. of Colorado Denver.

Daniel J. Watkins, Ph.D., Assistant Professor of History (2017)  
B.A., M.A., Ph.D.; U. Florida; *ibid.*; Ohio State U.

Adam Weaver, M.S., Clinical Assistant Professor in Electrical and Computer Engineering (2020)  
B.S., M.S.; Baylor U.; Air Force Institute of Technology

C. Douglas Weaver, Ph.D., Professor and Chair of Religion, and Director of the Baptist Studies Center for Research (2003)

B.A., M.Div., Ph.D.; Mississippi College; The Southern Baptist Theological Seminary; *ibid.*

William P. Weaver, Ph.D., Associate Professor of Literature in the Honors College (2007)  
B.A., M.A., Ph.D.; Vanderbilt U.; Columbia U.; *ibid.*

Charles A. Weaver, III, Ph.D., Professor and Chair of Psychology and Neuroscience and Master Teacher (1989)  
B.S., M.A., Ph.D.; Baylor U.; U. of Colorado; *ibid.*

Lauren M. Weber, M.F.A., Lecturer in Theatre Arts (2014)  
B.M., M.M., M.F.A.; U. of Oklahoma; Minnesota State U.; *ibid.*

Sharon Weiner, Ph.D., Lecturer in German (2019)  
B.S., M.P.H., M.S., Ph.D.; Stanford U., Columbia U.- NY; *ibid.*; U. of Illinois, Chicago.

Nadine M. Welch, M.S., Clinical Assistant Professor in Communication Sciences and Disorders (2016)  
B.S., M.S., Baylor U.; *ibid.*

James E. West, Ph.D., Professor of Economics and holder of The W. H. Smith Professorship in Economics (2011)  
B.A., M.A., Ph.D.; U. of Denver; U. of Michigan; *ibid.*

Matthew Whelan, Ph.D., Assistant Professor of Moral Theology in the Honors Program (2021)  
B.A., M.Sc., M.T.S., Ph.D.; U. of Virginia; Centro Agronómico Tropical de Investigación y Enseñanza (Tropical Agriculture Research and Higher Education Center); Duke Divinity School; Duke University

Lynn Whitcomb, Ph.D., Senior Lecturer in Arabic (2015)  
B.A., M.A., Ph.D.; Kalamazoo College; Northwestern U.; *ibid.*

David J. White, Ph.D., M.L.I.S., Senior Lecturer in Classics (2004)  
B.A., M.A., M.L.I.S., Ph.D.; U. of Akron; U. of Pennsylvania; Kent State U.; U. of Florida.

Greg White, J.D., Legal Writing Lecturer (2016)  
B.A., J.D.; Baylor U.; *ibid.*

Joseph D. White, Ph.D., Professor of Biology (2020)  
B.A., M.S., Ph.D.; Texas Christian U.; *ibid.*; U. of Montana.

Michael R. Whinton, Ph.D., Lecturer in the Baylor Interdisciplinary Core (2020)  
B.S., Th.M., Ph.D.; Texas A&M U.; Dallas Theological Seminary; Baylor U.

David M. Whitford, Ph.D., Professor of Religion (2013)  
B.A., M.Div., Ph.D.; U. of Massachusetts; Princeton Theological Seminary; Boston U.

Jason A. Whitlark, Ph.D., Profess in Baylor Interdisciplinary Core and Religion, and Faculty Assistant Director of the Baylor Interdisciplinary core in the Honors College (2006†, 2007, 2008)  
B.S., M.Div., Ph.D.; Auburn U.; Southwestern Baptist Theological Seminary; Baylor U.

Jason D. Whitt, Ph.D., Senior Lecturer of Medical Humanities in the Honors Program, Faculty Steward of the Honors Residential College, and Faculty-in-Residence in Alexander Hall and Memorial Hall (2018)  
B.A., M.Div., Ph.D.; Baylor U.; Southwestern Baptist Theological Seminary; Baylor U.

Michael P. Wiggs, Ph.D., Assistant Professor of Health, Human Performance and Recreation (2020)  
B.S., Ph.D.; Texas A&M U.; *ibid.*

Breanne Wilburn, M.S.N., Clinical Assistant Professor in Nursing (2018)  
B.S.N., M.S.N.; Liberty U.; U of Texas at Arlington

Walter M. Wilcox, Ph.D., Professor of Physics (1986)  
B.S., Ph.D.; Southern Methodist U.; U. of California, Los Angeles.

Stanley R. Wilfong, Jr., M.S., R.D., Senior Lecturer of Nutrition Sciences (2013)  
B.S., M.S.; Texas Tech U.; *ibid.*

Trena L. Wilkerson, Ph.D., Professor of Curriculum and Instruction (1999)  
B.S., M.Ed., Ph.D.; Mississippi College; Southeastern Louisiana U.; U. of Southern Mississippi.

Danielle M. Williams, Ph.D., Senior Lecturer in English and Director of the Core (2014)  
B.A., Ph.D.; Azusa Pacific U.; Baylor U.

Matthea S. Williams, Ed.D., Associate Clinical Professor of Health, Human Performance and Recreation (2012)  
B.S., M.S., Ed.D.; Gardner-Webb U.; Indiana State U.; Gardner-Webb U.

Deborah K. Williamson, D.M.A., Associate Professor of Voice (2000-2001†, 2001)  
B.M., M.M., D.M.A.; Baylor U.; U. of Cincinnati, College-Conservatory of Music; U. of North Texas.

J. Eric Wilson, D.M.A., Professor of Ensembles and Director of Banks (2006)  
B.M.E., M.M., D.M.A.; Abilene Christian U.; U. of Michigan; *ibid.*

John E. Wilson, Ph.D., Clinical Professor of Educational Leadership (2010)  
B.M., M.M., Ph.D.; Hardin-Simons U.; Baylor U.; Texas A&M U.

John S. Wilson, M.L.S., Associate Professor, Associate Dean of Special Collections, and Director of the Texas Collection (1987)  
B.S., M.L.S.; Bowling Green State U.; U. of South Carolina.

Patricia A. Wilson, J.D., Associate Dean and Professor of Law (1993)  
B.A., J.D.; Purdue U.; Northwestern U.

Zachary D. Wingerd, Ph.D., Senior Lecturer in History (2012)  
B.A., M.A., Ph.D.; LeTourneau U.; U. of Texas, Arlington; *ibid.*

Luke Winslow, Ph.D., Assistant Professor of Communication (2020)  
B.A., M.A., Ph.D.; Azusa Pacific U.; Cal State Fullerton; The U. of Texas at Austin.

Andrew C. Wisley, Ph.D., Associate Professor of German (2003)  
A.B., M.A., Ph.D.; Wheaton College; Washington U.; *ibid.*

Mary M. Witte, Ed.D., Senior Lecturer in Curriculum and Instruction (1999)  
B.S., M.S.Ed., Ed.D.; Baylor U.; *ibid.*; *ibid.*

Jennifer Woo, Ph.D., Clinical Assistant Professor of Nursing (2016)  
B.S.N., M.S.N.; U. of Pennsylvania; *ibid.*

John L. Wood, Ph.D., Robert A. Welch Distinguished Professor and Chair in Chemistry and CPRIT Scholar in Cancer Research (2013)  
B.A., Ph.D.; U. of Colorado; U. of Pennsylvania.

Matthew S. Wood, Ph.D., Associate Professor and holder of the Robert M. and Louise Rogers Chair in Entrepreneurship (2012)

B.A., M.B.A., Ph.D.; Eureka College; Bradley U.; Southern Illinois U.

Sinai P. Wood, M.L.S., Associate Professor and Documents Librarian (1990)  
B.B.A., M.L.S.; Baylor U.; Texas Woman's U.

Margaret E. Woody, Ph.D., Director of All Level Physical Education and Director of Health, Kinesiology, and Leisure Studies (1976)  
B.S.Ed., M.S.Ed., Ph.D.; Baylor U.; *ibid.*; U. of Tennessee.

Rachel C. Woods, J.D., Clinical Assistant Professor in Management (2015)  
B.A., J.D.; Baylor U.; St. Mary's U. School of Law.

Alisha M. Wray, Ph.D., Clinical Assistant Professor and Clinical Director of Psychology and Neuroscience (2017)  
B.A., M.S., Ph.D.; U. of New Mexico; *ibid.*; *ibid.*

James E. Wren, J.D., Leon Jaworski Chair of Practice and Procedure (2006)  
M.A., J.D.; U. of Kent; Baylor U.

J. Lenore Wright, Ph.D., Associate Professor in Baylor Interdisciplinary Core and Philosophy in the Honors College and Director of the The Academy for Teaching and Learning (1999-2003†, 2003)  
B.A., M.A., Ph.D.; Morehead State U.; Baylor U.; State U. of New York, Buffalo.

Michael W. Wright, M.B.A., Clinical Assistant Professor of Management (2017)  
B.S., M.B.A.; Friends U.; *ibid.*

Lori B. Wrzesinski, M.S., Senior Lecturer in American Sign Language and Director of American Sign Language Programs (1994)  
B.A., M.S.; U. of Texas, Arlington; Baylor U.

Ju-Chien (Cindy) Wu, Ph.D., Professor of Management and Associate Dean for Diversity and Inclusion (2003)  
B.B.A., M.B.A., M.A., Ph.D.; National Taiwan U.; National Sun Yat-Sen U.; U. of Illinois, Urbana-Champaign; *ibid.*

Qinxu Wu, Ph.D., Assistant Professor of Finance (2017)  
B.A., M.Sc., M.Sc., Ph.D.; Nankai U.; *ibid.*; Georgia Institute of Technology; Georgia State U.

Christopher Wynveen, Ph.D., Associate Professor of Health, Human Performance and Recreation (2010)  
B.S., M.S., Ph.D.; U. of Illinois-Urbana; Clemson U.; Texas A&M U.

## X

Betty Xing, Ph.D., Assistant Professor of Accounting and Business Law (2020)  
B.B.A., B.Math, M.Tax, Ph.D.; Wilfred Laurier U.; U. of Waterloo; *ibid.*; *ibid.*

## Y

Jiaju (Justin) Yan, Ph.D., Assistant Professor of Entrepreneurship (2020)  
B.A., M.B.A., Ph.D.; U. of International Business and Economics, Beijing; Seton Hall U.; U. of Tennessee.

Gaynor I. Yancey, D.S.W., Professor of Social Work and Master Teacher, Director of the Center for church and Community Impact and Lake Family Endowed Chair in Congregational and Community Health (1999)  
B.A., M.R.E., M.S.W., D.S.W.; East Texas Baptist U.; Southwestern Baptist Theological Seminary; Temple U.; U. of Pennsylvania.

George Yancey, Ph.D., Professor of Social Studies, Professor of Sociology (2019)  
B.S., M.A., Ph.D.; West Texas State U.; U. of Texas; *ibid.*

Rajung Yang, D.M.A., Lecturer of Piano (2021)  
B.M., M.M., D.M.A.; Seoul National U. in South Korea; U. of Michigan; *ibid.*

Vincent Yang, Ph.D., Associate Professor of Chinese (1996)  
B.A., M.A., M.A., Ph.D.; National Taiwan U.; *ibid.*; Rutgers U.; *ibid.*

Allison R. Yanos, M.L.S., Assistant Librarian and Catalog Librarian (2006)  
B.A., M.L.S.; U. of Notre Dame; Indiana U.

Joe C. Yelderman, Jr., Ph.D., Professor and Chair of Geosciences (1983)  
B.S., M.S., Ph.D.; Baylor U.; *ibid.*; U. of Wisconsin.

Kelly R. Ylitalo, Ph.D., Associate Professor of Epidemiology (2016)  
B.A., Ph.D.; Baylor U.; U. of Michigan.

Alexandre Yokochi, Ph.D., Professor of Mechanical Engineering (2017)  
B.S., M.S., Ph.D.; Southern Illinois U.-Carbondale; *ibid.*; Texas A&M U.

Hyunsoo Yoo, Ph.D., Assistant Professor in Communication Sciences and Disorders (2019)  
B.A., M.S., Ph.D.; Sangmyung U.; Hallym U.; U. of Pittsburgh.

Jeong-Ju Yoo, Ph.D., Associate Professor in Apparel Design and Merchandising (2009)  
B.A., A.A.S., M.A., Ph.D.; Seattle Pacific U.; Fashion Institute of Technology; Cornell U.; U. of Minnesota.

Yang-Soo Yoon, Ph.D., Associate Professor in Communication Sciences and Disorders (2018)  
B.S.E.C.E., M.S., Ph.D.; Seoul National U. of Technology; Texas A&M U. Kingsville; U. Illinois Urbana.

**Sarah Kienle, Ph.D., Assistant Professor of Biology. (2021)**

B.S., Trinity U.; M.S., San Diego State U.; Ph.D., U. of California Santa Cruz.

**Erin Killingsworth, Ph.D., Clinical Associate Professor of Nursing. (2015)**

B.S.N., Auburn U.; M.S.N., Samford U.; Ph.D., Mercer U.

**Hwanki Brian Kim, Ph.D., Assistant Professor of Finance. (2018)**

B.S., Seoul National U; M.EN., U. of Michigan Ann Arbor; M.S., *ibid*; Ph.D., U. of Illinois Urbana.

**Forest S. Kim, Ph.D., Robbins MBA Healthcare Program Director and Clinical Associate Professor of Economics. (2019)**

B.S., U. California Los Angeles; M.A., Chapman U.; M.B.A., U. Texas San Antonio; M.H.A., Baylor U.; Ph.D., U. of Washington.

**Seunghyun Kim, Ph.D., Associate Professor in Electrical and Computer Engineering. (2016)**

B.S., U. of Suwonm South Korea; M.S., U. of Alabama, Huntsville; Ph.D., *ibid*.

**Tae Hun Kim, Ph.D., Assistant Professor of Business Analytics. (2018)**

B.B.A., Korea U.; M.S., *ibid*; Ph.D., Michigan State U.

**Elise King, M.A., Associate Professor of Interior Design. (2016)**

B.S., Baylor U.; M.A., U. of Texas at Austin.

**Joshua S. King, Ph.D., Associate Professor of English and Margaret Root Brown Chair in Robert Browning and Victorian Studies. (2008)**

B.A., U. of Virginia; Ph.D., Harvard U.

**Julie A. King, J.D., Senior Lecturer in Environmental Law and Undergraduate Program Director. (2008)**

B.A., Vanderbilt U.; J.D., U. Louisville School of Law.

**Ryan S. King, Ph.D., Professor of Biology and Graduate Program Director. (2004)**

B.S., Harding U.; M. Env. Mgmt., Duke U.; Ph.D., *ibid*.

**Robert C. Kirby, Ph.D., Professor of Mathematics. (2012)**

B.S., Texas Tech U.; M.S., U. of Texas; Ph.D., *ibid*.

**Klaus Kirsten, Ph.D., Professor of Mathematics. (2003)**

Grundstudium, U. of Kaiserslautern, Germany; M.S., *ibid*; Ph.D., *ibid*; Habilitation, U. of Leipzig.

**Kevin K. Klausmeyer, Ph.D., Associate Professor and Associate Chair of Chemistry. (2000)**

B.S., Wichita State U.; Ph.D., Texas A&M U.

**Rizalia Klausmeyer, Ph.D., Senior Lecturer in Chemistry and Biochemistry and Director of Undergraduate Research. (2000)**

B.S., U. Puerto Rico-Rio Piedras; Ph.D., Texas A&M U.

**Peter G. Klein, Ph.D., Professor and Chair of Entrepreneurship, Director of the Free Enterprise Program and holder of the W.W. Caruth Chair. (2015)**

B.A., U. of North Carolina, Chapel Hill; Ph.D., U. of California, Berkeley.

**Benjamin A. Kleinerman, R.W. Morrison Professor in Political Science. (2020)**

B.A., Kenyan College; M.A., Michigan State; Ph.D., *ibid*.

**Jill Klentzman, Ph.D., Senior Lecturer in Mechanical Engineering. (2014)**

B.S., U. of Mary-Hardin Baylor; M.S., Southern Methodist U.; Ph.D., *ibid*.

**Hope A. Koch, Ph.D., Associate Professor of Information Systems and holder of the Godfrey R. Sullivan Jr. Professorship in Information Systems. (1997-1999<sup>1</sup>, 2003)**

B.B.A., U. of Mary Hardin-Baylor; M.B.A., Baylor U.; Ph.D., Texas A&M U.

**Yunsuk Koh, Ph.D., Associate Professor of Health, Human Performance and Recreation and Director of Exercise Physiology. (2013)**

B.S., Kangwon National U; M.S., Kangwon National U.; M.S., Mississippi State U.; Ph.D., Texas Woman's U.

**Marion Kopulos, Ph.D., Clinical Assistant Professor of Nursing. (2017)**

B.S.N., U. of Texas at Arlington; M.S.N., Walden U.; Ph.D., *ibid*.

**Michael F. Korpi, Ph.D., Professor of Film and Digital Media. (1982)**

B.A., Liberty Baptist College; M.A., U. of Iowa; Ph.D., *ibid*.

**Panos Koutakis, Ph.D., Assistant Professor in Health, Human Performance and Recreation. (2020)**

B.S., Aristotle U.; M.S., U. of Omaha; Ph.D., U. of Nebraska Medical Center.

**Scott Koziol, Ph.D., Associate Professor of Electrical and Computer Engineering and Assistant Chair. (2013)**

B.S.E.E., Cedarville U.; M.S., Iowa State U.; M.S.M.E., Georgia Institute of Technology; Ph.D., *ibid.*

**Denny B. Kramer, Ph.D., Assistant Dean of Graduate Enrollment, Management and Academic Technology, Graduate School. (2001)**

B.A., Baylor U.; M.A., *ibid.*; Ph.D., Oklahoma State U.

**Sergiy Kudelia, Ph.D., Associate Professor of Political Science. (2012)**

B.A., Ivan Franko Lviv National U.; M.A., Stanford U.; Ph.D., Johns Hopkins U.

**Hajime Kumahata, M.M., Director of Interactive Media and Language Center, Lecturer in Japanese. (2019)**

B.S., Southwest Baptist U., M.M., Baylor U.; M.M., *ibid.*

**Stephanie M. Kunst, Ph.D., Assistant Professor of Management. (2018)**

B.A., California State U. Fullerton; Ph.D., Michigan State U.

**JaeHwan Kwon Ph.D., Associate Professor of Marketing. (2015)**

B.S., Korea U.; M.B.A., Yonsei U.; M.S., New York U.; Ph.D., U. of Iowa.

**Samuel H. Kye, Ph.D., Assistant Professor in Sociology. (2021)**

B.A., Wheaton College; M.A., Indiana Univ.; Ph.D., *ibid.*

**Mieke J. Lahousse, Ph.D., Lecturer in Chemistry & Biochemistry. (2019)**

B.S., Central U. Venezuela-Caracas; Ph.D., Baylor U.

**Eric C. Lai, Ph.D., Professor of Music Theory. (1994)**

Diploma, Royal Scottish Academy of Music and Drama; M.M., Indiana U.; Ph.D., *ibid.*

**Bradley E. Lail, Ph.D., Associate Professor and Chair of Accounting and Business Law. (2011)**

B.B.A., Baylor U.; M.B.A., *ibid.*; Ph.D., U. of Oklahoma.

**Maria Lang, Ph.D., Assistant Professor in Bilingual Education (2019)**

Masters University of Texas at Brownsville, Ph.D. University of Illinois

**Sebastian J. Langdell, Ph.D., Assistant Professor of English. (2018)**

B.A., Vassar College; M.St., U. of Oxford, M.A., U. of Texas; Ph.D., U. of Oxford.

**Beth A. Lanning, Ph.D., Associate Chair, Department of Public Health, MPH-Community Health**

Program Director, and Professor of Public Health. (1999-2000<sup>1</sup>, 2000)  
B.S.Ed., Baylor U.; M.S.Ed., *ibid.*; Ph.D., Texas A&M U.

**Katherine M.J. Larson, Ph.D., Assistant Professor of Art History. (2019)**

B.A., U. of Michigan; M.A., John Hopkins U.; Ph.D., *ibid.*

**Paul E. Larson, Ph.D., Professor of Spanish. (1993)**

B.A., Gustavus Adolphus College; M.A., Middlebury College; Ph.D., U. of Minnesota.

**Amanda S. Lassetter, M.A., Lecturer in Theatre Arts. (2015)**

B.F.A., Baylor U.; M.A., *ibid.*

**Shawn J. Latendresse, Ph.D., Associate Professor of Psychology and Neuroscience. (2013)**

B.A., Pacific Lutheran U.; M.S., Teachers College, Columbia U.; Ph.D., Columbia U.

**Ramon Lavado, Ph.D., Assistant Professor of Environmental Science. (2016)**

B.S., U. of Barcelona; Ph.D., *ibid.*

**Michelle L. Law, Ph.D., Assistant Professor of Nutrition Sciences, (2020)**

B.A., Concordia College Moorehead; M.S., Ohio State U. Columbus; Ph.D., *ibid.*

**Wilson W. Law, Ph.D., Assistant Professor of Economics. (2016)**

B.S., U. of Wisconsin, Madison; M.S., *ibid.*; Ph.D., *ibid.*

**Jonathan N. Lawson, Ph.D., Lecturer in Biology. (2019)**

B.S., Baylor U.; Ph.D., U. of Texas Southwestern Medical School.

**Tamara J. Lawrence, Ph.D., Senior Lecturer in Psychology and Neuroscience. (1998)**

B.A. Humboldt State U.; M.A., *ibid.*, Ph.D., U. of Louisville.

**Karon N. LeCompte, Ph.D., Associate Professor of Curriculum and Instruction and Faculty-in-Residence of Allen and Dawson Halls. (2010)**

B.S., Sam Houston State U.; M.A., *ibid.*; Ph.D., U. of Texas.

**Jeonghun (John) Lee, Ph.D., Assistant Professor of Mathematics. (2018)**

B.S., Seoul National U.; M.S., *ibid.*; Ph.D., U. of Minnesota.

**Kwang Y. Lee, Ph.D., Professor and Chair of Electrical and Computer Engineering. (2007)**

B.S. Seoul National U.; M.S., North Dakota State U.; Ph.D., Michigan State U.

**Min K. Lee, Ph.D., Assistant Professor of Management. (2020)**

B.A., Kangwon National U.; M.S., Clemson U.; Ph.D., *ibid.*

**Myeongwoo Lee, Ph.D., Associate Professor of Biology. (2002)**

B.S., Sung Kyun U.; M.S., Illinois State U.; Ph.D., *ibid.*

**Dorothy E. Leidner, Ph.D., Professor of Information Systems and holder of the Randall W. and Sarah Ferguson Professorship, Director of the Center for Information Systems Research and Director of the Ph.D. Program in Information Systems. (2002)**

B.A., U. of Texas, Austin; M.B.A., *ibid.*; Ph.D., *ibid.*

**Brianna P. Lemmons, Ph.D., Assistant Professor of Social Work. (2018)**

B.A., Spelman College; M.S.W., Howard Univ.; Ph.D., *ibid.*

**Karen E. Leskoven, M.B.A., Senior Lecturer in Information Systems. (2010)**

B.B.A., Baylor U.; M.B.A., *ibid.*

**Vincent W. Leung, Ph.D., Associate Professor of Electrical and Computer Engineering. (2020)**

Eng. Hons., McGill U. (Montreal, Canada); M. Eng. EE, *ibid.*; Ph.D.; U. of California, San Diego.

**Brian C. Leutholtz, Ph.D., FACSM, Professor of Health, Human Performance and Recreation. (2002-2003, 2003)**

B.S., Michigan State U.; M.A., *ibid.*; Ph.D., *ibid.*

**Marie N. Level, M.A., Senior Lecturer in French. (1990)**

Diplome, U. Jean Moulin-Lyon III; M.A., U. of Cincinnati.

**Jeff Levin, Ph.D., University Professor of Epidemiology and Population Health, Professor of Medical Humanities, and Director, Program on Religion and Population Health. (2009)**

A.B., Duke U.; M.Phil, U. North Carolina Chapel Hill; Ph.D., U.T. Medical Branch.

**Greg G. Lewallen, M.A., Lecturer in Art. (2015)**

B.F.A., Baylor U.; M.A., Savannah College of Art and Design.

**Joseph Li, M.M., Assistant Professor of Vocal Coaching. (2016)**

B.M., Manhattan School of Music; M.M., *ibid*.

**Yang Li, Ph.D., Associate Professor of Electrical and Computer Engineering. (2011)**

B.S., U. of Science and Technology of China; M.S., U. of Texas; Ph.D., U. of Texas.

**Yang Li, Ph.D., Assistant Professor of Environmental Science. (2021)**

M.S., Peking U.; Ph.D., U. of Michigan.

**Christine C. Limbers, Ph.D., Associate Professor of Psychology and Neuroscience and Graduate Program Director of Clinical Psychology. (2010)**

B.A., Santa Clara U.; Ph.D., Texas A&M U.

**Brian Lindley, Ph.D., Assistant Professor of Chemistry. (2019)**

B.S., U. of Rochester; Ph.D., Cornell U.

**Marie Lindley, Ph.D., Clinical Associate Professor of Nursing. (2016)**

B.S., William Peterson U.; M.S., Columbia U.; Ph.D., U. of Texas, Arlington.

**Tyrha M. Lindsey-Warren, Ph.D., Clinical Assistant Professor of Marketing. (2017)**

B.S. Northwestern U.; M.B.A., The Claremont Graduate School; Ph.D., Rutgers U.

**Yue (Stanley) Ling, Ph.D., Assistant Professor of Mechanical Engineering. (2017)**

B.S., Beijing U. of Aero. & Astro.; Ph.D., U. of Florida.

**Lance L. Littlejohn, Ph.D., Professor of Mathematics. (2007)**

B.S.C., U. of Western Ontario; M.A., *ibid*; Ph.D., Pennsylvania State U.

**Diane Loeb, Ph.D., Professor and Martin Family Endowed Chair of Communication Sciences and Disorders. (2017)**

B.S., U. of Nevada-Reno; M.S., *ibid*; Ph.D., Purdue U.

**B. Michael Long, Ph.D., Professor of Russian, Chair of Modern Languages and Cultures, and Advisor for Slavic and East European Studies Program. (1988-1995<sup>1</sup>, 1995)**

B.A., Baylor U.; M.A., Indiana U.; Ph.D., *ibid*.

**J. Mark Long, Ph.D., Associate Professor in the Baylor Interdisciplinary Core in the Honors College. (2001)**

B.A., Howard Payne U.; M.Div., Southwestern Baptist Theological Seminary; M.A., Naval Postgraduate School; Ph.D., Baylor U.

**Kara Long, M.S.I.S., Assistant Librarian and Metadata & Catalog Librarian. (2013)**

B.A., Hollins U.; M.A., U. of Texas at Austin; M.S.I.S., *ibid*.

B.A., Wheaton College; M.Rel., The U. of Toronto; Ph.D., U. of Durham.

**Karen I. Lopez-Alonzo, Ph.D., Assistant Professor of Spanish. (2016)**

B.A., Universidad Internacional para la Integración de la América Latina; M.A., Arizona State U.; M.A., The Ohio State U.; Ph.D., *ibid*.

**Whitney S. Luce, M.S.W., Senior Lecturer in Social Work and Director of Field Education. (2014)**

B.A., Baylor U.; M.S.W., *ibid*.

**Joaquin N. Lugo, Ph.D., Associate Professor of Psychology and Neuroscience and Director of Graduate Program in Psychology. (2010)**

B.S., Baylor U.; Ph.D., U. of South Carolina, Columbia.

**Lewis S. Lummer, Ed.D., Senior Lecturer in Deaf Education and American Sign Language in Communication Sciences and Disorders. (2010)**

B.A., Gallaudet U.; M.S., Lamar U.; Ed.D., Northern Illinois U.

**J. Larry Lyon, Ph.D., Professor of Sociology, Dean of the Graduate School and Vice Provost for Institutional Effectiveness. (1976)**

B.A., Baylor U.; M.A., U. of Houston; Ph.D., U. of Texas.

**Jason E. MacGregor, Ph.D., Associate Professor of Accounting and holder of the Roderick L. Holmes Chair of Accountancy. (2007)**

B.Comm., U. of Windsor; Ph.D., U. of Florida.

**Antonio J. Macias, Ph.D., Associate Professor of Finance. (2014)**

B.Sc., Monterrey Institute of Technology; M.Sc., Stanford U.; Ph.D., Purdue U.

**Elissa E. Madden, Ph.D., Associate Professor in Social Work. (2016)**

B.A., Baylor U.; M.S.W., *ibid*; Ph.D., U. of Texas

**Amy Maddox, Ph.D., Senior Lecturer in Statistical Science. (1998-2000, 2002)**

B.S., Southwest Texas State U.; M.S., Baylor U.; Ph.D., *ibid*.

**Kevin Magil, I, Ph.D., Assistant Professor for Curriculum and Instruction. (2017)**

B.A. and M.P.A., California State U.; M.A., U. of California; Ph.D., U. of Texas at Austin.

**Kristen Mainor, Ed.S., Assistant Clinical Professor for Educational Psychology. (2017)**

B.A., U. of Texas at Austin; Ed.S., Baylor U.

**Marshall Magnusen, Ph.D., Assistant Professor of Educational Leadership. (2011)**

B.S. Wheaton College; M.S., Texas Christian U.; Ph.D., Florida State U.

**Karenna F. Malavanti, Ph.D., Senior Lecturer in Psychology and Neuroscience. (2017)**

B.S., Baylor U.; M.A., *ibid*; Ph.D., *ibid*.

**Stephanie M. Mangus, Ph.D., Assistant Professor of Marketing. (2018)**

B.A., Ohio Northern U.; M.B.A., U. of Cincinnati; Ph.D., Louisiana State U. Baton Rouge.

**Pamela S. Manhart, Ph.D., Assistant Professor of Management. (2018)**

B.S., U. of Northern Iowa; M.B.A., Iowa State U.; Ph.D., *ibid*.

**Carlos E. Manzanares, Ph.D., Professor of Chemistry. (1988)**

B.S., Universidad Central de Venezuela; Ph.D., Indiana U.

**Deborah Manzanares, M.A., Senior Lecturer in Spanish. (2006)**

B.A., Ball State U.; M.A., Indiana U.

**Heidi Marcum, Ph.D., Senior Lecturer in Environmental Science. (1990)**

B.S., Tarleton State U.; M.S., Baylor U.; Ph.D., Texas A&M U.

**James A. Marcum, Ph.D., Professor of Philosophy and Medical Humanities. (2001)**

B.S.Ed., Miami U.; M.S., *ibid*; M.A.T.S., Gordon-Conwell Theological Seminary; M.A., Boston College; Ph.D., U. of Cincinnati College of Medicine; Ph.D., Boston College.

**Brian R. Marks, D.M.A., Associate Professor of Piano and Director of Keyboard Studies Division. (1991-2000<sup>1</sup>, 2000)**

B.M., U. of Denver; M.M., U. of Texas; D.M.A., *ibid.*

**Robert J. Marks II, Ph.D., Distinguished Professor of Electrical and Computer Engineering. (2003)**

B.S., Rose-Hulman Institute of Technology; M.S., *ibid.*; Ph.D., Texas Tech U.

**John-Michael Marrs, M.F.A., Associate Professor of Theatre Arts. (2014)**

B.A., Baylor U.; M.F.A., U. of Alabama.

**Jeannette M. Marsh, Ph.D., Associate Professor of English and Coordinator of the Language and Linguistics Program. (1999)**

B.A., Middlebury College; M.A., U. of Chicago; Ph.D., *ibid.*

**Paul Martens, Ph.D., Associate Professor of Religion and Director of the Interdisciplinary Programs, College of Arts & Sciences, Affiliated Faculty, Program in Medical Humanities. (2006)**

B.A., Providence College; M.C.S., Regents College; Th.M., *ibid.*; Ph.D. U. of Notre Dame.

**Caleb D. Martin, Ph.D., Assistant Professor of Chemistry. (2013)**

B.S., Mount Allison U.; Ph.D., U. of Western Ontario.

**Eric C. Martin, Ph.D., Associate Professor of History and Philosophy of Science in the Honors College, Assistant Director of the University Scholars Program in the Honors College, and Affiliated Faculty, Program in Medical Humanities. (2013)**

B.A., The Colorado College; M.A., U. of California, San Diego; Ph.D., *ibid.*

**Janya H. Martin, Ph.D., Associate Professor of German. (1964-1965, 1967)**

B.A., Baylor U.; Ph.D., U. of Texas.

**Briana M. Martinez, Ph.D.; Assistant Professor in Apparel Design and Merchandising. (2018)**

B.S., Clemson U.; M.S., U. of Georgia; Ph.D., *ibid.*

**Andrei Martinez-Finkelshtein, Ph.D., Professor of Mathematics. (2018)**

Ph.D., Moscow State U.

**Paul D. Mason, Ph.D., Assistant Professor of Accounting. (2015)**

B.B.A., Texas A&M U.; M.S., *ibid.*; Ph.D., U. of Texas at Dallas.

**Cole W. Matson, Ph.D., Associate Professor of Environmental Science. (2011)**

B.S., Texas A&M U.; M.S., Texas Tech U., Ph.D., Texas A&M U.

**Lorin S. Matthews, Ph.D., Professor of Physics and Associate Director of CASPER. (2000-2006<sup>1</sup>)**

B. S., Baylor U.; Ph.D., *ibid.*

**Walter M. Matthews, M.D., Clinical Professor in the Honors Program (2020).**

B.A., Baylor U.; M.S., The National War College; M.D., Baylor College of Medicine at Houston.

**Peter M. Maurer, Ph.D., Professor of Computer Science. (2002)**

B.A., St. Benedict's College; M.S., Iowa State U.; Ph.D., *ibid.*

**Horace Maxile, Ph.D., Associate Professor of Music Theory. (2012)**

B.A., Louisiana Tech U.; M.M., Southeastern Louisiana U.; Ph.D., Louisiana State U.

**Sergio Mayorga, Ph.D., Post-Doctoral Fellow of Mathematics. (2019)**

B.Sc., Universidad de Antioquia; Ph.D., Georgia Institute of Technology.

**Louis M. Mazé, M.A., Senior Lecturer in Spanish. (2011)**

B.A., U. of Maryland; M.A., U. of Texas at Austin; M.A., Baylor U.

**Sandeep Mazumder, Ph.D., Professor of Economics and The William E. Crenshaw Endowed Dean of the Hankamer School of Business. (2021)**

B.A., University of Cambridge; M.A., *ibid.*; M.A., Johns Hopkins Univeristy; Ph.D., *ibid.*

**Lesley McAllister, D.M.A., Professor of Piano and Director of Piano Pedagogy. (2005-2006<sup>1</sup>, 2006)**

B.M., U. of Houston; M.M., Florida State U.; D.M.A., U. of Oklahoma.

**Scott McAllister, D.M.A., Professor of Composition and Director of Academic Studies Division. (2001)**

B.M., Florida State U.; M.M., Rice U.; D.M.A., *ibid.*

**Nicole M. McAninch, Ph.D., Clinical Associate Professor in Child and Family Studies. (2009)**

B.S.W., Baylor U.; M.S.W., *ibid.*; Ph.D., Texas Woman's U.

**Madelon McCall, Ed.D., Clinical Assistant Professor in Curriculum and Instruction. (2011)**

B.S., Lamar U.; M.S., Baylor U.; Ed.D., *ibid.*

**Stephen T. McClain, Ph.D., Professor of Mechanical Engineering. (2007)**

B.S., U. of Memphis; M.S., Mississippi State U.; Ph.D., *ibid.*

**P. Blaine McCormick, Ph.D., Associate Professor of Management. (1998-99<sup>1</sup>, 1999)**

B.B.A., Abilene Christian U.; M.S., Texas A&M U.; Ph.D., *ibid.*

**Kimberly H. McCray, Ph.D., Lecturer in Museum Studies and Graduate Program Director. (2016)**

B.A., Saint Michael's College; M.A.L.S., Georgetown U.; Ph.D., Lesley U.

**Charles A. McDaniel, Ph.D., Associate Professor in Baylor Interdisciplinary Core and Church-State Studies, and Faculty Assistant Director in the Honors Program. (2002-2008<sup>1</sup>, 2008)**

B.B.A., Baylor U.; M.A., U. of Missouri, Kansas City; Ph.D., Baylor U.

**Jeremy S. McElroy, M.S., Senior Lecturer in Information Systems (2011)**

B.A., Texas Tech U.; M.S., Naval Postgraduate School

**Jocelyn S. McGee, Ph.D., Assistant Professor. (2018)**

B.A., Baylor U.; M.S., *ibid.*; M.A., Fuller Theological Seminary; Ph.D., *ibid.*

**Ann McGlashan, Ph.D., Associate Professor of German. (1990-1996<sup>1</sup>; 1996)**

B.A., Hull U.; M.A., Lancaster U.; Ph.D., Indiana U., Bloomington.

**Thomas D. McGrath, Ph.D., Senior Lecturer in Chemistry and Undergraduate Program Director. (2006)**

B.S., U. of Edinburgh; Ph.D., *ibid.*

**Timothy R. McKinney, Ph.D., Professor of Music Theory and Associate Dean for Graduate Studies. (2002)**

B.S., William Jewell College; M.M., Southwestern Baptist Theological Seminary; Ph.D., U. of North Texas.

**Michael K. McLendon, Ph.D., Professor of Higher Education Policy and Leadership. (2015)**

B.A., Baylor U.; M.S., Florida State; Ph.D., U. of Michigan

**Kelli McMahan, Ph.D., Associate Clinical Professor of Health, Human Performance and Recreation. (2001)**  
B.S., Baylor U.; M.S., Oklahoma State U., Stillwater; Ph.D., Texas A&M U.

**Ryan A. McManamay, Ph.D., Assistant Professor of Environmental Science. (2019)**  
B.S., Clemson U.; M.S., Virginia Polytech; Ph.D., *ibid.*

**Linda M. McManness, Ph.D., Professor of Spanish and Advisor for the World Affairs Minor. (1990)**  
B.A., Southwest Baptist U.; M.A., U. of Washington; Ph.D., *ibid.*

**Mandy E. McMichael, Ph.D., Assistant Professor of Religion, Associate Director of Ministry Guidance, and Holder of the J.David Slover Professorship of Ministry Guidance. (2017)**  
B.A., Judson College; M.Div., Duke University Divinity School; Th.M., *ibid.*; Ph.D., *ibid.*

**Alexander J. McNair, Ph.D., Associate Professor of Spanish. (2014)**  
B.A., U. of Texas; M.A., *ibid.*; Ph.D., *ibid.*

**Lacy G. McNamee, M.A., Associate Professor in Communication and Graduate Program Director. (2008-2010<sup>1</sup>), (2010)**  
B.A., Baylor U.; M.A., *ibid.*; Ph.D., U. of Texas.

**Jonathan R. Meddaugh, Ph.D., Assistant Professor of Mathematics. (2017)**  
Ph.D., Tulane U.

**Jessica Padron Meehan, Ed.D., Lecturer in Curriculum and Instruction (2019)**  
B.S., University of Texas at Austin; M.S.Ed., Baylor University; Ph.D., *ibid.*

**Todd Meehan, D.M.A., Associate Professor of Percussion. (2003)**  
B.M., U. of Texas, Austin; M.M., Yale U.; D.M.A., U. of Texas-Austin.

**Tao Mei, Ph.D., Professor in Mathematics. (2015)**  
Ph.D., Texas A&M U.

**Karen Melton, Ph.D., Associate Professor in Child and Family Studies. (2016)**  
B.S. U. of South Alabama; M.S., Texas A&M U.; Ph.D., *ibid.*

**F. Carson Mencken, Ph.D., Professor and Chair of Sociology. (2002)**  
B.S., College of Charleston; M.A., Louisiana State U.; Ph.D., *ibid.*

**Kimberly D. Mencken, M.S., Senior Lecturer in Economics and Director of the Center for Private Enterprise. (2002)**  
B.S., Louisiana State U.; M.S., *ibid.*

**Rebecca Meraz, Ph.D., Assistant Professor of Nursing. (2014-2015<sup>1</sup>; 2015-2018; 2018)**  
B.S.N., Baylor U.; M.S.N., *ibid.*

**Andrew R. Meyer, Ph.D., Associate Professor of Health, Human Performance, and Recreation. (2010)**  
B.S., Bridgegewater State College; M.A., U. of Montana; Ph.D., U. of Illinois Urbana-Champaign.

**Christopher Meyer, Ph.D., Associate Professor of Management. (2005)**  
B.B.A., Northwood U.; Ph.D., Michigan State U.

**Dawn M. Michaelson, Ph.D., Assistant Professor in Apparel Design and Merchandising. (2019)**  
B.A., California State U.; M.S., Auburn U.; Ph.D., *ibid.*

**Renee Michalski, Ph.D., Senior Lecturer in Psychology and Neuroscience. (2001)**  
B.S., U. of Houston; M.S.Ed., Baylor U.; Ph.D., *ibid.*

**Jonathan P. Miles, Ph.D., Lecturer in Biology. (2011)**  
Ph.D., Baylor U.

**Jana K. Millar, Ph.D., Senior Lecturer in Music Theory. (1986)**  
B.M., Baylor U.; M.M., U. of North Texas; Ph.D., *ibid.*

**Melanie I. Millar, Ph.D., Assistant Professor of Accounting. (2016)**  
B.B.A., College of William and Mary; Ph.D., Emory U.

**Gabrielle K. Miller, Ph.D., Assistant Professor of Spanish. (2016)**  
B.A., U. Notre Dame; M.A., U. Virginia; Ph.D., *ibid.*

**Glenn A. Miller, Ph.D., Professor of Health, Human Performance and Recreation. (1994)**  
B.S., West Chester State College; M.Ed., U. of Pittsburgh; Ph.D., U. of New Mexico.

**Jung-Hyun Min, Ph.D., Associate Professor of Chemistry & Biochemistry. (2018)**  
B.S., Seoul National U.; Ph.D., U. of Washington.

**Robert C. Miner, Ph.D., Professor of Philosophy in the Honors College. (2002)**  
B.A., Rice; M.A., U. of Notre Dame; Ph.D., *ibid.*

**Ann M. Mirabito, Ph.D., Associate Professor of Marketing. (2007)**  
B.A., Duke U.; M.B.A., Stanford U.; Ph.D., Texas A&M U.

**Dorina I. Mitrea, Ph.D., Chair and Professor of Mathematics. (2019)**  
B.S., U. of Bucharest; Ph.D., U. of Minnesota.

**Marius Mitrea, Ph.D., Professor of Mathematics. (2019)**  
B.S., U. of Bucharest; Ph.D., U. of Minnesota.

B.A., Grove City College; M.A., U. of California, Davis; Ph.D., *ibid.*

**Mark Schubert, M.M., Lecturer in Trumpet. (2013)**

B.M., New England Conservatory of Music; M.M., Baylor U.

**David W. Schlueter, Ph.D., Professor and Chair of Communication. (1984)**

B.B.A., U. of Cincinnati; M.A., *ibid.*; Ph.D., U. of Missouri, Columbia.

**Keith E. Schubert, Ph.D., Professor of Electrical and Computer Engineering. (2013)**

B.S., U. of Redlands; M.S., U. of California, Los Angeles; Ph.D., U. of California, Santa Barbara

**Mark Schubert, M.M., Lecturer in Trumpet. (2013)**

B.M., New England Conservatory of Music; M.M., Baylor U.

**Carol L. Schuetz, M.L.S., Associate Librarian and Business Reference Librarian. (1998)**

B.S., Baylor U.; M.S., *ibid.*; M.L.S., U. of North Texas.

**Alan F. Schultz, Ph.D., Assistant Professor of Anthropology. (2014)**

B.A., U. of Iowa; M.P.H., *ibid.*; Ph.D., U. of Florida.

**Anne-Marie Schultz, Ph.D., Professor of Philosophy, Director of the Baylor Interdisciplinary Core in the Honors College, and Master Teacher. (1993)**

B.A., Trinity College; Ph.D., Pennsylvania State U.

**Gretchen E. Schwarz, Ph.D., Professor of Curriculum and Instruction. (2009)**

B.A., Baylor U.; M.A., U. of Texas, Arlington; Ph.D., U. of North Texas.

**J. Thad Scott, Ph.D., Associate Professor of Biology. (2016)**

B.S., Howard Payne U.; M.S., Tarleton State U.; Ph.D., Baylor U.

**Lakia M. Scott, Ph.D., Assistant Professor of Curriculum and Instruction. (2015)**

B.A., Texas Southern U.; M.Ed., Prairie View A&M U.; Ph.D., U. of North Carolina.

**Rebecca L. Scott, Ph.D., Senior Lecturer in Social Work. (2009)**

B.S., Abilene Christian U.; M.S.W., U. of Washington; Ph.D., Baylor U.

**Michael K. Scullin, Ph.D., Associate Professor of Psychology and Neuroscience. (2015)**

B.S., Furman U.; M.A., Washington U.; Ph.D., *ibid.*

**John W. Seaman, Jr., Ph.D., Professor of Statistical Science. (1983-1985, 1989)**

B.S., U. of Texas, Dallas; M.S., *ibid.*; Ph.D., *ibid.*

**Tyler D. Self, M.B.A., Clinical Assistant Professor of Entrepreneurship. (2017-2019<sup>1</sup>, 2020)**

B.B.A., Baylor U.; M.B.A., Harvard U.

**Mark R. Sepanski, Ph.D., Professor of Mathematics and Graduate Program Director. (1997)**

B.S., Purdue U.; Ph.D., Massachusetts Institute of Technology.

**Amanda K. Sevcik, Ph.D., Senior Lecturer in Chemistry and Lab Coordinator in Biochemistry. (2013)**

B.S. Tarleton State U.; Ph.D., Baylor U.

**J. Allen Seward, Ph.D., Associate Professor of Finance, Insurance and Real Estate and Director of the Baylor Business Fellows. (1976)**

B.A., Baylor U.; M.S., *ibid.*; M.A., U. of Pennsylvania; Ph.D., *ibid.*

**Daniel M. Shafer, Ph.D., Associate Professor of Film and Digital Media. (2009)**

B.A., U. of West Florida; M.A., *ibid.*; Ph.D., Florida State U.

**Daniel T. Shallcross, M.Acc., Clinical Associate Professor and Director of Accounting Internship and Career Development. (2015)**

B.B.A., Baylor U.; M.Acc., *ibid.*

**Margo Moran Shanks, M.P.H., Lecturer in Public Health (2013)**

B.S., Baylor U.; M.P.H., *ibid.*

**Neil Shanks, Ph.D., Clinical Assistant Professor of Middle and Secondary Education (2019)**

B.S. Ed. and M.S.Ed., Baylor University; Ph.D. University of Texas at Austin

**Ryan M. Sharp, Ph.D., Assistant Professor of English. (2019)**

B.A., Concordia U. (Portland); M.F.A., Pacific U.; Ph.D., U. of Texas

**Lisa J. Shaver, Ph.D., Professor of English and Director of Women's and Gender Studies. (2007)**

B.A., Hendrix College; M.A., Kennesaw State U.; Ph.D., Miami U.

**Bryan F. Shaw, Ph.D., Associate Professor of Chemistry. (2010)**

B.S., Washington State U.; Ph.D., U. of California, Los Angeles.

**Rebecca J. Sheesley, Ph.D., Associate Professor of Environmental Science. (2010)**

B.S., Wheaton College; Ph.D., U. of Wisconsin-Madison.

**H. Jennings Sheffield, M.F.A., Associate Professor of Art. (2011-2012<sup>1</sup>, 2012)**

B.F.A., Atlanta College of Art; M.F.A., U. of Texas, San Antonio.

**Zachary A. Sheldon, M.A., Lecturer in Film and Digital Media. (2020)**

B.A., Geneva College; M.A., Baylor U.

**Qin Sheng, Ph.D., Professor of Mathematics. (2003, 2005)**

B.S., Nanyang; M.S., *ibid.*; Ph.D., U. of Cambridge.

**Susan L. Sherman, M.S., Graduate Program Director. (2005)**

B.S., Hardin-Simmons U.; M.S., U. of Wyoming.

**Holly G. Shi, M.A., Senior Lecturer in Chinese. (2010)**

B.A., Zhejiang Normal U.; P.B., Tsinghua U.; M.A., U. of York.

**Patricia Shih, B.M., Artist Diploma, Associate Professor of Violin (2019)**  
B.M., U. of Toronto; A.D. Indiana U.

**Jaeho Shim, Ph.D., Associate Professor of Health, Human Performance and Recreation. (1999)**  
B.S., Yonsei U.; M.S., U. of Illinois; Ph.D., *ibid.*

**Deborah Shirey, D.N.P., Clinical Associate Professor in Nursing (2019)**  
B.A., Southern Arkansas U.; MNsc, U. of Arkansas for Medical Sciences; D.N.P., Loyola U.

**Ann Shoemaker, D.M.A., Assistant Professor Bassoon and Coordinator of Woodwinds. (2009)**  
B.M., Furman U.; M.M., Yale U.; D.M.A., U. of North Carolina at Greensboro.

**Jacob Shores-Argüello, Ph.D., Assistant Professor of English. (2019)**  
B.A., U. of Central Oklahoma; M.F.A., U. of Arkansas; Ph.D., Texas Tech U.

**Lauren J. Short, Ph.D., Lecturer in English. (2020)**  
B.A., U. of Louisville; M.A., *ibid.*; Ph.D., U. of New Hampshire.

**Kevin L. Shuford, Ph.D., Associate Professor of Chemistry and Co-Graduate Program Director. (2012)**  
B.S., U. of North Carolina, Wilmington; Ph.D., U. of Florida.

**Amanda Sigler, Ph.D., Assistant Professor of English. (2019)**  
B.A., U. of Tulsa; Ph.D., U. of Virginia

**Stephen Silverstein, Ph.D., Associate Professor of Spanish and Graduate Director of Spanish. (2012)**  
B.A., Rutgers U.; B.S., *ibid.*; M.A., U. of Virginia; Ph.D., *ibid.*

**Cheolho Sim, Ph.D., Associate Professor of Biology. (2010)**  
B.S., Korea U.; M.S., *ibid.*; Ph.D., U. of Notre Dame.

**Brian L. Simanek, Ph.D., Associate Professor in Mathematics. (2015)**  
B.A., Williams College; Ph.D., California Institute of Technology.

**Dwayne D. Simmons, Ph.D., Professor and Chair of Biology and The Cornelia Marschall Smith Endowed Professor in Biology. (2016)**  
B.S., Pepperdine U.; Ph.D., Harvard U.

**Abhendra K. Singh, Ph.D., Assistant Professor of Mechanical Engineering. (2019)**  
B.Tech., Indian Institute of Technology; M.S., Syracuse U.; Ph.D., *ibid.*

**Jon E. Singletary, Ph.D., Dean and Professor in Social Work, and the Diana R. Garland Endowed Professor in Child and Family Studies. (2003)**  
B.A., Baylor U.; M.Div., Baptist Theological Seminary at Richmond; M.S.W., Virginia Commonwealth U.; Ph.D., *ibid.*

**Carolyn T. Skurla, Ph.D., Associate Professor of Mechanical Engineering. (2002)**  
B.S., Texas A&M U.; Ph.D., Colorado State U.

**Stephen M. Sloan, Ph.D., Associate Professor of History and Director of the Insititute for Oral History. (2007)**  
B.B.A., Baylor U.; M.A., *ibid.*; Ph.D., Arizona State U., Tempe.

**David A. Smith, Ph.D., Senior Lecturer in History. (2002)**  
B.A., Southwest Texas State U.; M.A., *ibid.*; Ph.D., U. of Missouri, Columbia.

**Douglas E. Smith, Ph.D., Associate Professor of Mechanical Engineering and Graduate Program Director. (2013)**

B.S., Illinois College; B.S. Washington U.; M.S., Binghamton U., State University of New York, Ph.D., U. of Illinois.

**Emily R. Smith, Ph.D., MSPH, Assistant Professor in Public Health. (2017)**  
B.S. Wayland Baptist U.; MSPH, U. of S. Carolina; Ph.D., U. of North Carolina.

**R. Alden Smith, Ph.D., Professor of Classics, Associate Dean of the Honors College, Master Teacher, and The Cornelia Marschall Smith Distinguished Professor. (1994)**  
B.A., Dickinson College; M.A., U. of Vermont; Ph.D., U. of Pennsylvania.

**Touradj Solouki, Ph.D., Professor of Chemistry. (2011)**  
B.S., U. of Texas, Tyler; Ph.D., Texas A&M U.

**Meagan Soltwisch, D.N.P., Clinical Assistant Professor. (2017)**  
B.S.N., Washington State U.; M.S.N., Gonzaga U.; D.N.P., *ibid.*

**Eunjee Song, Ph.D., Associate Professor of Computer Science and Graduate Program Director. (2006)**  
B.E., Seoul National U. Korea, M.S., Colorado State U.; Ph.D., *ibid.*

**Joon Jin Song, Ph.D., Associate Professor of Statistical Science. (2013)**  
B.S., Yeungnam U.; M.S., Kyungpook National U.; Ph.D., Texas A&M U.

**Kristle Soto, M.S., Clinical Assistant Professor in Communication Sciences and Disorders. (2019)**  
B.S. Baylor U.; M.S., U of Texas Dallas.

**Lizbeth Souza-Fuertes, Ph.D., Associate Professor of Spanish and Portuguese, and Director of Latin American Studies Program. (1997)**  
B.A., Federal U. of Rio Grande do Sul; M.A., U. of Georgia; Ph.D., *ibid.*

**Gregory D. Speegle, Ph.D., Professor of Computer Science. (1990)**  
B.S., Baylor U.; Ph.D., U. of Texas.

**Anne M. Spence, Ph.D., Clinical Associate Professor of Mechanical Engineering and Assistant Chair. (2017)**  
B.S., U. of Missouri-Rolla; M.S., U. of Texas- Arlington; Ph.D., U. of Maryland - College Park.

**Lori A. Spies, Ph.D., Associate Professor of Nursing. (2004-2014<sup>1</sup>, 2014)**  
B.S., Texas Woman's U.; M.S., *ibid.*; Ph.D., U. of Texas, Arlington.

**John M. Ssozi, Ph.D., Clinical Associate Professor in Economics. (2011)**  
B.S., Uganda Martyrs U.; M.S., Marquette U.; Ph.D., U. of Wisconsin

**Scott F. Spinks, Ph.D., Senior Lecturer in Spanish. (2010)**  
B.A., Hendrix College; M.A., Middlebury College; Ph.D., U. of Texas.

**Rishi R. Sriram, Ph.D., Associate Professor of Educational Leadership. (2010)**  
B.A., Baylor U.; M.S., *ibid.*, Ph.D., Azusa Pacific U.

**Devan J. Stahl, Ph.D., Assistant Professor of Religion, Affiliated Faculty, Program in Medical Humanities. (2019)**  
B.A., U. of Virginia; M.Div., Vanderbilt Divinity School; Ph.D., Saint Louis U.

**James D. Stamey, Ph.D., Professor and Chair of Statistical Science. (2005)**  
B.S., Northwestern State U.; M.B.A., Baylor U.; Ph.D., *ibid.*

**Charles W. Stanley, Ph.D., Associate Professor of Accounting. (1983)**  
B.A., U. of Texas; M.B.A., U. of Montana; M.P.A., U. of Texas, Arlington; Ph.D., Oklahoma State U.

**Rodney Stark, Ph.D., University Professor of Social Sciences and Co-Director of the Institute for Studies of Religion. (2004)**

B.A., U. of Denver; M.A., U. of California, Berkeley; Ph.D., *ibid*.

**Jeffrey A. Steely, M.L.I.S., Associate Dean and Director of Central Libraries. (1999)**

B.A., Bethel College; M.L.I.S., U. of Texas, Austin.

**Kathryn S. Steely, D.M., Associate Professor of Viola. (1994-1996<sup>1</sup>; 1996)**

B.A., Bethel College; M.M., The Cleveland Institute of Music; D.M., Northwestern U.

**Michael A. Stegemoller, Ph.D., Professor of Finance, Insurance, and Real Estate and holder of The Harriette L. and Walter G. Lacy, Jr. Chair of Banking. (2010)**

B.A., Abilene Christian U.; M.B.A., Baylor U.; Ph.D., U. of Georgia.

**Lt Col Kenneth R. Sterling, USAF, Professor and Chair of Aerospace Studies. (2022)**

B.A., Texas Christian U.; M.S., Troy U.

**Brandon Sterrett, M.F.A., Lecturer of Theater Arts. (2020)**

B.F.A., Southern Methodist U.; M.F.A., Commonwealth U.

**Janice A. Stewart, M.S., Senior Lecturer in Communication Sciences and Disorders. (1993)**

B.A., Baylor U.; M.S., *ibid*.

**Joshua K. Strakos, Ph.D., Clinical Assistant Professor of Management. (2016)**

B.S., Wayland Baptist U.; M.B.A., U. of Kansas; Ph.D., U. of Houston.

**Jaclyn Standing, D.N.P., Clinical Assistant Professor of Nursing. (2020)**

B.S.N., Madonna U.; M.S.N., *ibid*; D.N.P., Vanderbilt U.

**Michele Stover, Ph.D., Lecturer of Chemistry. (2020)**

B.S., William Carey U.; Ph.D., U. of Alabama

**Richard L. Strot, M.Ed., Senior Lecturer in Curriculum and Instruction. (1993)**

B.A., Texas Lutheran College; M.Ed., U. of Texas.

**Martin T. Stuebs, Jr., Ph.D., Associate Professor of Accounting and holder of The R.E. and Marilyn Reamer Professorship in Accounting. (2005)**

B.B.A., U. of Wisconsin, Whitewater; M.A., U. of Wisconsin, Madison; Ph.D., U. of Arkansas, Fayetteville.

**April J. Stull, Associate Professor of Nutrition Sciences, (2020)**

B.S., Southern U. and A&M College; Ph.D., Purdue U.

**Rodney X. Sturdivant, Ph.D., Associate Professor of Statistical Science and Director of Statistical Consulting Center. (2020)**

B.S., West Point; M.S., Stanford; Ph.D., U. of Massachusetts.

**Tracey N. Sulak, Ph.D., Clinical Assistant Professor of Educational Psychology. (2013)**

B.A., U. of Houston; M.Ed., U. of North Texas; Ph.D., Baylor U.

**Michael J. Sullivan, M.F.A., Associate Professor of Theatre Arts. (2012)**

B.F.A., U. of Oklahoma; M.F.A., Southern Methodist U.

**Yulia W. Sullivan, Ph.D., Assistant Professor of Information Systems. (2018)**

B.E.C., Bina Nusantara U.; M.B.A., Chosun U.; Ph.D., U. of North Texas.

**Erika Sutton, PT, DPT, FAAOMPT, Clinical Assistant Professor of Health, Human Performance, and Recreation. (2020)**

B.S., Texas A&M; DPT, Texas Tech U.

**Meredith Sutton, M.F.A., Senior Lecturer in Theatre Arts. (2006)**

B.F.A., West Texas A&M U.; M.F.A., Baylor U.

**Eric L. Swan, D.B.A., Clinical Assistant Professor of Marketing. (2019)**

B.S., Winona State U.; M.B.A., Capella U.; D.B.A., U. of Wisconsin Whitewater.

**Julie A. Sweet, Ph.D., Professor of History. (2002)**

B.A., U. of Notre Dame; M.A., U. of Richmond; Ph.D., U. of Kentucky.

**Tony L. Talbert, Ed.D., Professor of Curriculum and Instruction. (2002)**

B.A., Stephen F. Austin U.; M.A., Baylor U.; Ed.D., U. of Houston.

**James Tandy, M.D., Clinical Professor of Biology. (2005)**

B.S., Baylor U.; M.D., U of Texas Southwestern Medical School.

**Kevin N. Tankersley, M.A., Senior Lecturer in Journalism, Public Relations and New Media. (2006)**

B.B.A., Baylor U.; M.A., U. of Arkansas, Little Rock.

**Lynn Tatum, Ph.D., Senior Lecturer in Baylor Interdisciplinary Core and Religion in the Honors College. (1986)**

B.A., Baylor U.; Ph.D., Duke U.

**Joseph Taube, Ph.D., Assistant Professor of Biology and Graduate Program Director. (2015)**

B.S., Baylor U.; Ph.D., UT Health Science Center-MD Anderson Cancer Center

**Edward J. F. Taylor, Ph.D., Senior Lecturer in Music Theory. (2006)**

B.M., Rutgers U.; M.A., *ibid*; Ph.D., *ibid*.

**Mark F. Taylor, Ph.D., Associate Professor of Biology. (1985)**

B.S., Stephen F. Austin State U.; M.S., *ibid*; Ph.D., Texas A&M U.

**Alec Tefertiller, Ph.D., Assistant Professor of Journalism, Public Relations and New Media. (2020)**

B.F.A., Florida State U.; M.A., U. of Houston; Ph.D., U. of Oregon.

**Capt Athina C. Teicher, USAF, Assistant Professor of Aerospace Studies. (2021)**

B.A., United States Air Force Academy

**Elon J. Terrell, Ph.D., Senior Lecturer in Mechanical Engineering. (2017)**

B.S., U. of Texas, Austin; M.S., *ibid*; Ph.D., Carnegie Mellon U.

**Ann M. Theriot, M.A., Clinical Assistant Professor of Interior Design. (2018)**

B.S.F.C.S., Baylor U.; M.A., U. of Buckingham.

**Alexandre Thiltges, Ph.D., Senior Lecturer of French. (2009)**

B.A., Nanterre U., France; M.A., Sorbonne U., France; Ph.D., *ibid*.

**J. Brian Thomas, M.S.E.E., Senior Lecturer in Electrical and Computer Engineering and Faculty-in-Residence in Teal Residential College. (2001)**

B.S., Stephen F. Austin State U.; M.S.E.E., U. of Houston.

**Ronald E. Thomas, Ph.D., Professor of English. (1977)**

B.A., U. of Connecticut; M.A., U. of Michigan; Ph.D., *ibid*.

**Timothy S. Thomasson, M.Tax., Clinical Associate Professor and Graduate Program Director. (2008)**

B.B.A., Baylor U.; M.Tax., *ibid.*

**Michael W. Thompson, Ph.D., Professor of Electrical and Computer Engineering and Associate Dean for Undergraduate Programs. (1999)**  
B.S.E.E., Texas A&M U.; M.S.E.E., *ibid.*; Ph.D., *ibid.*

**Margaret S. Thomson, M.Ed., Senior Lecturer in Curriculum and Instruction. (2002)**  
B.A., Baylor U.; M.Ed., U. of Houston.

**Maj Carl D. Tidwell III, USAF, Assistant Professor of Aerospace Studies. (2019)**  
B.A., U. of Oklahoma.

**Sara Tomek, Ph.D., Associate Professor in the Quantitative Methods program in the Department of Educational Psychology. (2019)**  
M.A., University of Illinois at Urbana-Champaign; Ph.D. *ibid*

**DeAnna M. Toten Beard, Ph.D., Professor and Chair of Theatre Arts. (2002)**  
B.A., Mary Washington College; M.F.A., State U. of New York, Stony Brook; Ph.D., Indiana U., Bloomington.

**Sha Towers, M.L.I.S., Associate Librarian, Director of Liaison Services. (2003)**  
B.M., Baylor U.; M.M., *ibid.*, M.L.I.S., U. of Texas, Austin.

**Michael A. Trakselis, Ph.D., Associate Professor of Chemistry and Biochemistry and Co-Graduate Program Director. (2014)**  
B.S., U. of Illinois; M.S., *ibid.*; Ph.D., Pennsylvania State U.

**Jonathan Tran, Ph.D., Associate Professor of Religion, Holder of The George W. Baines Professorship in Religion. (2006)**  
B.A., U. of California, Riverside; M.Div., Duke Divinity School, Durham; Ph.D., Duke U., The Graduate School, Durham.

**Mary Lynn Trawick, Ph.D., Associate Professor of Chemistry and Biochemistry. (1983)**  
B.S., U. of Michigan; Ph.D., Case Western Reserve U.

**Jonathan K. Trower, Ph.D., Associate Professor and Chair of Information Systems. (1986)**  
B.A., Drury College; M.B.A., Baylor U.; Ph.D., U. of Minnesota.

**Stephen J. Trumble, Ph.D., Associate Professor of Biology. (2008)**  
B.S., Texas State U.; M.S., California State U., Fresno; Ph.D., U. of Alaska, Fairbanks.

**Jo-Ann Tsang, Ph.D., Associate Professor of Psychology and Neuroscience. (2002)**  
B.A., U. of California, Berkeley; M.A., U. of Kansas; Ph.D., *ibid.*

**Lingjiang (Lora) Tu, Ph.D., Clinical Associate Professor of Marketing. (2014)**  
B.A., N. China U.; M.A., U. of Central Florida; Ph.D., U. of Texas at San Antonio.

**Jack D. Tubbs, Ph.D., Professor of Statistical Science. (2003)**  
B.S., Eastern New Mexico U.; M.S., Texas Tech U.; Ph.D., *ibid.*

**Cheryl A. Tucker, D.N.P., Clinical Associate Professor of Nursing. (2005)**  
B.S., Baylor U.; M.S.N., Georgia College & State U, D.N.P., U. of Nevada, Las Vegas

**Carolyn Turner, M.B.A., Senior Lecturer in Information Systems and Quantitative Business Analysis. (1983)**

B.B.A., Baylor U.; M.B.A., *ibid.*

**Andrea L. Turpin, Ph.D., Associate Professor of History and Interim Graduate Program Director. (2011)**  
A.B., Princeton U.; M.A., Gordon-Conwell Theological Seminary; Ph.D., U. of Notre Dame.

**Cindy A. Tynes, D.N.P., Clinical Assistant Professor of Nursing. (2009-2015<sup>1</sup>, 2015)**  
B.S.N., Texas Women's U.; M.S.N., Duke U.; D.N.P., Indiana Wesleyan U.

**David M. Uber, Ph.D., Professor of French. (1976)**  
A.B., Hamilton College; M.A., Rice U.; Ph.D., *ibid.*

**Jeremy E. Uecker, Ph.D., Associate Professor of Sociology. (2012)**  
B.A., Furman U.; M.A., U. of Texas; Ph.D., *ibid.*

**M. Renee Umstattd-Meyer, Ph.D., Robbins College Associate Dean for Research, Professor in Public Health. (2010)**  
B.S., Baylor U.; M.S., U. of Mississippi; Ph.D., U. of South Carolina, Columbia.

**Randall Umstead, D.M.A., Professor of Voice and Associate Dean for Academic Affairs. (2006)**  
B.M., Oklahoma Baptist U.; M.M., U. of Cincinnati, College Conservatory of Music; D.M.A., *ibid.*

**Shane E. Underwood, Ph.D., Associate Professor and Chair of Finance and holder of The Pat & Thomas R. Powers Chair of Investment in Management. (2016)**  
B.S., U. of Alabama; M.A., U. of Pennsylvania; Ph.D., *ibid.*

**Laura Upenieks, Ph.D., Assistant Professor of Sociology. (2020)**  
HBSc., Univ. of Toronto; M.A., *ibid.*; Ph.D.; *ibid.*

**Samuel S. Urlacher, Ph.D., Assistant Professor of Anthropology. (2019)**  
A.B., Brown U.; A.M. Harvard U.; Ph.D., *ibid.*

**Sascha Usenko, Ph.D., Associate Professor of Environmental Science. (2008)**  
B.S., Oregon State U.; Ph.D., *ibid.*

**Jamie Van Eyke, D. M.A., Assistant Professor of Voice and Division Director of Vocal Studies. (2013)**  
B.M., U. of Wisconsin-Madison; M.M., New England Conservatory of Music; D.M.A., U. of Wisconsin-Madison.

**Christian van Gorder, Ph.D., Associate Professor of Religion. (2004)**  
B.A., Oral Roberts U.; M.A., Asbury Theological Seminary; Ph.D., Queen's U. of Belfast, Ireland.

**Kenneth W. Van Treuren, D. Phil., Professor of Mechanical Engineering and Associate Dean for Research and Faculty Development. (1998)**  
B.S., USAF Academy; M.S.E., Princeton U.; D.Phil., U. of Oxford, UK.

**David D. VanHoose, Ph.D., Professor of Economics and holder of The Herman W. Lay Chair of Private Enterprise. (2001)**  
B.A., Indiana U.; Ph.D., U. of North Carolina, Chapel Hill.

**Scott J. Varda, Ph.D., Associate Professor of Communication. (2007)**  
B.S., Illinois State U.; Ph.D., The U. of Iowa.

**John A. Vasut, Ph.D., Senior Lecturer in Physics. (2002)**  
B.S., Baylor U.; Ph.D., *ibid.*

**Benna Vaughan, M.A., Assistant Librarian and Special Collections and Manuscripts Archivist. (2012)**

B.A., U. of Texas, Arlington; M.A., U. of Texas, Arlington.

**Tanya R. Vernon, M.A., Lecturer, English for Academic Purposes in Global Gateway Program. (2019)**

B.A., Mississippi College; M.A., U. of Texas, Arlington.

**Elisabeth G. Vichaya, Ph.D., Assistant Professor of Psychology & Neuroscience. (2019)**

B.S., Wayland Baptist U.; M.S., Texas A&M U., Ph.D., *ibid*.

**Annette von Jouanne, Ph.D., Professor of Electrical and Computer Engineering. (2017)**

B.S., Southern Illinois U., Carbondale; M.S., *ibid*; Ph.D., Texas A&M U.

**Debra M. Wainscott, M.A., Lecturer, English for Academic Purposes in Global Gateway Program. (2020)**

B.S., East Texas Baptist U.; M.A., U. of Texas, Arlington.

**Kirk L. Wakefield, Ph.D., Professor of Marketing and holder of The Edwin W. Streetman Professorship in Retail Marketing. (2002)**

B.A., Southwest Baptist U.; M.B.A., Baylor U., Ph.D., Saint Louis U.

**Lane T. Wakefield, Ph.D., Clinical Assistant Professor of Marketing and Sports, Strategy & Sales Director. (2020)**

B.B.A., Howard Payne U.; M.S., Baylor U.; Ph.D., Texas A&M U.

**Robin L. Wakefield, Ph.D., Professor of Information Systems. (2002)**

B.S., Southwest Baptist U.; M.Tax., U. of Mississippi; Ph.D., *ibid*.

**Daniel Walden, Ph.D., Associate Professor of English and Undergraduate Program Director, Affiliated Faculty, Program in Medical Humanities. (2010)**

B.A., U. of North Carolina, Chapel Hill; M.A., U. of North Carolina, Wilmington; Ph.D., U. of Mississippi.

**Sarah Walden, Ph.D., Associate Professor in the Baylor Interdisciplinary Core and Assistant Director of the University Scholars Program in the Honors College. (2013)**

B.A., Baylor U.; M.A., U. of Mississippi; Ph.D., *ibid*.

**Robin Wallace, Ph.D., Professor of Musicology. (2003)**

B.A., Oberlin College; M.Phil., Yale; Ph.D., *ibid*.

**Randall L. Waller, Ph.D., Clinical Associate Professor of Business Communication. (1989)**

B.A., Texas Tech U.; M.A., *ibid*; M.A., West Texas State U.; Ph.D., Texas A&M U.

**Christina C. Walter-Gensler, Ph.D., Lecturer in German. (2016)**

B.A., Fachhochschule; B.A., Padagogische Hochschule; M.A., U. of Florida; Ph.D., U. of Texas.

**Anzhong Wang, Ph.D., Professor of Physics. (2003)**

B.S., Shandoug Normal U.; M.S., Northwest Normal U.; Ph.D., U. of Ioannina.

**Liang Wang, MD, DrPH, MPH. Associate Professor and Director of Epidemiology. (2020)**

MD, Wuhan University of Science and Technology; MPH, Epidemiology, East Tennessee State University; DrPH Epidemiology East Tennessee State University.

**Xin Wang, Ed.D., Associate Professor of Chinese and Division Director of Asian and African Languages. (2002-2003<sup>1</sup>, 2003)**

B.A., Shaanxi Business and Economics Institute; M.S.Ed., Baylor U.; Ed.D., *ibid*.

**Xunyi Wang, Ph.D., Assistant Professor of Information Systems. (2020)**

B.S., Central South U., Changsha, China; M.S., SUNY- Buffalo, Ph.D., *ibid*.

**Ann M.E. Ward, Ph.D., Professor of Political Science. (2017)**

B.A., U. Toronto; M.A., Brock U.; Ph.D., Fordham U.

**Bennie F.L. Ward, Ph.D., Distinguished Professor of Physics. (2003)**

B.S., Massachusetts Institute of Technology; M.A., Princeton U.; Ph.D., *ibid*.

**Lee A. Ward, Ph.D., Professor of Political Science. (2017)**

B.A., U. Toronto; M.A., Brock U.; Ph.D., Fordham U.

**Thomas M. Ward, Assistant Professor of Philosophy and Undergraduate Program Director. (2017)**

B.A., Biola U.; M.Phil., U. Oxford; Ph.D., U. California Los Angeles

**Zachary A. Ward, Ph.D., Assistant Professor of Economics. (2018)**

B.A., Wheaton College; Ph.D., U. of Colorado Denver.

**Daniel J. Watkins, Ph.D., Assistant Professor of History. (2017)**

B.A., U. Florida; M.A., *ibid*; Ph.D., Ohio State U.

**Adam Weaver, M.S., Clinical Assistant Professor of Electrical and Computer Engineering. (2020)**

B.S., Baylor U.; M.S., Air Force Institute of Technology

**C. Douglas Weaver, Ph.D., Professor of Religion, Undergraduate Program Director, Director of the Baptist Studies Center for Research, and Director of the J.M. Dawson Institute of Church-State Studies. (2003)**

B.A., Mississippi College; M.Div., The Southern Baptist Theological Seminary; Ph.D., *ibid*.

**Charles A. Weaver, III, Ph.D., Professor and Chair of Psychology and Neuroscience and Master Teacher. (1989)**

B.S., Baylor U.; M.A., U. of Colorado; Ph.D., *ibid*.

**William P. Weaver, Ph.D., Associate Professor of Literature in the Honors College. (2007)**

B.A., Vanderbilt U.; M.A., Columbia U.; Ph.D., *ibid*.

**Lauren M. Weber, M.F.A., Lecturer in Theatre Arts. (2014)**

B.M., U. of Oklahoma; M.M., Minnesota State U.; M.F.A., *ibid*.

**Sharon Weiner, Ph.D., Lecturer in German. (2019)**

B.S., Stanford U., M.P.H., Columbia U. in the City NY; M.S., *ibid*; Ph.D., U. of Illinois, Chicago.

**Nadine M. Welch, M.S., Clinical Assistant Professor. (2016)**

B.S., Baylor U.; M.S., *ibid*.

**James E. West, Ph.D., Professor of Economics and holder of The W. H. Smith Professorship in Economics. (2011)**

B.A., U. of Denver; M.A., U. of Michigan; Ph.D., *ibid*.

**Lynn Whitcomb, Ph.D., Senior Lecturer in Arabic. (2015)**

B.A., Kalamazoo College; M.A., Northwestern U.; Ph.D., *ibid*.

**David J. White, Ph.D., M.L.I.S., Senior Lecturer in Classics. (2004)**

B.A., U. of Akron; M.A., U. of Pennsylvania; M.L.I.S., Kent State U.; Ph.D., U. of Florida.

**Joseph D. White, Ph.D., Professor of Biology and Director of the Institute for Ecology, Earth and Environmental Sciences. (1998)**

B.A., Texas Christian U.; M.S., *ibid.*; Ph.D., U. of Montana.

**Michael R. Whitenon, Ph.D., Lecturer in the Baylor Interdisciplinary Core. (2020)**

B.S., Texas A&M U.; Th.M., Dallas Theological Seminary; Ph.D., Baylor U.

**David M. Whitford Ph.D., Professor of Religion. (2013)**

B.A., U. of Massachusetts; M.Div., Princeton Theological Seminary; Ph.D., Boston U.

**Jason A. Whitlark, Ph.D., Professor in Baylor Interdisciplinary Core and Religion, and Faculty Assistant Director of the Baylor Interdisciplinary Core in the Honors College. (2006<sup>1</sup>, 2007, 2008)**

B.S., Auburn U.; M.Div., Southwestern Baptist Theological Seminary; Ph.D., Baylor U.

**Jason D. Whitt, Ph.D., Senior Lecturer of Medical Humanities in the Honors Program, Faculty Steward of the Honors Residential College, and Faculty-in-Residence in Alexander Hall and Memorial Hall. (2018)**

B.A., Baylor U.; M.Div., Southwestern Baptist Theological Seminary; Ph.D., Baylor U.

**Michael P. Wiggs, Ph.D., Assistant Professor of Health, Human Performance, and Recreation, (2020)**

B.S., Texas A&M U.; Ph.D., *ibid.*

**Breanne Wilburn, M.S.N., Clinical Assistant Professor in Nursing. (2018)**

B.S.N., Liberty U.; M.S.N., U of Texas at Arlington

**Walter M. Wilcox, Ph.D., Professor of Physics. (1986)**

B.S., Southern Methodist U.; Ph.D., U. of California, Los Angeles.

**Stanley R. Wilfong, Jr., M.S., R.D., Senior Lecturer of Nutrition Sciences. (2013)**

B.S., Texas Tech U.; M.S., *ibid.*

**Trena L. Wilkerson, Ph.D., Professor of Curriculum and Instruction. (1999)**

B.S., Mississippi College; M.Ed., Southeastern Louisiana U.; Ph.D., U. of Southern Mississippi.

**Kenneth T. Wilkins, Ph.D., Professor of Biology and Associate Dean for Sciences, College of Arts & Sciences. (1983)**

B.S., U. of Texas, Arlington; M.S., Texas A&M U.; Ph.D., U. of Florida.

**Maj Rodney W. Wilkinson III, USAF, Assistant Professor of Aerospace Studies. (2019)**

B.A., Texas State U.

**Daniel H. Williams, Ph.D., Professor of Religion. (2002)**

B.A., Northeastern Bible College; M.A., U. of Toronto; M.Div., Trinity Evangelical Divinity School; Th.M., Princeton Theological Seminary; Ph.D., U. of Toronto.

**Danielle M. Williams, Ph.D., Senior Lecturer in English and Director of First-Year Writing.**

B.A., Azusa Pacific U.; Ph.D., Baylor U.

**Deborah K. Williamson, D.M.A., Associate Professor of Voice. (2000-2001<sup>1</sup>; 2001)**

B.M., Baylor U.; M.M., U. of Cincinnati, College-Conservatory of Music; D.M.A., U. of North Texas.

**Matthea S. Williams, Ed.D., Associate Clinical Professor of Health, Human Performance and Recreation. (2012)**

B.S., Gardner-Webb U.; M.S., Indiana State U.; Ed.D., Gardner-Webb U.

**Betsy B. Willis, M.Tax., Senior Lecturer in Accounting. (1985)**

B.A., Baylor U.; M.Tax., *ibid.*

**J. Eric Wilson, D.M.A., Associate Professor of Ensembles and Director of Bands. (2006)**

B.M.E., Abilene Christian U.; M.M., U. of Michigan; D.M.A., *ibid.*

**John E. Wilson, Ph.D., Clinical Professor of Educational Leadership. (2010)**

B.M., Hardin-Simons U.; M.M., Baylor U.; Ph.D., Texas A&M U.

**John S. Wilson, M.L.S., Associate Professor, Associate Dean of Special Collections, and Director of the Texas Collection. (1987)**

B.S., Bowling Green State U.; M.L.S., U. of South Carolina.

**Zachary D. Wingerd, Ph.D., Senior Lecturer in History. (2012)**

B.A., LeTourneau U.; M.A., U. of Texas, Arlington; Ph.D., *ibid.*

**Luke Winslow, Ph.D., Assistant Professor of Communication. (2020)**

B.A., Azusa Pacific U.; M.A., Cal State Fullerton; Ph.D., The U. of Texas at Austin.

**Dana Winters, M.A., Lecturer in Mathematics. (2019)**

B.A. Baylor U., M.A., Texas Woman's University.

**Andrew C. Wisely, Ph.D., Associate Professor of German. (2003)**

A.B., Wheaton College; M.A., Washington U.; Ph.D., *ibid.*

**Mary M. Witte, Ed.D., Senior Lecturer in Curriculum and Instruction. (1999)**

B.S., Baylor U.; M.S.Ed., *ibid.*; Ed.D., *ibid.*

**Jennifer Woo, Ph.D., Clinical Assistant Professor of Nursing. (2016)**

B.S.N., U. of Pennsylvania; M.S.N., *ibid.*

**John L. Wood, Ph.D., Robert A. Welch Distinguished Professor in Chemistry and CPRIT Scholar in Cancer Research. (2013)**

B.A., U. of Colorado; Ph.D., U. of Pennsylvania.

**Matthew S. Wood, Ph.D., Associate Professor and holder of the Robert M. and Louise Rogers Chair in Entrepreneurship. (2012)**

B.A., Eureka College; M.B.A., Bradley U.; Ph.D., Southern Illinois U.

**Ralph C. Wood, Ph.D., University Professor of Theology and Literature. (1998)**

B.A., East Texas State U.; M.A., *ibid.*; A.M., U. of Chicago; Ph.D., *ibid.*

**Randy M. Wood, Ph.D., Professor of Curriculum and Instruction. (1985)**

B.A., Baylor U.; M.Div., Southwestern Baptist Theological Seminary; M.Ed., Texas Christian U.; Ph.D., Baylor U.

**Sinai P. Wood, M.L.S., Associate Professor and Documents Librarian. (1990)**

B.B.A., Baylor U.; M.L.S., Texas Woman's U.

**Margaret E. Woody, Ph.D., Director of All Level Physical Education and Director of Health, Kinesiology, and Leisure Studies. (1976)**

B.S.Ed., Baylor U.; M.S.Ed., *ibid.*; Ph.D., U. of Tennessee.

**Rachel C. Woods, J.D., Clinical Assistant Professor in Management. (2015)**

B.A., Baylor U.; J.D., St. Mary's U. School of Law.

**William J. Worthington, Ph.D., Clinical Associate Professor of Entrepreneurship and Director of the Institute for Family Business. (2007)**

B.S., Texas A&M U.; M.B.A., Pennsylvania State U.; Ph.D., Texas A&M U.

**Alisha M. Wray, Ph.D., Clinical Assistant Professor and Clinic Director of Psychology and Neuroscience. (2017)**

B.A., U. of New Mexico; M.S., *ibid.*; Ph.D., *ibid.*

**J. Lenore Wright, Ph.D., Associate Professor in Baylor Interdisciplinary Core and Philosophy in the Honors College and Director of The Academy for Teaching and Learning. (1999-2003<sup>1</sup>, 2003)**

B.A., Morehead State U.; M.A., Baylor U.; Ph.D., State U. of New York, Buffalo.

**Michael W. Wright, M.B.A., Clinical Assistant Professor of Management. (2017)**

B.S., Friends UU; M.B.A., *ibid.*

**Lori B. Wrzesinski, M.S., Senior Lecturer in American Sign Language and Director of American Sign Language Programs. (1994)**

B.A., U. of Texas, Arlington; M.S., Baylor U.

**Ju-Chien (Cindy) Wu, Ph.D., Professor of Management. (2003)**

B.B.A., National Taiwan U.; M.B.A., National Sun Yat-Sen U.; M.A., U. of Illinois, Urbana-Champaign; Ph.D., *ibid.*

**Qinxi Wu, Ph.D., Assistant Professor of Finance. (2017)**

B.A., Nankai U.; M.Sc., *ibid.*; M.Sc., Georgia Institute of Technology; Ph.D., Georgia State U.

**Christopher Wynveen, Ph.D., Associate Professor of Health, Human Performance and Recreation. (2010)**

B.S., U. of Illinois-Urbana; M.S., Clemson U.; Ph.D., Texas A&M U.

**Betty Xing, Ph.D., Assistant Professor of Accounting & Business Law. (2020)**

B.B.A., Wilfred Laurier U.; B.Math, U. of Waterloo; M.Tax, *ibid.*; Ph.D. *ibid.*

**Jiaju (Justin) Yan, Ph.D., Assistant Professor of Entrepreneurship. (2020)**

B.A., U. of International Business and Economics, Beijing; M.B.A., Seton Hall U.; Ph.D., U. of Tennessee.

**Gaynor I. Yancey, D.S.W., Professor of Social Work and Master Teacher, Director of the Center for Church and Community Impact and Lake Family Endowed Chair in Congregational and Community Health. (1999)**

B.A., East Texas Baptist U.; M.R.E., Southwestern Baptist Theological Seminary; M.S.W., Temple U.; D.S.W., U. of Pennsylvania.

**George Yancey, Ph.D., Professor of Social Studies, Professor of Sociology. (2019)**

B.S., West Texas State U.; M.A., U. of Texas; Ph.D., *ibid.*

**Vincent Yang, Ph.D., Associate Professor of Chinese. (1996)**

B.A., National Taiwan U.; M.A., *ibid.*; M.A., Rutgers U.; Ph.D., *ibid.*

**Allison R. Yanos, M.L.S., Assistant Librarian and Catalog Librarian. (2006)**

B.A., U. of Notre Dame; M.L.S., Indiana U.

**Joe C. Yelderman, Jr., Ph.D., Professor of Geosciences, Director of Baylor's Wastewater Research Program, and Director for TIEEES. (1983)**

B.S., Baylor U.; M.S., *ibid.*; Ph.D., U. of Wisconsin.

**Kelly R. Ylitalo, Ph.D., Associate Professor of Epidemiology. (2016)**

B.A., Baylor U.; Ph.D., U. of Michigan.

**Alexandre Yokochi, Ph.D., Professor of Mechanical Engineering. (2017)**

B.S., Southern Illinois U.-Carbondale; M.S., *ibid.*; Ph.D., Texas A&M U.

**Hyunsoo Yoo, Ph.D., Assistant Professor in Communication Sciences and Disorders. (2019)**

B.A., Sangmyung U.; M.S., Hallym U.; Ph.D., U of Pittsburgh.

**Jeong-Ju Yoo, Ph.D., Associate Professor in Apparel Design and Merchandising. (2009)**

B.A., Seattle Pacific U.; A.A.S., Fashion Institute of Technology; M.A., Cornell U.; Ph.D., U. of Minnesota.

**Yang-Soo Yoon, Ph.D., Associate Professor of Communication Sciences and Disorders. (2018)**

B.S.E.C.E., Seoul National U. of Technology; M.S., Texas A&M U. Kingsville; Ph.D., U. Illinois Urbana.

**Terry W. York, D.M.A., Associate Professor of Christian Ministry and Church Music. (1998)**

B.A., California Baptist College; M.C.M., New Orleans Baptist Theological Seminary; D.M.A., *ibid.*

**Dean M. Young, Ph.D., Professor of Statistical Science. (1980)**

B.S., Texas Tech U.; M.S., Baylor U.; M.S., U. of Texas, Dallas; Ph.D., *ibid.*

**Philip D. Young, Ph.D., Clinical Associate Professor of Information Systems and Business Analytics. (2015)**

B.S., Baylor University; M.S., *ibid.*, Ph.D., *ibid.*

**Laurel E. Zeiss, Ph.D., Associate Professor of Musicology. (1999-2000<sup>1</sup>, 2000)**

B.M., Greensboro College; M.A., U. of North Carolina, Chapel Hill; Ph.D., *ibid.*

**Wen Zhang, Ph.D., Assistant Professor of Management. (2020)**

B.E., Nanchang U., Jiangxi, China; M.S., U. of Texas at Dallas; Ph.D., *ibid.*

**Zhenrong Zhang, Ph.D., Associate Professor of Physics. (2009)**

B.S., Lanzhou U.; M.S., *ibid.*, Ph.D., Institute of Physics, Chinese Academy of Science.

**Qianwei Zhao, Assistant Professor of Social Work. (2020)**

B.S., Shandong U. of Finance and Economics; M.S.W., U. of Pennsylvania; Ph.D., U. of Southern California Los Angeles.

**Paul W. Zinke, Ph.D., Senior Lecturer in Chemistry and Biochemistry. (2014)**

B.S. Texas A&M U., Commerce; M.S., *ibid.*, Ph.D., U. of Colorado.

**Colleen M. Zori, Ph.D., Senior Lecturer and Lab Coordinator in the Baylor Interdisciplinary Core in the Honors College. (2019)**

B.A., Stanford U.; M.A., U. of California, Los Angeles; Ph.D., *ibid.*

**Davide M. Zori, Ph.D., Associate Professor in the Baylor Interdisciplinary Core in the Honors College and Affiliated Faculty of the History Department. (2014)**

B.A., U. of Florida; M.A., U. of California, Los Angeles; Ph.D., *ibid.*

**Melody York Zuniga, M.S.W., Senior Lecturer and Associate Dean for Academic Affairs. (2009)**

B.A., Baylor U.; M.S.W., *ibid.*

**Carlos V. Zurita, Ph.D., Assistant Professor of Finance. (2016)**

B.S., U. Nacional de Cordoba; M.S., U. del CEMA; Ph.D., U. of Houston.

<sup>1</sup> Lecturer

## Emeriti Faculty

### **L. Joseph Achor, Ph.D., Associate Professor of Psychology and Neuroscience. (1978-2016)**

B.A., U. of California at Los Angeles; M.A., *ibid.*; Ph.D., U. of California at Irvine.

### **Bill T. Adams, Ph.D., Professor of Physics. (1962-2000)**

B.S., Baylor U.; M.S., *ibid.*; Ph.D., U. of Kansas.

### **Linda S. Adams, Ph.D., Professor of Political Science. (1990-2014)**

B.A., U. of South Carolina; M.A., *ibid.*; Ph.D., *ibid.*

### **A. Dale Allen, Ph.D., Professor of Management. (1978-2002)**

B.S., Indiana U.; M.B.A., *ibid.*; D.B.A., U. of Colorado; Ph.D., *ibid.*

### **Peter M. Allen, Ph.D.; Professor of Geosciences. (1978-2020)**

B.A., Denison U.; M.S., Baylor U.; Ph.D., Southern Methodist U.

### **Mark W. Anderson, M.F.A., Chair and Professor of Art. (2010-2020)**

B.F.A., U. of Nebraska; M.F.A., Wichita State U.

### **F. Michael Ard, D.M.A., Professor of Keyboard Studies. (1968-2000)**

B.M., Morningside College Conservatory of Music; M.M., Indiana U.; D.M.A., U. of Arizona.

### **David M. Arnold, Ph.D., Professor and the Ralph Jean Storm Professor of Mathematics. (1990-2015)**

B.A., Wichita State U.; M.A., Western Washington State U.; Ph.D., U. of Illinois.

### **Carolyn A. Backus, D.M.A., Professor of Vocal Studies. (1974-2006)**

B.M., U. of Illinois; M.S. Music, Juilliard School of Music; D.M.A., U. of Illinois.

### **Robert M. Baird, Ph.D., Professor of Philosophy, Master Teacher, and Cornelia Marschall Smith Distinguished Professor. (1960-1961, 1968-2014)**

B.A., Baylor U.; M.A., *ibid.*; Ph.D., Emory U.

### **Robert S. Baldrige, Ph.D., Professor of Biology. (1978-1980+; 1980-2019)**

B.S. Baylor U.; M.S., Kansas State U.; Ph.D., *ibid.*

### **James D. Bargainer, Ph.D., Professor and Dean of the School of Engineering and Computer Science. (1979-1999)**

B.S. (E.E.), Lamar U.; M.S. (E.E.), Northwestern U.; Ph.D. (E.E.), U. of Texas.

### **Lewis M. Barker, Ph.D., Professor of Psychology and Neuroscience. (1972-2000)**

B.A., Occidental College; M.A., Florida State U.; Ph.D., *ibid.*

### **Madalene R. Barnett, Ph.D., Professor of Communication Disorders. (1968-1985)**

B.S.Ed., State College, Indiana, Pa.; M.A., Ohio U.; Ph.D., *ibid.*

### **E. Jeter Basden, Ed.D., Professor of Religion. (1989-2017).**

B.A., Baylor U.; M.R.E., Southwestern Baptist Theological Seminary; Ed.D., U. of North Texas

### **Rosalie Beck, Ph.D., Associate Professor of Religion. (1984-2019)**

B.A., U. of California, San Diego; M.Div., Southwestern Baptist Theological Seminary; Ph.D., Baylor U.

### **Weldon E. Beckner, Ed.D., Professor of Educational Leadership. (1995)**

B.S., Wayland Baptist U.; M.Ed., Texas Tech U.; Ed.D., U. of Colorado.

### **John S. Belew, Ph.D., Professor of Chemistry and Provost Emeritus. (1956-1991)**

B.S., Baylor U.; M.S., Wichita State U.; Ph.D., U. of Wisconsin.

### **Helen E. Benedict, Ph.D., Professor of Psychology. (1981-2014)**

B.A., Connecticut College; Ph.D., Yale U.

### **Gregory A. Benesh, Ph.D., Professor of Physics. (1982 - 2020)**

B.A., Rice U.; M.S., Northwestern U.; M.S., Baylor U.; Ph.D., Northwestern U.

### **Barbara L. Bennett, Ph.D., Professor of Music Education. (1969-1996)**

B.M.E., Madison College; M.M., Baylor U.; Ph.D., U. of Texas.

### **Rena M. Bonem, Ph.D., Professor of Geosciences. (1981-2018)**

B.S., New Mexico Institute of Mining and Technology; M.S., *ibid.*; Ph.D., U. of Oklahoma.

### **Mary A. Booras, M.A., Associate Professor of Speech Communication. (1956-1995)**

B.S., Auburn U.; M.A., U. of Alabama.

### **Martha J. Bradshaw, Ph.D., Professor at Louise Herrington School of Nursing. (2004-2012)**

B.S.N., Baylor; M.S.N., U. of Texas; Ph.D., *ibid.*

### **Roger L. Brooks, Ph.D., Professor of English and Director of Armstrong Browning Library. (1984-1996)**

B.A., Baylor U.; M.A., U. of Illinois; Ph.D., U. of Colorado.

### **Ellen K. Brown, M.L.I.S., Associate Professor and Associate Director and Archivist of The Texas Collection. (1976-2010)**

B.S., Wayland Baptist College; M.A., Baylor U.; M.L.I.S., U. of Texas.

### **Lyle C. Brown, Ph.D., Professor of Political Science. (1963-1995)**

B.A., U. of Oklahoma; M.A., *ibid.*; Ph.D., U. of Texas.

### **Charlene S. Budd, Ph.D., Professor of Accounting and holder of the Emerson O. Henke Chair in Accounting. (1973-2005)**

B.B.A., Baylor U.; M.B.A., *ibid.*; Ph.D., U. of Texas.

### **Kenneth W. Busch, Ph.D., Professor of Chemistry. (1974-2010)**

B.S., Florida Atlantic U.; Ph.D., Florida State U.

### **Marianna S. Busch, Ph.D., Professor of Chemistry. (1977-2010)**

B.A., Randolph-Macon Woman's College; Ph.D., Florida State U.

### **Raymond J. Cannon, Jr., Ph.D., Professor of Mathematics. (1978, 1980-2013)**

A.B., College of the Holy Cross; Ph.D., Tulane U.

### **Michael N. Cassell, Ph.D., Associate Professor of Accounting. (1980-2008)**

B.S., Virginia Polytechnic Institute and State U.; M.S., *ibid.*; Ph.D., U. of Georgia.

### **Delton L. Chesser, Ph.D., Professor of Accounting and holder of The Roderick L. Holmes Chair of Accountancy. (1985-2005)**

B.B.A., U. of Texas; M.B.A., U. of North Texas; Ph.D., U. of Arkansas, Fayetteville.

### **Rinn M. Cloud, Ph.D., Professor and Chair of Family and Consumer Sciences and the Mary Gibbs Jones Endowed Chair of Textile Sciences. (2010-2020)**

B.S., Louisiana State U.; M.S., Purdue U.; Ph.D., U. of North Carolina, Greensboro.

**Linda R. Cobbs, M.L.S., Associate Professor and Access Services Librarian. (1973-2009)**

B.A., Texas Woman's U.; M.L.S., *ibid.*

**Lane G. Collins, D.B.A., Professor of Accounting and holder of The Price Waterhouse Faculty Fellowship for Teaching Excellence. (1971)**

B.B.A., Baylor U.; M.B.A., U. of Southern California; D.B.A., *ibid.*

**Patricia W. Cook, M.F.A., Professor of Theatre Arts. (1963-1999)**

B.A., Sul Ross State College; M.A., Columbia U.; M.F.A., U. of Texas.

**William F. Cooper, Ph.D., Professor of Philosophy. (1966-2003)**

B.A., Baylor U.; B.D., Southern Baptist Theological Seminary; M.A., Baylor U.; Ph.D., Indiana U.

**Bruce C. Cresson, Ph.D., Professor of Religion, The Dr. W. W. Melton Professor of Religion, Director of the University Scholars Program, Director of the Institute of Archaeology, and Director of the Institute of Biblical and Related Languages. (1966-2000)**

B.A., Wake Forest U.; B.D., Southeastern Baptist Theological Seminary; Th.M., *ibid.*; Ph.D., Duke U.

**Wallace L. Daniel, Jr., Ph.D., The Ralph L. and Bessie Mae Lynn Professor of History and The Cornelia Marschall Smith Distinguished Professor. (1971-2008)**

B.A., Baylor U.; M.A., U. of Texas; Ph.D., *ibid.*

**Mary Ellen Davenport, M.S., Assistant Professor of Nursing. (1970-1987)**

B.S.N., U. of Pittsburgh; M.S., Texas Woman's U.

**William V. Davis, Ph.D., Professor of English and Writer-in-Residence. (1977-2015)**

B.A., Ohio U.; M.A., *ibid.*; M.Div. Pittsburgh Theological Seminary; Ph.D., Ohio U.

**Robert T. Doty, Ph.D., Professor of Mechanical Engineering. (1987-2013)**

B.S., U. of Oklahoma; M.S., *ibid.*; Ph.D., *ibid.*

**Richard E. Duhrkopf, Ph.D., Associate Professor of Biology. (1984-2017)**

B.S., The Ohio State U.; M.S., *ibid.*; Ph.D., *ibid.*

**John A. Dunbar, Ph.D., Associate Professor of Geosciences. (1994-2020)**

B.S., Virginia Polytechnic Institute and State U.; M.S., *ibid.*; Ph.D., U. of Texas.

**Preston M. Dyer, Ph.D., Professor of Social Work. (1969-2009)**

B.A., Baylor U.; M.S.W., Louisiana State U.; Ph.D., Texas Woman's U.

**Donald R. Edwards, Ph.D., Professor of Management. (1981-2000)**

B.S., U.S. Military Academy, West Point; M.S., Rensselaer Polytechnic Institute; Ph.D., Arizona State U.

**Steven R. Eisenbarth, Ph.D., Professor and Associate Chair of Electrical and Computer Engineering. (1980-2013)**

B.S., College of Idaho; M.S., Baylor U.; Ph.D., *ibid.*

**David W. Eldridge, Ph.D., Professor of Biology. (1968-2011)**

B.S., Tennessee Technological U.; M.S., Auburn U.; Ph.D., *ibid.*

**Harry Elzinga, Ph.D., Professor of Musicology. (1981-2003)**

B.S., U. of Wisconsin, River Falls; M.M., Indiana U.; Ph.D., *ibid.*

**Elizabeth Farren, Ph.D., Professor of Nursing. (1981-2011)**

B.S.N., Northern Illinois U.; M.S.N., U. of Tennessee, Knoxville; Ph.D., U. of North Texas.

**Donald R. Farris, Ph.D., Professor of Electrical and Computer Engineering. (1988-2009)**

B.S.E.E., Texas Tech U.; M.S.E.E., Southern Methodist U.; Ph.D., *ibid.*

**Lawrence G. Felice, Ph.D., Professor of Sociology. (1970-2005)**

A.B., Washington U.; B.D., Eden Theological Seminary; M.A., State U. of New York; Ph.D., Cornell U.

**John C. Flynn, Ph.D., Professor of Psychology and Neuroscience. (1963-1996)**

B.S., Pennsylvania State U.; M.A., Ohio State U.; Ph.D., *ibid.*

**Donald L. Gaitros, Ph.D., Professor and Chair of Computer Science. (1973-2011)**

B.S. Western Illinois U.; M.S., U. of Missouri, Rolla; Ph.D., *ibid.*

**Linda F. Garner, Ph.D., Professor of Nursing. (1970-1974, 1976-2010)**

B.S.N., Baylor U.; M.S.N., U. of Minnesota; Ph.D., U. of North Texas.

**Frederick R. Gehlbach, Ph.D., Professor of Biology. (1963-1995)**

B.A., Cornell U.; M.S., *ibid.*; Ph.D., U. of Michigan.

**Sandra J. Genrich, Ph.D., Professor of Nursing. (1981-2000)**

B.S.N., Wayne State U.; M.S.N., *ibid.*; Ph.D., U. of Texas, Arlington.

**William K. Ghee, Ph.D., Professor of Finance and Insurance. (1981-1997)**

B.S., U. of Kentucky; M.B.A., Syracuse U.; Ph.D., U. of Pennsylvania.

**L. Kent Gilbreath, Ph.D., Professor of Economics. (1973-2011)**

B.A., Baylor U.; M.A., *ibid.*; Ph.D., U. of Florida.

**Norman L. Gilchrest, Ed.D., Professor Health, Human Performance and Recreation. (1995-2001)**

B.S., Baylor U.; M.S., *ibid.*; Ed.D., *ibid.*

**Elizabeth S. Githens, M.A., Professor of English. (1945-1969)**

B.A., Blue Mountain College; M.A., Baylor U.

**Thomas T. Goforth, Ph.D., W. M. Keck Foundation Professor of Geophysics. (1987-2007)**

B.S., Baylor U.; M.A., U. of Texas; Ph.D., *ibid.*

**Clement T. Goode, Ph.D., Professor of English. (1957-1997)**

B.A., Hendrix College; M.A., Vanderbilt U.; Ph.D., *ibid.*

**Johanna Guenther, Ph.D., Associate Professor of Nursing and Director of Learning Resources. (1980-2003)**

B.A., Case Western Reserve U.; M.L.S., U. of North Texas; Ph.D., U. of North Texas.

**Delta R. Hafford, Ph.D., Associate Professor of Family and Consumer Sciences. (1975-1991)**

B.S., Baylor U.; M.S., Texas Woman's U.; Ph.D., *ibid.*

**D. Thomas Hanks, Jr., Ph.D., Professor of English and Master Teacher. (1976-2017)**

B.A., Washington U.; M.A., *ibid.*; Ph.D., U. of Minnesota.

**Donald L. Hardcastle, Ph.D., Professor of Physics. (1967-2005)**

B.S. Texas Tech U. *ibid.*; M.S., *ibid.*; Ph.D., Texas A&M U.

**Thomas Harrison, Jr., Ph.D., Professor of Accounting. (1985-2005)**

B.B.A., Baylor U.; M.S., Oklahoma State U.; Ph.D., Michigan State U.

**Maxine B. Hart, Ed.D., Professor of Information Systems. (1971-1999)**  
B.B.A., Baylor U.; M.Ed., U. of Arkansas; Ed.D., U. of Houston.

**W. Keith Hartberg, Ph.D., Professor of Biology. (1986-2009)**  
A.B., Wabash College; M.S., U. of Notre Dame; Ph.D., *ibid.*

**Frauke A. Harvey, Ph.D., Professor and Director of German, Russian and Japanese. (1969-2003)**  
B.A., Louisiana State U.; M.A., *ibid.*; Ph.D., *ibid.*

**David W. Hendon, Ph.D., Professor of History. (1976 - 2020)**  
B.A., Vanderbilt U.; M.A., Emory U.; Ph.D., *ibid.*

**Mary L. Herrington, Ed.D., Associate Professor of Curriculum and Instruction. (1968-1989)**  
B.A., Baylor U.; M.S.Ed., *ibid.*; Ed.D., *ibid.*

**Patricia A. Hickey, Ph.D., Associate Professor of Mathematics. (1965-1992)**  
B.A., Baylor U.; M.A., *ibid.*; Ph.D., U. of Texas.

**Walter C. Holmes, Ph.D., Professor of Biology. (1989-2017)**  
B.S., Louisiana Tech U.; Ph.D., Mississippi State U.

**Sue Margaret Hughes, Ph.D., Professor and Librarian of Moody Library, Acting University Librarian. (1960-1990)**  
B.B.A., U. of Texas; M.L.S., Texas Woman's U.; Ph.D., *ibid.*

**Gary W. Hull, Ph.D., Associate Professor of History. (1965-2008)**  
B.A., Peru State College; M.A., Oklahoma State U.; Ph.D., U. of Maryland.

**Charles J. Isoline, Ed.D., Professor of Art. (1974-1993)**  
B.F.A., U. of Illinois; M.A., *ibid.*; Ed.D., U. of North Texas.

**Buford Randall Jean, Ph.D., Professor of Electrical and Computer Engineering. (2003-2018)**  
B.S., Texas A&M U.; M.S., *ibid.*; Ph.D., *ibid.*

**David L. Jeffrey, Ph.D., Distinguished Professor Emeritus of Literature and Humanities, and Cornelia Marschall Smith Distinguished Professor. (2000-2019)**  
B.A., Wheaton College; M.A., Princeton U.; Ph.D., *ibid.*

**Baxter Johns, Ph.D., Professor of Mathematics. (1971-2016)**  
B.S., Furman U.; Ph.D., Vanderbilt U.

**Pauline T. Johnson, Ph.D., Professor of Nursing and Graduate Program Director of the Louise Herrington School of Nursing. (1990-2005)**  
B.S., Northwestern State U., of Louisiana; M.S.N., *ibid.*; Ph.D., Texas Woman's U.

**Ann W. Karaffa, Ph.D., Professor of Curriculum and Instruction. (1981-1997)**  
B.A., Baylor U.; M.A., Southern Methodist U.; Ph.D., Texas Woman's U.

**Phyllis S. Karns, Ph.D., Professor of Nursing and Dean of the Louise Herrington School of Nursing. (1987-2002)**  
B.S.N., Baylor U.; M.S., U. of Colorado; Ph.D., U. of Wyoming.

**Naymond H. Keathley, Ph.D., Professor of Religion. (1981-2018)**  
B.A., Baylor U.; B.D., Southern Baptist Theological Seminary; Ph.D., *ibid.*

**Paul Z. Kemp, M.F.A., Professor of Art. (1961-1996)**  
B.A., New Mexico Highlands U.; M.A., *ibid.*; M.F.A., Cranbrook Academy of Art.

**Roger L. Keyes, M.M., Professor of Piano. (1965-2000)**

B.M., Indiana U.; M.M., *ibid.*

**Roger E. Kirk, Ph.D., Distinguished Professor of Psychology and Statistics, Master Teacher, and The Cornelia Marschall Smith Distinguished Professor. (1958-2019)**  
B.S., Ohio State U.; M.A., *ibid.*; Ph.D., *ibid.*

**Berry J. Klingman, M.F.A., Professor of Art. (1975-2017)**  
B.F.A., U. of Kansas; M.F.A., Indiana U.

**Robert B. Kruschwitz, Ph.D., Professor of Philosophy. (2000- 2016)**  
B.A., Georgetown College; Ph.D., U. of Texas.

**Owen T. Lind, Ph.D., Professor of Biology. (1966-2016)**  
B.A., William Jewell College; M.S., U. of Michigan; Ph.D., U. of Missouri.

**Judith W. Lott, D.S.N., Professor and Dean of the Louise Herrington School of Nursing. (2001-2012)**  
B.S.N., Valdosta State U.; M.S.N., Troy State U.; D.S.N., U. of Alabama, Birmingham.

**Judith R. Lusk, Ph.D., Professor of Family and Consumer Sciences. (1986-2011)**  
B.S., Texas Woman's U.; M.Ed., Sam Houston State U.; Ph.D., Texas Woman's U.

**Charles S. Madden, Ph.D., Professor of Marketing and Director of the Center for Nonprofit Leadership Service. (1983-2015)**  
B.A., Southeastern U.; M.A., U. of Alabama; Ph.D., U. of Nebraska, Lincoln.

**Michael W. Mansfield, Ph.D., Professor of Political Science. (1973-2008)**  
B.S., Oklahoma Christian U. of Science and Arts; M.A., North Texas State U.; Ph.D., U. of Missouri.

**Philip A. Martin, M.A., Associate Professor of German. (1956-1989)**  
B.A., Baylor U.; M.A., U. of Texas.

**Frank H. Mathis, Ph.D., Professor of Mathematics. (1981-2017)**  
B.S., Southern Methodist U.; M.S., *ibid.*, Ph.D., Vanderbilt U.

**Dorothy W. McAlister, Ph.D., Professor of Family and Consumer Sciences. (1965-1969, 1980-1996)**  
B.S., U. of Mary Hardin-Baylor; M.S., Texas Woman's U.; Ph.D., *ibid.*

**William E. McBride, Ph.D., Professor of Computer Science. (1981-2001)**  
B.A., St. John's U.; M.A., U. of North Dakota; Ph.D., U. of Missouri.

**John D. McClanahan, M.F.A., Professor of Art. (1976-2010)**  
B.F.A., Bethany College; M.F.A., U. of Iowa.

**Paul A. McCoy, M.F.A., Professor of Art, Ceramist-in-Residence and Director of the Allbritton Art Institute. (1986-2020)**  
B.A., Northern Illinois U.; M.A., U. of Iowa; M.F.A., *ibid.*

**Janice M. McCullagh, Ph.D., Associate Professor of Art History and Senior Faculty Member of the Albritton Art Institute. (1989-2004)**  
B.F.A., Drake U.; M.A., U. of Iowa; Ph.D., U. of Texas.

**Joseph A. McKinney, Ph.D., Emeritus Professor of International Economics and Senior Research Fellow in the McBride Center for International Business and Cornelia Marschall Smith Distinguished Professor. (1976-2019)**  
B.A., Berea College; M.A., Michigan State U.; Ph.D., *ibid.*

**William A. Mitchell, Ph.D., Professor of Political Science. (1993-2007)**

B.S., Texas A&M U., Commerce; M.A., U. of California, Los Angeles; Ph.D., U. of Illinois.

**Andy J. Moore, Ph.D., Professor of English. (1962-2004)**

B.A., Mississippi College; M.A., *ibid.*; Ph.D., U. of Texas.

**Kris K. Moore, Ph.D., Professor of Statistics and Quantitative Business Analysis. (1970-2015)**

B.A., U. of Texas; M.A., *ibid.*, Ph.D., Texas A&M U.

**D.E. Mungello, Ph.D., Professor of History. (1994-2017)**

A.B., George Washington U.; M.A., U. of Californiz, Berkeley; Ph.D., *ibid.*

**Mary P. Nichols, Ph.D., Professor of Political Science. (2004-2017)**

B.A., Newcomb College of Tulane U.; M.A., U. of Kansas; Ph.D., U. of Virginia.

**Billie H. Nowlin, Ed.D., Professor of Home Economics. (1968-1989)**

B.S., U. of North Texas; M.S., *ibid.*; Ed.D., Texas Woman's U.

**Patrick L. Odell, Ph.D., Professor of Mathematics. (1988-2001)**

B.S., U. of Texas; M.S., Oklahoma State U.; Ph.D., *ibid.*

**Manuel J. Ortuño, Ph.D., Professor of Spanish. (1975-2018)**

B.A., Ohio State U.; M.A., *ibid.*; Ph.D., U. of Michigan.

**Harold W. Osborne, Ph.D., Professor of Sociology and Master Teacher. (1958-2002)**

B.A., Ouachita Baptist U.; M.A., Louisiana State U.; Ph.D., *ibid.*

**Edwin P. Oxford, Ph.D., Professor of Mathematics. (1982-2011)**

B.S., Southern Arkansas U.; M.S., Louisiana Tech U.; Ph.D., New Mexico State U.

**Don F. Parker, Jr., Ph.D., Professor of Geology. (1978-2011)**

B.S., U of Texas; M.A., *ibid.*; Ph.D., *ibid.*

**Bob E. Patterson, Ph.D., Distinguished Professor of Religion. (1961-2011)**

B.A., Baylor U.; M.A., *ibid.*; M.Div. Southern Baptist Theological Seminary; Ph.D., *ibid.*

**David E. Pennington, Ph.D., Professor of Chemistry and Biochemistry and Master Teacher. (1967-2017)**

B.A., U. of North Texas; M.S., *ibid.*; Ph.D., Pennsylvania State U.

**J. William Petty, Ph.D., Professor of Finance, Holder of The W.W. Caruth Chair of Entrepreneurship, and Master Teacher. (1990-2018)**

B.S., Abilene Christian U.; M.B.A., U. of Texas; Ph.D., *ibid.*

**John L. Pisciotta, Ph.D., Associate Professor of Economics (1980-2012)**

B.A., U. of Colorado; Ph.D., U. of Texas.

**William L. Pitts, Jr., Ph.D., Professor of Religion. (1975-2018)**

B.A., Baylor U.; M. Div., Vanderbilt Divinity School; Ph.D., Vanderbilt U.

**Robert Piziak, Ph.D., Professor of Mathematics. (1981-2008)**

B.A., Amherst College; M.A., U. of Massachusetts; Ph.D., *ibid.*

**Lee R. Polk, Ph.D., Professor of Communication. (1970-2003)**

B.S., U. of North Texas; M.A., Purdue U.; Ph.D., *ibid.*

**J. T. Powers, Ed.D., Professor of Health, Human Performance and Recreation. (1954-1993)**

B.S., U. of Texas; M.Ed., *ibid.*; Ed.D., *ibid.*

**Patricia W. Prewitt, Ph.D., Professor of Educational Psychology. (1989-2002)**

B.A., U. of Texas; M.A., *ibid.*; Ph.D., *ibid.*

**Juanita G. Price, M.S., Associate Professor of Nursing. (1964-1966; 1969-1985)**

B.A., San Bernardino State College; B.S., U. of California at Los Angeles; M.S., *ibid.*

**Robert H. Ray, Ph.D., Professor of English. (1967-2014)**

B.A., U. of Texas; Ph.D., *ibid.*

**Richard B. Riley, Ph.D., Professor of Political Science. (1979-2009)**

B.A., Grove City College; M.A., American U.; Ph.D., Duke U.

**David L. Rivers, Ph.D., Professor of Communication Sciences and Disorders. (1981-2006)**

A.B., U. of Kentucky; M.S., Purdue U.; Ph.D., Vanderbilt U.

**Robert C. Roberts, Ph.D., Distinguished Professor of Ethics in Philosophy. (2000-2015)**

B.A., Wichita State U.; B.D., Yale U.; M.A., Wichita State U.; Ph.D., Yale U.

**William C. Robinson, M.M., Associate Professor of Music. (1971-1986)**

B.M.E., U. of Oklahoma; M.M., *ibid.*

**Tillman B. Rodabough, Ph.D., Professor of Sociology. (1972-2006)**

B.A., Baylor U.; B.D., Southwestern Baptist Theological Seminary; M.A., Baylor U.; M.A., Cornell U.; Ph.D., *ibid.*

**Howard L. Rolf, Ph.D., Professor of Mathematics. (1956-1957, 1964-1998)**

B.S., Oklahoma Baptist U.; M.A., Vanderbilt U.; Ph.D., *ibid.*

**Terry M. Roller, M.F.A., Professor of Art. (1983-2016)**

B.F.A., U. of Tennessee, M.F.A., *ibid.*

**John "J.T." Rose, Ph.D., Professor of Finance, Insurance, and Real Estate. (1984-2014)**

B.A., Texas A&M U.; M.S., Washington U. in St. Louis; Ph.D., *ibid.*

**Stuart Rosenbaum, Ph.D., Professor of Philosophy. (1981-2020)**

B.A., Baylor U.; M.A., U. of Nebraska; Ph.D., Brown U.

**Ann E. Rushing, Ph.D., Professor of Biology and The Cornelia Marschall Smith Distinguished Professor. (1989-2014)**

B.A., Duke U.; M.S., U. of Cincinnati; Ph.D., Texas A&M U.

**Martha L. Sanford, Ph.D., Associate Professor of Nursing. (1981-83, 1985-2001)**

B.S.N., U. of Texas, Arlington; M.S.N., *ibid.*; Ph.D., Texas Woman's U.

**Helen Shanley, M.M., Professor of Music. (1969-2011)**

B.S., U. of Texas, El Paso; M.M., U. of North Texas.

**Richard Shanley, D.M.A., Professor of Music. (1969-2011)**

B.A., New Mexico State U.; M.M., U. of North Texas; D.M.A., *ibid.*

**Patricia A. Sharp, Ph.D., Professor of Curriculum and Instruction. (1979)**

B.A., Southwest Texas State U.; M.S.L.S., Columbia U.; Ph.D., U. of Iowa.

**Mary Margaret Shoaf, Ph.D., Associate Professor of Mathematics. (1997-2014)**

B.S., U. of Texas; M.S., Sacred Heart U.; M.Ph., Columbia U.; Ph.D., *ibid.*

**E. E. Schroeder, M.Ed., Associate Professor of Health, Human Performance and Recreation. (1958-1999)**

B.S., Baylor U.; M.Ed., U. of Texas.

**Calvin B. Smith, M.S., Associate Professor of Museum Studies and Director of Strecker Museum Complex. (1983-2003)**  
B.S., Eastern New Mexico U.; M.S., *ibid*.

**Mary Ruth Smith, Ph.D., Professor of Art. (1993-2020)**  
B.S., Radford U.; M.S., U. of Tennessee, Knoxville; M.F.A., U. of Georgia; Ph.D., Florida State U.

**James SoRelle, Ph.D., Professor of History. (1980 - 2020)**  
B.A., U. of Houston; M.A., *ibid*; Ph.D., Kent U.

**Rufus B. Spain, Ph.D., Professor of History. (1957-1988)**  
B.A., Mississippi College; M.A., Vanderbilt U.; Ph.D., *ibid*.

**Ronald J. Stanke, Ph.D., Associate Professor of Mathematics. (1985 - 2019)**  
B.S., U. of North Texas; M.A., Purdue U.; Ph.D., *ibid*.

**Joan E. Supplee, Ph.D., Professor of History. (1992 – 2020)**  
B.A., Beaver College; M.A., Louisiana State U.; Ph.D., U. of Texas-Austin.

**Charles H. Talbert, Ph.D., Distinguished Professor of Religion. (1996-2012)**  
B.A., Samford U.; B.D., Southern Baptist Theological Seminary; Ph.D., Vanderbilt U.

**John F. Tanner, Ph.D., Professor of Marketing and Associate Dean for Research and Faculty Development. (1988-2015)**  
B.B.A., U. of North Texas; M.B.A., *ibid*; Ph.D., U. of Georgia.

**F. Eugene Tidmore, Ph.D., Professor of Mathematics. (1963-1965, 1971-2004)**  
B.S., Hardin-Simmons U.; M.S., Oklahoma State U.; Ph.D., *ibid*.

**Mary E. Tindle, M.S., Associate Professor of Health, Human Performance and Recreation. (1956-1996)**  
B.S., Baylor U.; M.S., *ibid*.

**Charles M. Tolbert, Ph.D., Professor of Sociology. (1957-1993)**  
B.A., Mississippi College; M.A., U. of North Carolina; Ph.D., Louisiana State U.

**S. Kay Toombs, Ph.D., Associate Professor of Philosophy. (1990-2001)**  
B.A., Baylor U.; M.A., *ibid*; Ph.D., Rice U.

**William R. Trail, J.D., Professor and The Darrell L. Keith Professor Law and Medicine. (1982-2006)**  
B.A., Michigan State U.; J.D., U. of Virginia.

**M. Michael Umble, Ph.D., Professor of Management. (1977-2018)**  
B.S., Louisiana State U.; M.S., *ibid*; Ph.D., *ibid*.

**Karl A. Umlauf, M.F.A., Professor of Art and Artist in Residence. (1989-2015)**  
B.F.A., U. of Texas; M.F.A., Cornell U.

**John Van Cura, D.M., Professor of Vocal Studies. (1986-2005)**  
B.M., Peabody Conservatory of Music; M.M., *ibid*; D.M., Florida State U.

**Robert W. Vargas, Ph.D., Professor of Computer Science. (1985-2003)**  
B.S., The College of William & Mary; Ph.D., U. of Texas.

**Joseph F. Vélez, Ph.D., Professor of Spanish. (1971-2001)**  
B.A., Howard Payne College; M.A., U. of Oklahoma; Ph.D., *ibid*.

**Darrell S. Vodopich, Ph.D., Associate Professor of Biology. (1981-2015)**  
B.S., East Carolina U.; M.A., *ibid*; Ph.D., U. of South Florida.

**Patricia D. Wallace, Ph.D., Professor of History. (1973-2009)**  
B.A., Southern Methodist U.; M.A., U. of Texas; Ph.D., *ibid*.

**Janelle M. Walter, Ph.D., Professor of Nutrition Sciences, (1979-2020)**  
B.S., U. of Houston; M.Ed., *ibid*; Ph.D., Iowa State U.

**Jerold L. Waltman, Ph.D., R.W. Morrison Professor of Political Science. (2003-2020)**  
B.A., Louisiana Tech U.; M.A., U. of Denver; Ph.D., U. of Ioannina.

**Ken-Hsi Wang, Ph.D., Professor of Physics. (1966-2003)**  
B.A., International Christian U., Tokyo, Japan; Ph.D., Yale U.

**James M. Warren, Ph.D., Professor of Engineering. (1981-1998)**  
B.S., Texas A&M U.; M.S., Arizona State U.; Ph.D., *ibid*.

**Julian F. Watkins II, Ph.D., Professor of Biology. (1964-1997)**  
B.S., U. of Arkansas; M.S., Kansas State U.; Ph.D., *ibid*.

**Mary K. 'Suzy' Weems, Ph.D., Professor and Graduate Program Director of Nutrition Sciences (2005-2020)**  
B.S., Baylor U.; M.S., Texas Tech U.; Ph.D., *ibid*.

**W. C. Williams, Ph.D., Professor and Chair of Educational Psychology. (1976-1991)**  
B.A., U. of Northern Iowa; M.S.E., Drake U.; Ph.D., Iowa State U.

**James L. Williamson, Ed.D., Professor of Educational Leadership and The Fred and Edith Hale Emeritus Professor in Education. (1990)**  
B.A., Baylor U.; M.Ed., U. of North Texas; Ed.D., *ibid*.

**James E. Wood, Jr., Ph.D., The Simon and Ethel Bunn Distinguished Professor of Church-State Studies. (1955-1973, 1980-1999)**  
B.A., Carson-Newman College; M.A., Columbia U.; B.D., Southern Baptist Theological Seminary; Th.M., *ibid*; Ph.D., *ibid*; LL.D. (Hon.), Seinan Gakuin U.

**John A. Wood, Ph.D., Professor of Religion. (1981-2004)**  
B.A., Columbia Bible College; B.D., Southwestern Baptist Theological Seminary; Ph.D., Baylor U.

## Programs A-Z

### A

- Academic Departments and Programs (p. 57)
- Accounting (p. 295)
- Advertising Minor (p. 164)
- All-Level Spanish Teacher Certification, B.S. in Education (p. 312)
- All-Level Special Education Teacher Certification, B.S. in Education (p. 313)
- American Sign Language (ASL) Minor (p. 364)
- American Studies Minor (p. 166)
- American Studies, B.A. (p. 165)
- Anthropology (Archaeology), B.A. (p. 68)
- Anthropology (Environmental Anthropology), B.A. (p. 68)
- Anthropology (Forensic Anthropology), B.S. (p. 69)
- Anthropology (General Anthropology), B.A. (p. 67)
- Anthropology (General Anthropology), B.S. (p. 69)

- Anthropology (Health), B.S. (p. 70)
- Anthropology - Secondary Major (p. 71)
- Anthropology Minor (p. 71)
- Apparel Design and Product Development (p. 393)
- Apparel Merchandising (p. 394)
- Apparel Merchandising Minor (p. 395)
- Applied Mathematics, B.S. (p. 171)
- Arabic and Middle East Studies - Secondary Major (p. 188)
- Arabic and Middle East Studies, B.A. (p. 188)
- Arabic Minor (p. 189)
- Archaeology Minor (p. 71)
- Art History Minor (p. 82)
- Art History, B.A. (p. 81)
- Asian Studies (p. 192)
- Asian Studies - Secondary Major (p. 193)
- Asian Studies Minor (p. 194)
- Asian Studies, B.A. (p. 192)
- Astronomy - Secondary Major (p. 211)
- Astronomy Minor (p. 211)
- Astronomy, B.A. (p. 210)
- Astronomy, B.S. (p. 210)
- Astrophysics - Secondary Major (p. 212)
- Astrophysics Minor (p. 212)
- Astrophysics, B.A. (p. 211)
- Astrophysics, B.S. (p. 211)
- Aviation Administration, B.S.A. (p. 63)
- Aviation Science Minor (p. 63)
- Aviation Sciences (Aircraft Dispatch), B.S.A. (p. 61)
- Aviation Sciences (Professional Pilot - Airplane), B.S.A. (p. 62)
- Aviation Sciences (Professional Pilot - Helicopter), B.S.A. (p. 62)
- Aviation Sciences - Secondary Major (p. 63)
- Aviation Sciences, B.S.A. (p. 61)

## B

- BA/BS Biology - Secondary Education Concentration (p. 325)
- BA/BS History - Secondary Education Minor (p. 326)
- BA/BS Mathematics - Secondary Education Minor (p. 326)
- Bachelor of Science in Public Health (BSPH) (p. 408)
- Bachelor of Social Work (B.S.W.) (p. 458)
- Baylor Business Fellows (p. 295)
- Biochemistry - Secondary Major (p. 99)
- Biochemistry Minor (p. 100)
- Biochemistry, B.A. (p. 98)
- Biochemistry, B.S. (p. 99)
- Bioethics Certificate (p. 249)
- Bioinformatics, B.S.I. (p. 342)
- Biology (Biology of Global Health), B.S. (p. 90)
- Biology (Cell and Molecular Biology), B.S. (p. 88)
- Biology (Integrative Biology), B.S. (p. 89)
- Biology (Science Education), B.S. (p. 91)
- Biology - Secondary Major (p. 92)
- Biology Minor (p. 93)

- BSPH/MPH in Community Health Education Joint Degree (p. 409)
- Business Administration Minor (p. 300)
- Business Analytics Certificate (p. 300)

## C

- Chemistry (American Chemical Society Certified), B.S. (p. 96)
- Chemistry - Secondary Major (p. 98)
- Chemistry Minor (p. 98)
- Chemistry, B.A. (p. 96)
- Chemistry, B.S. (p. 97)
- Child and Family Studies Minor (p. 401)
- Child Development Concentration (p. 395)
- Child Life Concentration (p. 397)
- Chinese Minor (p. 189)
- Choral Music - Keyboard Concentration, B.M.E. (p. 451)
- Choral Music - Voice Concentration, B.M.E. (p. 450)
- Christian Ministry Certificate (p. 460)
- Church Music - Instrumental Emphasis, B.M. (p. 447)
- Church Music - Keyboard Emphasis, B.M. (p. 447)
- Church Music - Voice Emphasis, B.M. (p. 446)
- Church Music Minor (p. 453)
- Civic Interfaith Studies Minor (p. 461)
- Classics - Secondary Major (p. 105)
- Classics Minor (p. 105)
- Classics, B.A. (p. 105)
- Communication (Corporate Communication Concentration), B.A. (p. 111)
- Communication (Generalist Concentration), B.A. (p. 111)
- Communication (Honors Concentration), B.A. (p. 111)
- Communication (Rhetoric and Public Discourse Concentration), B.A. (p. 112)
- Communication - Secondary Major (p. 112)
- Communication Specialist - Secondary Major (p. 113)
- Communication Specialist, B.A. (p. 113)
- Communication, B.A. (p. 110)
- Composition, B.M. (p. 448)
- Computer Science (B.S.C.S.) (p. 339)
- Computer Science Fellows, B.S.C. (p. 343)
- Computer Science Minor (p. 354)
- Computer Science Minor (<https://catalog.baylor.edu/undergraduate/college-arts-sciences/academic-departments/intrauniversity-programs/computer-science-minor/>)
- Computer Science, B.A. (p. 253)
- Corporate Communication Minor (p. 113)
- Creative Writing Minor (p. 122)
- Criminal Justice Minor (p. 221)

## D

- Data Science Minor (p. 354)
- Data Science, B.S.I. (p. 343)
- Deaf Education Concentration - CSD, B.S. (p. 365)
- Distance Accelerated BSN Track (p. 419)

**E**

- Earth Science (Double Major with Environmental Studies), B.A. (p. 150)
- Earth Science Minor (p. 150)
- Earth Science, B.A. (p. 149)
- Economics (p. 296)
- Economics Minor (p. 300)
- Economics, B.A. (p. 254)
- Economics, B.S. (p. 255)
- Educational Psychology Minor (p. 324)
- Electrical and Computer Engineering (B.S.E.C.E.) (p. 347)
- Elementary Teaching Certification, B.S. in Education (p. 306)
- Energy Commerce Certificate (p. 301)
- Engineering (B.S.E.) (p. 349)
- Engineering Minor (p. 353)
- English - Secondary Major (p. 121)
- English as a Second Language Supplemental Certificate (p. 314)
- English Minor (p. 122)
- English, B.A. (p. 121)
- Entrepreneurship and Corporate Innovation (p. 296)
- Entrepreneurship Minor (p. 300)
- Environmental Health Science, B.S. (p. 133)
- Environmental Science, B.S. (p. 134)
- Environmental Studies (Double Major Concentration), B.A. (p. 133)
- Environmental Studies (Environment and Society Concentration), B.A. (p. 132)
- Environmental Studies (Natural Resources Management Concentration), B.A. (p. 132)
- Environmental Studies Minor (p. 135)
- Environmental Studies, B.A. (p. 131)
- Exercise Physiology, B.S. (p. 374)

**F**

- Family and Consumer Sciences (p. 401)
- Family Life Education Concentration (p. 398)
- FastBacc® Track, B.S.N. (p. 418)
- Film and Digital Media - Secondary Major (p. 139)
- Film and Digital Media Minor (p. 139)
- Film and Digital Media, B.A. (p. 138)
- Finance (p. 297)
- Food Management Concentration (p. 403)
- Forensic Science Minor (p. 72)
- French - Secondary Major (p. 189)
- French Minor (p. 189)
- French, B.A. (p. 189)

**G**

- Geophysics, B.S. (p. 149)
- Geosciences - Secondary Major (p. 148)
- Geosciences Minor (p. 148)
- Geosciences, B.S. (p. 143)
- German - Secondary Major (p. 190)

- German Minor (p. 190)
- German, B.A. (p. 190)
- Gerontology Minor (p. 461)
- Gifted and Talented Supplemental Certificate (p. 314)
- Great Texts of the Western Tradition - Secondary Major (p. 256)
- Greek - Secondary Major (p. 106)
- Greek and Roman Studies - Secondary Major (p. 107)
- Greek and Roman Studies Minor (p. 108)
- Greek and Roman Studies, B.A. (p. 106)
- Greek Minor (p. 106)
- Greek, B.A. (p. 106)

**H**

- Hankamer School of Business (p. 426)
- Health Science Studies - Secondary Science Education Concentration (p. 326)
- Health Sciences Studies, B.S. (p. 375)
- Health, Kinesiology, and Leisure Studies (p. 380)
- History (Secondary History Education Concentration) (p. 156)
- History - Secondary Major (p. 157)
- History Minor (p. 157)
- History, B.A. (p. 155)
- Human Resource Management (p. 297)
- Humanities Research Fellows (p. 158)

**I**

- Informal Education Minor (p. 325)
- Instrumental Music - String Concentration, B.M.E. (p. 451)
- Instrumental Music - Woodwind, Brass, Percussion Concentrations, B.M.E. (p. 452)
- Integrated Studies (p. 326)
- Interior Design (p. 402)
- International Business (p. 297)
- International Studies - Secondary Major (p. 221)
- International Studies Minor (p. 221)
- International Studies, B.A. (p. 217)
- Intrauniversity Dance Minor (p. 381)
- Italian Minor (p. 190)
- Italian Studies - Secondary Major (p. 189)

**J**

- Japanese Minor (p. 189)
- Joint Bachelor and Master of Arts in Teaching (p. 314)
- Joint Bachelor of Arts in American Studies/Master of Arts in Museum Studies (p. 166)
- Joint Bachelor of Arts in Anthropology and Master of Arts in Museum Studies (p. 69)
- Joint Bachelor of Arts in History/Master of Arts in Museum Studies (p. 157)
- Joint Bachelor of Arts in Journalism/Master of Arts in Museum Studies (p. 164)
- Joint Bachelor of Arts in Mathematics/Master of Arts in Teaching (with Teacher Certification) (p. 170)

- Joint Bachelor of Arts in Religion/Master of Arts in Teaching (with Teacher Certification) (p. 235)
- Joint Bachelor of Arts With Master of Arts in Museum Studies (p. 82)
- Joint Bachelor of Arts/Master of Arts in Classics (p. 105)
- Joint Bachelor of Arts/Master of Arts in Communication (p. 113)
- Joint Bachelor of Arts/Master of Arts in Museum Studies (p. 200)
- Joint Bachelor of Arts/Master of Arts in Teaching (with Teacher Certification) (p. 82)
- Joint Bachelor of Arts/Master of Arts in Teaching (with Teacher Certification) (p. 100)
- Joint Bachelor of Arts/Master of Arts in Teaching (with Teacher Certification) (p. 123)
- Joint Bachelor of Arts/Master of Arts in Teaching (with Teacher Certification) (p. 133)
- Joint Bachelor of Arts/Master of Arts in Teaching (with Teacher Certification) (p. 157)
- Joint Bachelor of Fine Arts/Master of Arts in Teaching (with Teacher Certification) (p. 82)
- Joint Bachelor of Science in Applied Mathematics/Master of Arts in Teaching (with Teacher Certification) (p. 172)
- Joint Bachelor of Science/Master of Arts in Teaching (with Teacher Certification) (p. 93)
- Joint Bachelor of Science/Master of Arts in Teaching (with Teacher Certification) (p. 100)
- Joint Bachelor of Science/Master of Arts in Teaching (with Teacher Certification) (p. 135)
- Journalism (Advertising Concentration), B.A. (p. 163)
- Journalism (News Editorial Concentration), B.A. (p. 163)
- Journalism (Photojournalism Concentration), B.A. (p. 163)
- Journalism (Public Relations Concentration), B.A. (p. 163)
- Journalism - Secondary Major (p. 164)
- Journalism, B.A. (p. 162)
- Journalism, Public Relations and New Media (p. 159)

## L

- Latin - Secondary Major (p. 106)
- Latin American Studies - Secondary Major (p. 195)
- Latin American Studies Minor (p. 196)
- Latin American Studies, B.A. (p. 195)
- Latin Minor (p. 106)
- Latin, B.A. (p. 106)
- Leadership in Medicine Minor (p. 250)
- Leadership Studies Minor (p. 324)
- Legal Reasoning and Analysis Minor (p. 250)
- Linguistics - Secondary Major (p. 125)
- Linguistics Minor (p. 126)
- Linguistics, B.A. (p. 125)

## M

- Management (p. 298)
- Management Information Systems (p. 298)
- Marketing (p. 298)
- Mathematics (Mathematics Education Concentration), B.A. (p. 169)

- Mathematics (Mathematics Education Concentration), B.S. (p. 170)
- Mathematics - Secondary Major (p. 172)
- Mathematics Minor (p. 172)
- Mathematics, B.A. (p. 169)
- Mathematics, B.S. (p. 170)
- Mechanical Engineering (B.S.M.E.) (p. 350)
- Media Management Minor (p. 139)
- Medical Humanities Minor (p. 174)
- Medical Humanities, B.A. (p. 173)
- Middle East Studies Minor (p. 196)
- Middle Grades Teacher Certification, B.S. in Education (p. 308)
- Military Studies Minor (p. 158)
- Museum Studies Minor (p. 199)
- Museum Studies, B.A. (p. 199)
- Music History and Literature, B.M. (p. 448)
- Music Minor (p. 453)
- Music, B.A. (p. 256)

## N

- Neuroscience, B.S. (p. 228)
- News Editorial Minor (p. 164)
- Nutrition Sciences (p. 403)
- Nutrition Sciences Minor (p. 406)

## O

- Outdoor Education and Leadership Minor (p. 383)

## P

- Performance - Brass, B.M. (p. 444)
- Performance - Organ, B.M. (p. 445)
- Performance - Percussion, B.M. (p. 444)
- Performance - Piano, B.M. (p. 445)
- Performance - Strings, B.M. (p. 444)
- Performance - Voice, B.M. (p. 445)
- Performance - Woodwinds, B.M. (p. 443)
- Philosophy (Departmental Honors Concentration), B.A. (p. 204)
- Philosophy (General Philosophy Concentration), B.A. (p. 204)
- Philosophy (Philosophy and Medicine Concentration), B.A. (p. 204)
- Philosophy (Pre-Law Concentration), B.A. (p. 204)
- Philosophy - Secondary Major (p. 204)
- Philosophy Minor (p. 205)
- Philosophy, B.A. (p. 203)
- Photojournalism Minor (p. 164)
- Physical Education (All-Level) (p. 384)
- Physics (Computational Physics), B.S. (p. 208)
- Physics (Physics Education), B.S. (p. 209)
- Physics (Prehealth Care), B.S. (p. 208)
- Physics - Secondary Major (p. 209)
- Physics Minor (p. 210)
- Physics, B.A. (p. 207)
- Physics, B.S. (p. 208)
- Piano Pedagogy, B.M. (p. 446)

- Political Science - Secondary Major (p. 217)
- Political Science Minor (p. 217)
- Political Science, B.A. (p. 216)
- Poverty Studies and Social Justice Minor (p. 460)
- Pre-Dietetics Concentration (p. 404)
- Pre-Health Concentration (p. 405)
- Pre-Major in Medical Humanities, B.A. (p. 173)
- Pre-Neuroscience, B.S. (p. 228)
- Pre-Occupational Therapy Concentration (p. 400)
- Pre-Psychology, B.A. (p. 225)
- Pre-Psychology, B.S. (p. 226)
- Professional Selling (p. 299)
- Professional Writing and Rhetoric - Secondary Major (p. 124)
- Professional Writing and Rhetoric, B.A. (p. 123)
- Psychology, B.A. (p. 226)
- Psychology, B.S. (p. 227)
- Public Relations Minor (p. 165)

## R

- Recreation and Leisure Services (p. 386)
- Recreation and Leisure Services - Secondary Major (p. 387)
- Recreation Ministry Minor (p. 257)
- Religion - Secondary Major (p. 234)
- Religion Minor (p. 235)
- Religion, B.A. (p. 233)
- Rhetoric and Public Discourse Minor (p. 114)
- Risk Management and Insurance (p. 299)
- Russian - Secondary Major (p. 190)
- Russian Minor (p. 191)
- Russian, B.A. (p. 190)

## S

- Secondary Major Instrumental Music Performance (p. 452)
- Secondary Major Keyboard Music Performance (p. 452)
- Secondary Teacher Certification, B.S. in Education (p. 309)
- Slavic and East European Studies - Secondary Major (p. 197)
- Slavic and East European Studies, B.A. (p. 197)
- Sociology (Sociology and Health), B.A. (p. 238)
- Sociology - Secondary Major (p. 238)
- Sociology Minor (p. 238)
- Sociology, B.A. (p. 238)
- Spanish - Secondary Major (p. 191)
- Spanish for Healthcare Professions Certificate (p. 192)
- Spanish Minor (p. 191)
- Spanish, B.A. (p. 191)
- Speech Language Pathology and Audiology Concentration - CSD, B.S. (p. 365)
- Statistics (Actuarial Science), B.S. (p. 240)
- Statistics (Sports Analytics), B.S. (p. 241)
- Statistics - Secondary Major (p. 242)
- Statistics Minor (p. 242)
- Statistics, B.S. (p. 240)

- Studio Art Minor (p. 81)
- Studio Art, B.A. (p. 78)
- Studio Art, B.F.A. (p. 79)
- Supply Chain Management (p. 299)

## T

- Theatre Arts - Secondary Major (p. 249)
- Theatre Arts, B.A. (p. 247)
- Theatre Design and Technology Minor (p. 249)
- Theatre Design and Technology, B.F.A. (p. 247)
- Theatre Performance (General Concentration), B.F.A. (p. 248)
- Theatre Performance (Musical Theatre Concentration), B.F.A. (p. 248)
- Theatre Performance, B.F.A. (p. 248)
- Theory, B.M. (p. 449)
- Traditional Track, B.S.N. (p. 417)

## W

- Women's and Gender Studies Minor (p. 252)
- World Affairs Minor (p. 198)

## Majors

- Academic Departments and Programs (p. 57)
- Accounting (p. 295)
- All-Level Spanish Teacher Certification, B.S. in Education (p. 312)
- All-Level Special Education Teacher Certification, B.S. in Education (p. 313)
- American Studies, B.A. (p. 165)
- Anthropology - Secondary Major (p. 71)
- Apparel Design and Product Development (p. 393)
- Apparel Merchandising (p. 394)
- Applied Mathematics, B.S. (p. 171)
- Arabic and Middle East Studies - Secondary Major (p. 188)
- Arabic and Middle East Studies, B.A. (p. 188)
- Art History, B.A. (p. 81)
- Asian Studies (p. 192)
- Asian Studies - Secondary Major (p. 193)
- Asian Studies, B.A. (p. 192)
- Astronomy - Secondary Major (p. 211)
- Astronomy, B.A. (p. 210)
- Astronomy, B.S. (p. 210)
- Astrophysics - Secondary Major (p. 212)
- Astrophysics, B.A. (p. 211)
- Astrophysics, B.S. (p. 211)
- Aviation Administration, B.S.A. (p. 63)
- Aviation Sciences - Secondary Major (p. 63)
- Aviation Sciences, B.S.A. (p. 61)
- Bachelor of Science in Public Health (BSPH) (p. 408)
- Bachelor of Social Work (B.S.W.) (p. 458)
- Baylor Business Fellows (p. 295)
- Biochemistry - Secondary Major (p. 99)
- Biochemistry, B.A. (p. 98)

- Biochemistry, B.S. (p. 99)
- Bioinformatics, B.S.I. (p. 342)
- Biology (Biology of Global Health), B.S. (p. 90)
- Biology (Cell and Molecular Biology), B.S. (p. 88)
- Biology (Integrative Biology), B.S. (p. 89)
- Biology (Science Education), B.S. (p. 91)
- Biology - Secondary Major (p. 92)
- Chemistry (American Chemical Society Certified), B.S. (p. 96)
- Chemistry - Secondary Major (p. 98)
- Chemistry, B.A. (p. 96)
- Chemistry, B.S. (p. 97)
- Choral Music - Keyboard Concentration, B.M.E. (p. 451)
- Choral Music - Voice Concentration, B.M.E. (p. 450)
- Church Music - Instrumental Emphasis, B.M. (p. 447)
- Church Music - Keyboard Emphasis, B.M. (p. 447)
- Church Music - Voice Emphasis, B.M. (p. 446)
- Classics - Secondary Major (p. 105)
- Classics, B.A. (p. 105)
- Communication - Secondary Major (p. 112)
- Communication Specialist - Secondary Major (p. 113)
- Communication Specialist, B.A. (p. 113)
- Communication, B.A. (p. 110)
- Composition, B.M. (p. 448)
- Computer Science (B.S.C.S.) (p. 339)
- Computer Science Fellows, B.S.C. (p. 343)
- Computer Science, B.A. (p. 253)
- Data Science, B.S.I. (p. 343)

- Theatre Arts, B.A. (p. 247)
- Theatre Design and Technology, B.F.A. (p. 247)

- Theatre Performance, B.F.A. (p. 248)
- Theory, B.M. (p. 449)

## Minors

- Advertising Minor (p. 164)
- American Sign Language (ASL) Minor (p. 364)
- American Studies Minor (p. 166)
- Anthropology Minor (p. 71)
- Apparel Merchandising Minor (p. 395)
- Arabic Minor (p. 189)
- Archaeology Minor (p. 71)
- Art History Minor (p. 82)
- Asian Studies Minor (p. 194)
- Astronomy Minor (p. 211)
- Astrophysics Minor (p. 212)
- Aviation Science Minor (p. 63)
- BA/BS Biology - Secondary Education Concentration (p. 325)
- BA/BS History - Secondary Education Minor (p. 326)
- BA/BS Mathematics - Secondary Education Minor (p. 326)
- Biochemistry Minor (p. 100)
- Biology Minor (p. 93)
- Business Administration Minor (p. 300)
- Chemistry Minor (p. 98)
- Child and Family Studies Minor (p. 401)
- Chinese Minor (p. 189)
- Church Music Minor (p. 453)
- Civic Interfaith Studies Minor (p. 461)
- Classics Minor (p. 105)
- Computer Science Minor (p. 354)
- Computer Science Minor (<https://catalog.baylor.edu/undergraduate/college-arts-sciences/academic-departments/intrauniversity-programs/computer-science-minor/>)
- Corporate Communication Minor (p. 113)
- Creative Writing Minor (p. 122)
- Criminal Justice Minor (p. 221)
- Data Science Minor (p. 354)
- Earth Science Minor (p. 150)
- Economics Minor (p. 300)
- Educational Psychology Minor (p. 324)
- Engineering Minor (p. 353)
- English Minor (p. 122)
- Entrepreneurship Minor (p. 300)
- Environmental Studies Minor (p. 135)
- Film and Digital Media Minor (p. 139)
- Forensic Science Minor (p. 72)
- French Minor (p. 189)
- Geosciences Minor (p. 148)
- German Minor (p. 190)
- Gerontology Minor (p. 461)
- Greek and Roman Studies Minor (p. 108)
- Greek Minor (p. 106)

- Health Science Studies - Secondary Science Education Concentration (p. 326)
- History Minor (p. 157)
- Informal Education Minor (p. 325)
- International Studies Minor (p. 221)
- Intrauniversity Dance Minor (p. 381)
- Italian Minor (p. 190)
- Japanese Minor (p. 189)
- Latin American Studies Minor (p. 196)
- Latin Minor (p. 106)
- Leadership in Medicine Minor (p. 250)
- Leadership Studies Minor (p. 324)
- Legal Reasoning and Analysis Minor (p. 250)
- Linguistics Minor (p. 126)
- Mathematics Minor (p. 172)
- Media Management Minor (p. 139)
- Medical Humanities Minor (p. 174)
- Middle East Studies Minor (p. 196)
- Military Studies Minor (p. 158)
- Museum Studies Minor (p. 199)
- Music Minor (p. 453)
- News Editorial Minor (p. 164)
- Nutrition Sciences Minor (p. 406)
- Outdoor Education and Leadership Minor (p. 383)
- Philosophy Minor (p. 205)
- Photojournalism Minor (p. 164)
- Physics Minor (p. 210)
- Political Science Minor (p. 217)
- Poverty Studies and Social Justice Minor (p. 460)
- Public Relations Minor (p. 165)
- Recreation Ministry Minor (p. 257)
- Religion Minor (p. 235)
- Rhetoric and Public Discourse Minor (p. 114)
- Russian Minor (p. 191)
- Sociology Minor (p. 238)
- Spanish Minor (p. 191)
- Statistics Minor (p. 242)
- Studio Art Minor (p. 81)
- Theatre Design and Technology Minor (p. 249)
- Women's and Gender Studies Minor (p. 252)
- World Affairs Minor (p. 198)

## Joint Degrees

- BSPH/MPH in Community Health Education Joint Degree (p. 409)
- Joint Bachelor and Master of Arts in Teaching (p. 314)
- Joint Bachelor of Arts in American Studies/Master of Arts in Museum Studies (p. 166)
- Joint Bachelor of Arts in Anthropology and Master of Arts in Museum Studies (p. 69)
- Joint Bachelor of Arts in History/Master of Arts in Museum Studies (p. 157)
- Joint Bachelor of Arts in Journalism/Master of Arts in Museum Studies (p. 164)

- Joint Bachelor of Arts in Mathematics/Master of Arts in Teaching (with Teacher Certification) (p. 170)
- Joint Bachelor of Arts in Religion/Master of Arts in Teaching (with Teacher Certification) (p. 235)
- Joint Bachelor of Arts With Master of Arts in Museum Studies (p. 82)
- Joint Bachelor of Arts/Master of Arts in Classics (p. 105)
- Joint Bachelor of Arts/Master of Arts in Communication (p. 113)
- Joint Bachelor of Arts/Master of Arts in Museum Studies (p. 200)
- Joint Bachelor of Arts/Master of Arts in Teaching (with Teacher Certification) (p. 82)
- Joint Bachelor of Arts/Master of Arts in Teaching (with Teacher Certification) (p. 100)
- Joint Bachelor of Arts/Master of Arts in Teaching (with Teacher Certification) (p. 123)
- Joint Bachelor of Arts/Master of Arts in Teaching (with Teacher Certification) (p. 133)
- Joint Bachelor of Arts/Master of Arts in Teaching (with Teacher Certification) (p. 157)
- Joint Bachelor of Fine Arts/Master of Arts in Teaching (with Teacher Certification) (p. 82)
- Joint Bachelor of Science in Applied Mathematics/Master of Arts in Teaching (with Teacher Certification) (p. 172)
- Joint Bachelor of Science/Master of Arts in Teaching (with Teacher Certification) (p. 93)
- Joint Bachelor of Science/Master of Arts in Teaching (with Teacher Certification) (p. 100)
- Joint Bachelor of Science/Master of Arts in Teaching (with Teacher Certification) (p. 135)

## Certificates

- Bioethics Certificate (p. 249)
- Business Analytics Certificate (p. 300)
- Christian Ministry Certificate (p. 460)
- Energy Commerce Certificate (p. 301)
- English as a Second Language Supplemental Certificate (p. 314)
- Gifted and Talented Supplemental Certificate (p. 314)
- Spanish for Healthcare Professions Certificate (p. 192)

## Concentrations

- Anthropology (Archaeology), B.A. (p. 68)
- Anthropology (Environmental Anthropology), B.A. (p. 68)
- Anthropology (Forensic Anthropology), B.S. (p. 69)
- Anthropology (General Anthropology), B.A. (p. 67)
- Anthropology (General Anthropology), B.S. (p. 69)
- Anthropology (Health), B.S. (p. 70)
- Aviation Sciences (Aircraft Dispatch), B.S.A. (p. 61)
- Aviation Sciences (Professional Pilot - Airplane), B.S.A. (p. 62)
- Aviation Sciences (Professional Pilot - Helicopter), B.S.A. (p. 62)
- Child Development Concentration (p. 395)
- Child Life Concentration (p. 397)
- Environmental Studies (Double Major Concentration), B.A. (p. 133)
- Environmental Studies (Environment and Society Concentration), B.A. (p. 132)

- Environmental Studies (Natural Resources Management Concentration), B.A. (p. 132)
- Family Life Education Concentration (p. 398)
- Food Management Concentration (p. 403)
- Journalism (Advertising Concentration), B.A. (p. 163)
- Journalism (News Editorial Concentration), B.A. (p. 163)
- Journalism (Photojournalism Concentration), B.A. (p. 163)
- Journalism (Public Relations Concentration), B.A. (p. 163)
- Philosophy (Departmental Honors Concentration), B.A. (p. 204)
- Philosophy (General Philosophy Concentration), B.A. (p. 204)
- Philosophy (Philosophy and Medicine Concentration), B.A. (p. 204)
- Philosophy (Pre-Law Concentration), B.A. (p. 204)
- Pre-Dietetics Concentration (p. 404)
- Pre-Health Concentration (p. 405)
- Pre-Occupational Therapy Concentration (p. 400)
- Statistics (Sports Analytics), B.S. (p. 241)
- Theatre Performance (General Concentration), B.F.A. (p. 248)
- Theatre Performance (Musical Theatre Concentration), B.F.A. (p. 248)
